Steven Reffit — Jun 22, 2026
Subject: My view on Rule S7-2026-15 From: Steven Reffit Affiliation: Jun. 22, 2026 To the Securities and Exchange Commission:
Quarterly reporting is critical for retail investors. Semi-annual reporting may benefit larger institutional investors that have greater access to information and resources, but it would reduce transparency for individual investors. Eliminating quarterly reporting requirements would limit the timely disclosure of financial performance, making it more difficult for retail investors to make informed decisions.
Maintaining quarterly reporting promotes transparency, accountability, and confidence in our capital markets. Reducing the frequency of reporting could create an uneven playing field and ultimately be detrimental to investors and the broader economy. I strongly recommend retaining the current quarterly reporting requirements.

Susan Bastien — Jun 22, 2026
Subject: My view on Rule S7-2026-15 From: Susan Bastien Affiliation: Jun. 22, 2026 To the Securities and Exchange Commission:
Quarterly reporting is one of the most important tools for investors. A lot can go wrong in half a year. Quarterly filing keeps it transparent.
Transparency is the foundation of a fair stock market. Investors losing their money is often caused by gaps in financial disclosure.
Without quarterly reporting investors are not able to make informed decisions. This rewards insiders with an upper hand, having access to information that retail investors do not. It is no longer a level playing field.
I am a retail investor and I rely on quarterly reporting to make informed decisions about my investments and retirement savings.
please do not allow companies to hide vital information by ending quarterly reporting requirements.

Susan Batton — Jun 22, 2026
Subject: Keep Investments Information Above Board From: Susan Batton Affiliation: Jun. 22, 2026 Susan Holt Batton Office Manager

What benefit is gained from limiting pertinent information?
Companies make more than enough money to continue to provide quarterly reports that are and should be free of charge to shareholders. Any changes (aside from more frequent reporting) indicates the need for secrecy to act unethically to benefit the elite few insiders. It would be a grave

disservice to investors who should remove all invested funds from any company that enacts this plan. Your stated goal is to serve your shareholders and the willingness to overtly limit the information that drives the investments is short-sighted and unethical. I assure you that I will rapidly divest myself of any investment(s) where secrecy overrides factual information for decision making.

Susan Betz — Jun 22, 2026

Susan Melvin — Jun 22, 2026
Subject: S7-2026-15 Comments From: Susan Melvin Affiliation: Jun. 22, 2026 Susan Melvin, former paralegal, now retired

Quarterly reporting is important to me because 6 months is too long in between financial reports. Quarterly reporting incentivizes corporations to be judicious in keeping their accounting up to date, and to be audit ready at all times. Consumers and citizens were already burned badly by infrequent reporting. There is no valid reason to change to six-month reporting vs. the current quarterly reporting.

Susie James — Jun 22, 2026
Subject: S7-2026-15 Comment From: Susie James Affiliation: Jun. 22, 2026 I am a retired CPA that used to work in the corporate world. I think it would be wise to maintain this requirement - waiting half a year in this day and age of constant change is not logical. There are tons of tools and software out there that make quarterly reporting less of a burden.

Also, for the larger companies, it would require more auditing at the end of the year. Quarterly reporting does have an effect on the volume of testing done by external auditors at year end.

Sincerely,

Deborah S. James

Suzanne Garrison — Jun 22, 2026
Subject: S7-2026-15 Comment From: Suzanne Garrison Affiliation: Jun. 22, 2026 I was a corporate paralegal for 26 years. I remember when and why the Sarbanes-Oxley Act was passed. Letting publicly traded companies report fewer times will take us right back to the days of Enron & Tyco. Less transparency will only give these companies more opportunities to cheat & mislead the public. At a time when paychecks for C level officers allow them to live high in the hog while their employees struggle to make ends meet, the public demands & is owed more transparency, not less. This proposed rule change will only damage the fiduciary trust companies are obligated to give their shareholders.

Regards,

Suzanne Garrison

SYLVA BAKER — Jun 22, 2026
Subject: Proposed Rule S7-2026-15 Amendments to Permit Semiannual Reporting on New Form 10-S in Lieu of Quarterly Form 10.Q From: SYLVA BAKER Affiliation: Jun. 22, 2026 Dear Secretary: As members of a retail investment club based in Media, Pennsylvania, Profit Partners Investment Club, we study stocks to make investments every other month. We submit this comment in opposition to Proposed Rule S7-2026-15. We find the proposed rule to change the required quarterly reporting to optional quarterly reporting and semiannual reports has many disadvantages for the small, retail investor like us. Information about financial data is essential for making intelligent investment choices and any curtailment puts the small investor at a disadvantage.
Our Concerns
1. The 10-Q form gives timely and standard presentation of financial statistics, management discussion, analysis and forward statements, and updates risk factors and any litigation.
2. The longer period (6 months) between reporting, "dark period" cuts down on transparency. Changes in company policy or sudden events will be known to executives and corporate insiders long before becoming known to the public.
3. An asymmetry between those companies that may continue to report quarterly on the 10-Q form and those that opt for the 10-S makes it difficult to compare companies in the same sector.
4. Studies by the European Union and United Kingdom of semiannual reporting describe greater volatility of share price. Such volatility is a disadvantage for the small investor who usually lacks hedging tools to respond to volatility.
5. Analysts often rely on quarterly data to maintain models and publish research. Less frequent

reporting could reduce coverage, especially of small cap companies.
6. The proposal creates the risk of giving larger institutional investors an information advantage over the small investor. Large investors are likely to have the resources to obtain interim insights through private channels like talking to suppliers and retailers while small investors have to rely more heavily on public filings.
Conclusion
Timely, standardized and publicly accessible financial information is the foundation of fair and efficient capital markets. In essence, the proposed rule, S7-2026-14, undermines the Americal ideal of a level playing field.

Tamara Springer — Jun 22, 2026
Subject: S7-2026-15 Comment From: Tamara Springer Affiliation: Jun. 22, 2026 It is very telling that these changes are happening during the current administration. Public trust is at an all time low and there are more conversations about withholding tax payments because the average person does not feel represented. Any changes at this time will further push public distrust and the county can not continue without the contributions of the everyday American.

We need more frequent reporting not less! Do not allow corporations to gamble with our money

Sincerely,
A frustrated American

Tammera Jarvie — Jun 22, 2026
Subject: S7-2026-15 Comment From: Tammera Jarvie Affiliation: Jun. 22, 2026 I'm totally against any business not doing there quarterly books and being transparent to the public. By not doing the books and being transparent every three months that opens things up for more theft and fraud to happen. Let's them liquidate and hide things leaving the public holding the beg. Why should the public be responsible for paying and cleaning up after companies because of mis management and theft. A lot of fraud and theft and hiding assets, it's not ok. The common people, when they do things like this they get punished and penalized to the fullest extent, and companies need to be held to the same standard. People are already in Washington being taxed and priced out of their own homes. Can't afford the keep there homes warm and lights on. Food is so astronomical that families are not eating as they should.

Leaving families moving from Washington to be able to afford to live and survive.

Terry Reddick — Jun 22, 2026
Subject: S7-2026-15 From: Terry Reddick Affiliation: Jun. 22, 2026 Y name is Terry Francis Reddick of Trinity, North Carolina
My wife, Janice Thompson Reddick together have investment portfolios amounting to a couple of hundred thousand dollars. I moist say I count on a deliberate accounting of all our investments. That dependability is more than ever critical as the increasing amount of fraud, theft and embezzlement are begining to surface at least weekly and the numbers related to such discoveries is astounding to us. The integrity of any business can only be assured by sound accounting and when necessary, third party examination of financial reports.
Word of an SEC. "request" for reporting of profit/loss statements to be changed from 4 times yearly to only 2 times per year leaves way too much time for shoddy bookkeeping to be practiced and the potential for loss to every investor. I count on accurate statements every 3 months
is a critically important practice to me and certainlysmx other investors My wife and Iran a small business for nearly 35 years and made quarterly reports the basis for determining the financial health of the corporation.
I firmly believe that every publicly held corporation deserves a reckoning of the books at least 4 times per year.
Thank you very much for your attention to this matter.

Thais Carr — Jun 22, 2026
Subject: My view on Rule S7-2026-15 From: Thais Carr Affiliation: Jun. 22, 2026 To the Securities and Exchange Commission:
Any financial savings to investment institutions is very minimal compared to the amount of information provided to "regular" people investing. Twice yearly statements provides way too many opportunities for those companies who make poor decisions or those companies wish to camouflage sketchy dealings as long as possible.

The Honorable Debra Sasser Licensed Attorney, Retired Judge — Jun 22, 2026
Subject: File No. S7-2026-15 From: The Honorable Debra Sasser My view on Rule S7-2026-15: absolutely against it I have been a private investor for well over 40 years. I'm a former computer systems analyst, and I have been licensed as an attorney for over 30 years serving as a trial judge for 20 of those years. There is no logical explanation for why the SEC should consider ending the quarterly reporting by public companies. In fact, as a private investor I would prefer monthly reporting. That would not be a burden on public companies. It is 2026. It would be a simple modification to the companies reporting system and boom we'd have monthly reporting. Without up-to-date reporting by public companies, I will not be able to monitor and timely modify my portfolio and liquid savings thereby putting my retirement future at risk. I am retired so this isn't something

that I plan on doing in the future, I am doing it now. Once every six months is simply not frequent enough. The SEC should be proposing more frequent reports, not less. This would enable them (and investors) to ferret out fraud sooner. It would allow private investors to timely learn what companies have bad earnings, thereby providing investors with the timely information they need to manage their portfolios. Public companies are just that, public. Transparency matters in the stock market - or at least it used to. The SEC should guard the public trust, not strip it away. I am incensed that the SEC would make such a proposal. But I'm not surprised because this proposal would benefit companies at the expense of the tax paying individual. Let's try protecting those who are footing the bill for this country instead of exposing us to more grift and fraud.

Subject: My view on Rule S7-2026-15 From: Theresa Foy Affiliation: Jun. 22, 2026 To the Securities and Exchange Commission:
Theresa Foy, investor, Indiana
Quarterly reporting keeps public companies honest. Signing the company's book, CEO, CFO certify they have reviewed reports and it contains no untrue statements of a material fact. Four times a year they stake their freedom on the truth. Earning releases ride on Form 8-K as furnished, not filed. No outside auditor reviews them and certification is required. The 8-K may contain information but lacks any accountability. The SEC itself is asking the public for ideas on how to patch the 8-K gap, admitting the replacement is weaker, so the answer is withdrawal, not a patch. Sarbanes-Oxley is not a suggestion! These safeguards were written after Enron for a reason. Can the SEC explain what has changed?

Theresa Matthews — Jun 22, 2026
Subject: S7-2026-15 Comments From: Theresa Matthews Affiliation: Jun. 22, 2026 Less transparency means more FRAUD. More Fraud in not needed in this Country. Theresa Matthews, Retired.

Thomas King — Jun 22, 2026
Subject: My view on Rule S7-2026-15 From: Thomas King Affiliation: Jun. 22, 2026 To the Securities and Exchange Commission:
Do not change quarterly reporting! This country is built on fairness and equality (or at least the facade of it) so don't make this easier for corporations to deceive their investors and the public! I can't think of a single good reason less reporting on their behalf would be beneficial! If you could kindly list me the pro's of making such a decision I'd gladly listen, but in doing so please listen to me and the millions of others requesting reporting stay quarterly or even be more frequent!

Thomas Langmaack — Jun 22, 2026
Subject: S7-2026-15 Comments From: Thomas Langmaack Affiliation: Jun. 22, 2026 I am a retired teacher. I work part time and continue to save and invest. The information that comes out quarterly is essential to my investing and continued financial wellbeing. Keep the quarterly reports.

Tyler — Jun 22, 2026
Subject: S7-2026-15 Comments From: Tyler Affiliation: Jun. 22, 2026 Dear Chairman Atkins,
My name is Tyler Nolen and I work at a financial institution in the information technology field. I am writing to express my strong opposition to any proposal that moves public company financial reporting from a quarterly schedule to a semiannual one. Reducing the frequency of these disclosures harms everyday investors and weakens our financial markets.Shifting to twice-a-year reporting hurts investors in four major ways:

- Investors will fly blind for six months. Half a year is a long time for a business. Companies can face failed product launches, rising debt, lawsuits, or lost customers. Current quarterly laws force

companies to share this data quickly. A semiannual rule lets companies hide bad news for six months. This gives insiders a long window to sell their shares before regular investors learn the truth.

- Fraud will have more time to grow. History shows that corporate scandals like Enron and WorldCom thrive when financial data is hidden. Quarterly filings do not stop all fraud, but they shorten the time it can hide. Cutting filings in half gives bad actors more time to cook the books before anyone notices.

- Semiannual reporting will become the inevitable standard. The rule may look optional at first, but it will not stay that way. Once large firms switch to twice-a-year filings, smaller rivals will feel pressured to follow. They will not want to spend more on compliance than the market leaders. Soon, less information will become the new normal for every company.

- The savings are tiny and do not benefit the public. Firms must still track their books and update their boards every month. Skipping two public filings only saves a small amount in legal and accounting fees. These savings stay with corporate executives. Meanwhile, regular people saving for retirement or college bear the heavy cost of worse information.

The SEC exists to protect investors and maintain fair markets. Less transparency does the opposite. I urge the Commission to maintain the current quarterly reporting system to keep our markets honest and safe.

Thank you for your time and consideration of this important matter.

Tyler Nolen

Tyreck James — Jun 22, 2026
Subject: S7-2026-15 Comments From: Tyreck James Affiliation: Jun. 22, 2026 I support keeping quarterly reporting because it protects everyday investors like me and keeps public companies accountable with timely updates. As a retail worker, student in AI/software engineering, and aspiring entrepreneur, I rely on clear information to make smarter decisions about money, careers, and long-term planning. Quarterly reports help close the gap between company insiders and ordinary people who are trying to build a future.

Tzler Durdan — Jun 22, 2026
Subject: S7-2026-15 Comment From: Tzler Durdan Affiliation: Jun. 22, 2026 You already let them get away with insider trading. Why don't you just make a rule that states: if you pay us 10% of your earnings we will let you do whatever the **** you want, legal or not.

Vicki Netzel — Jun 22, 2026
Subject: S7-2026-15 Comment From: Vicki Netzel Affiliation: Jun. 22, 2026 V. Netzel, concerned citizen. This is a nightmare! Where is the accountability? If they have nothing to hide then signing having to sign this quarterly should not be an issue. The lack of knowledge will hurt average Americans who are possibly investing in the market and usually towards their retirement. Why should my money not be as protected by having this transparency? The SEC already allowed a backdoor changing of rules to allow Elon Musk and his company to enter without following the rules that everyone else had to and reaching an obscene evaluation after losing $500B last year! This will affect everyone's money except these CEOs. DO NOT ALLOW THIS TO CHANGE-EVERYONE NEEDS TO SIGN QUARTERLY!!!

Vicki Roszka-Duggan — Jun 22, 2026

Subject: S7-2026-15 Comments From: Vicki Roszka-Duggan Affiliation: Jun. 22, 2026 Quarterly reporting prevents massive financial calamities when the bookkeeping falls off the tracks. With all of the fraud & abuse recently discovered in high places take a reality check & admit that more accountability is delivered 4 times a year rather than only twice. It's time to do the adulting behavior & stay accountable WITH QUARTERLY reporting

Vicki Roszka-Duggan

William Davis Chaplain/LCSW — Jun 22, 2026
Subject: File No. S7-2026-15 From: William Davis Government oversight exists for the sole purpose of ensuring the integrity of the public interests. Corruption will always thrive when given the opportunity to do so. Make no changes to the current disclosure system and focus on pursuing accountability against those already suspected of abusing the system.

William Dickler — Jun 22, 2026
Subject: My view on Rule S7-2026-15 From: William Dickler Affiliation: Jun. 22, 2026 To the Securities and Exchange Commission:
Rule S7-2026-15
Quarterly reporting keeps everybody honest, and makes insider trading more difficult.
The transparency of Quarterly reporting leads to better price discovery. Both the buyer and seller know they are getting a fair price.
Donald Trump stands for integrity and openness, and quarterly reporting supports Trump's sense of fair play.
Delays in reporting, such as with this rule change, will erode investor confidence and lead to lower stock prices as investors will be driven towards more transparent investments.
This rule change is bad for America and does not make America great.

William Fagan — Jun 22, 2026
Subject: S7-2026-15 Comments From: William Fagan Affiliation: Jun. 22, 2026 William F. Entrepreneur, Money Manager. There's nothing acceptable about trying to take yet another avenue to keep the retail investor in the dark about a publicly traded company's finances, or lack there of. We have the right to regularly scheduled reporting the same as any institution to make an informed decision when it comes to putting our financial future on the line. Playing more into the hands of lobbyists, cronyism, and corruption hurts EVERYONE in the short and especially long term, we must end this type of rhetoric here and now!

William Marshall — Jun 22, 2026
Subject: My view on Rule S7-2026-15 From: William Marshall Affiliation: Jun. 22, 2026 To the Securities and Exchange Commission:
I recently learned, much to my genuine surprise, that you are apparently considering the elimination of quarterly reporting for publically traded companies. I'm honestly not sure what may have led to such a consideration, but actually following thru with it would seem to be to be more than just a little careless, if not downright negligent. While it may be true that not every individual investor actually reads thru every report, however, for the simple fact of having to make such reports, it both simultaneously instills confidence, and adds one more layer of deterrent for potential corruption.
In fact, the only reasonable "benefit" I can honestly imagine from such a policy shift, would be for corporate executives, acting in bad faith, in allowing them to act dubiously. For the mere fact of the window of possibility opening a little wider, taken to scale, this inherently means that more fraudulent activity will inevitably occur. Such corruption had tendency to spread. As various parties manage to take more questionable actions, they will be unavoidably seen doing so by others, some of whom will themselves learn such actions can be undertaken without consequence. And, as such, questionable practices can easily build to more overt fraud, eventually leading to widespread corruption. While this may seem an extreme scenario, the elimination of quarterly reporting needlessly increases the risk of exactly that.
Worse still, even only isolated examples of this will undeniably undermine public confidence, which itself, damages the overal system of our markets. The most reasonable conclusion is clear. Keeping quarterly reporting requirements intact reduces the potential for fraud and helps to maintain public confidence with individual investments and our system as a whole. Both bolster the market and improve it for everyone, and there is simply no compelling reason for putting any of that at additional risk with unnecessary deregulation that substantively benefits no one, except for those whom such regulation is meant to keep in check.
In summation, it is far too important to protect both the consumer and our markets as a whole, to risk such a potentially careless change of policy, so I instead urge caution, and ask that you not remove quarterly reporting requirements. Thank you for your attention and consideration in this very important matter.

William Redman — Jun 22, 2026
Subject: S7-2026-15 Comment From: William Redman Affiliation: Jun. 22, 2026 Full disclosure on a quarterly basis is essential for informed investing and to keep businesses operating in honesty and transparency and responsibility.

Xueai Bai — Jun 22, 2026
Subject: My view on Rule S7-2026-15 From: Xueai Bai Affiliation: Jun. 22, 2026 To the Securities and Exchange Commission:
I am writing to provide my views on the Commission's proposed Rule S7-2026-15. I appreciate the SEC's ongoing efforts to strengthen market integrity, enhance transparency, and protect investors, and I believe this rule has meaningful implications for both market participants and the broader public.
My perspective is as follows:
1. Clarity and Implementation Practicality The rule would benefit from clearer guidance on how regulated entities are expected to operationalize the new requirements. Ambiguity in implementation often leads to inconsistent compliance, which can undermine the rule's intended effect. I encourage the Commission to provide detailed examples, timelines, and standardized expectations to ensure uniform adoption.
2. Cost and Burden Considerations While investor protection is essential, the Commission should carefully evaluate the operational and technological burdens the rule may impose, particularly on smaller firms. A phased or scaled approach could help mitigate disproportionate impacts while still achieving regulatory goals.
3. Data Transparency and Reporting If the rule introduces new reporting or disclosure obligations, I support measures that improve transparency without creating unnecessary redundancy. Streamlined reporting frameworks and alignment with existing requirements would reduce friction and improve data quality.

4. Investor Protection and Market Stability To the extent that the rule enhances investor confidence and reduces systemic risk, I support its objectives. However, the Commission should ensure that the rule's design does not unintentionally limit market access, reduce liquidity, or create barriers to competition.
Thank you for the opportunity to comment. I appreciate the Commission's work and encourage continued engagement with market participants as this rulemaking progresses.
Respectfully,

Xueai Bai

DVM 305.304.0439 Cynthia Sandhusen — Jun 21, 2026
Subject: S7-2026-15 From: DVM 305.304.0439 Cynthia Sandhusen Affiliation: Jun. 21, 2026 I believe in truth...and consequences!!! We need to return our GREAT country to its original ideals, the ones we were founded upon. We were founded as a Christian nation, based on Biblical concepts. Our founding documents were based on the principles found in the Bible. All states required a statement of Christian ✝ faith in order to run for public office.
The First Amendment states: Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof..."
The Establishment Clause: The government cannot establish an official state religion or favor one religion over another. It was referring to not allowing the establishment of a particular denomination being declared as a state's official denomination. They did not want it to be like England, which had established the Church of England as the official church in England. They wanted the freedom to choose whichever denomination to worship in as they felt led in their spirit.
We were founded on Biblical principles of honesty, truth, responsibility and ACCOUNTABILITY. God is a God, not only of love and mercy, but of JUSTICE. Our laws were based on these Christian principles. John Adams stated, "Our Constitution was made only for a moral and religious people. It

is wholly inadequate to the government of any other." It was NEVER INTENDED that the Christian principles be compromised, or we would RISK SEVERE CONSEQUENCES, the DOWNFALL OF OUR GREAT COUNTRY!
Although not all citizens are practicing Christians, the basis of our nation's principles are based on Biblical standards and MUST BE UPHELD in order to PRESERVE OUR COUNTRY'S HIGH ETHICS.
TRUTH, JUSTICE AND THE AMERICAN WAY may have been a cartoon hero concept, but this phrase makes a very important point! The USA needs to continue to function based on these concepts in order to maintain our nation's interests and INTEGRITY. The word INTEGRITY can function as both an adjective and a noun. And I intend both forms of speech apply to the word integrity here in this writing; both the quality of being honest, having strong moral principles, and consistently adhering to ethical standards. It originates from the Latin word integer, whuch just as in mathematics, means "whole" or "complete".
Someone with integrity acts in accordance with their values, or in this case must rise up to our country's elevated values, in order to keep within the law, even when no one is watching!!! Integrity has 3 Meanings
1) Moral Uprightness (Character)Having strong, unwavering moral and ethical principles. It means refusing to compromise our GREAT country's values, being honest in ALL dealings, and doing the right thing! Additionally, INTEGRITY means
2) Wholeness and Consistency (Alignment). The state of being complete and undivided. IN ORDER TO KEEP OUR COUNTRY INTACT AS A NATION we must be governed by high standards and principles! All individuals and companies must abide by these same standards. Words, beliefs, and actions perfectly align.
As a noun, 3) "structural integrity" of a building refers to stability and soundness. For the USA to remain stable we must strongly enforce the utmost standards of integrity in government and in business of any kind. Otherwise, we risk our nation falling apart. Chaos seems to be ruling in some aspects of our country, thinking especially of excesive amounts of fraud and insider trading. The standards of some people's character seems to be at all time low levels, if existent at all. Our government must thus STRICTLY ENFORCE expected high levels of integrity for personal standards, as well as ensure the integrity of the government and company's financial records. Otherwise the end result will potentially lead to the structural integrity of our Great nation faltering and (hopefully NOT) collapsing entirely.
With Sincere Concern,
Dr. Cynthia Sandhusen

DVM 305.304.0439 Cynthia Sandhusen — Jun 21, 2026
Subject: S7-2026-15 From: DVM 305.304.0439 Cynthia Sandhusen Affiliation: Jun. 21, 2026 I believe in truth...and consequences!!! We need to return our GREAT country to its original ideals, the ones we were founded upon. We were founded as a Christian nation, based on Biblical concepts. Our founding documents were based on the principles found in the Bible. All states required a statement of Christian ✝ faith in order to run for public office.
The First Amendment states: Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof..."
The Establishment Clause: The government cannot establish an official state religion or favor one religion over another. It was referring to not allowing the establishment of a particular denomination being declared as a state's official denomination. They did not want it to be like England, which had established the Church of England as the official church in England. They wanted the freedom to choose whichever denomination to worship in as they felt led in their spirit.
We were founded on Biblical principles of honesty, truth, responsibility and ACCOUNTABILITY. God is a God, not only of love and mercy, but of JUSTICE. Our laws were based on these Christian

principles. John Adams stated, "Our Constitution was made only for a moral and religious people. It is wholly inadequate to the government of any other." It was NEVER INTENDED that the Christian principles be compromised, or we would RISK SEVERE CONSEQUENCES, the DOWNFALL OF OUR GREAT COUNTRY!

Lydia, N Kullman — Jun 21, 2026
Subject: S7-2026-15 Comment From: Lydia, N Kullman Affiliation: Jun. 21, 2026 If the retail investor is not valued enough for quarterly sunshine checks, I will be less likely to gamble on unverified newer companies without a longer proven history of fiscal competency and trust. Less information leads to increased bad faith. Maybe the government bond market sees a benefit from less corporate competition. Maybe the AI revolution could help everyone report monthly to increase competence and historical trust. American companies would be forced to compete against lazier global companies' public disclosures. We are not China.

Sincerely,

Lydia Kullman, MS, MLS (ASCP) cm

Abigail Gallagher — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Abigail Gallagher Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Upon hearing that you are proposing six month reports instead of quarterly is extremely concerning for numerous reasons. One, it will encourage fraud and insider trading. Two, it discourages investors like me- everyday people. We may not be rich, we may not be dazzling wallets like billionaire corporations; but we are trying to build our futures too. By relaxing accountability, you are directly contributing to the next Depression, the next Enron, the next Madoff scheme, the next Galleon Group. The reason for your creation was to guard against fraud, insider trading, and market abuse; and yet here you are proposing measures that will encourage the propagation of it. It is your duty to the American people to be the watchdogs, to hold everyone accountable, be they rich, famous, affluent; or be they every day Americans like myself. Please reconsider your duty and actions.

AC — Jun 21, 2026
Subject: S7-2026-15 Comments From: AC Affiliation: Jun. 21, 2026 We want transparency in the companies we invest in. We are taking our money out of US index funds for our retirement funds and placing them in index funds and sovereign wealth funds of countries We can trust, sadly that is not the US under the current criminal enterprise. More people are going to move their money out of the US if you do not reverse coarse

The trend to allow the wealthy elite to do whatever they want is totally unacceptable. I am someone who has worked hard since I was 12 years old to be able to support myself and my family. It is not acceptable to continue to have this corruption in our society. If you allow this to happen, you are complicit and allowing corruption, and the continued division between the very wealthy and the not. You will be allowing us to have landlords and surfs the way we did millennia ago. This is absolutely not OK. For me to have to work hard and pay my taxes every quarter and other people getting away with it is unacceptable.

AJ — Jun 21, 2026
Subject: Comment on S7-2026-15 From: AJ Affiliation: Jun. 21, 2026 My name is Alex and I am a freelancer located in Salt Lake City, Utah. This issue is very disheartening because of the lack of oversight and controls these companies have gained in the last few years. Record profits and kickbacks to the c-suite executives should not lead to more leniency for companies who actively pursue any and every backdoor to avoid paying what they owe. Historically, less reporting has led to lower returns and more fraud. I am against the decision for less oversight of organizations that have proven time and time again that if given an inch, they will take a city. I am against the decision for removing the requirement of quarterly reporting and would question the financials of anyone in support of this change.

Al Hope — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Al Hope Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Personally I like to play it safe. And with interest rates falling flat for the past decade I have to get better at managing my retirement & current assets. Now you want to curb back on reports? Shame on you.
This isn't the same world my grand parents grew up in. And sadly we are back to where college doesn't always get you further. And to boot families working two jobs to make ends meet is becoming the norm. And now what, providing quarterly reports is too intensive? I want more not less. Because I have to school myself and make smarter financial decisions on trades just to keep my home through retirement. Do not come between me and publishing public company data

albert H — Jun 21, 2026
Subject: S7-2026-15 Comments From: albert H Affiliation: Jun. 21, 2026 the need for timely updated company disclosures depends on lots of things and can be needed a lot for one company but less for another. but unfortunately we need a single common rule for all, that moves to being good enough for the majority of situations, and avoids the most problems. Quarterly has & does make the most sense. Semi annual is good for some, but allows too much malfeasance

Alejandra Sinay — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Alejandra Sinay Affiliation: Jun. 21, 2026 Hello.

My name is Alejandra Sinay. I am a resident of Altadena, California, so life is currently already hard enough (ref. Eaton Wildfire). In addition, I am a single mother on a teacher's salary, hoping to retire in the next few years.

If my investment portfolios become a playground for SEC experimentation, I will not be able to enjoy a full retirement on my rightfully earned and carefully grown pension.

We Americans have been put through the wringer in the past few maga-tainted years and we don't need any more of this corrupt disadministration. Transparency is key. Keep the reporting QUARTERLY.

Alejandro Franzuela — Jun 21, 2026
Subject: S7-2026-15 Comment From: Alejandro Franzuela Affiliation: Jun. 21, 2026 Alejandro Franzuela
General Warehouse Worker

This matters to me because this affects everyone. Most especially, people who aren't insiders or have direct financial influence over a public company, aka regular folks. At least with quarterly reporting, we can keep companies more honest and accountable.

Alex — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Alex Affiliation: Jun. 21, 2026 My name is Alexander Miskell. I am a commercial pilot in Cleveland, OH. I am extremely concerned about the SEC's idea to only have companies report earnings twice a year, rather than quarterly.

History is the best indicator as to the success of something or, in this case the economic disaster. In 1955 when companies were only required to report twice a year, the stock market fell heavily for 15 years straight. Almost every American relies on a successful and reliable stock market for their retirement. If suddenly this market crashes, we will see the country enter into one of the worst economic positions our country has ever been in.

Please, reconsider this decision to eliminate quarterly reporting. Listen to the voices of the American people. Don't let corporate greed muffle our voices and cause extreme harm to our amazing country!

Alexander Miskell

Alex Cole — Jun 21, 2026
Subject: File No. S7-2026-15 From: Alex Cole Please keep the quarterly reporting requirement for public companies. Eliminating quarterly reports is a solution in search of a problem that will ultimately create a problem. It will reduce the visibility of the average American into a company's activities and results. This will advantage large Wall Street firms that can pay for fancy research services (channel checks, etc.). There's also little evidence that this works or saves companies money; that is why it was a total failure in the UK. It's also a myth that companies think short term. The best ones think long term and have been rewarded by the market accordingly. Please do not change Rule S7-2026-15 and keep the quarterly reporting requirement.

Alex Howell — Jun 21, 2026
Subject: S7-2026-15 From: Alex Howell Affiliation: Jun. 21, 2026 To whom it may concern:

My name is Margaret Howell. I am a registered Republican in Ohio and would like to share my thoughts on reduced quarterly reporting… ENRON!!! Have we forgotten what happened at Enron? Have we forgotten why we began requiring quarterly reporting.

Let me follow that up with two other prominent thoughts this brings to mind… COVID and screwworms. This administration (and Trump's first administration) seems to be unaware of history and why we spend money on preventative measures. They keep getting rid of preventative measures and we keep suffering the consequences.

Don’t do it again - don’t forget why Sarbanes-Oxley was passed. Don’t undo regulations that work to prevent fraud. We are well aware of Trump’s 34 felony counts of fraud and that he believes committing fraud is “smart”, not criminal. Just as we are well aware of the many fraudsters Trump has pardoned* - stealing away the restitution their victims so desperately needed. Please consider “we the people” instead of wealthy CEOs and CFOs when thinking about reducing regulations.

alison sirak — Jun 21, 2026
Subject: Comment on S7-2026-15 From: alison sirak Affiliation: Jun. 21, 2026 Alison Sirak I am in North Fort Myers, Florida. I work part-time at the movie theater. We need quarterly reporting so that the public does not have to fear for their life's earnings and their
savings. It's so hard to get along now, especially when no one offers pensions anymore. People are already struggling to make ends meet to lose a third or half of their net worth is unacceptable. This thinking of going back to the 1950s is kind of like where
everything is headed because of all the laws that are changing. If you don't want people on the streets worse than it is now. We can't house the unhoused. We can't feed the poor the children. We have so many unwanted births now because of the supreme Court.
People need to try and live and make a book without worrying about the SEC ruining our lives. Quarterly reporting is what we want and what we need. We will accept no less. Thank you for listening to my comment. I hope that it helps to sway your decision, but
again, we need quarterly reporting.

Yahoo Mail: Search, Organize, Conquer

Amanda Smith — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Amanda Smith Affiliation: Jun. 21, 2026 Dear Secretary,

I am writing to express my strong opposition to the SEC's proposal under File Number S7-2026-15, which would allow public companies to reduce their financial disclosures from quarterly to bi-annually. As an individual investor, I believe this change would actively harm the transparency, fairness, and overall health of the American financial markets.
The SEC previously experimented with semi-annual reporting between 1955 and 1970. That 15-year period proved that less transparency stifles market vitality; it correlated with stagnation in the Dow Jones Index, suppressed valuations, and lower returns for everyday investors. The Commission correctly corrected course in 1970, noting that "the trading markets should have the benefit of quarterly financial information" (Release No. 34-8683). Reversing this 56-year standard of transparency would be a severe step backward.
There are several critical reasons why reducing reporting frequency is a mistake:
1. Widening the Insider's Edge: A six-month blackout window heavily penalizes the public. Institutional insiders and corporate executives do not rely solely on public filings to gauge a company's health—ordinary retail investors do. Leaving the public in the dark for half a year directly increases informational asymmetry.
2. Sharper Market Shocks: When corporate performance or bad news is allowed to build for up to six months before a public disclosure, the resulting data drops will trigger much steeper surprises and sharper, more volatile sell-offs than the gradual course corrections allowed by quarterly updates.
3. Reduced Liquidity and Higher Cost of Capital: International data supports that quarterly markets trade at a premium. When European companies historically moved to semi-annual models, they saw their trading liquidity dry up. Decades of economic research consistently show that frequent, predictable reporting lowers a company's cost of capital and supports healthier market valuations.
4. The Myth of Short-Termism: Proponents often claim quarterly reporting forces corporate myopia (short-term thinking). However, the United States built the most robust, valuable stock market on Earth while adhering to a strict quarterly schedule. Prominent market figures, including Warren Buffett, have consistently favored maintaining quarterly hard figures while pushing back on short-term guidance forecasts—a crucial distinction the current proposal misses.
Accurate, timely information is the lifeblood of our financial ecosystem. Forcing everyday investors to operate with half the information would damage retail confidence and risk compressing market multiples, directly threatening the retirement and life savings of millions of Americans.

I urge the Commission to reject File No. S7-2026-15 and protect the quarterly transparency framework that has powered the U.S. markets for over half a century.

Thank you for your time and consideration of my comments.

Sincerely,
Amanda Smith, M.S.
Carlsbad, CA

Amber Bartlein — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Amber Bartlein Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Quartley reporting allows the average person to better watch the markets, make informed investing decisions, and keep my hard earned money in my pocket and at my discretion. Changing to mid year model, reverting back to a model from the 1950s, denies me ready access to information I need to make those informed decisions, and once again gives corporate insiders an advantage over everyday people. These practices have got you stop hurting the average American investor! Do not revert to twice a year reporting, and continue to maintain quarterly reporting as is.

Sincerely,
Amber Bartlein

Amber Egan — Jun 21, 2026

Amy Laskey — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Amy Laskey Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Lack of adequate reporting is not fair to any consumer regardless of status. Quarterly reporting allows a front facing view to financial markets. Without it how is there a guarantee of a healthy market?

Amy McCaffery — Jun 21, 2026
Subject: File No. S7-2026-15 From: Amy McCaffery I strongly object to any reduction in current reporting requirements. Investors are due full AND TIMELY accountability from corporations. The current requirements are effective guardrails that help protect everyone, including hard working Americans like me who show trust in these corporations by investing our hard earned dollars to help them succeed. Do not lose sight of the importance of the small investors. In return for my money, I expect accountability, transparency, best practices and full compliance with the laws and regulations. The proposed rule change does not help assure compliance. For these reasons I strongly object to reducing reporting requirements.

Amy Panzer — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Amy Panzer Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
We demand quarterly reporting so that we're better able to determine what corporations are doing and how our money is best invested.

Amy Schwantes — Jun 21, 2026
Subject: S7-2026-15 Comments From: Amy Schwantes Affiliation: Jun. 21, 2026 Investors and company decision makers deserve good timely information to make informed decisions about their investments. DO NOT MAKE THIS CHANGE!

Amy Speight — Jun 21, 2026
Subject: S7-2026-15 Comment From: Amy Speight Affiliation: Jun. 21, 2026 I think a formal probe into the people behind this proposal would be quite telling. The only reason to do away with quarterly reports is to make it easier to hide wrongdoings that hurt everyday investors. Please don't break these guardrails that Enron execs showed us were necessary.

Amy Welch — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Amy Welch Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Absolutely no on this! No to corporations getting away with more corruptions.

Amy Young-Buckler — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Amy Young-Buckler Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
The proposal to only have companies report to shareholders and stakeholders every six months is a terrible idea. In order to properly manage our investments, we need detailed reporting quarterly. To make better decisions, we actually need MORE reporting, not less!
Amy Young-Buckler

Amy.K.Jennings — Jun 21, 2026
Subject: S7-2026-15 Comment From: Amy.K.Jennings Affiliation: Jun. 21, 2026 Stop the hiding of fraud, this would only allow more fraud!

Ana Goldwich — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Ana Goldwich Affiliation: Jun. 21, 2026 Leave the reporting alone! American retirees can't afford to lose more money! Ana, paralegal from Florida. Close to retirement.

Ana Hallstrom — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Ana Hallstrom Affiliation: Jun. 21, 2026 Subject: Input on Quarterly Reporting Requirement Dear [Recipient's Name], I appreciate the opportunity to share my perspective on the matter. My name is Ana Mansfield-Hallstrom, and I have a background as a former Manager at Microsoft and schoolteacher, now retired. In my opinion, I believe that the SEC should maintain the practice of quarterly reporting. Having access to more comprehensive information enables us to make well-informed decisions. If the financial markets expect continuous investor engagement, providing quarterly reports and guidance facilitates smoother decision-making

processes for individual investors. Therefore, I see value in retaining the current reporting frequency rather than reverting to the 1955 rule. Thank you for considering my input. Best regards, Ana Mansfield-Hallstrom

Andie Rathbone — Jun 21, 2026
Subject: S7-2026-15 From: Andie Rathbone Affiliation: Jun. 21, 2026 Enough of these giveaways to big business. I remember how the executives of Enron ruined the lives of thousands of people while they walked away with millions.

Here’s what’s wrong with your proposal
1) certified filings would fall from four a year to two, and you rely on that executive sign-off, (2) 8-Ks and press releases carry no certification and no auditor review, so they can't substitute, (3) the SEC itself asks how to patch the 8-K gap, which is the agency admitting the replacement is weaker, so the answer is withdrawal, not a patch, and (4) these safeguards were written after Enron for a reason, and the SEC should explain what has changed.

Start policing corporations instead of enabling corruption.

Andrew Conner — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Andrew Conner Affiliation: Jun. 21, 2026 To the

Securities and Exchange Commission:
As a retail investor, ruling in favor of this jeopardizes the profitability of investing for the little guy (me and many others). It almost incentivizes insider trading, as well as conversations behind closed doors. When this happens the market becomes moreso unfair and unstable than it already is. Companies and private equity are catered to enough in the market, and this ruling caters to them even more. When information is hidden from retaioinvestors it not only closes doors for the little guy, but also makes it harder for him to not eat the loses big business should have taken, but did not. "Insider trading," is looked at as if it does not happen but we all know it does, and ruling this way will just perpetuate a problem that has yet to be addressed and resolved. Also, in this economy the only way to keep up with consumer inflation is by investing- rising energy, housing, and food costs are what is dragging the already non existent middle class down and fueling the K-shaped economy. The only way to keep up, with general inflation being 3% but consumer inflation being 9%, is by investing. How is one supposed to keep up with whales in the market, that close a play earlier than i would have due to insider information, thus swinging the price point evermore in their direction? I am tired of paying for big business's extortion on prices, and paying more in taxes so that they do not- please do not make me have to compensate on the market as well. It is unnecessary, unfair, and in need of a deep check. Remove Citizens United to remove their influence on our government, and a ruling like this would never have made it to this point. It is disgraceful it has. It honestly feels as if things are passed or presented to see if people oppose it or not, and if a majority of people stay silent you feel it is ok, when it is not. Please rule in favor of the people, of the middle class, of the ones who built this country- and not in favor of the ones who pretend to run the building. You guys represent citizens before companies, please rule like it.

Andrew Eibl — Jun 21, 2026
Subject: S7-2026-15 From: Andrew Eibl Affiliation: Jun. 21, 2026 Andrew Eibl, SSA, Arizona. This matters to me since my retirement is connected to the financial management of these companies.

Andrew Roder — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Andrew Roder Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission: do better. It's bananas that you guys would allow publicly traded companies to not report what's going on within them. By heading vital information from the consumer investor, you leave all of the power with the Insiders.
taking actual stand and helped consumer traders.
Don't be the bootlickers that this administration is made of.

Andrew Tarnas-Raskin — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Andrew Tarnas-Raskin Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Reducing reporting would be a distinct detriment to individual investors like myself and a growing population of young Americans. Please work on behalf of the next generation of Americans.

Consider taking proposals on improving existing reporting at the current frequency rather than reducing public company accountability and visibility.
Or better yet, work toward live, persistent reporting. The people own a part of these companies, they should have visibility into them.

Andrew Williams — Jun 21, 2026
Subject: S7-2026-15 Comment From: Andrew Williams Affiliation: Jun. 21, 2026 I want and need to keep the reports QUARTERLY and am 100% aware of the benefits of this process. I am a small business owner in the retirement age bracket and need to be aware of how my investments are doing more often than semi-annually. Thank you

Anita Bischoff — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Anita Bischoff Affiliation: Jun. 21, 2026 To the Esteemed Members of the Commission,

We are writing to respectfully and urgently advocate for the unwavering continuation of quarterly reporting requirements. This established standard of transparency is not merely a procedural detail, but a fundamental pillar of investor protection, profoundly impacting millions of Americans, particularly those nearing or currently in retirement who depend on sound financial oversight for their future security.

The consistent provision of quarterly financial data offers invaluable insights, empowering individual investors to make informed decisions and fostering trust in our capital markets. Any reduction in this reporting cadence would create an information vacuum, exposing ordinary citizens to heightened risks of market volatility, speculative practices, and potential corporate mismanagement. This would undeniably shortchange those who have diligently saved and invested, relying on the robust regulatory framework to safeguard their hard-earned assets.

History unequivocally demonstrates the critical importance of frequent disclosures. Quarterly reporting has served as a cornerstone of market integrity for decades, its value proven repeatedly since its widespread implementation. To roll back these protections would be a regressive step, undermining a proven mechanism that has effectively fostered accountability and stability. We firmly believe that such a move would contradict the very mandate of the Commission to protect investors and maintain fair, orderly, and efficient markets.

We implore you to uphold this vital safeguard, prioritizing the long-term financial well-being and confidence of American investors.

Sincerely,

Anita and Roberto Renzetti

Ann Moser — Jun 21, 2026
Subject: S7-2026-15 Comment From: Ann Moser Affiliation: Jun. 21, 2026 Ann Moser here. A retiree who's income is dependent on transparency & TRUTHFUL information being available for my investments. As a Houstonian, several friends of mine lost EVERYTHING, job, home, retirement savings, because they worked for Enron.

Keeping quarterly reporting is necessary. In fact, transparency would be better if reporting was required monthly or bi-monthly.

Increasing it to 6months will encourage fraud & secrecy, leading to scams that steal from investors. That will lead to people pulling their $$ out of the stock market. More needs to be done to promote transparency, not reduce it.
Sincerely, Ann Moser

ann r — Jun 21, 2026
Subject: STOP the change in reporting! From: ann r Affiliation: Jun. 21, 2026 I am completely against the annual reporting. Leave it as quarterly reporting. We are a family of blue collar workers who have saved money in the stock market and this will be unfairly biasedr to increase nsider trading while making it less transparent for the rest of us. Please don't go through with this change.

Thank you for your consideration in this matter.
I hope you do the right thing.

Ann R

Ann S — Jun 21, 2026
Subject: S7-2026-15 Comments From: Ann S Affiliation: Jun. 21, 2026 It is crucial to keep quarterly earnings public. It's a reflection of how the economy is going and allows us common folks to better understand the economic market. For instance, here in California gas prices are currently over $6 per gallon for the cheapest gas. So I have been waiting to see what the quarterly earnings are for major gas companies since I struggle to put gas in my car and my car' gas tank is literally on E., I already know that gas companies and making billions per quarter. Keep it transparent
Anne salvatori

Ann Sweeney — Jun 21, 2026
Subject: S7-2026-15 Comment From: Ann Sweeney Affiliation: Jun. 21, 2026 With all the publicity surrounding transparency and the corruption happening behind closed doors, you are headed in the wrong direction. The ordinary investor is already the victim of insiders. By eliminating quarterly reporting, we will left at an even greater disadvantage. Keep it Quarterly!

Ann Zimmerman — Jun 21, 2026
Subject: S7-2026-15 Comment From: Ann Zimmerman Affiliation: Jun. 21, 2026 (1) Please keep information quarterly to allow informed decisions about retirement investments available to me on a timely basis, (2) longer gaps create an unfair advantage for corporate insiders, (3) "optional" doesn't fix the problem because companies that opt in are often the ones whose investors most need frequent updates, (4) the savings to companies aren't worth the cost to me. (5) we need more disclosure from public companies, not less and less often.
Ann Zimmerman

Ann-Louise Truschel — Jun 21, 2026
Subject: S7-2026-15 From: Ann-Louise Truschel Affiliation: Jun. 21, 2026 Remember Enron??? The Enron scandal was an accounting scandal sparked by American energy company Enron

Corporation filing for bankruptcy after news of widespread internal fraud became public in October 2001, which led to the dissolution of its accounting firm, Arthur Andersen, previously one of the five largest in the world.
The Enron scandal cost investors an estimated $70 billion to $74 billion in lost market capitalization, retirement benefits, and stock value. At its peak, Enron's shares were priced around $90, but the price plummeted to roughly $0.26 by the time the company filed for bankruptcy in late 2001.
The SEC failed to detect Enron’s problems in a timely manner primarily due to a lack of formal regulatory reviews, an over-reliance on external gatekeepers, and the overwhelming complexity of Enron's financial schemes.
The specific reasons for this regulatory failure include:Lack of Review: The SEC did not formally review Enron’s financial statements for several years prior to its collapse, in part because the agency's selective review process prioritized companies with sudden, public drops in fortunes rather than those consistently reporting high growth.
Complex Deceptions: Enron executives hid billions in debt using highly sophisticated off-balance-sheet Special Purpose Entities (SPEs) and the misuse of "mark-to-market" accounting, which made their financial statements incredibly difficult to parse.
Delegation to "Watchdogs": The SEC heavily relied on external entities like Wall Street analysts, credit rating agencies, and Enron's auditor, Arthur Andersen, to verify the company's financial health. All of these private-sector gatekeepers failed to flag—or actively enabled—the fraudulent practices.
Regulatory Exemptions: The SEC granted Enron certain exemptions from federal utility holding company regulations, which gave the company the leeway to engage in opaque affiliate transactions without immediate federal oversight.
The SEC allowed this deception to happen.
I am an investor in the stock market, and I want my investment money to be protected.
DO YOUR JOB.
REQUIRE QUARTERLY REPORTING.
READ THOSE QUARTERLY REPORTS and TAKE ACTION WHEN NECESSARY!
Don't be responsible for another ENRON!

Anna Jenkins — Jun 21, 2026

Subject: Comment on S7-2026-15 From: Anna Jenkins Affiliation: Jun. 21, 2026 In this day and age disclosure is highly important because we have had entirely too many cover-ups of information that the public needs to know about. Not only in investments and money situations but in medical information being passed to the public that other countries have known about for years we do not need to be going backwards and that is the bottom line as far as America is concerned we have already lost faith in so many issues in this country and the very idea that someone wants to go backwards is already proof that we need to be wary of what is happening in America.

Anna Maki — Jun 21, 2026
Subject: S7-2026-15 Comments From: Anna Maki Affiliation: Jun. 21, 2026 Anna Maki
Director Program Services
Bobby Dodd Institute
I work st a nonprofit where we value transparency in all of our operations. Accountability matters. Quarterly reporting provides an opportunity to course correct and take action as necessary, these proposed changes create greater loot for fraud and mismanagement to go unnoticed. This is unacceptable for ethical business operations.

Anne Grady — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Anne Grady Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Well-regulated markets have expedited capital flow into US companies, generating prosperity and economic health. Any action that reduces visibility of public company operating results threatens the owners of publicly-traded companies, especially individuals who may lack sophisticated analytical tools. This proposed rule change hides results from investors and cloaks company performance. We need the quarterly reporting that keeps company performance disclosed in a timely manner to investors. Too much can change in 6 months that can materially change the financial profile and viability of a company. Reducing the frequency of financial reporting would blind retail level investors. Why open up opportunities for company shenanigans to go undisclosed? Unless you're deliberately creating a dysfunctional investing environment that favors large, institutional investors. This could also increase reliance on insider information, which is far less accessible to investors at large and a breeding ground for fraud. Why make the investing club more exclusive and potentially volatile and riddled with illegal activity? This proposed SEC ruling is a terrible idea!

ANNE GRIMES — Jun 21, 2026

Thank you, Anne

Anne Scharff — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Anne Scharff Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
The market needs clarity, accuracy and stability for investors to be able to make the right decisions for their investments. We earned our money so companies and CEOs should earn theirs by running their companies as they choose but being forced to tell the truth about their operations.

I hope the American people can depend on you to honor the true American way - work hard and earn your money the right way.

Anne Sullivan — Jun 21, 2026
Subject: File No. S7-2026-15 From: Anne Sullivan I am writing in opposition to the proposal to permit publicly traded companies to eliminate quarterly filing. While it is true that Form 8-K, Regulation FD, and our current environment often make financial information about publicly traded companies available on a very timely basis, that information is only available for each and every publicly held company in audited form under uniform principles on a regular, quarterly basis because of the rules of the SEC. It is axiomatic that the richest, most stable stock markets are those that have access to the most information about their issuers. Permitting companies to provide only two standardized audited reports a year could rob our markets – exchanges and most importantly over the counter markets – of the kind of reliable information upon which investors rely to make responsible decisions. I fear that if you adopt this rule, it will eventually cause investors to turn to the markets of other countries with more dependable information requirements, which could ultimately undermine the primacy of our markets. Losing that position would be devastating for our economy.

Anne Tabacco — Jun 21, 2026
Subject: S7-2026-15 Comments From: Anne Tabacco Affiliation: Jun. 21, 2026 As a retired teacher I rely on quarterly reports to make decisions about my retirement savings. Moving to reporting twice a year is much too risky to be worth the slight conveniences corporations would enjoy. The SEC must protect investors. Protect the people.

Subject: S7-2026-15 Comment From: Anonymous Affiliation: Jun. 21, 2026 I’m already working harder for what little I have. The idea that someone above can suddenly choose to do even less to help me keep track of how things are going is a great way to let people with power take just about everything most Americans have left. But hey, I don’t expect anything from this, things will go against the people as they have been for years regardless of party in charge! We’re the meat for the grinder!

Subject: S7-2026-15 Comment From: Anonymous Affiliation: Jun. 21, 2026 As a retired person I rely on quarterly reporting to help manage funds I need to maintain for the rest of my life. We all know the state of Social Security and that it alone is insufficient
and cannot be relied on! I do not feel that reporting should be changed from quarterly to semi-annually. This reporting is something that all investors rely on. Changing reporting to semi-annually gives more opportunity for corporate insiders to have an unfair
advantage over other investors both in buying stocks and in selling stocks of companies that are having major problems. This would only leave average investors like me holding the bag while corporate insiders make out like bandits! The amount of money companies
spend filing quarterly rather than semi-annually is minimal compared to the amount of irreparable damage this change would cause to investors. As companies that sell their stock to the public, filing quarterly is the very least they can do! Charlene Mattson,
Retired, Missouri

Subject: S7-2026-15 From: Anonymous Affiliation: Jun. 21, 2026 Hello,
I am not quite sure why this change from quarterly to semiannually would be considered. It certainly does not seem to be for the benefit of hard working Americans who trust in the honesty and character of the SEC which was established to oversee our interests!! Why would we want LESS oversight of the stock exchange, brokerage firms, investment advisors, and publicly traded companies??!! Why are we opening the door to potential fraud, manipulation, and insider trading?! Why are the ordinary people always the ones who lose out on protections that were put into place for us?!
Please SAVE QUARTERLY REPORTING!!
Thank you,
Susan Ludwig

This is a disturbing pattern that is happening. When we need transparency to investing and how our money is being used. We are now getting the you don't need to know. Truly if that is the case how about people start removing themselves from investing. Only invest in those companies that believe in being transparent.
This is a disgusting move on the governments part to allow this. If this is allowed to happen then we shall push for companies that will not participate in it. Trying to steal peoples money and then have no accountability for it or it will be after the window of being able to file a claim.

Subject: Comment on S7-2026-15 From: Anonymous Affiliation: Jun. 21, 2026 I'm Jacob, an IT professional from New York. I support bi-annual reporting and am happy to see it go through.

Many people I know personally have lost their job to make these quarterly portfolios look good. The quarterly frequency encourages short term scraps over long term growth, and I'm glad it's finally being addressed.

~Jacob Freedman

Subject: S7-2026-15 Comment From: Anonymous Affiliation: Jun. 21, 2026 In this day and age when greed, self-interest, and lies prevail at the highest levels, why would you even consider letting those managing the businesses (and investments) of stockholders go with less oversight. The "foxes" are already in the "hen house." Rather, you should be decreasing the time between reports. The expense is part of the cost of using other people's money.

Anonymous — Jun 21, 2026
Subject: S7-2026-15 Comments From: Anonymous Affiliation: Jun. 21, 2026 Quarterly reporting is the bare minimum. By allowing those with insider information to game the system you are helping to disenfranchise almost all who participate in the stock market. Halving our portfolio values not only hurts those working now but in the future. People won't be able to afford to get married, buy homes, goods, or even start families something that your party has made clear is a priority but apparently only when it comes to getting our votes. And we won't forget come voting time.

Anonymous — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Anonymous Affiliation: Jun. 21, 2026 Yeah, push us back into the 50s. Everybody got ripped off then. we still are and you make it worse by doing this. Make sure that people are accountable and transparent. what you're trying to do is wrong.

Thank you

Sandra Moran

Anonymous — Jun 21, 2026
Subject: Maintain Quarterly Reporting Requirements From: Anonymous Affiliation: Jun. 21, 2026 Quarterly reporting is absolutely necessary…and to change that requirement is irresponsible, as well as raising questions about the SEC and it's potential failure to protect the investors rather than corporations! Corruption will increase and the individual investors, who are less able to endure financial losses are endangered. Enough of serving the "Big Guys," you have a responsibility to the "little guys" who put their trust in the SEC!
Christine Lafranconi

April Bonner

April Sheriff-Munoz — Jun 21, 2026
Subject: S7-2026-15 Comment From: April Sheriff-Munoz Affiliation: Jun. 21, 2026 Keep the reporting quarterly and transparent. Employees need to be privy to how their company is actually doing. People need to not lose their retirement funds ever again due to mismanagement of monies by the CEO's. I believe the quarterly reporting would catch fraud and down slides sooner allowing changes to be made before financial ruin. Allows investors an idea of the company's financial health w/o long gaps. It prevents market manipulation and insider trading. The only folks benefiting from biannually reports are the companies with something to hide.
April Sheriff-Munoz, Registered Nurse (BSN), PA.

My view on Rule S7-2026-15
All traders should be able to see quarterly data its important for everyone to be able to see the data at the same time quarterly. It keeps things fair and simple.

Asim J — Jun 21, 2026
Subject: Comments on File Number S7-2026-15 (Semiannual Reporting Proposal) From: Asim J Affiliation: Jun. 21, 2026 Hi,

Please keep the quarterly requirement for public companies. This can help reduce the unfair insider trading advantages.

Thank you,
Asim Javed, CPA

ASpurgin415 — Jun 21, 2026
Subject: S7-2026-15 Comments From: ASpurgin415 Affiliation: Jun. 21, 2026 I oppose the SEC's proposal to permit semiannual reporting in place of quarterly reporting.

Public markets function best when all investors have timely access to material financial information. Reducing the frequency of required reporting would decrease transparency and widen the information gap between retail investors and large institutional investors, who often have access to extensive research resources, management meetings, and alternative data sources.

Quarterly reporting has provided investors with a consistent and reliable view of corporate performance for decades. Extending the reporting interval to six months would allow deteriorating financial conditions, governance issues, or emerging risks to remain undisclosed for longer periods. The result would be less informed investment decisions and potentially greater market volatility when information is finally released.

While reducing compliance costs is a worthwhile goal, investor protection and market transparency should remain the SEC's primary responsibility. The solution to excessive reporting burdens should be targeted regulatory reform, not a significant reduction in the frequency of public financial disclosure.

For these reasons, I urge the SEC to retain quarterly reporting requirements for public companies.

Amy Spurgin
Investor

Subject: S7-2026-15 Comments From: Avis Lyons Affiliation: Jun. 21, 2026 Avis Lyons , job title American Citizen
I oppose the SEC's semiannual reporting proposal because stretching the disclosure window to six months creates a dangerous information 'black box.' Reducing mandatory transparency leaves retail investors in the dark, increases the risk of insider trading, and weakens accountability against corporate fraud. We need more timely market transparency, not less.

AZ Annie — Jun 21, 2026
Subject: S7-2026-15 Comment From: AZ Annie Affiliation: Jun. 21, 2026 Consumers need to see accurate performance, recency is vital to being able to understand risk. If the reports are hakf as frequent, consumers could easily be misled on the soundness of companies.

B. A. Beterman — Jun 21, 2026
Subject: S7-2026-15 Comment From: B. A. Beterman Affiliation: Jun. 21, 2026 As an investor and a consumer, I find that it is incredibly important that we have an open understanding of the businesses that form our community. Not only does a quarterly report allow those on the outside to see how their

interests are being handled, they are an important port of the internal structure that keeps those within the company up to day. Loosening these regulations will have a profound negative impact both inside and outside the boardroom.

R. Abbott

B. Cheryl Bliss — Jun 21, 2026
Subject: Comment on S7-2026-15 From: B. Cheryl Bliss Affiliation: Jun. 21, 2026 To Whom It May Concern, SEC,

I am a 71 year old retiree. I live on Social Security and have investments for future lifetime expenses, final expenses and a legacy to leave my grandchildren.

I keep track of my investments by using my quarterly reports. I have been able to make adjustments, at a profit or loss, based on these reports.

To change these reports to bi-annual reporting would rob me of the knowledge needed to make such adjustments, in a timely manner. It could cause me to lose even more in the market. I cannot afford any big losses... can you?

When the market takes a dip, the knowledge I gain from the quarterly reports, allows me to make informed decisions before the loss is too great. I don't have a lot of money but what I do have, I want to keep in my own pocket!

Sometimes the quarterly reports have shown spin-offs or splits that occurred between my getting the quarterly reports, causing the valuation of my stocks to take a hit. They also show how my stocks are performing in the market. They show me which ones to keep and which ones to sell.

History has shown that bi-annual reporting decreases the value of your investment. Bi-annual reports also give companies more time to move assets around so they don't have to payout dividends/interest. Please, do NOT allow the change to financial bi-annual reporting!

The quarterly reports are important knowledge for me to make appropriate changes to my investments. In the words of the great Benjamin Franklin --"An investment in knowledge always pays the best interest."--

Thank you for your time.

B. Stewart — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: B. Stewart Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
We (or our advisor on our behalf) buy and sell based upon how a company reveals under oath (by signature) how it is doing financially and what its future prospects are. If they don't provide that AT LEAST quarterly, only the insiders will know when it's time to buy or sell.
This sounds like a Trumpian manipulation of our chances to move into the upper classes, keeping us where he can continue to line his pockets with our money. Do the right thing - work FOR the people who pay your salaries rather than help continue the corruption we're experiencing in the rest of the government.

Banita Ondick — Jun 21, 2026
Subject: S7-2026-15 Comment From: Banita Ondick Affiliation: Jun. 21, 2026 Leave it quarterly. Have had to survive the loss of $$$$ three times after BIG companies filed bankruptcy. Then our government allows them to start over with no compensation to the shareholders who lost their money.

Barb Vbosch — Jun 21, 2026
Subject: S7-2026-15 Comment From: Barb Vbosch Affiliation: Jun. 21, 2026 Barb Vanden Bosch, Administrative Assistant in Youngstown, Ohio.

For 41 years I worked for a privately held family owned business, where we only could access a yearly report.

Then
my division of that company was purchased by a large publicly traded company. What a good change to get quarterly updates from them; especially during the last year when they had several executive changes including president and vice presidents, so it was
critical to get financial business updates every 3 months!

The filing and sharing quarterly of this info is used by employees, investors, and even the vendors / suppliers.

Please do not change a process that is working wonderfully for average
people. In my opinion, it instead would only benefit and/or encourage shady business practices.

Thank you.

Barbara Blizzard — Jun 21, 2026
Subject: S7-2026-15 Comments From: Barbara Blizzard Affiliation: Jun. 21, 2026 My name is Barbara Blizzard. I work in the receiving department of a Walmart distribution Warehouse. This is important to me because I have elderly family that depend on the income that they receive from investments to live. They are especially thrifty with their money they do not live extravagantly they are simple people and I think that they deserve to know as they have known all along, what we all know when we have a bank account when we can clearly look at it. I do not see the need for the change have anybody given an actual important need for the change ? Please do not allow this to change the way that things have been done for so long to keep them informed so that in the future devastating surprises do not come on them unaware.

Barbara Brewer — Jun 21, 2026
Subject: S7-2026-15 From: Barbara Brewer Affiliation: Jun. 21, 2026 My name is Barbara Brewer, and I am concerned about the SEC changing these filing requirements.
When you look at the history of financial reporting, there is a reason companies are required to provide regular disclosures. Investors rely on timely and transparent information to make informed decisions. Reducing reporting requirements could make it easier for companies to delay disclosing losses, risks, or other important financial information.
Transparency and accountability are essential to maintaining trust in our markets, and any changes to reporting requirements should be carefully considered with investors in mind.

Barbara Gabler — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Barbara Gabler Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
It is essential that CEOs and CFOs continue to be required to take responsibility for signing off on financial reports quarterly.
Do not change this law!

Barbara Galanek — Jun 21, 2026
Subject: S7-2026-15 Comment From: Barbara Galanek Affiliation: Jun. 21, 2026 The SEC should not allow corporations to move from quarterly reporting. The lack of transparency and honesty in our country and businesses is tantamount to the highest corruption that infects authoritarian countries. The very foundations of our country and democracy are at risk. To allow companies and their leaders even more power to manipulate and create fraud would be a crime. I am unwilling to support such a move. You should be, too.

Barbara Hailey — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Barbara Hailey Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Companies who have investors have the obligation to report back every quarter to their shareholders. This is necessary to "keep the companies honest", by keeping their operations available for their investors to understand what is going on. Why should this change? Who is proposing this and why? It seems obvious to me. They want companies to be able to hide information from the very people they are beholden to. There is no reason for this. Keep the quarterly reporting to ensure transparency.

Barbara Huff — Jun 21, 2026
Subject: S7-2026-15 Comment From: Barbara Huff Affiliation: Jun. 21, 2026 Maintain transparency for the sake of all our citizens, and for our country.
PLEASE DO THE RIGHT THING!!

Barbara Iverson — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Barbara Iverson Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Before I meet with my financial advisor, I need to check on what the companies I invest in, are doing. I cannot ask good questions of my advisor nor can I know if the companies I invest in are acting prudently without the information in their quarterly reports. In my business, we trust but verify. The SEC rule S7-2026-15 would make it harder to judge whether a company is worth investing in. It asks investors to trust but makes verifying difficult. Why would anyone think this is a good idea unless they are hiding something.

Barbara Jacobi — Jun 21, 2026
Subject: S7-2026-15 Comment From: Barbara Jacobi Affiliation: Jun. 21, 2026 Don't give crooked CEOs more time to steal money from their shareholders. The quarterly reckoning is not even enough. The ultimate loser is a citizen not the shyster boss.

BARBARA SEITZ — Jun 21, 2026
Subject: S7-2026-15 Comment From: BARBARA SEITZ Affiliation: Jun. 21, 2026 My name is Barbara Seitz. For full disclosure, I am a retired financial advisor, Dec 2023. My assets are not in the market but my husbands are. We read the quarterly reports. We feel that's the least a company can

do for their shareholders. The cost is not a factor for us, companies need to continue with quarterly reporting. With all the computer technology it should be relatively quick to put some data together, and they should absorb the cost as a service to their investors. All people need timely information, especially with their life savings.
We say NO to semi- annual reporting.

Sincerely,
Barbara Seitz

Barbara Selby — Jun 21, 2026
Subject: S7-2026-15 Comment From: Barbara Selby Affiliation: Jun. 21, 2026 Why would you change this? We are not rich, but we do invest. The market is so volatile at this time. The people that this affect, do not agree with this change of policy. I think you need to have another meeting and leave things as they are.

Barbara Stockford — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Barbara Stockford Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
People deserve to know how their money is performing so they can protect investments.

Barbara Stoff — Jun 21, 2026
Subject: S7-2026-15 Comments From: Barbara Stoff Affiliation: Jun. 21, 2026 Public companies should have as much transparency as possible. Quarterly reports are a major part of that transparency. I completely oppose any attempt to reduce the amount and timing of crucial financial reports.

As a public employee since the 1990's I have seen the public's trust wax and wane and it always has to do with transparency and communication.

One of the many roles of government is to help ensure its citizens are protected, including protection from financial predators, and fraudulent companies and investments.

Keeping reporting quarterly will help accomplish these goals. While not failsafe- It will be another check to help ensure these corporations are as compliant as possible and remain lawful and transparent.

These rules have been put in place for a reason. Let us not go back to the dark ages and Wild West when citizens got fleeced and corporate greed took over. Do not reverse or reduce the reporting requirements.

Thank you for your consideration

beth chappel — Jun 21, 2026
Subject: S7-2026-15 Comment From: beth chappel Affiliation: Jun. 21, 2026 Elizabeth Chappel, retired, investor. When employed, I had to report status, I expect to receive status on my investments quarterly at the minimum, so that I can correct any investments made. No employer would allow an employee to wait out six months to report on a project. They would be fired. Waiting six months for a company to report is a cause for dismissal. The SEC should maintain high standards and not allow the degradation of the investment system with twice a year reporting.

Beth Greenhill — Jun 21, 2026
Subject: S7-2026-15 Comment- former Hawaii bank employee From: Beth Greenhill Affiliation: Jun. 21, 2026 Public companies have proven not to be trusted with current rules and definitely should NOT be allowed 6 months between reportings to cook their books. Reporting needs to be more frequent than quarterly. I am retired from bank marketing (2001-2018) at the largest and 3rd largest bank in Hawaii.

Execs at employee meetings would brag about stock buy backs and deferring the owed taxes! Quarterly reporting and analysists were treated like adversaries that needed to be reeducated.

Please don’t allow these modern robber barons more slack to bend the rules and harm consumers.

Beth Greenhill
(808) 753-3016

Beth Howison — Jun 21, 2026
Subject: S7-2026-15 Comments From: Beth Howison Affiliation: Jun. 21, 2026 Past arrest for their fraud is evidence that the quarterly reporting is necessary. And given the increase in fraud by agencies, NGO's, government individuals, etc they need to be kept in check. There is no trust left.

Beth Kraft — Jun 21, 2026
Subject: S7-2026-15 Comment From: Beth Kraft Affiliation: Jun. 21, 2026 Dear SEC,

I am writing to express my strong opposition to the proposal to move SEC reporting to a semi-annual schedule.

As citizens, we rely on regular reporting to maintain a clear mental and fiscal barometer of our nation’s financial health. Shifting away from a monthly or quarterly schedule would signal significant red flags to the public, especially alongside other current changes. It is the essential responsibility of the SEC to keep the nation informed frequently; moving to a semi-annual requirement would be catastrophic for transparency.

I urge you to strongly reconsider this change and maintain the current reporting frequency.

Sincerely,

Beth Kraft

Beth Mikulanis — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Beth Mikulanis Affiliation: Jun. 21, 2026 The thought of changing to twice a year reporting demonstrates that there is no respect for the common person who has taken steps for retirement. Dear Sec, how much are you going to profit from this move? Who will profit from this move with little respect for the common investor? It is just greed on your part.

Beth Pendergast — Jun 21, 2026
Subject: S7-2026-15 Comment From: Beth Pendergast Affiliation: Jun. 21, 2026 The quarterly reporting requirements were enacted for many substantive reasons. We need to retain quarterly reporting to keep our investments safe and help prevent abuse.
Mary-Elizabeth Pendergast

Beth Podsobinski — Jun 21, 2026
Subject: S7-2026-15 Comment From: Beth Podsobinski Affiliation: Jun. 21, 2026 Again, stopping Quarterly Reports is the oligarchy stealing from all the rest of us, common people as this corrupt

administration has done from the beginning of the orange felon's first term! Do not add more insult to injury by allowing yet another historically proven excuse to hid more illegal money padding their pockets! Vote not to allow this change to less reporting!

Beth Richard — Jun 21, 2026
Subject: S7-2026-15 Comment From: Beth Richard Affiliation: Jun. 21, 2026 The system isn't broken , so there's no need to fix it. Keep the reporting quarterly , as it's been for years.

Bets Greer — Jun 21, 2026
Subject: S7-2026-15 Comment From: Bets Greer Affiliation: Jun. 21, 2026 Public companies must be transparent. If you're considering changing the reporting period, it should be *more* frequent, not less. Why? Events and situations change ever more frequently, and those who are supporting the company financially should be aware of how well the company is handling those events and situations, and take actions via the market to send a message to the company's leadership.

And if public companies are required to keep financial records, what possible harm could exist to report frequently? I question the motivation behind this proposed change.

Elizabeth Greer
translator and investor

Betsy Beard — Jun 21, 2026
Subject: S7-2026-15 Comments From: Betsy Beard Affiliation: Jun. 21, 2026 Keep the quarterly reporting. The investing public needs that information, and it gives companies too much time to hide what's going on in their companies.

Betsy Easter — Jun 21, 2026
Subject: S7-2026-15 Comment From: Betsy Easter Affiliation: Jun. 21, 2026 We need transparency, we need honesty, we need companies to stay in line with laws. It’s important to not let corporations get by without scrutiny. Keep America Honest!

Betsy Hamilton — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Betsy Hamilton Affiliation: Jun. 21, 2026 My view on Rule S7-2026-15
To the Securities and Exchange Commission:
Do not decrease this regulation.
INCREASE disclosures to monthly so investors have as much up-to-date financial information as insiders and to make it more difficult to hide the true financial health and dealings of a company.
U.S. history demonstrates the negative consequences of lax (or no) regulatory oversight such as the 1929 crash, Enron, the dot-com bubble, 2008 housing crisis, Theranos and Bernie Madoff's ponzi scheme, to name a few of the more egregious betrayals.
The SEC's core purpose is to regulate the securities markets, protect investors, and ensure companies provide truthful financial disclosures to prevent fraud. More information serves that purpose, not less. I don't know any investor who would want that oversight diminished so more wealth transfer may take place from lower financial classes to the wealthy.
Regulate. Protect. Prevent. That is the job of the SEC.

Betsy Reeder — Jun 21, 2026
Subject: S7-2026-15 Comments From: Betsy Reeder Affiliation: Jun. 21, 2026 NO! I do not agree with changing the reporting to every 6 months. With all the mergers, we now have mega companies. We do no need another ENRON!

Billy BrownII — Jun 21, 2026
Subject: S7-2026-15 Comments From: Billy BrownII Affiliation: Jun. 21, 2026 My name is Billy BrownII and I am an insurance abd business funding agent. I have used my funds and directed clients to build passive income through the stock market but this new rule would make it harder for the common man to have the most accurate knowledge about his investment therefore making it much harder for him to be profitable. We must know the truth to make the best decision for ourselves and reporting every six months let’s insiders hide financial fitness and get off the ship while it’s sinking while the other passengers don’t even know the boat ever left the port. The common investor must be kept in the loop with frequent accurate updates so they can manage their portfolios with their best interest in mind. It is immoral to allow insiders this luxury but shut out the common man. This is yet another attempt to destroy and limit the middle class , it is obvious that the SEC is playing its role in the Great Reset agenda by doing what they can to weaken individual financial strength. I do not support this change and the idea of six months reporting instead of three needs to be killed expeditiously.

Bob Casell — Jun 21, 2026
Subject: File No. S7-2026-15 From: Bob Casell Please retain the current quarterly reporting regulations. As stated in your home page statement "We're the agency that protects investors from misconduct, promotes fairness and efficiency in the securities markets....". It makes it twice as difficult to protect investors and ensure fairness if you cut public reporting requirements by 50% per year. Investors lose 3 months worth of access (twice every 12 month cycle) to identify actual or potential company problems, the SEC loses this same opportunity to identify misconduct while insiders to company data will have ample chances to make investment choices that outsider investors will not have. That inequity certainly doesn't promote fairness in the securities markets. With the amount of money flowing around the market plus the impact of 'unique financial' instruments and cryptos, instituting any reporting changes that allows for less transparency is directly in conflict with 'protecting investors from misconduct and promoting fairness. Please continue with the current reporting requirements. Thank You

Bob Sommers — Jun 21, 2026
Subject: S7-2026-15 Comments From: Bob Sommers Affiliation: Jun. 21, 2026 This would be a further concession to the Trump/Epstein class.

Bob Toppel — Jun 21, 2026

Subject: S7-2026-15 Comments From: Bob Toppel Affiliation: Jun. 21, 2026 Retail investors are part owners in the company just as the institutional investors and the top executives are. Therefore, we have the right to the same information they do. Any attempt to hide financial information or the health of a company from retail investors opens the door to legal action. Keep the status quo regardless of the burden or expense to the companies involved. I'm sure they signed agreements to the quarterly statements when they listed their stock for sale on the stock exchange.

Bonnie B — Jun 21, 2026
Subject: S7-2026-15 From: Bonnie B Affiliation: Jun. 21, 2026 To whom it may concern

I understand that filing paperwork 4 times a year can be onerous but I truly believe it is the least businesses can do to ensure our version of capitalism stays honest and trustworthy. These are trying times with lots of graft, corruption, lying and swindling becoming more common. We need the SEC to do its job to continue to ensure our businesses are on the up and up. This not only benefits the owners, investors and employees but also our communities and the rest of our country. Please do not weaken the few checks and balances we still have to keep our country an honest and safe place to live and work. Thank you.
Bonnie Boberg, retired fed gov't

Brad Potvin — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Brad Potvin Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
I have submitted a whistleblower complaint to you months ago that's very very sensitive. I heard that you don't review the cases and it goes to a third party which makes me extremely nervous. My life could be in danger if this gets out before I can go into hiding.
I demand someone call me to explain why a third party has access that I clearly wrote in confidence to the SEC.
I wan to to know where we are at for my own safety. I know Lhouat will come after me if I'm a threat to testify on what I know and they know exactly where this complaint has come from since I flat out told them I'm coming after them. I know they are guilty because as soon as I told them this they fired Pascall, the owners in Belgium's right hand man, and I'm sure they made him sign one heck of a NDA.
one of my submissions number is 17792-265-336-213. please call me asap or I'm going to be forced to hire an attorney to find out what's going on since I'm scared to death. Every day I worry about my safety all because you can't inform me of what's going on with my submission. I'm literally scared for me life.

Please call me ASAP at 248-878-0933
Brad W Potvin

Brandon Grabenstein — Jun 21, 2026
Subject: S7-2026-15 Comments From: Brandon Grabenstein Affiliation: Jun. 21, 2026 Brandon, sales rep for kitchens and bathroom renovations in Florida.

My family and I have worked hard to save by skipping meals and reducing comforts and luxuries just so we might have a chance at retirement 35 odd years from now. To see our money being used as a golden parachute for failing companies that have not turned a true profit is a knife in America's back and will not go unanswered. I urge congressmen to realize to what degree this will lose the trust of the average citizen in investing in her capital markets.

Thank you for reading.

Brian and Reeni Alexander — Jun 21, 2026
Subject: S7-2026-15 From: Brian and Reeni Alexander Affiliation: Jun. 21, 2026 I'm in the retail stock market. Quarterly reporting is how I make decisions on keeping, adding or selling shares in a company. I'll naturally go to companies that voluntarily disclose their numbers quarterly.

Brian Bates — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Brian Bates Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Please do not adopt this rule and keep reporting quarterly. As an investor I often feel blindsided already with the random annoucements on so called investor or shareholder dates. There can be a change in guidance on a random Tuesday or announce quarterly sales on dates not found on a consistent calendar.
If anything, the dates to announce these types of economic numbers and projections should be more stringent and frequent. If there were less it would harm every investor and most importantly

harm markets. There would be less confidence in the market and price discovery more random. The efficiency currently found would be dramatacilly reduced. So please don't take this action and stick to quarterly reports. Thanks!

Brian Domenick — Jun 21, 2026
Subject: S7-2026-15 Comments From: Brian Domenick Affiliation: Jun. 21, 2026 As an investor, I want to know how my portfolio companies are doing
with up-to-date information. I want to know when there are problems or
successes. I don't want longer periods of who knows what going on, and
then I see an unexpected outcome after the fact. Further, I want to be
able to see relevant financial data on companies I am considering
investing in, and longer dark time periods are clearly not in the
investor's interests. Keep the reporting quarterly or even monthly,
but certainly not longer than quarterly. Brian Domenick, retiree.

We already have enough fraud in our country we don't need anymore. This law would be aiding in crimes against to common citizen!

Britt-Marie Hermansson — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Britt-Marie Hermansson Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
I am writing to oppose the SEC’s proposal to allow public companies to replace quarterly reporting with semiannual reporting.
Quarterly reports are one of the few tools individual investors have to catch problems early. Doubling the gap between disclosures — from three months to six — means investors would operate for longer stretches with stale information, increasing the risk that financial trouble, fraud, or deteriorating fundamentals go undetected until real damage is done.

I rely on quarterly information to make investment decisions, and these longer gaps create an unfair advantage for corporate insiders. It will much easier to hide corruption with this rule.

Oh heck, "optional" doesn't fix the problem. Why do it if it is optional. Companies that opt in are often the ones whose investors -like me -need frequent updates.

Those ‘savings’ don’t exist. They already have to prepare these reports for their board, etc. These ‘pretend’ savings to companies aren't worth the cost to me.

C. Dana Jackson — Jun 21, 2026
Subject: File No. S7-2026-15 From: C. Dana Jackson Please do NOT switch to the twice a year reporting of publicly traded companies' financial numbers and data. As an individual investor, I need all of the information I can get in order to make knowledgeable and informed investing decisions. If quarterly reporting is eliminated, I will no longer buy the stock's of publicly traded companies. I will simply switch my ENTIRE stock portfolio into stock index funds and exchange traded funds (ETFs). I'm sure many other investors will do the same thing.

C. M. Lade — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: C. M. Lade Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
If CEOs want me to invest in their company then they need to provide current status on their company's financial wellbeing. Quarterly reports should be the minimum requirement.

C.E. Sherrod — Jun 21, 2026
Subject: S7-2026-15 From: C.E. Sherrod Affiliation: Jun. 21, 2026 It makes no sense and is reckless and irresponsible to eliminate the Quarterly signature of CEO's on their company financials. Those of us who are old enough remember the 2001 disaster that was the Enron corporation know that it was the reason for the Quarterly rule to take effect.
Enron's scandal exposed rampant corporate fraud hiding billions of debt and inflating profits. The result was one of the biggest bankruptcies in US history and the dissolution ot its auditing firm, Arthur Anderson.
To eliminate this Quarterly reporting opens the door to further fraud and damage to not just corporations, officers and shareholders. It also risks harming employees, customers, pension / retirement funds, creditors, etc.
Enron's own employees filed suit for $2 billion lost from their pensions. They receive on $85 million in compensation. Each employee received about $3,100 according to Wikipedia.
We need to keep protection rules like this on in place, and add even more rules as needed to help stop this kind of massive harm through corporate greed and schemes.

---

Carlos Miranda — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Carlos Miranda Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
I strongly oppose any effort to reduce or eliminate quarterly disclosure requirements for public companies. Transparency is one of the most important protections available to investors, especially individual retail investors who do not have access to the same resources as large institutional firms. Quarterly reporting provides timely insight into a company's financial performance, operational challenges, risks, and strategic direction. Without regular disclosures, investors would be forced to make decisions with less information, increasing uncertainty and reducing accountability.
The SEC's mission includes protecting investors and maintaining fair, orderly, and efficient markets. Limiting access to critical financial information moves in the opposite direction. Public companies

benefit from access to public capital markets, and in return they should be expected to provide consistent, transparent, and timely reporting to shareholders.
Please preserve quarterly disclosure requirements and continue to prioritize transparency, accountability, and investor protection.

Carlos Perez — Jun 21, 2026

Carol McCullen — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Carol McCullen Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
This is an unacceptable proposal. Allowing companies to hid their performance for six months is a perfect set up for all the corrupt ,unethical clowns , greedy insiders and executives giving them a

massive informational advantage. Insider trading becomes more tempting,it would undermine trust and market fairness as smaller investors lack resources and ability to track a businesses' day to day operations. Crashes could be catastrophic with a 6 month delay in reporting. It would be easier to alter KPIs and make it harder for investors to compare one company to another.

Carol Medford — Jun 21, 2026
Subject: S7-2026-15 Comment From: Carol Medford Affiliation: Jun. 21, 2026 PLEASE keep this quarterly. Changing this is a disservice to investors.
Carol Medford

Subject: My view on Rule S7-2026-15 From: Caroline Charonko Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Changing accounting is NOT for the population (and not for me). Of course they want silence, but silence breeds actions against the public's interest. Do not change the current practice!

Caroline Crawford — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Caroline Crawford Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
The SEC has a duty to the public to protect them. Getting rid of quarterly reports does the opposite as individual investors such as myself depend on them for vital information on our investments. This will cripple my ability to invest with the information I need to make sound decisions. This will increase the divide between the "haves" and the "have nots" as wealthy corporations will buy access to the information that the small investor will not have. Please reassess your mission and purpose and do not eliminate quarterly reports.

Caroline Marti — Jun 21, 2026
Subject: S7-2026-15 Comments From: Caroline Marti Affiliation: Jun. 21, 2026 Let me tell you what I think of the proposed legislation. What a proposed piece of hogwash. STOP THE STEAL!!!!!!!
The Robber Barons are trying to change the rules. But it's 2026 and We The People have found our POWER. This Government will listen and do as they are told by the constituents , or they will be PUNISHED.

I mean it,

Catherine Schorey Irwin — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Catherine Schorey Irwin Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:

Quarterly reports matter. Please...do not skip investment information after defaulting employees into IRA accounts. Nobody should be forced to manage their life savings for retirement blindfolded from seeing the money, risks and tax issues.

Catherine Sheahan — Jun 21, 2026
Subject: File No. S7-2026-15 From: Catherine Sheahan This change would result in yet another funneling of massive wealth away from common Americans. As a retail investor, I rely on regular data that includes quarterly reports to make decisions about investment choices. I do not have a team of investment advisors. It is just me. Making this change also opens the door to less transparency and more insider trader. Americans already know our 'representatives' in DC are capitalizing on information us regular folk never see. The fox is already in the hen house; this change would just give the fox(es) haute cuisine service and a gourmet chef to dig in and devour what they want without any oversight or repercussion. Awesome. Us regular folk are already exhausted by the constant flow of new and disastrous ways our goverment is exploiting us and

profiting from grift and corruption. Please don't do this and stop acting like profit is god.

Catherine Terry — Jun 21, 2026
Subject: Keep SEC Quarterly Reporting From: Catherine Terry Affiliation: Jun. 21, 2026 Who does reducing reporting really benefit? To me it seems like this adjustment only stands to enrich already wealthy insiders. Keep SEC reporting on a quarterly schedule.

Catherine, Scientist

Cathie Chenoweth — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Cathie Chenoweth Affiliation: Jun. 21, 2026 To whom it may concern,
All systems are already in place to continue reporting with current updates quarterly. Hidden

reporting means delayed results, exaggerating potential negative impacts to safety of investments and allowing further room for financial shenanigans. The ONLY reason this is being proposed is to enable concealment. The question isn't "whether" this change would have an impact, it is "when" and how severe.
Catherine Chenoweth
Retired bank CFO

Cathy Bell — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Cathy Bell Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
If puts common everyday people at a disadvantage - We would be the ones loosing and that isn't fair. Quarterly reporting helps small investors view companies progression and ensures transparency - Don't let this change - it only helps corporations and big business-

---

Cathy Critz — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Cathy Critz Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Do not allow companies to hide information from investors.

Cathy Dadin — Jun 21, 2026
Subject: File No. S7-2026-15 From: Cathy Dadin I believe this proposal is really a bad idea for the average American and could lead to substantial losses financially. By having a 6 month delay in knowing how a stock or a company is doing can be a financial disaster for many. The only one I can see that this would benefit are members of the government who have inside knowledge which is just wrong. Please do not proceed with this proposal.

Cathy Goetz — Jun 21, 2026
Subject: S7-2026-15 From: Cathy Goetz Affiliation: Jun. 21, 2026 My name is Catherine Goetz. I am a retired 74 year old female who is a widow. I live in the Mohave desert in Needles Ca. Most other corporations, companies & small businesses report quarterly so I don't see why SEC shouldn't too.

They control, regulate & distribute monies so I think we should keep a tight watch on what they do & how they do it. We cannot allow ourselves to be in the same situations as before, people are struggling enough due to our present economy.

Cathy Holmberg — Jun 21, 2026
Subject: S7-2026-15 Comment From: Cathy Holmberg Affiliation: Jun. 21, 2026 KEEP IT!

Cathy Johanson — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Cathy Johanson Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
The SEC proposal us bad for investors. It removes transparency and accountability. At this time our government is spending our tax dollars with no transparency or accountability. The current administration is shifting money and not spending it according to the legislative budget. They are threatening to cut Social security. If they do, millions of Americans will be relying on their investments for retirement. Please do not change the quarterly disclosures. We need these rules to keep corporations honest.

Cathy Johnson — Jun 21, 2026
Subject: S7-2026-15 From: Cathy Johnson Affiliation: Jun. 21, 2026 Keep it that way its there for a reason ,don't give him any more . He's buying votes from the rich and covering his own ass later !

Cathy Lurty — Jun 21, 2026
Subject: S7-2026-15 From: Cathy Lurty Affiliation: Jun. 21, 2026 Why would you even think of changing this? Leave it quarterly.

Cathy

Cathy Mignogna — Jun 21, 2026
Subject: S7-2026-15 Comments From: Cathy Mignogna Affiliation: Jun. 21, 2026 There should be more transparency of reporting, not less. I'm retired and I find this new proposal preposterous and only good for the corporations, not the people that support them by buying their products. Stop this

nonsense of lining corporate leaders' pockets. I'm Catherine Mignogna and when I did work I was an AVP Technology Project Manager

Cathy Rooney — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Cathy Rooney Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Corporations need more financial disclosures not less. I'm reporting on a Board of Directors for my Homeowners Association that has taken aggressive and hostile action to break the California real estate laws for Public Interest Developments by llegally comingling and converting cash deposits for common areas for their own private use. The real estate laws and the CC&Rs clearly state this.

Charlene Eberly — Jun 21, 2026
Subject: S7-2026-15 Comments From: Charlene Eberly Affiliation: Jun. 21, 2026 Do not loosen up on the reins! Quarterly reporting is the minimum that should be done. Anything less opens the door to all sorts of malfeasance. With my life savings invested in securities, I need the SEC to keep reporting quarterly!

Sent from my iPhone

Charlene Mattson — Jun 21, 2026
Subject: S7-2026-15 Comment From: Charlene Mattson Affiliation: Jun. 21, 2026 As a retired person I rely on quarterly reporting to help manage funds I need to maintain for the rest of my life. We all know the state of Social Security and that it alone is insufficient and cannot be relied on! I do not feel that reporting should be changed from quarterly to semi-annually. This reporting is something that all investors rely on. Changing reporting to semi-annually gives more opportunity for corporate insiders to have an unfair advantage over other investors both in buying stocks and in selling stocks of companies that are having major problems. This would only leave average investors like me holding the bag while corporate insiders make out like bandits! The amount of money companies spend filing quarterly rather than semi-annually is minimal compared to the amount of irreparable damage this change would cause to investors. As companies that sell their stock to the public, filing quarterly is the very least they can do! Charlene Mattson, Retired, Missouri

Chris Barratt — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Chris Barratt Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
You absolutely must NOT/NOT remove any more legal requirements for financial transparency on commercial firms and investment companies! Our US financial and market system is already becoming to easily manipulated and controlled by greedy corporate and political interests. Make sure everyone is required to TELL THE TRUTH to the public and small investors, at least every quarter.
This is not difficult. Bowing to this demand for less accountability and easier market manipulation is dangerous for the entire US market and economy, not to mention global trust to invest in anything American.
JUST STOP IT!
DO YOUR JOB!!

Chris Dederer — Jun 21, 2026

Chris P — Jun 21, 2026
Subject: S7-2026-15 Comment From: Chris P Affiliation: Jun. 21, 2026 My name is Chris Papadopoulos. On the surface, more reporting is better, but I think considering the second order effects is important. I support making reporting less frequently permissible for these reasons. 1) It incentivizes companies to think slightly more long-term. 2) It disproportionately benefits smaller companies: for whom the fixed costs of reporting are a big deal. 3) It frees up management to spend more time addressing customer concerns and overall strategy rather than worrying about reports very frequently . 4) It still allows companies to report more frequently if they choose. The market is still capable of pricing out the reporting preference as some companies will certainly choose to remain with the current schedule.

Chris Page — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Chris Page Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:

Christina Torode — Jun 21, 2026
Subject: S7-2026-15 Comments From: Christina Torode Affiliation: Jun. 21, 2026 If you are an investor, you have the right to see how a company is performing financially and the decisions they are making that could affect their bottom line. A lot can change in three months, bad decisions, loss of a major contract, a major change in business model, never mind a business could cease to exist in six months. This move to reporting every six months is detrimental to everyone involved.

Christina Van Vliet — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Christina Van Vliet Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Keep the people in mind and do the right thing. Report quarterly. Not doing so will hurt the average person financially. I, as many do work too hard to now fall behind because of what is easier for you now. History has already shown that impact. Be smart, let's learn from mistake and do better for the future of our economy. We have already suffered enough.

sincerely,
Sincerely,
Christina van Vliet

Christina Woods — Jun 21, 2026
Subject: S7-2026-15 Comments From: Christina Woods Affiliation: Jun. 21, 2026 This is so unethical of you. You will destroy the average man&small business. There will only be so long that you keep taking from us before we stand together&take back from these institutions. We the people are angry fed up&ready to take our country back. If this passes it's only time before the revolution will begin. Think about the people for once. If we have nothing more to take, you will also have nothing. Think about that. You people in power doing all this. Think about this, the ones above you don't give a **** about you just like you don't give a **** about us the common man. But when we have been sucked dry&have no more to take, your next your families loved ones. Then what? If we have nothing you have nothing. You need to wake up to the reality of what you are driving us to. Because when we the people have nothing, your next.

Christina X — Jun 21, 2026
Subject: S7-2026-15 From: Christina X Affiliation: Jun. 21, 2026 Hello and thank you for your time.

I believe quarterly reporting is essential for investor protection, maintaining accountability and fair markets, and is a stable business practice (much less what little accountability is attempted with the stock market). All the businesses that I know of require internally quarterly reporting (if not more frequently) and it should not be any different for their reports to us.

Much like a parent who only checks the report card at Christmas break and at the end of the year - the SEC would be negligent themselves and would be creating a helpless situation for those they

are supposed to help and those they are supposed to hold accountable.

CEOs/CFOs/any of the C's & O' who only review their company twice a year would likely be fired and would definitely be considered negligent to their business finances and board (even the IRS requires quarterly accountability with estimated tax payments). This does not put any undue pressure on businesses and is intended as a security for the people they serve, and it is The People you serve and for whom you should be concerned.

Thank you,
Christina Fay

christine coyne — Jun 21, 2026
Subject: Comment on S7-2026-15 From: christine coyne Affiliation: Jun. 21, 2026 Dear [Recipient Name],

I am writing to express my strong support for quarterly reporting requirements.

At 73 years old, I manage a savings of approximately $150,000. While this may not be a million dollars, it represents my life's earnings, and I am deeply concerned about the potential for significant financial loss due to infrequent reporting.

Maintaining a schedule of four reports per year provides far greater transparency than reporting only once or twice. Data and statistics are gathered so that we can learn from them and make informed decisions; without frequent updates, that transparency is lost.

Please consider the impact on individuals who rely on clear, consistent financial reporting to protect their savings. I urge you to support the transparency provided by quarterly reporting to ensure our hard-earned savings are not jeopardized.

Sincerely,

Christine Coyne, RN
Souderton, PA 18964

Christine Fitzgerald — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Christine Fitzgerald Affiliation: Jun. 21, 2026 Quarterly reporting needs to stay put.
There is no reason to change it.
The only people it helps is the despite of the world seeking to hide their underhanded dealings.
Do the right thing.
This was tried in the past and didn't work, learn from it please.

Christine Fitzgerald

Cindy — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Cindy Affiliation: Jun. 21, 2026 Cindy Blattner
Bloomington MN

PLEASE, we can’t afford to loose 4% of our retirement. Quarterly reporting is proven to lessen valuations as history shows. Please take heed of what happened in 1955-1970. We cannot have another failed experiment as that.

THE TRANSPARENCY PREMIUM IS GLOBAL

Quarterly markets trade rich. Semi-annual markets trade cheap.

It isn’t just American history. Look across the world today. The markets that demand quarterly numbers command the richest valuations. The markets that settle for twice a year sit at a discount, right alongside where America sat during its own semi-annual era.

Best Regards, Cindy

Cindy Blattner

Claudia Belanger — Jun 21, 2026
Subject: S7-2026-15 From: Claudia Belanger Affiliation: Jun. 21, 2026 I, along with millions, lost dearly in the Enron scheme. Integrity is at the lowest level in our history. Quarterly reporting is a must.

Claudia Brown — Jun 21, 2026
Subject: S7-2026-15 Comments From: Claudia Brown Affiliation: Jun. 21, 2026 I have worked at several Fortune 500 companies, and large financial institutions. Quarterly reporting may be additional work, bit it helps companies figure out issues early and self correct. It also protects banks know if their institutional borrowers are in danger of foreclosure or takeover and make safer decisions for themselves and their investors. Since the start of quarterly reporting is now a common business process that in most medium to large companies is automated and not as time consuming when it eas first required. I support timely reporting and would like to continue with the quarterly reporting. Our economy is fragile with wars, new tarrifs being added and removed constantly, with the unknown impact of AI, right now is not the time for less oversight.

Claudia Damon — Jun 21, 2026
Subject: S7-2026-15 Comment From: Claudia Damon Affiliation: Jun. 21, 2026 Prevent fraud. Disclose quarterly since corporations have to keep records anyway. What is there to hide? This semi-annual reporting proposal will not hurt insiders or people with inside access.. It will hurt the people with retirement accounts that hold stocks. The reason for quarterly reporting jas not disappeared so why end it? Well, look at who benefits!

Claudia Drucker-Berg — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Claudia Drucker-Berg Affiliation: Jun. 21, 2026 The last time this was tried we all learned this simply does not work fur a robust economy. Does no one listen to the lessons? Quarterly reporting keeps business accountable to their shareholders and the public. Transparency is important more than ever. All of our life savings, as it has been proven, will be worth less while everything costs more. Apparently those in the SEC want to see their family members and neighbors come asking for help or to move in with them when their investments are drained.

Claudia Murdock — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Claudia Murdock Affiliation: Jun. 21, 2026 quarterly reporting helps keep companies, honest and above board. When they only have to report twice a year, they can do all kinds of things in between the reporting periods. I don’t want to lose my portfolio because companies are allowed to only report twice a year.

Sent from my iPhone

Claudia Noe — Jun 21, 2026
Subject: S7-2026-15 Comments From: Claudia Noe Affiliation: Jun. 21, 2026 As an investor for over 40 years (since the age of 16!) and someone that worked as a corporate accountant for a Fortune 500 company, quarterly reporting is important for a business to identify trends and make necessary course corrections. With all of our retirement accounts investing in publicly traded companies, transparency is important to all of us.

This is a cost of doing business and requires companies to be good stewards. The cost savings in the form of headcount reduction and information distribution is not enough to offset the potential mismanagement that can go undetected until the losses become to great to overcome.

Claudia Noe

Clay Stevenson — Jun 21, 2026
Subject: S7-2026-15 Comment From: Clay Stevenson Affiliation: Jun. 21, 2026 I thought the major mission of the SEC was consumer protection from fraud..? Clayton Markel — Jun 21, 2026
Subject: S7-2026-15 Comment From: Clayton Markel Affiliation: Jun. 21, 2026 Dear SEC.

My name is Clayton Markel. I am a retired firefighter. I have made some small investments that help me enjoy my retirement.

As a common ordinary everyday small-time investor, I'm already far enough out of the loop with a current quarterly reportings. I beg you to please keep the current standard of quarterly reporting, and not reduce it even further.

I do not believe the current quarterly standard is overly onerous. Publicly held corporations have been abiding by it for decades now, and the expense in trouble is already built into the system. There's nothing wrong with it. Please leave it alone and do not cater to the insider trading special interests that wish to reduce it.

As I understand it, the purpose of the securities and exchange commission is to make the game fair for all, especially the everyday investor. Reducing the reporting frequency will greatly, if not immeasurably, favor the market insiders. As I said, this seems to be what the SEC was created to prevent.

I urge you to come down on the side of the common investor and retain the current quarterly reporting periods.

Thank you very much for your time.
Clayton

Independent Contractor
New York, NY
This matters to me because as I near retirement age (I'm 58), I am keenly aware of market fluctuations, and I deserve to know how these changes affect my investment savings. Transparency is crucial and quarterly reporting is the best way to not only keep corporations honest but to ensure my IRA is growing at a rate that will be sustainable once I retire. Reverting to a system of reporting that is over 70 years old is unfair to the 21st century investor who relies on this information to make

financial decisions, since our government has decided to use our social security payments freely and without our consent to pay for their own bad budget decisions, and we cannot rely on the availability of these funds. I urge the SEC to keep the current mandatory quarterly reporting in place. Thank you.

Colleen VanOcker — Jun 21, 2026
Subject: S7-2026-15 Comment From: Colleen VanOcker Affiliation: Jun. 21, 2026 This is ripe for fraud and mismanagement which could be kept secret longer. This is just wrong. What is the motive here? To hide MORE wrongdoing? Please do NOT allow this to happen. This only benefits the Uber wealthy, not the average investor. Controls should be tightened, not loosened.
I have an IRA investment that was mismanaged and my investment was never recovered. It was $25 K which may be peanuts to some but not to me. I'm retired. Don't allow this. Must be a Trump idea.

connie white — Jun 21, 2026
Subject: S7-2026-15 From: connie white Affiliation: Jun. 21, 2026 Keep the reporting quarterly! I have been amazed at the amount of fraud that has been discovered since President Trump's administration began "following the money" among business people and elected officials. In "ancient America" (fifty years ago), people were expected to have "high moral standards," but that isn't even a consideration in hiring in twenty-first-century America. Decreasing the frequency of reports might save time and money, but it also opens opportunities for dishonest people to hedge on their ethics. Keep the quarterly reports!
Connie White,
Retired Physician Assistant
Wichita, Kansas

Constance Kenney — Jun 21, 2026
Subject: S7-2026-15 Comments From: Constance Kenney Affiliation: Jun. 21, 2026 My answer would be no actually they need to do more than just four times a year even with the quarterly they can still cook books people still lose money look what Trump did to those people with that Bitcoin fraud that he started. Look how many people lost their money and they can't get it back that was their life savings the retirement funds children college funds when are people going to wake up you have nothing you are trying to build so you can have something in your old age in your retirement days but yet and still you keep putting the same people in office that's crooked and committing the fraud they'll get their money back but you won't. So my answer will be no to that the answer for me would be take your money out of all of the investments and see what those big companies be at then let them see how I feel for their stock to drop and them to lose money. So my answer is no keep it as it is and stop making them report instead of every 4 months let him do it every 2 months and let's see how they like that one

this administration believes voters should be kept in the dark on many issues, including their retirement assets. People are entitled to transparency and accountability, esp. where their investments are concerned. Obviously, the damage of someone like Madoff is long forgotten. Investors are entitled to quarterly accountings.

Corrie B — Jun 21, 2026
Subject: S7-2026-15 Comment From: Corrie B Affiliation: Jun. 21, 2026 Why Is My Money Being Kept A Secret?
Only bad news is kept secret. When companies are doing well they shout it from the rooftops.
If working people don't have the security of knowing what is going on with their investments, why make them? Let's just look for other countries with better laws that protect the working people's money better.

Cory McKee — Jun 21, 2026
Subject: S7-2026-15 Comments From: Cory McKee Affiliation: Jun. 21, 2026 Cory, data analyst, and quarterly reports are essential for the public to have transparency in the companies we invest in.

Crystal W — Jun 21, 2026
Subject: S7-2026-15 Comment From: Crystal W Affiliation: Jun. 21, 2026 The richest and most powerful people on earth use lack of transparency to further enrich themselves and leave millions of regular people holding the bag. Why would we do the subterfuge for them?

Curtis Johnson — Jun 21, 2026
Subject: S7-2026-15 From: Curtis Johnson Affiliation: Jun. 21, 2026 I oppose reducing public company disclosure requirements from quarterly to semiannual reporting. Investors, employees, retirees, and the public deserve timely access to information about a company’s financial health and risks. Less frequent reporting means less transparency, reduced accountability, and greater potential for important developments to go unnoticed for months. Strong, regular disclosure requirements help maintain confidence in our markets and ensure that all investors—not just insiders and large institutions—have access to current information.
C. Johnson, North Dakota

Curtis Wadle — Jun 21, 2026
Subject: S7-2026-15 Comments From: Curtis Wadle Affiliation: Jun. 21, 2026 Please do not change from quarterly reporting.

D L Anderson — Jun 21, 2026
Subject: S7-2026-15 Comments From: D L Anderson Affiliation: Jun. 21, 2026 My name is Dr. Debra Anderson. I am a licensed psychologist and have been practicing for over 30 years.

I have never in my lifetime seen the amount of destruction that has been attempted and, to some extent realized, in dismantling our democracy. There have been trying times and politicians that have attempted corrupt and illegal things, but the magnitude of corruption going on currently within our government is unprecedented. In my mind, SEC proposing that the people, whose money investors have been entrusted with, should not have access to reports about that money, but twice a year is just another layer of planned secrecy and manipulation of profound import.

In no way should quarterly reports by investment companies be voluntary, they must be mandatory! The safety of our money, our retirements, our future depends upon knowledge and information. Do not attempt to take this knowledge and information away from the people who contribute to these investment accounts!

Respectfully and with concern,

Debra L Anderson PhD

Licensed Psychologist

D Lev — Jun 21, 2026
Subject: S7-2026-15 Comments From: D Lev Affiliation: Jun. 21, 2026 I am writing to express my firm stance regarding the management of my retirement and investments. Having worked consistently from the age of 14 until I was 77, I have earned my retirement through decades of hard work, saving, and strategic planning.

I expect full transparency and accountability regarding these matters. To ensure this, I am requesting the ability to access and review reports at any time.

Thank you for your attention to this requirement.

Regards,

Diana Levi-Mathis

D.A. Douglas — Jun 21, 2026
Subject: S7-2026-15 Comment From: D.A. Douglas Affiliation: Jun. 21, 2026 Regarding our current reporting schedule, I believe that the quarterly reporting has been working just fine. In my opinion, there is no need to change the existing process at this time.

Thank you for your consideration.

Best regards,

D.A. Douglas

D.B. Small Business Owner — Jun 21, 2026
Subject: File No. S7-2026-15 From: D.B. As a small business owner, frequent insight into the fundamentals of my business is vital for making decisions that keep my business running and profitable. It's no different with my investments. As a common-man retail investor I need timely access to information about the companies I invest in. Removing that introduces more opportunity for fraud, stock swings, and puts me at a significant disadvantage when investing. Investors need frequent, accurate corporate transparency and the proposed move to semiannual reporting moves us the wrong direction. Please keep reporting quarterly.

---

d.beaujon — Jun 21, 2026
Subject: S7-2026-15 Comments From: d.beaujon Affiliation: Jun. 21, 2026 Just another trumpian

grift to hide malfeasance from auditors!! Corporations shouldn't be able to hide their condition for 6 months leaving investors blind to how their money is doing!!

Dan — Jun 21, 2026
Subject: S7-2026-15 Comment From: Dan Affiliation: Jun. 21, 2026 Do not change the quarterly reporting requirements. This can only end badly and will most hurt small investors. Trust and transparency are the bedrock of our free markets. Dan Lange, Managing Director, Corporate Finance

---

Dan Ayoob — Jun 21, 2026
Subject: S7-2026-15 Comments From: Dan Ayoob Affiliation: Jun. 21, 2026 On the surface, it doesn't seem like a big deal. However, the rule to sign quarterly is important to investors for a few reasons. One, it holds to account the information contained in the books has been carefully scrutinized. Two, it provides more frequent investor information to go by, when making decisions to consider as part of one's investment strategy.
My own investments, as small as they are, might have been less. Now that I'm almost 65, and ready physically to retire, could I?
Please stay independent of Trump and make the right decision to leave it quarterly.
Thank you.

Dan Stephens

Dana Drummond — Jun 21, 2026

Subject: S7-2026-15 Comment From: Dana Drummond Affiliation: Jun. 21, 2026 Quarterly reporting needs to remain compulsory for publicly traded companies. There is absolutely no valid reason to cut reporting requirements to semi-annually for these corporations. It does not benefit the vast majority of their shareholders, only those who have an incentive to hide information.

I need to be able to keep on top of my investments and know what is happening with the companies that I have invested in so that I can make informed decisions. These decisions affect my future and retirement.

Cost savings is not a valid reason to cut the requirements. Any company that needs to cut costs so badly that they can't afford transparency is exactly the sort of company that the public needs to know about.

This proposal is not meant to serve the American public, only the those that would have the ability to manipulate the situation to benefit themselves - in other words the "donor" class.

Dana Richmond — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Dana Richmond Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Quarterly disclosures of public companies help to keep me informed of what is going on with my investments. 6 months is too long a wait and limits transparency.

Dani Purpero — Jun 21, 2026
Subject: S7-2026-15 Comments From: Dani Purpero Affiliation: Jun. 21, 2026 Everything we have envisioned for our great nation was layed out for generations in the foundation documents—The Constitution, Bill of Rights, etc. Given this unprecedented gift for the ages, our job has always been to follow the rules by holding power accountable through transparency. Any public office is a pillar to this end. Shielding those with money and power, protecting them from accountability, is a violation of this sacred trust. There is no reasonable explanation as to why our SEC would adjust the rules to allow a lack of this transparency of accountability, other than a power grab. If you can't see this, it's obvious you've strayed from these foundational principles. In doing so you are allowing The People's trust in government to be greatly compromised. So tell me, where does your loyalty lie? With power and wealth for a few, or with The People? Know our history. This has always been the invitation to failure and suffering. Our problems seem to always come as a result of deviating from these simple principles. Today it's your turn to example courage in the face of this darkness. SERVE THE PEOPLE.

Thank you

Subject: My view on Rule S7-2026-15 From: Dar Cash Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Keep companies accountable to the investors. It's the least they can do in exchange for our investment in their companies.
Thank you.
Dar Cash

Darcee Ruble — Jun 21, 2026
Subject: S7-2026-15 Comment From: Darcee Ruble Affiliation: Jun. 21, 2026 Hello

My name is Darcee and I am a MH counselor. This new rule stands to harm all working class citizens since companies no longer provide retirement benefits. All out retirement is in investments and we will be devastated if a company fails for 6 months without us knowing. It’s taking away our right and ability to make informed decisions.

Thank you,

Darcee Ruble

Enjoy your day!
Darcee Ruble

necessary to keep these people in check.

Dave Lelinski — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Dave Lelinski Affiliation: Jun. 21, 2026 This is insanity! Why change something that isn't broken? Especially when the system change you propose was a failure the first time it was used. Why would you propose this now?

Dave Palmer — Jun 21, 2026
Subject: S7-2026-15 From: Dave Palmer Affiliation: Jun. 21, 2026 Quarterly reporting must be the enforced minimum. Anything less leaves a ton of room for more corruption. Big business is already corrupt enough!!

David Palmer
A concerned citizen

Dave Pruett — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Dave Pruett Affiliation: Jun. 21, 2026 Information is power, you're trying to take what little power we the investors have and transfer it to the businesses.

This just is not right!

The one huge difference between the US and all of the other major industrial nations is transparency and accountability.

Explain how this is going to help with that.

Explain how this doesn't push the US one step closer to being China where businesses work under a vail secrecy with private deals involving the communist party. Is THAT your goal?

Explain how this helps the American people and the American investor in ANY way!!

History will show how insidious and underhanded this decision was.

Dave Soenen — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Dave Soenen Affiliation: Jun. 21, 2026 David Soenen, Retired, 565 Newman Trl, Stillwater, MN. We need to maintain visibility of financial results quarterly to assure transparency and routine feedback to both the corporation itself as well as investors. Regular feedback does that. Please keep corporate public disclosure quarterly. Bad idea to change it to any longer time period. Thank you.

Dave Soenen

David Balak — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: David Balak Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Quarterly filings are VERY important to me as an investor. So much can happen in a quarter to impact a company's outlook. Stretching filings out to six months leaves investors in the dark. Quarterlies keep companies accountable to stockholders. Reputable companies are not burdened by quarterly filings. Quarterlies are great marketing tools.

David Behsman — Jun 21, 2026
Subject: S7-2026-15 From: David Behsman Affiliation: Jun. 21, 2026 What happens when CEO or CFO find false information. In the report. Legally he or they cannot sign but must have them presented within a timetable for event. From this point of view, I would require the quartly reading signing. With a continuity report every six months. This would allow wrongful quartly reports to be corrected. Both tablouids being sent in for Congress to review.
David H Behsman davidbehsman234@gmail.com

David Carpenter — Jun 21, 2026
Subject: S7-2026-15 Comments From: David Carpenter Affiliation: Jun. 21, 2026 David L. Carpenter, E.A.

Keep the quarterly reporting requirements in place. I perform tax planning with numerous clients, and an important facet of that is reviewing investment accounts and reviewing retirement accounts.

Up to date information is important, particularly when deciding the diversification and consolidation of various investment strategies.

Changing this to semi-annual will disadvantage individuals extremely.

Respectfully,

David L. Carpenter, E.A.

David Chait — Jun 21, 2026
Subject: S7-2026-15 Comment From: David Chait Affiliation: Jun. 21, 2026 More transparency not less. Absolutely do not relax the reporting windows to 6 months. If anything, make it 60 days.

David Crosby — Jun 21, 2026
Subject: S7-2026-15 From: David Crosby Affiliation: Jun. 21, 2026 As an investor, it is imperative to get frequent, accurate, informative data on the companies we invest in. Do not cut this information stream in half. Stay with quarterly Financials!

David Down — Jun 21, 2026
Subject: S7-2026-15 Comments From: David Down Affiliation: Jun. 21, 2026 David Down

It matters. I shouldn’t have to explain this. Look inside yourselves and ask if selling out the American people is worth it. (Of course you’ll think it’s worth it to follow Master’s orders. You’re a small minded and greedy people with nothing but malice in your hearts.)

David Emond — Jun 21, 2026
Subject: Comment on S7-2026-15 From: David Emond Affiliation: Jun. 21, 2026 Transparency for investors is critical and allows individuals to have the information necessary to protect and grow their savings. As individual savings continue to be an increasingly important part of retirement planning, this transparency and access to information is vital. Shifting to semiannual would make it harder to trust US stocks, and impact retirement planning. While I recognize the value of allowing businesses to focus on their actual business, transparency actually helps ensure that focus and accountability to shareholders and investors.

David Emond

David M — Jun 21, 2026
Subject: S7-2026-15 Comment From: David M Affiliation: Jun. 21, 2026 I have no issues with semi-annual reporting but EVERYONE works off the same rules. Insiders DO NOT get special priviledge. Everyone works off the same information. Bigtime lawsuite coming against the SEC if you create a special class of rules..

David M — Jun 21, 2026
Subject: S7-2026-15 Comments From: David M Affiliation: Jun. 21, 2026 It is the quarterly reports that let us know what companies are doing and what big directions they may be going that we do not want them to go in. Removing that ability will give too much leniency to directions by boards of directors who are no longer taking the feedback from the investors. The reports must remain quarterly.

David Marchman — Jun 21, 2026
Subject: S7-2026-15 Comment From: David Marchman Affiliation: Jun. 21, 2026 David Marchman, HR Executive - retired. I spent 30 years supporting board compensation committees. Quarterly reporting was always a challenge and certainly took time and attention from other tasks. But under no circumstance should quarterly reporting be changed to twice per year. In an era of more information everywhere, it seems wrong to expect investors to go with less data and information. Without the enforced regimen of quarterly reporting, businesses have the ability to move off course with little to no oversight for half of the year. --

David Marchman

David Venable David Venable — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: David Venable David Venable Affiliation: Jun. 21, 2026
To the Securities and Exchange Commission:
Limiting reporting and transparency is a criminal violation of protections for investors. These actions are a signal that my investments are daily becoming less and less safe in the American market. I remember Enron from 2001. I see the constant market manipulation with the Iran war and the SEC doing nothing to stop it. We're not stupid. We don't buy the bull **** that this is a "shift to longterm focus." This is to keep regular investors in the dark while insiders rape and manipulate our retirement funds.

David Warren — Jun 21, 2026
Subject: S7-2026-15 Comments From: David Warren Affiliation: Jun. 21, 2026 David Warren, Director of Computing.
As someone with investments in the stock market, I find this proposal completely backwards. Why should the places that rely on your funding get away with hiding what they are doing for even longer. Reporting every 6 months gives too much opportunity to try to hide waste and fraud. In reality, they should be reporting monthly. Internally they are able to do that, so as public entities, this information should be public as well.

David Warren 206 356-3830

Subject: S7-2026-15 Comments From: David Young Affiliation: Jun. 21, 2026 Please keep the requirements for quarterly reporting
Thank you
David Young

Davis Hinkle — Jun 21, 2026
Subject: S7-2026-15 Comments From: Davis Hinkle Affiliation: Jun. 21, 2026 SEC, keep stock info quarterly or monthly. The common invester deserves the same information as the larger invester and companies. You descriminate if you are not equal.

DAVY CROCKETT — Jun 21, 2026
Subject: S7-2026-15 Comments From: DAVY CROCKETT Affiliation: Jun. 21, 2026 Yes to keep Quarterly Reports. How ahead of the game do the Insiders need to be?

Dawn — Jun 21, 2026
Subject: S7-2026-15 Comment From: Dawn Affiliation: Jun. 21, 2026 No one should be able to hide their financials long enough to practice shady business practices at the public's expense.

Sent from my iPhone

Dawn Anzack — Jun 21, 2026
Subject: S7-2026-15 Comments From: Dawn Anzack Affiliation: Jun. 21, 2026 My name is Dawn Anzack and I am a retired commercial lender.

This idea of less reporting is a sham. Corporate boardroom and officers need to be held accountable. Otherwise corporate America Is playing fast and loose with investor money. We only need to look at Private Equity to see the dangers.

We don't need another Enron

Dawn Drozd None — Jun 21, 2026
Subject: File No. S7-2026-15 From: Dawn Drozd I am vehemently against plans to rollback the current quarterly financial reporting rules established after Enron bilked its investors out of millions of dollars. The change tilts the balance of power between public companies and their shareholders in favor of corporate America. I also understand that it has triggered concern among pension funds and investor advocacy groups, who fear that the changes could deprive them of key information about public companies. Do not weaken public protection.

Dawn Hottinger — Jun 21, 2026
Subject: S7-2026-15 Comment From: Dawn Hottinger Affiliation: Jun. 21, 2026 After seeing so much corruption that is overlooked in the Trump Administration, we can't allow more. Rules and regulations are there because people can't and won't follow rules. Keep the check quarterly.

This matters to me because I play by the rules and well-paid CEO's should as well.

Since Trump’s administration is about vengeance I will only sign my first name.

A lot can happen in 6 months. Investors need timely, up to date information to make good decisions about their investments. LESS transparency means MORE fraud. I THINK we all agree that fraud is a bad thing???!!!!!

Dawn McCoart — Jun 21, 2026
Subject: S7-2026-15 Comments From: Dawn McCoart Affiliation: Jun. 21, 2026 Dawn McCoart, public school teacher. Teachers are under paid and have to invest in private retirement funds to supplement future social security funds. It is not okay to create advantages in investing for the wealthy or big corporations that also disadvantages the 99% of us who are already don’t have an inside track to help. Keep Quarterly Reports required for all.

Sent from my iPhone

Dawn Milligan — Jun 21, 2026
Subject: S7-2026-15 Comment From: Dawn Milligan Affiliation: Jun. 21, 2026 I, Dawn Milligan, am a finance director looking to retire soon. I rely on quarterly information to make decisions, and longer gaps create an unfair advantage for corporate insiders. Making it "optional" doesn't fix the problem because companies that opt in are often the ones whose investors most need frequent updates. In short the savings to companies aren't worth the cost to me.

Dawn Trygstad — Jun 21, 2026
Subject: S7-2026-15 Comment From: Dawn Trygstad Affiliation: Jun. 21, 2026 My name is Dawn Trygstad. All Americans need access to quarterly financial data to make good investment decisions with our retirement funds!

Quarterly data is not an excessive burden; it's a well-acceoted, time-tested basic accounting principle.

Thank you.

Dawn Whitney — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Dawn Whitney Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
I am writing to express my opposition to Rule S7-2026-15.
Public company reporting on a quarterly basis plays a critical role in maintaining transparency and allowing investors to evaluate performance, risks, and changing financial conditions in a timely manner. These regular disclosures are essential for informed decision-making and help ensure that market participants are not operating with outdated or incomplete information.
Reducing the frequency or limiting access to this type of information would meaningfully weaken transparency standards and place individual investors at a disadvantage. I respectfully urge the Commission to preserve robust disclosure requirements and avoid any changes that would diminish the availability of timely, decision-relevant information.
I also request that further advancement of this proposal be discontinued.
Thank you for the opportunity to provide comment on this matter.
Sincerely,
Dawn Whitney

Dawson Frisinger — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Dawson Frisinger Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Please disregard this proposal to eliminate quarterly financial reporting. As an investor, I find great value in the quarterly updates of the companies I invest in. Additionally, this hinders the efficiency of

financial markets by reducing publicly available information. As a result, this reduces investors' availability to allocate capital to the most efficient uses and does not jive with the SEC's mission of improving investor confidence through regulation.

Dean — Jun 21, 2026
Subject: S7-2026-15 From: Dean Affiliation: Jun. 21, 2026 Keep the quarterly reports. If you don't it's an invitation for more corruption. Don't give an inch . Dean Shamblen. I'm on Disability. It matters to me because I hate corruption. Wether it's in business or government. Thank you.

Deborah Butler — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Deborah Butler Affiliation: Jun. 21, 2026 Keep the quarterly reporting. It holds companies accountable.

Deborah Casey — Jun 21, 2026
Subject: S7-2026-15 Comment From: Deborah Casey Affiliation: Jun. 21, 2026 Reducing reporting requirements is absolutely wrong. Investors only have the regular reports on which to base their investments, and reducing the number of reports given annually makes investing into the equivalent of a crap shoot. What's more, reduced reporting allows greater opportunity for fiscal malfeasance to

go undetected, and illegal trading to occur. DO NOT reduce the quarterly reporting requirements. That action only benefits the people who are cheating the companies and the investors.

Deborah Cody — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Deborah Cody Affiliation: Jun. 21, 2026 Deborah Cody, Retired Teacher, Rhinebeck, NY. Less transparency is never a good thing. I would like to see the SEC continue Quarterly Reporting as it has been doing since 1970. The middle class is struggling especially since the 2008 housing crisis and the Covid years, as well as Trump's Big Bad Tax Bill which gives tax breaks to the very people who need them least! If it isn't broken, it doesn't need fixing!

Debra Broadus — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Debra Broadus Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
This proposal is not fair to everyday investors. It reeks of favoritism to the upper echelon. I know you are familiar with the saying "The rich get richer while the poor get poorer." The sad part is the saying is true. Every American should have the opportunity to enrich themselves and their families. You do not want to pay a livable wage. You also do not want to fund any programs to help those who are not capable of making any wages at all. We are not asking for handouts. We are asking for fairness.
Debra Broadus

Debra Caamano — Jun 21, 2026

Debra Harton — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Debra Harton Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Quarterly reporting should be the minimum. Monthly reporting may be better for the people. Unfortunately, the few bad apples make it difficult for people to receive the information they need to make changes necessary for their own best interests. Reducing the reporting standards to less than quarterly puts people at a disadvantage. They need the information to make informed decisions.

debra henderson — Jun 21, 2026
Subject: S7-2026-15 Comments From: debra henderson Affiliation: Jun. 21, 2026 Hi there,
I would like to comment on the topic of the SEC potentially changing reporting from quarterly to bi-annual. I have a very modest portfolio and a significant amount of it is in the stock market. It concerns me that by changing the reporting you are reducing TRANSPARENCY. The public should have access to any and all information more than twice per year. Please DO NOT change the quarterly reporting as it will not be helping the general public. In fact, just who would be benefiting from the change? Please continue quarterly reporting so you can maintain trust.
Thank you.

We enter every earnings report into our accounting system, so we are able to make investment decisions. Semi-annual reports are almost useless when making decisions. We would be forced to TRUST the unseen, unknown, corporate officers to make decisions for us. We like making our own decisions, especially when it involves our retirement. Semi-annual reports are dangerous and almost useless. The reporting requirements should NOT be changed to protect the investing public.

Delbert Schafer — Jun 21, 2026

Denise Roznowski — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Denise Roznowski Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Hasn't the system always been giving the upper hand to those in finance and financial institutions alike? They put rules in place but those who work amongst people in finance and have inside knowledge as it is will always have the upper hand. Why can't we level the playing field for once. They lobbied against our best interest when the housing market crashed and now there are so many people homeless and the American dream is unobtainable to most. They lobbied to do everything they can think of to keep the businesses keeping the revenue increasing while they pay their employees less and less and the people it really hurts are the ones doing all the work. This is the only opportunity we have too secure our future financially. It would not be fair to remove the clarity and the access to important information to everyone who invested when it's critical upon deciding where your money will be safest and how to invest. When the companies are abiding by different reporting it makes things confusing and hard to predict future outcomes. The market should already be level playing field for all investors small and large.

Denise Tomlinson — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Denise Tomlinson Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
I am completely against this change because lack of transparency opens the door to fiscal corruption that harms all investors.

Our economy flourishes in the light, not the dark. Fairness.

Diane Tillio — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Diane Tillio Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Subject: My view on Rule S7-2026-15
We need more disclosure from public companies, not less. I've worked hard to save my money and invest it when I could. I quarterly review my investments, savings and checkbook, and I need accurate, timely information to make decisions to protect my assets and grow wealth. If a bad deal, a scam, or lawsuits, etc., occur without my knowledge, I'm flying blindly.

Diane Zurad — Jun 21, 2026
Subject: S7-2026-15 From: Diane Zurad Affiliation: Jun. 21, 2026 Corruption is rampant in our government, especially throughout the Republican party. Changing back this law will produce more corruption and theft. It’s really quite simple…SEC, stick with the Quarterly Reporting!! It’s made a HUGE difference in corporate ethics and honesty!

Dianne Campbell — Jun 21, 2026
Subject: S7-2026-15 Comment From: Dianne Campbell Affiliation: Jun. 21, 2026 Lack of reporting leads to fraud, waste and abuse. President Trump appointed VP J.D. Vance to address this. To not require reporting is counter intuitive to this initiative. The shareholders have a right to reporting.

B. Dianne Campbell

Dianne Ellison — Jun 21, 2026
Subject: S7-2026-15 Comment From: Dianne Ellison Affiliation: Jun. 21, 2026 This bad for America, publicly traded companies must report quarterly to allow shareholders to be informed investors and keep corporations from manipulating their numbers and also engaging in insider trading. Doris Adebanjo — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Doris Adebanjo Affiliation: Jun. 21, 2026 To SEC:

Quarterly reporting by companies should remain the law. Reporting on how a company is doing should not be secreted from public view especially when the company is a publicly traded company. Where the public that is unaware of a company's progress or non-progress only someone who is working inside the company would be reaping benefits, because they could know if a company is doing poorly or well. Insiders could protect their interests by making decisions to pull investments or invest more if company is doing well and enrich their pocketbooks while non- insiders are left holding the bag when companies falter!
This type of regression to 1955 rules would be a theft of public funds and trust. It should be illegal to suggest such a thing and should never be allowed.

Thank you!
Doris Adebanjo

Dorothea Scott — Jun 21, 2026
Subject: S7-2026-15 From: Dorothea Scott Affiliation: Jun. 21, 2026 Enron Fallout

Do NOT reduce the current reporting mandate. To do so would be beyond irresponsible. We're sick and tired of being stolen from. Sick to death of being told our wellbeing and 'affordability' range don't matter, as long as those who know how to manipulate our disgraceful financial system flat out steal moneys the average American is desperate for. We're barely surviving while amoral millionaires and billionaires literally rape our incomes, to support disgustingly over-lavish, fantasy lifestyles.

The GOP has systematically gutted the ability of average wage-earners, let alone retirees living on Social Security and/or pensions that were once able to supplement wholly inadequate Social Security payments — which now cover less than three tanks of gas. Not even one week's worth of groceries.

I'm absolutely disgusted to think that Enron-emulating businesses, among others, could be re-enabled to take more food from our increasingly thin tables, or the heat and air conditioning literally required to live.

NO, NO, NO! Hell no!!

NO.

Dorothy Greenough — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Dorothy Greenough Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
I would really like to say it would be ok to extend the timeline for reports. However, todays world is all about me. People do not want to be accountable for their actions. Accountability is needed desperately for all actions, business or personal. So, I feel we need to maintain current rules for accountiblity.

Dorothy Hatfield — Jun 21, 2026
Subject: S7-2026-15 From: Dorothy Hatfield Affiliation: Jun. 21, 2026 What is the matter with you?

Who is it you are supposed to serve?

Hint: It is not the corporations.

Here is what comes from your own website (BTW MacAfee says taking your survey is suspicious and could compromise my computer - nice job- not!):
"Mission
At the Securities and Exchange Commission (SEC), we work together to make a positive impact on the U.S. economy, our capital markets, and people's lives.

Since our founding in 1934 at the height of the Great Depression, we have stayed true to our mission of protecting investors, maintaining fair, orderly, and efficient markets, and facilitating capital formation.

Our mission requires tireless commitment and unique expertise from our staff of dedicated public servants who care deeply about protecting the investing public and others who rely on our markets to secure their financial futures."

How does requiring less of the corporations serve investors?

I know 1934 is a long time ago and so your memories may have faded but - DO YOUR JOB!!

Stay true to the mission before we experience another Great Depression. How much more economic pain do the American people need to endure? Food pantries are showing an uptake of people in need of food assistance. Or maybe you have taken on a new role to protect the corporations (since apparently they are people too?).

D. Hatfield, retired, 91360

Dorothy Heckman — Jun 21, 2026

Subject: S7-2026-15 Comment From: douglas hunkins Affiliation: Jun. 21, 2026 I wondered how you could make citizens distrust big buisness more. very creative. why bother making corporations report at all?

Douglas J Teece — Jun 21, 2026
Subject: S7-2026-15 Comment From: Douglas J Teece Affiliation: Jun. 21, 2026 Sorry! Your responsibility to report quarterly is an ongoing obligation you don't get to shrug off. As a retired investor I need to know the SEC is doing 'everything' it can to inform, communicate and provide significant tools that help me make smart investments. You don't get to reduce your responsibilities and that's that. Your work and purpose is to communicate to the investors and don't even consider something less which is exactly what you're trying to do. It's outrageous!

Sincerely yours,

Douglas J Teece,
Saint Peters Missouri.

Douglas Johnson — Jun 21, 2026
Subject: S7-2026-15 Comment From: Douglas Johnson Affiliation: Jun. 21, 2026 In a time of great distrust of the systems of America, and especially of the Epstein class, reducing corporate reporting by half will be a major addition to that distrust.

As a retiree managing my retirement portfolio, trusting the corporations that make up my portfolio, and their associated regulatory agencies, is critical. Reporting must remain quarterly to maintain that trust.

Douglas F. Johnson, Ph. D.
Associate Director
University of Florida Academic Technology (Retired)

Peace,

Doug

dynda post — Jun 21, 2026
Subject: S7-2026-15 From: dynda post Affiliation: Jun. 21, 2026 This system is fragile enough without reducing accountability. You cannot fix this after it is done and so many people depend upon the system being ethical without any way to check up. That is your job SEC so do it.
Hon. Dynda Post, retired District Judge, Oklahoma

E Gibson — Jun 21, 2026
Subject: S7-2026-15 Comments From: E Gibson Affiliation: Jun. 21, 2026 I believe this proposed change is part of a slippery slope, a deliberate attempt to weaken laws regulating major companies that have an outsized effect on individual consumers. We need this transparency to ensure consumers and investors are able to make informed decisions. Semi-annual reports are too far apart to keep consumers and various agencies abreast of what's happening within a given company and within a given industry as a whole.
Respectfully,
Kimberly Pickens

EbWireman — Jun 21, 2026
Subject: S7-2026-15 Comments From: EbWireman Affiliation: Jun. 21, 2026 My name is Eleanor Wireman, I am a civil servant who protects water from non-point pollution. My investments are diverse and sit with several fund managers. But my state pension is my biggest safety net for my future. I think quarterly reporting is critical so that shareholders can keep track of investments. I also think ALL companies should be required to report on ESG.

Despite the head-in-the-sand idiocy of the GOP, climate impacts and external costs already hurt our economy. I don't want to invest in a company whose management and board are too stupid to plan for possible damage to their manufacturing center, or anticipate possible delays in their supply chain because of severe weather, floods, or fires.

The rich can afford to lose more than civil servants and regular workers.

Keep quarterly reports so people can watch for concerning trends and instability in the markets.

Ginger Wireman, Richland WA

Subject: S7-2026-15 Comment From: Elemental Sapient Affiliation: Jun. 21, 2026 It's stuff like THIS that that makes me feel that it's time we get rid of the federal gov, they have zero interest in anything, but our money. May they all have the life and after life they all deserve. Do what is in the BEST INTEREST of the MAJORITY OF PEOPLE in the USA, not what might be best for you. KEEP IT QUARTERLY. Anything else just makes you part of the corruption and shame upon you.

Elijah Douglass — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Elijah Douglass Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Don't change the rules. This is bad for retail investors - why should they have less access to financials than insiders? System already feels rigged against normal people. This makes it worse.

help the little guys for once

Elisa Espinoza with Dreamworld Vacation Concierge — Jun 21, 2026
Subject: S7-2026-15 Comment From: Elisa Espinoza with Dreamworld Vacation Concierge Affiliation: Jun. 21, 2026 I strongly oppose any proposal that would allow public companies to reduce the frequency of their financial reporting from quarterly to semiannual reporting.

For more than 50 years, quarterly reporting has provided investors with timely, consistent, and transparent information about the companies they own. Reducing reporting frequency would create a significant disadvantage for individual investors while executives, insiders, attorneys, analysts, and large institutional investors continue to have greater access to information.

I worked in the utility sector during the Enron scandal, and that experience reinforced the importance of transparency, accountability, and timely financial disclosures. The consequences of inadequate oversight and delayed visibility into a company's true financial condition can be devastating for investors, employees, customers, and the broader economy.

The lessons from Enron should not be forgotten. Strong reporting requirements exist to protect investors and promote confidence in our financial markets. Allowing companies to report less frequently could make it easier for financial issues or operational problems to remain hidden for longer periods of time.

The SEC's responsibility is to protect investors and ensure fair and efficient markets. Reducing reporting requirements would weaken those protections and place ordinary investors at a disadvantage.

I urge the SEC to reject this proposal and maintain quarterly reporting requirements for public companies.

Thank you for considering the concerns of investors who depend on timely and equal access to reliable financial information.

Thank you, and kind regards,

Elisa Espinoza
Escondido, CA

Sent from my iPhone

Elissa Malcohn — Jun 21, 2026
Subject: File No. S7-2026-15 From: Elissa Malcohn I write in opposition to the proposed SEC rule,

File Number S7-2026-15. As a retail investor, I rely on public filings, unlike an insider who can obtain information from corporations in circumvention of the proposed rule. Less frequent reporting means that less information is available for making investment decisions, It also increases the risk that problems (like fraud or financial distress) go undetected, thereby fueling increased market volatility and poorer financial outcomes. Quarterly reports are critical to help retail investors evaluate whether a stock is worth buying, holding, or selling. History has already borne out the deleterious consequences that result from decreased reporting frequency. In 1955, the SEC required companies to report earnings only twice per year. That change yielded lower returns and lower valuations, including a price/earnings ratio of 16.5x over the 15 years of semiannual reporting. In the more than 50 years since the SEC returned to quarterly reporting in 1970, steadily increased compounding of the market yielded a P/E ratio of 26.7x. Erasing that increase would wipe out 38.2% of invested savings. H. Rodgin Cohen, Robert W. Downes, and Mario Schollmeyer, Sullivan & Cromwell LLP, point out that filing costs are, by and large, not at issue here: "Many issuers are subject to other requirements to prepare quarterly financial information, including regulatory reporting requirements and financial information covenants in debt instruments. Therefore, moving to semiannual reporting will have a limited effect on their cost burden..." They further write that a "'one-size-fits-all' regulatory framework" may be inappropriate for smaller issuers. ("SEC Proposes to Implement Optional Semiannual Reporting," Harvard Law School Forum on Corporate Governance, May 15, 2026) The SEC should learn from history and not tempt the destruction of wealth, particularly the life savings on which private citizens depend. Reject the proposed rule S7-2026-15.

Elissa Taylor — Jun 21, 2026
Subject: S7-2026-15 Comments From: Elissa Taylor Affiliation: Jun. 21, 2026 Do NOT Allow the SEC to do this to the public
Companies - Wall Street and the entire Government need to continue striving for Complete TRANSPARENCY
The people of this country deserve it
And so much more
Sincerely
Elissa Taylor

Eliza Wierzbic — Jun 21, 2026

As a retired professional dependent on investment income, it is imperative that we can trust company executives are held accountable to maintain situational awareness & operations oversight supporting best practices & financial rigor. Thank you.

Sent from my iPhone

Elliot Ziel — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Elliot Ziel Affiliation: Jun. 21, 2026 I oppose proposed Rule S7-2026-15.

Quarterly disclosures are important because they give ordinary investors timely, standardized information about public companies. Reducing required reporting from quarterly to semiannual would make it harder for individual investors to understand changes in a company's performance, risks, debt, cash flow, and overall financial condition.

Large institutions often have access to analysts, private data sources, management meetings, and expensive research tools. Retail investors usually do not. Quarterly reports help narrow that information gap. If companies are allowed to wait six months between required reports, smaller investors could be left reacting late while better-resourced market participants have more ways to fill in the blanks.

The current quarterly reporting system is not perfect, but it provides a regular baseline of transparency. Public companies benefit from access to public markets, and regular public disclosure should remain part of that bargain. Less frequent reporting could weaken investor confidence, reduce market fairness, and make it easier for problems to stay hidden longer.

I urge the SEC not to adopt this proposal and to preserve quarterly reporting requirements for public companies.

Elliott Brown — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Elliott Brown Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
What in the hell are you all doing to protect the common citizen? Transparency and accountability must be the foundation upon which our economic system is based. We need to enforcequarterly reporting for all companies.

We can either have a system that works for everyone…or a system that will eventually work for no one.

Thank you,
Elliott Brown

Eric Thompson — Jun 21, 2026
Subject: S7-2026-15 Comment From: Eric Thompson Affiliation: Jun. 21, 2026 Publicly traded companies hold a fiduciary responsibility to the investors. Not allowing investors to keep a finger on the pulse of their investments creates an irresponsible level of risk to a risk based investment system. Especially in an era where insider trading within the government is highly suspect, reducing the public's ability to judge the wisdom of their investment choices creates an unbalanced advantage and potentially reduces effectiveness of boards of directors.

Eric White — Jun 21, 2026

Evelyn Gilbert, ministry assistant

Evelyn Ondaro — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Evelyn Ondaro Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
As investors we need transparency from the public companies we invest in. It's important to have quarterly reports to help us make informed decisions about our investments. The more information we have the better.

Evelyn Pape — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Evelyn Pape Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
I am increasingly concerned with the trend away from protecting and informing consumers and instead funneling even more power and control to the wealthiest in our country. We are well on our way to becoming an oligarchy, and that is dangerous to our country as a whole. I strongly urge the SEC to continue to require quarterly reports, as they have for the last fifty-plus years! I am an activist, and I will be sharing my concern and asking others to comment as well.

Evelyn Provell — Jun 21, 2026
Subject: S7-2026-15 From: Evelyn Provell Affiliation: Jun. 21, 2026 Keep the reporting quarterly!
Evelyn Provell

There is enough fraud don’t add more to it. Transparency is what we investors need to base our financial decisions in the system.

Ferron — Jun 21, 2026
Subject: S7-2026-15 Comment From: Ferron Affiliation: Jun. 21, 2026 I don't approve of companies having more ease to use deception to disadvantage its investors.

Fez Miester — Jun 21, 2026
Subject: S7-2026-15 From: Fez Miester Affiliation: Jun. 21, 2026 Since this president wants a whole bunch of new banks and crypto for

his own enrichment, I think it's very important for this rule to stay in place. Thank you.

Life is not in the journey
Life is not in the destination
Life is the juice in making the decisions ~
~You have to play before you can play ~
Fez Miester

Jumping from failure to failure with undiminished enthusiasm is the big secret to success. Winston

Churchill

Live as if you were to die tomorrow, learn as if you were to live forever ~
Gandhi

Cultivate inner wealth. It'll never be taxed, you can't lose it, it can't be stolen, and it's completely portable! Symptoms of Stealth Wealth include presence, flexibility, patience, compassion, enthusiasm, spontaneity, and curiosity.
There is a right speed to do things. Live too fast and you rip the fabric of life, miss the moment and live shallowly. Live too slowly and you lack courage and resolve, goals and drive. Live at the richest pace.

Every morning when I open my eyes I think; "Good, I'm still here!"
Appreciation puts things in perspective.

The feeling of abundance does not come from stashing away. It comes from giving away.

Everything is energy and that's all there is to it . Match the frequency of the reality you want and you cannot help but get that reality . It can be no other way. This is not philosophy this is physics. ~
Albert Einstein

"The universe is a communion of subjects, not a collection of objects." Thomas Berry

For your life & the world of others are:
“The meeting of two personalities is like the contact of two chemical substances: if there is any reaction, both are transformed.”
—C.G. Jung

“If we ever reach the point where we think we thoroughly understand who we are and where we came from, we will have failed.”~
Carl Sagan

The trick is to keep asking “why?” until there are no more whys to be asked. Is your final why answered with a belief; on what your parents or peers told you, on what your culture says is true? If so, you are in "church", and no matter how much you believe it, it may or may not be true. If you find yourself in church start with scientific facts-like laws of physics and mathematics and and reason up. Ask- "Is there any way this idea disobeys the laws of physics?" Only then can you discover what is really possible. This is called "reasoning from first principles." WaitbutWhy.com

"You can get more stinkin from thinkin than drinkin but to feel is for Real."-Sufi Joe Miller

“The greatest enemy of knowledge is not ignorance, it is the illusion of knowledge.” Stephen Hawking

What great thing would you achieve if you knew you could not fail?"~

& your story is being told:
"There are three points of view from which a writer can be considered: he may be considered as a storyteller, as a teacher, and as an enchanter. A major writer combines these three — storyteller, teacher, enchanter — but it is the enchanter in him that predominates and makes him a major writer." Vladimir Nabokov

"One of the reasons I am teaching this music and dancing is to increase Joy, not awe towards another person, but bliss in our own self. This is finding God within, through experience."
~ Sufi Sam

"Words are not peace. Thoughts are not peace. Plans are not peace. Programs are not peace. Peace is fundamental to all faiths. Peace is fullness, all inclusive...and must be experienced."
~Sufi Sam

You're guaranteed to get older so be your future self's best friend now.

Fran Downey — Jun 21, 2026
Subject: S7-2026-15 From: Fran Downey Affiliation: Jun. 21, 2026 Keep the reporting quarterly. At

the very minimum certain companies that have high debt ratios or an insufficient cash flow to pay off their debt without refinancing the balance should have to report on a quarterly basis. That can be tweaked no doubt. We have the 2008 housing debacle and more recent the Tricolor used auto dealer fraud as examples of what happens when the “ system “ loosens standards.
Fran D.

Fran Howard — Jun 21, 2026

frankn28 — Jun 21, 2026
Subject: S7-2026-15 Comments From: frankn28 Affiliation: Jun. 21, 2026 If you do this, you are OK with the grifters, insider trading, and all other illegal actions.

I know this abhorrent administration only cares about the wealthy and screwing Americans, but doing this would mean you're on the take as well.

This quarterly reporting was there to make sure companies are held accountable and people don't lose all they have.

Worldcom, Enron, Theranos, Tyco, and HealthSouth all cooked their books and many people lost everything, as well as the jobs of millions.

Have a backbone and some ethics and keep the quarterly reporting. Non-wealthy Americans matter

and this country needs you and leaders who care about all of us and this country.

Gabriel Lear — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Gabriel Lear Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
S7-2026-15 Is an extremely risky rule change. You are advocating for these companies to essentially only have to do what is a Q-10Q but fewer times a year. (Would be a Q10-S if you move forward with this.

the biggest issue with investing in anything is transparency. These corporations don't care about the cost, they want to just not file the paper work and fluff up their books in the mean time.

This rule opens the doors to excessive deregulation. The American economy only works because of the transparency compared to other nations.

I would like to all to take a moment and ask yourselves. Why would you change that?

Gabriela Molina — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Gabriela Molina Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Taxpayers deserve to have more information not less about the investments that will determine our retirement and livelihood.

Gail S — Jun 21, 2026
Subject: S7-2026-15 From: Gail S Affiliation: Jun. 21, 2026 I am Gail Spragins, retired librarian, living in a tiny town in Middle Tennessee. I am also a recent widow of a cancer survivor who held on for many years post cancer. He died last year, telling me how tired he was of fighting. When we were so young, we decided to enhance our savings by investing in Enron. It was a difficult decision, but we trusted the things that Enron officials were telling our bankers. Oh, we all were duped by Enron, and we lost our investments. It was a painful, expensive lesson for us. We trusted and accepted the lies and the loss. It was unforgettable and marked us because we had trusted the word of others. We walked away from the loss, and painfully never forgot. I do not think asking for verification and asking CEOs to stand behind their word is too much to expect. You should be trustworthy. Many young investors are counting on you to tell the truth...always.

Garry Stenzel — Jun 21, 2026
Subject: S7-2026-15 Comments From: Garry Stenzel Affiliation: Jun. 21, 2026 I am writing to advocate for the preservation of our current reporting framework. It is my firm belief that maintaining the existing process is paramount for upholding the foundational principles of transparency and ensuring the unhindered flow of public knowledge.

The established system has proven effective in delivering clear, consistent, and accessible information, fostering an environment of trust and accountability. Any alterations to this methodology could inadvertently compromise the integrity of our data dissemination, potentially leading to a decline in public confidence and a hindrance to informed decision-making.

I urge you to consider the significant value derived from our current practices, which robustly support open communication and comprehensive understanding for all stakeholders. Prioritizing the continuity of these transparent operations is essential to guarantee that crucial information remains readily available and comprehensible to the wider public we serve.

Garten Pollard — Jun 21, 2026
Subject: S7-2026-15 From: Garten Pollard Affiliation: Jun. 21, 2026 Why change what’s working. Keep it as is! Oversight is a good thing. Don’t change the rule now.

Gary Askenas — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Gary Askenas Affiliation: Jun. 21, 2026 Gary Askenas,

retired, Georgia:

Quarterly reporting insures that we have information on our investment status on a timely basis.
In a time when stocks move significantly in one day, it's a necessary tool that helps investors to have an up to the minute assessment of the near term future of our positions.
If we lose this valuable and indispensable decision making tool, we have a greater chance we can lose the hard earned dollars we worked and saved our entire lives for.
Please do not go back to semi annual reporting, history tells us this is the wrong direction to take!
Please keep the quarterly reporting to help investors to survive and thrive in these very turbulent economic times.
Thank you,
Gary

Gary Huffman — Jun 21, 2026
Subject: S7-2026-15 Comment From: Gary Huffman Affiliation: Jun. 21, 2026 The more transparency, the better. If you got nothing to hide, why be against quarterly reporting? It has nothing to do with looking after investors or the little guy. It's all about greed, corruption and a flaggerant middle finger to everyone who's not in the upper echelon. It's all about greed and power!

Gary L. Huffman

Gary Knipe — Jun 21, 2026
Subject: S7-2026-15 Comments From: Gary Knipe Affiliation: Jun. 21, 2026 Please keep the requirement for corporations to report quarterly. This information is vital to protecting the assets of small investors. Thank you!

Thanks,

Gary

Gary Krumenacher — Jun 21, 2026
Subject: S7-2026-15 From: Gary Krumenacher Affiliation: Jun. 21, 2026 Chi Krumenacher, PhD Accountability should be a priority for every business concern in this country. If a business is operating honestly then there should be no question about being reviewed by the proper authorities. Citizens cannot scrutinize every transaction and business operation. CEO's are humans who are all too often tempted to serve their own desires rather than those of their share holders and employees. If they are dishonest then they need to be brought to justice. That is plain and simple.

Gary Lampman — Jun 21, 2026
Subject: S7-2026-15 From: Gary Lampman Affiliation: Jun. 21, 2026 WTF is wrong with the ultra corrupt SEC! IT is clear that the CEO's are greedy criminals who commit crimes every day and assholes in government green light this behavior!
Enron destroyed lives and you want to return to that time? Go **** yourself!
I have worked all my life and have never been so disgusted with corporations and billionaires shafting the working class.
My name is Gary Lampman, a Service Technician who lives in Nashville, Tn.
I remember Enron like it was yesterday!

Giles Bowkett — Jun 21, 2026
Subject: S7-2026-15 Comments From: Giles Bowkett Affiliation: Jun. 21, 2026 Hello. My name is Giles Bowkett. I am a software engineer. Quarterly reporting is absolutely necessary. Studies show that abandoning this standard increased stock market volatility in the UK and the EU, where it also enabled Wirecard's multi-billion dollar fraud and has cost London a ton of IPOs. Singapore moved to semiannual reporting in 2020 and is now reconsidering, because trading volumes fell and disclosure quality dropped. Prior to the tariffs of 2024, the US was widely respected and trusted as a place to do business and invest money. We cannot afford any further degradation to that global reputation. Our high standard of disclosure upholds that reputation, which is a treasure to maintain and preserve. This proposed rule change is an outrage and should not even be on the table. It's absurd, and obviously designed to enable abuse and insider trading.

Gillian Stewart — Jun 21, 2026

Gina Young — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Gina Young Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Only releasing a bi-annual report leaves lots of time for a few "bad seeds" to take advantage of the changes.
When investors are informed, they tend to continue investing. Take that away, and open up the chance for corruption, and people will shy away from investing.

Ginger Wood-Oguno — Jun 21, 2026
Subject: S7-2026-15 Comments From: Ginger Wood-Oguno Affiliation: Jun. 21, 2026 Keep it QUARTERLY!! We need to SEE in order to UNDERSTAND our investments.

Ginny McAvinney — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Ginny McAvinney Affiliation: Jun. 21, 2026 Do not change!! Retired, no job title, but I sure have a stake in this as do my working husband and children.

Ginny Murphy — Jun 21, 2026
Subject: S7-2026-15 Comments From: Ginny Murphy Affiliation: Jun. 21, 2026 No way, the corporate investors have too much of an advantage already. Definitely no to this proposal!

Glenda Beck — Jun 21, 2026

Subject: My view on Rule S7-2026-15 From: Glenda Beck Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission: the SEC has already stolen billions of dollars. Hold them responsible going ahead in the future. Keep them honest!

Glenda Bitner — Jun 21, 2026
Subject: S7-2026-15 Comments From: Glenda Bitner Affiliation: Jun. 21, 2026 I strongly believe this will only serve as a means for allowing unchecked fraud. Quarterly reporting
is essential to maintain honesty.

Glenda Boyle — Jun 21, 2026
Subject: S7-2026-15 Comment From: Glenda Boyle Affiliation: Jun. 21, 2026 I respectfully urge the SEC to continue to require quarterly reporting for the well-being of all investors in the stock market. Even professional investors will be hampered if they have only outdated information with which to work. I remember the Enron scandal, and there was good reason to tighten reporting requirements! Something similar could happen again, given less transparency.

Requiring quarterly reporting for businesses protects the integrity of the stock market. For the welfare of the entire US economy, I implore you not to change this rule.

Sincerely,
Glenda Boyle

Glenda Person — Jun 21, 2026

Grace Dietrich — Jun 21, 2026
Subject: S7-2026-15 Comment From: Grace Dietrich Affiliation: Jun. 21, 2026 Grace, store associate at a non-profit who has retirement in the stock market.
This change harms investors and the general public by allowing corporations to operate with reduced oversight and public scrutiny. The minor cost saving obtained by removing 2 reporting periods is overshadowed by the reduction in accountability and transparency.

Grace

Grace Niu — Jun 21, 2026
Subject: S7-2026-15 Comments From: Grace Niu Affiliation: Jun. 21, 2026 My name is Grace N. I'm a retail investor, and my elderly parents have many thousands tied up in stocks and mutual funds, and my mother is disabled with Parkinson's disease. Sarbanes-Oxley is not a suggestion, and reporting should be kept quarterly. There is no one being helped by letting quarterly reporting become semiannual besides bad actors and insider traders. The people who hired the overpaid lobbyists who are pretending that making quarterly reporting optional is a good decision that'll cut "red tape" (read: basic due diligence) should all have their hard drives checked for a second set of books.
These lobbyists and their bosses should go work on a farm for free for 7 years while their landlord/owner embezzles all their wages and then someone should ask them if they think that farm should

have government oversight. —That last sentiment was rhetorical and a joke. Slave labor and embezzlement is very, very bad. These C-levels might not realize it yet though!
In other words, what is it that makes you think that any normal investor should have to do all the grunt work of ever working for a living and choosing how to invest their itty bitty chump change savings if these executives and their institutional investors will suddenly be allowed to operate with half as much transparency as before? And run off with double the embezzled funds? Think of who you're really working for. Think about it again. Now back away from the autopen.

Grace Rael — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Grace Rael Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Limiting reporting causes transparency issues. Especially as an investor who relies on my investments to make informed decisions to add value as I'm retired and rely on my monies to live. Please reconsider SEC reporting.

GRACE stodolaa — Jun 21, 2026

Gwendolyn Bare — Jun 21, 2026
Subject: S7-2026-15 From: Gwendolyn Bare Affiliation: Jun. 21, 2026 Wendy Bare , retired, Richmond, VA. As stockholders , WHY would we need to WAIT 6 months to find out how a company we own shares in is doing? Each company MUST be keeping daily, weekly, monthly records and reporting it to the higher ups and CEO. With today's technology, it is a very inexpensive thing to get these quarterly reports, which then let us, the stockholders, see how the company is doing, how well the company is using MY money, and also lets me know if they are failing more quickly! NO GOOD REASON to make it every 6 months unless they are trying to hide something. KEEP IT QUARTERLY!!

Sent from AOL on Android

Hank and Pat — Jun 21, 2026
Subject: S7-2026-15 Comment From: Hank and Pat Affiliation: Jun. 21, 2026 If this protects investors less, then I ask that you DO NOT pass this bill. The American people rely on the govt to protect us from fraud, especially when the govt is responsible for overseeing the regulations. Please protect the consumer.

Who proposed this bill?

Hannah — Jun 21, 2026
Subject: S7-2026-15 Comment From: Hannah Affiliation: Jun. 21, 2026 Quarterly reporting promotes transparency in a timeframe that is not burdensome for public companies. This proposal is very clearly designed to create more opportunity for fraud and abuse among insiders. We have already seen what happens when quarterly reporting is not required for public companies. This proposed rule would be catastrophic for the majority of American investors.

Hannah McAffee — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Hannah McAffee Affiliation: Jun. 21, 2026 Because the SEC values unique perspectives over form letters, write a message in your own words. You can use the following points to guide your specific argument as to why moving from quarterly to semiannual reporting is bad for investors:

Hans Nelson — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Hans Nelson Affiliation: Jun. 21, 2026 I am writing as an individual retail investor to oppose allowing public companies to move from quarterly to semiannual reporting. I work full time as a public health specialist for the U.S. Department of Veterans Affairs, and I am writing only in my personal capacity, not on behalf of the VA or the federal government. Like many ordinary investors, I do not have access to private briefings, Wall Street research teams,

company management, or expensive data services. I rely on public filings to understand what is happening with the companies I invest in. Quarterly reports give me a regular, standardized way to check whether a company's financial condition, risks, debt, revenue, or operations are changing. Waiting six months between required reports would make me feel like I am investing with less visibility while larger and more sophisticated investors are likely to have better information than I do. I understand that public companies may prefer fewer reporting obligations, but from my perspective as a regular person trying to save and invest responsibly, quarterly reporting is one of the basic protections that helps keep the market fair. Please preserve mandatory quarterly reporting.

Hans Schellhas — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Hans Schellhas Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Please keep this important requirement for public trust and accountability

Heather Fasano — Jun 21, 2026
Subject: S7-2026-15 Comment From: Heather Fasano Affiliation: Jun. 21, 2026 Not one bit of this makes sense. Normal people can't find jobs, shelter, or food consistently so until that is fixed nothing should be done by government to assist business with anything. It doesn't help the people that are forced to participate and actually pay for the system it shouldn't exist. Companies are not people, period!

Heather Havey — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Heather Havey Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission: Quarterly disclosures help traders make informed decisions, and the SEC shouldn’t take vital information away from retail traders. Thank you.

Heather K. — Jun 21, 2026
Subject: S7-2026-15 Comment From: Heather K. Affiliation: Jun. 21, 2026 Quarterly reports are essential for investors. After the debacle in 2008, the public requires this transparency.

Thank you,
Heather Keeley

Heather Lash — Jun 21, 2026
Subject: S7-2026-15 Comments From: Heather Lash Affiliation: Jun. 21, 2026 **** that, corruption and insider trading is at an all time high! Keep SEC reporting quarterly to save humanity!

Heather Lash — Jun 21, 2026
Subject: S7-2026-15 Comments From: Heather Lash Affiliation: Jun. 21, 2026 Financial misconduct, like corruption and insider trading, severely jeopardizes market integrity and investor trust. The SEC must significantly enhance quarterly reporting requirements. Robust transparency and oversight are essential to foster accountability and protect our financial system's stability and fairness.

Heather McAdam — Jun 21, 2026
Subject: S7-2026-15 From: Heather McAdam Affiliation: Jun. 21, 2026 Don’t loosen corporate accountability!

Heather Meadows — Jun 21, 2026
Subject: S7-2026-15 Comments From: Heather Meadows Affiliation: Jun. 21, 2026 My name is Heather Meadows, and I work in tech. Quarterly reporting is vital for citizens to know how to invest. Investing has become critical for retirement income. If citizens lose money due to not having enough information to make good investment choices, they will be at a disadvantage later in life when they can no longer work. Our government ultimately works for the citizens. It should do nothing to jeopardize their future. Moving to half-year reporting would absolutely jeopardize the future of us all—of our nation.

Thank you for your time.

Heather palumbo — Jun 21, 2026
Subject: S7-2026-15 Comment From: Heather palumbo Affiliation: Jun. 21, 2026 Transparency must be a priority. We have a right to know as consumers and tax payers.

Heather Palumbo

Heather Rippert — Jun 21, 2026

Subject: S7-2026-15 Comment From: Heather Rippert Affiliation: Jun. 21, 2026 Dear SEC,

I am writing to express my strong opposition to the proposal to reduce quarterly reporting to every six months. As a working artist, I believe that maintaining quarterly reporting is essential for several reasons:

- Informed Decision-Making: As an artist, I rely on timely financial information to make informed decisions about my projects, collaborations, and investments. Quarterly updates provide the necessary insights into market trends and financial health that help me navigate my career effectively.

- Leveling the Playing Field: Longer reporting gaps create an unfair advantage for corporate insiders who have access to non-public information. This disparity can hinder my ability to compete in the marketplace and affects my overall financial planning.

- Ineffectiveness of "Optional" Reporting: The suggestion that companies could opt into quarterly reporting does not address the core issue. Often, the companies that choose to opt in are those with investors who require more frequent updates, leaving many artists and stakeholders without the necessary information to make sound decisions.

- Cost-Benefit Imbalance: While the proposed change may result in cost savings for companies, these savings are not worth the potential costs to artists like myself. The value of consistent, transparent reporting far outweighs any financial benefits gained through reduced frequency.

I urge the SEC to reconsider this proposal and recognize the importance of maintaining quarterly reporting for the health of the arts sector and the broader economy.

Thank you for your attention to this matter.

Sincerely,

Heather Rippert, Artist

Helen Cryer — Jun 21, 2026
Subject: S7-2026-15 Comment From: Helen Cryer Affiliation: Jun. 21, 2026 My name is Helen Cryer. I have spent 40 years in accounting for financial institutions. It is both common and required that I balance their investment portfolio and calculate their interest income every month. To tell me, I do not need to know my financial status but every 6 months is madness. It gives me no opportunity to mitigate my losses or accentuate my gains. I deserve better and you know that. I will accept quarterly reporting but semi annual is completely unacceptable. I will pull all my investments before I let you manipulate my money for half year. I truly believe I deserve the same information about my money that my banks have. Banks don't exist without customer's money. Period. I truly believe you are overstepping every conceivable generally accepted account practice if you approve semi annual reports.
Regards,
Helen Cryer
Accounting Manager

Hugo Marrero — Jun 21, 2026
Subject: Quarterly Corporate reporting From: Hugo Marrero Affiliation: Jun. 21, 2026 Having been an investment advisor representative, and a certified fund specialist (CFS) in this industry for over 40 years, I hold whole heartedly tell you that it is imperative that quarterly reporting requirements remain intact for corporations that are publicly traded. At the very basic level, simply for appropriate accountability of said entities, most importantly in this day and time. Secondly, for the investor, it is important to have transparency financially every 90 days in order to make trading decisions and simply remain well informed of any changes in profitability or stock trading regarding the corporate entities. As a prodessional investment analyst, I can tell you quarterly data is imperative when observing cash flows of entities or their debt loads. While I understand their costs involved in generating this quarterly reports, these cost are insignificant to the corporation, compared to the damage that can be done to the general public in the markets in general for the removal of quarterly reports and changing that to semiannual. I fully support removing unnecessary red tape and inefficiencies to the corporate space, but this is a VERY DIFFERENT situation! Thank you for your attention.

Jack Burnett — Jun 21, 2026
Subject: S7-2026-15 Semiannual Reporting From: Jack Burnett Affiliation: Jun. 21, 2026 I am completely opposed the proposal for Semiannual Reporting to replace Quarterly Reports.

This is the stupidest idea I've heard of, to double the reporting window at a time when information moves at bits per second is dumb square.

The information systems in use be public companies today can easily produce daily reports and quarterly reports are a breeze.

It's ludicrous to believe quarterly reporting places any burden at all on any public company today. Any such rule that proposes it does is silliness to the extreme and places investors at increased risk due to decreased disclosure and the SEC knows this.

Whomever proposed this idea needs to have their heads and their graft susceptible accounts examined.

Jack E — Jun 21, 2026

Jack Ferreira — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Jack Ferreira Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:

Quarterly earnings reports were created to inform the public, protect investors, keep boards and executives accountable, and promote transparency. The most transparent administration in history should not be engaging in pointless deregulation to protect CEOs and billionaires. Approximately 60% of Americans own stock in one form or another, so why should the super-wealthy have the opportunity to cash out and run while the rest of us have to wait six months at a time?
I do not support this rule change, and I strongly urge you not to move forward with it.

Jack Heart — Jun 21, 2026
Subject: S7-2026-15 Comments From: Jack Heart Affiliation: Jun. 21, 2026 Do not remove the post-Enron quarterly reporting requirement. It's an important firebreak between us and another Enron, or several.

Jacob McLendon — Jun 21, 2026
Subject: Reporting Change (Personal Comment) From: Jacob McLendon Affiliation: Jun. 21, 2026 Hello,

I am concerned that changing company reporting requirements from every three months to every six months would hurt small investors like me and other everyday Americans. Quarterly reporting gives

us timely information to make informed decisions, recognize problems sooner, and hold companies accountable. If companies report less often, small investors are left with less transparency and more uncertainty, while larger investors may still have access to better information and resources. That makes the market less fair for ordinary people trying to protect and grow their savings.
I hope you will see that this decision mainly benefits large corporations while hurting small investors and the broader public.
Please keep quarterly reporting requirements in place.
Thank you for your time and consideration.

Sincerely,
A small investor who is too often left carrying the burden of decisions that favor larger interests

James Alexander — Jun 21, 2026
Subject: S7-2026-15 From: James Alexander Affiliation: Jun. 21, 2026 It is definitely irritating that CEO, CFO, etc. pay less than many of the trades and middle management citizens who actually create the the production and real worth of the USA. As a former auditor, the regular reporting quarterly is only a small way of spotting when real obligations or tax issues, or profits are changing. Failing to find changes earlier will result in extensive forensic work that that is compounded by missing reports that help identify the time periods involved in the work to be done. Fraud happens much to easily when reporting gets stretched out.

Keep reports quarterly. Investors need to know what is going on with their money. Convenience for the SEC isn't in the best interest for the consumer.

jane9 — Jun 21, 2026
Subject: S7-2026-15 Comments From: jane9 Affiliation: Jun. 21, 2026 Freyja Jane Carlson, retired Educational Director. This ruling would once again allow corporations to cover up their profits from public scrutiny, allowing them to request rate hikes while making tremendous profits and again diminishing the incomes of citizens through higher costs to them, while allowing the stock holders, directors, and executives to take even larger payoffs with the possibility of stripping all profits before anyone could stop it. This is corpo
rate thievery out of control, further debilitating our econony, eroding citizens' rights over corporations who buy off government officials to make laws like this, further eroding the well-being of this country and its citizens. It is YOUR job to protect this country and its citizens from unscrupuless business practices such as this. DO YOUR JOB!!!

Janet Hofbauer — Jun 21, 2026

Subject: S7-2026-15 Comments From: Janet Hofbauer Affiliation: Jun. 21, 2026 Janet Hofbauer, domestic engineering, without transparency and reporting every three months helps prevent fraud no reporting for six months or longer cooked books makes me question what are you up to and what are you hiding. If you want the public trust one must be transparent and I would have them audited along with reporting their arguments might be it costs too much or inconvenience for the company and that Artificial Intelligence is only as good as parameter of original programming even in learning modes it has many issues also unreliable. SEC I respectfully request the transparency in the three month reports. If you cannot perform that function of oversight then I believe that the agency is biased with some sectors of industry running your agency potentially captured. The government agency should not be run by private or public corporations or companies. Will you have the other agencies selling people information to the highest bidder? With some places corruption motivated by money to gain more without any regard to crimes against the stakeholders, shareholders, or any other interests. Should you not protect the interested parties or even potential parties so they may invest money into the markets small medium or large in their venues. Is it not better to have new money investment to help make this country better and savings for health or retirement sectors for future years. I don't want old numbers regarding any financial functions omission of those numbers creates a risk and will not invest anything. Also I question if there are any activity that might be illegal or could be inherent danger with ai technologies to id theft to much more dangerous situations. Is this going to be a Ponzi scheme of doing things? You don't report I just may assume something is not right embezzlement within company to cyber attack on system server to home user log in. SEC why your proposed change? Who is behind this change? Why change the time schedule? Have you lost your critical thinking skills and need a chat box to tell you what to do? Who is funding this change? Will you put out that three months bad? Will you put out six months is good? You need more time to lie? You need more time because you want to play video games or get self medicated or are you just lazy? SEC keep reporting quarterly!!!! If you can't well you loose out on my money being flushed down the toilet. Without that data I just won't put the money out there in the market for bonds currency precious metals mutuals whatever else there is.

Thanks for taking the time to listen to public input.

PS if you already decided to not go quarter and just going thru the motions what a shame.

JANICE DUIS — Jun 21, 2026
Subject: S7-2026-15 From: JANICE DUIS Affiliation: Jun. 21, 2026 Despite the amount of work required to complete quarterly reporting, doing so is now a part of business cadence and everyone from finance to marketing to supply chain to sales is working on the quarterly plan. It keeps the company focused on strategic objectives and progress to plan critical to performance and accountability to employees and shareholders. I am a former senior director of IR and Corp Comms, it's not just the CEO who needs to be held to results but the members of the CSuite like the CFO, CMO, CLO. Finance if left to their own devices are the bigger problem in accountability. I cannot imagine what creativity would ensue if that dept is not tracking and reporting quarterly.

Thanks. Make it a great day.

Janice Radca — Jun 21, 2026
Subject: S7-2026-15 Comments From: Janice Radca Affiliation: Jun. 21, 2026 Quarterly reporting needs to continue - a lot can go wrong in half a year…failed product launches, ballooning debt, lawsuits, vanishing customers. Letting these issues sit for six months at a stretch gives insiders plenty of time to quietly sell their shares to unexpecting buyers before the bad news tanks the stock.

Quarterly filings don't prevent fraud, but they dramatically shorten the window in which it can fester before someone outside the company can see it.

Once large companies start filing twice a year, smaller competitors face pressure to follow.

Companies still have to keep their books and brief their boards. The actual savings from skipping a public filing are minimal. The cost of worse information falls on ordinary investors.

Janina Bradford — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Janina Bradford Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
I strongly oppose any SEC rule that would reduce or eliminate quarterly disclosures by public companies.
Quarterly reporting is one of the few ways ordinary Americans can stay informed about how public companies are performing and whether management is acting responsibly. Transparency is essential to fair and trustworthy markets. When information is delayed or withheld, large institutional investors and corporate insiders often have advantages that everyday investors do not.
Regular disclosures help hold companies accountable and discourage corporate misconduct. They allow the public to see changes in financial performance, risks, and business conditions in a timely manner rather than waiting many months for important information.
The SEC’s mission is to protect investors and maintain fair, orderly, and efficient markets. Reducing disclosure requirements would move in the opposite direction by making it harder for the public to evaluate companies and easier for problems to remain hidden.
Please preserve strong quarterly reporting requirements and ensure that public companies remain transparent and accountable to investors and the public.

Janis Schoen — Jun 21, 2026
Subject: S7-2026-15 Comment From: Janis Schoen Affiliation: Jun. 21, 2026 It should stay at quarterly! Why would you not want the shareholders to know as much as they should.

jared winquist — Jun 21, 2026
Subject: S7-2026-15 Comments From: jared winquist Affiliation: Jun. 21, 2026 I am opposed to the rule change. A publicly traded company should be publicly accountable and this rule would allow companies to hide losses and ballooning debt from everyday investors for longer. Meanwhile insiders (like our congress) can sell off their shares leaving regular people holding the bag. I realize that insider trading is supposed to be illegal but that does not seem to have stopped congress and this would make things worse for regular people. Please protect the regular investors that are

following the rules.

Thank you,
Jared Winquist

Jeani Sandberg — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Jeani Sandberg Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission: I think it's right that we should have this information, since the larger funds will be kept up-to-date. Consider that some professional traders, who you might at first feel should have an edge, because this is their livelihood, take advantage of retired people in various ways, already. If you doubt this, check out the stocks that I received in Accelerrated Profits from Louis Navallier in 2021. I paid over $2,000 for a list of stocks that I bought, sometimes by the thousands, believing they would go up, because Louis Navallier was the "King of Quants", according to some well-known news group (CNBC?), & he said they were the "Best Stocks of 2021". THEY WEREN'T. GOOGLE & OIL WERE. I wanted A BREAK, & thought Navallier knew what he was doing, in recommending them. Now I think I was buying the stocks that he had probably recommended to buddies, & that he wanted to get out of his own portfolios. That's who we are to them (excluding Motley Fool). They might recommend good ones, here & there, SO WE BUY THEIR GARBAGE, DOWN THE LINE. We already pay a heavy premium for owning stocks on the same exchange as them. Just look at the memory stocks, Sandisk & Micron. They decide how far they go up. They probably convey the multiple, or whatever, in news letters for big banks. Retailers will end up holding the proverbial bag.
I've thought about how businesses say they are consumed with making immediate profits. I've thought about that, & it won me over for awhile, but they need to discipline themselves, like Bezos, who said, "I knew the stock would go up. [The company was just waiting for stock buyers to understand that]". That helps stocks to become less inflated. People have to figure it out, & share that information. It gives the bad guys a reason to communicate information on good stocks, & not just the bad ones that their friends & family need to sell.
The responsibility for good business practices needs to fall on the businesses!!!! Not on retired people who may have already been subject to hypnotized experimental torture (like me), & are

putting MOST of their time into health issues, like nasty skin infections, in San Antonio, Texas. The last dermatology guy told me, as I tried to explain one of my three problems:" I don't really care what you think!" It's unbelievable, right? Well he said that, even though I was desperate for help, & as nice as can be. I've been scared. Sadly, he was BY FAR the nicest one I've seen, except maybe Hensley, who told me to look in a book for something that barely has a visible sign!! It's extremely painful, not visible.
Think about us for a change, the people who are already buying their trash, until we lose so much that most of the stocks we own are measured in tenths of shares. Yeah, that's me, now, until the scum in San Antonio are put in prison, & good people are again free to walk the streets of San Antonio, & go to dinner without Purposely being tortured.
I don't think they can really repair the damage to my heart, though. My blood pressure may always be high. Basically, they got away with organized manslaughter, like KBG "natural causes" -style killers, for THREE DECADES. Do you really think their retirement funds deserve an edge? WHEN I TRIED TO GO BACK TO WORK, THEY DISEASED MY SKIN, & WOULDN'T GIVE ME A DOCTOR WHO COULD CURE EITHER OF TWO REALLY SUPER MASSIVELY PAINFUL ONES. My grandparents' inheritance for me went into classes for me to be a teacher. After 3 years of teaching in a public school, San Antonio set their sights on destroying me, maybe so they could blame ME for what THEY did, with the money that went missing. At least two people tried to destroy my reputation, in another way, as well, because that's what they do to victims, in Military City, U.S.A. (In other words, many of their professions are bent toward learning how to kill people, & not feel too guilty about it). It appears they try to drive their experimentally hypnotically tortured victims to suicide, or murder. I wonder how many people were surprised that I didn't crash. REALLY.
Gary Gensler looks like a good guy, to me, & I liked that Khan woman, who was going after the monopolies. Teddy Roosevelt thought WE, THE PEOPLE should be supported. He liked us. When powerful people don't like the masses, revolutions happen. You might keep that in mind.
Sincerely,
Jeani Charisse Sandberg

Jeff Kenney — Jun 21, 2026
Subject: S7-2026-15 Comments From: Jeff Kenney Affiliation: Jun. 21, 2026 I am a retail investor and quarterly reports are essential to be informed about how my investments are moving.

This helps me to make better decisions about my financial future. It is not fair for large companies to hide updates on their performance as it keeps everyday investors like me, in the dark. It may be "Optional" but that is irrelevant when it is the largest companies opting in as they are the entities which investors expect the MOST transparency on performance.

Finally, the supposed "benefit" of this whole ordeal would only save some money for CEO's and maybe corporate executives. The cost far outweighs any positive impact.

Jeff Kenney,

Quarterly reports are an essential component of holding companies and investors responsible for the financial wellbeing of their shareholders, investors, and most importantly their customers. I strongly recommend that you do not allow public companies to hide their data and information.

Jeffrey Due — Jun 21, 2026
Subject: S7-2026-15 Comment From: Jeffrey Due Affiliation: Jun. 21, 2026 My name is Jeff Due, and I live in York, Nebraska.
I live near one of the busiest lines in the nation. There have been accidents over the years at crossings near me, some fatal.
Responses and compassion have been almost non existent, until much much later, after the accident has been forgotten by the public.
Mergers and buyouts of weaker companies does not help the average American. They don’t help farmers, and they sure as Hell don’t help the average small business owner. They may be in the ag supply industry. How are higher prices charged to the distributors that supply these businesses going to help, especially in an extremely tight races like both Pricketts or dear Governor Pill-in face this year. They’re going to change their votes. Eventually all of them will.
The nation has been through this exact mess before. We need it to stop, and the only way you’re going to get that this year is increasingly looking like people taking actions none of us likes or are really effective.
I personally cannot run my businesses as I have developed a chronic nerve degeneration condition, and my walking and balance have suffered, greatly. To the point I can no longer do and of the jobs I used to do.
Thank you for taking this matter seriously. The mess in the Straight of Hormuz has created a disaster for everyone involved, not just the super wealthy.
Thank you for addressing this issue that is painfully true for too many of us.

Now address this issue with a clear head and conscience. Not the way a party or person tells you to. Vote for what will benefit your constituents, not how you're told.
Thank you.

Jen Salvatore — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Jen Salvatore Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
I oppose the proposal to stop the quarterly reports. I am an investor and have been one for more than 25 years. I rely on the reports for information and investing strategy. I'm a long term investor and need to know how each company I own is progressing on their growth. Longer gaps create an unfair advantage for corporate insiders, and of course, we know "optional" doesn't fix the problem because companies that opt in are often the ones whose investors most need frequent updates! DO NOT STOP the QUARTERLY REPORTS! This would only mean savings to companies, but costs to me and all other everyday investors!

---

jen tumlin — Jun 21, 2026
Subject: S7-2026-15 Comments From: jen tumlin Affiliation: Jun. 21, 2026 Keep this rule in place to keep the corruption minimized. America is meant to be the place where the good ideas succeed because they work, not because business leaders are permitted to cheat. Let our country - and our children - know that integrity matters by voting to keep this in place. Thank you.

Jen Wells — Jun 21, 2026
Subject: S7-2026-15 Comments From: Jen Wells Affiliation: Jun. 21, 2026 I’m Jennifer Wells, a registered voter in Columbus, Ohio. specific argument. I rely on quarterly information to make decisions. Longer gaps create an unfair advantage for corporate insiders. Optional doesn't fix the problem because companies that opt in are often the ones whose investors most need frequent updates. The savings to companies aren't worth the cost to me. Wall Street has gotten away with decimating the retirement funds of regular people over and over and it MUST STOP!!!

Aviation Consultant
Public companies have a long standing history of keeping the public informed by reporting their financial results every three months. This precedent has lasted for over half a century. The new SEC proposal would allow publicly traded companies to go dark for six months at a time. While the executives, lawyers, and big institutional investors still know exactly how the business is doing, public investors be the last to find out. SEC do your job for the public as intended otherwise what is your purpose?

Jennifer Kuntz — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Jennifer Kuntz Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
It is already more difficult now in America to support oneself and live the American dream via wages

than it was in my youth and in my parents' time. I believe part of the present difficulty in keeping the Amercan people thriving is changes in law that increased power of corporations vs. employees. Let's not also make it harder for the average citizen to support themselves through investment earnings as well by limiting the information they receive from corporations. As we begin to face challenges to funding for social security, medicare, etc, please do not make America worse for the small investor by disadvantaging them via the change in reporting. I find it difficult to believe quarterly reporting is overly burdensome, especially given modern technology innovations.

Subject: Comment on S7-2026-15 From: Jerry Coggins Affiliation: Jun. 21, 2026 Jerome Coggins
V.P. Coggins Geosciences
Richmond, Texas

Shareholders are the owners of public companies and are the target audience of quarterly financial reports. Less frequent reporting leads to a dangerous lack of transparency, giving corporations more opportunity to game the system by diluting the reporting of poor financial data.
With the state of information technology today, there is no reason to lengthen the reporting period for efficiency or cost reduction. This move would harm the balance between shareholder and board member/management power.
What problem are we trying to fix?
Jerome Coggins

Jes?s de la Garza — Jun 21, 2026
Subject: S7-2026-15 Comment From: Jes?s de la Garza Affiliation: Jun. 21, 2026 Quarterly reports of earnings is a key indicator of how a company is performing during a period of time. It provides an overview that serves as a measure of past, present, and future performance. A six-month period of time between reports may not serve as an accurate indicator of performance.

Sent from my iPhone

Jess Cancelliere — Jun 21, 2026
Subject: S7-2026-15 Comment From: Jess Cancelliere Affiliation: Jun. 21, 2026 I am concerned that reducing the frequency of required financial reporting from quarterly to semiannual reporting would decrease transparency for individual investors.

As a member of the public who relies on SEC filings to understand the financial condition and performance of publicly traded companies, I believe quarterly reporting provides important information that helps investors make informed decisions. Public filings help level the playing field by ensuring that ordinary investors have access to current information rather than relying solely on analysts, institutional investors, or corporate communications.

Reducing the reporting frequency could result in longer periods during which significant changes in a company's financial performance, risks, or outlook are not reflected in publicly available financial statements. This may increase uncertainty for retail investors and make it more difficult to evaluate investments, retirement accounts, and other long-term financial holdings.

While I understand the desire to reduce regulatory burdens on public companies, I encourage the SEC to carefully consider whether any reduction in reporting requirements could diminish market transparency and investor confidence. If reporting requirements are modified, the SEC should ensure that investors continue to receive timely, meaningful, and standardized information about company performance and material risks.

Thank you for considering these comments.

Jo Ann Farris — Jun 21, 2026
Subject: S7-2026-15 From: Jo Ann Farris Affiliation: Jun. 21, 2026 This proposal to reduce quarterly reporting is a terrible mistake - investors and the public deserve the reporting to remain as it is. The lesson of Enron is still a warning to us all.

Sent from my iPad

Jo Ann Gruber — Jun 21, 2026
Subject: File No. S7-2026-15 From: Jo Ann Gruber To the Securities and Exchange Commission: I am writing to express my strong opposition to the Commission’s proposal that would allow public companies to suspend quarterly reporting and go dark for up to six months at a time. This change would dramatically weaken market transparency, undermine investor confidence, and create an information imbalance that favors corporate insiders and large institutional investors at the expense of ordinary shareholders. Quarterly reporting is not a bureaucratic burden — it is one of the most

essential safeguards in modern financial markets. Every major accounting scandal of the last several decades, including Enron, WorldCom, and the Madoff fraud, was enabled by gaps in disclosure and long stretches of time in which executives could conceal the true state of their business. More frequent reporting does not prevent fraud entirely, but it shortens the window in which misconduct and fraud can grow unchecked before outside investors have any chance to detect it. Under the proposed rule, executives, lawyers, and large institutions would continue to have access to timely internal information, while retail investors and the broader public would be left in the dark for half a year. This is not a level playing field. It is a structural advantage for those already closest to the company and a significant disadvantage for everyone else. The SEC's core mission is to protect investors, maintain fair and efficient markets, and facilitate capital formation. Allowing companies to withhold financial information for six months at a time runs counter to all three of those goals. Transparency is not an outdated concept — it is the foundation of trust in U.S. markets. I urge the Commission to reject this proposal and preserve quarterly reporting requirements. Investors deserve timely, consistent, and reliable information, not extended blackout periods that invite abuse and erode confidence in our markets. Thank you for your consideration. Sincerely, Jo Ann Gruber

---

Jo Boyette — Jun 21, 2026
Subject: S7-2026-15 Comment From: Jo Boyette Affiliation: Jun. 21, 2026 Reporting needs to remain on a quarterly basis. It's the only fair way to keep up with businesses and investing. Otherwise it sets up too much opportunity for scams and corruption. The honest have nothing to worry about quarterly reporting: it is the price of doing business. Those against it are throwing up a red flag.

Sent from my iPad

Jo Duffy — Jun 21, 2026
Subject: S7-2026-15 Comment From: Jo Duffy Affiliation: Jun. 21, 2026 Dear SEC:

DO NOT cut the mandatory quarterly signoff requirement to just twice a year. Diminishing timely scrutiny lowers. investor protections. There can be NO good reason for that. There are MANY reasons not to do so.

Thank you

Jo Duffy
writer and investor

Jo Embleton — Jun 21, 2026
Subject: S7-2026-15 Comments From: Jo Embleton Affiliation: Jun. 21, 2026 Keep the quarterly review so that sun can shine into darkened areas. Better yet, make this a bi-monthly occurrence ... it might add more work, but the upshot is that will keep business truly healthy.

Totally against a semi-annual review.

Jo Anne Embleton,
Tyler, TX

Jo G — Jun 21, 2026
Subject: S7-2026-15 Comments From: Jo G Affiliation: Jun. 21, 2026 Quarterly reporting needs to remain as companies owe it to their sack holders in the public to be fourth right. Many people depend on Retirement incomes. They need to be monitored on a quarterly basis. Anything other than that would be very chaotic and lead to some very detrimental and serious effects. Josephine Gamma retired.

Joanna Grymes — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Joanna Grymes Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Reducing documentation to every six months may lighten the reporting load for companies but it is a poor decision for consumers/investors. Transparency is important; meaningful information is important; increasing, not reducing, trust in the system is important. Limiting reporting is much more likely to reduce transparency (such as it currently is), decrease the amount of information available to investors and the public, and erode trust.

Joanna Hoyt — Jun 21, 2026
Subject: S7-2026-15 Comment From: Joanna Hoyt Affiliation: Jun. 21, 2026 Hello, I am Joanna, a merchant mariner, employed in the research field aboard a university operated vessel. I am a union member, and voter in Washington state, a place heavily influenced and changed by tech dollars.

Science is not a high paying profession, I am lucky to have investments myself, and may not be able to afford the place I have lived in my whole life, by the time I retire. Why blind investors to facts? Why force ignorance on working people? This move by the SEC, is purely about greed, and a system that has allowed itself to be bought and traded like a stock. Please consider transparency and integrity. Consider all of your fellow citizens, not just the corporate ones.

Thank you,

Joanna Hoyt

jodi demayo — Jun 21, 2026
Subject: S7-2026-15 From: jodi demayo Affiliation: Jun. 21, 2026 SEC
To whom it may concern-

This is about accountability. Something our dear leader doesn't accept or practice in his own life or administration. I've also noticed this is something the republican house and senate appear to be having issues with. Keeping reporting quarterly is an excellent way to practice said accountability, and to keep things real.
As a nurse, I can speak volumes on the necessity of being responsible and following rules, policies, and laws. If I don't, not only can I lose my job, but more importantly it could cost someone their life if I don't follow the guidelines I'm required to. Constant documentation, along with my signature, verify my adherence to rules, regulations, and laws. Surely, if nurses can do this constantly, day in and day out, those monitored by the SEC can do it four times per year. The rest of us have to be accountable, why shouldn't they?

Joe Provancha — Jun 21, 2026
Subject: S7-2026-15 From: Joe Provancha Affiliation: Jun. 21, 2026 Joe Provancha, Retiree, 3220 Mirage Circle, Plover, WI 54467.

As a Retiree, I oppose this change due to the affect it may have on my, and others' investments, including my retired spouse. History has shown us that when given an option, CEOs will hide financial issues from their shareholders, who become the victims of fraud, and/or poor financial decisions made by the CEO and their officers. To keep CEOs and their officers accountable, the SEC should maintain the status quo.

There have been too many instances of corporate/financial entities swindling those for which they

have a fiduciary responsibility to protect. Case in point: Savings and Loans Scandals (1980s), Enron (1990s), Financial collapse of 2008.

Please remember, the SEC owes all Americans a fiduciary responsibility to protect investors, not just those sitting in the C Suite of corporations.

Americans grow weary of bailing out corporations/financial entities, and how those responsible are exempt from prosecution, and are rewarded with Golden Parachutes and bonuses.

Joe T — Jun 21, 2026
Subject: S7-2026-15 Comments From: Joe T Affiliation: Jun. 21, 2026 My name is Joe Tlustos. I am a retired investor who worked hard, studied hard, and put my faith in the US SEC to provide a strong legal environment to protect regular investors who have a million other responsibilities from those who chose to devote their time and knowledge to fraudulently mismanage and steal away people's investments. To not have every legal statute in place to protect investors is akin to sanctioning corruption and theft. If one thing has been proven over time, and especially the last ten years, is that the investment industry will do and does do whatever it thinks it can get away with it. They can full-time plan and execute schemes and scams that the average investor cannot. Don't—-DON'T give industry yet more chances and time to circumvent the rules and their lack of morals to abuse the trust of investors. They've proven they cannot be trusted to do the right thing on their own. Give these thieves enough rope a they will bring this country down. Their past irresponsibility has earned maximum regulation. Thank you.

Joe Tirado — Jun 21, 2026

John & Jeanette Johnson — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: John & Jeanette Johnson Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission: Proposed Rule S7-2026-15
The implications of a switch from quarterly reporting to semi-annual reporting will be too risky for us to feel safe keeping our money in the markets. We want to see quarterly reporting remain. If the SEC approves semi-annual reporting we fear we will lose our ability to make informed decisions on our investments. The markets will become more volitable and risky bringing opportunities for huge and fraudulent losses to our portfolio. As retirees we worked hard and made sacrifices to prioritize saving and investing through our lean years. We taught all of our, now adult children to prioritize investing and saving as well. There is no way any of us will feel safe keeping our money in the markets if this change is made. A change to semi-annual reporting would delay our ability to monitor and safe guard the stability of our investments. Be forewarned that if this change is made MANY will be pulling their money out of the markets and we will be among them. Therefore we plead with you to keep the required quarterly reporting or risk a catestrophic collapse when folks like us start pulling their money out of the markets.

John 3:16 — Jun 21, 2026

---

John Berry — Jun 21, 2026
Subject: Comment on S7-2026-15 From: John Berry Affiliation: Jun. 21, 2026 I am writing to express my unequivocal opposition to any proposals that would reduce or loosen quarterly corporate reporting requirements for publicly traded companies.

As a lifelong professional currently serving as an Executive Assistant in the District of Columbia while residing in Maryland and approaching retirement age, I have spent my entire career embedded in the corporate world. My decades of direct, firsthand experience observing executive leadership and Boards of Directors (BODs) have proven to me that regular, rigorous oversight is absolutely essential. The notion that modern corporate leadership can be trusted to self-regulate or operate transparently with reduced reporting mandates is profoundly misguided.

If my career has taught me anything, it is that less disclosure invariably leads to less accountability. The arguments for increasing reporting requirements, rather than diminishing them, are clear: Asymmetry of Information: Public investors rely on timely, standardized financial disclosures to make informed decisions. Reducing the frequency or depth of quarterly reports creates a dangerous

information vacuum that disproportionately harms retail investors and retirement savers. The Guardrail Effect: Robust reporting requirements serve as a critical check on corporate governance. When oversight is dialed back, the temptation for short-term financial maneuvering increases, often at the expense of long-term corporate health and shareholder value. Erosion of Public Trust: Today's market environment demands more transparency, not less. Weakening SEC mandates sends a signal that regulatory bodies are prioritizing corporate convenience over investor protection.
Based on a lifetime of corporate experience, I firmly believe there is an increased need for strict, consistent reporting to protect the integrity of our markets. I strongly urge the Commission to reject any measures that roll back these vital transparency requirements.

Thank you for your time and consideration of my comments.

Sincerely,
John Berry, Executive Assistant
Capitol Heights, Maryland

John Eggers — Jun 21, 2026
Subject: S7-2026-15 Comments From: John Eggers Affiliation: Jun. 21, 2026 Public companies have reported their financial results every three months for over half a century. A new SEC proposal would let them go dark for six months at a time. While the executives, lawyers, and big institutional investors still know exactly how the business is doing, while small investors will be the last to find out.

John Fettig — Jun 21, 2026
Subject: S7-2026-15 Comments From: John Fettig Affiliation: Jun. 21, 2026 So basically the SEC wants to be unwilling to keep the public properly informed about the going’s on of companies within the Stock Market. This would allow them time to prepare lies to tell their investors and rob them of their money. It sounds right in step with this administration. I believe SEC should leave this just where it is. There should be nothing to hide.

John Outen — Jun 21, 2026
Subject: S7-2026-15 Comments From: John Outen Affiliation: Jun. 21, 2026 I am a tiny retail investor and my name is John Outen. I worked hard over a lifetime and I rely on reviewing quarterly reporting to assess and track how companies are performing in my investments. If I could I would demand reporting on a 60 day cycle not a 90 day cycle. Markets change quickly and transparency is needed to determine if I should remain invested in a company that reflects its prospectus and its outlook. I am retired now and retail investing is my only income. It appears that the proposal on extending reporting requirements benefits only one party and its not the retail investor. Please keep

reporting at a minimum on a quarterly basis. I need it to monitor and track. Please keep retail investors in mind that they too can trust investing in the market in an enviroment that is fair and transparent.

John O’Callaghan — Jun 21, 2026
Subject: S7-2026-15 From: John O’Callaghan Affiliation: Jun. 21, 2026 Keep the quarter reporting, then a company in trouble will be that much easier to spot. Giving investors a chance to get out or demand changes . It’s our money we deserve to have these up dates before it’s to late

Sent from my iPhone

John Palmer — Jun 21, 2026
Subject: S7-2026-15 Comment From: John Palmer Affiliation: Jun. 21, 2026 As a former VP of Finance, our staff constantly used 10Q, 8k and quarterly earnings call information to evaluate customer and vendor performance. These SEC documents and calls were an independent way to validate whether companies we dealt with were financially sound while understanding their future strategic direction. Do we extend credit or not, do we select them as a vendor or not. Waiting six months would not be an option.
Now as a university accounting professor teaching corporate governance, we teach our master students how important these quarterly SEC reports are to maintain effective corporate compliance. Going to six month cycle would greatly weaken our checks and balances currently built into our governance system.
From a main street investor perspective, 10Qs and quarterly earnings calls are key supplemental component to an effective investment strategy. Weakening reporting standards to appease corporate america over the investor would be a short sighted decision which would most likely be reversed sometime in the future when things go astray.

John Palmer
Professor of Accountancy CSULB

John Pangiochi — Jun 21, 2026
Subject: S7-2026-15 Comments From: John Pangiochi Affiliation: Jun. 21, 2026 CEO's and corporations already have unfair and unearned advantages over investors and us, the people. We should be demanding monthly accountability, not extending the quarterly reporting that
allows them to weave a pattern of deceit to grab more unearned wealth. As the SEC you are charged with the statutory purpose of protecting investors, maintaining fair, orderly, and efficient markets, and facilitating capital formation. You serves the public
by ensuring market transparency and deterring fraud. Keeping quarterly verifiable reporting is the baseline for that accountability.

Subject: S7-2026-15 Comment From: Jonathan Au Affiliation: Jun. 21, 2026 June 21, 2026

I really do not understand why we are going backwards instead of decades of progress and improvements in efficiency, we are now proposing rules of the past and LESS transparency in a timely manner. In this age of almost instant updated information, you are actually proposing this crap?! (Excuse my French)

Are you serious? I think this is a very bad and an excellent recipe for disaster just waiting to happen. And working in the technology industry, I can say for sure in this day and age of advanced information technology and Artificial Intelligence, moving decades backwards in holding back information instead of releasing information that should be released as quickly as possible is just pain bad and dumb policy; almost like you are allowing companies to “cook the books” so-to-speak. Enough is enough. When will you look out for the average Joe vs. Big greedy companies.

Subject: My view on Rule S7-2026-15 From: Joni Jones Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Don't allow public companies to hide vital formation Quarterly reporting is necessary to investors.

This information is vital to us when making decisions about how/shere/when we invest money.

Joni Morris — Jun 21, 2026
Subject: S7-2026-15 Comments From: Joni Morris Affiliation: Jun. 21, 2026 My name is sis morris I'm retired. It matters because we are all tired of getting screwed by the rich, they don't pay taxes they have the audacity to brag about their billions now trillions, while their employees don't make enough to live on. Some companies give their new hires along with their paper work snap benefit applications, while every 3 months report record highs and prices are through the roof. Without the worker bees barely getting by these people wouldnt be rich. Plus they always have to make you feel like you are way beneath them work you like a dog they are short handed because they got you doing 3 jobs paying 1 person and they only think they are quite thrifty at that. These people are heartless. We have homeless veterans our government won't take care of, they are always first on the cut list because government spends without a thought its free money. Anyway it's time these rich people pay forward to the people and veterans that are out there everyday working themselves to death. These people have more money than they can spend in 10 life times. They need to make an effort to do something good for their country after all it has treated them kindly. Not one of them are grateful just entitled. They run the world and its got to stop, they have the government in their back pockets making up their rules as the go along. We follow the ones that were written while they write their own. Its time we take corporations out of Washington.

Joyce Green — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Joyce Green Affiliation: Jun. 21, 2026 The SEC doesn't really care what investors lose and don't want to be responsible for anything. We should not allow them to digress back to a time in history when they only had to report twice a year. That's crap! Also, irresponsible as an agency!

Joyce Green

Joyce Hausmann — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Joyce Hausmann Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Quarterly reports help us to make informed decisions. I see no reason for this to change.

Joyce Johnson — Jun 21, 2026
Subject: S7-2026-15 Comments From: Joyce Johnson Affiliation: Jun. 21, 2026 It is an insult that anyone would be allowed to keep valuable financial information from me for an extended 3 months beyind what it is currently. That decision could be detrimental to the stability of my financial standing. . Please do not change the rules fron 3 month reporting to 6 month reporting . It is not in my individual best interest nor many others

---

joyce lampley — Jun 21, 2026
Subject: S7-2026-15 Comments From: joyce lampley Affiliation: Jun. 21, 2026 Quarterly filings don't prevent fraud, but they dramatically shorten the window in which it can fester before someone outside the company can see.

I never believe that lowering standards is the way to go. Never should you make it easier for people to cheat. Let me ask you a question. Why in the world would you do that. Who lowers standards anyway?

Judy C Yen The Motley Fool Community — Jun 21, 2026
Subject: File No. S7-2026-15 From: Judy C Yen Companies quarterly reports are only one method for companies to provide information to share holders periodically. Transparancy levels the playing fields for all investors & analysts. Less reporting is less transparency. Public companies need to be accountable to shareholders and companies may stay private without any obligation to perform such reporting. Research from the CFA Institute, which studied this exact maneuver in the U.K. market, shows that reporting frequency has no measurable effect on corporate investment behavior. The SEC is accepting a real cost – less transparency for individual investors – for a benefit that the evidence says simply won't materialize.

It's almost like someone sits at a quiet desk and thinks of ways to manipulate the markets. Did the billionaires ask for this rule? Do they need this rule to get wealthier?
This is a solution looking for a problem. Stick to your knitting, SEC.

Julie T Mahorney-Saenz Householder — Jun 21, 2026
Subject: File No. S7-2026-15 From: Julie T Mahorney-Saenz I am a 65+ individual who will retire in a few years. I rely on my investments for my future. I read the quarterly reports and so do the people who manage my portfolio. We rely on that information in order to make informed decisions. Please keep the discosures quarterly. Thank you.

Julie Vautrot — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Julie Vautrot Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission: I am very concerned that the commission is considering reducing reporting to every 6 months. How does reducing the amount of information these corporations have to provide to the public benefit the average stockholder or the public at large? It seems like the only people that would benefit from this rule change would be those with insider information. Those individuals would then have a full 6 months to sell their stocks before potentially detrimental information is made publicly available. Again, how would reducing reporting requirements benefit the public? It seems like there's a lot more of a risk to the public then there is a possible benefit.

June Gallant — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: June Gallant Affiliation: Jun. 21, 2026 To the Securities

and Exchange Commission:
This SEC proposal would give an unfair advantage to companies to hide actual profits and losses!

June Geiger — Jun 21, 2026
Subject: S7-2026-15 Comments From: June Geiger Affiliation: Jun. 21, 2026 I am 67. I began my working days in the era where company pension plans were the norm. The companies often played games with those, calling it " profit sharing".. and for years got away saying there was no profit. Nothing to share. What little was in the stock market, and you personally were not deciding how it was invested. Toss in raising a family, inflation and then stock market / housing bubble LOSSES. The investments I was able to make as I aged are extremely important to me to monitor. Social Security (which tool a huge chunk of my dollars since the age of 18), will most likely be reduced long before I pass. Myself and many others need to know in a timely fashion how our investments are doing in order to sustain ourselves. We are not going to be able keep working forever. PLEASE KEEP MANDATORY QUARTERLY REPORTING. There is enough technology that makes it possible... in fact I am confidant it could almost be made every month or two months. I begsn working in factories, and ended in the pharmacy purchasing field.

Sincerely, June G.

June Jacobs — Jun 21, 2026
Subject: S7-2026-15 Comment From: June Jacobs Affiliation: Jun. 21, 2026 Accountability from all levels of our society is essential to our democracy. Keep the quarterly reporting. Hold corporations, and their CEOs accountable quarterly - I'll spell it out -FOUR times a year!

Sent from my iPhone

June Lundstrom — Jun 21, 2026
Subject: S7-2026-15 Comment From: June Lundstrom Affiliation: Jun. 21, 2026 Quarterly!! June Lundstrom, disabled from work accident in healthcare. Failed Clinton HMOs were designed to bankrupt private and employee run healthcare and practices thus buyouts and mergers into huge corporations.oblundercare gave MORE power to those corporations and ownership of healthcare insurance and pharmaceutical.. RESULTING in CONTROLED gouging insurance, healthcare and pharmaceutical COSTS to full time WORKERS. Their Quid pro quo's with DemoRATS has lead to WORSE healthcare: delay in care(s), short cut and voided procedures (by discharging newborns has lead to unmonitored brain damaging bilirubin; women giving birth and NOT receiving that short cut to ALLOW baby not to get stuck in the birth canal "repeatedly" dropping oxygen and causing defects and NICU stay… all because INSURANCE doesn't want to pay for "invasive procedures" that would actually SAVE babies from brain damage and/or stay in NICU…. ; by not admitting patients into the hospital or at least keeping them overnight after dramatic procedures… because insurance refuses to pay for hospital stay and corporations don't want to pay wages, patients are FORCED to out patient the leave them VULNERABLE to survive and takes a toll on both patients and family/friends mental health as they are NOT qualified to provide cares. Furthermore prior to outpatient, patients were kept overnight so that pain management could be tapered etc in recovery patient would have a PCA pain pump delivery, then change to oral narcotics then to over the counter pain meds… soooo patient would be discharged NEXT DAY only on over the counter pain meds. This would've PREVENTED the prescription abuse/addiction. The same for knee replacement

patients. If kept overnight they would’ve had physical therapy resources to trasition and educate proper SAFE mobility post op and HIGHER success of surgery results.

There is NO nursing of healthcare shortage. Corporate industry USES shortages purposefuly as for what they save in wages by going short is given out as Bonuses to upper management. This is SELF serving and NOT humanity both for patients and staff. This leaving rural healthcare to collapse. I worked for a hospital run insurance company… they were FORCING rural (mostly elderly) to drive hundreds of miles for healthcare. Another manipulation to bankrupt town and PRIVATE owned businesses and farms. Etc etc etc

Quarterly filing!!!

June Schwarz — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: June Schwarz Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Making it easier by creating a system that would provide scant legal oversight makes it easier for people to cheat & steal money that people have struggled to earn, save & potentially invest. Having a lot of money changes people. They'll want more & if given the time & opportunity to cheat when nobody is looking over their shoulders!

Justin — Jun 21, 2026

Karen Antley — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Karen Antley Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Less information is not better for any reason. Do not change quarterly reports.

Karen Baker — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Karen Baker Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission: This will disrupt the consistent and transparency of companies that are in the public exchange. Many and not just agencies gather this information and make short and long term strategies and goals from this information. Knowing the financial health of a company can help keep an economy stable and investors and people in general confident in the economy. Decisions are made from knowing. Unless there are plans to break that confidence and give those with a criminal mind set to be able to do what ever they want, which I think is the case. This is being asked because someone(s) wanting to be able to not be questioned for six months or more. A way to finangle wealth with out consiquence. Keep the quarterly reports coming. If a company is having issue with having a plan to get those reports made then perhaps they should find a way with in the company to make that happen. In other words keep those reports coming.

Karen Barnes — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Karen Barnes Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Changing the reporting requirements to semi-annual instead of quarterly is a bad idea and will leave investors in the dark. Quarterly reporting was instituted in 1934 to protect investors from corporations hiding or manipulating their financials.
Remember Enron? The Sarbnes-Oxley Act of 2002 required the financial reports to be signed by the CEO's and CFO's to ensure they were aware of their financial responsibilities.
By changing the reporting requirements, the SEC is allowing corporations a greater ability to hide their financials. The SEC is supposed to protect the American citizens. Do Your Job!

Karen Blake-Robinson — Jun 21, 2026
Subject: S7-2026-15 Comments From: Karen Blake-Robinson Affiliation: Jun. 21, 2026
ABSOLUTELY NOT! This cannot be allowed. WHO the hack came up with this ridiculous idea! Clearly someone billionaire or world wide corporation looking out for the best interests of their shareholders and profit margins and absolutely NO regard for the people who got them where they are today! Again, ABSOLUTELY NOT!! I am 10,000% against this proposal.

An average American citizen ,
Karen Blake-Robinson

Karen Fan — Jun 21, 2026
Subject: S7-2026-15 From: Karen Fan Affiliation: Jun. 21, 2026 Karen Fan
Paramount, Ca 90723
Medical Coder Certified

Keep the Quarterly Reporting. This to me is simply an audit. An audit shows what is correct and what is not. So if I fail an audit 5 times over my career at my job I can be fined and possibly serve jail time. This is Not including something like what these very powerful CEO's have done, I could lose my job and my career for simple mistakes. The Quarterly Reporting keeps these powerful people from getting out of jail free. They did the crime let them pay for it. My Tax dollars should pay to keep these criminals behind bars so that they can't keep ripping people off.
Thank you
Karen Fan

Karen Taylor — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Karen Taylor Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission: investors need access to quarterly reports. Most of us work very hard for what we have and sacrifice in order to be able to invest. Please do not expose investors to this potential vulnerability and risk. Thank you.

Karen Torino Individual — Jun 21, 2026
Subject: File No. S7-2026-15 From: Karen Torino The proof of the value of quarterly reporting is in the history of it compared to the short history of bi-annual reporting. The difference in earnings is significant and not in the interest of people's earnings. Bi- annual was such a failure it returned to quarterly reporting. Why would you allow making the same mistake twice when it is not in the interest of the people?

Karen Trahan — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Karen Trahan Affiliation: Jun. 21, 2026 This proposed rule would severely limit my ability to handle my finances. I am an 83 year old widow who first learned to invest in the stock market when the savings my husband and I had were in CDs, which were earning about 5%. I went to the library and checked out 3 books on finance. After I finished those books, I took out 3 more. Within 3 months, we had Treasury Notes earning 9% interest. From there, we learned about mutual funds and began investing in Vanguard, Fidelity and Schwab. My husband died 7 years ago and I am financially set for life. This proposed rule would go against everything I learned to become financially independent. Please stop.

Karen Walker — Jun 21, 2026
Subject: S7-2026-15 Comment From: Karen Walker Affiliation: Jun. 21, 2026 Consider 3 times a year (every 4 months) as a happy compromise between quarterly and semi-annually.

I am a investor and I want quarterly reports. Keep companies accountable.

Karen Woodford — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Karen Woodford Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
My husband and I are retired, but over the years of working I invested money into stocks and securities to carry us over the years when working was no longer possible in our golden years. Our life's savings are in these investment accounts. This is why it's important for ourselves and our investment portfolio managers to keep on top of changing markets, so as to minimize losses and maximize profits from our investments. We need quarterly reports. Companies can often inflate their earnings but eventually the reality is revealed. The sooner we know the sooner our actions are determined in an informed manner. Please consider the small investors who count on you to protect our retirement.
Thank you,
Karen and Ed Woodford

Karla Engel — Jun 21, 2026
Subject: S7-2026-15 Comments From: Karla Engel Affiliation: Jun. 21, 2026 Karla Engel-Molnar, University Liaison for Marketing and recruitment; While the proposal states its intention is to improve efficiency, I'm concerned that it would in fact create more opportunities for fraud and loss at the consumer's expense. We should have learned during the S&L crisis, the dotcom bursts, and the housing crisis that less oversight is rarely good for everyday American citizens. I encourage you not to pass this policy. Thank you for your time and consideration.

Karla Ladwig — Jun 21, 2026
Subject: S7-2026-15 From: Karla Ladwig Affiliation: Jun. 21, 2026 We need quarterly reporting. Our society has too much corruption to not have it! People's savings are at stake! Karla, retired, MN.

Karla Taylor — Jun 21, 2026
Subject: S7-2026-15 Comments From: Karla Taylor Affiliation: Jun. 21, 2026 Dear SEC,

History has shown through scandals like Enron, WorldCom, and the Madoff investment scandal that transparency is essential to preventing fraud. Quarterly filings remain the only effective way to mitigate obscurity regarding financial proceedings and ensure accountability.

Given the importance of these disclosures in preventing future financial crises, I believe we must prioritize maintaining rigorous reporting standards.

Best regards,

Karla Taylor
Educator

Karyl — Jun 21, 2026

Kat Miller — Jun 21, 2026
Subject: S7-2026-15 Comment From: Kat Miller Affiliation: Jun. 21, 2026 This 6 month hiding is absolutely uncalled for. Don't we have enough embezzlement and ponzi schemes going on without making it easier to hide it from you shareholders? How are we supposed to trust companies when we can't keep a close eye on them? As it is, we as a country are bailing out companies right and left; and, you want to make it so they can hide longer and steal more of our hard -earned tax dollars through mismanagement? If anything, we should watch them more closely in these hard economic times. I want to be able to retire some day; and, if the government keeps raiding Medicare and other social security monies there won't be anything left in 10 years. People work their whole life to be able to retire, just to see it stolen by companies like ENRON and their shady dealings and now you want to give them more time to hide their mistakes and poor judgement to our country's detriment? Please no, keep the restrictions where they are or make them tougher.

Sincerely,
Kelley Helton- Healthcare worker, private citizen, and hopefully future retiree.

Kate — Jun 21, 2026
Subject: S7-2026-15 Comment From: Kate Affiliation: Jun. 21, 2026 This kills any desire to keep investing. The less transparency, the more risk.

Kathleen AbdelMassih — Jun 21, 2026
Subject: S7-2026-15 From: Kathleen AbdelMassih Affiliation: Jun. 21, 2026 There are too many loop holes that executives, CEO's, and CFO's use to cheat and line their own pockets. They all need to be held fully accountable.

Kathleen Bell — Jun 21, 2026
Subject: S7-2026-15 Comments From: Kathleen Bell Affiliation: Jun. 21, 2026 Not sure why the SEC is considering changing this long standing reporting requirement. Not only does this change accountability for corporations, it changes the whole investment industry. The ability to evaluate and value stocks will be upended. It will give less information to investors to make decisions, unless they have inside information, which we already know is an issue within some professions, i.e. government official, industry insiders, etc.
It is getting more difficult for the average American to merely live on salaries, but now giving individuals less information to make decisions about their investments. Also this will change an careers which revolve around disseminating and analysis of companies quarterly reporting. It is difficult not to believe this is something that only benefits larger corporate investors and billionaires in some way, as it doesn't make sense in any other context. Kathleen Bell, Sr. Shared Services Associate, publicly traded company, American Citizen.

SEC KEEP IT QUARTLY
We rely on quarterly information to make decisions, longer gaps create an unfair advantage for corporate insiders, "optional" doesn't fix the problem because companies that opt in are often the ones whose investors most need frequent updates, the savings to companies aren't worth the cost to me. What happens when you average American needs their investment for an emergency? For some of us Americans are stocks are our fall back. We want to know what's going on with our accounts. If we can't have every day quarterly it's so much better than every 6 months. 6 months you will be pissing off a lot of Americans.

Kathleen Schneider — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Kathleen Schneider Affiliation: Jun. 21, 2026 Please keep our current quarterly reporting in place As a stock holder, I feel that the more frequent the reporting, the better able I am to manage my assets.

We have learned our lessons from the past. Besides fraud, it is important to keep reporting quarterly. I need to be apprised of my investments for investment and withdrawals.

Kathryn Shearman — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Kathryn Shearman Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
We know what you're doing. You're erasing accountability for all of the insider trading that our current administration has been banking billions on. We see you, and we are sick of you running wild with our meager pensions. We're devestated at the way you continue to put your own cadres greed over the stability of the market.

We see you. You are betting on volitility, you're betting on war. You're betting on bad outcomes and making hand over foot while the hard working, honest workers of America, the 99% of us continue to struggle and obey the rules.

We are teachers, sanitation workers, nurses, small businesses, we are the life blood of our country and you are sucking us dry. My generation and my children's generation will not be able to retire because of your rampant, illegal, deregulation and abuse of power. Shame on you.
Please look into your heart and find a way to care about the rest of us. Those of us who have given our lives to build the economy you profit in, to stay housed and fed, while you buy vacation homes, luxury goods, yachts and continue to cook this planet for your pathetic space exploits. Shame on you.

Our human survival if for sale, and you are the seller. Please change your plans and care about us. You have the power to resist this destructive regime. You have the power to regulate. Do you job for the most of us, not just for your greedy selves. God is watching.

Sincerly,
Kathryn Shearman

Kathryn Tominey — Jun 21, 2026

Kathy — Jun 21, 2026
Subject: File No. S7-2026-15 From: Kathy Transparency is most important!! Why change something that has been working?

Kathy Beddes — Jun 21, 2026
Subject: S7-2026-15 Comments From: Kathy Beddes Affiliation: Jun. 21, 2026 PLEASE continue quarterly reporting!! Honesty and Transparency are very much still needed dealing with financial matters and with (continued) quarterly reporting it can help provide scaffolding for honest transactions to be known and participated in by those who choose to do so... knowing clearly and fully the opportunities/ investments that are available- even to the humble lay person rather than the elite few who might be in the "know". I am a sixty something woman that works hard for my earnings, and as such I greatly enjoy seeing my savings & investments (hopefully) grow with the quarterly reports that I receive. Reporting , less often, would allow and invite discrepancies to occur and fester that could grow too big before others would become aware of such and thus much more difficult to "correct" or change an outcome (OR income! ; }). Again... please CONTINUE quarterly reporting! Kathy Beddes

---

kathy coopmans — Jun 21, 2026
Subject: S7-2026-15 From: kathy coopmans Affiliation: Jun. 21, 2026 Kathleen Coopmans Call Center Rep SPS, Jacksonville FL 32256.

Corporate accountability in the form of acknowledgments tied to all reports monitored like a hawk internally. Translates to straightforward transparency, and is the minimum acceptable in this case. Integrity, decency and accountability, the landmarks of operating a reputable business means "earning the accolades" paired to owning moral behaviors contributed by leaders. Allowing profits to come to those and letting the same oppose signing reports each quarter would be one of the final kiss-offs along the slippery slope of corporate greed and grifting, that we are in the grip of- right now.

This proposal to cut reporting by one-half has no place in the US, America First nor America's businesses we the People wish to see restored with resilience and commitment to customers both at home and abroad.

Corporations do not deserve another opportunity to buck transparency while they continue to erode some of the most basic rights of citizens through staffing entities contracts that sidestep most all of the rules. Further, current and recent actions attempt to revoke clear recourse with non-litigation

clauses, mandates to prohibit workers' union organizing or the like, just to name the glaring examples.

Thanks for reading and thinking.

Kathy Nicola — Jun 21, 2026
Subject: S7-2026-15 Comment From: Kathy Nicola Affiliation: Jun. 21, 2026 To Whom It May Concern:

I'm an independent businessperson. I rely heavily on quarterly reports to spot and track trends that directly impact my retail-oriented business. Lengthening reporting times from quarterly to semi-annually would be disastrous for my ability to strategize and plan.

Moreover, as an investor, a move to semi-annual reporting would be highly detrimental in terms of accuracy and transparency. I strongly urge you to stick with quarterly reporting. Lengthening the reporting period would ultimately benefit those who have something to hide.

Kathy Nicola, Owner/Manager

Kathy Pabst — Jun 21, 2026
Subject: S7-2026-15 Comments From: Kathy Pabst Affiliation: Jun. 21, 2026 Keep it on a quarterly reporting. If it ain't broke don't try to fix it. You only make things worse!

Kay Dean — Jun 21, 2026
Subject: S7-2026-15 Comment From: Kay Dean Affiliation: Jun. 21, 2026 As a retired accountant, I am deeply concerned about the proposed change to semi-annual reporting. It is a bad idea. Firms produce financials each month in order to operate effectively. Hiding this information from the public for six months is unfair to investors and provides the company opportunities to mislead others for a lengthy period.
Kay Kephart, retired accountant

Kay Gelletly — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Kay Gelletly Affiliation: Jun. 21, 2026 KEEP IT QUARTERLY:
*When public filings go quiet, big institutions and insiders still find ways to gauge how a company is doing. It is the everyday investor, working from what is public, who gets left in the dark.
* European evidence: companies that switched to semi-annual reporting saw their trading liquidity fall, while those that kept quarterly reporting did not.
* Bad news gets up to six months to build before you ever see it. When the truth finally lands, the surprise and the sell-off can be far sharper than it would have been with a quarterly heads-up.
* Decades of research find that more frequent reporting lowers a company's cost of capital, which supports higher share prices. Cut the reporting, and you push the gears the other way.

Kelly Jones — Jun 21, 2026
Subject: S7-2026-15 Comment From: Kelly Jones Affiliation: Jun. 21, 2026 Allowing companies to withhold financial information longer than a quarter provides NOTHING beneficial to the public for whom the SEC was created to protect. It does, however, create time for companies to abuse the system and take further advantage of investors who depend on quarterly reporting to make strategic decisions. The SEC is likely unprepared for the increased amount of fraud that will take place. I believe it will lead to a significant market crash with millions of people selling off.
The small investment accounts of people like me and my husband will not withstand the free fall and we will be left with nothing to retire on.
Companies already have an inside advantage, don't add more opportunity for them to make decisions with our money.

-Kelly Jones

Kelly Nitzel — Jun 21, 2026
Subject: S7-2026-15 From: Kelly Nitzel Affiliation: Jun. 21, 2026 Precedence makes sense here for many reasons, corruption being the foremost reason.

A bad CEO/principal/employee can get away with a lot more criminal activities in six months,, while a quarterly reporting period leaves little room for errors or theft before exposire and correction. Quarterly reporting is beat for investors/stockholders and also provides greater knowledge and awareness of company stability and mobility so changes in operations can be timely made to support company and employee growth or remediate losses and avoid bankruptcy. Employees also have a right to know how the company is doing financially, to determine current and future job stability.

It is the responsibility of the SEC to ensure companies are following corporate rules and regulations, to protect investors and employees alike from fraudulent practices that help nothing and may cause economic decline that leads to unemployment.

Changing the status quo simply does not make sense economically or ethically, and would degrade corporate accountability.a great deal. Metaphorically speaking that would be like widening the road that runs along a cliff, leading to increased speeds and fatalistic accidents...leaving that proverbial road narrower forces more care to traverse the terrain, at focused and slower speeds, and fewer mortalities occur. The risk of going off the cliff remains but is less likely to occur so suddenly or at an unrecoverable speed where nobody has time to bail out and survive the impending death crash.

Thank you for your consideration, and have a pleasant day.

Subject: Comment on S7-2026-15 From: Kevin Bordner Affiliation: Jun. 21, 2026 We have something that's working, don't mess with it when we already know by experience that it didn't work with less than Quarterly reports ! DO NOT CHANGE SOMETHING THAT IS NOT BROKEN !!!

From K.B.:

Kevin brigman — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Kevin brigman Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
You people need to not let the government of trump and his rich friends get there way.the government and big corporations breaking the laws and the rules should be put behind bars for life with out parole and pay back the people they stoled to from and to that is your jobs to protect the poor and the middle class.

Kevin Brodie — Jun 21, 2026
Subject: S7-2026-15 From: Kevin Brodie Affiliation: Jun. 21, 2026 To whom it may concern:
Safeguards, like guardrails on a highway, are there for a reason. With the massive amounts of fraud currently taking place around our country, we need to learn from our mistakes well, and instead of loosening rules, we should make absolutely sure that they remain in place. I am fully and irrevocably against loosening reporting structures for the SEC.
Sincerely,
Kevin M. Brodie,
a fed- up American who is tired of people taking the easy way out.

Kevin Castro — Jun 21, 2026
Subject: S7-2026-15 Comment From: Kevin Castro Affiliation: Jun. 21, 2026 Honestly, I'm uncertain as to why, or even how this is a Proposal. The Primary Concern of many is Insider Trading. If this Proposal were Implemented, it would need to be Heavily Regulated to Prevent Abuses.

First, I would suggest at least a 45 Day Freeze if not 60 Days before the End of the 6 Months from Selling Stock Owned by Members of the Board, and the Associates before the Report is Made if Greater than 3 Months.

Honestly, I truly feel as if NOTHING Good could come if this 6 Month Rule. If Insider Trading did Occur, the Losses for the General Public would be Greater than Expected.

In the Process of Losses Occuring & Selling off is taking Place, the Original Value of the Stock is being Met at the Listed Price, and also at an Increased Value than it's Intrinsic Value due to Lacking Evaluation.

The Stock Value is then Further Devalued for the General Public at the Point of the Final Evaluation being made Public, and the Stock Value Reflecting that Evaluation.

I would Suggest a Simpler Solution which is simply a Regulation which just Waives the Fine Associated with Filing Quarterly Earnings Report Late Once every 6 Quarters, or a Year & a Half.

The Winner of the Best Hedge Fund Manager of the Year Award on Two Separate Occasions by the SEC,

Dr. Kevin Castro

Kim Bailey — Jun 21, 2026
Subject: S7-2026-15 Comment From: Kim Bailey Affiliation: Jun. 21, 2026 SEC.... Corporations need to let us know what they are doing with "OUR" money. We invest in them and trust they will be responsible with that investment. To allow a period of time to hide their actions will incentivise fraud and corruption for a publicly traded company. It is bad enough that money controls elections, we can not allow corporations to hide billions in hidden transactions or hide major issues in financial status from investors.

Kim Ponder — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Kim Ponder Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission: In today's economy investors need more transparency, not less. Please keep quarterly reports in place. Businesses run on operations for the quarters. Switching to buy annual reports would reduce transparency and be unaligned with standard business practices.

Kim Thiehoff — Jun 21, 2026
Subject: S7-2026-15 From: Kim Thiehoff Affiliation: Jun. 21, 2026 My name is Kim Thiehoff. I'm retired from accounting after working various positions over 45 years.

People who work in the common areas of daily accounting check and recheck their work, to be accurate and to convey truthful, honest information. To have that hard work taken and have the numbers twisted and changed to reflect lies is a slap in the face.

We all know the old saying about what runs down hill. Yet, when that stuff hits the fan, the people at the bottom, doing their best, can lose everything because those at the top find it easy to point fingers at those covered in the mess that they (those at the top) made themselves.
Even after having to sign four times a year that the information is accurate, some are foolish enough to go ahead and lie and twist the truth. My family was a victim of that kind of person.

My husband and I worked for the same company and both ended up losing our jobs. We lost our home, one car, two motorcycles, our savings and various other possessions. My husband was never the same after this fiasco. Though this particular company was privately owned, these type of people have such hubris and often persist in their delusional behavior to fool as many as possible.

This owner continued lying and deceiving everyone, including submitting IRS filings that were false, co-mingling funds between businesses, lying to vendors and customers and having material delivered literally up until the actual day the businesses were physically padlocked shut by federal agents.

Those type of people are dangerous. Don't make it easier for the ones who have public companies to lie and twist truth by taking away half of their opportunity to do the right thing.

Keep the SEC reporting quarterly.

Thank you for your time.

Kim Tucker — Jun 21, 2026
Subject: S7-2026-15 Comments From: Kim Tucker Affiliation: Jun. 21, 2026 Why are companies able to have different rules then then rest of us?
This creates an unjust social frabic and further escalation of lawless companies buying and selling of the 99%.
Take examples from countries that do better and choose to be better so we can all rise up and make our country positive and productive again.
You can asks President Obama or Michelle for advice.

Subject: S7-2026-15 Comments From: Kimberly Jolly Affiliation: Jun. 21, 2026 My name is Kim I am a wife a mother a sister a housekeeper a laundromaid a maid a gardener a lawyer a doctor an advocate an animal Advocate a human Advocate I'm sure I could name off about 20 other things as my job title and this matters to me because I think the selfishness and the greed and the pure Insanity that has rocked this world needs to come to an end. I don't know who gave you people all the rights to decide Our Lives but whoever it was doesn't matter to me at all so get off your high horses and let people live.

Kimberly Keber — Jun 21, 2026
Subject: File No. S7-2026-15 From: Kimberly Keber I oppose the proposed reversion to semi-annual reporting by companies and support the maintenance of quarterly reporting. As an investor of 42 years, I believe much of my success in securing my family's financial footing and our retirement is due to having the quarterly information necessary to make decisions. Further, quarterly reporting holds companies accountable to address problems more quickly, thus preserving investor confidence and returns. Similarly, it provides the retail investor timely information from which critical decisions can be made. Quarterly reporting has also proven to keep more liquidity in the market than semi-annual reporting, which is good for both investors and business. The only entities that benefit

from a reduction in transparency are insider or institutional traders, an poorly-performing companies - the SEC should make market accessibility and knowledge favorable for all, not just for a few, and should most-certainly favor the consumer rather than companies or banks. Not only is the proposal an affront to the very purpose of the SEC, it will be another hit to the middle class, hindering one of its greatest resources to build financial security. Keep financial reporting requirements to quarterly. Thank you, Kimberly Keber

King Dinosaur — Jun 21, 2026
Subject: S7-2026-15 Comment From: King Dinosaur Affiliation: Jun. 21, 2026 I think thisis better for companies NOT for banks. A quarterly reporting schedule drives production quakity into the ground and CEO's being under the constant pressure of Wall Street can hamper quality; read aboutthe reasons Michael DELL took his company back. The market is skewd with algos conducting trade positions. COMPANIES SAVE TAXES WITH LESS REPORTING. The Banks are the entities requiring MORE oversight. The thieves and criminals are on Wall Street.. front running deals, holding depositors funds to cover trade positions, inaccurate balance sheets, false reporting, racqueteering and a crimes list as long as my arm. Mandatory arbitration must be revoked with criminal law replacing it JP Morgan is a criminal organization. Debanking those who challenge their practices and creating such a corrupt legal department that seals every case, bribes every judge with no thought of signing off on fines reaching one billion dollars of shareholder reurns. Then there is BNY MELLON .. our Treasury bank mirrirs JP MORGAN. in summary its the big banks that need to be broken apart,Glass Seagal put back in place and Wall Street tamed to respect the investors.

King Masterlord — Jun 21, 2026
Subject: S7-2026-15 Comments From: King Masterlord Affiliation: Jun. 21, 2026 Stop catering to these psychopaths, they had their turn in charge and they couldn't have dropped the ball harder. They're not in charge, we are. Money doesn't matter, morals do. Get some.

Kirk K Billingsley — Jun 21, 2026
Subject: File No. S7-2026-15 From: Kirk K Billingsley Too many of us who saved and invested our entire lives will be the ones that suffer. Why break something that is not broken. Stop this insanity.

Kirk Randle — Jun 21, 2026
Subject: S7-2026-15 From: Kirk Randle Affiliation: Jun. 21, 2026 Sarbanes-Oxley became law on July 30, 2002. Six days later, HealthSouth's CFO tried to quit rather than certify numbers he knew were fake. Relieving Officers from oversight injures shareholders.

Kirk Randle MBA TCU ‘82. Retired.

Kirsten Dixon — Jun 21, 2026
Subject: S7-2026-15 Comment From: Kirsten Dixon Affiliation: Jun. 21, 2026 Kirsten E. Dixon, higher education admissions. It matters to me because I am nearing retirement and need current information on investments so I can support myself in the years to come. Transparency is necessary for investors, not only for executives who may or may not make the best decisions for all over themselves.

Kirsten Ledford — Jun 21, 2026
Subject: S7-2026-15 Comment From: Kirsten Ledford Affiliation: Jun. 21, 2026 These companies already don't pay their fair share of taxes. I want more transparency, not less. Maintain the quarterly rule.

Kirsten Pruzek — Jun 21, 2026
Subject: S7-2026-15 Comment From: Kirsten Pruzek Affiliation: Jun. 21, 2026 Kirsten Pruzek Project Mgr

Quarterly Reporting from the SEC is imperative and should be required by law.
Transparency and accountability are essential to keeping businesses and organizations ethical.

Kirsten E. Pruzek

Kirsten Scheller — Jun 21, 2026

Subject: My view on Rule S7-2026-15 From: Kirsten Scheller Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission: I think that the SEC knows why this is bad for investors. We have a right for transparency with the dollars that we invest in a company. I think it is a basic ask as we invest means that we believe in said company. They need to show us why our dollars are working for us as an investment.
Kirsten Scheller

Kirstie Troup — Jun 21, 2026
Subject: S7-2026-15 Comment From: Kirstie Troup Affiliation: Jun. 21, 2026 Kirstie S. Troup, Self employed. This is outrageous that you would even consider changing the reporting window from quarterly to Semi-annual. This only benefits those who are trying to hide something & hurts the employees as well as those trying to earn an honest lives. Please keep the quarterly reporting!!!

Kitt Hawkins — Jun 21, 2026
Subject: S7-2026-15 From: Kitt Hawkins Affiliation: Jun. 21, 2026 Corporations need more oversight and accountability, not less. Our federal government has become a corrupt enterprise incapable of protecting its citizens.

Subject: S7-2026-15 Comment From: Kodi Coates Affiliation: Jun. 21, 2026 Hello. Keeping the SEC quartly allows me to keep up with my investments. Please leave it as such. Thank you.

Koldinger Family Account — Jun 21, 2026
Subject: S7-2026-15 Comment From: Koldinger Family Account Affiliation: Jun. 21, 2026 I am a private citizen who has carefully saved money and invested it in the stock market with the understanding that companies have good quarters and bad, but that I can find out in a timely manner how things are going for each of the companies I'm invested in. Waiting six months to find out that information will make it impossible for me to make timely, informed choices about what stocks to buy or sell. I do this all on my own. I don't have enough money to hire a financial advisor. I just want to save enough and earn enough to retire. Please keep requiring quarterly reports.

Konrad Schreier Newport Pacific, Inc. — Jun 21, 2026
Subject: File No. S7-2026-15 From: Konrad Schreier I have over 40 years of experience in commercial banking and currently work as a CFO. Permitting publicly traded companies to reduce their reporting intervals will inevitably lead to higher risk shifting to investors who will not be able to judge the performance of their investments for extended periods and create higher exposure to earnings surprises that translate into larger volatility. Through work as a trustee I have first hand experience with alternative investments which are less regulated and are not subject to the same levels of financial transparency applicable to public companies. That opens the door for deliberate obfuscation of their financial information that can often leave investors effectively unable to value their assets and heightened loss exposure. The SEC should not reduce the required levels of financial disclosure for public companies or it can expect the same kind of behavior.

Korina Feaster — Jun 21, 2026

Kristene Popores — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Kristene Popores Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Three letters shouldn't be necessary..
I don't and will probably never have a portfolio.
Aren't entities such as this designed to help and protect the people who depend upon the bigger entity?
When we went to work or on date we left our children with people we trusted. There was no question that they were looking out for our children's safety FIRST.
They, such as the HUMANS running the SEC, understood the"ins and outs" of the situation/house/toys/safety etc!!
It is sodisenchanting and disgusting that we have to ask you to please do the right thing! Like, please don't hurt our children while IN YOUR CARE!!??!! And you only need to send me notes about them every 3 days vs 3 hours.

Your kids in college. Just review finances twice a year. Send thousands? No matter what. I don't know as not been in that situation. You get the points I hope. Yet sadly I hear, "not that it matters.... The HUMANS of this organization make more money than most of the people depending on your INTEGRITY and most of all EMPATHY!!
WHAT IF it were Your money and in regular funds your future depend upon. The only way you can one day actually go out to eat one of twice a week. Take ANNUAL vacation. Actually volunteer small not Gala Events.
PLEASE embrace the golden rule.
Hopefully this helped someone in some way. The ripple effect could affect Your kids one day.
Sincerely

Kristi — Jun 21, 2026
Subject: S7-2026-15 Comments From: Kristi Affiliation: Jun. 21, 2026 I think it needs to stay quarterly. I also think that anyone who has benefited from insider knowledge should lose their money and go to prison. They know who they are.

lara davis — Jun 21, 2026
Subject: S7-2026-15 Comment From: lara davis Affiliation: Jun. 21, 2026 Everyone should be subject to quarterly reporting. Small businesses can be subject to monthly reporting even if all of their financial gains are seasonable and low enough to be considered poor. This could be argued to be an excess of reporting. Clearly the clarity has advantages. Monthly reporting helps keep stress levels down when an abundance of information is being conveyed.
Clearly reporting should go that direction with more reporting being the better option even if it seems like more than necessary for transparency. If less reporting becomes the norm, even after other countries have clearly demonstrated negative reality of that method, then the grave mistakes of others we have failed to learn from.
Get a grip, literally corruption and dishonesty are the only advantages of this rupturing proposal. Don’t approve.

laura thomas — Jun 21, 2026
Subject: S7-2026-15 From: laura thomas Affiliation: Jun. 21, 2026 I am Laura Thomas, a part time waitress in Louisiana.

My husband and I are not wealthy investors. We are a U.S. Air Force retiree, and a retired federal employee. Also under our roof is our adult daughter with epilepsy and intellectual disability.

My husband and I worked for decades to build a small nest egg. The dollars we have saved represent over 50 years (combined) of commitment and service to our great country.

We are now relying on the modest investments and savings we have accumulated to help carry us through retirement.

We don't have a large investment portfolio or substantial gains to cushion mistakes. Therefore, accurate quarterly information regarding our investments is critical to making timely and informed decisions about our financial futures and security.

We the people WANT,
We the people NEED,
We the people DESERVE,
We the people DEMAND quarterly reporting. Don't leave us in the dark.

Kind regards
Laura Thomas

Laurie Berger — Jun 21, 2026
Subject: S7-2026-15 Comments From: Laurie Berger Affiliation: Jun. 21, 2026 keep financials transparent to investors for the good of ALL people!

Laurie Fleitas — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Laurie Fleitas Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Being transparent is a necessity at this point in time. Too many peolle have invested and you don't have the right to not be transparent with the public. More fraud gets committed when things are kept quiet. It is within our rights to know EVERYTHING that goes on when it comes to Securities and Exchanges. You are playing with people's money. That is something the people DON'T WANT. STOP TRYING TO BE SO **** SNEAKY! Give us the same courtesy as you want from us while you rob us blind. This kind of thing has gone on long enough! Time to hear the voices of the people! Always something with you people!! Enough is Enough!! Stop it already!!

Laurie Gendron — Jun 21, 2026
Subject: S7-2026-15 Comment From: Laurie Gendron Affiliation: Jun. 21, 2026 Keep the quarterly reports!! We need to know how well (or not) our retirement accounts are doing so we can make serious investment decisions as we age!

Laurie Longtine — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Laurie Longtine Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
I am writing in opposition to this rule change. The SEC should really go the other way and requirre more frequent reporting not less as well as making all the disclosures in the footnotes much more prominent - perhaps with warning labels. Retail investors are already at a disadvantage when investing in the markets. This places them at an even greater disadvantage. The government's job is to protect its people. The SEC's job is to protect investors. This proposed change encourages already bad actors to take even more advantage of the retail investor. I oppose this rule. Scrap it.

Laurie Odell — Jun 21, 2026
Subject: S7-2026-15 Comments From: Laurie Odell Affiliation: Jun. 21, 2026 I don't know about you, but much if not most of the country REMEMBERS Enron. Those already swimming in wealth cheating the people and thumbing their noses at the rules. If you halve their responsibilities, you become a member of the dark side. Don't do it. Laurie, retired.

Lee Friedt — Jun 21, 2026
Subject: S7-2026-15 From: Lee Friedt Affiliation: Jun. 21, 2026 The CEO'S and CFO'S of companies and corporations should continue signing their quarterly reports. They should be responsible for what is reported. Decreasing the number of their reports simply opens the door for fraud and deception. I am retired, they are handling my and millions of other people's monies. We rely on the quarterly reports, we need to know our investments are secure and safe. Decreasing by half the number of their companies reports simply opens the door for fraud. The SEC knows this. "Give them an inch, they'll take a mile" comes to mind, and they will, taking their investors monies with them. Accountability each quarter keeps them honest, decreasing their number of accounted reports simply opens the door for fraud and deception. ENRON was a wakeup call, don't give them the opportunity for a nap!
Lee Friedt, retired in Montana

Lee Gorman — Jun 21, 2026

Lili-Marlene Rose — Jun 21, 2026
Subject: S7-2026-15 From: Lili-Marlene Rose Affiliation: Jun. 21, 2026 When does the corruption end? I sign so many forms like this and apparently they make no impact. drumph nation keeps rolling on. He has all his wealthy friends-including CEOS-making more money than ever at our expense. Yet, with the extraordinary amount of on going damage, every single "breaking news" day, that piece of 💩, his administration and all who support and defend him, he's still in the White House. It should be covered in ashes for all the deadly insults he's spewing on us, the environment and the world. He keeps burning 🔥 and is so out of control.
He and Netanyahu are so proud of being western terrorists, while claiming to be the "good guys." We must save ourselves from these good guys.
I will always sign these petitions but I would like to see Drumph and his greedy, corrupt, too powerful minions out of our country. Send them to live with his best pals in North Korean, Chinese and Russian countries. His bromancers. The "strong man" countries. Of which he is not. All he'll maybe have is money to offer, in order to have the rights he's so busy taking away from us. He's too old, totally sick in mind and body. Who would want him when he's no longer POTUS? Money? Does he think his strong men won't take it any way they want and toss him aside? Beyond that, what worth does he have to offer? Those countries are all very strong. Under fascism and dictatorship but

strong militarily. He could only be their puppet with our secrets to tell. But does he actually know any? His minions lie to him or create stories that will make him happy, I hope he finds dementia happiness with his fellow fascists and dictators. They are smarter than he is. He doesn't know that. Trumpstein philes, people. Drumph and Epstein files. NOW before he creates another breaking news and worse distraction.
Stand against him and his evil policies and actions.

Linda Berthume — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Linda Berthume Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Not having quarterly reports would cause an upheaval in the market and increase expenses on every day Americans. Please don't pass this regulation.

Linda Boardsen — Jun 21, 2026
Subject: S7-2026-15 Comments From: Linda Boardsen Affiliation: Jun. 21, 2026 It's critical that Americans know how "Big Business" is doing on a quarterly basis because it affects our financial well being.

Linda Bond — Jun 21, 2026
Subject: S7-2026-15 From: Linda Bond Affiliation: Jun. 21, 2026 Semi annual reporting is not a good idea. Have we learned nothing from the past?

Linda

Linda Bowman — Jun 21, 2026
Subject: S7-2026-15 Comment From: Linda Bowman Affiliation: Jun. 21, 2026 Linda Bowman, teacher
We need to keep the current quarterly reports. We all benefit from open transparency to aviod the same kind of fraud that this rule was set up to prevent.

Linda Brown — Jun 21, 2026
Subject: S7-2026-15 Comment From: Linda Brown Affiliation: Jun. 21, 2026 We are retired and have a lot of money invested in the market. We live off of these savings and investments. It is of utmost importance that reporting must be kept at a minimum of quarterly to prevent fraud and grift. Thank you for your attention to this.
Sincerely,
Linda Brown

Linda Cankar — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Linda Cankar Affiliation: Jun. 21, 2026 Linda Cankar, Customer Service Rep, Arlington, TX. Keep it Quarterly! I've worked my entire adult life, invested wisely, lived extremely modestly & will be retiring at my full retirement age in 1 year & 5 months. I DO NOT WANT TO SEE MY RETIREMENT SAVINGS END UP IN THE SEWER JUST SO CORPORATIONS CAN DO LESS TO KEEP THEIR INVESTORS AWARE OF THE COMPANY'S FINANCIAL STANDING. The investors won't be able to make timely adjustment decisions to their portfolios, the companies will have the investors' money for an extra 3 months each reporting period & investors' portfolios will decrease significantly as we learned from history. I've worked hard to get where I'm at now & I do not want to retire with nothing to show for my efforts just to work until I drop dead because of the greed these companies have. Ask yourselves "What is Corporate America hiding from the public, their investors? What are they hiding from you? Do you want to be in the dark regarding your retirement future? Do you know something we, the investors, DON'T know?"

Regards,
Linda Cankar

Linda Cankar — Jun 21, 2026
Subject: File No. S7-2026-15 From: Linda Cankar Linda Cankar, Customer Service Rep, Arlington, TX. Keep it Quarterly! lisa neubaumer — Jun 21, 2026
Subject: S7-2026-15 Comment From: lisa neubaumer Affiliation: Jun. 21, 2026 Companies do not deserve privacy as long as they are publicly traded. They are state created entities and should be required to report quarterly as long as they are trading in our markets and they are taking in money from citizens. They should have MORE frequent reporting requirements, not less.

lisa oddis — Jun 21, 2026
Subject: S7-2026-15 Comment From: lisa oddis Affiliation: Jun. 21, 2026 I am not in favor of moving reporting to a semi annual timeframe. I rely on timely information about the companies I am investing in when making decisions for the allocation of my retirement fund assets. A negative change in the companies' financial status, leadership team, etc. may have a devastating effects on the financial security of people like me if not disclosed for six months, The SEC is a regulatory body with the purpose of protecting consumers, I do not see how changing the reporting requirements from quarterly to semi annual protects me as a consumer. I support maintaining required quarterly reporting.

Thank you for considering my request,
Lisa Oddis
Associate Financial Representative

Lisa Osthelder — Jun 21, 2026
Subject: S7-2026-15 Comments From: Lisa Osthelder Affiliation: Jun. 21, 2026 I oppose changing public company reporting from quarterly to semiannual reporting. As an investor, I value transparency and timely access to financial information. Quarterly reporting helps investors make informed decisions and reduces uncertainty.
If the goal is to reduce market volatility and short-term reactions, providing less information is not the answer. Longer gaps between reports may increase speculation, rumors, and larger market swings when new information is finally released. Strong markets depend on transparency, and I support maintaining quarterly reporting requirements.

this is not acceptable!

Lisa Roberts — Jun 21, 2026

Subject: My view on Rule S7-2026-15 From: Lisa Roberts Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
PLEASE do not bow to the ultra rich who have convinced middle class to invest for retirement so that they can take away retirement benefits and medical care.
Changing the quarterly reports makes it more difficult to make informed decisions (and makes fraud easier). Do your job to protect citizens and our economy.

Lisa Sandberg — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Lisa Sandberg Affiliation: Jun. 21, 2026 Lisa Sandberg, MSPT
Home care Physical Therapist in MA. I am not interested in businesses having less oversight and less reporting, and this proposal is concerning. Ordinary people like me have too much money invested in the stock market to be kept in the dark and go back to the days when companies only disclosed every 6 months. Why is the SEC looking to change what has been good for businesses and for the American people? Keep businesses accountable.

Lisa Snyder — Jun 21, 2026
Subject: S7-2026-15 Comment From: Lisa Snyder Affiliation: Jun. 21, 2026 My name is Lisa Snyder I am near retirement and am VERY concerned the SEC would even consider something so reckless as bi-annual reporting. The past has shown us by doing this the losses to retail investors were much greater. The only ones that benefit are the insiders. Helping the rich to get richer while the working class public suffers from unknown losses. This is beyond RECKLESS, KEEP THE REPORTING QUARTERLY. The SEC should NOT bend the knee and keep the public in the dark.

Lisa Stillion — Jun 21, 2026
Subject: S7-2026-15 Comments From: Lisa Stillion Affiliation: Jun. 21, 2026 Lisa and Clyde Stillion.
Keep all reporting often, NOT HIDING REPORTS IN A 6 MONTH PERIOD.
This "6 mo dark" is only a way to scam the owners of said portfolios and investments.

UNDER NO CIRCUMSTANCES should they hide and have the ability/opportunity to commit fraud, theft, and inaccurate reporting.

Lisa Taylor — Jun 21, 2026

Lonnie Wilson — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Lonnie Wilson Affiliation: Jun. 21, 2026 The proposed semi-annual reporting over time will erode trust in the public markets and raises the expected risk premium, lead to lower valuations and potential market runs. I for one will be less like to invest in markets that are less transparent and especially look to divest from the more volatile market sectors. When did being accountable to shareholders, become a burden? Any company that takes this stance naturally becomes even more speculative.

Lora VanNoord — Jun 21, 2026
Subject: S7-2026-15 Comments From: Lora VanNoord Affiliation: Jun. 21, 2026 Quarterly reports are necessary for many reasons but mainly to stop fraud !

Subject: My view on Rule S7-2026-15 From: Lori Noonan Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Don't be reckless. Transparency and opportunities for correction are benefits of quarterly reporting for no - professionals (ie middle class) and help short and long term financial planning.

Lori Northrup American citizen — Jun 21, 2026
Subject: File No. S7-2026-15 From: Lori Northrup The SEC should keep the current quarterly reporting as is. The is is another blatant example of openly allowing obvious fraud and corruption! This administration is soon blatantly corrupt and could care less who knows it! Who will pay in the end? I will!! The American people are being taken by . every level of this administration from the very smallest of corrupt titles handed out by this administration to the very top who leads by example!! The guys a corrupt crook and the SEC is following his lead! Leave the QUARTERLY REPORTING ALONE!

Lori Oppenlander — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Lori Oppenlander Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Please keep reporting requirements quarterly. A lot can change in 6 months. Our world moves quicker and lthings change faster. Not a good time to reduce reporting and limit accountability. thank you,

Lori

LORI PICKERING — Jun 21, 2026
Subject: Comment on S7-2026-15 From: LORI PICKERING Affiliation: Jun. 21, 2026 To whom it may concern – let it be known that this citizen believes that quarterly reporting of company returns and dividends is essential to the success, not only of the investors but of the country as a whole. We need to know what is happening with our investments so that we can continue to make wise decisions moving forward….. if companies only report their profits and losses twice a year, the investors won't know what's going on and will be hurt in the long run. Don't we want people to be successful and happy in this country? Don't we value the middle class? Are the extremely rich people in this country the only important people? If the middle class disappears, who's going to buy the things that the very rich people are trying to sell? Please don't oppress the people who are trying to invest and make their lives better and save for a future and for their retirement. The super rich aren't the only important people in this country. We all have a need to survive and thrive and be proud of our country and we can't do that if we only serve the super rich. And honestly, when is enough, enough? How rich do the super rich need to be? Do they need to own and control everything? Isn't there enough to go around so that the middle class can grow and survive? The country as a whole does best when everyone thrives, and when the middle class is allowed to grow, and poverty is diminished and hopefully eradicated, then we will have a happy, healthy, thriving country and that's what we should all strive for. There is plenty and prosperity to go around so that everyone can prosper and do well. Let's not be greedy, people. I care about my country. I am a patriot. I am a concerned citizen and I care about my fellow citizens. This is what America should be about —not selfishness, oligarchy, and greed. My name is Lori Pickering. I am retired and I live in Denver, Colorado; this matters to me because I am a human being who cares about my country and my fellow citizens — all members of these great United States. Please remember what this country was built on and what it is supposed to be all about: With liberty and justice for all, and that means social justice, fairness, and the freedom to pursue economic well-being. Thank you for considering this letter and reading to the end. I care about my country, all of it, every single person in it. Protect investors' right to know what is happening with their investments and protect transparency.

Lori Zolar — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Lori Zolar Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Transparency is essential. Companies who are traded publicly are owned in by those of us who have put our faith in the system. For many, our future depends on our ability to manage the funds we place into this system. This measure, puts investors in the dark and at significant risk. It encourages us to redirect our investments so that we can better plan and manage our monies.
This may appear to help companies or lesson the administrative effort for regulators but if we all start moving these investments.
The reason the need is so great is the fact that people trust those regulations.
break the trust and you break the system.

Lorie Murray — Jun 21, 2026
Subject: S7-2026-15 Comments From: Lorie Murray Affiliation: Jun. 21, 2026 Keep everyone honest! I have a large portion of my retirement in the market. I'm hoping to live long enough to use it to enjoy my life, as well as, enrich the lives of my kids and my grandkids. Things are already in favor of the wealthiest, don't take any more away from the middle class.

Lorraine Adams — Jun 21, 2026
Subject: S7-2026-15 Comments From: Lorraine Adams Affiliation: Jun. 21, 2026 I'm a retired Flight attendant and I'm disgusted with all the cheating that's allowed. Thank you,
Robin Armer

LuAnn george — Jun 21, 2026
Subject: S7-2026-15 From: LuAnn george Affiliation: Jun. 21, 2026 Why in the world would the SEC want to make it easier for CEOs to avoid responsibility for wrong-doing by their organization? It is their job to know everything that is going on. Please do NOT change these regulations. I am a retired school teacher and rely on my investments to be able to do the things in retirement that I wish to do. I did everything right. I worked hard every day of my working life. I put money aside every pay so that the money would be there when I needed it it retirement. I lived beneath my means and have lived in what young couples today would consider a "starter home" for my entire adult life. At one point my husband and I were sleeping in the basement when my step-children moved in with us. To think that my investment could disappear overnight because a CEO lied about the financial condition of his or her company is unconscionable. If a CEO chooses to mislead the SEC and the public as to the financial standing of his or her company, there should be stiff penalties for that. They are playing with people's lives!
LuAnn M. George, retired school teacher

Luanne Weidner — Jun 21, 2026

Lucy Heitzenrater — Jun 21, 2026
Subject: S7-2026-15 Comments From: Lucy Heitzenrater Affiliation: Jun. 21, 2026 As an accountant, quarterly reports are a must for any business, regardless of size. Investors deserve the right to have the ability to see the health and strength of the businesses they are investing in on a quarterly basis. Do not allow those investing to be kept in the dark. Millions of people depend on these reports. Taking this information away from investors is shameful, it's neglectful, and will foster an environment of secrecy and lead to insider trading among those within the businesses not reporting quarterly.

Lucy Long — Jun 21, 2026
Subject: S7-2026-15 From: Lucy Long Affiliation: Jun. 21, 2026 Lucy. Retired RN, We must keep big business and it's leaders accountable for fraud. Keeping jail time on the books is obviously needed to control dishonesty and the fraud we are seeing so much of. Let's keep them accountable!

Lynn Daniels — Jun 21, 2026
Subject: S7-2026-15 Comments From: Lynn Daniels Affiliation: Jun. 21, 2026 I am Lynn Daniels, retired engineer & manager

This plan to return to less reporting by firms is not in the best interest of the people of the US. Decades ago, we changed to quarterly reporting, with positive results. We need to know what and how the firms we invest in are functioning. This idea to return to semi annual reporting helps keep investors in the dark and should be opposed by any one who invests.

Do not permit this change!

Thank you
Lynn Daniels
Salem, SC

LYNN DEBLANCE — Jun 21, 2026
Subject: Quarterly reporting From: LYNN DEBLANCE Affiliation: Jun. 21, 2026 I am opposed to the removal of quarterly reporting. Six months is too long a time as the information is too stale dated to be of use for small investors such as I am. Changing the rule provides no savings to myself and only allows the companies to hide reportable information longer.

Lynn DeBlance
Retired Accountant & Treasurer

Lynn Durel — Jun 21, 2026

M Stover — Jun 21, 2026
Subject: S7-2026-15 Comments From: M Stover Affiliation: Jun. 21, 2026 I'm busting my arse cleaning houses every flippin day and I have to report every gd **** dime I make. Giving these billionaire/Epstein class members a break shows me exactly where your twisted priorities/loyalties lie. Quarterly reporting is literally the very least these (maybe crooks?) should have to submit to. Gah. I've had it with this bunch and their enablers. Looking at you SEC…

Sick and tired,
Marcy Stover
Laconia NH

M Wilson — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: M Wilson Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Something like this is truly going to ruin the economy. You think it's bad now? It will be worse if stocks start plumbing because of this.

M. Bynum — Jun 21, 2026
Subject: S7-2026-15 Comment From: M. Bynum Affiliation: Jun. 21, 2026 Companies need to keep their reporting quarterly. This helps the average investor manage money and their investments. Company hiding their reporting responsibilities is not a good thing for the American public only for the ultra wealthy will this benefit?

M. David Matney — Jun 21, 2026
Subject: S7-2026-15 Comment From: M. David Matney Affiliation: Jun. 21, 2026 I have no issues with semi-annual reporting but EVERYONE works off the same rules. Insiders DO NOT get special priviledge. Everyone works off the same information. Bigtime lawsuite coming against the SEC if you create a special class of rules..

M.C. Mitchell JR — Jun 21, 2026
Subject: S7-2026-15 Comment From: M.C. Mitchell JR Affiliation: Jun. 21, 2026 This reeks of misconduct at every level of government oversight in my humble opinion. The collateralization of management into debt obligations that are then passed on to unsuspecting taxpayers and employees is causing an inestimable drag on the countries GDP and GNP.
Melvin C Mitchell Jr.
P.S. I have been affected by these types of policies and don't think this will reach anyone with any sort of regulatory authority in a timely fashion.

Mac McDonald — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Mac McDonald Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
This is NOT an ethical move. Please reconsider this proposed action.

Mac70031 — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Mac70031 Affiliation: Jun. 21, 2026 Dave Port, Oklahoma City, Oklahoma.

Keep the quarterly reporting requirement. If you want to kick off Depression v2.0, changing to a 6 month reporting requirement would do it. Over half the country is barely hanging on financially already, and cutting their pay and pension in half would cause an unmitigated disaster.

Thank you for your consideration of this matter.

Mack Lee — Jun 21, 2026
Subject: S7-2026-15 From: Mack Lee Affiliation: Jun. 21, 2026 I'm urging you to leave the quarterly reporting as it is to keep CEOs in line. Don't trust them!

Mack McClelland — Jun 21, 2026
Subject: S7-2026-15 Comments From: Mack McClelland Affiliation: Jun. 21, 2026 Too much lack of trust for me to go along. You want an extra three months to hide mistakes. History will repeat itself. A big no for me.

Yahoo Mail: Search, Organize, Conquer

Madeleine Hall-Arber — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Madeleine Hall-Arber Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
With the markets being so volatile, it is absurd to change the existing rule. It's poor policy since, for example, new businesses that have to show profitability to get loans. Also existing businesses may have to pay higher rates if banks have to guess whether they are as stable as they were 6 months ago. I urge you to keep the quarterly reporting requirement.

Madeleine Sklar — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Madeleine Sklar Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Companies should not be able to hide information or buy our government as they have been doing by the governments refusal to get the money out of politics. all elections and campaign should be paid for by public funds, and every candidate should have the same financing.

Madeleine Taney — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Madeleine Taney Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Absolute power corrupts absolutely! Oversight, regular reporting, and audits are essential to keep the seductive nature of power (ie. Money)in check!
Please protect the public from.getting deceived and robbed.

Madeline Holland — Jun 21, 2026
Subject: S7-2026-15 From: Madeline Holland Affiliation: Jun. 21, 2026 As a small investor myself, I believe everyone should have access to quarterly reporting.

Madeline McLaughlin — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Madeline McLaughlin Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:

The majority of the middle class has their entire investment in the stock market. We do not need less regulation. Companies already hold all the cards. They need to be monitored and the only way to do that right now is through continued quarterly reports to shareholders. We will be destroying market stability and confidence if you enact this proposal.

Madison McGlamery — Jun 21, 2026
Subject: S7-2026-15 Comment From: Madison McGlamery Affiliation: Jun. 21, 2026 It's ridiculous this is even a thought. My money doesn't belong to the god **** banks. Tax the rich, not regular citizens who just want to work hard for what they have.

Madison McGlamery

Maerian Morris — Jun 21, 2026
Subject: S7-2026-15 Comments From: Maerian Morris Affiliation: Jun. 21, 2026 SEC

To Whom it May Concern:

My name is Maerian Morris. I am a retired administrator and accountant who has worked on government, various for profit company, and non-profit organization contracts and grants. I worked for many years on reporting and auditing. Sometimes even those with the best of intentions make problematic decisions that are much better for everyone when uncovered quarterly. Waiting 6 months makes repair, restitution, and uncovering of errors and potential malfeasance more difficult. This is a terrible idea and quarterly reporting should be retained. Monthly would be better, frankly. Transparency is so important in a time where trust is being eroded and people are uncertain whether funds are being administered appropriately.

Best regards,

Maerian Morris

Maggie H. — Jun 21, 2026
Subject: S7-2026-15 Comments From: Maggie H. Affiliation: Jun. 21, 2026 Why do something thst promotes fraud? This idea is not about transparency or fairness. It’s as crooked as the Trump Administration.

Malik Rahman — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Malik Rahman Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
I have been a retail investor for a long time and have relied on quarterly reports to make decisions about my investments. The stock market is a black box to most investors, and most people know little about the performance of the businesses while choosing investments for their retirement savings.
I don't know what has triggered the making of this new rule that diminishes transparency and removes the sunshine on their performance. Information is key to choosing where we invest. Please don't take it away.
Thank you for your consideration.

Mallory Joyce N/a — Jun 21, 2026
Subject: File No. S7-2026-15 From: Mallory Joyce I want the reports to remain as quarterly reports.

Mallory Mae — Jun 21, 2026
Subject: S7-2026-15 Comments From: Mallory Mae Affiliation: Jun. 21, 2026 Americans do not live in a representative democracy. We live with the illusion of choice because dark money buys our politicians. The SEC must maintain quarterly reporting mandates for companies so that companies feel and submit to government regulation.

Mallory Mae, J.D.

Marcella Rice — Jun 21, 2026
Subject: S7-2026-15 Comments From: Marcella Rice Affiliation: Jun. 21, 2026 Do not do it! We (the public)already take a HUGE backseat to"others" manipulating the market 24/7.
This is a horrendous idea .
We need to know what these companies on the stock market are doing with the money we invest. It's pretty obvious a lot of cheating already happens-don't give thieves the option to do more. Waiting 6 months to find out how companies are doing makes no sense. Regular people would be maximally shut out and without recourse. We need to know how our money has been used; the prospects for the companies in the future, all changes that have happened in 6 months. This idea is ludicrous. Billionaires will LOVE it and will rip us off some more.

Marcelle Van Houten — Jun 21, 2026
Subject: S7-2026-15 From: Marcelle Van Houten Affiliation: Jun. 21, 2026 Quarterly reporting is imperative. Don’t understand the incentive for changing that rule unless you want to protect cheaters, please stick to your guns and make people accountable to the laws of our country.

Marcy Meyer Individual investor — Jun 21, 2026
Subject: File No. S7-2026-15 From: Marcy Meyer Hello, As an individual investor who depends on timely and reliable company financial information to make sound investment decisions, I am writing to request that you reject the proposal to reduce the number of reviewed, certified financial filings publically-traded companies are required to file each year. Such a change would create profound risk for individual investors like me by creating large blocks of time when trustworthy, current company financials would be unavailable. The resulting uncertainty could create corresponding periodic gaps in the flow of capital into the market from individual investors if they are unwilling to take part in such high-risk trading and/or it could result in financial losses among those who do take the risk, neither of which are outcomes that would contribute to the robustness of the American economy. Please do not move forward with the proposed changes. Sincerely, Marcy-Ann Meyer

---

Marcy Whiting — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Marcy Whiting Affiliation: Jun. 21, 2026 We need to get quarterly reporting to inform us of how are investments are going so we can make informed

decisions. This is our money and we have a right to know. Transparency from these companies are a must. History shows us that without transparency, portfolios like money. This does not help individuals and thus hurts our economy.

Marcy Herman-Whiting

Mardi O'Shaughnessy — Jun 21, 2026
Subject: S7-2026-15 Comments From: Mardi O'Shaughnessy Affiliation: Jun. 21, 2026 Quarterly reporting is essential to the American enterprise system. It's not a perfect system, but it helps to keep businesses honest. Extending the reporting period to six months would only empower the charlatans, who get away with too much as it is.

Mare Watts — Jun 21, 2026

ENOUGH OF THIS HORRIFIC "Government/Regime".

THIS WILL BE TERRIBLE FOR THE ECONOMY AND POTENTIALLY

Maren Williams — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Maren Williams Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission: keep reporting quarterly. Why make changes to a rule that would lessen the transparency of the companies we invest in? We want to invest with confidence.

Margaret Flynn — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Margaret Flynn Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
In my view Rule S7-2026-15 will benefit the corporations that would no longer have to supply quarterly reports to their investors. Investors like myself, who work hard and save for kids education and/or our retirement and are not financial professionals. Reports that come quarterly we can at the very least compare and possibly head off disaster, reviewing and comparing (and making sense of) reports that come less often than quarterly puts more burden on the non-finance-professional investors and ensures the corporations and finance professionals do not have to be honest and upfront with those of us who are financing their businesses It'll increase personal bankruptcy and corporate fraud.

Margaret Hill — Jun 21, 2026
Subject: S7-2026-15 Comments From: Margaret Hill Affiliation: Jun. 21, 2026 Please KEEP Public companies reporting their financial results every three months, DON’T change their reporting to every six months.

Margaret Townsend — Jun 21, 2026

Subject: S7-2026-15 Comments From: Margaret Townsend Affiliation: Jun. 21, 2026 As someone who worked as an executive at major Fortune 500 Companies, I do not support a reduction in transparency. Yes. It is work, but it is work that protects all honest people involved - the board, the leadership, the investors and the employees. There is nothing good to be gained by allowing a company to kick disclosure of an abnormality or business disruption down the road. I can tell you first hand (Washington Mutual, GE after 9-11) that transparency creates an important dynamic that, if missing, allows people to tell themselves lies about how bad it is or how it can be fixed. Do not reduce the reporting period. The best run companies understand and respect this. Margaret Townsend

Marie Kumasaka — Jun 21, 2026
Subject: S7-2026-15 Comments From: Marie Kumasaka Affiliation: Jun. 21, 2026 SEC reports should be kept quarterly for full disclosure on company activities. Needed for financial analysis on company direction trends, too late if only twice a year. Less reporting allows cover up of mismanagement and fraud.

Marie Kumasaka

Mark Levitan — Jun 21, 2026
Subject: S7-2026-15 Comment From: Mark Levitan Affiliation: Jun. 21, 2026 Removing the requirement for quarterly audited 10-C filings is a disaster for corporate accountability. It will fuel more insider trading, which is illegal when it involves "material, nonpublic information that violates a duty of trust or confidence." Investors and the public already lack confidence that corporations act in their best interests, and frankly, Federal government oversight of this activity at the current time is markedly lax by design. Corporations should be forced to have more transparency, not less. Six months is a long time in the world of business decisions, and mere unaudited earnings forecasts don't tell anywhere near the whole story of a corporation’s actions. Do not implement this rule.

Mark Morgan — Jun 21, 2026
Subject: S7-2026-15 From: Mark Morgan Affiliation: Jun. 21, 2026 Mark Morgan. Data Center Analyst. Oklahoma City, OK. It is irresponsible for the SEC to allow semi-annual reporting. I am a long time investor. Delayed information of the fnancial health of a company can be extremely detrimental to the retail investor. Institutional investors have much greater access to information. You will be hurting retail investors.

Mark Myers — Jun 21, 2026

Regional Administrator
Close to retirement

Reporting is easier than ever since accounting is computerized. Quarterly reporting is mandated by our state sales tax agency—a burden on small retail owners. But, large firms with corporate accounting departments could go to twice a year? Make that make sense please.
We rely on quarterly reporting and dividends to pay out and keep our bills on time. This will be even more important as we move to retirement age.

-peace & joy-
Marla Morris

Martha Cooper, retired

Martha Dzioba — Jun 21, 2026
Subject: S7-2026-15 Comment From: Martha Dzioba Affiliation: Jun. 21, 2026 Quarterly reports keep companies' financial health current. Everyone benefits from regular reporting. 6 months is too long for a company's financial health to be out of sight. Quarterly reports should be retained. There's no good, rational reason to go to 6 month reporting and a lot of harm can result. Keep the quarterly reports!!!

Sent from my iPhone

Martha Krikava — Jun 21, 2026
Subject: S7-2026-15 Comment From: Martha Krikava Affiliation: Jun. 21, 2026 This is bad for investors (except those with inside information). Companies are used to preparing these quarterly reports and it's a normal cost of doing big publicly traded business. The cost to the business is not really the point here. The risk for investors is missing vital information in a timely manner.
Please keep the reporting requirements quarterly!

Sent from my iPhone

Martha Lane — Jun 21, 2026
Subject: S7-2026-15 Comments From: Martha Lane Affiliation: Jun. 21, 2026 Owning stock in a company is an investment in that company. As an owner of said company quarterly reports are a minimum of information that stockholders should have. During extreme market changes this becomes even more important. Additionally the data will all be there as any decent company will want this information to make decisions for their company so there will be no "savings" for discontinuing the quarterly report. It is only going to help fraudsters keep pertinent information from stockholders. Personally if this becomes a new policy and when it becomes apparent that this is being used as a means for fraud, I think most stockholders should move their investments to markets outside of the US. Is this something you really want to happen?

Martha Nelson — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Martha Nelson Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Please do not make any current changes to reporting information every quarter. This is vital information as we monitor our accounts and plans for our retirement years

Mary Ellen Sadowski — Jun 21, 2026
Subject: Hey SEC: Save Quarterly Reporting! From: Mary Ellen Sadowski Affiliation: Jun. 21, 2026 My name is Mary Ellen Sadowski. I live in Wilmington, NC. I am 64 years old, currently unemployed and using my investment funds for survival at this time.

I feel that corporate America walks a very fine line between greed and corruption. Without the oversight of quarterly reporting, it enables incompetence and possible corruption in these organizations. In addition, it blind sides investors, particularly if there is a sudden market turn or if in fact the organization is suffering from severe losses or embezzlement.

Good business requires checks and balances. It is vital we keep the accountability by ensuring quarterly reporting continues.

Thank you.

Mary Fahey — Jun 21, 2026

Transparency seems such an obviously necessary aspect of all financial inveestments. Please stop SEC's proposed rule to hide details about public companies from private investors.
Thank you for your attention to this message.

Mary Hahn — Jun 21, 2026
Subject: S7-2026-15 Comments From: Mary Hahn Affiliation: Jun. 21, 2026 My name is Mary Hahn and I live in Phillips, WI. I use quarterly reporting to make investment decisions. I strongly believe longer gaps in reporting create an unfair advantage for corporate insiders, and an "optional" reporting mechanism doesn't fix the problem because companies that opt in are often the ones whose investors most need frequent updates. Using the excuse that there will be savings to companies does not and will not equate to better returns to investors. Because of less transparency, the potential savings to companies will lead to more cost to average investors. Don’t stack the deck for companies.

MFHahn

Mary Repp — Jun 21, 2026
Subject: S7-2026-15 Comments From: Mary Repp Affiliation: Jun. 21, 2026 Dear Sir or Madam,

The SEC needs to keep it a quarterly reporting, not every 6 months. This catches problems when they are small and are easier to address. Companies and other entities need to be held accountable if they are not following the laws & regulations. I have a brother-in-law who is a long time accountant for a large interstate company. He has to be very meticulous in following all the laws and regulations, but some accounting companies don't do this. Hopefully if you keep the quarterly reports, what happened to Enron and also to a telephone company my husband worked for in which there was inappropriate accounting won't happen again. The CEO of the telephone company my husband worked for, inappropriately got funds from the company. This decreased the money from the company's retirement plan. For awhile, we received notices every month that money in this fund had been used that month to pay for health insurance and the retirement fund was decreased by: $2,000 on month, $3,000 the next month and on it went for a period of time. My husband is now retired, but receives a lot less retirement then he would have if this had not happened. We have to be careful with our finances to make them last our life time. We are in our mid-seventies with health issues (MS, etc for me and one lung for him, although he never smoked). We are thankful we are on Medicare and he gets VA benefits.
The SEC must continue to monitor the finances of these entities every 4 months, not every 6 months, so what happened to us won't happen to other employees or investors.

Sincerely,
Mary E. Repp, RN, BA, MS, completion of AA paralegal program & a legal nurse consultant program, completion of courses in Higher Education & Administration Doctoral program at USD, SD former university professor, commissioned parish nurse, researcher & faculty member of University of South Dakota department of internal med. medical school, education nurse consultant with SD Board of Nursing, assistant nurse of oncology unit & oncology nurse consultant in Oklahoma City, COSTEP (commissioned officer student training and extern program) with USPHS active duty in Galveston, Texas, staff nurse at Mt. Job Title: Software Developer
Why This Matters: I have all my retirement savings in the stock market
---
Quarterly earnings reporting serves as a critical pillar of market transparency and investor protection — the twin foundations of the SEC's mandate. Investors, both institutional and retail, rely on timely, high-frequency financial disclosures to make informed capital allocation decisions. Reducing reporting to semi-annual cadence would double the information gap between disclosures, leaving markets to operate for six months on potentially stale data. In fast-moving industries — technology, energy, financials — a company's fortunes can shift dramatically within a single quarter. Limiting disclosure to twice a year would not reduce volatility; it would concentrate it, producing larger and more disruptive market reactions when earnings are finally released. Crucially, less frequent reporting also narrows the window for detecting financial distress, fraud, or material deterioration in a company's condition. Early warning signals that quarterly filings surface — declining margins,

liquidity pressures, rising accounts receivable — could go undetected for months under a semi-annual regime, increasing systemic risk and the likelihood of investor harm.

The argument that quarterly reporting fosters harmful short-termism is compelling in theory but weak in practice, and it should not drive a structural rollback of disclosure standards. Corporate executives set long-range strategies regardless of reporting cadence; there is little empirical evidence that moving to semi-annual reporting would cause management teams to meaningfully extend their planning horizons. What semi-annual reporting *would* do is reduce accountability — giving leadership longer periods without external scrutiny, weakening the disciplinary effect that regular disclosure imposes on corporate governance. It would also create an asymmetry of information: insiders, analysts with direct corporate access, and large institutional players would fill the disclosure vacuum through private channels, while ordinary investors are left behind. The SEC's core mission is to ensure fair and efficient markets for all participants. Quarterly reporting is not a burden on that mission — it is an instrument of it.

Matt Hartman — Jun 21, 2026
Subject: S7-2026-15 Comments From: Matt Hartman Affiliation: Jun. 21, 2026 Stop setting the bar low, keep reporting requirements quarterly. More information is better for consumers and in the end better for companies that have to compete for our dollars in an open, transparent and competitions market.

Matt Loach — Jun 21, 2026
Subject: S7-2026-15 From: Matt Loach Affiliation: Jun. 21, 2026 My name is Matt Loach; I live in Plattsburgh, NY, USA. I have never been able to afford to invest in stocks or bonds, but I remember the Enron catastrophe, and the damage that it caused. It seems that the time has come for change. I agree. All corporate officers should be required to sign the relevant financial documents _monthly_, from now on. The current system has obviously been too lax, with too much wiggle-room for dishonest corporate officers. This has given them a false sense of security, since they are obviously petitioning the SEC for more relaxed rules. Requiring that financial documentation be signed monthly, rather than quarterly, will allow for better control over dishonesty. As will requiring that all corporate officers sign-off on the documentation (not just the CFO). Thank you for your time.

Matthew Asanuma — Jun 21, 2026
Subject: S7-2026-15 Comments From: Matthew Asanuma Affiliation: Jun. 21, 2026 My name is Matthew Asanuma. I'm a visual effects artist, husband and father who invests for the future of his family. Please understand that people are already having a hard time making ends meet financially. The only means the working class have to retire is through investment and having a fair look into the financials of the companies that we invest into. Take that away and you sow more distrust, anxiety, and resentment amongst the working class.

This will only lead to more instability in the future. A relaxing of SEC regulations for corporations means tightening anxiety for anybody invested in corporations. The working class is already highly anxious as it is. By throwing more cause for distrust in the very companies we all work for, you will see more quiet quitting and apathy towards work than ever before.

Best,
Matt Asanuma

Matthew Donatell — Jun 21, 2026
Subject: S7-2026-15 From: Matthew Donatell Affiliation: Jun. 21, 2026 Quarterly reporting is a must! Plan and simple. Every major company needs to have checks and balances. On a quarterly period. A small way a company can keep employees honest. Greed is running
wild in this country! We need to hold peoples feet to the fire. Don't lessen policy. Too make it any easier to be a thief!

Maureen — Jun 21, 2026
Subject: S7-2026-15 From: Maureen Affiliation: Jun. 21, 2026 Quarterly reporting was implemented after Enron, with good reason. I worked as a consultant with the Big 5 when Enron happened and the results had catastrophic outcomes for many.
While I'm sure big business would love reduced reporting requirements and less oversight, the potential consequences on the markets, where so many everyday Americans have retirement savings invested could be devastating. If we are investing in these companies through the market, then we have a right to know what is happening and CEO's and leadership need to be accountable for that information. Do not reduce the quarterly reporting.
Maureen Duffy, retired business executive, Tampa Fl

melissa hammock — Jun 21, 2026
Subject: Comment on S7-2026-15 From: melissa hammock Affiliation: Jun. 21, 2026 Dear SEC Commissioners:

I strongly oppose any proposal to reduce public company financial reporting from quarterly to semiannual reporting. Quarterly reports provide investors with timely, transparent information that helps us make informed decisions about our investments and retirement savings. Reducing reporting frequency would leave investors relying on outdated information for longer periods, making it more difficult to identify changes in a company's financial condition, performance, or risks. Investor protection and market transparency should remain the SEC's primary focus.

Quarterly reporting promotes accountability, supports efficient and fair markets, and helps maintain confidence in our financial system. Reducing it would increase information gaps and could place

ordinary investors such as myself at a great disadvantage. Additionally, my retirement savings are directly invested in the public markets, and decisions made by the SEC regarding disclosure requirements can have a meaningful impact on my financial future.

For these reasons, I strongly believe that maintaining quarterly reporting requirements is in the best interest of individual investors and the integrity of our markets.

Thank you for considering my comments.

Sincerely,

Melissa Hammock

Melissa Hewitt — Jun 21, 2026
Subject: S7-2026-15 Comments From: Melissa Hewitt Affiliation: Jun. 21, 2026 Making changes just opens up for fraud. If it is a publicly traded company, and even if it not, those investors, taxpayers, are due the respect. There is nothing wrong with capitalism, in fact that is what creates competition, what we don't need is taking those safety measures being taken away that help keep companies and politicians honest. Because ultimately you have to ask why anyone wants there to be special rules, that only some will benefit from and tax payers will end up paying for while the companies intent on not being on honest and the politicians looking the other way, let it happen.

Subject: S7-2026-15 From: Melissa Huelsman Affiliation: Jun. 21, 2026 My name is Melissa Huelsman. I am an attorney, Seattle and this matters to me because integrity in America's financial systems is IMPERATIVE if the government wants anyone to actually trust the way the markets work going forward. It is also important because I handled 100s of cases against mortgage companies leading up to 2008 and was part of a group of consumer attorneys across the country who REPEATEDLY demanded that regulators do their jobs and actually REGULATE the financial markets, banks and mortgage companies. And when 2008 happened - the thing that consumer attorneys had been saying WOULD HAPPEN - you "regulators" made excuses for why it wasn't your fault and basically did absolutely NOTHING to impose any penalties on those who engaged in the massive amount of FRAUD which lead to the almost complete financial collapse of our economy.

Enron and the financial collapse of the American economy in 2008, which was brought on by lying, cheating, FRAUDSTERS on Wall Street and in the mortgage and banking markets make it VERY clear that absent VERY SPECIFIC reporting requirements, which includes PERSONAL liability for those signing off on the documents, those working in these businesses WILL LIE AND CHEAT AGAIN! And that would leave American TAXPAYERS footing the bills for the harm that they cause while they walk away with even more money JUST LIKE THE LAST TIME. The fact that the SEC, which has MASSIVELY failed on multiple fronts to properly regulate the markets FOR YEARS, is now trying to make it EASIER for more fraud to saturate them should be astonishing, but it isn't. I want you to surprise Americans by putting a STOP to this effort and start doing something to help average Americans and our economy. Because allowing Wall Street sociopaths to document multi-million dollar deals on napkins in bars is NOT an acceptable way to do business.

Melissa Jones — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Melissa Jones Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Please keep the requirements for quarterly reporting. Small investors deserve the right to timely and accurate reporting. Removing the quarterly reporting will only hurt the small investors.

Melissa Magal — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Melissa Magal Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
The general public needs to have the government protect their rights. The right to know how any company they invest in is doing and whether they should continue investing or not. Keeping vital information hidden does not protect us.

Melody Bishop — Jun 21, 2026
Subject: S7-2026-15 Comments From: Melody Bishop Affiliation: Jun. 21, 2026 I am an accountant, and my opinion is that if you allow more than 3 months, you will allow too much time between periods of accountability. The more time, the more forgetting happens. These days reduced accountability from other aspects of business is rampant. The retail investor is at a higher risk today, and to do this now would be to increase that risk at a bad time. Allowing this level of time would need to be merit based.

Melody Kannas — Jun 21, 2026
Subject: S7-2026-15 Comments From: Melody Kannas Affiliation: Jun. 21, 2026 My name is Melody Kannas and I worked for 35+ years in the private sector paying to fund this country via federal income tax. I lifted the following short description of the SEC from the web.
"The Securities and Exchange Commission (SEC) is an independent federal government agency. Created by Congress following the stock market crash of 1929, its primary mission is to protect investors, maintain fair and orderly markets, and facilitate capital formation."
As a government agency it should be reporting quarterly to reduce fraud within the government by the government!
Trump's unaccounted for 1.4 billion dollars is a perfect example of why it is important and I would say, a fundamental aspect of a lawfully overseen SEC and commerce in the United States.

Melody Kelley — Jun 21, 2026
Subject: S7-2026-15 From: Melody Kelley Affiliation: Jun. 21, 2026 If you weaken this rule there will

be more fraud. Of course, you already know that, but the public knows it too.

MEREDITH ANDERSON — Jun 21, 2026
Subject: S7-2026-15 From: MEREDITH ANDERSON Affiliation: Jun. 21, 2026 My name is Meredith Anderson and I reside in Westminster, Colorado. I am a retired medical laboratory professional. I was employed by the same corporation that looted Medicare when Rick Scott led the company. There was no accountability then. Sarbanes-Oxley held companies and their leaders accountable for their financial reports. Sarbanes-Oxley must be upheld without adulteration. The proposed change from quarterly to semiannual reporting invites malfeasance and is detrimental to the health of our financial systems and the financial security of investors of every stripe. Do not follow through with the ill-advised change to Sarbanes-Oxley. It would be a precarious step backward and further erode the faith of U.S. citizens in their government institutions. We rely on your good-faith consideration. Respectfully submitted.

Meredith S — Jun 21, 2026
Subject: S7-2026-15 Comments From: Meredith S Affiliation: Jun. 21, 2026 There is an old saying, "if it's not broke, don't fix it". Simply put, if the system works, and has for decades, why attempt to change it now?
Quarterly reporting is important and should continue to occur, especially if it is a publically traded company. There is no reason a company should be allowed to non-report, to their investors, for 1/2 a year. That simply invites malfeasance, distrust, insider trading, fraud, and a crumble in our financial markets. Do you wish to have a repeat of the financial crash from 2007-2008? Think carefully. The financial crash occured due to publically traded companies hiding information, lying to their investors, and malfeasance with rating companies, etc. This all occurred with the normal quarterly reporting. In less than 20 years, you're contemplating awarding such behavior by giving them a longer time frame in between reporting. Seriously, that is not the answer. Or, is this possibly your response to the affordability crisis?

A financial crash would certainly cause home prices to tumble again, but as someone that lived through being upside down in my home, I don't wish to ever see a similar crash again. We were the unlucky ones that were unable to have the amount we lost in equity "wiped" away or forgiven, and our lender was Taylor, Bean, and Whitaker...yet because it was Fannie May, we were stuck upside down and I lost $55,000 overnight. I had to claw my way back. It took 8 years just to get even with the mortgage I owed on my home, but I still had no equity. I was thankful when home prices increased and I had equity again. Although the price jumps happened over 18-24 months, I believe a

good portion was simply a course correction from the financial crash. Prices are stable now, some even decreased, and let's face it, if interest rates would have increased sooner, prices would not have risen as high as they did.

In all this, the most important factor is NOT to make it easier for a repeat of the financial crisis. Allowing any company a longer period between reporting si.ply gives them more time to lie, cheat, steal, commit fraud, and/or hurt any of their investors. America is not stupid. I support Trump and many of his less government is better ideas. However, this is one idea/suggestion I absolutely disagree with. Keep the usual quarterly reporting and never try to chamge it, alter it, or allow companies to divert from the quarterly reporting. Never mess with what works, you may cause an outcome you don't truly want.

With Regards,

Meredith S.

Meri Anne Stowe — Jun 21, 2026
Subject: S7-2026-15 Comments From: Meri Anne Stowe Affiliation: Jun. 21, 2026 Stop breaking things! Quarterly reports are essential for the millions of Americans whose future financial well-being is dependent upon a transparent economic market. The contempt for all those investors in the proposal to let corporate interests slide in reporting is stark.

Michael Graham — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Michael Graham Affiliation: Jun. 21, 2026 Quarterly reports are necessary to ensure management isn't screwing up. SEC needs to perform proper oversight of every company and financial institution associated with doing business in the United States of America.

The SEC failed investors when LTV went bankrupt and while doing so allowed LTV to buy Copperweld Corporation from Imetal for 228 million dollars in 2002 when it should not been allowed. When the bankruptcy documents were filed many people, including myself who worked for over 30 years had my retirement pension taken over by the PBGC. My retirement I earned was reduced by 40%.

More oversight of financial records and forecasts are needed and reported. Not less reporting.

When I retired after working for Copperweld for 46.5 years my pension had been reduced by over $2,500 per month. At the end of my career my job title was Manager Chemical & Environmental Control.

Why on earth favor less reporting? To help corporations hide malfeasance? To help them hide poor performance for a while? To increase stock market volatility when markets get more frequent surprises?

That last one could be a winner. Financial firms like hedge funds have ways to profit on volatility. For normal members of the public, it is not at all desirable.

Please favor the public. Corporations are not people.

Michael Jamerson — Jun 21, 2026

Michelle Smith — Jun 21, 2026
Subject: S7-2026-15 Comments From: Michelle Smith Affiliation: Jun. 21, 2026 Accountability should not be sacrificed. Publicly traded should mean public accountability at a frequency (at least quarterly) that allows for transparency. A lot can happen in 3 months; six months only encourages corruption. I’m a shareholder and I say no to this proposal.

Michelle Smith, Assurance Director (mining industry)

Michelle Stever — Jun 21, 2026
Subject: S7-2026-15 From: Michelle Stever Affiliation: Jun. 21, 2026 Absolutely keep. The problem is accountability. You know right from wrong in office.

Michelle Valenti — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Michelle Valenti Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:

Your proposal to do away with quarterly reporting is dangerous and short sighted. These reports allow us to see the companies we invest in more frequently than their annual reports allow for. Without this, investors would be blind to what's going on in the companies we own shares in, as well as competitors, ancillary industries, and their supply chains. Without this information, we won't be able to invest with full knowledge.

please reverse this suggestion and continue to have companies report quarterly as they have been.

thank you.

Mick-Dean Grossapoulos — Jun 21, 2026
Subject: S7-2026-15 Comments From: Mick-Dean Grossapoulos Affiliation: Jun. 21, 2026 My name

is Michael D Grossapoulos. I am an entrepreneur from Minnesota. I insist you keep the current laws requiring quarterly reporting by publicly traded companies in place to protect my investments and prevent further exploitation by insider-trading billionaires.

Mickey Di — Jun 21, 2026
Subject: S7-2026-15 Comments From: Mickey Di Affiliation: Jun. 21, 2026 Michael D. Retired. Why this matters to me: Investors have the right to information as soon as possible. Companies have been reporting quarterly for roughly 50 years, why the change? "If it ain't broken, why fix it?" This change must be initiated by the White House. Just another tool to further erode government oversight to make it easier for corrupt business practices to go unseen. I thought the SEC's role was to protect investors, not take marching orders from the White House. Coming from the most corrupt President in U.S. history I'm not surprised.

Middy Veal — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Middy Veal Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
You rproposal to limit vital information that the public needs to know: That step is one step closer to fraud. Fraud is rampant in our country now as it is. Be up front with the public, try being an example of integrity!
Middy Veal

Mimi — Jun 21, 2026
Subject: S7-2026-15 From: Mimi Affiliation: Jun. 21, 2026 Mimi Tang, a law student entering my final year of law school. I intend to sit for the July 2027 bar examination. My Law Review Note, which will be published in December 2026, reflects extensive research and incorporates feedback from Harvard Law alumni, University of Chicago Law alumni, and other legal scholars and practitioners.

Quarterly reporting requirements should be preserved because they promote transparency for investors—particularly retail investors and other non-insiders who purchase securities on public exchanges such as the NYSE. Reducing disclosure obligations would disproportionately benefit corporate insiders while increasing information asymmetries that disadvantage ordinary market participants.
This broader pattern of deregulation risks harming both the U.S. economy and the workers who drive it. As Katharina Pistor argues in The Code of Capital and William Lazonick explains in Profits Without Prosperity, modern corporate governance has increasingly prioritized shareholder payouts and executive compensation over long-term productive investment. These trends have contributed to rising income inequality and weakened incentives for sustained corporate growth.
Weakening reporting requirements would further reduce transparency, discourage long-term investment, and make it easier for executives to extract short-term gains while leaving companies, employees, and public investors to bear the consequences. Corporate scandals such as Enron and WorldCom illustrate the importance of robust disclosure and accountability in maintaining investor confidence and market integrity.

MJ Carley — Jun 21, 2026
Subject: Comment on S7-2026-15 From: MJ Carley Affiliation: Jun. 21, 2026 Hello,

My name is Meleasa, and I am a front desk patient service representative for a large health care organization in Oklahoma. I'm soon to turn 65 years old, and I plan to retire in two years. The investments that I have are vital to my long-term financial support in retirement. Switching from quarterly reporting to semi-annual reporting could have a large detrimental effect on my finances. Those of us in the latter years of our lives don't have the luxury of time on our side to adjust to any downturns if we don't even know it's happening during the six months between semi-annual reports.

I don't believe it is too much to ask for the companies who hold our invested money in their hands to give us a quarterly report on how that money is faring in their hands. It is my request that you kick the proposal for semi-annual reporting off the table and continue to provide investors like me with transparency via quarterly reporting.

Many thanks for your consideration in this matter.

Meleasa Carley
Oklahoma City

Subject: Re: S7-2026-15 From: Mo F Affiliation: Jun. 21, 2026 Morgan Fleishman
Senior researcher
Attleboro, MA

Why are we giving more chance for fraud? These people can not be trusted, they show us over and over . Their greed only grows. If anything quarterly is too lenient. Semi annual reporting is going to open the doors for more fraud.

Why are we moving away from accountability and honesty? Sad. Pathetic.

Mohinder Sikka — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Mohinder Sikka Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
US companies are innovative and globally competative due to an open market. Open market depends on prompt and timely information. Delaying quarterly reporting will make american companies sluggish and slower in the decision making. It will also protect bad actors and prolong illicit activities.
I originally came to US from India where a few corporate houses control the markets and economy. Trust me, that is not a way to build globally competitive companies. The right way is to make financial information credible, open and prompt.
Mohinder Sikka

Mollie Whalen — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Mollie Whalen Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Please do not get rid of quarterly reporting. This puts the entire stock market as risk and will lead to poor investing decisions.

Molly R — Jun 21, 2026
Subject: S7-2026-15 From: Molly R Affiliation: Jun. 21, 2026 Transparency matters right now more than ever. I am an Administrative Assistant at a major university in North Carolina. The young people I see daily are impressionable and need to know that the established laws and rules in this country are being followed for the sake of continuity and security if nothing else.
Save Quartely Reporting. Thank you.
Sincerely,

Nancy EBERLE — Jun 21, 2026

Subject: S7-2026-15 Comment From: Nancy EBERLE Affiliation: Jun. 21, 2026 . We need to know what is happening with companies (like lawsuits, dwindling sales, corporate takeovers, etc) that impact earnings. We need corporate transparency to prevent fraud. The longer the time between reporting the more ability to hide issues that impact my ability to make informed decisions impacting my financial security. I worked hard for many years to be able to enjoy my retirement. I want to hold companies accountable for their actions.

Nancy Eberle, retired accounting professional

Nancy Elsamanoudi — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Nancy Elsamanoudi Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
This proposal in no way benefits investors. It only benefits corporations and those who are insiders. I think it's aimed at punishing ordinary retail investors by gatekeeping necessary information they need to effectively trade. It's extremely disappointing that this is even being considered. It only benefits corporations, insiders, and the very wealthy. It's anti-American dream, anti-social mobility, anti-corporate accountability. Shareholders should have access to timely information needed to make informed trading decisions. This proposal seems to have been hatched up by folks who want to return to a time when only certain had access to the means and information needed to trade. It's trying to go back to a bygone era. Access to information about how companies are doing on a quarterly basis should be public knowledge so the average American citizen can participate in the stock market if they choose to and not just insiders, gatekeepers and the very wealthy.

Nancy Evans — Jun 21, 2026
Subject: S7-2026-15 Comment From: Nancy Evans Affiliation: Jun. 21, 2026 Why would you consider a proposal like this? Under the table sort of rule. Hidden figures¿???????

Nancy Fry — Jun 21, 2026
Subject: S7-2026-15 Comments From: Nancy Fry Affiliation: Jun. 21, 2026 Quarterly reporting has been one of the most important protections for everyday investors for decades. Those regular updates are what allow people to see how a company is performing in something close to real time, instead of relying on rumors or delayed information.
If companies only report every six months, it creates a much bigger information gap. Executives, lawyers, and large institutional investors will still have access to detailed internal data, but the public won't. That means regular investors would be reacting months later than the people with the most influence and resources.
Less frequent reporting doesn't level the playing field — it widens the gap. It makes it harder to spot problems early, harder to compare companies fairly, and easier for bad news to be delayed or hidden.
Transparency is one of the few tools that keeps markets fair. Reducing it puts everyday investors at a disadvantage.

Nancy Harsh — Jun 21, 2026
Subject: S7-2026-15 Comments From: Nancy Harsh Affiliation: Jun. 21, 2026 More time for fraud to grow.
Enron. WorldCom. Madoff. The run-up to 2008. Every major modern accounting scandal was enabled by gaps and opacity in financial disclosure, just ask Arthur Andersen. But you can’t because they shut down due to fraud.

Quarterly filings don't prevent fraud, but they dramatically shorten the window in which it can fester before someone outside the company can see it. What if Enron only had to cook their books twice a year?

Any company that wants this is suspect. None even asked for this.

Nancy Idiart — Jun 21, 2026

This keeps investors in the dark. I already lost $600,000 to a financial advisor who used my money to further his own interests. He sold investments which I specifically told him not to do. He groomed me so I didn't pay close enough attention.

Nancy Unbehaun — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Nancy Unbehaun Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
The SEC proposal is a bad idea for everyday investors. The quarterly disclosures keep us informed to make decisions and I believe is much more fair and limits insider trading. Please don't go back to pre 1955.

Nancy Verber — Jun 21, 2026
Subject: S7-2026-15 From: Nancy Verber Affiliation: Jun. 21, 2026 Accountability from CEOs is important to the economy of our country. Please retain the quarterly reporting requirement.

Nancy Verber, Taxpayer

Nancy West — Jun 21, 2026
Subject: S7-2026-15 Comments From: Nancy West Affiliation: Jun. 21, 2026 Transparency should be continuous to avoid theft, fraud, embezzlement or anything illegal.
This should not be an option but a continuous law.

Nancy West — Jun 21, 2026
Subject: S7-2026-15 Comments From: Nancy West Affiliation: Jun. 21, 2026 Transparency should be continuous to avoid theft, fraud, embezzlement or anything illegal.
This should not be an option but a continuous law

Nancy Wilso — Jun 21, 2026
Subject: S7-2026-15 Comments From: Nancy Wilso Affiliation: Jun. 21, 2026 This is one of the worst ideas I have seen coming out of this industry in a long time. The problems are obvious, aren't they? Clients would do as well going to Vegas and placing bets.
Nancy Wilson, Former Investment Executive with U.S. Bancorp

Nanette Dupre — Jun 21, 2026

Natalie Bell — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Natalie Bell Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission: Since most Americans are not trained as a stock investor and most have to rely on investments in the markets for retirement, the markets cannot go unchecked for six months. People need to trust the market and markets must adhere to laws that protect people. The risks of lesson they're accountability is too great. People will need to pull their funds out to have any degree of control over their money. You cannot allow the market to go unchecked as it is an obvious risk to the retirements of so many. You'll potentially bankrupt the country. Baby boomers will not have time to recoup tragic losses. You have to stand up to potential abuse and vote for the people. Put greed aside and do the morally correct thing.

Natalie Lingo — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Natalie Lingo Affiliation: Jun. 21, 2026 Absolutely not! I managed finance comms for Apple from 2001 to 2015

Nate Singleton — Jun 21, 2026
Subject: S7-2026-15 Comments From: Nate Singleton Affiliation: Jun. 21, 2026 This is unacceptable! Keep the quarterly reporting! This seems like just another way to scam the American people by changing it! Absolutely NO REASON to change it, keep people accountable with the system in place that is working! If we can spend ridiculous amounts of money on an unnecessary paint job on the reflecting pond, and on a gaudy, unnecessary and RIDICULOUS ball room, or having idiots names added and then removed from buildings, then there is NO GOOD REASON to “save money” on something that IS NECESSARY, like the SEC quarterly reporting!

Sincerely,
Nate Singleton

Neal Cameron — Jun 21, 2026
Subject: S7-2026-15 Comment From: Neal Cameron Affiliation: Jun. 21, 2026 There is a good reason we have the reporting standards we havenow. Please do not remove quarterly reporting now or in the future. Hard working people's retirement depends on it. We can't all be crooked politicians gaining the system.

Nealla StClair — Jun 21, 2026
Subject: S7-2026-15 Comment From: Nealla StClair Affiliation: Jun. 21, 2026 My husband and I are retired and depend on dividend investments for our income. Taking away quarterly reports would make it difficult to plan our budget as well as judge whether we should move our investments or not. It's bad enough waiting for them to declare a dividend quarterly. Also, many people who live on dividend income cannot wait six months to know whether their investment is going to pay a dividend or not. Let's not put our investments in another Enron situation.
John and Nealla StClair

I can't see ,if u r struggling to makes in endset each and every months but; unfortunately just can't makes things comes tgethers , so if u can help me out with thisby improvements in the areas of placing funds into my accounts ????

Nicholas Penkovsky — Jun 21, 2026
Subject: S7-2026-15 Comment From: Nicholas Penkovsky Affiliation: Jun. 21, 2026 Public companies need to file quarterly reports to protect the public who is directly investing and investing through funds. Six months is far too long of a time to keep financial information whether beneficial or damaging within the walls of a publicly traded corporation. Quarterly is necessary.

Nick Azzaretti — Jun 21, 2026
Subject: S7-2026-15 Comment From: Nick Azzaretti Affiliation: Jun. 21, 2026 I am vehemently opposed to this proposed SEC action. It's an obvious attempt to withhold the information that allows small investors to make the wiser choices that give them the capital to retire comfortably, contribute to the consumer economy, and possibly leave modest seed money to their survivors. Why would those in whose favor the cards are already stacked wish to hold them all? That is, unless they seek to establish themselves as oligarchic masters of disposable, subserviant serfs they work into the ground, literally. Such meanness of spirit is appalling but more than expected from the current, corrupt administration. I am tired of being told, "This can of dog **** is delicious and nutritious. It's fun to eat! It's got electrolytes!" I prefer Idiocracy in fictional form, not actually ruining and running our lives and our country into the ground for their aggrandizement and sad, sadistic pleasure in crude, garish, virtually inescapable reality TV beats. I am Nick Azzaretti: Retired Educator, Philosopher, Tragicomedian, Poet, Father who doesn't want to see my children languish in a world that has no place for them in it–for empathy, kindness, generosity, hospitality, and love that transcends self and restores the "humane" to "humanity."

Nick Brown — Jun 21, 2026

Page Ritchie — Jun 21, 2026
Subject: S7-2026-15 Comment From: Page Ritchie Affiliation: Jun. 21, 2026 My name is Page Ritchie. I graduated with honors and BS degrees in Accounting and Finance. I have been disabled by chronic illness, so, no job title. Regardless, I understand the importance of quarterly reporting, as much transparency as we can hope for, and that companies asking for citizens to invest in their business requires a commitment by said companies to inform their investors of the companie's financial condition in order to make informed decisions. Individual contractors and small businesses are required to do the same. They're not even publicly traded! Those looking for capitol from the public should be held to at least that same standard. Thank you for the opportunity to comment. Good Bless America!

Paisley Rowe — Jun 21, 2026
Subject: S7-2026-15 Comment From: Paisley Rowe Affiliation: Jun. 21, 2026 Quit giving corporations corporations cessions they are NOT AMERICANS NOR ARE THEY PEOPLE!!! They

need to report what their earnings/losses every quarter or preferably MONTHLY! FYI IT IS WE THE PEOPLE NOT CORPORATIONS DO THE RIGHT THING FOR AMERICANS

Paisley Rowe

Pam — Jun 21, 2026
Subject: S7-2026-15 Comments From: Pam Affiliation: Jun. 21, 2026 quarterly reporting is helpful and needed to and by stockholders and potential stock buyers. I personally hold stock in many publically traded companies.

Subject: S7-2026-15 Comment From: pam carroll Affiliation: Jun. 21, 2026 Pamela Carroll
Shawnee,Ks. 66203
To keep from having a big financial mistake, I balance my check book every month. I don't wait even quarterly to do this.
To allow companies that are "responsible for" millions of investments into the company and them not being REQUIRED to show their "balances" is unacceptable.
KEEP IT QUARTERLY!! Protect the vulnerable.

Pam Chandler — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Pam Chandler Affiliation: Jun. 21, 2026 Totally against this change.

Pam Spevak — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Pam Spevak Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
The proposed change in public company reporting requirements would be disastrous for retail investors. Corporate America already exerts so much negative control over our lives through monopoly concentration and its impacts on pricing, hiring and wages. Moreover, the stock market is a critical component of our collective ability to maintain financial independence through retirement, and this will severely compromise it. I urge you to vote no on this proposal.

Pam Yates — Jun 21, 2026
Subject: S7-2026-15 Comments From: Pam Yates Affiliation: Jun. 21, 2026 Keep the quarterly report coming!

Parminder Randhawa — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Parminder Randhawa Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
The quarterly reporting is very valuable and should be retained at all costs. There are other areas companies can economize. Keeping the data and information under wraps for any extra period than a quarter will be detrimental to individual investors interests. It could be a favor to the bigger investors at the cost of individual investors. The latter need regulatory protection by way of quarterly reports.
Please protect individual and smaller investors interests by retaining the quarterly reporting. Thankyou.

Parnell Damone Marcano — Jun 21, 2026
Subject: S7-2026-15 Comments From: Parnell Damone Marcano Affiliation: Jun. 21, 2026 Good morning. My name is Parnell Marcano. I'm an independent entertainment professional with a few thousand dollars in investments. I may not have hundreds of thousands of dollars invested, but as an investor, I need to know how my money is performing more than just twice a year! I read comments from the SEC about "the global standard". But within minutes, I learned that other countries that have tried this proposed change, have had problems, and are reconsidering that decision. If I found this information so quickly, SURELY the SEC knows it! So why would this even be considered? The ONLY one benefiting from this would be company executives. Not those of us smaller investors who could lose so much more than whatever savings they might keep.

Thank you,

Parnell D. Marcano

Patricia Colby.

Pat Dalton — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Pat Dalton Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Quarterly disclosures are essential for investors as they provide timely and relevant insights into a company's financial performance, operations, and market position. These disclosures help investors make informed decisions by offering transparency into key metrics such as revenue, profit margins, and cash flow, as well as insights into management's strategies and future outlook.

Removing or reducing the frequency of these disclosures could hinder investors' ability to assess a company's ongoing performance and risks, potentially leading to uninformed decision-making. Reliable and regular information is vital for maintaining trust in the financial markets and ensuring that investors can make sound investment choices based on the most current data available. Therefore, it is crucial for the SEC to uphold these disclosure requirements to foster transparency and protect investors' interests.

Pat Deliz — Jun 21, 2026
Subject: S7-2026-15 Comment From: Pat Deliz Affiliation: Jun. 21, 2026 Quarterly reporting is a must! Six months is way too long to see what and where your investments are, how they are doing and what your employer is doing with them. Twice a year reporting is NOT sufficient for peace of mind and trust.

~Patricia Deliz~

Pat Eagles — Jun 21, 2026
Subject: S7-2026-15 Comment From: Pat Eagles Affiliation: Jun. 21, 2026 It makes me distrust what they're doing with my money, and wonder what it will be when I see it again. Companies don't need "relief", but the people who have no pensions (most of us) do.

Pat Theobald — Jun 21, 2026
Subject: S7-2026-15 From: Pat Theobald Affiliation: Jun. 21, 2026 My name is Patrick Theobald. I live in Lakewood Ohio. I rely on my investments for 2/3 of my retirement income. I worked to age 70 before retirement to maximize my social security. I have to have faith in the companies that my money is invested in. Have CEO's and CFO's of a company personally attest to their financial statement under penalty of law, with fines and imprisonment, will help keep companies honest. Companies are able to know what is going on day to day with their businesses. They should be able to continue doing this quarterly with little inconvenience. Quarterly gives less time for mischief. Please continue the quarterly requirement in place. Investing in companies that only publicly report under penalty of law twice a year, will make my investments less safe and give my financial advisors less verifiable current information to go on. Thanks for your time.

Patricia Seaman — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Patricia Seaman Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission: Do not change the current rules. Less reporting means investors will not have current information on which to base decisions. Negative and positive change in a company financial situation can happen quickly. Frequent and full business disclosure is a necessity for investors.

Patricia Setari None — Jun 21, 2026
Subject: File No. S7-2026-15 From: Patricia Setari I oppose this proposal. Quarterly reporting gives investors timely, consistent insight into company performance. Moving to a semi-annual option doubles the gap where problems can hide. The personal certification requirement is the real deterrent here, not the report itself. Four times a year, the CEO and CFO each certify under Sarbanes-Oxley that the filing contains no untrue statement of material fact. False certification carries criminal penalties, up to $5 million and 20 years for willful violations. Cutting certified filings from four to two cuts in half the moments executives must personally stake their freedom on the truth of the books. This isn't theoretical. Sarbanes-Oxley closed the "I didn't know" defense Enron's executives relied on, by forcing CEOs and CFOs to personally certify they designed and evaluated the internal controls meant to surface bad news. Six days after that law took effect in 2002, HealthSouth's CFO tried to resign rather than sign a certification he knew was false. He couldn't do it, and became the first of fifteen executives to plead guilty in a $2.7 billion fraud. The certification didn't catch the fraud after the fact. It made the fraud too costly to keep hiding. The SEC says current reports and earnings releases will fill the reporting gap. They won't carry the same weight. Earnings releases filed on Form 8-K are "furnished," not "filed," which exempts them from the liability that filed reports carry. No outside auditor reviews them. No certification is required, even when they contain financial statements. Less frequent reporting also gives companies more room to delay disclosure of real problems. A longer gap between certified filings means more time to paper over bad numbers before investors or regulators catch on. This proposal did not emerge from investor demand. It traces to a presidential recommendation to scale back reporting requirements. Regulatory changes that weaken accountability deserve more scrutiny when their origin is political convenience rather than investor protection. A certification costs an honest executive nothing to sign. It only exposes the dishonest ones. I urge the Commission to withdraw this proposal and keep quarterly certified reporting mandatory.

Patricia Smolsky — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Patricia Smolsky Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Please don't change the rules at this time. This country is suffering so much bc of Trump's questionable changes. He wants everybody else's money too. I've saved for 50 years to be able to have a decent retirement without looking to the govt for handouts. Why ruin all of our retirements by doing this? Especially after this bismally access already tried and ruined so many lives.

Patrick Bonar — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Patrick Bonar Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
This is such an obvious handout to the powerful- billionaires, companies, and GOVERNMENT insiders. Do you people even realize that if this goes through, it will WEAKEN the market because once it is blatantly obvious to everyone that only the insider traders have the information to successfully invest, and millions of people start LOSING money on their investments, they will stop investing, they will find other markets, they will find alternative places to try to grow their money. The level of short term profit mongering that is going on across the board in our country is staggering, and to think you want to accelerate that and add ANOTHER nail to the coffin that is our current economy is scary. If this goes through, everyone who supports this should be ashamed of themselves. They should also have their names tied to this decision and remembered when the repercussions are felt.

Patrick Bowens — Jun 21, 2026

Patty Rose — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Patty Rose Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
The SEC's mission depends on ensuring that all investors have timely access to reliable information. Quarterly reporting has been a cornerstone of market transparency for decades because it provides regular, standardized disclosures that allow investors to evaluate company performance, risks, and changes in business conditions.
Reducing these disclosures would weaken transparency and make it more difficult for investors to make informed decisions. It could also increase information asymmetries between company insiders, large institutional investors, and the broader investing public.
Markets function best when information is widely available, consistent, and timely. The SEC should preserve strong quarterly disclosure requirements and avoid changes that reduce the flow of material information to investors.

Patty Sears — Jun 21, 2026
Subject: S7-2026-15 Comment From: Patty Sears Affiliation: Jun. 21, 2026 Building lasting trust and strong community ties hinges on unwavering transparency. Ethical leadership demands open communication regarding operations, performance, and strategic decisions. We urge regular, ideally quarterly, reporting to keep the public informed and engaged. This commitment to disclosure

showcases accountability, builds stakeholder confidence, and affirms integrity. Ultimately, such openness strengthens an organization's standing and secures its long-term viability.

Patty Sears

Paul Aloe — Jun 21, 2026

Paul Aloe

---

paul campbell — Jun 21, 2026
Subject: S7-2026-15 Comments From: paul campbell Affiliation: Jun. 21, 2026 I strongly oppose any proposal that would reduce the frequency of public company financial reporting from quarterly to semiannual reporting.
Quarterly reporting is one of the most important tools that ensures transparency, accountability, and fairness in U.S. financial markets. Individual investors, retirees, and small shareholders rely on timely financial information to make informed investment decisions. Reducing reporting requirements to every six months would create a significant information gap, leaving ordinary investors at a disadvantage while corporate executives, insiders, analysts, and large institutional investors continue to have access to more current information about company performance.
Less frequent reporting would reduce market transparency, increase uncertainty, and make it more difficult to identify emerging financial problems, operational weaknesses, or changes in business conditions. Timely disclosure helps maintain investor confidence and promotes efficient market pricing. Delaying that information for six months could increase volatility, encourage speculation, and weaken trust in the fairness of our capital markets.
The SEC's mission includes protecting investors and maintaining fair, orderly, and efficient markets. Reducing reporting frequency would move in the opposite direction by limiting the flow of information available to the investing public.
For these reasons, I urge the SEC to maintain the current quarterly reporting requirements for public companies.

Paulette Wright Wright — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Paulette Wright Wright Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
We need to keep the reports quarterly. Six months is too long for fraud and other things to go wrong. Your job is to protect the shareholders.

Pauline Michael — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Pauline Michael Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
As an investor please continue quarterly reports.

Pavitra Amin — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Pavitra Amin Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Please ensure all public companies and their CEOs keep individual investors informed of any

information that is shared privately. I know of situations that that isn't being done and it clearly isn't a fair level playing field for retail investors.
Changing the frequency from quarterly to semi-annually may be good for businesses but there is already a lot of volatility 4 times a year based on earnings. What would that be if earnings were only 2 times. There would likely be more surprises leading to more volatility and I don't think that would be good for any party.
More transparency and communication is likely better than less. Please reconsider this rule.
Regards,
Pavitra

Peggy Baxter — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Peggy Baxter Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:

Investors need quarterly reporting so we know how the companies we invest in are doing, and what they are involved in. A lot can happen within a company that can change their profitability. Investors need to keep on top of what is going on in the companies that we invest in. Waiting six months for information is too long. Changing from quarterly to semi annual will be a disaster for investors. Many of those who invest will pull their money out. We will no longer trust leaving our funds invested because of a lack of transparency, and knowledge. I believe that making this change will be dangerous for investors.

Sincerly, Peggy Baxter

Retired Stage Designer
USA
This is really important to track because we must know what they are doing at all times. Corporations greed has made business into a most unethical deadly enemy of human safety, health, and general welfare. Businesses should provide Monthly Reporting as a matter of course, to insure they are actually solvent and not selling off their assets, unbeknownst to the investors, or any other interested other party like the local environment and the people who live there. Leaving deadly toxic waste, and/ or declaring bankruptcy after pocketing all the assets, is a profitable business practice; it can be tracked and prevented more easily if it were monthly, quarterly is a bare minimum.
If Corporations are let loose any further, it will be encouraging their wild west, unethical behaviors, where profit is pushed above ethics, and above people's lives. The criminal Oligarchy currently holding ownership of our Federal Government would welcome any further disregulation for their organized crime schemes they are doing to profit off of every bit of former public trust their position can be abused for.

Phyllis Tan Investor and Pensioner — Jun 21, 2026
Subject: File No. S7-2026-15 From: Phyllis Tan As an investor and pensioner based in Pasadena,

CA, I firmly believe that quarterly reports are crucial for keeping shareholders informed about a company's performance. These reports should remain mandatory for all companies listed on the stock market. Quarterly reports provide me with valuable insights into a company's financial health, including details such as profits and losses, margin compression, and debt levels. They also promote transparency from company executives, enabling investors to make informed decisions about buying or selling stocks. The reports serve to protect both individual and institutional investors and should not be altered. I urge the SEC to require quarterly reporting, as it is essential for maintaining transparency, oversight, and accountability in the financial markets.

Phyllis Wilkes — Jun 21, 2026
Subject: S7-2026-15 Comments From: Phyllis Wilkes Affiliation: Jun. 21, 2026 Dear [Recipient Name/Team],

I am writing to articulate significant concerns regarding the ongoing discussions and potential implications of changes to our financial and operational reporting mechanisms. Specifically, I am referring to any proposed adjustments to the frequency or depth of disclosures currently provided, particularly within the framework of quarterly reporting.

There is a growing apprehension that the existing quarterly reporting cadence may not consistently facilitate the level of transparency and comprehensive oversight that is essential for robust corporate governance and stakeholder confidence. Without regular, detailed insights, there is a risk that critical operational details or financial discrepancies could be obscured or addressed with insufficient urgency, potentially allowing for practices that fall short of full accountability. This situation naturally raises questions about the ability to maintain the highest standards of integrity.

Furthermore, I find myself particularly perplexed by any initiatives that might suggest a modification or reversion of established reporting practices if the stated goal is to enhance corporate responsibility. If the foundational purpose of our reporting standards is to cultivate an environment of integrity, clarity, and unwavering oversight, then any proposed alterations must unequivocally strengthen these principles, not diminish them. It is challenging to reconcile a strategic shift that could potentially reduce accountability, especially if previous or alternative reporting protocols were demonstrably more effective in ensuring complete and timely disclosure.

Therefore, I strongly urge a thorough re-evaluation of any proposed changes that could lead to a reduction in reporting frequency or the detail provided. It is paramount that we not only maintain but actively enhance mechanisms that guarantee honesty, full accountability, and the protection of stakeholder interests across all operational facets. I would greatly appreciate a clear and detailed articulation of the strategic rationale underpinning these considerations, along with explicit assurances that transparency and ethical conduct will remain at the forefront of all policy decisions.

R E LANGFORD JR — Jun 21, 2026
Subject: S7-2026-15 Comment From: R E LANGFORD JR Affiliation: Jun. 21, 2026 Not only do I prefer quarterly reports, I prefer them written on paper in English and delivered via the U.S.P.S. If you cannot guarantee the delivery service to be as absolutely free & safe & protected by law as what comes into my postal mail box, I certainly have no reason to believe you care about what's reported to me. No! to twice a year; that's nonsense designed to favor insiders & will promote people who enjoy sly & crafty double tongued, false faced workings in business.

R F — Jun 21, 2026
Subject: S7-2026-15 Comment From: R F Affiliation: Jun. 21, 2026 Please do NOT end quarterly reporting.

Rachael Faulkner — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Rachael Faulkner Affiliation: Jun. 21, 2026 I support

quarterly reporting as an investor. If the SEC moves to twice yearly reporting, I will consider redistributing my portfolio to different assets classes.

Rachel Economou — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Rachel Economou Affiliation: Jun. 21, 2026 Rachel Euchner, Director, Wheeling IL

Quarterly reports allow for the consumer to invest wisely, the capital to flow freely for companies, and for the US to be in a better financial situation.

Returning to semi-annual reporting is bad for business, bad for America. It would create significant insecurity in the market and people would choose not to invest devaluing our overall positions.

Please keep the market quarterly reporting in place.

Thank you.

Rachel Foran — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Rachel Foran Affiliation: Jun. 21, 2026 Since when did insider trading become ok? Why are we turning back in history!
From the disregard of Sherman Anti Trust Laws where monopolies are becoming the new norm (Patamount's acquiring of Warner brothers). Now this?
It needs to stop before....What's next!

Ralph Shay Retired — Jun 21, 2026
Subject: File No. S7-2026-15 From: Ralph Shay DO NOT CHANGE THE QUARTERLY REPORTING REQUIREMENTS…

Ramon Garcia — Jun 21, 2026
Subject: S7-2026-15 From: Ramon Garcia Affiliation: Jun. 21, 2026 I request this Manifesto after the brainchild for doing something about the systemic parasites living within our community advising themselves as corporate leaders of business and community this:

MANIFESTO OF PUBLIC ACCOUNTABILITY
A Framework for Joint Tri-Sector Liability and Public Trust
PREAMBLE
Public trust is indivisible. The systemic separation of authority from consequence has allowed corporate executives, senators, and governors to make decisions that devastate communities, ecosystems, and economies with total personal impunity. When leaders in the private and public sectors knowingly execute actions, pass legislation, or exploit systemic failures for insular gain, they must face criminal prosecution and personal financial forfeiture.
This manifesto establishes a standard of absolute accountability. Honest errors in judgment made in good faith are protected; however, intentional negligence, corrupt collusion, and willful blindness are classified as high criminal offenses against the public.
PILLAR 1: FINANCIAL TRANSPARENCY, ECONOMIC HARM, & WILLFUL BLINDNESS
This pillar prevents the privatization of profits, socialization of systemic losses, and the exploitation of imminent market crashes.
Active Market Destabilization: The intentional manipulation of financial data, predatory consumer fraud, or deliberate market manipulation carries mandatory minimum prison sentences for directing executives and board members, completely bypassing standard corporate-shield fines.
The "Hedge & Hoard" Clause: It is a criminal offense for mega-corporations to utilize non-public, structural awareness of an impending market collapse to aggressively hoard liquid cash, liquidate retirement-linked public assets, or stockpile hard resources for the explicit purpose of exploiting the fallout, without public disclosure.
The Duty to Disclose: Criminal liability applies not only to those who actively engineer economic harm, but to any executive or board member with documented awareness of intentional market destabilization who fails to immediately report it to public authorities. Silently protecting corporate capital while letting the public bear the crash is treated as active complicity.
Legislative Insider Trading & Collusion: Senators, governors, or regulatory heads who receive internal briefings regarding systemic economic vulnerabilities or corporate manipulation, and choose to suppress that data—or use it to execute personal financial trades—face immediate removal from office, total asset seizure, and co-conspirator criminal charges.
PILLAR 2: ENVIRONMENTAL STEWARDSHIP & ECOCIDE
This pillar treats massive ecosystem destruction not as a transactional cost of doing business, but as a direct crime against the population.
Corporate Negligence: Knowingly dumping toxins, suppressing environmental impact data, or bypassing safety regulations to maximize profit margins results in the immediate seizure of corporate assets to fund complete public remediation, alongside criminal charges for decision-makers.

Regulatory Capture: Public officials, governors, or lawmakers who intentionally hide environmental risks from their constituents, alter public safety data, or block regulatory enforcement in exchange for political capital or campaign contributions share equal criminal liability as co-conspirators.
PILLAR 3: COMMUNITY SAFETY & PUBLIC HEALTH
This pillar governs systemic actions that directly erode the physical safety, healthcare stability, or basic infrastructure of a population.
Corporate Public Harm: Manufacturing or marketing products known to be lethal, toxic, or highly addictive without explicit public disclosure, or cutting critical infrastructure corners (e.g., faulty building materials, compromised utility grids) to inflate margins, carries direct criminal charges for the executives who signed off on the distribution.
Legislative Abandonment: Governors, senators, or local officials who knowingly divert public health funds, ignore verified structural emergencies for political leverage, or sign off on public infrastructure projects they know to be hazardous face immediate prosecution for reckless endangerment of the public trust.
THE ENFORCEMENT AND LIABILITY STANDARDS
To ensure this framework cannot be weaponized for honest policy disagreements or standard market fluctuations, prosecution requires an ironclad evidentiary bar based on three core standards:
1. The "Knowing Intent" and Awareness Test
Prosecution requires clear, forensic proof of a high threshold of awareness:
Documented Foreknowledge: Clear evidence (internal memos, risk matrices, algorithmic forecasting, briefings, or expert whistleblower reports) proving the individual or board knew the negative impact or destabilization was occurring or imminent.
Deliberate Execution or Silence: Proceeding with the action, vote, executive order, or choosing to remain silent to insulate personal/corporate assets despite that documented knowledge.
2. The 48-Hour Disclosure Window
If an organization’s internal metrics or communications explicitly flag an artificial, systemic market destabilization or public health hazard, the organization has a mandatory 48-hour window to report the anomaly to a multi-agency public trust board. Failure to do so triggers the Asymmetric Penalty for Silence, aligning their criminal liability with the active saboteurs.
3. Proportional Restitution and Sentencing
Net-Worth Scaling Fines: Financial penalties are never flat rates, which wealthy entities simply absorb as expenses. Fines are calculated as a strict percentage of total corporate valuation or personal net worth, ensuring the penalty has equal structural impact regardless of the offender's size.
Non-Commutable Sentencing: Criminal charges involving bodily harm, loss of life, or the destruction of community stability carry mandatory minimum prison sentences that cannot be commuted, reduced, or settled through corporate restructuring.

Ramona Thompson — Jun 21, 2026

Subject: S7-2026-15 Comments From: Rebecca Moseley Affiliation: Jun. 21, 2026 My ability to save and invest what I’ve earned and worked hard for over my lifetime is the key to being able to live after retirement. All my hard work needs to be rewarded. I need to be able to see how my money is working for me, and folks cannot do that unless we can review our moneys progress quarterly.

Sent from my iPhone

Rebecca OBrien — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Rebecca OBrien Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission: This rule would blind me to the financial standings and health of companies I have in my portfolio. How can I possibly make an informed decision with no data?! What are you thinking? Who's idea is this? Aren't YOU supposed to be governing big corporations and protecting ME? Seems like you're doing the opposite.

Rebecca Parks — Jun 21, 2026
Subject: S7-2026-15 Comments From: Rebecca Parks Affiliation: Jun. 21, 2026 I believe that all companies should be required to report their financial performance every quarter. Allowing companies to delay public reporting for extended periods can lead to the concealment of wrongdoing and insider trading. This practice creates distrust between companies and the public. Longer durations allow dishonest individuals more time to conceal their wrongdoings. I suggest that individuals or committees be thoroughly examined for any personal gains from allowing companies to report only every six months.

Rebecca Remley — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Rebecca Remley Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission: please do not eliminate quarterly reporting requirements for publicly traded companies. Retail investors need clear, accurate and timely information to make informed investment decisions. Insiders and institutional investors will always have the resources and relationships to get the information they need. Without quarterly reporting, retail investors are on an unlevel playing field, with no way to get timely information about public companies.

Rebecca Seaton — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Rebecca Seaton Affiliation: Jun. 21, 2026 To the

Securities and Exchange Commission: Please Don't change to Quarterly reporting. We need more information not less. Thank you.

Rebecca Stanley — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Rebecca Stanley Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
I am strongly opposed to potential reporting changes under proposed rule Rule S7-2026-15 which would end quarterly reporting for publicly traded companies I'm a relatively recent retiree and my finances need to be stable for my final years! This change will make it harder to track companies and review their true financial status, and it will lower worldwide trust in American corporations at a time when our image is facing headwinds from rising economic powers overseas
This proposed regulatory change will be a nail in the coffin of any remaining trust in our financial environment. Stop the steal!

Rebecca Tungseth — Jun 21, 2026
Subject: S7-2026-15 From: Rebecca Tungseth Affiliation: Jun. 21, 2026 Rebecca Tungseth, former small business owner, Minneapolis MN.
With fraud seeming to be in the forefront this year, and prioritized by the Trump administration, why would the SEC loosen this policy? It seems suspicious that large businesses are being favored in this way. Are you forgetting the history of Enron? Corporations have proven they are not trustworthy on their own; they require regulation. A small business never gets this kind of preferential treatment. If you think Enron has learned its lesson you are wrong. This regulation must remain. Executives, just as smaller businesses do, should have a handle on their company's finances and this gives the public reassurance. Do not relax this quarterly reporting requirement. Please require them to maintain accountability. As a small business owner the buck always stopped with me. Do not let corporate executives hid behind the guise of not knowing when they should always be aware of their company's business and finances.

Redsea Diver — Jun 21, 2026
Subject: S7-2026-15 Comment From: Redsea Diver Affiliation: Jun. 21, 2026 Keep the quarterlies. The benefits to customers far outweigh the cost of compliance.

Subject: S7-2026-15 Comments From: Regan Oaks Affiliation: Jun. 21, 2026 Stand up for the people even if it hurts your bottom line.

Reggie Goodwin — Jun 21, 2026
Subject: S7-2026-15 Comment From: Reggie Goodwin Affiliation: Jun. 21, 2026 Keep your reports quarterly: We either have a democratic republic, or we have a dictatorship run by tech oligarchs, maintained by violence and “jackbooted thugs.” Quarterly reporting diversifies who can and will participate in the market, and allows lower and middle classes to increase their wealth without communism or anarchy. And history repeats itself: at no time did oligarchy sustain a lasting run maintaining commerce and government. Both crumble, and suddenly everyone is equally poor, except the poor are used to it and the current rich who obviously are not.

Sent from my iPhone

Regina Bates Vocational Rehabilitation Counselor — Jun 21, 2026
Subject: File No. S7-2026-15 From: Regina Bates Quarterly reporting allows you to be more in touch with your finances. It also gives public and employees a better insight into how the business is running or not running. It also allows more chances to fix spiraling cost. Quarterly reporting does not prevent fraud from happening, but it does shorten the window for it to occur and time for someone on the outside to see it and do something/sound the alert about it. Semi annual or annual reporting only appears to be more of a cover-up of a company‘s finances, especially when there’s no transparency for the public or investors

Regina Dancy — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Regina Dancy Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Relying upon quarterly reporting is essential for those of us who are regular working people with a retirement account. This time frame allows us the opportunity to review the performance of our strategy platform, and make important adjustments, if needed. The proposal to do away with quarterly reporting will be catastrophic. This decision is not in the best interests of the people, but more so the best interests of the companies and the market in general. Do not approve this change

---

Renai Hall — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Renai Hall Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission: My view on Rule S7-2026-15
Quarterly reports are necessary to assess market trends and make decisions about when to buy, sell, or hold. Changing the reporting to semi-annual reduces the number of data points by 50%. This increases the risk for fraud and insider trading and makes the markets less transparent. This will have a profound impact on long-term savers. In fairness to the average investor, corporations need to be held accountable every quarter.

Renata Manowitz — Jun 21, 2026
Subject: S7-2026-15 Comments From: Renata Manowitz Affiliation: Jun. 21, 2026 To whom it may concern,

As someone who has worked as the head of Investor Relations for several corporations, I know how crucial the release of quarterly results is to 85% of investors. You can't keep shareholders in the dark!!!

Best regards,
Renata

Rene Barbour — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Rene Barbour Affiliation: Jun. 21, 2026 Rene Barbour, retiree, Nevada. The SEC SHOULD NOT approve semiannual reporting. NEVER. As a matter of fact, I would I like to see MONTHLY reporting. If not monthly, keep reporting quarterly to maintain visibility.

R Bryant, retiree

Renee Hursh — Jun 21, 2026
Subject: S7-2026-15 Comment From: Renee Hursh Affiliation: Jun. 21, 2026 Renee Hursh. Personal Investor. Why was the reason we started quarterly reporting mandate vs 6 months. Why the push to go to 6 months? Like a child who doesn't want to do the work and be tested.
3 months is already a long time to wait to know what is going on and to make decisions. Keep the mandate at quarterly.

Yahoo Mail: Search, Organize, Conquer

---

renee lachapelle — Jun 21, 2026
Subject: S7-2026-15 Comments From: renee lachapelle Affiliation: Jun. 21, 2026 Quarterly reporting keeps the stores open and gives them the opportunity to use quarterly reports to strengthen poor performance and keep the company in business. Giving business a dark window might allow them to shutter their doors without declaring bankruptcy. Or allow banks/lenders to pull their loan, effectively bankrupting the company without notifying stockholders who lose their investments. Let's keep the reporting at Quarterly, let everyone know who's earning their keep and who's gonna throw all off the income bus! Bankruptcy ensues. Gee, where have we seen this done before???

---

renee majeune — Jun 21, 2026
Subject: S7-2026-15 From: renee majeune Affiliation: Jun. 21, 2026 I, Ms. Renee Majeune~Riley am counting on the Sarbanes Oxley law to continue as law w/my small stature as an individual USA citizen, 70years old, a retired Art teacher who remembers the fallout downturn in economy & of trust in corporations like Enron . Later it was firms like AIG [American International Group] whose collapse could have threatened a failure of the global banking system. I'm a news junkie and listen to PBS Newshour & network news. Now these years of Prs. Trumps' ignoring of democratic norms have left me w/that same helpless feeling of nervous dread that I can't do anything about behind the scenes regulations that just might keep our economy from failing and lame excuses of investor executives pretending not to know crucial details. Please join me and my entreaty to keep the requirement of quarterly signature reporting for the S.E.C. to be the agency to keep their eyes on honest business dealings. Four times a year is not asking for too much, too often ! Desperately sincere , Renee Majeune of Colorado

Economics Major in College

Rob Leder — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Rob Leder Affiliation: Jun. 21, 2026 There is no argument whatsoever to be made for less corporate transparency, from an investor standpoint. Nearly everything in financial markets has improved dramatically since 1970. Should we also return to 5-day clearing, massive commissions, pricing in pieces of 8, open outcry, mailed annual reports and financial statements, paper stock certificates, and only being able to easily lookup a daily snapshot of a stock price with the Wall Street Journal?

Technology has placed instant information at my fingertips, democratizing market access and research that even 30 years ago I would have had to be a professional trader tied to a desk with a Bloomberg terminal, an expensive Nasdaq quote subscription, etc. to have.

Most relevantly, technology has made the process of running a corporation’s books and pulling snapshots of inventories, receivables, and any other financial metrics that go into evaluating and running a business fluid and continuous, rather than tedious manual labor. You think CFOs can’t get a transparent daily snapshot of their balance sheet, income statement, and cash flow without getting

an army of junior accountants with paper ledgers to perform some massive quarterly closing process? In the age of agentic AI, I'm supposed to believe that corporations need regulatory relief from reporting because it's just so much more burdensome and complex than it was circa 1985? Ridiculous.

Subject: S7-2026-15 Comments From: Robb Del Casale Affiliation: Jun. 21, 2026 Absolutely DO NOT reduce the quarterly reporting by Corporations and Companies to only twice a year.

Every Investor deserves to know there is quarterly TRANSPARENCY about the companies in which they have invested their hard-earned monies.

Robb Del Casale

Robbin Willis — Jun 21, 2026
Subject: S7-2026-15 Comments From: Robbin Willis Affiliation: Jun. 21, 2026 Hi, my name is Robbin Willis, and I am a chemist. I find the proposal to change the SEC requirements on reporting very disturbing. In this day and age of completely unfettered corruption at every level of society, the last thing that needs to happen is for even more corruption and unfair practice to happen under cover of reduced disclosure requirements. This will lead to even less confidence in the markets and exacerbate the destruction of American society. Keep the quarterly reporting requirements in place, unmodified.

Thank you,
RJW

Not good Stay with the quarterly reporting. Got to keep them Honest. There's too much underhanded and behind the scenes activity bringing everything down.

Robert Vossen — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Robert Vossen Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission: Allowing companies to report earnings every 6 months instead of quarterly does not help anyone. It keeps traders blind or, at best, working with very outdated data. A few months may not seem like much, but on the markets it is an eternity. Especially so for short term traders. This will cause huge fluctuations after earnings and dry up liquidity for long periods of time, as people are unsure of where companies stand. This hurts not only retail, but institutional investors.

Robert Waring — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Robert Waring Affiliation: Jun. 21, 2026 Why stop quarterly reports? The only benefit accrues to corporations-cutting their accounting and reporting costs. It also reduces the transparency necessary for a strong, growing, and open marketplace.

Subject: S7-2026-15 Comment From: Roger Nielson Affiliation: Jun. 21, 2026 To Whom It May Concern: I vote to maintain it at Quarterly reporting. Cordially, President, AELLC, Jefferdon IA 50129

Yahoo Mail: Search, Organize, Conquer

Roger Wylie — Jun 21, 2026
Subject: S7-2026-15 Comment From: Roger Wylie Affiliation: Jun. 21, 2026 Roger Wylie, sales consultant for Sysco and employed by Sysco for 34 years. I hope to retire within the next 3-5 years. My investment strategies depend on current, timely information about my investments. (1) I rely on quarterly information to make decisions, (2) longer gaps create an unfair advantage for corporate insiders, (3) "optional" doesn't fix the problem because companies that opt in are often the ones whose investors most need frequent updates. Please keep reporting at 90 day intervals.

Roger Wylie
Clarksville, TN

Rolaine Wright — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Rolaine Wright Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:

To decrease a measure of required accountability..? What reasoning is there for this change?

Rolf Rogers — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Rolf Rogers Affiliation: Jun. 21, 2026 Quarterly reporting is essential to making well informed and timely decisions in the market. I am absolutely against a change to bi-annual reporting for this reason.

Rolland Rice — Jun 21, 2026
Subject: S7-2026-15 Comments From: Rolland Rice Affiliation: Jun. 21, 2026 This rule change is ABSOLUTELY ABSURD! So business IS a crap shoot? I am a retired small business owner. I'm invest heavily a rely on it for my livelihood.

Ron And Nettie Lawson — Jun 21, 2026
Subject: S7-2026-15 Comment From: Ron And Nettie Lawson Affiliation: Jun. 21, 2026 Quarterly reporting needs to continue as is. Americans have been ripped off right and left for too long. I'm almost 80 and finally have a bit of money to invest. I've worked hard my whole life for what I have. I retired from 28 years as a cook manager in public school. Please don't steal from me and others. I am Nettie Lawson. Incidently my adult children would also be stolen from which affects my grandchildren. That would really be BAD! Protect the people who have worked hard Please and thank you.

roxann.rickey — Jun 21, 2026
Subject: S7-2026-15 Comment From: roxann.rickey Affiliation: Jun. 21, 2026 This is a blow to the average American individual investor - the millions of men and women who work and save and trust that the SEC is actually monitoring toe market and the companies in the market to keep things fair and honest. Changing from quarterly to twice a year will have a huge dampening effect on the

market. I know that I would be concerned and likely pull much of my investment to keep it safer and avoid the risk of these extended reporting periods. I absolutely would not be at all interested in any "emerging" companies without being able to keep a closer eye on their financial. This will have a terrible chilling effect on the markets.

Subject: S7-2026-15 Comments From: Roy Battles Affiliation: Jun. 21, 2026 Please don’t change the current reporting requirements. If you do, please level the playing field by disallowing large and institutional investors (governments, banks, wealthy investors, etc) from getting any information other than that which is made publicly available to all investors, regardless of how small they are.

-Roy

---

roy johnson — Jun 21, 2026
Subject: File No. S7-2026-15 From: roy johnson I am a small investor who gets to own big companies. This is because of the "free market" and publicly traded shares of my companies. While I am free to buy and sell my companies at virtually any time of the day or night, I am a long-term investor who has held specific corporations for over a decade. Some companies I no longer own, and that is because, for the most part, I received reliable information about the company that changed my mind. This ability "to know" did not come freely. It cost many hours of my time and some expense of the company in reporting. But this is the price we pay for the privilege and

responsibility of owning a company. Less information means greater liability in my pursuit of making wise decisions regarding my shares. This is why I wish to see quarterly reporting maintained.

Roy Neil — Jun 21, 2026
Subject: S7-2026-15 Comment From: Roy Neil Affiliation: Jun. 21, 2026 We own the company...we deserve regular updates. I'll turn on the GOP so fast it'll make yiyr head spin.

Roy Osborn — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Roy Osborn Affiliation: Jun. 21, 2026 We live in an age when computers have made it incredibly easy to track, store, analyze, and report stock and business market variables on a second-by-second basis if needed. The mere thought that the burden of issuing a quarterly vs semi-annual accounting is a problem that should never even be considered... My name is Roy B Osborn, I live in Cullowhee, NC, and I am retired. I survive on my IRA and earlier investments. Accounting for fiscal health of a business on a semi-annual vs a quarterly basis just gives any company with any intent to defraud their shareholders 3 more months to practice the fraud and 3 more months to destroy one or many of their shareholders. Please keep the quarterly reporting in place.

Roy Pethtel — Jun 21, 2026
Subject: S7-2026-15 Comment From: Roy Pethtel Affiliation: Jun. 21, 2026 What could go wrong with this idea. Got the smell of a feed yard. Laws being broken right and left, corruption or just more of it from whoever

Subject: S7-2026-15 Comments From: Rusty Harp Affiliation: Jun. 21, 2026 Kelly Y. - highway maintenance worker - Please keep the quarterly reporting system that is already in place. If anything we need more transparency then less.

Ruth Adams — Jun 21, 2026
Subject: S7-2026-15 Comments From: Ruth Adams Affiliation: Jun. 21, 2026 Dear SEC,
It is important to require quarterly reports to ensure more transparency in the companies we invest in. Less transparency means less trust and more chance for fraud. As a private investor, I count on those quarterly reports when making my financial decisions. Watching Europe and Singapore, we

are already seeing that semi-annual reporting isn't working, and we don't want to follow their example and make the same mistake. Quarterly Reporting is very important and needs to continue to be mandatory.

Ruth Adams
Self employed private investor

Sincerely,

Ruth Adams, Owner

Ruth Hemingson — Jun 21, 2026

Ruth Sessions — Jun 21, 2026
Subject: Quarterly Reports From: Ruth Sessions Affiliation: Jun. 21, 2026 My name is Ruth Sessions. My husband and I are retired technical writers. I manage our money and believe that quarterly reports for stocks help me manage my portfolio. Without those reports, I could only guess at what is going on. All stockholders deserve to be informed. Please keep the policy of delivering quarterly reports on all stocks.

Ruth Sessions

Ryan Avery — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Ryan Avery Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Thank you for considering some thoughts...
People who know and understand the stock market, should have an equal opportunity to invest! If you limit vital information to certain people, the playing field will no longer be equitable. No one should be entitled to more information than another investor. Despite past events and occurrences of inside trading; everyone invests with good faith, trusting the system and tradition that the stock market was built upon...
I urge you to keep in step with tradition, allowing investors equal access to information, and opportunity including gains and losses.
Best regards!

Ryan Cowell — Jun 21, 2026
Subject: S7-2026-15 Comment From: Ryan Cowell Affiliation: Jun. 21, 2026 As a Startup Investor, I would likd to poin t out that This would scare investors from investing! Leaving investors snd yhe public in gh r dark is absolutely stupid!

Ryan McNichol — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Ryan McNichol Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
I disagree with the decision to blind-fold investors, the consumers will lose with the loss of quarterly results. Please rethink this decision.

Ryan Steffer — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Ryan Steffer Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
How is this even up for debate? This is entirely ridiculous. The SEC will be locked relentlessly if this passes. This is extremely short sided and stupid. This information is absolutely vital for any investor. If you don't allow retail investors the ability to see quarterly reporting, they will stop investing. Think about that.

RyAnne Scoty — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: RyAnne Scoty Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission: Companies need the accountability of quarterly earnings reports to ensure transparency for itself and investors. This rule has been effective at ensure this for years, and loosening regulations has no benefits -- for investors, for the public or for ensuring best practices to keep businesses accountable.
This is a boondoggle giveaway to bad actors in the business community, and nothing more.

Rynn Lund — Jun 21, 2026
Subject: S7-2026-15 Comment From: Rynn Lund Affiliation: Jun. 21, 2026 I work in appliances sales. Knowing where companies are on the market is important to knowing sales are going to go on a consumer level. I want to be able to protect my customers and help them make the right choices.
-Kathryn Lund,

Please do not eliminate quarterly reporting. This is a very bad idea for small investors like me and my husband. We are both retirees and depend on our investments to see us through the rest of our lives. Please keep the quarterly reporting. Thank you! - Sallie Robinson, Tallahassee, FL

Sallie Troutman — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Sallie Troutman Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Please do not handicap investors like me, by eliminating quarterly reporting. The market moves too fast to not be able to rely on recent information to make informed decisions about current and potential investments. As a retiree, I live on a fixed income, and my investments are all I have to live on. I would be less likely to invest at my age, without timely information, which likely would negatively impact my life style.
I am totally against this new rule.

---

sally abrams — Jun 21, 2026

Subject: My view on Rule S7-2026-15 From: sally abrams Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:

Sam Carter CEO Muelworx Fabrication — Jun 21, 2026
Subject: File No. S7-2026-15 From: Sam Carter To Whom it May Concern, My name is Sam. I'm a hardworking blue collar American. I'm in my forties and have had a job since I was fifteen. I've spent the better part of my life trying to make smart financial choices, not living beyond my means, putting money away for my kids future and my wife and I to someday retire. Managing investments can be complicated enough to keep track of without giving mega corporations yet another tool to cheat. Publicly traded companies do not need the option to hide their books from the vast majority of their stock holders and the idea that they do reeks of corruption. Do you want another Enron, another Lehman Brothers, yet another opportunity for insiders to fleece hardworking Americans out of their investment savings and retirement accounts. Please do not allow this change to go through!

Samantha Conroy — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Samantha Conroy Affiliation: Jun. 21, 2026 As an attorney, I strongly prefer to receive quarterly disclosures; it is not an onerous ask of public companies we have an interest in, and the additional transparency offers substantial benefit and security to investors. Please retain the quarterly reporting system.

Sent from my iPhone

Samuel Bloom — Jun 21, 2026
Subject: S7-2026-15 Comment From: Samuel Bloom Affiliation: Jun. 21, 2026 Quarterly reporting must be kept, my name is Sam and corporate accountability must be a REQUIREMENT for operation in this country. I refuse to let corporations run our lives without at least releasing what they're doing

---

Samuel Stewart — Jun 21, 2026
Subject: S7-2026-15 From: Samuel Stewart Affiliation: Jun. 21, 2026 “No boardroom in America is above or beyond the law.”
Support continued reporting as it applies now!

Samuel Wilson — Jun 21, 2026
Subject: S7-2026-15 Comment From: Samuel Wilson Affiliation: Jun. 21, 2026 No to skipping reporting quarterly . No to going dark silent (to the public)for 6 months . No to those reported , savings from less filings . No.

To this principle: S7-2026-15

“Prove all things; hold fast that which is good.” (1 Thessalonians 5:21)
The proposal is not good . Truth is rarely threatened by examination. In fact, truth welcomes scrutiny. Lies often demand protection, urgency, and emotional reaction because they cannot endure sustained testing.

And again:

“Ye shall know the truth, and the truth shall make you free.” (John 8:32)
If reporting is reduced , evidence and truth are hidden .

Light, which refers to consumer access to information within a timely frame, remains unaffected by investigation and simply reveals what already exists. Similarly, the timely examination of corporate reporting is primarily aimed at uncovering the truth, rather than creating fairness. For almost a century, disclosure standards have been justified because truthful information is the foundation upon which fair business operations can occur. Fairness is not created by the report itself; it emerges when all participants haWhen truth (open evidence)is obscured, markets become vulnerable to distortion, speculation, and unequal advantage. When truth is illuminated, participants may still disagree, compete, and assume risk, but they do so from a common foundation of disclosed reality. The purpose of disclosure, therefore, is not to guarantee equal outcomes, but to ensure that decisions are made in the presence of visible facts rather than delayed or hidden information.
In the same way, transparent and timely reporting serves its highest purpose when it is timely enough to allow the truth to stand on its own. This provides the foundation upon which trust, accountability, and Ultimate fairness is preserved .

The goal is belief ; found in meditation , thus acceptance is the consequence; life more abundant is the evidence. Become the disciple that Jesus Loves.

Sarah Aaserude — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Sarah Aaserude Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
With all the volatility coming from this administration, we need the best information possible in as timely a manner as possible. Changing this rule to give information LESS often makes no sense. It would allow companies to hide information for longer making the ups and downs of the market bigger once the info does come out. Speculation could increase as people try to guess what's happening instead of having solid data.
Please keep the rule as it is.

Sarah Burgess — Jun 21, 2026
Subject: S7-2026-15 Comment From: Sarah Burgess Affiliation: Jun. 21, 2026 My name is Sarah Burgess, I work as an instructional designer, and I want to keep reports quarterly as an investor. This law is clearly meant to promote and allow insider trading, as this current administration is bent on deregulation of any and all consumer protections, now to include knowledge of our own investments. I don't want to see double the scandals in my investments as the need catches up to us "plebs" at ground level.

KEEP IT QUARTERLY.

We all know investors and shareholders won't be happy with that anyway, and the big companies will have to comply with quarterly reports or lose their investors trust. This is to allow smaller/more in-the-shadows companies to perpetuate scams. Saving a few bucks for honest companies, but

giving full permission to unethical ones to go wild.

Sarah Burgess of Maryland

Sarah Firestone — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Sarah Firestone Affiliation: Jun. 21, 2026 I understand that quarterly reporting can be a drain on company resources, however it is necessary. Less frequent reporting will result in less transparency to investors which would result in poor decisions. With how fast the world moves now, quarterly reporting is a bare minimum. Companies expect speed and productivity from employees and investors should expect the same from their investments.

Sarah Hubbard — Jun 21, 2026
Subject: S7-2026-15 Comments From: Sarah Hubbard Affiliation: Jun. 21, 2026 Transparency and timely information are key factors in consumer confidence.

Sarah Johnson — Jun 21, 2026
Subject: S7-2026-15 Comment From: Sarah Johnson Affiliation: Jun. 21, 2026 This is incredibly dishonest and it should be illegal. Public investors deserve transparency.

Sarah Letnes — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Sarah Letnes Affiliation: Jun. 21, 2026 Quarterly reports resulted in higher earnings for investors. Corporations should be more accountable to shareholders and employees, not less!

We don’t want to return to the sluggish stock markets of the late 60’s. Computerization and AI make accounting easier. Corporations should stop being lazy whiners and just pony up the quarterly reports.

Let’s not Trump the stock market up, like we did to the Strait of Hormuz and the Reflecting Pool. We already have inflation so bad that someone working for minimum wage can’t buy a pound of beef with an hour’s worth of work!

I’m really afraid for the economy already. Please don’t make things worse!

-Sarah Letnes

Sarah Marshall — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Sarah Marshall Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Do not pass this proposal. It will blindfold investors! Terrible idea for the overall health of the economy!

Sarah Miller — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Sarah Miller Affiliation: Jun. 21, 2026 This is an absurd rule. How can I or anyone invest in a company that reports only practically historical figures? You must deny this change.

Sarah Napier — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Sarah Napier Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
No ****ing way!

Sarah Peters — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Sarah Peters Affiliation: Jun. 21, 2026 Let's not create the ignorance of our financial institutions present in 1955 again. Our savings and their growth should be reported quarterly and if a correction in investments needs to be made, a timely response can be made.

Sarah Peters — Jun 21, 2026
Subject: No to six month reporting on investments. Quarterly is the mode in place. Hands off. From: Sarah Peters Affiliation: Jun. 21, 2026 Sarah Peters

Scott D. Irwin — Jun 21, 2026
Subject: S7-2026-15 Comment From: Scott D. Irwin Affiliation: Jun. 21, 2026 I understand why the SEC is considering reducing some of the reporting and compliance requirements that grew out of Sarbanes-Oxley. Regulatory compliance has real costs, and those costs can weigh more heavily on smaller public companies than on large corporations.

At the same time, Enron, WorldCom, and other scandals taught us that transparency, accountability, and independent oversight serve an important purpose. Markets function best when investors have confidence that the information they are receiving is accurate and trustworthy.

The question shouldn't be whether we have controls or no controls. The question is whether the controls are appropriately scaled to the size and risk of the organization. A $500 million company should not necessarily face the same compliance burden as a $50 billion company.

As someone who works in resilience, governance, and continuity planning, I've learned that good controls are most valuable when they help an organization make better decisions, not when they exist simply to satisfy a checklist. Regulations can establish a floor, but ultimately leadership is

responsible for building a culture of integrity, accountability, and transparency.

Less regulation may reduce costs, but it does not eliminate risk. Investors, boards, and executives should remember that trust is earned through sound governance, not merely assumed because a rule was removed.

Kind regards,
Scott

Scott Shapiro — Jun 21, 2026
Subject: File No. S7-2026-15 From: Scott Shapiro Why not eliminate reporting completely? All investors should have access to the same information to make informed decisions. Switching to semi-annual reporting gives insiders a greater advantage at the expense of the general public.

Scott Staheli — Jun 21, 2026
Subject: S7-2026-15 Comments From: Scott Staheli Affiliation: Jun. 21, 2026 Stay quarterly!

Scott Thomas — Jun 21, 2026
Subject: File No. S7-2026-15 From: Scott Thomas Quarterly reporting allows stakeholders to make important voting and investing decisions. Removing this provides a company with the ability to side-step accountability with the stakeholders until 180 days has passed. In this modern time of lightning-fast decisions, capital investments, divestitures, M&A activity, and allocation of stakeholder funds, it would be, in my opinion, reckless to reduce accountability through S7-2026-15. This is effectively allowing the fox to guard the henhouse full time except for a brief moment of supervision. I am 100% against this proposal.

Scott Thompson — Jun 21, 2026
Subject: S7-2026-15 Comment From: Scott Thompson Affiliation: Jun. 21, 2026 Do your job and keep quarterly reports so companies can't cheat us stock holders.
Scott L. Thompson, retired educator and stock holder.

Scott Whitworth — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Scott Whitworth Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Please keep quarterly reports mandatory. Every individual investor will benefit. I am a physician, former military and small business owner. I rely heavily upon my investments, and need quarterly disclosures to make informed decisions about my portfolio, which is essentially my retirement fund since none of us can rely on the absolutely atrocious job the current administration is doing to protect/fund our Social Security.
Removing the quarterly reporting requirement would only allow companies to hide information. Any politician or political figure who protects businesses over individuals will be voted out of office by people like me.
Scott Whitworth

Sean Ford — Jun 21, 2026

Subject: S7-2026-15 Comments From: Sean Ford Affiliation: Jun. 21, 2026 Sean Ford, Senior Engineer, investor. Companies should always be required to report on their financial status many times per year (at least quarterly) so that investors have a reliable source of information to base their investment decisions on. Without that clarity we risk another ENRON situation. Companies need to be open about their finances such that all investors can have confidence in their investments.
Sean Ford

Sebastian Gunter — Jun 21, 2026
Subject: S7-2026-15 Comment From: Sebastian Gunter Affiliation: Jun. 21, 2026 It has come to my attention that a new rule allowing companies to refrain from quarterly public filings has been formally proposed. As a finance student, I have very strong opinions on this matter.

Public access to quarterly reporting is essential for maintaining the financial health of all businesses, as well as preventing fraud and insider trading. It shows a far more accurate picture of the state of the company, and to allow any group to only file every six months is not just a disregard for the wellbeing of the economy at large, but inherently malicious towards consumers, investors, and small businesses. To put this into effect would not only allow, but encourage financial misrepresentation, and false claims towards investors by larger companies.

Maintain quarterly public filing. Thank you.

Seleste Upshaw — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Seleste Upshaw Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:

Shane Duffy — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Shane Duffy Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
The halving of earnings reports to twice a year will leave retail investors operating in a black hole with a lack of information. This will lead to less informed and poorer decisions.
Regular investors to be well informed about the companies they put their hard-earned money into. Cutting earning reports to twice a year will introduce a higher risk of some companies manipulating their results. Regular investors will likely not have the capability of seeing these issues.
Please do not reduce quarterly disclosures as this will lead to less-informed and poorer decisions, and poor decisions lead to more risky and dangerous environments.

Shannon Armitage — Jun 21, 2026
Subject: S7-2026-15 From: Shannon Armitage Affiliation: Jun. 21, 2026 For the financial safety of the American people, please keep this quarterly. Don’t allow history to repeat itself. The measure was put in place for reason, don’t let that reason happen again. Protect our investments.

Subject: My view on Rule S7-2026-15 From: Shari Lee Douglas Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
I have great concerns over reduced reporting. My investments are very important to my family and less information, less often, could have a significant impact on our management decisions. I question who would be served by less updates because it doesn't seem as if it is investors. I am strongly opposed to the changes proposed.

Sharif A — Jun 21, 2026
Subject: S7-2026-15 Comment From: Sharif A Affiliation: Jun. 21, 2026 It is absolutely ridiculous to think 4 times a year to get even somewhat honest transparency from major companies is too much for them & the SEC. Seems there are still people intent on bringing another insider lead crash to the whole world economy yet again.

Don't be stupid, keep it as is and demand 4 quarterly reports from all companies!!!!!

Sharlyn Smith — Jun 21, 2026
Subject: S7-2026-15 Comments From: Sharlyn Smith Affiliation: Jun. 21, 2026 We should change the SEC quarterly reports to monthly reports. We all have computers now and need to stop pretending reports are a burden.

Sharon Anderson — Jun 21, 2026
Subject: S7-2026-15 Comment From: Sharon Anderson Affiliation: Jun. 21, 2026 Retired. But quarterly reports were eas
ser because i always put a credit against
my chucking account when I knew from payrolls and billings what was coming up.

Sharon Andrews — Jun 21, 2026
Subject: S7-2026-15 From: Sharon Andrews Affiliation: Jun. 21, 2026 This is corruption from the SEC to feed the Republican agenda to steal from the American people. Do your jobs to protect us and not CEOs. What's wrong with you people. This will allow more criminal activity to happen unchecked and at what cost to stockholders, pensioners, etc. It really seems like our government wants to destroy its own people and this organization is carrying out that agenda. Please stop before you destroy more retirees lives.
Sharon Andrews

Sharon Armstrong — Jun 21, 2026
Subject: S7-2026-15 Comment From: Sharon Armstrong Affiliation: Jun. 21, 2026 The public relies on these quarterly reports for factual data and information. The act of reducing these reports to every six months is a detriment to transparency and honesty.
Do not change reporting rules. It undermines both sides of the equation.

Sharon Mangione — Jun 21, 2026
Subject: S7-2026-15 Comment From: Sharon Mangione Affiliation: Jun. 21, 2026 As a pass business owner, if u don't figure everything out every night to put aside for each month which is there for each qter is hard enough. For sure someone would fall short if it was to be every six months. Better for the IRS to gain more in pass due payments for sure. Why would u want to do that to the public. Business owners struggle enough to make ends meet. I am still looking into opening up a food truck. I would much rather have everything quarterly. Why change something that is working for the business owner.

SHARON MARCONI — Jun 21, 2026

sharronclarrison — Jun 21, 2026
Subject: S7-2026-15 Comments From: sharronclarrison Affiliation: Jun. 21, 2026 Quarterly reporting to investors, especially smaller investors, is an important tie between those that invest their hard earned money and the company that they choose to support. Three month reporting cycles are the necessary backbone of accountability of those using that money. To extend that timeframe between reporting can lead to an erosion of faith between the two parties. And could lead to fund misappropriation not being found out in time for smaller investors to withdrawn their financial support and move on in a timely enough manner to save their investment. Smaller investors will most assuredly be the ones to be hurt at greater levels by corporate misappropriation as the percentage of loss is greater. Bottomline keep reporting to a three month cycle. If corporations pay taxes quarterly they can report to their investors quarterly.

Shawn Burke — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Shawn Burke Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Its bad enough that those that hold more investing power want to control the one organization that represents all investors in a fair manor. Now these major investors want to control more power and money by controlling the SEC from having companies from reporting vital information, that help smaller investors gain a stronger position in this economy.
How is it that said company each day can lose thousands of investor monies, but show profits of billions at the end of their fiscal year. I say the SEC be left alone stay as it is and not be controlled by those who have the wealth and power all to the special interests.
thank you for this opportunity to share my thoughts on this issue.
God bless all, in Jesus' name, Amen.

Shawn Fields — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Shawn Fields Affiliation: Jun. 21, 2026 Hi. Shawn F. from LA. History shows reporting twice a year isn't good for anyone except the board members trying to hide their numbers and cash out as much as they can before the crash of their stocks. This creates distrust and weakens the market. Keep quarterly!

Sherri Gordon — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Sherri Gordon Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
My view on Rule S7-2026-15 is to suggest "Q-Lite" as an alternative rule.
I respectfully submit the following summary and recommendation for the Commission's consideration.
Summary
- Maintain quarterly reporting cadence and existing filing deadlines (40/45 days).
- Replace full interim financial statements in Q1 and Q3 with a standardized, abbreviated interim report "Form 10-Q-L" focused on high-value metrics and material event flags; retain full interim financial statements and independent accountant review for Q2 and Q4.
- Require Q-Lite to include: standardized, machine-readable metrics (revenue, operating income, net income, EPS, cash & short-term investments, total debt, operating cash flow, free cash flow) with YTD and quarter comparatives; concise MD&A highlights limited to material trends and liquidity risks; a material-event flag and brief summary; officer certification of completeness.
- For Q-Lite quarters, require a limited-scope accountant review focused on the standardized metrics and key balance sheet items (lower scope/cost than a full review).
- Mandate event-driven full disclosure: if predefined materiality thresholds are met (e.g., ≥10% revenue variance, ≥15% net income variance, covenant breach, major litigation/financing), issuers must file an 8-K or amended Form 10-Q with full interim statements.
- Preserve full quarterly reporting for specified sectors with high supervisory needs (financial institutions, REITs, etc.).
- Require machine-readable tagging (inline XBRL) for Q-Lite metrics and provide standardized templates to streamline preparation.
- Phase in adoption (optional first two years) and issue PCAOB/SEC guidance on limited-scope review procedures and materiality triggers.
Rationale
- Protects retail investors by preserving quarterly cadence, providing consistent, comparable, machine-readable metrics each quarter, and ensuring prompt event-driven disclosure for material

developments.
- Reduces issuer burden and cost by eliminating preparation and full review of two sets of interim financial statements annually for most issuers, and by standardizing formats and tagging to lower drafting and QA time.
- Balances transparency with efficiency, limiting information loss through materiality thresholds, sector carveouts, and retained semiannual full reviews.
Requested implementation details
- Adopt clear, quantitative materiality triggers for mandatory event-driven disclosure.
- Require standardized XBRL tagging and provide templates and a safe harbor for template use during the transition.
- Issue PCAOB guidance defining acceptable limited-scope review procedures for Q-Lite quarters.
- Implement phased, optional adoption for an initial period (e.g., two years) with post-implementation assessment and reporting to the Commission.
Conclusion
Q-Lite preserves timely, standardized information for investors while materially reducing routine compliance burden for issuers. It offers a middle path that maintains investor protections and market transparency, lowers costs, and leverages machine-readability to benefit retail investors and data aggregators.
I appreciate the opportunity to comment and am available to provide draft rule text, a sample Q-Lite template, or estimated cost/benefit analysis on request.

speedyham545 — Jun 21, 2026
Subject: S7-2026-15 Comments From: speedyham545 Affiliation: Jun. 21, 2026 Sean Ford, Senior Engineer, investor. Companies should always be required to report on their financial status many times per year (at least quarterly) so that investors have a reliable source of information to base their investment decisions on. Without that clarity we risk another ENRON situation. Companies need to be open about their finances such that all investors can have confidence in their investments.

Spiff Wasimatta — Jun 21, 2026

Stacey Klump — Jun 21, 2026
Subject: S7-2026-15 Comments From: Stacey Klump Affiliation: Jun. 21, 2026 My name is Stacey Klump. I am barely able to invest right now due to high prices but my job as a clinical research professional ensures that I have the education to submit a valuable, relevant comment. Please read it to the end and share it with anyone and everyone that needs to see it.
In no industry would you hand over your money to someone who isn't transparent. You demand transparency when you order food, buy a car or house, and when you purchase/receive healthcare. Big or small, you demand details. Fast food provides calorie count, nutritional content and ingredient lists. Thats a really small transaction, but you have ALL the details. The restaurant even posts inspection certificates. Then all the way up to bigger purchases like houses and cars, you get ALL of the information. You even know where the parts for the car were manufactured and where it was put together.
What does this have to do with the SEC? When the product is financial, such as stocks/ETFs, we should have ALL the details. Insider trading is always going to be a problem, but when companies that promised to share information with the public on a quarterly basis now can obfuscate their books for half a year? That is going to make insider trading downright easy. We demand so much transparency these days that even quarterly seems like a long time. We should be aiming for monthly, not quarterly. With companies large enough to go public, there is no reason they can't report monthly. They know what their key performance indicators are every minute of every day. We should not be heading in the direction of less transparency, we should demand more. MORE transparency, MORE often!
Thank you in advance for reading and demanding more.

Stacey Smalls — Jun 21, 2026
Subject: S7-2026-15 Comments From: Stacey Smalls Affiliation: Jun. 21, 2026 It is appalling that they are trying to reduce the timing requirements to inform the public of key financial information on performance! If you approve this, that would be an outrage! Timing of information is still the most critical for enabling good timely decisions. Less loss could result.

Stacey Turner — Jun 21, 2026

Stephanie Genovese — Jun 21, 2026
Subject: S7-2026-15 Comment From: Stephanie Genovese Affiliation: Jun. 21, 2026 I am very concerned about removing quarterly earning reports. It is common to have quarterlies affect the stock price often in significant ways because it is the moment we learn how the company is actually doing as opposed to how we assume it is doing. Removing quarterly reporting makes it much more difficult for the average investor to know if your investment is in a good place. It also gives some history as to how the company has unfolded and if it has been able to meet it's own guidelines. This information is valuable to the average investor who has no inside information. Quarterlies are a system of checks and balances that help investors make better decisions about their investments. We already have insider trading in congress and quarterly reporting is the only way we can really keep tabs on investments. The loss of quarterly reporting will mean bigger shock waves to the average investor while the people in the know will have plenty of room to make better decisions in a more timely matter. Big investors already move the market with their investment decisions. This will enable them to move it with more ease while leaving average investors unaware until it is too late for them. The average investor will be left in the dark and hit with shock waves. This is very concerning and only benefits big investors and insider traders. I am very against eliminating quarterlies. Companies who want your investment should have to show their value.

Please do not eliminate quarterly earning reports.

Thank you,
Stephanie

Stephen Hirschhaut — Jun 21, 2026
Subject: S7-2026-15 Comment From: Stephen Hirschhaut Affiliation: Jun. 21, 2026 To whom it may concern:

I am retired since 2013. the gutting of rules for corporations is just another handout to the wealthiest 1% thus exacerbating income wealth disparity. the ability to hide graft and malfeasance is being made easier by this sec proposal. the rules should not be changed just for convenience. small business , of which i had owner for 34 years was required to report and i complied.

Regards

Stephen Hunt — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Stephen Hunt Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Why would anyone (other than someone trying to take advantage of the retail investor - the group of investors most commonly "out of the loop") propose such a change? In an effort to encourage retail investment of dollars into the market - which should be fair and open, please do not handcuff the average retail investor. The proposal is not fair, not just, and simply not right. It constitutes a step in the wrong direction for 99.9% of American investors trying to get ahead and prepare for retirement/ future.

Stephen Littell — Jun 21, 2026
Subject: S7-2026-15 Comments From: Stephen Littell Affiliation: Jun. 21, 2026 I have my life's savings invested in American companies. I deserve quarterly reports on what they are doing with the money I have loaned them!

steve campbell — Jun 21, 2026
Subject: File No. S7-2026-15 From: steve campbell I want more information, not less, to make my investment decisions. The appearance is that insiders will still have this info for their decisions while the little guy out here in the public is on the outside. It sows mistrust in my opinion and likely the generally educated public investors. There's gotta be a better way to keep us informed in the short term. Also, companies can grow thicker skin about public opinion and make their decisions for the long term. If they make the right decisions, the smart investors stay invested and are rewarded. If seemingly poor decisions are made, then the investor should know that sooner than later

---

Steve Field — Jun 21, 2026
Subject: S7-2026-15 From: Steve Field Affiliation: Jun. 21, 2026 These are times when all corporations should be accountable to the public and their shareholders, including salaries, bonuses and perks. Quarterly reporting has been the norm for a long time. Changing that will only make it easier to hide earnings etc. Honestly monthly reporting would be better.

Steve Fowler — Jun 21, 2026

Steve Fowler

Steve Halvorson VP of Engineering — Jun 21, 2026
Subject: File No. S7-2026-15 From: Steve Halvorson Quarterly earnings are crucial for market stability and protecting investors. It forces companies to be transparent and issues to rise to the surface much faster than they otherwise would. This becomes especially important during market uncertainty where quarterly earnings shine light on what is happening with companies. Investors are much more likely to sell at the first sign of economic disruption and ask questions later as they will have to wait considerably longer to figure out where markets are headed. This is likely to lead to bigger and longer drawdowns in markets, which cause deeper and more frequent recessions as market confidence deteriorates. The goal of the SEC is to protect investors by forcing corporate transparency not helping them hide issues for 6 months

Sue Gaska — Jun 21, 2026
Subject: S7-2026-15 Comments From: Sue Gaska Affiliation: Jun. 21, 2026 Please do not allow biannual reporting. Everyone, especially retirees, have a right to see what's going on with their investments! Changing this could allow for more fraud and tampering with our money while we don't have access to seeing it happen. Protect our funds!

Susan Gaska

Sue Greaves — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Sue Greaves Affiliation: Jun. 21, 2026 This seems like a solution in search of a problem. What is wrong with the current reporting rules and who stands to gain from the change? I suspect those who stand to gain from changes in these rules include wealthy donors and organizations that can exploit these loopholes to exert more control over political campaigns without adequate disclosure. These changes could hurt the average American and reduce the value of our savings, all to give a gift to the wealthiest. Americans are struggling with the costs from the tariffs and the increase in gas and food prices, to add this to the mix would be devastating for the average American. Please listen to the public and don’t move forward with this change

Thank You

Sue from Arizona

Sue Griggs — Jun 21, 2026
Subject: S7-2026-15 Comments From: Sue Griggs Affiliation: Jun. 21, 2026 To Whom It May Concern (but do they really care?),

While the SEC is citing the "global standard" of semi-annual reporting, there are too many instances of that standard failing. It becomes a case of "if all your friends jump off a cliff, would you do it, too?"

Also, making it "voluntary" is patently ridiculous as what company in their right mind would voluntarily remain with quarterly reporting if they don't have to? Answer: None.

Individuals and non-profit organizations rely on quarterly reporting to make the best decisions possible about their investments for their futures, both financially and so they can continue to help those their charities are set up to help.

Even with quarterly reporting, there is no guarantee against bad actors and mismanagement of company assets. Remember Enron? Remember the housing bubble of 2008?

Allowing companies to literally hide their financial records for 6 months at a time protects the corporations, not the little guy, the normal people that are just doing their best to survive financially in the day-to-day world. Why is the SEC trying to protect the ones that already have more protections and golden parachutes than the regular American citizen?

Do better.

Sincerely,
Susan Griggs

Sue Jacob — Jun 21, 2026

The People will be screwed as usual!

Sue W — Jun 21, 2026
Subject: S7-2026-15 Comment From: Sue W Affiliation: Jun. 21, 2026 WHY? Companies and corporations are making record profits. I don't approve of corporations/businesses going "dark" for 6 months at a time.
Would any of those executives approve this financial reporting in a business they invested a lot of money in? Doubtful. The RECORDS of cases of proven fraud: Enron (2001) – The U.S. energy trading firm used a complex web of off-balance-sheet entities to hide billions in debt and inflate profits. When the fraud was exposed, investors lost over $74 billion, and the company collapsed illumeably.net.

WorldCom (2002) – The telecommunications giant inflated its assets by more than $11 billion through fake accounting entries. The scandal led to bankruptcy and severe losses for shareholders illumeably.net.

Theranos (2015–2018) – The health-tech company falsely claimed to have developed revolutionary blood-testing technology. Investigations proved the technology was ineffective, and founder Elizabeth Holmes and others were convicted of fraud. Investors lost hundreds of millions www.businesseconomy.com+1.

Wirecard AG (2020) – The German payment processor falsely reported €1.9 billion in cash that did not exist. The company went insolvent, causing major losses for investors and triggering one of Germany's largest corporate scandals www.businesseconomy.com+1.

FTX (2022) – The crypto exchange collapsed after it was revealed that customer assets were misused for risky investments, creating an $8 billion shortfall. Founder Sam Bankman-Fried was sentenced to 25 years in prison www.businesseconomy.com+1.

Steinhoff International (2017) – The South African retailer overstated profits and assets by nearly

$7.4 billion, leading to a sharp share price collapse and significant investor losses www.businesseconomy.com.

Bernie Madoff Investment Management (2008) – Operated the largest Ponzi scheme in history, defrauding investors of $64 billion before the scheme unraveled zentara.blog.

As an investor in the stock market, I strongly vote NO, to not submitting quarterly reports. To quote: "Show me the money"

Susan Walsh, Retired VA Associate Chief Nurse. Citizen investor.

Susan Hubbard-Reeves — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Susan Hubbard-Reeves Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission: in 2008 after my husband's death, I tried to move my accounts from Interactive Brokers to a more trusted broker. Interactive Brokers internally lost the paperwork for the move including the court's order of administration. By the time they located my submission, the stock market had plunged. Certain factors could have been ameliorated had the transfer occurred in the 6+ months I dealt with them. Full and open disclosure more often is better for the individual investor and establishes that brokers and companies in the markets provide clear, concise, current facts to investors. After 2008, there should much more quarterly information provided during this precarious economy.

Susan J Kula — Jun 21, 2026

Susan Kivisto — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Susan Kivisto Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Elimination of quarterly reporting will damage investor confidence, undermine investors ability to make informed decisions and further promote fraudulent practices among wealthy investors.

Susan Lee — Jun 21, 2026
Subject: S7-2026-15 Comment From: Susan Lee Affiliation: Jun. 21, 2026 I think that ANYTHING that will HELP the CHILD-RAPIST steal more money is a BAD IDEA.

This will help him steal more money. STOP HIM.

Susan LupPlace — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Susan LupPlace Affiliation: Jun. 21, 2026 Continue current practice of quarterly reporting. As long as my money is invested, I want quarterly reports.

Sent from my iPhone

Susan Martin — Jun 21, 2026

Susan Mayo — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Susan Mayo Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
The working people of this country have worked very hard for what little savings and investments we have managed to accumulate and shouldn't be subjected to losing it to insiders.

Susan McGraw Birmingham — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Susan McGraw Birmingham Affiliation: Jun. 21, 2026 It's my opinion that quarterly reporting by companies is vital to our knowledge by consumers of where the n nation stands financially. I want to know quarterly, not kept in the dark until 6 months or longer has gone by. The expense of the government to monitor such information is well spent.

SUSAN MERSHON — Jun 21, 2026
Subject: S7-2026-15 Comment From: SUSAN MERSHON Affiliation: Jun. 21, 2026 Keeping it quarterly is transparency! Protect the public and our investments!

Subject: My view on Rule S7-2026-15 From: susan Morris Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
I am a amll investor who needs to know what the stocks are doing on a quartery basis.

The stock market needs to be free and open for all.

Susan Neidhardt — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Susan Neidhardt Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Quarterly reports are the ONLY way I can make informed decisions about my finances. Please don't take this ability

---

Susan Overson — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Susan Overson Affiliation: Jun. 21, 2026 Susan O. Retired. Wisconsin. Don't you dare do this. I worked tirelessly for the federal government for 30 years and saved for my retirement and any medical care expenses that may come up later in life so we don't have to depend on anyone as we grow older. Cutting into our savings will affect our entire family, including my husband who is in a wheelchair and will likely need to use our savings for medical assistance. Loss of savings could be devastating for us and our children. I hope you do the right thing.

Susan Peavey — Jun 21, 2026
Subject: S7-2026-15 Comments From: Susan Peavey Affiliation: Jun. 21, 2026 We have enough fraud in Washington and Insider trading happening with no one saying a thing.The president thinks it's ok because he's in bed with all of the Billionaires who got him to the Whitehouse.Eell it's not fair to the American Investors who really do work hard for their investments and count on every red cent. Please be the one Group that cares about America and the citizens. No one else is. Please

---

Susan Polson — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Susan Polson Affiliation: Jun. 21, 2026 To the

Securities and Exchange Commission:
I would be flying blind for 6 months.
Less transparency means more fraud.
Retail investors like me take the hardest hit if this proposal is adopted.

Susan Price — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Susan Price Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
We the investors need more transparency, not less. The repackaging of debt has already blurred the lines and tilted the playing field. Please don't incentivize more risky investment schemes that risk putting the entire economy in freefall.

Susan R — Jun 21, 2026
Subject: S7-2026-15 From: Susan R Affiliation: Jun. 21, 2026 I have worked since I was 18. I am now 74. I earned every single cent of my money. Quarterly reporting protects those who have investments, large and small, especially from errors and greed.
Susan Riley, mental health clinician, Naperville IL.

Susan Rabin — Jun 21, 2026
Subject: S7-2026-15 Comment From: Susan Rabin Affiliation: Jun. 21, 2026 The quarterly reporting is the very least that an investor and other people should have to watch what's happening with their security funds. The only reason to make it every six months is for the company to have more dealings figure out ways to hide or obfuscate their problems, etc. This is really important! Private equity already owns so much and has changed so many things for the worst, including closing Hospitals, that this trend needs to be stopped. Sincerely, Susan Rabin., MSW, retired LCSW

Susan Rabinowitz — Jun 21, 2026
Subject: S7-2026-15 Comment From: Susan Rabinowitz Affiliation: Jun. 21, 2026 Investors need quarterly reports to know how to manage their assets.

Susan Reed — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Susan Reed Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
May be we should pull out or stop investing.

Susan Rhymer — Jun 21, 2026
Subject: S7-2026-15 Comment From: Susan Rhymer Affiliation: Jun. 21, 2026 The primary stakeholder in a publicly traded company is the shareholder. To make informed decisions, it remains

critical to have reporting on a timely basis. Six months is too long, while quarterly is a reasonable cadence. If a company feels that shareholders are too impatient with long term strategies, that can be resolved through improved communication and leadership. Susan Rhymer, CPA, Deputy Controller.

Susan Welsford
Norton Shores, MI

Susan Wilson — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Susan Wilson Affiliation: Jun. 21, 2026 Here is my public comment on S7-2026-15:

It is critical to have this type of up-to-date information for people to be able to make good decisions. These protections are needed for all investors as well as the financial managers they may work with.

These are not burdens to these companies but the cost to have people give you their money as an investment. It is the least they should be doing.

Removal of this requirement would also endanger the retirement accounts of half of our population in the US as social security's long-term funding is in question.

I strongly urge you to reject any changes to reporting requirements.

Sincerely,
Susan Wilson
Albuquerque, NM

Susan Woods — Jun 21, 2026
Subject: S7-2026-15 Comments From: Susan Woods Affiliation: Jun. 21, 2026 My name is Susan Woods and I am a bookkeeper approaching retirement age. The volatility of the market during the last few decades has made it difficult to believe retirement is even possible.
The eroding of our regulations has time and again left the public holding the bag for the mess large corporations created. The bottom line is: If your company is publicly traded, then the public is owed MORE transparency, not less. Keep reporting QUARTERLY.
These companies cannot be allowed more room to potentially destroy the American economy and Americans' security.

Thank you,
Susan Woods

Suzanne Maloney — Jun 21, 2026
Subject: S7-2026-15 Comment From: Suzanne Maloney Affiliation: Jun. 21, 2026 My name is Suzanne Maloney and I am an interior designer.
The public doesn't just deserve transparency in the government and information pertinent to our daily lives that is gathered by the government on our behalf. The government needs to be held to account in maintaining that transparency. The more frequently that reporting can be done, the more information the public has, the more we can hold OUR government to account. We the People are the CEOs of every single person in the government and they work for US. It is their job to do our will and serve in our best interests. Frequent reporting (more often than quarterly) is necessary. Trump may be okay skipping his briefings, but WE are NOT

Suzanne M. Maloney

SUZANNE NEWCOMB — Jun 21, 2026
Subject: Comment on S7-2026-15 From: SUZANNE NEWCOMB Affiliation: Jun. 21, 2026 DO NOT GO BACKWARD TO 1956 REPORTING RULES! We need MORE FREQUENT REPORTING / TRANSPARENCY, NOT LESS!

---

Taryn Stewart — Jun 21, 2026
Subject: S7-2026-15 From: Taryn Stewart Affiliation: Jun. 21, 2026 To Whom It May Concern at the Securities and Exchange Commission:

The only reason anyone would move to make this change now is to give allowances for companies to go back to the crooked shenanigans that they did before the Enron meltdown, thinking that now one remembers and no one is paying attention. I was in college when those verdicts were passed and wrote an economic research paper on corporate responsibility based on that case.

There is no good reason for rolling back such a corporate oversight especially in an environment where the top 10% are winning, while ordinary hard working Americans are getting laid off and going months and even years without finding work. The current 4% unemployment rate only holds for those who are actually filling unemployment and many with severances cannot until those funds run out. We also know that those numbers can no longer be trusted since those who collected them have also been laid off due to a reduction in force. From the historical record of every past civilization we know that absolute power corrupts which is why oversight is necessary. If this change is made we will be rolling the clock back to some of the darkest economic times in our country, just before the last housing collapse. This proposed change is unnecessary and dangerous; don't allow it!

TB Atkins — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: TB Atkins Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Please explain how allowing companies to hide their information or disclosures for months longer than is currently allowed will help investors? Because from every viewpoint I can see, this is giving these companies a huge "head start" over investors.
Investors need these reports in order to make informed decisions.
With today's computer technology making documents so easy to generate, we should be asking for 6 Week reports, not 6 Month reports!

Tbjal — Jun 21, 2026
Subject: S7-2026-15 Comment From: Tbjal Affiliation: Jun. 21, 2026 Personally I think it should be monthly. 6 months can hide alot things that only insiders are privey to.

Thomas Watson — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Thomas Watson Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission: I lived through the housing bubble of 2008, through the great recession, through the recession at the turn of the century, Enron, Savings And Loan. We don't need Enron 2.0. This decision sets the stage for precisely that. If this decision goes through, it will inform my purchasing and residential habits. Enough is enough. The removal of rules limiting exploitation will not grow the market, it will destabilize it and damage investor confidence. Please don't remove reporting. We've seen what under-reporting causes. The test has been run multiple times, we have the results, we have the science. The trends are clear.

Have a blessed day

TomW

Tom Kuffner Mechanical Engineer — Jun 21, 2026
Subject: File No. S7-2026-15 From: Tom Kuffner We really should keep the current calendar of quarterly reporting. I've worked with several companies that pushed accounting rules to make each quarter look good so their quarterly reports looked good. Switching to semi-annual reporting just gives them more opportunities to flex the rules. Institutional investors have unequal access to information about how companies are doing. Small investors rely on quarterly reports to evaluate the companies they have invested in, or are thinking about investing in. Don't keep us in the dark.

Tom Lira — Jun 21, 2026
Subject: S7-2026-15 Comment From: Tom Lira Affiliation: Jun. 21, 2026 Not providing Medicare and Social Security to those citizens, who have paid into the system is out in out thievery. Do what is morally correct.

Tom Lockhart — Jun 21, 2026
Subject: S7-2026-15 From: Tom Lockhart Affiliation: Jun. 21, 2026 Citizen,voter,investor: James T. Lockhart . Jtlockhart43@gmail.com As a retired investor in the current financial industry, I understand a CEO's hesitation to dig deeply into their reports four times each year to be convinced that the numbers are corect, however this frequency allows them valuable time for corrective measures. Please consider the legislation of Sarbain et.al . back 20 +/- years ago that required the prospect of criminal charges for submitting false information. We, private investors look to the sec. to be our eyes & ears in the marketplace. Regards, James T. Lockhart

Tom Tobias — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Tom Tobias Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
As an individual investor, I strongly oppose any effort to reduce or eliminate quarterly disclosure requirements for public companies.
Regular, transparent reporting is essential for informed investment decisions. Quarterly disclosures provide timely insight into a company's financial performance, risks, capital allocation decisions, and overall business trends. Without this information, investors would be forced to rely on outdated data, speculation, media reports, and information that may be more readily available to institutional investors than to the general public.
One of the SEC's core missions is to protect investors and promote fair, orderly, and efficient markets. Reducing disclosure frequency would move in the opposite direction by decreasing transparency and limiting the information available to investors when making important financial decisions.
Public companies benefit from access to public capital markets. In return, investors deserve consistent, timely, and comparable information. Quarterly reporting helps maintain market confidence, improves accountability, and supports more efficient price discovery.
I encourage the SEC to preserve quarterly disclosure requirements and continue prioritizing transparency and investor protection.

Trace Parish — Jun 21, 2026
Subject: S7-2026-15 From: Trace Parish Affiliation: Jun. 21, 2026 It is imperative that you maintain quarterly reporting for corporations. While this reporting cycle may be seen as a burden by some larger corporations, it enforces a necessary control over CEOs, CFOs and governing boards that increases transparency to the shareholders and to the public in general. Our profit motivated system of capitalism is one of the finest wealth building machines in the world but some of the same motivations that make it strong also allow it to be used nefariously by those who seek to “ game the system”. Quarterly reporting is one control that helps to prevent such charlatans from taking advantage of those they are hired to serve. Thank you for taking my comment. Trace Parish, Vice President of a local corporation in Huntsville, AL

Tristan Brown — Jun 21, 2026
Subject: S7-2026-15 Comment From: Tristan Brown Affiliation: Jun. 21, 2026 All major corporations and companies should have to show their earnings in a quarterly manner. This is a bill in place to keep the rich holding their money while taking ours. Any entity that decides to make money should pay the amount they are truly able to pay. Major companies are monopolies and fraudulent claims of taxes and money owed to others.

Triste Percival Frederick — Jun 21, 2026
Subject: S7-2026-15 Comment From: Triste Percival Frederick Affiliation: Jun. 21, 2026 Triste Frederick, Commercial Airline Pilot. CEO's need to be accountable for honesty in the reports to provided to investors. When oversight is lax, catastrophic failures happen, Enron, etc. CEO's get paid enormous sums of money, it isn't too much to ask for some regular accountability in the fiscal direction and action of public companies. Quarterly reports do this. We need safeguards, lax oversight leads to failures and frauds.

Valerie Gastinel — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Valerie Gastinel Affiliation: Jun. 21, 2026 I would like to share my perspective regarding the proposed adjustment to our existing schedule. I strongly advocate for the continuation of our established quarterly cadence for these activities.

My primary concern is that altering this frequency could inadvertently place an increased administrative burden on the team, potentially diverting valuable time and resources away from our core responsibilities. The quarterly cycle provides an optimal timeframe to meticulously gather comprehensive data, conduct in-depth analysis, and formulate well-considered strategic insights. It allows for a more holistic assessment of progress and trends, ensuring that our decisions are based on substantial information rather than short-term fluctuations.

I believe this rhythm has consistently proven effective in balancing operational demands with strategic oversight, fostering a stable and productive environment. Maintaining the quarterly schedule would, in my view, best support our team's efficiency and ability to achieve long-term objectives. Thank you,
Valerie Gastinel

Victoria Gosden — Jun 21, 2026
Subject: S7-2026-15 Comments From: Victoria Gosden Affiliation: Jun. 21, 2026 Absolutely not. This will affect the whole market in a bad way. People will loose money. Companies will not need to show how well or how badly they are doing. Keeping the shareholder in the dark for months.

Victoria Schmidt — Jun 21, 2026
Subject: S7-2026-15 Comment From: Victoria Schmidt Affiliation: Jun. 21, 2026 I am a retail investor. This new rule would be devastating for people like me that have been in the market, managing their own investments. This is especially true for retirees who day trade / invest but also those who are shopping IRAs or even those determining when to cash in an IRA. We ALL need to be on the same playing field. If the SEC wishes to change rules, how about our elected officials being disallowed from trading on the stock market. Leave the little guys/gals alone. Keep quarterly reports / maintain transparency on the market.

Victoria Schmidt
Retired Investor

Vincent Cisternino — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Vincent Cisternino Affiliation: Jun. 21, 2026 My name is Vincent Cisternino, working as a paramedic in the NY tri-state area. It’s important in a climate where people are worried they may never retire, to have a greater amount of transparency. Reporting on quarterly basis is the very least we should expect. This allows all savings and investors the opportunity to make good decisions that affect not only their personal future, but the future of their families.

Best regards,
Vincent

Vivek Maithani — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Vivek Maithani Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Small investors are so disadvantaged these days compared to HFT and hedge funds. Quarterly

reports give us some insight into how the companies we own are doing. By moving the reporting to only twice a year you would be doing them a big disservice. Capitalism works only if fair. Socialism will prevail if you push America towards crony capitalism.

Vivian James — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Vivian James Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Please continue bye the quarterly reporting as you have been doing so we can know what's happening in the stock market!
Thank you !

Vonya Goulooze — Jun 21, 2026

---

Warren W — Jun 21, 2026
Subject: S7-2026-15 Comments From: Warren W Affiliation: Jun. 21, 2026 Just what is the goal in ending quarterly reporting? Exactly how will this help investors understand what they are investing in? Why would you allow management to be less visible and their plans more difficult to understand in this very fast changing world? Are you prepared to be sued for extra losses tied to lack of public information? No doubt companies would like the money saved via less reporting. But your job is to protect the public, not save company costs. Please do your job. Sincerely, Warren Whittaker, Retired Investor.

Wells Jones — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Wells Jones Affiliation: Jun. 21, 2026 If we have learned anything, it is that more openness and reporting rather than less are essential to assuring honesty, and success to our financial systems. Transparency and oversight are essential to protecting consumers and investors. A huge example is the subprime mortgage crisis of 2007-2010, where expansion of mortgage credit enabled by continued loosening of the depression era inspired regulation of banks created a dramatic recession.
