We have learned that there is no limit to greed, and unethical behavior if left unchecked, And, in today's environment, poor decisions can create significant problems for a corporation in a very short amount of time. It is essential to maintain quarterly reporting to protect our nation and its citizens.

Wells B Jones, FASAE, CAE, CFRE

Wendy Bills — Jun 21, 2026
Subject: File No. S7-2026-15 From: Wendy Bills I am a retired widow living on a fixed income. I rely upon investments to supplement my income. If you make this change it will impact my wellbeing and the wellbeing of others in a similar situation. We need to be able to know what companies are doing in a timely manner and every six months is NOT enough. My investment firm also needs to know so that they can make good decisions for investors. This looks like another way to hide things from the common man and it feels very deceptive. Do not do this.

Wendy Bishop — Jun 21, 2026
Subject: Comment on S7-2026-15 From: Wendy Bishop Affiliation: Jun. 21, 2026 We can't go backwards, keep the quarterly reporting so we know the status of our retirement investments.

Wendy Kay — Jun 21, 2026
Subject: S7-2026-15 Comment From: Wendy Kay Affiliation: Jun. 21, 2026 We have more than enough corruption going on right now without giving the wealthy more time to hide what they are doing.
Do NOT stop the quarterly reporting period.
The SEC is checks and balances please keep doing your job.

Wendy Krause — Jun 21, 2026

Subject: My view on Rule S7-2026-15 From: Wendy Krause Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
As an investor in stocks and funds, I believe it is imperative that the SEC maintains quarterly reporting for all publicly traded companies. The consistent format of these quarterly reports provides a comparative basis for evaluating company performance to make good decisions on my investments. Without the frequent cadence of these reports, it will hinder the ability to see material changes in a company's performance, market position, material events, and financials in a way that would be detrimental to my ability to make quicker quality decisions on my investments. In addition, it allows longer terms for companies to take on excess debt, lose profitability, and attempt to cover up fraud or abuse without an investor's ability to see the changes or impacts on a more timely basis. In addition, it increases the ability for insiders to manipulate and make more from the markets than the average individual investor like myself making the advantage for insiders and the connected even greater than it is now.

Wendy Larson — Jun 21, 2026
Subject: S7-2026-15 From: Wendy Larson Affiliation: Jun. 21, 2026 To the SEC, I am VERY concerned hearing about the weakening of Quarterly reporting by CEO's to your commission. Haven't we all benefitted from more not less regulation since the Enron fiasco? I vote no on lesser than Quarterly reporting. Ms. Wendy Larson

Wesley Hester — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Wesley Hester Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
I've been investing since age 27. I'm now 71, and with luck, have been able to accrue a sizable portfolio. I learned how to invest through a financially successful realative. We plan to enjoy some of what we earned, and have already begun. We plan to leave some for our kids and grandkids.

As a person of color, these types of achievements are not easily had.
Please approve a path for Quarterly Disclosures so that others in the public domain can more easily benefit their families as I've been able to do.

Sincerely,

Wesley Hester

Wesley Shuman — Jun 21, 2026
Subject: File No. S7-2026-15 From: Wesley Shuman Earnings are already a turbulent and volatile period of time. Doing this less frequently will end up with even wilder swings as more and more impactful news will stay non-public. Going to semi-annual may save some man hours to a company, but really no legitimate purpose would benefit from this, yet only the public good and free flowing information will be harmed.

---

whiplow — Jun 21, 2026
Subject: S7-2026-15 Comments From: whiplow Affiliation: Jun. 21, 2026 KEEP IT QUARTERLY!!!!!! Accountability is achieved with transparency. The longer the lapses between required accounting makes it harder to
see the truths, and advances opportunities for illegal actions.

whobe38 — Jun 21, 2026
Subject: S7-2026-15 Comments From: whobe38 Affiliation: Jun. 21, 2026 John Tate. Service Manager. Why should companies be given another, backhanded way to take money from Americans and keep it for themselves? Why does the government consistently allow companies to take more money from Americans? This needs to stop. Why does the government allow companies to aquire competitors and dominate the pricing and products available? This only benefits the upper crust of management, it harms the consumer.

Subject: My view on Rule S7-2026-15 From: Will Drexler Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Quarterly reporting is essential to making informed investment decisions and keeping corporations honest.

Will Freemon — Jun 21, 2026
Subject: S7-2026-15 Comments From: Will Freemon Affiliation: Jun. 21, 2026 As a registered representative, I believe a quarterly report is too long for the consumer to get upto date information about the performance of their assets when the wealthy have insider information generally on a daily basis, definitely not 6 months!!!

Will Hirsch — Jun 21, 2026
Subject: S7-2026-15 Comments From: Will Hirsch Affiliation: Jun. 21, 2026 I can't see any reason to let companies keep their investors in the dark for six months at a time except to help insiders who'd want to cash out before the bad news got around about a company and the insiders would lose as much as all the other investors. This is nonsense. Everyone should be given the same information and far more often then every six months. That's eons on the stock market. It's ridiculous. Please consider EVERYBODY and not just the people who are well off insiders.

Will Hooven — Jun 21, 2026
Subject: S7-2026-15 Comments From: Will Hooven Affiliation: Jun. 21, 2026 The SEC too long has been a partner in crime with the power companies... robbing the hard working people. They pay off both political parties every election to continue the theft. Do not make it easier for them to sneak past us. The SEC needs to put the people first again. If they cant we need to expose them and send the guilty parties to prison.

Will Hooven — Jun 21, 2026
Subject: S7-2026-15 Comments From: Will Hooven Affiliation: Jun. 21, 2026 The SEC too long been a partner in crime with the power companies... robbing the hard working people. They pay off both political parties every election to continue the theft. Do not make it easier for them to sneak past us.

Will Leben — Jun 21, 2026
Subject: S7-2026-15 Comment From: Will Leben Affiliation: Jun. 21, 2026 A move to semi-annual reporting would not benefit me as an investor or consumer. It would do the opposite, giving bad actors more time to cover up fraudulent reporting and activity.

The FTC reports a striking increase in reported fraud losses to all types of fraud. About $16 billion was reported lost in 2025, the highest on record and an increase of about 25% compared to the 2024 figure. Americans are being cheated at record rates.

The SEC proposal would amount toa hostile government action on consumers.

Will Turnbull — Jun 21, 2026
Subject: S7-2026-15 Comments From: Will Turnbull Affiliation: Jun. 21, 2026 This is a bad idea.

I understand that public sector work was thankless, difficult, and mostly demoralizing, because people are awful to one another. And *that* was before the Project 2025 folks made the job even less fun.

But in a year of exceptionally poor judgement steering every single executive branch agency WITHOUT EXCEPTION, this is the WORST idea I've heard so far.

No one expects you all to stop financial crime from happening- your adult constituents understand that your only ethical move is to use policy tools to make breaking the law more costly than following it.

No game can call itself a sport if there are no referees.

This is a reminder that 'Fully-deregulated business' is why we call *organized crime* a criminal 'enterprise'.

The optics of this proposed rule change will look even more shortsighted and even less ethical after the current first family takes financial advantage of this new loophole.

I mean...really- why bother enforcing any regulations whatsoever, when we know Uday and Qusay will make a buck shorting their investors, and Sad ****ald will just pardon them anyway?

Who is this regulation even*supposed* to help?

It also seems like every heartless corporate decision upon which we've based our economy and retirements on, to be only about increasing shareholder value... so why would making a system already rife with potential for abuse EVEN EASIER to game?

Again, WHO exactly, DOES this help? Besides criminals?

Thank you for your service, you are the fine line between law and order and actual chaos.

Eventually, we'll take grandpa's keys away, but just try and keep us on the road until then.

Yvonne Moody — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Yvonne Moody Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission: Things change so fast these days that disclosures should be more frequent, not less!

Yvonne Steen — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Yvonne Steen Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Please protect small investors.
The insiders have an overwhelming edge already.
My retirement account grows slowly and I fear cat food may be my future.
Openness and fairness are at risk.

Yvonne Wilder — Jun 21, 2026
Subject: S7-2026-15 Comments From: Yvonne Wilder Affiliation: Jun. 21, 2026 Quarterly reporting is important and should remain. Reducing the frequency of reporting opens the door to more fraud. I'm sure the people reporting want quarterly reporting to end but we the people do not. Keep quarterly report the requirement.

Yvonne Wilder
Teacher

Zach Butler — Jun 21, 2026
Subject: S7-2026-15 Comment From: Zach Butler Affiliation: Jun. 21, 2026 Zach Butler, I am a

plumber and invest in the stock market with what little extra money I am able to accumulate. Companies or anyone cannot be allowrd to go over 3 months without reporting the financial actions they're taking. Wealthy individuals will just take advantage of this to seize more power from regular people.

Zach Stein — Jun 21, 2026
Subject: S7-2026-15 Comments From: Zach Stein Affiliation: Jun. 21, 2026 It's absurd in an age of increasingly automated reporting that we're making results less frequent. It matters to me because I invest to save. Do not make this rule change, it's awful.

Zach Stein - director of IT

Zach Van Hove — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Zach Van Hove Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
Information is power. This rule takes that power directly from the people and hands it to corporations. The people will remember whether you stood with us or threw us under the bus for sycophancy and financial gain.

Zachary Sillivent — Jun 21, 2026
Subject: My view on Rule S7-2026-15 From: Zachary Sillivent Affiliation: Jun. 21, 2026 To the Securities and Exchange Commission:
The public stock market is one of the few socially mobilizing financial forces out there. Any loss of transparency disproportionately affects average investors compared to insiders

We require transparency and you are the agency that is supposed to protect us, the people from fraud and corruption so do your job.

Dan Chao — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Dan Chao Affiliation: Jun. 20, 2026 Hello, my name is Dan Chao. I'm an employee of a private company at the moment and I work leading new product development efforts in the utilities industry. In my past I've worked in Fortune 50 and 500 public companies like Ford and Rockwell Automation. My opinion is that reporting rules should remain similar to what they are today, and not be rolled back to a longer reporting period as had been the practice in the past. Transparency is the only defense society has against bad actors in corporations. The work to prepare fiscal reporting is not trivial, however after working at large multinational companies doing this reporting for many years, I can tell you it's not that much effort either. Rolling back the requirements does not help either party dramatically - it loosens standards internally and externally and offers a substantial amount of risk to investors who can only act on reported information submitted by those companies. Quarterly reporting adds significant value, removing it does not add value - most preparations in Corporate Finance are heavily automated and the effort some are proposing to save is trivial compared to the risk it introduces to the most prominent stakeholder: Investors in aggregate. As someone who has a vested interest in financial performance transparency and accountability in corporate settings, and as a market maker myself, I'm imploring the SEC to consider the risks to all investors and reject a longer reporting period requirement.

Subject: Comment on S7-2026-15 From: Joe E (GE Vernova) Zimmerman Affiliation: Jun. 20, 2026
Joseph Earl Zimmerman
Sourcing Manager - GE Vernova
Schenectady NY 12345

Corporations have too much power today and must show quarterly financial records to make sure we the people and the financial analysis keep them in check. When the profit motive is high all corporations push the limits to the edge and this is bad for our economy and our country. Also think of all the financial-account professionals who will loose thei job with 1/2 the work.

Yes it is work for CEO and CFO to put on the “dog and pony show” each quarter, BUT that is their JOB and part of the reason they get paid such high multiples vs their other employees.

Do not hurt our economy by moving to bi-annual reporting.

Regards
Joseph E Zimmerman

Kathryn Byrnes — Jun 20, 2026
Subject: S7-2026-15 Comment From: Kathryn Byrnes Affiliation: Jun. 20, 2026 To the SEC,
Please do the right thing, and keep the reports quarterly. Investors like myself deserve and rely upon the information provided at quarterly reports.
It's unfair to change that practice now for no compelling reason. And in doing so there is more to lose for honest investors, and more to gain for individuals and groups who already have certain advantages over the average investor/stockholder. This information imbalance may open ways that the market can be manipulated.
As long as companies have to maintain their books, they should fulfill their obligation to inform investors of relevant information in a reasonable timeframe, at regular intervals, and quarterly fits that bill.
In brief, if it ain't broke, don't fix it!

MBA Laurie Marx — Jun 20, 2026
Subject: S7-2026-15 Comments From: MBA Laurie Marx Affiliation: Jun. 20, 2026 To whom it may concern,

Investor's confidence in financial markets and regular reporting by companies matters significantly. Without it, a risk premium will have to be factored in, thus devaluing stocks. Furthermore, it is the responsibility of corporations taking public money to report. History has repeatedly proven why regulations require this. Do not reduce or change requirements.

Kind regards,
Laurie Marx, MBA

MHAoPC Karen Martoglio — Jun 20, 2026
Subject: S7-2026-15 Comments From: MHAoPC Karen Martoglio Affiliation: Jun. 20, 2026 Karen Martoglio, Executive Director, Mental Health America of Putnam County. Quarterly reporting should be the minimum (I report ten times a year), and see no advantage to setting this to half a year. The potential to disengage with investors, contributors, supporters of your mission and goals far outweighs any 'burden', holds leadership accountable, and ensures communication with customers and the public. The failing attempts to enact this other places should be warning enough to not start here. Please keep these reports due quarterly.

Job title: Traveling Musician, & Landlord
Location: Based out of the greater Philadelphia area.

Bottom line is, this administration wants the general public to lose money, so that the middle-class can be more easily controlled by the government and rich corporations. This is just another authoritarian tactic. I do not, and will not, support this! We, the people of the United States are not going to idley stand by and watch our investment returns dwindle, due to this current administration being "in bed with" the filthy rich corporations that are pushing this nonsense. Keep the quarterly reporting! We are smart enough to know why quarterly reporting has worked much better than semi-annually reporting. The historical statistical data is as clear as day! So, knock it off! Hey, I have a much better idea... Let's get rid of the Citizens United bill, and stop allowing rich corporate heads from running our government!

Aaron Kelley — Jun 20, 2026
Subject: S7-2026-15 Comments From: Aaron Kelley Affiliation: Jun. 20, 2026 Quarterly reporting may be more expensive, but it keeps companies far more responsible to their investors and to the public in general. It's harder to do funny business when you're opening the curtains so often.

Alex Brooks — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Alex Brooks Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
America's place at the top the financial world has been achieved through faith in the rules of our markets. The confidence that investors have in US markets comes from their ability to understand fundamentals of publicly traded firms through compliance with basic government-required disclosures on the part of these firms. Compliance is a known cost of doing business and companies unable to bear this cost should make adjustments, not seek to change the information environment by doing away with the obligation to speak to the public 4 times a year. I strenuously oppose this change as it will damage my ability to have a full picture of my investments and reduce overall confidence in US equity markets.

Alex Johnson — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Alex Johnson Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Removing corporation's obligation to quarterly reporting is incredibly dangerous to the financial stability of our economy. Our citizens rely on the stock market and investing in our market for their retirement. And all citizens rely on quarterly information to properly and confidently invest their money. For those who do not read quarterly reports, it is imperative that our financial professionals such as financial advisors and planners have this information so they can make informed decisions with the money they manage, money of American citizens. Removing the requirement for quarterly reporting is incredibly dangerous and puts the investments and retirement funds of all Americans at risk. When you remove regulations for the most influential and powerful companies in the world, negligible and terrible things happen.

Please protect consumers, investors (regular people) and citizens from this reckless proposition. Thank you.

Alex Mark — Jun 20, 2026
Subject: S7-2026-15 Comments From: Alex Mark Affiliation: Jun. 20, 2026 How can investors better invest if they can't keep up on what a company is doing? Makes the market more unpredictable and subject to rumor. Probably even worse than now. Alex Mark

Subject: S7-2026-15 Comments From: Alex Munoz Affiliation: Jun. 20, 2026 My name is Alex, I’m a cloud engineer, and I’m concerned about the lack of transparency as it is. This will only make things far worse.

Alex Rodriguez — Jun 20, 2026
Subject: S7-2026-15 Comments From: Alex Rodriguez Affiliation: Jun. 20, 2026 Alex Rodriguez, retired merchant marine, who has been investing in the stock market a long time. There is no good reason to increase the time between reporting, and lots of great reasons to make it monthly. Transparency is key here, and delaying the information is a poor way to run a company.

Sent via black boxes, smoke and mirrors!

Alex Targonski — Jun 20, 2026
Subject: S7-2026-15 From: Alex Targonski Affiliation: Jun. 20, 2026 Please keep the quarterly reporting! It keeps corporation's honest and is good for investors!

Alexan Mardigian — Jun 20, 2026
Subject: S7-2026-15 Comment From: Alexan Mardigian Affiliation: Jun. 20, 2026 My name is Alexan Mardigian and I'm an information security engineer.
As someone who has worked hard, saved consistently, and invested responsibly through my 403(b) and Roth IRA, I am deeply concerned about practices that appear to prioritize short-term market manipulation over the long-term interests of ordinary investors. Retirement savers should be able to trust that financial markets operate fairly, transparently, and with appropriate oversight. I support efforts that strengthen investor protections and help ensure that the retirement savings of millions of Americans are not put at unnecessary risk.

Alexander Andréson — Jun 20, 2026
Subject: S7-2026-15 From: Alexander Andréson Affiliation: Jun. 20, 2026 My name is Alexander Andréson, I'm a case manager based in New Orleans. If my clients, who live on ~$990 a month have to report their income monthly, there no reason a CEO shouldn't have to do the same. We should be talking about increasing their reporting requirements, not reducing them. "With great power, come great responsibility "

Alexandra Rice — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Alexandra Rice Affiliation: Jun. 20, 2026 To Whom It May Concern:

As a new attending physician, I am starting out almost a decade behind my peers in saving for retirement and building net worth. Not only do I have a mountain of student loans to dig my way out of, but I am making up for years of being paid below minimum wage in training. This semi-annual reporting would be financially devastating for me and so many others. I urge the SEC to keep things as they are with quarterly reporting and not repeat the mistakes of the past.

Respectfully,

Alexandra Rice, M.D.

Alice Haxton — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Alice Haxton Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
The average investor or those of us who are retired with income in investments need transparency as it has always been with the quarterly reports. We are in an age where honesty is in short supply. Please don't make it easier for those who do not have integrity, to be dishonest (and please don't be naive as to think that would be a small number because when there aren't stipulations and regulations in place, people will be encouraged to get away with as much as they can. Not everyone lives by virtues.)
Please think of the investor and not the industry.

Respectfully,
A. Haxton

Alice Huber — Jun 20, 2026
Subject: S7-2026-15 Comment From: Alice Huber Affiliation: Jun. 20, 2026 Keep the quarterly reporting requirements. Shameful to have a change. Many will have insider trading and the rest of us schmucks will lose our hard earned value. Financial markets depend upon transparency, not hidden numbers. These will be manipulated. The global markets depend upon

quarterly reporting, factual reporting, and accuracy.

Alice Huber

Thereis a long history of courperstions operating outside of the law. The law would not exsist if they had notdone so before. Every time we have loosened or removed restrictions on large corperaations or sections of industry they have abused the privlige. The fact that they want the regulations weakened tells us that they want to work around them and abuse the public. Hell no!

Amanda Webb — Jun 20, 2026
Subject: S7-2026-15 Comments From: Amanda Webb Affiliation: Jun. 20, 2026 Quarterly reports are the best way to keep companies accountable. Without this accountability , they can become creative with their books. This puts shareholders and the public at risk.

Sent from my iPad

Amber Doherty — Jun 20, 2026
Subject: S7-2026-15 Comments From: Amber Doherty Affiliation: Jun. 20, 2026 Our family, like many across the nation, is deeply committed to a life of diligent work and financial responsibility. Operating a farm, where we meticulously raise our own beef, pork, and lamb, demands an exceptional level of dedication that often extends far beyond conventional working hours. This commitment to self-sufficiency, combined with the careful management of fixed incomes from a pension and retirement, necessitates constant vigilance over every expense and meticulous financial planning.

Despite our relentless efforts and careful stewardship of resources, we find ourselves increasingly burdened by systemic pressures that challenge our ability to sustain our livelihood. There is a growing and palpable concern that policies and regulations are being shaped in ways that disproportionately benefit a select few, creating an undeniably uneven playing field. The cumulative effect of these seemingly arbitrary changes feels like a constant erosion of our hard-earned stability, making it exceedingly difficult for ordinary, hardworking citizens and small enterprises to thrive.

We believe it is imperative to address this fundamental imbalance. We urge a comprehensive re-evaluation of current practices, advocating strongly for greater transparency, accountability, and the implementation of truly equitable policies that genuinely support the backbone of our communities, rather than perpetuating advantages for a privileged minority.

Amber Drsata — Jun 20, 2026
Subject: S7-2026-15 Comment From: Amber Drsata Affiliation: Jun. 20, 2026 Investing is one of the only avenues available for regular people to seek financial stability. Pensions are mostly gone, social security has been in dire straits, and medical costs and simple cost of living in America have skyrocketed. I don't mean to be extreme but how much more stability can the elites strip from the common American before we see violence? Don't allow corporate interests and the elite to take away one of our only opportunities.

Andrew McCurdy — Jun 20, 2026
Subject: S7-2026-15 Comments From: Andrew McCurdy Affiliation: Jun. 20, 2026 The changes being proposed for the SEC to double the reporting period from 3 months to 6 months which is doubling the time currently is NOT I. THE BEST INTEREST OF THR PEOPLE OR INVESTERS. This will only provide less transparency. I OPPOSE THIS ACTION TO CHSNGE THE SEC REPORTING GUIDELINES.

Andrew Mullett — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Andrew Mullett Affiliation: Jun. 20, 2026 The SEC's proposed rule would blindfold retail investors and those that rely on the reports for work related purposes.

Andrew Souther — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Andrew Souther Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Timely, consistent financial disclosures are esssential for well-functioning financial markets. In fact, if anything, we need more transparency in our financial system, not less. This proposed rule change is

clearly moving in the wrong direction.

Andrew Vasquez — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Andrew Vasquez Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Full Transparency combined with laws and regulations that protect, the planet, citizens, consumers, and investors from fraud and abuses done by corporations that put profits first.
Information is key when it comes to trust and timely analysis of public companies especially when it comes to the broader public and smaller investors. This rule change would benefit institutions and the wealthy that have the money, resources, and connections to get and share information the broader public would need to wait on to make educated decisions on their investments that include retirement accounts. Eroding trust that is already sliding due to record earnings, and extravagant C suite compensation packages, during unprecedented inflation and cost of living increases will do nothing but reinforce that distust in and further negative sentiment towards the American way of justice and protection for all nut just the few.

Andy — Jun 20, 2026
Subject: S7-2026-15 Comment From: Andy Affiliation: Jun. 20, 2026 The quarterly reporting is necessary to help the public informed, makes embezzling more easy to find, increases transparency and public trust. Keep it!

Ann Williams — Jun 20, 2026
Subject: S7-2026-15 From: Ann Williams Affiliation: Jun. 20, 2026 The only reason that the majority of publicly traded companies produce a quarterly report is because the SEC requires it. Without this regulation, imagine what will happen on Wall Street. Investors will not be making “informed” investing decisions. Companies will be able to hide poor performance behind a curtain. Economic conditions can change and without quarterly reports, the investor at least (and maybe the reporting company) will not be able to “see” trends.
Do not let Wall Street turn into a chaotic mess where the truth will be difficult to find without quarterly reports.

Anne Brino — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Anne Brino Affiliation: Jun. 20, 2026 I am writing to express my significant concerns regarding any potential reconsideration of the standard for financial reporting frequency, specifically a move from quarterly to semi-annual disclosures.

In the current, exceptionally dynamic and rapidly evolving global economic landscape, the timely dissemination of accurate financial information is more critical than ever. Market conditions can shift dramatically due to technological advancements, geopolitical events, or sudden economic trends. Reducing the frequency of mandatory financial updates to just twice a year would leave both individual and institutional investors operating with critically outdated data.

Such a reduction in transparency would inevitably lead to increased market uncertainty and volatility. Investors, lacking up-to-date performance indicators, would be compelled to rely more heavily on speculation and unofficial sources, rather than concrete, verified financial statements. This hinders the efficient allocation of capital, making it considerably more challenging for investors to accurately assess a company's true health, risk profile, and growth trajectory. The resulting lack of confidence could deter investment, potentially suppressing market growth and creating systemic instability that would ripple throughout the broader economy.

Quarterly financial reports serve as a vital mechanism for market efficiency and investor protection. They provide regular, granular insights into corporate performance, enabling informed decision-making, fostering accountability, and maintaining trust in our capital markets. This consistent flow of information is essential not only for investors but also for analysts, regulators, and businesses themselves to gauge economic trends and plan effectively.

Therefore, I respectfully but firmly urge you to preserve the current requirement for quarterly financial reporting. This practice is fundamental to upholding market integrity, safeguarding investor interests, and ensuring the continued health and transparency of our economic system.

Thank you for your careful consideration of this profoundly important matter.

Sincerely,

Anne Brino
Vero Beach, Florida

Anonymous — Jun 20, 2026
Subject: S7-2026-15 Comment From: Anonymous Affiliation: Jun. 20, 2026 Supporting businesses and the economy is one thing. Supporting fraud and crime in general is quite another. It isn't clear how this is even legal. Even the Constitution says all men are created equal.

I guess the SEC must not support the Constitution or regulations/ laws in general.

Look back to when and *why* the SEC was created^^ (see below for a brief reminder). There's no reason to stray from those initial directions.

I suggest the first case where plaintiff(s) lose money but certain insiders gain, the plaintiffs sue everyone promoting this change. They very well could also be beneficiary's of this change.

^^
The U.S. Securities and Exchange Commission (SEC) was created in 1934 by Congress to restore public confidence in the financial markets following the 1929 stock market crash and the onset of the Great Depression.

The primary reasons for its establishment include:

- *** Combating Fraud and Manipulation:
Prior to the SEC, oversight was virtually nonexistent. Widespread unethical trading practices, insider trading, and unchecked "bucket shops" heavily contributed to the 1929 market crash.

- *** Enforcing Corporate Transparency:
Investigations (such as the Pecora hearings) revealed that financial institutions were misleading investors. The SEC was created to require public companies to disclose meaningful, accurate, and truthful financial information.

- *** Protecting Investors:

The agency's core mission is to protect investors from fraud and ensure that average individuals can trust the information provided by those seeking their investment dollars.

- *** Regulating Market Intermediaries:

The SEC was established to oversee stock exchanges, brokers, dealers, and mutual funds, making the markets fair, orderly, and efficient.

Congress codified this mandate through the Securities Exchange Act of 1934, establishing the SEC as the first federal regulatory agency for all U.S. securities markets.

Darcia I train employees to learn to pack caterpillar parts at work

Yahoo Mail: Search, Organize, Conquer

Anonymous — Jun 20, 2026
Subject: S7-2026-15 Comment From: Anonymous Affiliation: Jun. 20, 2026 I believe mandatory quarterly reporting should stay. Six months is too long for investors to go without a standardized, legally accountable disclosure since a lot can go wrong in that window. I'm investing for retirement, and the last thing I need is an Enron-type situation where red flags were buried for months before everyday investors had any idea. My bigger concern with making it optional is that the companies most likely to opt out are the ones with the most to hide, which is the exact opposite of who should be reducing their transparency obligations.

Anonymous — Jun 20, 2026
Subject: S7-2026-15 Comments From: Anonymous Affiliation: Jun. 20, 2026 Quarterly was to protect people from things like what Enron did. They swindled, hard-working people out of their retirement. It needs to stay quarterly and hold these corporations accountable.

Subject: S7-2026-15 From: Anonymous Affiliation: Jun. 20, 2026 As a technology corporate expert who lived through the pre-SOX and post-SOX eras, I would argue strongly for keeping SOX because it forced companies to treat financial reporting systems, access controls, change management, and evidence retention as board-level responsibilities. Without SOX's rigorous internal control requirements, companies lose essential protections: weak internal controls allow fake transactions and manipulations to go unnoticed, lack of segregation of duties lets single individuals control approval, accounting, and payment processes, and inadequate monitoring enables management override of controls that lets fraud continue for years. SOX forces organizations to maintain

documented controls, test them regularly, and certify their effectiveness—requirements that directly prevent asset misappropriation, embezzlement, and fraudulent financial reporting. On shareholder transparency, SOX mandates that CEOs and CFOs personally certify financial statement accuracy, requires disclosure of off-balance-sheet items and insider trades, and created the PCAOB to enhance audit oversight—giving investors confidence that financial data has been verified through adequate controls. Repealing SOX would remove these investor protections just as technology has made fraud more sophisticated and damaging, leaving shareholders vulnerable to the same accounting manipulations that destroyed Enron, WorldCom, and countless other companies before SOX existed.

Subject: S7-2026-15 From: Anonymous Affiliation: Jun. 20, 2026 Greetings,

While my opinion alone holds little weight, raw data holds no partisan position.

Quarterly reporting is a must. Turning a blind eye to what history has already taught us is a recipe for disaster. The only difference between now and then is when things go south, those responsible will have nowhere to hide their faces, for information travels quick and everyone's information is readily accessible. The court of public opinion is greater than it ever has been.

Please think of the consequences that will result of this. If this is an efficiency of personnel and operations, then invest on training select people how to use modern systems to decrease the timeline from information to reporting.

Bottom line, please do right by society. Don't forget that ALL of our families and friends are involved.

Thank you for your time.
- Rigo Rodas

Subject: S7-2026-15 Comments From: Anonymous Affiliation: Jun. 20, 2026 For many Americans, the stock market holds our retirement. The proposed change allows a select few, including big investors to have access to quarterly reporting while the other 98% don't. There are laws in place that make insider trading illegal, this proposal seems to provide a temporary lift to those laws. Diane Strom, community health pharmacist, Kenmore, WA

Anonymous — Jun 20, 2026
Subject: S7-2026-15 Comment From: Anonymous Affiliation: Jun. 20, 2026 Dear SEC.GOV

The less transparency the easier it is to steal, lie and hide illicit and/or covert operations. Financial security is about mobility, communication and understanding. To restrict information transfer by cutting in half the reporting times is to be secretive and potentially reducing the ability to react to market trends and changes. In the electronic age, we have the capability to report DAILY and further avoid secretive and diabolical schemes to defraud investors. We probably now have the capability to electronically (especially with the advent of AI) on a much faster and more timely manner rather than hiding details for half a year. If public companies are unwilling to report more quickly, I believe they are only serving themselves and are fully willing to deceive the entire investment community of both private and public investors. We need MORE information, NOT LESS!

I'm not in favor of changing the reporting period at this time!

Cordially,

Murray Plotzker

Anonymous — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Anonymous Affiliation: Jun. 20, 2026 I recently retired (1 year ago) and am 71 years old. I have approximately 70% of my retirement savings invested in the stock market. I am confident that under normal circumstances, my wife and I have enough money to sustain us for our expected lifetimes.

I am writing to express my disapproval of the proposed rule that would change the financial reporting period for publicly traded companies from quarterly to semiannual. There is an old saying by George Santayana: "Those who cannot remember the past are condemned to repeat it." This experiment was already tried once between 1955 and 1970 and was a failure for investors. There is no need to repeat the same failed experiment again and expect a different result. Your mission statement says that your role in our economy "is to protect investors; maintain fair, orderly, and efficient markets; and facilitate capital formation." So why would you consider adopting a rule that has already been proven to harm investors?

According to you (the SEC), the supposed benefit of this change is $200,000.00 in cost savings for public companies per year. That amount is not even a rounding error for many companies. The gain that you posit this change will create for public companies does not even approach the losses that investors can expect as a result of the rule change.

In sum, this is an ill-conceived change that promises to inflict much more harm than the infinitesimal cost savings that you posit public companies will realize. Don't do this.

Allan Galbraith

Anonymous — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Anonymous Affiliation: Jun. 20, 2026 Victoria Weisel, retired learning specialist. As a retired person, I rely on the interest produce from the investment site, made most wisely over the years. My planning has been careful and deliberate as my investments have also been. I rely upon quarterly reports to know what direction my investments are taking, and how often things long-term. Less transparency means it is easier for unscrupulous corporations to

take advantage of people. Greater transparency allows the people to be more watchdog, something that is sorely needed in these times, some marked by greed and lack of accountability. What influences me and my investing choices is the amount of accountability corporation takes to be transparent. Without that, there is no trust; without trust there will be less investment by the people. There is already an enormous amount of distrust in government and corporations, which seem to be out to disenfranchise an entire nation to never thrive, unless they exist within the 1% of the wealthiest. Going to transparency is essential to maintaining order. Without it, people will be less compliant, less willing to invest, less willing to trust.

Anonymous — Jun 20, 2026
Subject: S7-2026-15 Comments From: Anonymous Affiliation: Jun. 20, 2026 To the SEC:

My name is John Ennis. I am a retired 911 operator who manned the comm across the river from the World Trade Center the day our nation came under attack by religious fanatics, probably my proudest day on the job. Since that enemy strike I have watched a kind of militant lunacy spread throughout our people. It has move markets to the center of public life and decentered individuals therefrom.

For all the wealth and all the tearing away of responsible regulation such as the Glass-Steagall Act in this country—materially the wealthiest nation in the history of the world—there is absolutely no reason that can make quarterly reporting unprofitable for business and lots of reasons why quarterly reportage offers the bare minimum of a desireable transparency.

Please take the morally and legally best action to limit greed and corruption in our already compromised nation and disallow a less accountable biannual corporate reporting system. Necessary protections were disregarded in 1929; necessary protections are required still.

Respectfully submitted,
John Ennis

Anonymous — Jun 20, 2026
Subject: S7-2026-15 Comment From: Anonymous Affiliation: Jun. 20, 2026 Deer Sirs:

Quarterly statements are the only way regular investors and value investors have any kind of insight whatsoever into the performance of a company. If this is cut off, you will see a dramatic loss of investment in some companies because you can't buy a company for its value if you don't know the financials. In addition, this would shift investment heavily towards corporate insiders and also towards rumor and speculation because people will try to get information anyway they can and they will probably try to get it from inside the company but many times that results in speculative guessing or false rumors. This could result in catastrophic speculative market swings dumping investor confidence. If it were up to me, I would actually have public companies report on a monthly basis because the reporting mechanisms are mostly automated.

Sincerely,

David B. DeZan

Anonymous — Jun 20, 2026
Subject: S7-2026-15 Comments From: Anonymous Affiliation: Jun. 20, 2026 Quarterly reporting, in my opinion is important to continue for the public, shareholders and tbe company itself. Having worked in accounting and finance my entire career for both public and private companies I would argue that quarterly reporting helps to keep a company focused on tighter accounting practices to keep their books in order. If reporting requirements are changed to every 6 months then trading restrictions for insiders should be adjusted accordingly so they cannot profit from what essentially becomes insder trading.

Respectfully

John Takacs
Sr VP Finance, CFO (retired)

Anonymous — Jun 20, 2026
Subject: S7-2026-15 From: Anonymous Affiliation: Jun. 20, 2026 Greetings and Salutations;

Didn't Enron teach us NOT to blithely accept non-certified reports from corporations?

Especially today, with the most egregiously corrupt president in our nation's history habitually stealing from taxpayers on a daily basis, and with the international crime syndicate he's installed to take the place of and hobble our legitimate government, we MUST stay vigilant regarding corporate financial reports, and CONTINUE holding ALL CEOs and CFOs personally accountable for providing accurate and truthful quarterly reports.

Scaling it back to twice a year is a hard no.

We need MORE accountability; not less.

And please investigate this horrific administration for their clearly criminal pump and dump schemes since the twice-impeached criminally seditious traitor-in-thief slithered back into office.

There has to be SOMETHING you can charge them with that has enough teeth to bring their rampant criminality to a HALT.

Thank you and have a wonderful day.

Sincerely,

Cori MacNaughton

Subject: S7-2026-15 Comments From: Anonymous Affiliation: Jun. 20, 2026 Lesa C.Jones
I am a retired investor.
The clarity of a quarterly report reveals the strength of growth and debts as well as cash flow at twice the frequency of a semi annual reporting schedule, which gives a more accurate view of current trends within sectors and companies.

Given my age, going to a semi annual report would weaken my ability to accurately manage my investments. As such, I would be compelled to diversify my investments out of individual stocks and look elsewhere for growth at a reasonable risk

Sent from my iPhone

Anonymous — Jun 20, 2026
Subject: File No. S7-2026-15 From: Anonymous I am against the change to reduce the frequency of report filing for corporate entities. Large corporations should have processes that allow them to track their financial situation on a regular basis, and computer generated reports and AI are making it easier, not harder, to generate reports. The risks of less frequent reporting are considerable, allowing companies more time to obfuscate issues and for insiders to profit from known problems while leaving shareholders to pay the price.

Anonymous — Jun 20, 2026
Subject: S7-2026-15 From: Anonymous Affiliation: Jun. 20, 2026 When public companies scale back on standardized quarterly reporting, regular retail investors lose their primary window into corporate health.

It will reduce transparency, make it harder for shareholders to hold management accountable, and create blind spots for retail investors.

When public filings go quiet, big institutions and insiders still find ways to gauge how a company is doing. It is the everyday investor, working from what is public, who gets left in the dark.

Billionaire hedge fund managers and private equity titans do not rely solely on public SEC filings. They pay for expensive alternative data (like satellite imagery, credit card tracking, and supply chain data) and maintain direct personal access to corporate management. Less public disclosure

effectively hands billionaire institutional investors a structural information monopoly over the broader market.

You will kill the average investor just trying to make extra money and destroy all the investor companies the average stockholder utilizes. The billionaires want us docile and poor. You will cut off financial investment for the average investor and create the potential to lose millions of people's pension money, just like during the Enron crisis. The people suffered, not the CEOs.

Ant Cruz — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Ant Cruz Affiliation: Jun. 20, 2026 Anthony Cruz, CEO, Houston, this is insane, asinine even! Less transparency means, MORE corporate corruption! They need to maintain quarterly reporting so we the people can maintain our individual portfolios. Removing this kinds transparency, will be detrimental to the small American investors!!

Anthony Boncimino — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Anthony Boncimino Affiliation: Jun. 20, 2026 No thanks, market makers are already robbing retail investors enough with naked shorting dark pool and ftds abuse and lax regulation and enforcement to protect investors

April — Jun 20, 2026
Subject: S7-2026-15 Comment From: April Affiliation: Jun. 20, 2026 I am an individual investor who relies heavily on quarterly financial filings to make sound investment decisions. Continuing to file quarterly SEC reports enables stakeholders to monitor the Company's performance, supports informed investment decisions, and reinforces market confidence.

Regular quarterly SEC filings preserve investor trust, facilitate efficient capital markets, and demonstrates the Company's commitment to strong corporate governance while promoting transparency by ensuring that investors receive timely and consistent information regarding the Company's financial condition and results of operations.

Eliminating or reducing the frequency of quarterly reporting would diminish the availability of current information and impair the investors' ability to assess a company's performance and prospects and significantly reduce my ability to make sound investment decisions.

I respectfully request the continuation of quarterly filings of financial information to allow for sound and transparent financial decisions when assessing and evaluating investment opportunities.

April Kaplan
Individual Investor

April D Holmes — Jun 20, 2026
Subject: S7-2026-15 Comment From: April D Holmes Affiliation: Jun. 20, 2026 As a long time investor and a retired person, it is important to have timely information of the status of investments. Having been in the situation where an investment goes bankrupt with little notice, 6 months between status reports is too long.
The Enron debacle taught us what happens when businesses are not forth coming.

April Geus — Jun 20, 2026

Ashish Gupta — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Ashish Gupta Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
We cannot and should not lose the public oversight of the companies we are investing our hard earned dollars. While one can appreciate not running the company for short term results, we have seen companies successfully manage the short term and long term results in how the US markets have performed. Quarterly reporting also helps maintain the trust.

With general automation, and automated trading that is part of our lives, we should be moving towards the idea of continuous reporting and attesting so all decisions, human or AI, drive investment decisions. Let's not the company managers and insiders hide critical information about the company. We should require more disclosures!
Please don't do away with the safeguards we have currently.

Ashley Clasen — Jun 20, 2026
Subject: S7-2026-15 Comments From: Ashley Clasen Affiliation: Jun. 20, 2026 Sir/ Madam,

My name is Ashley Clasen, and I am a North Carolina attorney. Less transparency has never been good for the people. This proposal is nothing but less transparency. This aids corporate America. If that's the goal, be true to the American people that voted in the legislators electing/appointing these bodies of government, who in turn, care only for corporate America.

With Gratitude,

Ashley Clasen

Aundrea R — Jun 20, 2026
Subject: S7-2026-15 Comment From: Aundrea R Affiliation: Jun. 20, 2026 My Name is Aundrea Renney. I'm a Life Advisor/Coach.

I'm speaking out today not only for myself but for those that could face the harsh financial realities, if this were to go into effect.
(What is the reasoning for the change? If the way we have been doing things is working for EVERYONE, then why change?If a company is getting ready to go into bankruptcy at the beginning of that six-month period, the public is left completely in the dark. While a company technically has to report the actual bankruptcy filing (a Form 8-K, that is entirely reactive. An 8-K only tells investors that the company has collapsed today; it does nothing to warn them that the company is collapsing over the previous 170 days.Quarterly reporting acts as a critical early warning system. It allows everyday retail investors to track rapid Financial Depletion or Escalating Debt and cut their losses before a company hits a Point of No R. eturn. Expanding the blind spot to six months means a company can experience severe operational decay and cross the threshold into insolvency completely in secret. Corporate insiders will always maintain real-time visibility into a failing company's internal metrics. Meanwhile, everyday people will continue buying shares at artificial, outdated prices, completely unaware that the issuer is weeks away from a total financial wipeout. Please withdraw this proposal and keep reporting quarterly to protect everyday investors. By letting them make the decision to hold on or to walk away, before it's to late. By allowing "Everyone" to see the red flags and warning signs.
I'd like to "Thank You", for taking the time to read my concerns on this matter.

Ava Erickson — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Ava Erickson Affiliation: Jun. 20, 2026 Protecting investors is vital. Integrity in the systems we have in place is essential. The current administration is undermining our safety and guardrails; putting our security at risk.

B Turrell — Jun 20, 2026
Subject: S7-2026-15 Comment From: B Turrell Affiliation: Jun. 20, 2026 My name is Bleu Turrell. I’ve a family and I work in education. I actively invest, listen to quarterly results and track company financials closely. This all helps me make smarter decisions with my hard-earned dollars. These companies went public, they rely on public investment to grow, if they’re allowed to drastically cut their transparency it will only benefit insiders and large funds—hurting the small investors & possibly causing financial harm. Information sharing is part of the social contract a company enters into when they take investors dollars. Honor this agreement & continue requiring quarterly reports.

~ Turrell

B. Allen Retired Accountant — Jun 20, 2026
Subject: File No. S7-2026-15 From: B. Allen I am asking that the quarterly reporting standard remain intact. As a former finance professional who was part of a team responsible for the month-end closing of a publicly traded company, I understand why publicly traded companies would like a longer reporting interval, but I do not think it is a good idea. In fact, I think that in the age of enterprise-wide AI-driven accounting and reporting systems and daily closing , I think that publicly traded companies should be required to report monthly, not just quarterly. This would probably require a phase in period for compliance, but I think it is an achievable goal, maybe even if AI can't deliver the miracles it has promised. The technology is there and likely already being used so there is no GOOD reason not to require it. This seems like an attempt to hide problems from early detection. It's another tool in the CEO tool-box to manipulate stock prices (think stock buy-backs). I hope this rule is not approved and if it is I expect that future administrations will revoke it.

Quarterly reporting of Ceo's earnings is only fair and I want what is fair for everyone in this country. Some ceos make way too much as it is. The law is there for a good reason to stop fraud and to hold ceos and there companies in check for simple transparency. It's only fair for everyone's stock holding to make decisions based on reality.
Thank you for your concern.

Barbara Cipolla — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Barbara Cipolla Affiliation: Jun. 20, 2026 I am Barbara Cipolla, a retired educator located in Houma Louisiana, Terrebonne Parish. As you can imagine I scraped by to save to have a little extra retirement account in addition to the small state retirement account I am receiving. Please reconsider and do not revert to companies only giving semi- annual reporting for businesses. I cannot afford for my investment to be decreased. In my area grocery prices have doubled since the day I retired. Also because we have a local realtor board that created a monopoly in our town, the Bayou Board of Realtors are home prices are through the roof which also makes regular supplies at home supply stores like Lowe's and Home Depot about 25% higher than many local parishes and our neighboring like Arkansas and Missistatesssippi. You can verify things like this for yourself but I implore you please continue with the quarterly reporting for businesses.

Barbara Evans — Jun 20, 2026
Subject: S7-2026-15 Comment From: Barbara Evans Affiliation: Jun. 20, 2026 Quarterly reporting? Oh hell no. Capitalism is already out of control, and having negative effects on all Americans. You've found countless ways to cheat and manipulate. You bought Congress. Oh hell no. Ps. There's an app you can tell us who your political donations go to. Do I trust you? Oh hell no.

Barbara Ford — Jun 20, 2026

Benedict Zoe — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Benedict Zoe Affiliation: Jun. 20, 2026 Dear Securities and Exchange Commission,

I am expressing my strong support for retaining the requirement for public companies to file quarterly reports. These reports are essential for ensuring transparency, fostering investor confidence, and enabling timely, informed decision-making in the markets.

Quarterly disclosures help identify trends, risks, and opportunities early, which benefits not only investors but also the integrity and stability of U.S. capital markets. Reducing reporting frequency could create information gaps, increase uncertainty, and potentially harm market efficiency.

I respectfully urge the SEC to maintain the current quarterly reporting requirements to preserve the high standards of accountability and transparency that have long been a hallmark of our markets.

Sincerely,
Benedict Zoe

Benjamin Hayes The Motley Fool Community — Jun 20, 2026
Subject: File No. S7-2026-15 From: Benjamin Hayes As an independent investor, I make personal stock decisions for me and my household. I view this as an important responsibility as the majority of my net worth is in retirement assets. A critical factor for capitalism to operate properly is discussed in the Efficient Market Hypothesis (EHM). Public knowledge, which is consistent, available, and regularly disseminated is a must to allow for individuals make intelligent decisions. As an OWNER of the corporations, limited partnerships, et al., I believe it is my RIGHT to receive regular communications on the state of my investment in MY business ventures. The alternative scenarios degrade to giving my money and assets to someone else (e.g. Social Security, anyone) and hoping that this money is utilized wisely. While some may take this choice, I prefer a more balanced and involved approach. Reducing the frequency of 10Q reporting is wrong for the following reasons: -

Fair disclosures improve market efficiency and transparency. Less frequent reporting the opposite. - The companies at highest risk of opting out are those most likely to be under the highest financial pressures which increases the urgency for communication to owners and investors, not lessening this requirement. - Companies today, for many years, have complied with this requirement without issue. This is a choice that organizations make in determining whether to enter as a publicly held organization. - An argument that quarterly reporting increases short-term thinking is not validated by recent history. In addition, the debt structure of most publicly-held companies would still require frequent reporting to banks, lendors, and others in compliance with covenant requirements. This knowledge asymmetry would only hurt equity investors. - Finally, the current quarterly reporting process helps protect individual investors by ensuring that information is freely and commonly available. Thank you for allowing me to submit these comments. I ask that you consider them carefully. Kind Regards,

Bethany Sutton — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Bethany Sutton Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Do NOT give any advantage to insider trading or add blinders to the public about PUBLICLY TRADED COMPANIES. All our social safety nets are threatened, endangered or gone and we're being told that the answer is to invest. Kids are being given money to invest in exchange for the security systems. Do not make it easier to hide misdeeds, give insiders extra time to extract wealth and leave the regular investors with nothing. Just keep the quarterly reporting. I've had to provide updates on that cadence. It's possible, it's standard, it enables the public to catch shifts before it's too late.

Betsy Brownlee — Jun 20, 2026
Subject: S7-2026-15 Comment From: Betsy Brownlee Affiliation: Jun. 20, 2026 We need to keep it. The people are responsible for their actions, so corporations should be held accountable for theirs.

Betsy Ehrlich — Jun 20, 2026
Subject: S7-2026-15 Comments From: Betsy Ehrlich Affiliation: Jun. 20, 2026 How dare you consider cutting investors off from regular quarterly reports. We need to know, and have every right to know, how publicly traded companies are doing as often as possible. Twice a year is NOT enough. Quarterly is a minimum!

Betsy Olsson-Mackowski — Jun 20, 2026
Subject: S7-2026-15 From: Betsy Olsson-Mackowski Affiliation: Jun. 20, 2026 Elizabeth Olsson-Mackowski, Homemaker, Concord, MA

If CEOs are allowed to be less transparent with their financials, they will be. This is not acceptable. If the average citizen is being relentlesly surveiled in everyday life, it is unfair for CEOs to be given fewer regulations. This will encourage corruption and further facilitate greed. The rapidly increasing inequality in the United States threatens the safety and stability of our country. The current rules seem like a common sense way to keep inequality from getting even worse. Thank you for your time and consideration.

Bill Boyle — Jun 20, 2026

Subject: S7-2026-15 : Keep the Rules In Place From: Bill Boyle Affiliation: Jun. 20, 2026 My name is Bill Boyle and I am a retired Project Manager in North Carolina who depends on my investments to live and to pay taxes.

Keep the quarterly accountability as it is. Is there a compelling reason for REDUCING accountability? If "yes" then extend that logic and eliminate the required quarterly reports that require the sign-offs in the first place. If "no", than keep the quarterly reports AND the accountability for those responsible for producing what is in those reports. It really is that simple.

Cheers,

Bill Boyle, 919 244-5581 (mobile)

Bill Calore — Jun 20, 2026
Subject: S7-2026-15 From: Bill Calore Affiliation: Jun. 20, 2026 Any publicly traded company has the responsibility to be forthright and honest with their investors. Quarterly should be maintained in order to keep investors trust and reporting somewhat current.

BILL OROURKE — Jun 20, 2026
Subject: Comment on S7-2026-15 From: BILL OROURKE Affiliation: Jun. 20, 2026 When I worked for Alcoa, Inc. under CEO Paul O'Neill (who became the 72nd Secretary of Treasury) our company learned to close the books in 3 days and report earnings the 4th day of the quarter. The closing was fully auditable, no early cut-offs, no accruals. That's the "right" direction - faster, accurate reporting. With today's accounting systems and AI developments, companies should report quicker, not slower. I would expect progressive companies to report at least monthly and soon daily. Don't allow procrastination. Insist on moving to faster, accurate reporting. 6 month reporting drives all the wrong behaviors. Go the other way.

Billy Holcombe — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Billy Holcombe Affiliation: Jun. 20, 2026 My name is Billy

Farris Holcombe Junior and proud Texan. I will be. 78 years old as of July 23 this year. I've been around long enough to see several cycles of interest rates go up and down, recessions and near depressions, and I remember hearing Truman announcing the end of the Korean war. At that time, my dad was working three days a week the company at least didn't lay them off so they could have some dignity left. He also pointed out to me at one of the Christmas parties the company held that they were talking about buying products made by foreign businesses being bad for America.. On the way out, they gave me a little tin car made in Japan. The message Company sent that day was "do I tell you to do. Don't do what I do". Over the years every time the companies get their way about this sort of thing like not reporting as often they'll try to get by with something that they shouldn't. Things change a lot in six months now. We need more accountability not less in our companies. We need leadership that is world class not "next quarter profits" oriented. Look what happened in 2008 with the real estate market. I watched millions of dollars worth of real estate get sold for pennies on the dollar because of the shenanigans pulled. Same thing with the loosening the requirements of Savings and Loans. I watched the video of the I-30 condos being burned down. Real estate swapped 3 or four times during one day ratcheting up the price each time of making loans which allowed the crooks to walk away with tens of thousands maybe hundreds of thousands of dollars in one day of trades.
The current administration wants to leave us the taxpayer holding the bag for the debts that they make, and bad decisions they make.
Too many times the crooks have time enough to cash in and flee the country or find some other refuge from being responsible. We need more accountability, not less. Having worked in large corporations, I've been witness to people N0T Being held responsible for their actions. It cost the customer for those oversights that the "good old boy system" let happen.
Quarterly reporting lets a possible remedy for a problem to be discovered in a timely fashion, before the responsible parties disappear.
Being retired and depending on income, generated from my investments requires me to keep tabs on the direction of the investments I make in a company. I and many other retired people could suffer loss of income due to this reporting change, which allow more time for the guilty people to disappear.

I'm against the increase in time between reporting. Periods. I think it would be bad for America in general.
Thank you for your time.

Billy F Holcombe Jr
proud son of a World War II veteran and a member of the greatest generation.

Billy F. Holcombe

Subject: My view on Rule S7-2026-15 From: bob villoi Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
why would you reverse the ability to catch thieves. With thousands of CEOs stealing from shareholders, you want to allow more time to hide thefts???? stop thinking about 6 month reporting. Your entity already overlooks hundreds of reverse splits. Sometimes honoring 3 and 4 reverse splits to companies obviously robbing shareholders obviously bankruptcy or sale has to happen.. Your entity gives more reverse splits to companies so they can continue to steal from new investors. Too bad you continue with that process of robbing shareholders. Please do not allow companies to hide shareholder theft for 6 monthes. AGAIN.

Boyd Bethel — Jun 20, 2026
Subject: S7-2026-15 From: Boyd Bethel Affiliation: Jun. 20, 2026 Boyd Bermel, retired investor and frequent stock trader, S.C., FL., MO. And whose suggestion is it that these changes be made? Oh of course, Donald Trump if you let him do this, your organization will have lost all credibility. His logic for this change is that it is too cumbersome for the corporations yet they've been doing it since 1970. This really doesn't put any extra burden on the corporations as they track their profits and losses, sales, stock buybacks on a day-to-day basis, so why not report quarterly results and give investors more confidence in the SEC, the corporations and their stocks? I also feel that if you go to the semi annual reporting that both stock trading and option volumes will come down significantly and have a negative impact on those institutions that provide those services. This is almost laughable in that in

the digital era, these records can be produced so efficiently on digital systems and certainly doesn't have much of an effect on the bottom line of any viable corporation. Once again, if this passes it's just another example of the government taking down safeguards and guard rails to protect the investor! I personally am appalled by this even being discussed and IT REEKS OF CORRUPTION AND CRONYISM! The SEC has already lost much credibility due to the fact that there is so much Insider trading and manipulation going on that they've overlooked! In truth, the SEC has become a joke, and this will unfortunately make the joke even more profound. DON'T DO THIS, IT'S CRIMINAL AND A FARCE!

Brad Ashbaugh — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Brad Ashbaugh Affiliation: Jun. 20, 2026 Please do not consider changing to semi-annual reporting instead of quarterly. We all need that information. Don't let us down.

Brian Hall — Jun 20, 2026
Subject: S7-2026-15 Comment From: Brian Hall Affiliation: Jun. 20, 2026 This rule is blatantly unfair, increasing the inequalities in access to information. The rich and powerful will retain their insider information access, while We the People would be limited to seeing data every six months - greatly increasing the chances to hide corporate chicanery until it's too late to act. Did we learn nothing from the Enron scandal? Our founding fathers would be ashamed of what corporate interests are doing to this country.

VOTE NO.

- Brian

Bridget Nelson — Jun 20, 2026
Subject: S7-2026-15 Comments From: Bridget Nelson Affiliation: Jun. 20, 2026 We need to be holding companies accountable, not giving them more breaks. Keep accounting quarterly to make sure businesses stay on top of things.

Brinda Chavez — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Brinda Chavez Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Putting this rule into place would be much more costly for all of us, it would be covering up the actions and cost from the retail investors and the citizen purchasing the products!! Quarterly Disclosures protect us all from hidden extra charges and keep changes from happening without our knowledge for much longer periods of time! It would give them carte blanche for more than four months without our knowledge, and ability to stop them for a much longer period of time. That turns into millions of dollars over time we lose and they gain! There would be no recovery time!

C Edmonson — Jun 20, 2026
Subject: S7-2026-15 From: C Edmonson Affiliation: Jun. 20, 2026 We need accountability, keep this rule.

C G. — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: C G. Affiliation: Jun. 20, 2026 First, this rule would leave retail investors flying blind for six months at a time.
A lot can change inside a company in half a year debt can pile up, customers can vanish, lawsuits

can emerge, and management can make risky decisions that dramatically alter a company's financial health. Quarterly reporting forces companies to reveal these developments before they spiral out of control. Without it, ordinary investors would be making decisions in the dark while insiders stay fully informed.
Second, reducing transparency has always opened the door to fraud and abuse. Every major corporate scandal in modern history, Enron, WorldCom, Tyco, Lehman Brothers grew in the shadows created by weak or delayed disclosure. When reporting windows get longer, misconduct festers. Quarterly filings don't eliminate fraud, but they shorten the time bad actors have to hide it. The SEC was created after the 1929 crash precisely because lack of timely information allowed manipulation and deception to flourish. We should not repeat the mistakes that led to those disasters.
Third, retail investors will bear the brunt of this rule. Institutional investors and insiders will always have access to private channels, analyst briefings, and industry intelligence. Regular people do not. We rely on timely, accurate, public information to make informed decisions about our savings and retirement. Eliminating quarterly reporting tilts the playing field even further toward those who already have the advantage. It widens the information gap at the exact moment when markets are becoming more complex and volatile.
Fourth, quarterly reporting has strengthened U.S. markets for decades. The United States became the global leader in capital markets because investors around the world trusted our transparency standards. Rolling back those standards risks undermining that trust. Historically, when disclosure rules weaken, capital becomes more expensive, volatility increases, and confidence erodes all of which hurt small investors first.
Finally, this proposal contradicts the SEC's core mission. The SEC exists to protect investors, maintain fair markets, and promote transparency. Allowing companies to go silent for half a year does the opposite. It reduces accountability, increases risk, and makes it harder for everyday Americans to participate safely in the markets.
For these reasons, I strongly oppose Rule S7-2026-15. Retail investors deserve more.

C Harkin — Jun 20, 2026
Subject: S7-2026-15 Comments From: C Harkin Affiliation: Jun. 20, 2026 Transparency is needed. Regular quarterly reporting provides some level of transparency and allows investors to spot trends sooner so they can make better decisions regarding their investment of their hard-earned money.

Caesar Nguyen — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Caesar Nguyen Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
I am individual investor. I have learned a great deal to self teach myself financial analysis through quarterly reporting. If we were to allow companies to publish their financials semi annually vs quarterly, it doesn't allow people like me to keep a pulse on our portfolio businesses. Issues that we would've raised could be addressed faster. This lag in information reporting drives us to find it in other unreliable ways.

This timely reporting is what I need for proper analysis and to make informed decisions. We as equity holders cannot hold every company accountable without it

Companies should continue to report quarterly so that investors (particularly) with retirement accounts can make informed decisions regarding their holdings.

Carl Newton — Jun 20, 2026
Subject: S7-2026-15 From: Carl Newton Affiliation: Jun. 20, 2026 Carl Newton, Former Business Owner now Retired..
Currently trading stock on NYSE, NASDAQ etc. '

Raleigh NC

SEC,
The requirement for Quarterly Reporting was in response to past issues the corp misrepresenting financials reports to the public and others. One instance in particular was Enron..

Another one, all tho not an american company, was NorTel. I had friends that worked their and had retirement accounts decimated due to corp malfeasance and blatant lies on financials that was reported to the public. All the while management was aware of what was going on.

The Quarterly Reporting requirements are doing a good job of keeping most of the flow in info true and accurate as there is the fear of jail time..

If this if removed or extended it will result in more issues with getting good info quickly as the markets in this day and age move very quickly as we can see by the latest SpaceX IPO..

Please keep the requirements and strengthen them as well..

Thank You for all you do at times,

Carl Newton

Carla Oddo — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Carla Oddo Affiliation: Jun. 20, 2026 My name is Carla Oddo, originally from NYC and now living in Northwest, NJ. I have worked in education and Corporate with the propensity of my time in sales compensation and compensation management positions. As stockholders we are part owners of many companies and in today's fast paced world owners deserve and need to know the details of what is going on in the companies they are funding. Cutting back financial reporting to biannually would severely inhibit investors planning and decision-making. Personally, without quarterly information I would be less likely to invest where dollars are needed more i.e., in newer companies, unproven spaces. Hesitation and pulling back investments serves no economy especially not the fast-paced on that exists today. The excuse that it takes too many resources and puts a strain on companies to compile and release results is bogus especially with the ability AI has to complie and summarize data. The SEC needs to always be on the side of investors and more data and more reporting should be its goal. The stability of the market and transparency from companies should also be the SEC goals
Quarterly data, at a minimum, should remain the standard.

Sincerely, Carla Oddo

Carlos David — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Carlos David Affiliation: Jun. 20, 2026 Quarterly reporting

is critical to transparency and proper comparison between investments. Bi-annual reporting gives bad actors too much time to hyde their wrongdoings and private investors are left holding the bag. This attempt is clear proof that our politicians want to take advantage of their constituents. Leave reporting as it is right now. You work for the American People and We The People never asked you to modify it.

Carlos

Carmen McCann — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Carmen McCann Affiliation: Jun. 20, 2026 The ENRON fiasco could have been prevented had there been safeguards in place such as a QUARTERLY signature whereby it is attested the financial health of a company is safe and sound. This policty of quarterly signatures assures the public their investments are made based on sound accountability. I retired from Social Security. As an employee I was required to observe strict rules on ethics and accountability, I considered myself a steward of the public trust. CEO's are already earning millions of dollars and building very large egg nests and retiring with over inflated retirement packages. I don't believe that asking CEO's to sign the fruit of their labor will diminish their titles or overburden their schedules. If and when a CEO or his underlings cook the books we will have another ENRON. That's unacceptable and a diservice to the American public who likes to invest their hard earned money. If we have another ENRON, the public will loose trust in the markets which is not good for a healthy economy. The small investor like me looses her money and the guilty parties walk away scott free with their egg nests intact, for punishment they receive a slap on the wrist and perhaps a token fine. We loose our liveholds.

Carol Simpson — Jun 20, 2026
Subject: S7-2026-15 From: Carol Simpson Affiliation: Jun. 20, 2026 I'm a retired attorney living in Texas. I'm appalled that the SEC would propose to reduce by half the number of times a year that a CEO must certify its company financials. The reports must be done quarterly; why shouldn't the CEO have to vouch for their authenticity? It just gives fraudsters an extra three months to hide or cover up. These quarterly earnings reports are the verification to stockbrokers, fund managers, financial advisors, and individual investors that the numbers reported can be relied upon. Why reduce the quality of financial information available?

I strongly urge the SEC to retain the quarterly reporting requirement.

Carolina Musick — Jun 20, 2026
Subject: S7-2026-15 Comments From: Carolina Musick Affiliation: Jun. 20, 2026 I'm Carolina Musick, a middle school teacher. I have to enter grades for my students a minimum of every five weeks, which, as we all know, gives them information about how they're doing and gives them time to adjust and make improvements. If grades were once a semester, there's not enough information to see the trends before an academic disaster strikes, and students lose all kinds of privileges, and worse, they are unprepared for their future in school, life, and our democracy.

Reports by the SEC—a grade of sorts—are inordinately more consequential to the financial lives of hundreds of millions of Americans. And they measure how the most powerful in our society are deciding those financial futures.

Without quarterly oversight and accountability on the part of the government and shareholders, there's history to show that powerful elite corporations will repeatedly take our hard-earned and -saved retirements and mortgages and run. With nary an executive sent to jail for it, and financial penalties on the scale of a wag of the finger, it ensures sure that, given the opportunity—and the SEC looking away for six months at a time—they'd do it again and again, gambling with Americans' financial lives, **** the collateral damage on Main Street.

Biannual reports obscure and cloud how corporations operate, and will undoubtedly lead to furthering plutocracy in America to the detriment of regular folks's economic freedom.

Keep SEC reports quarterly, keep oversight and transparency.

Carolina Musick
La Cañada, California

There is no valid reason to change reporting regulations. In this era of fast change, we need all the information we can get!!

Carolyn Purcell — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Carolyn Purcell Affiliation: Jun. 20, 2026 The timely and consistent provision of financial information is absolutely paramount for maintaining a robust and trustworthy investment environment. It is my firm conviction that the practice of quarterly reporting is not merely beneficial, but an essential cornerstone for informed decision-making and investor confidence, which should be steadfastly maintained.

The adage "knowledge is power" rings particularly true in the financial markets. Quarterly disclosures offer a vital, granular snapshot of an entity's performance, strategic execution, and overall health within a relevant timeframe. This regular cadence allows investors to meticulously track operational trends, assess risk exposures, and evaluate management's agility in navigating evolving market conditions. Reducing this frequency to a semi-annual basis would create significant informational voids, obscuring critical developments and potentially leading to delayed or suboptimal investment choices.

Such an extended reporting interval introduces a substantial lag, diminishing the relevance and utility of the data available to stakeholders. Investors require current and comprehensive insights to accurately value assets, allocate capital prudently, and manage their portfolios effectively. A move away from quarterly reporting could foster an environment of increased uncertainty and speculation, potentially eroding investor trust and making it more challenging to attract and retain capital. Therefore, upholding quarterly reporting standards is a clear demonstration of commitment to transparency, accountability, and the empowerment of all stakeholders to make well-grounded and strategic investment decisions.

Cass — Jun 20, 2026
Subject: S7-2026-15 Comment From: Cass Affiliation: Jun. 20, 2026 Quarterly reporting should be the BARE MINIMUM! Do not make it less!!

Cassandra Mertz — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Cassandra Mertz Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
I oppose Rule S7-2026-15 because reducing the frequency of required corporate disclosures would make public markets less transparent and less fair for ordinary investors.

Quarterly reporting serves an important purpose. It ensures that material information about a company's financial condition, business performance, risks, liabilities, and strategic direction is made available to the public on a regular basis. Without these disclosures, investors could go much longer without learning about significant developments that affect a company's value and prospects.

Transparency is one of the foundations of healthy capital markets. Timely reporting helps promote accountability, discourages misconduct, and allows investors to evaluate companies based on current information rather than outdated information. While quarterly reports do not eliminate fraud or corporate mismanagement, they help shorten the period during which problems can remain hidden from the public.

The lessons of the 2008 financial crisis should not be forgotten. One of the recurring themes of major financial crises and corporate scandals is that risks often build for long periods before becoming visible to investors, regulators, and the public. Although quarterly reporting is not a

guarantee against misconduct or systemic risk, reducing transparency would move markets in the wrong direction. Public companies should be required to provide timely and consistent disclosures so that investors can identify problems earlier rather than later.

History shows that when transparency is weakened, investors often pay the price. Major corporate failures such as Enron and WorldCom demonstrated how significant problems can grow while remaining hidden from shareholders until enormous damage has already occurred. More recent financial failures have likewise shown the importance of timely disclosure, accountability, and investor access to reliable information. The appropriate response to these lessons is greater transparency, not less.

This proposal would create a significant information gap for the public. In today's fast-moving economy, six months is a very long time. A company can experience substantial changes in its financial condition, debt levels, customer demand, legal exposure, executive leadership, or operational performance within a single quarter. Investors should not be expected to wait half a year to receive standardized information about developments that could materially affect their evaluation of a public company.

As an individual investor, this proposal would reduce my ability to make informed decisions based on timely, publicly available information. I rely on transparent and consistent disclosures to understand the companies that participate in our public markets and to have confidence that all investors have access to the same core information. Reducing reporting requirements would make me less confident that retail investors are competing on a fair and level playing field with larger institutions that have greater resources and access to information.

The SEC's mission includes protecting investors and maintaining fair, orderly, and efficient markets. Weakening reporting requirements moves in the opposite direction. Public companies benefit from access to public capital markets, and regular disclosure is one of the responsibilities that comes with that privilege.

For these reasons, I urge the SEC to reject Rule S7-2026-15 and preserve quarterly reporting requirements for public companies.

Cassy Burleson — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Cassy Burleson Affiliation: Jun. 20, 2026 Cassy Burleson, Professor, Baylor University and former securities fraud investigator. Because of my experience in tracking companies that were being investigated by the SEC, I know it's imperative to have quarterly reports so that red flags can be seen earlier.

Catherine Childers — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Catherine Childers Affiliation: Jun. 20, 2026 To the Securities and Exchange
Subject: Comment Opposing Proposed Rule S7-2026-15
To the Securities and Exchange Commission:
I am writing as a retail investor to express my opposition to the proposed rule [Rule Number S7-2026-15.
I believe this proposal would reduce transparency and limit the information available to individual investors. Access to timely, accurate, and complete market information is essential for retail investors to make informed investment decisions and to maintain confidence in the fairness of U.S. capital markets. At this time in history, transparency is of upmost importance.
The proposed rule appears to create circumstances in which important information may be less visible, less accessible, or more difficult for ordinary investors to obtain and evaluate. While institutional investors often have access to extensive resources and specialized analysis, retail investors depend heavily on publicly available disclosures and transparent market practices.
The SEC's mission includes protecting investors, maintaining fair and efficient markets, and facilitating capital formation. In my view, this proposal would undermine investor protection by reducing transparency and potentially increasing the informational disadvantage faced by retail investors.
I respectfully urge the Commission to withdraw, substantially revise, or reject this proposal unless it can demonstrate that investor transparency will be preserved or enhanced. Any regulatory changes should strengthen—not weaken—the ability of retail investors to access information and participate in the markets on an equal footing.
Thank you for considering my opinion.
Sincerely,

Catherine Childers

Catherine Cretu — Jun 20, 2026
Subject: S7-2026-15 From: Catherine Cretu Affiliation: Jun. 20, 2026 Public companies are financed by the public. CEOs are paid to run the company and report results to the owners. The law must hold them accountable for reporting those results accurately and truthfully. Keep the quarterly requirements.

Catherine Miller — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Catherine Miller Affiliation: Jun. 20, 2026 My name is Catherine Miller and I'm a mother and business owner just starting my financial investment journey. We must keep quarterly earnings reports. More transparency is always better. Americans are consistently fighting to gain wealth… when it comes to money, please don't allow companies to provide less information legally. That helps no one except the large companies, which are destroying humanity, and already receive more breaks than individuals. We work to eat, we work to play, we cannot NOT work. The only way out is inheritance or lucky investments. Please keep this engine alive for us to properly invest in a company. Example: If I invested in my son's business I would expect to be able to receive financials at ANY point. That should be relatively possible for Americans in the stock market. Keep quarterly earnings reports. Maybe make them MONTHLY. Why are individuals made to provide financials all the time yet big companies profiting off of us are not. It makes no sense. Plz don't allow this change.

Charles Hogan — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Charles Hogan Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Proposed rule S7-2026-15 should not be enacted. As recent events have shown, even quarterly reports can become more useful as kindling than information overnight. Switching to semiannual reporting would completely errode the public trust in our corporations and in the government agencies whose responsibility it is to provide oversight against fraud and other illegal activities.
As for the argument that this would reduce compliance costs for corporations, that is complete rubbish in this day and age of technology. The only real cost increase would be in any filing fees. Corporations keep all their financial information information in large databases that can be polled at any time. Contracts, and all the information within them, are stored in the same way and can be just as easily referenced and cited. Virtually all factual information on a company can be accessed at any time by members of the corporation with access and clearance to the information. Publishing financial reports can easily be streamlined thus eliminating any need to give corporations additional time to file those reports.
If any changes to reporting frequency need to be made, it should be to increase the frequency in which the reports are filed.

Charles Holland — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Charles Holland Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Quarterly reporting provides critical data for my investment decisions. Reducing the frequency to semi annual or annual reporting will make it difficult to see trends in a timely fashion leading to potentially large changes when the report issues. Although there is a benefit to reduced company costs related to reduced reporting, I feel this is a small figure compared to the potential impacts to the individual investor. I feel the proposal for reduced reporting is bad for investors and should not go forward.

Charles Richards — Jun 20, 2026
Subject: S7-2026-15 From: Charles Richards Affiliation: Jun. 20, 2026 I think the current manner of quarterly reporting should be kept and enforced to the max. No need in removing 2 quarterly reports unless we want to give them 6 months to run off with money.

Charles Wharton — Jun 20, 2026
Subject: S7-2026-15 Comment From: Charles Wharton Affiliation: Jun. 20, 2026 from: Charles Wharton, retired 100% disabled Veteran. Just trying to
improve my retirement savings is a battle that is tough enough without
all the corporate info one would like. Quarterly Reporting is vital for
adjusting to real life short term changes in a small investors world. If
the reporting goes to semi-annual, (doubling my information/time
window), I might as well put everything in utilities and quit trying to
help new businesses grow while improving my own situation. If your goal
is to push out small investors semi-annual ought to do it, thanks for
not protecting the little guy SEC. Ending Quarterlies is a bad idea and
decreases necessary transparency. America should be setting the standard
for the world not letting their failures dictate our policies.

Charlie Hague — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Charlie Hague Affiliation: Jun. 20, 2026 We have a right to know!!! Monthly updates need to stay!!

Charlie Holmes — Jun 20, 2026
Subject: S7-2026-15 Comment From: Charlie Holmes Affiliation: Jun. 20, 2026 I rely on quarterly information to make decisions; longer gaps create an unfair advantage for corporate insiders; "optional" doesn't fix the problem because companies that opt in are often the ones whose investors most need frequent updates; the savings to companies aren't worth the cost to me.

Chase Spieldenner — Jun 20, 2026
Subject: File No. S7-2026-15 From: Chase Spieldenner My name is Chase Spieldenner and I work in short term rental management in Key West Florida. I am 28 and a first generation college graduate from the university of Florida. I went to school of full scholarships, bought my first car, have always paid my taxes and somehow built a life for myself after coming from a broken, abusive family/upbringing. My hope for the future and will to continue on dwindles by the day. I can already barely afford to pay my monthly bills, even after cutting dates with my fiance and partner of 10 years, stopping all my personal care appointments fully, and buying as few groceries as possible. I do not know if we will be able to responsibly start a family or even have a wedding after being engaged for five years. My savings is low and I have little hope to retire. Please do not push this through, do not rob the little hope I do still have, please don’t turn your back on me. I still have hope and I’m begging you to hear me out, hear normal Americans just trying to survive, out.

Chassica Kirchhoff — Jun 20, 2026
Subject: S7-2026-15 Comment From: Chassica Kirchhoff Affiliation: Jun. 20, 2026 Alongside millions of other middle-class investors, I depend on quarterly reports to make sound decisions that impact my family's financial health and future. Amid today's rapidly shifting global landscape, transparency and timeliness are more vital than ever to ensure investors are informed, to help analysts understand market patterns, and to prevent fraud while maintaining ethical guardrails.

I wholeheartedly urge the SEC to retain quarterly reporting requirements. Semi-Annual reports are NOT sufficient to safeguard the health of our financial system!

Please stand up for American investors, rather than insider interests that aim to diminish access to financial insights.
Sincerely,
Dr. Chassica Kirchhoff, Ph.D.

Cheryl Hurst — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Cheryl Hurst Affiliation: Jun. 20, 2026 Keep it at quarterly because it will keep the companies accountable and make it easier for the companies to make accurate tax payments. It actually helps the company to increase their shareholder's confidence. The company is less likely to pay a higher tax bill.

Cheryl Johnson — Jun 20, 2026
Subject: S7-2026-15 Comment From: Cheryl Johnson Affiliation: Jun. 20, 2026 cheryl Johnson, retired, I am invested in the stock market and live on the earnings from my investments. Allowing companies to hide their books, six months out of the year, gives them room for a lot of illegal activity and manipulation that advantages the company and disadvantages the investors. There can only be one reason why they are pursuing this practice, to corrupt the process and steal all they can while no one is looking. Corporations have shown that they turn to corruption and theft, when no one is looking.

Cheryl Moralez — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Cheryl Moralez Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Investors rely on quarterly reports to ensure that their investments are safe. Semi-annual reports would delay any ability to investigate or pursue any necessary action. Instead, negative consequences would have a greater window of opportunity to defraud investors a victims would sacrifice any ability to go after bad actors. Government would be seen as enabling bad actors instead of protecting the innocents.

Cheryl Schlueter — Jun 20, 2026
Subject: S7-2026-15 Comments From: Cheryl Schlueter Affiliation: Jun. 20, 2026 No. I check my investment portfolio every single day and I will continue to check my investment portfolio every single day because I don't trust you thieves. 2008 was a **** Show and you are not ever going to do that again without me knowing about any of it.

Cheryl Spence — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Cheryl Spence Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
I'm tired - really tired - of government trying to shaft the general public - we need AT LEAST quarterly disclosures - & would prefer Monthly Disclosures - to stay on top of our investments - because we CANNOT trust our government, elected officials, or financial institutions to protect our interests at all!!! All have become corrupted & those in positions of authority especially.
We need more transparency - not less!

Cheryl Vears — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Cheryl Vears Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Do not change reporting requirements for companies. You are suppose to safeguard the processes, not make it easier for companies to hide what's going on. Frankly, if you're going to make a change pull it in to monthly rather than move it out. Real visibility. Do your job! Uphold the integrity of the markets, do not enable disception and greed. Again, Do Your Job rather than enabling billionaires and ponzi schemes. Or get a new job and leave the oversight to responsible administrators. Thank

you!

Cheryll Arkens — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Cheryll Arkens Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission: continue requiring quarterly statements. We need to know whether these companies are worth investing in! If they only want to report twice a year, they need to be completely privately owned and not publicly traded.

Chesteen L Lindberg — Jun 20, 2026
Subject: S7-2026-15 Comment From: Chesteen L Lindberg Affiliation: Jun. 20, 2026 Keep our statements quarterly! We have a right to know where our money is going. This seems like someone is keeping us in the dark if the frequency is changed .

Chris Brown — Jun 20, 2026

Subject: S7-2026-15 Comments From: Chris Brown Affiliation: Jun. 20, 2026 Moving away from quarterly reporting means; Less transparency for investors. Shareholders would have to wait twice as long to learn about major changes in a company's finances.
* Greater volatility. With less frequent official information, rumors and speculation can drive stock prices.
* Potential for insider advantages. Corporate insiders would know much more than the public for longer periods.
* Harder to spot problems early. Investors, lenders, and regulators might not recognize a deteriorating business until six months have passed. Vote NO

Christine Kludt — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Christine Kludt Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Although there may be other ways to investigate the "financial health" of companies, retail individuals rely on these quarterly audited financial reports to determine if they want to invest in those companies. This information is readily available and easy to read for investors. These reports are critical for a retail investor.
By the SEC not requiring these reports, it does appear that there might be information that companies don't want the investors to know about. It seems like a "secret" and, therefore, somewhat suspicious. It could be that the retail investor may decided NOT to invest in companies that do not publish a quarterly report.
Not a great idea -
Christine Kludt

can access corporate information (specifically the quarterly financial reports are the most easily and available financial information that individuals can rely on.

Christine Munsterman — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Christine Munsterman Affiliation: Jun. 20, 2026 To the Securities and Exchange
To whom it may concern:
Transparency is the most important aspect of handling our Nation's finances! There has been so much Grift, particularly in the Trump era. Changing the rules will only allow more opportunities to steal Americans' investments and savings. Please use integrity and good moral judgment when making decisions. America is counting on you!!
Thank you! Christine Munsterman

Christine Zito — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Christine Zito Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
This is unfair and oppresive to the average American investor and leads to even more corporate and governmental graft. Shame on you! As a soon-to-be retiree, information like this is vital.

Christopher Augerson — Jun 20, 2026
Subject: S7-2026-15 Comment From: Christopher Augerson Affiliation: Jun. 20, 2026 This is shocking. Just because you can pay for a president, who would let you sign away 'the store', does not make it conscionable to do so. Those who do are anti-American traitors, in league with Vladimir Putin, destroying the country that made them rich (along with its economic system). But retribution will come with the midterms, despite how very clever you think you are.

Christopher Ballard — Jun 20, 2026
Subject: S7-2026-15 Comments From: Christopher Ballard Affiliation: Jun. 20, 2026 Christopher Ballard here, I have a B.S. in business administration with a focus in accounting. This type of change just makes it easier for fraud to occur. By hiding the true state of a going
concern, it leaves wide open a door to insider trading and for the average person who invests to bear all the losses. If you want to lose your credibility as a trusted institution you're well on your way. When did the SEC decide to become fraudster collaborators?
This is an extremely dishonest thing to do. Perhaps ethics training is in order... I would not consider this a viable or decent thing to do, because the public gets screwed over while filthy business do fine with their insider information. Maybe try something
less underhanded and more above board...

Christopher Viseur — Jun 20, 2026
Subject: S7-2026-15 Comments From: Christopher Viseur Affiliation: Jun. 20, 2026 Christopher Viseur, CEO, director of operations Asgard Security Consultants.
This is why we have oversight and regulations! This will allow rampant abuse to wreck our economy further. If I can't see what my business is doing every quarter, then why am I supposed file taxes every quarter? How am I supposed to know how much profit vs loss vs overhead ? The laws are there for a reason. This makes a loophole to skirt the laws plain and simple.
The rich get richer and the poor get poorer. I support small businesses and communities more than

the big businesses and companies do. This will allow them to hide and run while we the small businesses suffer even more! I can't in good conscience approve this bill. A system where only the elite are profitable and us smaller companies struggle is unconstitutional! It slaps every person who starts or already owns a small business in the face and does not help us in the slightest. My vote is no! If the bill still passes, I will still adhere to reporting every quarter and start a new department to audit my company every quarter regardless of the outcome.

Cindy Bushinski — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Cindy Bushinski Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
For the regular person, understanding the markets is a challenge. Getting quarterly reports gives a

view of what has been happening and allows for possible adjustments even if it might be a little late. But to eliminate quarterly reporting will blindfold people of what is happening. This sets people up for much larger losses and create a bigger split of those who have and those who have not. If you eliminate quarterly reporting, you are telling everyone that you are not doing your job by protecting people.
Please don't give in to pressure from large companies or large money and protect the smaller investor that relies on getting reports on investments.
Thank You
Cindy Bushinski

---

colin forwood arborist — Jun 20, 2026
Subject: File No. S7-2026-15 From: colin forwood I would imagine new technology would’ve enabled us to create more reports rather than fewer so I’m puzzled what the incentive would be to reduce public access to financial reports. I would think that the SEC should demand more information be reported more often as it represents the public investor. Its this kind of bizarre shift in the market that increases distrust and a lack of investment in the broader economy by citizens such as myself.

---

colleen perez — Jun 20, 2026
Subject: S7-2026-15 Comment From: colleen perez Affiliation: Jun. 20, 2026 Quarterly reporting is necessary information for investors and should not be changed. There may be an advantage in changing the reporting for the companies selling the stocks, but it will not be an advantage for the average investor. Do not change the reporting requirements. Stand with the average investor, not the people running the show.

Colleen Perez
Fremont, Ca 94539

Colten Derks — Jun 20, 2026
Subject: S7-2026-15 Comments From: Colten Derks Affiliation: Jun. 20, 2026 I oppose any proposal to reduce public company financial reporting from quarterly to semiannual filings. Quarterly reports provide investors with timely, transparent information that helps them make informed decisions and hold management accountable. Reducing reporting frequency would decrease market transparency, increase information gaps, and potentially disadvantage individual investors relative to large institutions with greater access to private information. Public markets function best when accurate and current information is readily available to all participants. The SEC should prioritize investor protection and market transparency by maintaining quarterly reporting requirements.

Craig Woodall
Indianapolis, IN

Creighton Brown — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Creighton Brown Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
More than anything this issue is about trust. The eroding of trust in our government and our corporations can only be mitigated by having clear, accessible data that the public can access. Changing the filings might make the lives of corporate execs a lot easier but what it does to our trust will be irrevocable.

Cricket Courtney — Jun 20, 2026
Subject: S7-2026-15 Comment From: Cricket Courtney Affiliation: Jun. 20, 2026 As a long-term investor with a vested interest in my retirement savings, I feel compelled to convey the critical importance of maintaining the current quarterly financial reporting schedule. My financial security, and that of countless others, hinges on access to timely and accurate information regarding the performance and health of the companies in which we invest.

Regular financial disclosures are not merely a convenience; they are a cornerstone of transparent and efficient capital markets. Quarterly reporting provides investors with consistent insights, enabling us to make informed decisions, assess risk, and monitor the stewardship of our assets effectively. This consistent flow of information fosters greater market confidence and stability, which benefits all stakeholders.

The suggestion to shift to a semi-annual reporting cycle raises significant concerns. Such a reduction in transparency would inevitably create longer periods of information vacuum, thereby heightening the potential for market speculation and volatility. More critically, extending the reporting interval could provide increased opportunities for unethical practices, including insider trading and various forms of financial fraud. The extended time between disclosures could allow material non-public information to be exploited for personal gain, eroding trust and fairness in our financial systems.

Furthermore, in an era of advanced technology and sophisticated accounting practices, the argument that quarterly reporting places an undue burden on corporations is increasingly difficult to justify. The benefits of enhanced investor confidence, greater market liquidity, and robust corporate governance far outweigh any perceived administrative challenges.

Therefore, I strongly advocate for the continuation of mandatory quarterly financial reporting. It is an essential safeguard for individual investors, a vital mechanism for market integrity, and a fundamental principle of sound financial oversight.

Sincerely,

Carol Courtney

Cris Williams — Jun 20, 2026

Cynthia Hayes — Jun 20, 2026
Subject: S7-2026-15 Comment From: Cynthia Hayes Affiliation: Jun. 20, 2026 Dear SEC,

I am writing to express my strong opposition to the proposal of reducing reporting requirements to twice a year.

It is essential that these businesses maintain a quarterly reporting schedule. Consistent accountability is a standard requirement across professional industries, and these entities should be held to the same expectations. Reducing the frequency of reports would negatively impact oversight and transparency.

Thank you for your consideration of this matter.

Best regards,

Cynthia Hayes, Architect, Partner
PCI Design Group

Cynthia Hudson — Jun 20, 2026
Subject: File No. S7-2026-15 From: Cynthia Hudson Undermining transparency in publicly traded companies would undermine the confidence and integrity of the stock exchange. Removing the quarterly filing for companies is a requirement that shows transparency. A change to semi annual reporting would diminish the investor's ability to research companies and their fiscal soundness. This change to semi annual reporting would be akin to taking us back to the days of the 1929 crash. I strongly disagree with any change that would diminish the transparency of publicly held companies to report only semi annually to the public. In this age of AI, should we not look for greater transparency and perhaps reporting quarterly should change to monthly. As our world speeds up and information becomes more rapidly disseminated to the public, should we not demand that our publicly held companies more rapidly disseminate information? A move to semi annual reporting is a move backward for the investor. I strongly disagree that semi-annual reporting is a good change for the public interest, publicly traded companies and especially for the retail investor.

Cynthia Jones — Jun 20, 2026

Dana Ermis — Jun 20, 2026
Subject: S7-2026-15 Comments From: Dana Ermis Affiliation: Jun. 20, 2026 I am Dana Ermis. Im a single mom , I came from the country. I had a 8 year ago felony because id been on a5 year deferred charge in my recordand due everything Id been ordered to do until 1 time, in th 4 th year of my deferred sentence, got in trouble for a small possession charge and so the court revoked my 5 year deferred and made it a 5 year suspended. So I did it all over but now im a felon who completed the additional 5yrsuspended single mom i moved to Tulsa , Oklahoma. Thought sense i had a solid 10 +years career in Eufaula,Ok. As head line cook of the fastest-growing,best new restaurant in SouthEast Oklahoma, well I thought it was going to be easy for me to get a good job in th big city. Wrong! I've tried Work Oklahoma ,Goodwill Industry,I had career mentor from Creoks, whom I went and seen faithfully for 3 weeks with still working on resume templates . I know there is some kind of gov.agency that helps get people jobs but it's extremely hard to actually get to start a job and make th money. I know about Work Oklahoma in Mcintosh county and I don't remember which year end report of how many people it actually helped get jobs but it was, in my opinion,a very low number of people who actually got jobs and with th amount of th budget that was alotted for "Work Oklahoma" program. Then there 211, there's th health program which gives incentives to regular health care screenings. But, I've only heard about it once, i finally did call and you have to have said dr app then wait 2 weeks or longer (depending on wen th dr office sends th insurance claims for said appointment to DHS records division) you got to call in and report that yes i went to said preventative and suggested screenings an appointment. And if th dr.report for "said patient and recipient" of Soonercare has not been processed then you have to wait another week to 2 weeks to call back and claim th $20 t $30 prepaid card for like toiletries and such to I believe CVS pharmacies or maybe participating pharmacies. For one i don't know anyone who had heard of this program sometimes nor even th case worker who helps you fill out your renewals for EBT food .I haven't even tried to figure out why they store started asking if th ebt was food or cash purchase at th register. How do you get cash ? That's what is like to know. Because I've never heard of a governmental program that gives money alongside food assistance. I have heard of "TANF"that gives a very low subsidy fund of i wanna say 200 to survive on while going through a "resume,how to find a way to"living without gov. Assistance", many sessions on how to"kind of thing. But when you do get s job u have to agree to min. Wage for o' so long . If you land a job right away you still have to agree to min wage for several weeks if not more
How much does that program recieve in gov funds. When i left my job of 10 years in Eufaula and came to Broken Arrow I asked my caseworker in Wagoner County about TANF and she in my opinion talked like that program was in th end expensive for me to pay back and yea. I could go on more but anyways, hopefully this is useful. Thank you have a great day.

dancy mills — Jun 20, 2026
Subject: Comment on S7-2026-15 From: dancy mills Affiliation: Jun. 20, 2026 From: Dancy Mills Retired (Public Health Researcher)

Why enter into ANY ruse which proved before that it didn't work (i.e. during it's 1st extended experimentation trial of approx 15 years duration), and during which there was much corruption and failure to report truthfully?

Aside from the country's several billionaires and the many large corporations able to conceal their incomes via fewer filings (only twice annually as opposed to the fairer, standard, more "measured" quarterly reporting method), who precisely does implementing this plan aim otherwise to benefit?

I can think of NO ONE; in fact, seemingly, there stands only America's millions of regular individuals to lose, as in losing out just once again in favor of the already obscenely wealthy! So perhaps you'd

be courteous enough to explain why anyone other than the top 10% would be interested in this scheme.

What would there be for the "average" man on the street to gain, and how much more would there be for that same man to lose? The courtesy of your precise response is much appreciated.

And, while you're at it, please answer why the frequency of the filing system should NOT be left as is. Thank you. That would certainly shed a little more light on the proposed situation.

The country's status is already in the trash can, globally as well as locally. We all know who's responsible & why! So, why not contribute to its repair rather than make things yet worse still for those striving to make a go of either/both their lives &/or businesses in this formally free, still quasi-democratically-run, most super power country the world has ever known, rather than continue to add to our country's downfall & the annihilating loss of the old respect and power we used to wield? We must all remember: Non-billionaires are people too! And life is not solely about money! To call it "life," there must also be some palpable human decency! And the USA needs to show that way before it's too late (if not already, giving China the upper hand, deservedly, I might lament)! Donald Trump needs to go! Planetary living needs to improve. The world is on a fast trajectory towards its own demise, and US politics p, lus AI superintelligence will ruin us all, and we'll have asked for it and earned it, unless corporate bigwigs and politicians learn to be civilized, un-greedy and lawful people. Fat chance of THAT, right? Prove me differently, then!

Subject: Comment on S7-2026-15 From: Daniel Perkes Affiliation: Jun. 20, 2026 I am a market researcher in the energy industry in NYC. I have been investing personally for years, and rely on quarterly reporting from companies to find the best opportunities to make well thought out investment decisions and make solid returns. It is very important to me that quarterly reporting remain a requirement. Only companies that have something to hide would want to report less than quarterly. It would allow poor management and bad business performance to go unchecked for longer periods of time, significantly damaging the effectiveness of U.S. financial markets. I urge you to maintain the rules that require quarterly financial reporting.

Sincerely,
Daniel P.

Daniel Quinlan — Jun 20, 2026
Subject: S7-2026-15 From: Daniel Quinlan Affiliation: Jun. 20, 2026 Quarterly reporting is even more important today than it was when the rule was first implemented. Keep it!

Sent from my iPad

Daniel Sobczak — Jun 20, 2026
Subject: S7-2026-15 Comments From: Daniel Sobczak Affiliation: Jun. 20, 2026 I am writing to oppose the proposal that would allow public companies to move from quarterly reporting to semi-annual reporting.

I am not a financial professional, hedge fund manager, or corporate executive. I am a public school teacher. Like millions of Americans, I have a vested interest in the health and transparency of our financial markets. I contribute to a 403(b) retirement account. I maintain two 529 college savings plans for my nephews. I also own individual stocks. My future financial security depends on having access to accurate and timely information about the companies in which I invest, whether directly or through retirement and education savings accounts.

For that reason, I believe moving to semi-annual reporting would be a mistake.

At its core, this proposal is about information. Public markets function best when buyers and sellers have access to timely, reliable, and broadly available information. The less information that is available, or the longer investors must wait to receive it, the less efficient and less transparent the market becomes.

Quarterly reporting is not perfect, but it provides investors with a regular and predictable opportunity to evaluate the financial condition of public companies. Every three months, investors can review updated revenue figures, profitability, debt levels, cash reserves, and management discussions regarding the direction of the business. Those reports help investors make informed decisions based on facts rather than speculation.

Under a semi-annual reporting system, that flow of information would be reduced by half.

Supporters of the proposal argue that reducing reporting requirements would lower costs and reduce administrative burdens. While I understand the desire to eliminate unnecessary regulation, I am not convinced that the benefits outweigh the costs. Publicly traded companies already maintain accounting systems, prepare internal financial reports, communicate with boards of directors, and provide information to lenders and other stakeholders. The question is not whether companies are gathering financial information. They are. The question is whether investors should continue to receive that information on a regular basis.

I believe they should.

Markets react to information because information matters. A company can experience significant changes in a matter of months. Consumer demand can shift. Debt obligations can increase. Lawsuits can emerge. Key customers can leave. New competitors can enter the market. Economic conditions can deteriorate rapidly. Investors deserve access to updated information about those developments before six months have passed.

This is especially important for ordinary investors who do not have access to private meetings with executives, teams of analysts, or expensive research services. Large institutional investors may have additional resources available to them, but individual investors depend heavily on public disclosures. Quarterly reports help ensure that all investors have access to the same baseline information at approximately the same time.

Transparency is one of the great strengths of American financial markets. It helps build trust and confidence among investors. It encourages accountability. It allows shareholders to evaluate management performance and identify emerging concerns before they become major problems.

Reducing reporting frequency moves in the opposite direction.

I am also concerned about the cumulative effect this change could have over time. While the proposal may be presented as optional, changes in market practices often spread beyond their original scope. If a significant number of large companies begin reporting only twice per year, investor expectations may gradually adjust. Companies that continue quarterly reporting may face pressure to reduce their own disclosures in order to remain consistent with industry practices. What begins as an option for some companies could eventually become the standard for many.

That outcome would leave investors with less information and fewer opportunities to evaluate the companies they own.

As someone who spends his career teaching young people about economics, markets, and financial decision-making, I believe transparency remains one of the most important principles underlying a successful market economy. Investors should not be required to make decisions with less information when more information is readily available. If anything, modern technology has made financial reporting faster, easier, and more accessible than ever before.

The long-term success of our capital markets depends on maintaining investor confidence. Confidence is built through openness, consistency, and trust. Quarterly reporting supports those goals. Semi-annual reporting weakens them.

For investors saving for retirement, for families saving for college, and for individuals trying to make informed decisions about their financial futures, timely disclosure remains essential. The modest reduction in reporting obligations that some companies may experience does not justify the

corresponding reduction in transparency for investors.

For these reasons, I respectfully urge the Commission to reject this proposal and retain existing quarterly reporting requirements for public companies.

Thank you for your consideration.

Sincerely,

Daniel Sobczak

Darlene Griffin

Darlene Lindeman — Jun 20, 2026
Subject: S7-2026-15 Comment From: Darlene Lindeman Affiliation: Jun. 20, 2026 Do not fall for the line you're being fed on allowing companies to submit financial reports every 6 months instead of quarterly, which has been the standard for many years. This policy does not need "fixing". Insider traders already have a huge advantage over regular investors, who need quarterly financials to be able to make somewhat informed investment decisions for their families and their futures, and now they want to take away a key tool that regular investors rely on? The tiny savings for these companies is not worth the risk to regular investors, and any savings will redound to the companies,

not retail investors. Reporting every 6 months will only leave the door wide open for more fraud, scams and scandal. We've crashed the economy before. Let's not repeat the mistake once again.

Just say "No"! Keep the financial reporting quarterly!

Subject: S7-2026-15 Comment From: Darline Castellaneta Affiliation: Jun. 20, 2026 June 20, 2026

Vanessa A. Countryman, Secretary
Securities and Exchange Commission
100 F Street NE
Washington, DC 20549-1090

Re: Comment on File Nos. S7-2026-17 (Registered Offering Reform), S7-2026-18 (Enhancement of Emerging Growth Company Accommodations and Simplification of Filer Status for Reporting Companies), and S7-2026-15 (Semiannual Reporting)

Dear Secretary Countryman:

I am writing as a member of the public to express my opposition to the three related rulemaking proposals referenced above. Considered individually, each proposal carries real risk to investor protection. Considered together, as they are clearly designed to function, they represent a coordinated reduction in the frequency, depth, and reliability of information that public companies are required to disclose to the market. I urge the Commission to withdraw or substantially narrow these proposals.

1. The Cumulative Effect of These Proposals Is Greater Than Any One Rule Alone
Each release is being evaluated on its own administrative record, but their effects compound. Together, the three proposals would: (1) allow companies to report financial results twice a year instead of four times a year; (2) extend scaled, lighter-touch disclosure accommodations, currently reserved for the smallest and newest companies, to a much larger share of the public company

population; and (3) make it easier and faster for a broader set of issuers, including those newly eligible for reduced disclosure, to raise capital from the public through expanded shelf registration and preemption of state securities law review. The combined effect is a market in which more companies can raise more money, more quickly, while telling investors less, less often, with less independent state-level review of the offering. That combination deserves to be evaluated as a whole, not just rule by rule.

2. Semiannual Reporting Would Delay the Detection of Financial Problems and Fraud
Quarterly reporting is not merely an administrative formality. It is the mechanism by which deteriorating financial conditions, accounting irregularities, and management misconduct are surfaced to the market on a predictable cadence. Doubling the gap between mandatory, audited-quality disclosures from roughly three months to six months gives a company twice as long to operate before its books are subject to formal, comparable, line-item disclosure under Regulation S-X.
This matters most precisely in the cases investors most need protection from: a company under financial stress, or one engaged in accounting manipulation, has a strong incentive to delay bad news. A six-month reporting window gives that company two additional quarters in which losses, leverage, or fraud can accumulate before they must be formally disclosed. By the time the problem becomes visible in a Form 10-S, the damage to investors, employees, and counterparties may already be substantially larger than it would have been under quarterly review. I recognize the proposal preserves Form 8-K obligations for specific material events and that companies remain subject to general antifraud rules, but Form 8-K triggers are narrower than full periodic reporting, and antifraud liability is a remedy after harm occurs, not a substitute for the early detection that regular reporting provides.

3. Preempting State Securities Law Removes a Second Line of Defense, Not a Redundant One
State securities regulators have historically served as an independent check that catches problems federal review sometimes misses, particularly for smaller and newly public issuers that are precisely the companies this rulemaking package would push toward expanded shelf registration. Preempting state blue-sky review for these offerings does not eliminate redundant friction; it eliminates a separate set of eyes with separate enforcement priorities and separate institutional knowledge of local issuers. Removing that layer at the same time the Commission is expanding who qualifies for lighter federal disclosure compounds, rather than offsets, the loss of oversight.

4. Extending Scaled Disclosure to a Much Larger Share of Public Companies Weakens Transparency Exactly Where Capital Formation Is Increasing
The filer status proposal would extend smaller reporting company and emerging growth company accommodations, including scaled executive compensation disclosure and fewer years of financial statements, to a large majority of all reporting companies. At the same time, the registered offering proposal makes it easier for these same companies to raise capital through shelf registration. Investors are therefore being asked to commit more capital, more quickly, to a larger pool of companies operating under reduced disclosure standards. Disclosure accommodations designed for small, early-stage companies raising modest amounts of capital do not automatically remain appropriate once those companies are using the same expanded tools as larger, more established issuers to access public markets at scale.

5. The Risk Is Cumulative and Systemic, Not Limited to Individual Companies
I want to be precise about this concern rather than overstate it. This rulemaking package does not itself create the kind of leverage or interconnected counterparty exposure that has driven past systemic crises. But financial instability has consistently been preceded by a period in which problems were allowed to accumulate, undetected, before becoming visible all at once. Reduced reporting frequency, reduced disclosure depth, and reduced independent state review do not cause

a downturn on their own, but they remove the early warning systems that allow investors, regulators, and markets to respond to a downturn while it is still small. A market with less frequent, less detailed, and less independently reviewed disclosure is a market more likely to be surprised, and surprise is what turns ordinary corrections into disorderly ones. The Commission should not have to relearn this lesson through another crisis before restoring it as a guiding principle.

6. Requested Action
I respectfully request that the Commission:
• Withdraw or substantially narrow the semiannual reporting proposal (S7-2026-15), preserving mandatory quarterly reporting at minimum for all but the smallest non-accelerated filers;
• Decline to preempt state securities law registration and qualification requirements (S7-2026-17), or limit any preemption to offerings by issuers with an established public reporting history;
• Limit the expansion of scaled disclosure accommodations under S7-2026-18 to companies that meet meaningful size or maturity thresholds, rather than extending them to the large majority of all reporting companies; and
• Conduct and publish a combined economic analysis of all three proposals together, evaluating their cumulative effect on disclosure frequency, disclosure depth, and investor protection, rather than analyzing each in isolation.
Thank you for considering these comments.

Respectfully submitted,

Darline Castellaneta
Peoria, Arizona

Have a great day!

Warmest Regards,
Darline Castellaneta

Transparency is mandatory, we have lost so much, of our information freedom on vital sectors, please keep our security information free, and continue with normal quarterly disclosures, I use this information to help make decisions, for my portfolio.

David Harper — Jun 20, 2026
Subject: S7-2026-15 Comments From: David Harper Affiliation: Jun. 20, 2026 DW - retired military.
Allowing publicly traded companies to report financial results only every six months instead of every three months would likely create significant challenges for investors, regulators, and the overall efficiency of financial markets.
Quarterly reporting provides investors with timely information about a company's performance, financial health, and operational trends. Reducing reporting frequency to semiannual reports would leave investors with less visibility into company operations, increasing uncertainty and making it more difficult to make informed investment decisions.

Less frequent reporting could also increase market volatility. With fewer official updates, investors may rely more heavily on rumors, speculation, and incomplete information, leading to greater price swings when financial results are eventually released. Transparency is a key factor in maintaining investor confidence, and longer gaps between reports could undermine trust in public markets.

Additionally, quarterly reporting helps hold management accountable. Regular disclosure requirements encourage executives to monitor performance closely and provide stakeholders with opportunities to evaluate whether management is effectively executing its strategy. Extending reporting intervals could reduce accountability and delay the identification of emerging financial problems.

From a regulatory perspective, timely financial disclosure promotes fair and efficient markets by ensuring that all investors have access to current information. Semiannual reporting could create information gaps that advantage insiders and institutional investors with greater access to unofficial data, potentially reducing market fairness.

While some argue that less frequent reporting may allow management to focus more on long-term strategy rather than short-term earnings targets, the loss of transparency, accountability, and investor confidence would likely outweigh those benefits. For these reasons, maintaining quarterly financial reporting remains a critical component of healthy and efficient capital markets.

A wise man once said, sunlight is one of the best disinfects against corruption, so why on earth would the SEC want to keep ordinary people in the dark about the financial health of publicly traded companies? Fairness to all, integrity and simple common sense all speak against any changes in quarterly financial reporting!

David Kusar — Jun 20, 2026
Subject: S7-2026-15 Comments From: David Kusar Affiliation: Jun. 20, 2026 What sort of insanity

with this be? If anything, violations should force a company to a monthly reporting agenda. And then maybe you let them go back to quarterly. But never less frequent than
quarterly.

Yahoo Mail: Search, Organize, Conquer

David Lelinski Retired business owner — Jun 20, 2026
Subject: File No. S7-2026-15 From: David Lelinski This is insanity! Why fix something that isn't broken? Especially with a system that was tried and unsuccessful. Investors have a right to get timely news as to how the Company we are investing in is performing. I see little tangible benefit in this proposal. Besides lowering G&A costs(which should not be the objective of the SEC) the chance for negative results outweigh any benefits. Why do you want to possibly create angst in investors?

David Lindstaedt — Jun 20, 2026
Subject: S7-2026-15 From: David Lindstaedt Affiliation: Jun. 20, 2026 It should be continued! If anything the nature, extent and risk potential needs to be considered and assessed. Employees at lower level employees should be rewarded for improving or mitigating business risk

David Ulysses Peay — Jun 20, 2026
Subject: S7-2026-15 From: David Ulysses Peay Affiliation: Jun. 20, 2026 The American people count on the CEOs of our top companies to be honorable and good stewards of the money that we invested to help make those companies profitable! We must have accountability in a regular and transparent process so we can judge if we want to continue to invest in any company! Changing the quarterly requirements to only semi-annual is a disservice to investors and stockholders, as well as to our nation itself, which without the economic environment our country provides, these companies could not and would not achieve the success enjoyed right now! Do not change this requirement, or we will have to push to change the SEC leadership as soon as Democrats retake the House and the Presidency!

Dawn — Jun 20, 2026
Subject: S7-2026-15 Comment From: Dawn Affiliation: Jun. 20, 2026 I'm writing to ask the SEC to please keep corporate reporting quarterly. Going six months without a financial update is just way too long for regular investors. If companies only have to show their cards twice a year, it creates a massive information vacuum. And we all know who fills that vacuum: corporate insiders and Wall Street institutional firms who have direct lines to management. Leaving ordinary people in the dark for half a year just invites insider trading, as those with access can trade on massive, unpublicized shifts in a company's health long before the rest of us find out. If you want to protect retail investors and keep the playing field fair, please don't cut back on the quarterly reports we rely on to make smart choices.

Dawn Anzack — Jun 20, 2026
Subject: S7-2026-15 From: Dawn Anzack Affiliation: Jun. 20, 2026 My name is Dawn Anzack and I live in Redondo Beach, Ca. I've recently retired from corporate finance.

I urge the SEC to retain quarterly 10Q reporting.

Corporate America has become murkier over the years with complex asset, liability and tax implications.

Clear explanations are sometimes only available with 10Q reports which are prepared with outside accountants and signed off by the Company CFO and other officers.

Over the years we have seen the damage from bad actors who misrepresent, misreport or not even report financial information to its employees, officers, outside professional and the public.

Please keep quarterly SEC reporting as a requirement

Dawn Anzack

This sounds more like a way to cheat people who are not on the inside. Invest with no information? What kind of new grifters are you? Stop trying to cheat the American people. WE DESERVE BETTER!

Deborah Williams — Jun 20, 2026
Subject: S7-2026-15 Comment From: Deborah Williams Affiliation: Jun. 20, 2026 Do not change from quarterly reporting. I'm a senior on a fixed income with small investments. This change could hurt even more than seniors are usually hurt.

Sent from my iPhone

Deborah Wyss — Jun 20, 2026
Subject: S7-2026-15 Comment From: Deborah Wyss Affiliation: Jun. 20, 2026 Dear SEC,
I am a small time investor and average American and it is my opinion that the quarterly reporting should continue. It will help investors see the real picture in order to make decisions for future investing.
In addition, it is my opinion that more mistakes or potential for fraud can and ,most likely, will occur by delaying reporting .
In today's current climate of average citizens having little trust or confidence in the ability of agencies to oversee entities to protect "the little guy", this is an opportunity to show good faith and transparency.
I see no benefit for allowing a delay in reporting, except for entities to have more time to conceal any concerns to investors or the public.
Please do not allow the delayed reporting to go forward.
Sincerely,
Deborah Wyss
Average American

Deborah Yoder — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Deborah Yoder Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
The amount of corporate grift and pay to play encouraged by the Trump administration makes it even more critical that shareholders and the public have timely financial reporting from public corporations.

Debra Bean — Jun 20, 2026
Subject: S7-2026-15 Comments From: Debra Bean Affiliation: Jun. 20, 2026 Quarterly reporting keeps us focused on trends and that makes it easier to correct before it blows up!

Debra Myers — Jun 20, 2026
Subject: S7-2026-15 Comments From: Debra Myers Affiliation: Jun. 20, 2026 I have a small retirement fund. I'm 60. I will work the rest of my life. We should NOT move to biannual reports. Quarterly reports is the least they should do and I would suggest it should be even more often. With this fast changing world we need MORE information not less. Do not change the Quarterly filings for business to any longer term. The grift going on from the White House to big corps is killing the economy for regular people like me. Sure - take all the money - thieves and crooks - but then who will buy your product? It's so short sighted I cannot believe this is the country I grew up in.

Signed, a disgusted investor.

Debra Myers

Debra Simms — Jun 20, 2026
Subject: S7-2026-15 Comment From: Debra Simms Affiliation: Jun. 20, 2026 Debbie Simms, Office Manager
All Americans have the right to know all of the details on their lives, especially since we are the ones who pay for the rich, who don’t want us to know what they are doing. They want to strip us of everything to control us, and keep their boot on our neck and suppress us. This is the United States of America, land of the free, and home of the brave. We must stand up as a group and demand our freedom of speech, right to bear arms, own a home, and raise our children without fear. Not have every conversation recorded and live in fear. This is another way of controlling the people with this secretive way of doing things. I hope every American lets freedom ring, and to think about how the world is changing with the rich in control. They even dictate how the news is reported and how our children are being educated and manipulated. NO, NO on quarterly reporting.

Dedtra Bailey — Jun 20, 2026
Subject: S7-2026-15 Comments From: Dedtra Bailey Affiliation: Jun. 20, 2026 We need more access not less. Stop taking our tax dollars and shutting us out! These all for me, none for thee situations need to end. Why are we paying taxes to be defrauded. I'm so tired of the wealthy. Without us, you have nothing. If we workers stop working your whole house of cards comes crashing down. The people are waking up to that fact. When the majority does, all your businesses will be belly up within a month. Do right by the people who make you that money. That's we average Joe's and not the elites in case you weren't aware. However, I'm pretty sure you are since you keep trying to take opportunities away from us. People weren't meant to live in survival mode all our lives and we are angry about it and only getting angrier.

"Life is one big road with lots of signs. So when you riding through the ruts, don't complicate your mind. Flee from hate, mischief, jealousy and greed!"

Dee — Jun 20, 2026

Subject: S7-2026-15 Comments From: Dee Affiliation: Jun. 20, 2026 Stop allowing companies free rein to steal and dodge liability and taxes. We commoners are getting really fed up!

Denise Drugan — Jun 20, 2026
Subject: S7-2026-15 Comments From: Denise Drugan Affiliation: Jun. 20, 2026 Dear SEC,

We need more transparency, not less. Stop giving grifters more freedom to steal and start acting in the best interest of the majority.

We are all watching.

Denise Drugan
Sr. Systems Analyst

Denise DSant Angelo — Jun 20, 2026
Subject: S7-2026-15 Comment From: Denise DSant Angelo Affiliation: Jun. 20, 2026 The practice of quarterly reporting should remain. Making it a six month time frame, would allow entities to conceal facts the agency and the people, are entitled to know. The Trump Administration is deregulating too many oversight and mandatory regulation sources, to suit the tech billionaires, who choose to operate without regulation and safety compliance. This administration regularly operates with total disregard and arrogance of any regulation, they are dismantling Constitutional laws, for financial gain and benefit. As such, quarterly SEC reporting practices should remain in place. My name is Denise d'Sant Angelo and I am a business woman, here in the United States.

Denise Dunnahoo Bulcke — Jun 20, 2026
Subject: S7-2026-15 Comments From: Denise Dunnahoo Bulcke Affiliation: Jun. 20, 2026 If it's not broke, don't fix it. At a time in our history where they don't bother to hide corruption anymore, it would be a bad idea to let it be every 6 months. Leave it as is at 3 months.

Denise Gabbard — Jun 20, 2026
Subject: S7-2026-15 Comments From: Denise Gabbard Affiliation: Jun. 20, 2026 I'm SICK of big corporations getting the breaks. My name is D. Gabbard. I am an entrepreneur, investor and a grandma. I pay my taxes, a lot of them and I expect everyone else to do the same and be held accountable. Do the right thing for once! See you at the polls.

Denise Nunez — Jun 20, 2026
Subject: S7-2026-15 Comments From: Denise Nunez Affiliation: Jun. 20, 2026 My name is Denise and I'm an operations manager. The SEC is supposed to protect against fraud. Moving away from quarterly reporting hinder visibility, allows, bad actors to move behind the scenes for longer. It gives fraud a place to flourish.

Quarterly reporting allows investors to react. To have our finger on the pulse of how businesses are doing.

Changing that to a less frequent cadence can be extremely damaging for anyone who other than those with insider knowledge - something the SEC is supposed to guard against. The SEC supposed to be protecting us not causing us harm.

Please do not move forward with this incredibly harmful change.

Sincerely,
Denise

Desmond Maddens — Jun 20, 2026
Subject: S7-2026-15 Comments From: Desmond Maddens Affiliation: Jun. 20, 2026 We need publicly traded companies to be held to the modest standard of quarterly reporting to protect investors, common people you and me. The small investors have no leverage with these companies. It is only the public reporting requirement that forces periodic review. Periodic review helps to hold companies and their boards accountable. Periodic review draws many eyes onto the decisions these companies are making. It is the only protection we have. Desmond Maddens. Retired.

Devin Meyers — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Devin Meyers Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
I think this is not the correct direction to go as it seems that it will make it harder for investors to be treated fairly in order to have up to date and clear messaging about their investments and puts them at a severe disadvantage to adjust to current happenings in the market. This doesn't seem to be anything more than a free-for-all to reward insiders but leave regular investors holding the bag at worst circumstances, but also makes overall well informed investing harder.
Please keep the reporting schedule as it has been and encourage the fair reporting to make the market safer to be a part of.

Dewayne Evans — Jun 20, 2026

Dianne Rossi — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Dianne Rossi Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
One of the reasons the Securities and Exchange Commission was founded was to protect consumers against rampant fraud and the conditions in the nation that caused or contributed to economic crashes. Reducing the now quarterly reports to semi-annual reports blindsights investors, allowing more inside trading to occur and less oversight by the SEC and consumers. This country and now the world is already in a state of economic crisis the effects of which are devastating and unrelenting. Please remember the reasons the SEC was put in place and the laws that resulted from its development. It's for the good of the investors and the public.

Dians Filner — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Dians Filner Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Do not block financial data collection and regular diissemination to the public!
If we do not have full transparency - trustworthy information in a timely manner - we cannot make wise decisions and will be infinitely more susceptible to frauduent practices.
History has shown repeatedly how vulnerable the common citizen is when the big financiers are unrestrained by oversight and regulations. You must not play into their hands in order to please Trump and his allies, we common folk and you personally can only be hurt and those who benefit by this freedom would not bother to be thankful.
A SINCERE THANK YOU FOR YOUR ATTENTION TO THIS MATTER!
Diana Filner

Dicie Peeples — Jun 20, 2026
Subject: S7-2026-15 Comment From: Dicie Peeples Affiliation: Jun. 20, 2026 Keep it Quarterly! We as a whole deserve to know the financial of this Country, where we stand in the form of interest rates, stocks, bonds etc.. In order for us to stay on top of these categories we need clarification statistics quarterly.

Dickie Ham — Jun 20, 2026

Dilkash Ahmed — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Dilkash Ahmed Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
I am a small retail investor approaching retirement, and I strongly oppose any effort to reduce or eliminate quarterly disclosures. Timely, consistent financial reporting is essential for making informed decisions about my investments and safeguarding my financial future.

Quarterly disclosures are a basic standard of transparency and accountability. Without them, retail investors are left at a disadvantage, with fewer tools to evaluate performance, identify risks, and respond to changes. This shift would benefit insiders and large institutional players while undermining fairness in the market.
The SEC has a duty to protect investors, not limit their access to critical information. Weakening disclosure requirements would erode trust, reduce accountability, and harm those of us who depend on clear, regular updates to manage our investments responsibly.
Maintain quarterly reporting. Do not take away information that retail investors rely on.

Dina Epshteyn — Jun 20, 2026
Subject: S7-2026-15 Comment From: Dina Epshteyn Affiliation: Jun. 20, 2026 Quarterly reporting is the bare minimum and absolutely needs to stay, it's imperative for regular investors to know what they're doing, it helps democratize investing just a little bit. Filing only every six months would devastate my ability to make good financial decisions without being part of the ultra wealthy elite and I'm not ok with that. It would also give permission for more bad actors. Keeping the reporting quarterly is the least they could do, if they aren't doing monthly reporting. Let's stick with what's already there rather than making it so much worse for everyday Americans.

Dina Lawrence — Jun 20, 2026
Subject: S7-2026-15 From: Dina Lawrence Affiliation: Jun. 20, 2026 Dear SEC:

Accountability matters. Keep the Quarterly reporting requirements as they are now, so that investors (me, my family, my friends, my employer— a village in Illinois, and our pensions) are better protected from fraud.

Less frequent reporting allows more time for manipulation and attempts to recover between report periods, gives insiders more time to act on non public information, and disadvantages smaller investors to get timely information they need to assess value.

Dina Lawrence, Trustee
Village of Orland Park, Illinois
Dee.lawrence88@gmail.com

Dinah Malkin — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Dinah Malkin Affiliation: Jun. 20, 2026 Dinah Malkin
Speech and Language Pathologist
Sacramento, CA

To the Securities and Exchange Commission,
I am writing to express support for maintaining the current quarterly reporting requirement for public companies rather than moving to a biannual schedule.
Quarterly reporting gives investors more frequent access to financial information. This shortens the gap during which problems can go undetected and supports timely, informed decision-making in the market.
Quarterly reporting also improves comparability. Investors can track trends across four data points a year instead of two, which makes it easier to spot seasonal patterns, emerging risks, or shifts in performance.
More frequent disclosure supports market discipline. Companies face regular accountability to investors and analysts, which can deter the kind of financial misstatement that becomes easier to obscure over a longer reporting gap.
Reducing reporting frequency would widen the information gap between companies and the investing public. Retail investors in particular rely on public filings, since they do not have the same access to management that institutional investors often have through other channels.
I urge the Commission to retain the quarterly reporting requirement.
Sincerely,
Dinah Malkin

Dirk Bunck — Jun 20, 2026
Subject: S7-2026-15 Comment From: Dirk Bunck Affiliation: Jun. 20, 2026 We live busy lives and quarterly is a great reminder of how investments are doing. It is only right to inform investors on how well their money is doing and how much dividends they have received on a quarterly bases .

Dixie Stephens — Jun 20, 2026
Subject: S7-2026-15 From: Dixie Stephens Affiliation: Jun. 20, 2026 The current law was put in place to keep people and companies accountable. There is no reason to change this process. This is unnecessary.

Doug Beresford — Jun 20, 2026
Subject: S7-2026-15 Comment From: Doug Beresford Affiliation: Jun. 20, 2026 Name Douglas Beresford, Retired age 67. There have been so many fraud and insider trading stories in the news, you seem to want to make that easier for the very wealthy. I have no doubt this change will lead to more fraud. Small investors and retirees like myself will be the ones that will suffer the most and can afford it the least, when such Enron-style cheats occur. Please do not make this change!

Doug Crawford — Jun 20, 2026
Subject: S7-2026-15 From: Doug Crawford Affiliation: Jun. 20, 2026 Quarterly's only benefits the companies I have share ownership with. I don't really see any benefit for the small investor like me. Unless they are active investors most folks - esp. the elderly - rely on the written quarterly reports. At minimum it should be an available option.
I'm against it.

Doug Heiken — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Doug Heiken Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Transparency is essential for markets to operate efficiently.
Lack of transparency leads to market imperfection, and market manipulation.
Please do the right thing, and continue to require transprency in reporting requirements.

Doug Lane — Jun 20, 2026
Subject: S7-2026-15 Comments From: Doug Lane Affiliation: Jun. 20, 2026 Quarterly reporting should remain.

Doug Lomsdalen — Jun 20, 2026
Subject: File No. S7-2026-15 From: Doug Lomsdalen Quarterly reporting protects individual investors. Semiannual reporting doubles the information gap between insiders and ordinary shareholders. That gap is where volatility, uncertainty, and mistrust grow. The short-termism diagnosis doesn't justify this remedy. The SEC is accepting a real cost – less transparency for individual investors – for a benefit that the evidence says simply won't materialize. The companies most likely to opt out are the ones where oversight matters most. Smaller, less-covered businesses operate with less scrutiny. Reducing their reporting requirements makes them harder to monitor, not easier to own. This is the wrong direction. Reg FD moved toward a more level playing field. This

proposal moves away from it.

Doug Shy — Jun 20, 2026
Subject: S7-2026-15 From: Doug Shy Affiliation: Jun. 20, 2026 I most definitely want you to keep the quarterly reporting and signing off with prison on the line for the CEO!
Thank you,
Douglas Shy

Terri Pierce, owner of small business

Dre Carrera — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Dre Carrera Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
As a registered representative of the SEC, I have been proud to work and live by the SEC's rules and policies for most of my adult life. The integrity that it takes to effectively work in this industry is something colleagues and I have been proud to espouse; the SEC makes the rules, and those are to be respected.
How awful, then, that rhe very measure by which we have defined fair and equitable in this industry is making moves to compromise its integrity and act as if none of the standards that we take seriously in the industry, matter at all. How self-defeating, embarrassing, and shameful of the SEC to give into the very processes it has been intended to avoid. In case no one's said so, the SEC is more than a regulatory body: it is the standard-bearer for market integrity, the governing body that inspires respectful obedience rather than demand compliance by force, the guiding light by which the very levers of capitalism are moved. It is intolerable and inconceivable how this governing body could even consider abandoning its duty to every single investor on the market. It is an absolutely shameful day for the finance industry.

Drew Norris — Jun 20, 2026
Subject: S7-2026-15 Comments From: Drew Norris Affiliation: Jun. 20, 2026 Drew Norris. Delivery manager. It is very necessary to keep a somewhat level playing field. There is already too much fraud and grift taking place in the US. I have saved to be able to invest and feel like hard times are coming. I don't want what I've worked hard for to evaporate.

Drexel Hill Cyclery — Jun 20, 2026
Subject: S7-2026-15 Comments From: Drexel Hill Cyclery Affiliation: Jun. 20, 2026 My name is Kamal and I own a bike shop in south east Pennsylvania just outside of Philadelphia. Larger businesses than mine needing to file quarterly maters to me a lot. I've been studying and observing

businesses all my life in an effort to be the best business owner that I can. Access to financial records as close to when issues arise as possible in other big businesses has in no uncertain terms helped me keep my business open. It's helped me understand the flow of money better and helped me understand what I need to respond to in my own business and when. It's helped me think of options I wouldn't necessarily have been able to on my own. The biggest example of this that occurs recently is I was watching the financials of the biggest US bike brands and that was enough information to see a slow down in sales was going to come almost a year before it did. But that's only something I was able to do with 3 quarterly reports leading up to the slow decline that culminated in December 2025 being an incredibly slow winter that has caused a number of shops to close. Seeing their financial records helped me slow down my purchasing before I was accidentally entirely overstocked. If they only had to file essentially once in that same time window I don't know that it would've been possible to find the signal in the noise to know that was coming.

Dudley Diehl — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Dudley Diehl Affiliation: Jun. 20, 2026 QUARTLY REPORTING IS a MUST IN 2026. OLD WORLD SLOW SEMI ANNUAL ACCOUNTING IS ABSURD IN TODAYS INSTANT INFO ECONOMY. IF ANYTHING, BI-MONTHLY WOULD BE EVEN BETTER.

Dulce Ward — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Dulce Ward Affiliation: Jun. 20, 2026 Dulce Ward
Third-Party Risk Analyst
Chicago, IL

Stay with Quarterly reporting.

Semi annual creates an environment to entice and reward insider trading with long lead times between reporting.

Quarterly filings protect investors from corrupt companies and being defrauded as investors based on 6 month old information.

Dulio Furtado — Jun 20, 2026
Subject: S7-2026-15 From: Dulio Furtado Affiliation: Jun. 20, 2026 Yes, keep quarterly reviews and responsibility for false/erroneous reporting. The CEO should be accountable for his company's actions every day he gets paid for!!

e Rich — Jun 20, 2026
Subject: S7-2026-15 Comment From: e Rich Affiliation: Jun. 20, 2026 My name is Ebone and I'm apart of the 93 million working class citizens in the US. no fancy title, shiny degree, not a hot shot day trader making someone's salary in a day - just a person with a little more financial literacy than most who knows the importance of staying informed and investing in my future. It's fiduciary duty to inform investors quarterly. this is a direct opposition to the SE Act of 1934 to maintain FAIR and TRANSPARENT market. Transparency allows TRUST from the investors! TRUST in the corporations to stay on top of their audits and TRUST in the SEC to regulate. how will a company know where they stand if they only monitor long term goals? how will investors know if said goals are being met if theyre only reporting twice a year?? perhaps companies should look elsewhere to cut costs outside of layoffs and leaving stakeholders to "fly blind" to put more money back in their pockets.

Ms. Ebonē Rich

E Speers — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: E Speers Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
I am writing to support the continued quarterly reports for corporations.
Consumers deserve access to information about their financial investments. They receive more exemptions than the average American as it is. There needs to be more transparency.

E Turcotte — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: E Turcotte Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Please do NOT allow public companies to stop providing quarterly reporting. If they did not want to disclose their finances, they should not have gone public. It could lead to disasterous results, and

reckless 11th hour business practices. If quarterly processing is difficult, imagine how difficult yearly processing will be and how bad those reports will be!
It would not be wise to stop quarterly reporting. We depend upon the SEC to make wise decisions, and keep the financial sector above board.
Thank you for listening to and protecting the public's interests.
E Turcotte

Elaine Jenkins — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Elaine Jenkins Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission
My view on Rule S7-2026-15
This is interesting. As someone who was raised by a mom, who's family lost their money in October 1929, I am sceptical about the Stock Market. The timing of this is suspect. If the Stock Market is doing so well why would corporations not want to brag about their success?
Two thoughts.
1. Oil and other corporations are looking to hide their exorbitant profits from the public from raising the cost of a gallon of gas. This would avoid a backlash in November.
2. They know the Market is getting close to crashing and want to hide that from the public that they are withdrawing their funds and putting them somewhere else. I am reminded that several credible experts are speaking out about this possibility.
Something triggered this change and it appears that the 1% is trying to hide the truth from the public and people who are depending on the Stock Market for their family's future.

Sent from my iPhone

Eleanor Flicker — Jun 20, 2026
Subject: S7-2026-15 From: Eleanor Flicker Affiliation: Jun. 20, 2026 Dear SEC staff,

My name is Eleanor Flicker. I am a teacher, and a years-long investor in stocks, bonds, mutual funds, and ETFs.
I rely on receiving and reading the quarterly financial reports of all of the companies that I have invested in. Truth and transparency about the full financial state of corporations enable me and my financial advisors to make decisions on whether to buy, sell, how long to hold a stock for, and other decisions based on fully understanding the company's financials.

Changing the requirement of Quarterly Reporting to Semi-Annual reporting removes trust and transparency. It is unacceptable. There is no reason to do this except for nefarious reasons that will hurt investors. As the SEC you need to be on the side of the consumer, the watchdogs, and the investors - you need NOT to be enabling the next Enron. Public trust is everything.

Sincerely,

Eleanor Flicker,
Sea Cliff, NY

I do NOT support your recommendation for reports only every six months. I need to know what is going on more frequently.
LEAVE reporting at e dry 3 months!!!!!!

ELESA HAYDEN — Jun 20, 2026
Subject: Comment on S7-2026-15 From: ELESA HAYDEN Affiliation: Jun. 20, 2026 Frequent, certified disclosures help narrow the information gap. Without regular updates, institutional investors

with alternative data and expert networks have a massive advantage over ordinary retail investors. Market Efficiency & Price Discovery: Standardized filings lower the cost of equity capital by reducing uncertainty. They force companies to disclose performance metrics uniformly, which improves the accuracy of analyst forecasts.Transparency & Fraud Deterrence: Regular public scrutiny keeps management accountable. It forces executives to address material risks and liquidity problems directly in certified filings, curbing potential market manipulation. Stop catering to the wealthy that are trying to hide and manipulate the market for their own gain. Transparency is needed

Elesa.

---

Elizabeth Cogger — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Elizabeth Cogger Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Seeing quarterly disclosures is the KEY to making investments for me, my family, my students, and everybody I have ever heard talk about how they decide to invest.

For what God-forsaken reason would the SEC, whom has always done the fair thing for investors, seek to take away the visibility available to investors?
My only thought is that if this is done, myself and many other people will find better places to put thier money. This decision will only hurt the markets.

Elizabeth Donaldson — Jun 20, 2026
Subject: S7-2026-15 Comment From: Elizabeth Donaldson Affiliation: Jun. 20, 2026 Elizabeth Donaldson, teacher. In order to maintain trust, we need transparency in our financial systems.

Elizabeth Douglas — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Elizabeth Douglas Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
We have watched the markets being manipulated in Trump 2.0. Especially recently. Knowledge is power, and in this case, money.
"Regular" people investing to pay for their kids' college education, or for retirement, are entitled to know what is going on in corporations they invest in or are things king of investing in.
Monthly updates would be even better, but asking for quarterly filings is not asking too much.
We need an SEC with teeth so individuals may choose to gamble in the markets. The wealthy will

always have access to information the rest of us do not. Keeping the three month rule is the least you can do.

Elizabeth Duncan-Damiani — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Elizabeth Duncan-Damiani Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
As an individual investor, quarterly reports are informative and utilized to make timely investment decisions. Publically traded stocks should be required to publically post quarterly earnings reports.

PLEASE protect the individual investor!

Elizabeth Gabbard — Jun 20, 2026
Subject: S7-2026-15 From: Elizabeth Gabbard Affiliation: Jun. 20, 2026 It's would be too easy for corruption if someone was able to get into the finances of companies who might not stay on top of their reporting if it wasn't required to be quarterly.

Elizabeth Moore — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Elizabeth Moore Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
My view on Rule S7-2026-15
Quarterly reporting helps keep us investors abreast of what's going on to make good financial decisions for our future. Removing that reporting allows companies to take advantage of the investors, mismanageing funds and mislead public investors.
I have been investing since 1988
I read the reports and follow my earnings on a regular basis.
Transparency is the foundation of honesty and accountability.
thank you,
Elizabeth Moore

Elizabeth Schmaltz — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Elizabeth Schmaltz Affiliation: Jun. 20, 2026 To the Securities and Exchange
For everyday investors like my self, quarterly reports required by the U.S. Securities and Exchange Commission (SEC) matter because they help us understand what’s really going on with the companies we trust our money with. Getting updates every three months—not just once a year—gives us confidence that we’re not being left in the dark if problems start to develop or if a company’s direction changes. These reports make investing feel fairer and safer, because everyone has access to the same timely information and can make decisions based on facts, not guesses or rumors.

Emily Grish — Jun 20, 2026
Subject: S7-2026-15 Comment From: Emily Grish Affiliation: Jun. 20, 2026 My name is Emily Grish, I'm a realtor in Michigan. Companies absolutely should be required to have quarterly reporting. This is what holds them accountable. Yes to the shareholders, but also to the public. And for this is with investments in the stock market, we know that 6 month reporting has led to recessions in the market and it will most likely happen again if this change is made. I understand it's more work for businesses, but it's an essential part to keeping our economy thriving. And given the current instability of the market, further disruption will only wreak havoc on the daily lives of Americans.

Thank you for your time and consideration.

Sincerely,
Emily Grish

Emily Mangum — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Emily Mangum Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission: it is important to maintain the quarterly reporting rule. Otherwise corporations, end insiders are more easily able to cheat, investors and commit fraud against the public.

other countries have tried this, and it has been detrimental to corporations into the public.

Emma Helton — Jun 20, 2026
Subject: S7-2026-15 Comment From: Emma Helton Affiliation: Jun. 20, 2026 NO, Absolutely not! This leaves investors vulnerable to failure with no ability to sell if market is volatile!

Emma Taylor — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Emma Taylor Affiliation: Jun. 20, 2026 S7-2026-15 is bad for American investors. More information, more frequently, is better for the market to respond to, better for long-term and short-term investments. Please do not revert to less information on a less frequent schedule. We will all lose and we can't afford it.

Enid Klauber — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Enid Klauber Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
the proposal to increase the intervals of financial disclosure is a bad idea. one of the reasons people invest in the United States is because we have/had very tranparent reporting requirments which are verifiable. Increasing the intervals would put investors especially smaller investors but, really, everybody in a 'flying blind' position. It would also allow bad actors more time to hide their machinations, bad decisons or bad investments. Quarterly reporting has been the standard that has

worked well for a long time. It is not onerous. It should not be changed.

Eric A. Smith — Jun 20, 2026
Subject: File No. S7-2026-15 From: Eric A. Smith Individual investors need quarterly reports, as professional investors already have this information via their highly paid research staff. It's not fair to individual investors to take this information away. Don't take us back to the past in terms of publicly available information.

Eric Ashman — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Eric Ashman Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission,
Passing this rule will produce a significant disadvantage to retail investors in the following ways:
1. Less Transparency
This is the biggest concern.
Today, investors receive detailed financial updates every three months. Under a semiannual system: Investors would wait six months for official financial statements. Problems could develop and remain hidden longer. Management would have more time before providing audited financial details. Retail investors often rely heavily on public disclosures because they do not have access to management teams or expensive research services.
2. Increased Volatility
With fewer official updates:
More uncertainty builds between reports. Rumors, analyst estimates, and alternative data become more important. When results finally arrive, stock prices may move more dramatically. For example, instead of reacting to two modest quarterly surprises, a stock could experience one very large adjustment after six months of accumulated information.

3. Advantage for Institutional Investors
Large hedge funds and investment firms often have access to:
Industry contacts Alternative data Supply-chain intelligence Sophisticated modeling If official financial disclosures become less frequent:
Institutions may gain a larger information advantage. Retail investors may find it harder to evaluate company performance. This could widen the information gap between professional and individual investors.
4. Harder to Detect Deterioration
Suppose a company's business begins weakening in February.
Under quarterly reporting:
Investors might see evidence in April earnings. Under semiannual reporting:
They might not see formal financial data until August. That delay could increase losses for investors who would otherwise have reacted sooner.

Eric Cabot retired American — Jun 20, 2026
Subject: File No. S7-2026-15 From: Eric Cabot The plan to reduce the frequency of corporate reporting is intolerable. Part of the charter mission of the SEC is to protect investors, not to shield corporations from timely public scrutiny. I suggest that if any of the current members of the commission can't adhere to its mission they should honorably resign.

Eric Cunningham — Jun 20, 2026

Subject: Comment on S7-2026-15 From: Eric Nicol Affiliation: Jun. 20, 2026 The lack of visibility and corporate accountability to share holders is NOT in the best interest of the shareholder. This proposed semi annual reporting is NOT desired.

Eric Nicol
Boeing Technical Fellow

Eric Niman — Jun 20, 2026
Subject: File No. S7-2026-15 From: Eric Niman Retain 10Q reporting quarterly-individual investors deserve more transparency, not less. There is not a legitimate reason to make 10Q reporting semi annual - it only further erodes the the already tenuous faith in the stock market.

Eric Pepper — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Eric Pepper Affiliation: Jun. 20, 2026 Eric Pepper, retired, LV, NV This is about transparency. Too many companies are out of reporting compliance as it is. As investors, we need to be able to see how a company is performing so
we can make educated decisions with regards to investing. We need to be able to review Financials to make educated decisions. With limited reporting, companies could shield negative performance from the public and insiders could take this time to cash
out and leave the public holding the bag. This is imprudent and unacceptable and history has shown us that the market didnt perform well the last time companies didnt have to report. This is a bad decision for America and the markets. It breaches a trust
And it seems like protection for corporstions at the expense of Americans

Please ensure that quarterly reporting is maintained for the most transparency for investors

Thank you

Eric Pepper

EricMichael Willard — Jun 20, 2026
Subject: S7-2026-15 Comments From: EricMichael Willard Affiliation: Jun. 20, 2026 No! This simply cannot be allowed to happen. there are already so many ridiculous loopholes and workarounds to cheat the system in place, why on Gods green earth would yall make it even easier to defraud the general working-man public? they're already struggling just to get by and save a little bit for retirement along the way. this is a terrible idea. if a person didnt know better they'd only be left to logically conclude:
its almost like yall want society to collapse. Oops, did i let the cat out of the bag?
there already exists a vast chasm between the wealthy elites and John Q Public, and yall want to make it even bigger? seriously the gap between the haves and the have-nots grows larger daily and yall are trying to strip the only real protection in place for investors. im 51 years old and praying my kids will be able to retire comfortably when the time comes but yall are determined to leave the next generation unable to retire. jobs are getting shipped overseas outsourced to the lowest bidder for mere pennies on the dollar that they'd have to pay regular people if they kept their workforce in the states. not to single anybody out but look at what Tim Mynet (aka ilhan omars husband) has been doing with his fraudulent investment groups. imaginary listings like their so-called winery or their many other alleged companies. every time its the same identical pattern of overinflated business valuations, time to pay the shareholders and suddenly there are massive financial losses. so much so that the only thing he can do is start another venture capital company and repeat the cycle. the

last one was that ESt Cru group which consisted of the aforementioned fake winery and I want to say a marijuana farm too, reporters couldnt find any physical address for his offices or the winery or pot farm in question. he pulled all that fraudulent mess with the guardrails of investor protection in place, how much worse will it be once the only investor protection is stripped away? we need more accountability NOT less. you will never convince me that this is in the best interest of the public. anybody with even a basic fundamental grasp of right and wrong can see what a terrible idea this is. youd essentially be leaving the investors with ZERO protection against the rampant fraud already being carried out on a massive scale.
WE NEED MORE ACCOUNTABILITY FROM THESE GROUPS, NOT LESS.
the little guy is already swimming with sharks as it is. this move would layoff all the beaches lifeguards while simultaneously chumming the waters the investors are barely staying afloat in now. honestly i cant imagine a worse financial plan than this. my name is Eric Willard and I vote for more accountability NOT less.

Erik Ross — Jun 20, 2026
Subject: S7-2026-15 Comment From: Erik Ross Affiliation: Jun. 20, 2026 The SEC must maintain quarterly reporting to protect everyday investors from being left in the dark for six months at a time. A shift to semi-annual reporting would create a dangerous information gap, giving insiders plenty of time to quietly sell off shares before bad news—like ballooning debt or failed products—becomes public. This extended opacity also provides a longer window for accounting fraud to fester undetected. While the proposal is framed as voluntary, it would inevitably become the new normal across the market, offering only tiny cost savings for corporate executives while forcing ordinary people's retirement and college funds to bear the severe cost of diminished transparency.

Evelyn Brewer — Jun 20, 2026
Subject: S7-2026-15 From: Evelyn Brewer Affiliation: Jun. 20, 2026 Dear SEC Commissioners,

I am writing to express my strong support for maintaining quarterly reporting requirements.

Without comprehensive consumer protections, quarterly reporting is essential for public scrutiny of corporate decisions. Efficient markets rely on informed investors; reducing the frequency of public information will only increase the demand for "insider information," further disadvantaging the average investor.

Please keep the current quarterly reporting standards in place.

Respectfully,

Evelyn Brewer
138 Superior Ave, Decatur, GA 30030

Fernando Hidalgo — Jun 20, 2026
Subject: S7-2026-15 Comments From: Fernando Hidalgo Affiliation: Jun. 20, 2026 Well, obviously some unscrupulous companies are going to be taking advantage of this to defraud their investors. When the investors found out what happened, the company had more than ample time to steal all their money, get it out of the country, put it all in shell companies, and maybe even escape to a country that doesn't have extraditions (also pay some government officials to keep them fully secured). Case closed: investors lose all their money to thieves that escaped with all their money, free and clear.

Firuze Gokce — Jun 20, 2026
Subject: S7-2026-15 From: Firuze Gokce Affiliation: Jun. 20, 2026 Dear SEC,
I am writing in response to the discussion about potentially shifting from quarterly to semiannual reporting. I strongly urge the Commission to preserve quarterly reporting requirements.
Quarterly reporting is essential to maintaining transparency, accountability, and trust in U.S. capital markets. More frequent disclosures give investors timely insights into how companies are performing, allowing them to make informed decisions based on current—not outdated—information. Extending reporting intervals would create longer periods of uncertainty and reduce visibility into company operations.
From my perspective as a marketing freelancer, quarterly reporting is particularly valuable because it provides regular signals about business health, trends, and strategic direction across industries. Independent professionals and small business operators rely on these updates to understand where companies are investing and how they are adapting to market changes.
While concerns about short-term thinking are valid, reducing reporting frequency is not the right solution. Instead, the focus should be on improving the quality and context of disclosures without sacrificing transparency.
Moving to semiannual reporting risks weakening the flow of information that supports fair and efficient markets.
Name: Firuze Gokce
Job Title: Marketing Freelancer
Location: Petaluma, CA

Why this matters to me: As an independent professional, I rely on timely, transparent reporting to understand market trends, advise clients, and make informed business decisions.
Thank you for considering my comments.
Sincerely,
Firuze Gokce

Fritz Falkson — Jun 20, 2026
Subject: S7-2026-15 Comments From: Fritz Falkson Affiliation: Jun. 20, 2026 Fritz Falkson - Implimentation Consultant: SEC quarterly reporting should remain in place because frequent disclosure is one of the foundations of transparent and efficient capital markets. Quarterly reports give investors regular access to financial performance, emerging risks, and management discussion, reducing information gaps between insiders and the public. While reporting creates administrative costs, less frequent disclosure could weaken market confidence, increase volatility driven by speculation, and make it harder for shareholders to hold companies accountable in real time. Strong markets depend on timely information, and quarterly reporting helps provide it.

Frontier Yahoo Mail* — Jun 20, 2026

Gael Scott — Jun 20, 2026
Subject: S7-2026-15 From: Gael Scott Affiliation: Jun. 20, 2026 Former CEO - Fiduciary responsibility matters. It is the CEOs obligation to ensure Board Members have the financial information and education to thoroughly understand all financial documents related to a business. Quarterly reporting helps to document and verify, everyone has the same information and not too much time passes before potential infractions, inappropriate action, fiscal irresponsibility cause deep damage. I was CEO for a Board that did not prioritize compliance or reporting, in spite of receiving financial literacy education using in house documents. Fulfilling key Board requests would have made me equally liable for the outcomes. We parted ways. The fiscal reports were only required once a year pressure allowing problems to compound. Quarterly reporting helps to maintain compliance.

Gary Douglass — Jun 20, 2026
Subject: S7-2026-15 Comments From: Gary Douglass Affiliation: Jun. 20, 2026 Dear SEC - I oppose the planned revision to allow public corporations to change from quarterly to semi-annual reporting. The lack of up to date revenues and earnings would leave me as a retail investor in the dark and

allow an advantage to insiders who would know what's going on to get out and leave me holding the bag.
As an alternative it should be proposed that less but still pertinent information be supplied after the first and third quarters and a full report mid year and after the final fiscal quarter.
Any reduction in reporting will open the way to committing fraud to investors why rely on this data to make sound investments.
Compromise is possible but please don't believe that they are wanting to reduce reporting to reduce costs. That is a smokescreen to cover up other nefarious activities that shareholders need to know about. Sincerely yours
Gary L Douglass -retired

Gaylan Mathiesen — Jun 20, 2026
Subject: S7-2026-15 Comment From: Gaylan Mathiesen Affiliation: Jun. 20, 2026 The need for oversight in a capitalist nation gripped by greed and avarice should be obvious. There's a history here that starts in the 1920s stock crash. It was actually Following the 1929 stock market crash, the New York Stock Exchange that initially took the lead by requiring listed companies to publish quarterly financial disclosures and conduct independent audits. This was followed by the 1934 Securities Exchange Act, then in 1970. following post-World War II economic swings and a desire for greater corporate transparency, the SEC officially mandated the filing of unaudited quarterly reports. In the 1980s, we saw what greed can do to the average American as sharply rising interest rates, subprime loans and inflation decimated the S&L industry, as they were locked into low, long-term

fixed-rate mortgages. Subsequent government deregulation combined with bad loans and risky speculation eventually led to a massive industry collapse, followed by bailouts. Average Americans, our family included, suffered severely from what was not our fault. In the Trump era especially, we don't need less regulation, if anything, we need more!

Gaylan Mathiesen — Jun 20, 2026

Gigi Benson — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Gigi Benson Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Quarterly disclosures help individual citizens make informed decisions that impact our national & global economy. The SEC shouldn’t take vital information away from public viewing - it is a dangerous and reckless act that will only further the economic gap for those who are not millionaires.

Gigi Moyer — Jun 20, 2026
Subject: S7-2026-15 Comments From: Gigi Moyer Affiliation: Jun. 20, 2026 Gigi Moyer: I am totally against this and if it passes it is totally ALL inside influences which includes big money companies and our government who go into office with a very low net worth and come out millionaires or even billionaires. Talk about inside trading, because most of them got into office from campaign donations from a lot of these big stock market companies who expect “favors” in return (like passing laws & regulations in their favor). It’s never stated it’s just expected after their donations. I personally feel that anybody holding a governing position in any office, especially as a house representative or governor should NOT be allowed to hold any publicly traded stock, not even through a relative or friend, while serving their term. I also feel they should have to serve 20-25 years before collecting any retirement or medical benefits just like everybody else in this what was once a great nation. In fact, I feel that these publicly traded companies should be reporting every month, because the purpose of them going public is to get “Public Funding” they should do more for their investors NOT LESS. If your basically asking people for their money you should be transparent & responsible for their investment which requires more effort and work not less, because you are basically getting a free loan up front. Money is the reason not only our country but also our earth is so messed up. You need to expect more out of these companies that are literally stripping, polluting and basically destroying our country and the earth. Example: Elon Musk becomes a trillionaire the first day he went public, not really “his” money it’s investors’ money. However, every time the satellites that his company puts in space come down, because they only last like 5 years, release aluminum oxide upon disintegration which is creating a bigger hole in our atmosphere and super heating the earth. We don’t have an option B, so we sure in hell should be taking extra good care of option “A”, because you cannot breath, drink or eat MONEY!

Gins Holmes — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Gins Holmes Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Quarterly reports are vital to the well being of the consumer. We need transparency and information as accurately and up-to-date as possible.

Gisele Assile — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Gisele Assile Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Please don't allow companies to report less than quarterly. Companies have a responsibility to disclose their numbers quarterly. It is vital to company transparency and investors to receive quarterly disclosures of vital information regarding what they are doing and how their business is operating, good and bad.

Giulio Berlonghi — Jun 20, 2026
Subject: S7-2026-15 Comments From: Giulio Berlonghi Affiliation: Jun. 20, 2026 With AI it should be extremely easy to produce quarterly reports ... even more so, monthly reporting is possible and most preferable! Monthly would permit every investor, or possible investor, the ability to make a more informed decision. Require monthly 'non-audited' projections that the companies already produce and keep the quarterly reports 'AS-IS' ... more transparency is always BETTER ... and they don't need to be audited but review is CRITICAL!

Glen Corso — Jun 20, 2026
Subject: S7-2026-15 From: Glen Corso Affiliation: Jun. 20, 2026 I served as a Vice President of Investor Relations for a publicly traded company for a number of years. ---

Grace Taylor — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Grace Taylor Affiliation: Jun. 20, 2026 Please DO NOT change the policy about quarterly reporting! More Americans than ever are invested in the stock market with our retirements. Your decision is critical to all of us. We need you to look out for the little guy and not just corporations. By keeping quartile reports everyone has a better idea of how a company is doing. Without quarterly reporting it will be harder for everyone to judge how things are going. Do you have a grandparent or parent that has a fixed income? Their financial survival is all wrapped up in their savings. Don't put them at risk. I'm retired and I rely on my savings and 403b. Please don't put my financial stability at risk. The only people that win by eliminating quarterly reporting are companies. Requiring them to report quarterly is not a burden to them. It holds them accountable to themselves and their shareholders. Accountability is essential. I have to wonder. Is the proposed change because the SEC chair is getting pressure from the administration? The administration is facing an uphill battle with midterms and even Republican senators who supported the administration are at risk. Do you really want to give Democrats another thing to blame on the SEC? Do you really want the SEC's new policy to be something that aggravates voters? Do you want to be remembered as an agency and Chair that hurt people and their futures? Accountability is critical. Don't change the policy. I vote and I'm from Colorado. Sincerely, Grace Taylor

---

Grant Hom None — Jun 20, 2026
Subject: File No. S7-2026-15 From: Grant Hom Comments in Favor of Retaining Mandatory Quarterly Reporting I am writing to urge the Commission to reject the proposal to allow public companies to switch to semiannual financial reporting. The current quarterly structure is an invaluable tool for regular retail investors who are working hard to build their own piece of the American Dream. Empowering oneself through the financial markets requires accurate, up-to-date data. A six-month reporting gap is an eternity in today's fast-moving digital economy. Expecting individual investors to deploy their hard-earned savings into public companies based on financial statements that could be half a year old is completely counterproductive to investor protection. Making quarterly reports optional will only hurt smaller, self-directed investors while benefiting corporate insiders who want less scrutiny. To keep the American markets truly democratic, individual investors must have consistent, reliable, and frequent insight into the businesses they own. Please maintain the current quarterly reporting requirements.

Greta Cammarano Former VP for BNY/Mellon. — Jun 20, 2026
Subject: File No. S7-2026-15 From: Greta Cammarano I worked for BNY/Mellon completing data

and analytics for pension, endowment and trust funds. Our model started with a 3 month reporting cycle. Clients wanted more flexibility and power to make informed decisions about the market. We then moved to daily performance. If a small team can give you performance and analytic data for some of the largest companies in the world. Why would we move backward? Are there things companies do not want us to know so that their stockholders in ignore the duty they were hired? This will also impact taxes? How do I plan for things when I have no data for 6months? And that would put me squarely out of the IRS window. Please consider how this impacts the entire country. And know that this is way outside the norm and you know that. Frank Russell and BNY/Mellon, Jp Morgan Chase, Northern Trust and State Street are not the only games in town.

Gretchen Arrant — Jun 20, 2026

HB Patterson — Jun 20, 2026
Subject: S7-2026-15 Comments From: HB Patterson Affiliation: Jun. 20, 2026 Hello SEC,

As an investor, I do not want this. As a small business owner in fly fishing and outdoor recreation, it makes me question the motivation behind this introduction as much as the public land initiatives that are dismantling resource protection. Corporations should not be deciding the information small investors have access to.

The job of the government is to protect the larger publics interests not a small select group. There is no obvious benefit to this except to keep the general public in the dark longer so their investing is less informed.

Why does the US continue to introduce models that have increased fraud in other countries and doesn't benefit the larger investing population?

Please to not let this go through,
Heather Patterson

Heath Williams — Jun 20, 2026
Subject: S7-2026-15 Comment From: Heath Williams Affiliation: Jun. 20, 2026 In this day and age there should be monthly reports as technology can give instant updates. We shouldn't be making it easier for insiders to game the market. It really upset me that Warren Buffet was able to game the system with the SEC's help to not disclose a new investment for an extend period of time. Now it appears that the agency is trying to g to help insiders hide themselves.

Heath Williams

For people to know what companies are worth investing in we need the data. A lot can change in a month or two so reporting quarterly is the only option!! With the perception (or reality) of large companies and rich people get special treatment and can hide behind the rules or make up new ones, this new proposal is absolutely absurd!

Helaine Uliano — Jun 20, 2026
Subject: S7-2026-15 Comments From: Helaine Uliano Affiliation: Jun. 20, 2026 As an individual investor I study the quarterly financials of companies I am invested in as well as companies I am considering investing in. In my opinion, due to the increased automation of the financial reporting process you should
be considering monthly or perhaps even weekly financials. Expanding the time hurts the individual investor who does not have a hot line to management.

HELEN TRIBUE — Jun 20, 2026
Subject: S7-2026-15 From: HELEN TRIBUE Affiliation: Jun. 20, 2026 This is terrible. The economy is already in the toilet. The nation is being robbed and being taxed while nothing is being done for us so it would be wrong and an atrocity to allow criminals to get away with robbing the nation even more. My name is Helen and because of the economy I am currently unemployed. Jobs in Healthcare Management are being cut. I have kids and they have no future if the government

continues to allow stuff like this to happen. Where big corporations and business people in power get to screw over the consumers and then make everything else more on affordable. That's why women no longer want to have children. They have no future in this country the way it's being run and where it's headed if something like this is allowed to happen.

hope4lifex2 — Jun 20, 2026
Subject: S7-2026-15 Comment From: hope4lifex2 Affiliation: Jun. 20, 2026 As someone who worked in the business department in a plant owned by a publicly traded company, I know how fast situations change. Forecasting costs are made on many factors and a lot of volatile variables.

Sometimes the positive variables are emphasized more than the negative. Also, an unforeseen event can suddenly happen out of the blue driving up costs. Because people are not all knowing or perfect in planning and forecasting and some are less than honest, reports should be kept quarterly. We need more accountability in today's business world, not less.

Sent from my Galaxy

Howard Darnell — Jun 20, 2026
Subject: File No. S7-2026-15 From: Howard Darnell Why would you change it from quarterly? Less accountability and responsibility and a way out of being held accountable. I'm an inspector at Boeing and I have to go through all kinds of training to keep me in check, up to date and accountable. I see CEO ,s businesses leaders being less accountable for their actions. This is unacceptable.

Howard Lazoff Shop Steward, Teamsters Local 391 — Jun 20, 2026
Subject: File No. S7-2026-15 From: Howard Lazoff As an amateur investor, I rely heavily on quarterly reports when making decisions. My thought process involves analysis of the historical records and more data points generally add to the accuracy of my analysis. I ask you, please keep them quarterly. My name is Howard Lazoff and I am a blue collar laborer using my investments to afford retirement someday. Otherwise, I will have to work until I die.

IRENE MITCHELL — Jun 20, 2026
Subject: Hey, SEC: Keep it quarterly! From: IRENE MITCHELL Affiliation: Jun. 20, 2026 Irene S. Mitchell - Grandma Activist
pegasus1958@comcast.net
773-230-8159
Antioch, IL. 60002

To Whom it may concern: SEC Comment on proposed OPTIONAL filing of Quarterly Reports.

Are you kidding?? IMO we need MONTHLY disclosure of Corporate Financial information. Small Businesses and NPO's need timely information. Stocks and Monetary policy rely on Quarterly Filings. So much can be hidden from the Public who rely on various items disclosed for retirement & workers information. The Government is investing taxpayer money in many of the Corporations whose information is disclosed by the current filing requirements. The only beneficiary of less information is the corporations who may pay less to accounting & law firms that are employed to ensure timely, accurate information is disclosed. Enron, WorldCom, Bernie Madoff and now the potential for AI to become a major drain on our economy while providing very little to the general public. Major modern accounting scandals were enabled by gaps in financial disclosure, We do not need further erosion in financial information especially at such a volatile time in our history.

Transparency is required for a democratic republic to survive. Who benefits from this decision? Clearly it is not the Public.

Thank you for your consideration in this matter.

Sincerely,

Irene S. Mitchell

Iris Block — Jun 20, 2026
Subject: S7-2026-15 Comment From: Iris Block Affiliation: Jun. 20, 2026 Keep reporting the way it is. Shareholders and the media should be kept aware.

Iris Harvey — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Iris Harvey Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Quarterly financial reporting is beneficial to all investors. The more we know and the sooner we have access to information the better we can manage our investments. There is no financial savings to corporations that would outweigh the value to individual investors from transparent quarterly reporting. Do not change this timin.

Irm Valverde — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Irm Valverde Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission - what happened to Transparency! This SEC is going down in history for being not for country or it's people.

Isaac Cornell — Jun 20, 2026
Subject: S7-2026-15 Comments From: Isaac Cornell Affiliation: Jun. 20, 2026 The little guy is already at such a disadvantage, and this is just clear favoritism to certain companies looking to hide information from shareholders. A publicly traded company has a duty to share holds, and the change of this rule hinders that duty, allowing them to obscure information. It’s not got for long term company health, and it’s not good for shareholders.
Isaac Cornell, Stock holder

Isabelle Briand — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Isabelle Briand Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission: Please do not change the reporting requirement from quarterly to bi-annually. Quarterly reporting allows more informed decision-making. Don't allow companies to hide important information for investors.

Ismael rivera — Jun 20, 2026
Subject: S7-2026-15 Comments From: Ismael rivera Affiliation: Jun. 20, 2026 If this occurs we should relabel investing as gambling .

Ivy Pryor — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Ivy Pryor Affiliation: Jun. 20, 2026 Im shocked that our country is considering getting rid of quarterly reporting. Our country is already in financial crisis, and this would make it worse. I am losing faith in American government at a rapid pace. You need to have the best interest of American citizens in mind... it's clear that is no longer the priority. DO BETTER!!!!
Keep quarterly reports!

IwishtoRemain Anonymous — Jun 20, 2026
Subject: S7-2026-15 From: IwishtoRemain Anonymous Affiliation: Jun. 20, 2026 The rules are in place for a reason, to protect average working Americans. Donald Trump and his cronies are looking for a way to swindle more out of America!

J Dressler — Jun 20, 2026
Subject: S7-2026-15 From: J Dressler Affiliation: Jun. 20, 2026 You are not considering the investing public at all in this. Though most do not understand how to analyze company financials, 10Qs, annual reports, etc, the companies do and human nature will allow some company executives and accountants to cheat, lie and also just make mistakes. The less the company has to report to investors the higher the likelihood that malfeasance will occur. It’s common sense it’s human nature. So, SEC you job is prevent that from happening so you must force them to report more often not allow them the time between reports to further cook their books. For instance, the current president has how many felony convictions for cooking the books and they are a privately held organization and cheated anyway. Don’t create another Enron opportunity and reign in corporate financial malfeasance.

j s — Jun 20, 2026
Subject: S7-2026-15 Comment From: j s Affiliation: Jun. 20, 2026 I encourage the SEC to retain the quarterly reporting period in order to ensure the transparency of all companies subject to the rule. History has shown that less transparency (less frequent reporting) does not serve investors well. These quarterly reports have been provided for decades, they are a simple cost of doing business (I'm sure the corporate tax cuts helped these businesses save money elswhere) and they help to keep our financial sector safe. Small investors especially wold be harmed by less reporting as they do not have the same access to information as the large institutions. Please keep the quarterly reporting requirement to keep our economy safe.

J Scott Bell — Jun 20, 2026
Subject: S7-2026-15 Comment From: J Scott Bell Affiliation: Jun. 20, 2026 Please keep SEC filing

quarterly. Anything less promotes greater opportunity for financial fraud, insider trading and dumping of corporately owned poor performing stocks. This would be especially harmful for the average individual investors and benefit only the millionaires and well connected insiders.

If anything you should require monthly earnings reports.

Refusing to make waves is not an indicator of a life well lived. Refusing to make waves is the state that precedes drowning. - Paul Coughlin author

Jack Ranney — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Jack Ranney Affiliation: Jun. 20, 2026 First, why is this being proposed? I find it amazing that in the age of information, the government (SEC) wants to limit the amount of information investors have access to. This proposal removes an individuals ability to respond to changes in the marketplace and global economy. The only people that would have access to important company information will be those managing the companies and other insiders and this will allow them to make informed decisions that can preserve and grow their wealth while the individual investor is at risk of losing wealth. I want to have information about insider trades; evolving trends in industrial and global markets and how my investments intersect with them. I am a retiree dependent on social security and personal investments. My retirement funds are dependent on access to information that enables me to preserve and grow the value of my retirement assets. The SEC needs to explain why this would be beneficial to investors as a whole.

There are some in government that want to reduce social security benefits while company management and Washington insiders take advantage of information that they benefit from, and whom are not dependent on the social security benefits they worked hard for all their life.

If these trends continue we are going to become a caste society like in other countries. That’s not what America is about.

Jack Ranney

Jack Thomas — Jun 20, 2026
Subject: S7-2026-15 Comments From: Jack Thomas Affiliation: Jun. 20, 2026 This is totally unacceptable to the American people! The last thing the financial sector needs is less oversight. It's like giving them a blank check to steal! John Fox Retired

Jade Chongsathapornpong — Jun 20, 2026
Subject: S7-2026-15 Comment From: Jade Chongsathapornpong Affiliation: Jun. 20, 2026 I am a consultant working in manufacturing businesses across America, so I know how critical it is to have accurate and timely information to make sound business decisions and plan capital expenditures. Quarterly reporting does just that for us in retail investing; to lift the requirement for quarterly data would be, frankly, a travesty in transparency.

Thank you for your time, and I hope you can overcome self-interest and reconsider this proposal for the greater good.

Kind regards,

Jade Chongsathapornpong

Jaime Simpson — Jun 20, 2026
Subject: S7-2026-15 Comment From: Jaime Simpson Affiliation: Jun. 20, 2026 We have worked very hard for the savings we have. We don't need another major market collapse caused by corporate greed and mismanagement.

Jaime Still — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Jaime Still Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
You have messed with our money enough, and now you really want to put the screws to us!! Its not right and people will get to a point where they start saving their money in home safes because we cant trust you with our money !!!!😡 So we are headed back to the stone age and your partially at fault. If you do this, I will pull all my money out of the market and invest elsewhere!!!!

Jake Shehan Jr — Jun 20, 2026

Jamie K. — Jun 20, 2026
Subject: Public Comment: Maintain Quarterly Reporting (Form 10-Q) to Protect Investors and Market Efficiency From: Jamie K. Affiliation: Jun. 20, 2026 Dear Members of the Securities and Exchange Commission,

I am writing to express my strong opposition to any proposal that would reduce the frequency of public company financial disclosures from quarterly to semi-annually. While the stated goal may be to reduce administrative burdens or curb short-termism, historical precedent and economic reality suggest this move would harm ordinary investors and destabilize the market.

Between 1955 and 1970, when semi-annual reporting was the standard, the lack of transparency resulted in lower market returns and depressed company valuations. Reducing disclosure frequency today would have devastating consequences for retail investors for several reasons:

- Increased Risk for Retail Investors: For an ordinary investor, a six-month information vacuum dramatically increases market volatility. A return to pre-1970 standards could jeopardize the retirement security and life savings of regular citizens due to unaddressed corporate shifts.
- The "Information Gap" and Insider Advantage: Moving to semi-annual reports will not stop the demand for information; it will simply ensure that institutional insiders and hedge funds gain access through private channels. Retail investors will be left in the dark, destroying the principle of a level playing field.
- Delayed Accountability: Six months is an eternity in the modern digital economy. Under a semi-annual system, a company could experience catastrophic decline or engage in mismanagement for half a year before public investors have the data necessary to respond.

Quarterly reporting is the bedrock of the American capital markets, fostering the trust, transparency, and liquidity that make our markets world-leading. I urge the Commission to maintain the current quarterly reporting framework to protect regular investors and uphold market integrity.

Sincerely,

Jamie Kindt
Washington State

Jan Rosochacki — Jun 20, 2026
Subject: S7-2026-15 Comments From: Jan Rosochacki Affiliation: Jun. 20, 2026 Why would any sane individual want more than 3 months? To evade their business tax responsibility. This will make more need to tax the average wage earner in this country. Bad news for low to middle income families an singles.

Jan Scherrer — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Jan Scherrer Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Currently, an estimated 10% to 11.2% of large publicly traded companies engage in securities fraud each year. However, research indicates that only one-third of all corporate frauds are ever detected. When looking specifically at the source of detection, the SEC directly uncovers only about 6% of these cases. Understanding this,why would the SEC want to make fraud even more difficult to detect? The core mission of the U.S.SEC is to protect investors, maintain fair, orderly, and efficient markets, and facilitate capital formation. The only thing this rule change would accomplish is less oversight and unbridled fraud.

Jan Stuessi — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Jan Stuessi Affiliation: Jun. 20, 2026 To the Securities

Jan Titsworth — Jun 20, 2026
Subject: S7-2026-15 Comment From: Jan Titsworth Affiliation: Jun. 20, 2026 My name is Jan Titsworth, my husband and I are retired. The little we have in whats left of his GM PSP account is what we have for emergencies, and in this economy and market phase we watch our bottom line and evaluate our fund choices frequently. Please do not change our window into performances. This is our money, our future and our choice. Everyone who has investments must have must have quarterly performance insights, if not even more frequently. Why would you change our understanding?

Jan Wiley — Jun 20, 2026
Subject: S7-2026-15 From: Jan Wiley Affiliation: Jun. 20, 2026 Please don't roll back the the Quarterly reporting for CEOs. My 62 year-old husband was the manager of a Hertz car rental store when the 2008 crash occurred. They closed all the Hertz stores in our county except one and kept the brand new 25 year-old manager. He was laid-off Jauary 2009, along with all the managers and staff at the other Hertz stores. We had to moved to a less expensive area 125 miles away and start over. By the time the recession was finally hiring again, he was aged out and filed for retirement. This broke him and he went into a deep depression, finally dying from cancer. He loved working, had excellent annual evals and had planned to work way into his 70s. Please hold these CEOs accountable 4 times ayear, so this never happens again.
Jan Wiley, Retired Medical, Bakersfield, CA

Jane Andrew — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Jane Andrew Affiliation: Jun. 20, 2026 Jane Andrew, Retired, Maryland. As an aging great grandmother, facing dwindling health insurance coverage, increased taxes as well as increased daily living expenses, I can not afford to have my savings/ investments possibly reduced by companies who are not held accountable as often as they are now. A fox will raid the hen house as often as possible when the hole in the fence is widened for easier access! Do not do away with quarterly reporting!

Janet Schubert — Jun 20, 2026
Subject: S7-2026-15 Comments From: Janet Schubert Affiliation: Jun. 20, 2026 As an investor and owner of hard earned funds the SEC is legally and morally obligated to protect- the quarterly reporting must continue to ensure my ability to continue to use my assets for my livelihood and benefit. Quarterly reporting must continue. This is the only transparent route to controlling and eliminating fraud before it happens.
I am a psychologist working with children and parents to ensure a productive future for them . I have worked hard for decades to overcome the effects of semi annual reporting that devastated our savings, investments and income .
The SEC can only ensure meeting its fiduciary responsibility to me and all investors with quarterly reporting . We already know by the previous devastation of our funds and security with semi annual reporting that I stand to lose everything at the point I need my financial security most .
My financial security was destroyed previously with annual reporting hiding the theft of our funds and illegal maneuvers stealing our security and assets.
The result was personally devastating when we lost our financial assets, our home, businesses and real estate during the previous financial thefts.
The fraud and theft of our finances and assets were invisible until too late without quarterly reporting.
Quarterly reporting is the only way my financial security and assets are and can be protected from theft by unscrupulous financial advisors and investment firms . I must have transparency to continue to access and have my financial assets secured. Protect us from fraud with quarterly reporting .

It is outrageous to consider doing otherwise and represents a blatant attempt to defraud American investors again. At our most vulnerable once again unable to reviver from another such collusion .

The SEC must meet its fiduciary responsibility to the ensure the security or our financial system and protect the real dollars of investors by maintaining quarterly reporting .

Yahoo Mail: Search, Organize, Conquer

Jason Scogin — Jun 20, 2026
Subject: File No. S7-2026-15 From: Jason Scogin As an individual investor, I rely on quarterly reports to keep track of the companies that I am either already invested in or am interested in possibly investing in. Getting this information quarterly helps to bridge the gap that would grow between an individual shareholder and insiders. I am a long-term minded investor, but getting this information quarterly helps me to monitor my investment thesis and make sure these companies are performing in a way that keeps me invested for years. The level playing field created by quarterly reporting for someone like me would be gone if companies were not required to report as frequently and be monitored as closely. These companies are not being held back by being required to report 4 times a year. I believe that nothing good, for individual investors like myself, would come from companies being able to report less about how they are performing and what they are looking at in the future.

Jason West — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Jason West Affiliation: Jun. 20, 2026 Why would you make it more rigged for the elite? It's already rigged in their favor

Quarterly disclosures are important information for investors. Please don't eliminate this vital piece of information! That only blindfolds us and benefits insiders!

Jay Halfmore — Jun 20, 2026
Subject: S7-2026-15 Comments From: Jay Halfmore Affiliation: Jun. 20, 2026 The corrupt SEC wants to make sure that the average American Citizen will never rise to the corrupt ranks of their donors!!
Why are they scared?
What are they hiding?
We need MORE transparency, not LESS,
YOU BAFFOONS!!
The I.R.S. taxes us every time we get paid.
They can administer that data to be more of a monthly report, instead of just a quarterly.
As is, this is a government for the rich, by the rich, and of the rich.
The rest of us are left out.
We won't be, when we stop funding this fraudulence and corruption.
How about more insight, on insider trades?
Once they were illegal. Or should have been.
Martha Stewart went to prison.
The Trump regime got wealthy.
We, the actual American people, not foreign bots deserve better.
After all ..we pay for it.
How does one get wealthy without our money? They don't.
Maybe we really need to implement a national strike plan.
I will help.

Jay McLellan — Jun 20, 2026

Give the consumer ti protect their investments

Jeanne Joers — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Jeanne Joers Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
You're only catering to the rich by changing the quarterly reports to six month reports. Can you possibly stay FAIR? Every time you do something like this, the gap between the HAVES and the HAVE NOTS grows exponentially.
Americans get further and further from realizing THE American Dream and our government is who is pushing it.

Jeanne Olson — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Jeanne Olson Affiliation: Jun. 20, 2026 I am Jeanne Olson,

Santa Barbara, CA. As less and less pensions exist for those saving and investing for the future, we need visibility into the companies in which we invest. This is especially true as those nearing retirement age are hearing of a potential/probable cut to social security payments in a few years. Those of us responsible enough to save, plan, and invest rely on meaningful, frequent information. Especially now with data frequently at the fingertips, it is not overly burdensome for companies to disclose financials as often as monthly. More insight is preferable to less insight.

JEB I — Jun 20, 2026
Subject: S7-2026-15 Comment From: JEB I Affiliation: Jun. 20, 2026 This would reduce confidence in the market and financial institutions, especially for retail investors. Elliminating quarterly reporting will reduce market transparency by depriving investors of timely, material information that would result in less informed decision-making and market volatility. Not to mention that it would make it more difficult for the SEC to detect insider trading, fraud, and financial misconduct that adversly impact stock prices.

Jeb Sturmer — Jun 20, 2026
Subject: File No. S7-2026-15 From: Jeb Sturmer This is a HORRIBLE idea and in no way benefits investors! I have been waiting investing for 40 years and this just terrible.

Jedidias Juarez — Jun 20, 2026
Subject: S7-2026-15 Comments From: Jedidias Juarez Affiliation: Jun. 20, 2026 To Whom It May Concern,

I am writing to submit a formal comment in response to S7-2026-15.

My name is Ezra, and I am an electrical engineer. Accountability is not an abstraction in this profession; it is a legal and ethical obligation, since engineering decisions carry the capacity to cause real harm when due care is not exercised. This responsibility is foundational to the practice of engineering, and it is precisely this principle that the bill under consideration threatens to undermine.

As written, this bill would permit companies to knowingly endanger thousands of individuals for the financial benefit of a select few. History offers a clear and repeated lesson on this point: corporations, when given the latitude to prioritize profit over public welfare, have consistently done so. Opting out of accountability should never be available to entities whose institutional incentives reward profit above all else.

This moment carries real weight. It may be remembered the way Citizens United v. FEC is remembered: a decision that treated corporations as entities entitled to outsized influence over the democratic process, opening the door for concentrated interests to dominate public policy at the expense of ordinary citizens. Alternatively, it may be remembered as a moment when that trajectory was interrupted, a moment when the people of this country were treated as the priority rather than an afterthought. The choice belongs to those with the authority to make it, and the consequences will belong to everyone else.

Respectfully submitted,
Ezra J.

Jeff Bacon — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Jeff Bacon Affiliation: Jun. 20, 2026 Please reconsider this change as it will fundamentally affect the way investors look at the market. Investing must maintain trust at the highest level and this proposal is the antithesis of trust-building. As the oversight for our investment opportunities, you must do everything in your power to make sure the companies we invest in are safe and secure and being managed for long-term success.

Jeff Comcast — Jun 20, 2026
Subject: S7-2026-15 Comments From: Jeff Comcast Affiliation: Jun. 20, 2026
I spent my entire career in financial services. How does S7-2026-15 align with the SEC's mission to protect investors and maintain fair and efficient markets? How is less information for investors better? Why would going from 3 month reporting to 6 months meaningfully change CEO compensation structures and board strategic outlook? The answer is it doesn't, it's not and it won't. Dress it up however you like, but S7-2026-15 only benefits insiders, not investors. S7-2026-15 should not move forward.

Jeff Regula — Jun 20, 2026
Subject: S7-2026-15 Comment From: Jeff Regula Affiliation: Jun. 20, 2026 Why would you reduce reporting requirements? Just say no. Jeff Regula, private investor.

Jeff Santos — Jun 20, 2026
Subject: S7-2026-15 Comments From: Jeff Santos Affiliation: Jun. 20, 2026 Switching from quarterly to biannual earnings reports removes transparency from investing and disproportionately affects retail investors like myself who have no access to insider information and rely heavily on quarterly reports to make informed investment decisions. The decision to switch to biannual reports seems like a blatant attempt at hampering retail investors while making it easier for insiders to manipulate the market.
- Jeffrey, age 33, teacher

Jeff Segall — Jun 20, 2026
Subject: S7-2026-15 From: Jeff Segall Affiliation: Jun. 20, 2026 Keep SEC honest in spite of themselves. Corruption and undeserved forgiveness is running wild from the top down. It has to stop. Vote NO on weakening this regulation.

Jeff Stock none — Jun 20, 2026
Subject: File No. S7-2026-15 From: Jeff Stock I use the information received quarterly to make my investment decisions. There is no reason a company can not continue to produce the necessary reports on a quarterly bases. I believe less information on a timely manner will be disruptive and would also allow companies to withhold good or bad information from the public that would be used to make investment decisions. Keep the quarterly reporting for all public companies!

Jeff West — Jun 20, 2026
Subject: S7-2026-15 From: Jeff West Affiliation: Jun. 20, 2026 These CEOs should have to sign off MONTHLY. I lost a job in PA over Enron. And other jobs in the same circumstances. Criminals steal then lie. That's how they become CEOs.

Jeffie Herter — Jun 20, 2026
Subject: S7-2026-15 Comment From: Jeffie Herter Affiliation: Jun. 20, 2026 I am retired but still rely on monthly or quarterly reports to make my investment decisions. Anything otherwise is bogus. Leave it alone!

Jeffrey Blum — Jun 20, 2026
Subject: S7-2026-15 Comment From: Jeffrey Blum Affiliation: Jun. 20, 2026 Dear SEC members,

It’s wrong to change the reporting rules. Quarterly reporting helps everyone make better investment decisions, not just the wealthy. It gives you insight into a business and that leads to a better statement of how a particular business is changing to keep up with the current and possible future state of the economy.

Jeffrey Blum

Jeffrey Whetstine — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Jeffrey Whetstine Affiliation: Jun. 20, 2026 Dear SEC, I'm a small investor and small business owner from Greensboro NC. This proposed change is ill conceived and shortsighted. Generally I oppose government interference in business but a single person doesn't have the resources to investigate and monitor the performance of individual companies. We need the government to ensure and enforce transparency and accountability.

My trust in corporations is at an all time low. Quarterly reporting holds the leadership of companies responsible to "come clean"about the health, challenges and status of the business with regularity.

This is a terrible idea and please leave the currrnt system as is, reporting quarterly If any change is needed the reporting should be monthly .
Leave well enough alone please!
Thank you, Jeff Wimer

JEhome — Jun 20, 2026
Subject: S7-2026-15 From: JEhome Affiliation: Jun. 20, 2026 We need to continue quarterly reporting of the financial health of companies. People need this information to be able to determine which companies they want to invest in or work for.

Those who have invested, need to know the details of the company's health to determine if and when to sell their shares.

We need to keep transparency in order to future disasters like Enron. While companies may complain about the requirement effort and cost, the benefits to the public and the country at large, outweigh the impact of quarterly reporting.

Please consider this when reviewing S7-2026-15.

Thank you,

Joseph Elser

jennelle perry — Jun 20, 2026
Subject: S7-2026-15 Comments From: jennelle perry Affiliation: Jun. 20, 2026 Jennelle Perry Supervisor, it helps to keep our company's honest. We the people have a right to know. This way they can have only 1 set of books. Transparency for All.

Jennifer Amyx — Jun 20, 2026
Subject: S7-2026-15 Comment From: Jennifer Amyx Affiliation: Jun. 20, 2026 Jennifer Amyx, Asst Professor of Political Science. Quarterly reporting is essential for small amount investors like me. It makes no sense to lengthen the window of opacity into a company’s financial status. Investors lose and companies win when reporting is not quarterly. This is wrong and could lead to a decline in smaller investors in the markets. The increased risk borne by investors is unfair and unwise. It will lead to bigger shifts, when they happen.

Jennifer Arqueros — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Jennifer Arqueros Affiliation: Jun. 20, 2026 Quarterly reporting is beneficial for clear understanding of what’s happening in the US and employment, but also in other ways too. Child Support offices rely on quarterly reports. Businesses already take their sweet time getting their reports in on time, giving them more leeway is not the answer.

Jennifer Garbarino — Jun 20, 2026
Subject: File No. S7-2026-15 From: Jennifer Garbarino My husband has recently retired and I am coming up on retirement. We've worked hard and saved for this. We rely on quarterly reports to make decisions about our retirement savings. Eliminating half the reporting requirements (and let's be honest very few companies, if any at all, will do quarterly reports optionally) significantly impacts our ability to make timely decisions. At our ages, we don't have decades for our portfolio to recover from volatility caused by large gaps in reporting time. We need this agility. We urge you to reject this proposed rule.

Jennifer Gross — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Jennifer Gross Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Do not allow private companies to hide vital information for 6 months (proposed Rule S7-2026-15). Reporting need to remain as a quarterly plan for check an balances and allow people (me) consumer/investors the opportunity to make changes to protecty investment and retirement. Making any change to extend the reporting time to every 6 months is unacceptable and harmful to the public. Company transparency needs to be held to a high standard. More transparency means leass fraud. The current quarterly reports provides builds trust in a company and its investors. 6 months allows a longer time to pass before concerns can be addressed and losses incurred. I rely on the current quarterly reporting system and oppose any change to extending reporting time on public companies. Retail investors like myself would take the hardest hit if this proposal is adopted. Flying blind on my investments for 6 months is unacceptable! Protect the people that vote you into office. DO NOT support proposed Rule S7-2026-15. Vote NO!
Sincerely,
Jennifer P Gross

Jennifer King — Jun 20, 2026
Subject: File No. S7-2026-15 From: Jennifer King While I understand that this ruling is intended to ease some of the burden of reporting for affected businesses and corporations, I believe that given the current market swings, it is vital for ALL investors be able to timely monitor their investments. In this age of rampant fraud and abuse, financial transparency is even more important and this bill would be detrimental to that.

Jim Proce — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Jim Proce Affiliation: Jun. 20, 2026 This initiative is going backwards. If anything more reporting would yield more results. What gets measured gets done. I am a 45 year public official of local government and the organizations I have led as a city manager prospered and continually approved simply by being transparent with other people’s money. Corporations should do the same, especially when many of them can be directly responsible for market crashes like 2008. The absurdity on such a move diminishes their accountability.

James Proce, ICMA-CM
Former ICMA Credentialed City Manager
CEO - Proce Municipal Advisors
Dallas TX

Poulsbo WA

Jim Wagner — Jun 20, 2026
Subject: S7-2026-15 Comment From: Jim Wagner Affiliation: Jun. 20, 2026 To Whom it may concern.

I'm completely against the semi-annual reporting proposition. I believe that companies should remain reporting quarterly so that the average investor can have more information.

Although I can understand the theory of lessening businesses requirements so that they can worry less about reporting and focus more on business sales and growth, I do not believe this is overall the best approach. Too much time can go between reporting and the average investor will be kept in the dark. More information is better than less information in my opinion. Please do not allow this change in the reporting requirements.

Sincerely,

Jim Wagner

Jimmy R. Coolidge Retired Small Business Owner — Jun 20, 2026
Subject: File No. S7-2026-15 From: Jimmy R. Coolidge As an independent individual investor, I consistently use the quarterly and annual reports provided by companies to the SEC in my research to determine the quality and effectiveness of a company's management and production teams. Risk management is a very important part of knowledgeable and successful investing. The quarterly report is the one tool that improves one's ability to manage risk across all industries and companies. Without the quarterly report, the small individual investor will have much less, and I might add, much less dependable, information on which to base their investment decisions. I do agree with one thing that was mentioned in the press release - companies should not have to report or disclose immaterial information (non-financial), but quarterly financial and operational information is very material to the individual investor. In fact, it is crucial to their ability to evaluate the company and its management. With the speed and amount of information being generated by the advanced digital technology, it is imperative that the amount of information provided by companies to their investors is not reduced. Because it is to the company's own advantage to know how well its business and management are performing, companies are already recording and internally reporting data on a monthly, weekly, and even daily basis. I noticed that it was stated in the footnotes that the proposal does not affect the frequency or timing of a company's earnings call and earnings release. I believe this proposal will reduce the number of earnings releases and earnings calls, thereby further reducing the information available to the individual investor.

Jo — Jun 20, 2026
Subject: S7-2026-15 Comment From: Jo Affiliation: Jun. 20, 2026 Any business should keep records of everything and be able to produce a report with little notice, any time of the year. Quarterly is traditional, and there is no reason to give them more time. Either they are run like a business and keeping track of their financials, or they aren't and should not be given any consideration.

Joellyn Clark
Income Tax Preparer

Joanna Gallant — Jun 20, 2026
Subject: S7-2026-15 From: Joanna Gallant Affiliation: Jun. 20, 2026 Four times a year, the CEO and CFO must each put their name to the company's books, certifying they've reviewed the report and that it contains no untrue statement of a material fact. Knowingly certify a false one: up to $1 million and 10 years in federal prison. Do it willfully: up to $5 million and 20 years.

The proposal cuts those certified filings from four to two. Half as many moments when anyone at the top must stake their freedom on the truth.

Do not make this change.

Sent from my iPad

Joanna Gallant — Jun 20, 2026
Subject: S7-2026-15 From: Joanna Gallant Affiliation: Jun. 20, 2026 Sarbanes-Oxley became law on July 30, 2002. Six days later, HealthSouth's CFO tried to quit rather than certify numbers he knew were fake: "he just couldn't sign the certifications." Months later he went to federal prosecutors and became the first of fifteen executives to plead guilty in a $2.7 billion fraud.

A certification costs an honest executive nothing to sign, it just exposes the fraudsters. Why roll them back? Unless you're trying to ENABLE dishonesty…

Sent from my iPad

Joanna Gallant — Jun 20, 2026
Subject: S7-2026-15 From: Joanna Gallant Affiliation: Jun. 20, 2026 The SEC says current reports and press releases will fill the gap.

But the fine print says earnings releases ride on Form 8-K as "furnished," not "filed."

That category exempts them from the automatic liability filed reports carry. No outside auditor reviews them, and no certification is required even when an 8-K contains financial statements.

The SEC's own proposal concedes the problem. The 8-K may contain information, but it lacks any accountability.

Keep companies and CEOs accountable to their shareholders!

Joanne Irwin — Jun 20, 2026
Subject: S7-2026-15 Comments From: Joanne Irwin Affiliation: Jun. 20, 2026 My name is Joanne Irwin. I'm a retired citizen but still very much dependent upon our economy for my income and well-being. Changing from quarterly to a semi annual reporting status is not a good idea for so many reasons but primarily because people are always trying to play the game, cheat the other guy, & make the big bucks without any consideration for how it affects someone else. And in this day and age Fraud, embezzlement & other forms of cheating are way too commonly accepted. We don't need to put it into our playbook. We need to stay at quarterly reporting to keep us honest in spite of ourselves. Human nature is always looking for the easier, faster way, but not necessarily a better way. We must keep these checks and balances in our lives.

Jocelyn Goranson — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Jocelyn Goranson Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Subject: My view on Rule S7-2026-15
This ruling will blind investors. Periodic reporting on a company's status is essential for informed decision-making about initial and continued investment . Quarterly reporting is not onerous for a company. The financial information is available to them, and their analysis, which is ongoing in any good company, helps potential investors decide if it is a good choice.

This rule is more likely to free companies to engage in marginal financial practice and shoddy bookkeeping as the requirements for revealing financial information are weakened,.
Large investment firms have resources to dig out the information they need, but individual investors such as myself rely on publicly mandated information for investment decisions.
I respectfully request that you do not enact this rule.

Jocey — Jun 20, 2026
Subject: S7-2026-15 Comments From: Jocey Affiliation: Jun. 20, 2026 Please stop this change. We already have too much secrecy in the world today. The private sector is what keeps wall street going. This would make people uneasy in investing. Don't make wall street into a casino.
I am a retired senior that is dependent on social security and my investments. Don't remove my ability to live.
Thank you.

John Deichmann — Jun 20, 2026
Subject: S7-2026-15 From: John Deichmann Affiliation: Jun. 20, 2026 Why would you consider shortening these reports to twice a year? I want someone in charge who knows what's going on and this requirement keeps them invested in their welfare as well as mine. Let's not forget why and how we got to this point in the first place. So an exec. misses a golf outing or a lunch - fine. And if these guys are using a lawyer or accountant to summarize and a mistake is made both the lawyer/ accountant and the exec should be held liable.
Curious - how many investigations regarding this law have been performed and have there been any convictions? A law on the books is only good if it is enforced.
Executives making the money they make should be required to work as stewards for their employees, environment, and customers. The current law barely holds their feet to these principles.
Keep the Quarterly report.
John Deichmann, Agronomist, Illinois/Missouri. Concerned citizen and active voter.

John DeWitt — Jun 20, 2026
Subject: S7-2026-15 Comments From: John DeWitt Affiliation: Jun. 20, 2026 John DeWitt, retired semiconductor exec, Quarterly reporting keeps the investor informed and enables critical decision making during retirement. Eliminating quarterly reporting will blind many and severely impact those following & investing in cyclical industries.

John DeWitt

John Grimanis

John Guenther — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: John Guenther Affiliation: Jun. 20, 2026 At the risk of aiding and abetting the SEC will be joining in a conspiracy to conciele potentially criminal behavior. The charge of the SEC is to protect the public from unscrupulous behavior.

John Gwinner — Jun 20, 2026
Subject: S7-2026-15 From: John Gwinner Affiliation: Jun. 20, 2026 I've met too many sociopath CEO's. Please don't rid of the quarterly reporting rule. There's no real downside except catching cheaters

== John ==

John H. Price The Motley Fool community — Jun 20, 2026
Subject: File No. S7-2026-15 From: John H. Price Reducing quarterly reporting to semi-annual is not in the best interest of the stock holders. That is like putting blinders on a horse. It removes valuable information from those who need it. I am a stock holders, not a lender. I own part of each company and have a right/responsibility to know the condition of the company.

John Haakenson — Jun 20, 2026
Subject: S7-2026-15 From: John Haakenson Affiliation: Jun. 20, 2026 Quarterly financial reporting is an absolute minimum for investors and professional lenders in order to make sound decisions. The alleged cost savings to comps would be insignificant, a round off error in financial reporting. I'm retired now but was a lender for a large US bank. 10Q and 10k reports were vital along with the other SEC documents. This reduced reporting will promote fraud, increase lender and investor risk and will likely create more uncertainty in public markets. A very bad idea.

Sent from my iPhone

John Haigney — Jun 20, 2026
Subject: S7-2026-15 Comment From: John Haigney Affiliation: Jun. 20, 2026 By relaxing this requirement you are opening the door to falsely reporting P&L. These numbers can be restated later at the expense of the retail investors. This can threaten the retirement of millions of hard-working Americans. Based on current technology, a quarterly statement of earnings, assets and liabilities is not an economic hardship for any large cap or mid cap company. There is literally no valid argument for relaxing this requirement. Please maintain the quarterly reporting requirement.

JONI Fuller — Jun 20, 2026
Subject: Comment on S7-2026-15 From: JONI Fuller Affiliation: Jun. 20, 2026 To the SEC:
Your argument for changing quarterly reporting to optional semi annual reporting has already proven to be ineffective. I worked many years before retiring, and like anyone, I want to see the companies I have invested in to remain transparent and vigilant in reporting their financial results. If allowed to only report semi annually, this opens the already proven track record of failure seen from the 1950s to the 1970s. A lot can happen in six months time that can change the trajectory of a companies fluency. The public has a right to know if a company is about to go under while trying to make decisions on what to invest in for retirement. The savings companies are getting is not enough to offset the potential damage to the public. Please do not make this change and keep transparency alive.

Joni Martin — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Joni Martin Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:

I think we have all learned over the past 15 years how little our government and regulators have been able to oversee themselves with any level of ethics. Please don't take away the only transparency we have. We need to increase transparency so that we know what people are doing. The average person/investor already is handicapped by the amount of information that the government officials and insiders share with each other. Please don't make it more difficult. I appreciate your attention to this matter.

Joni Obrecht — Jun 20, 2026
Subject: File No. S7-2026-15 From: Joni Obrecht Stop it, just stop it. This path will destroy our country and our financial security. I am recently retired, and worked as a professional clinical counselor for many years. I live in Ohio. After working my whole life, I am concerned, terrified and angry that my future is not secure.

Jonnie Damman — Jun 20, 2026
Subject: S7-2026-15 Comments From: Jonnie Damman Affiliation: Jun. 20, 2026 Sandy Smith -- Retired
Keep the reporting at every 3 months. The system has already been set up and proven. If only the ' Elite' are afforded the ability to see the growth or decline of investments, how does this compare with insider trading? Let the masses know so their personal investment decisions can be made in more 'real time' decisions.

Jordan Frey — Jun 20, 2026
Subject: S7-2026-15 Comment From: Jordan Frey Affiliation: Jun. 20, 2026 Quarterly reporting provides data at a vital timeline to retail investors who don't have access to sophisticated the same sources of information that professional/institutional investors do.
Semi-annual reports will make progress and problems much harder to track at a time that companies change more rapidly than ever due to AI

Yahoo Mail: Search, Organize, Conquer

José Ramalho Policy Analyst, OECD — Jun 20, 2026
Subject: File No. S7-2026-15 From: José Ramalho I am writing to oppose the proposal to allow public companies to replace quarterly reporting with semiannual reporting. Quarterly reporting is one of the most important protections available to individual investors. It gives ordinary shareholders regular, standardised, and comparable information about the companies they own. Moving from quarterly to semiannual reporting would double the period during which investors must operate with less mandatory information. That longer gap is not neutral. It is precisely where uncertainty, volatility, speculation, and mistrust grow. This change would also widen the information gap between insiders, institutional investors, and individual shareholders. Large institutions have access to management meetings, analyst networks, alternative data, expert calls, and other tools that most retail investors do not have. Individual investors rely heavily on public filings. Reducing the frequency of those filings would not eliminate information from the market; it would simply make reliable information less available to the people who need the public disclosure system most. The short-termism argument does not justify this remedy. The problem may be real in some contexts, but the proposed solution is not supported by the evidence. Research by the CFA Institute Research Foundation on the UK market, which examined the move to and away from mandatory quarterly reporting, found no material impact on corporate investment behaviour. In other words, reducing reporting frequency imposes a clear cost on investors — less transparency — without delivering the claimed benefit of more long-term corporate decision-making. The companies most likely to stop quarterly reporting are also the companies where regular disclosure matters most. Large, well-covered companies may continue to report frequently because investors expect it. Smaller and less-covered companies are more likely to take advantage of reduced disclosure requirements. But these are exactly the companies where public filings play the largest role in investor monitoring, price discovery, and market confidence. Making those companies harder to follow does not make them easier to own. This proposal also moves in the wrong direction relative to the broader purpose of the federal securities laws. Regulation FD and the mandatory disclosure framework were designed to reduce selective disclosure and create a more level playing field. Semiannual reporting would move away from that principle. It would make public markets less transparent, less comparable, and less accessible for individual investors. The Commission should also ask a basic question: what problem is this proposal actually solving? Public companies have continued to grow, attract capital, and create value while filing quarterly reports. If the Commission is concerned about unnecessary reporting burden, it should consider targeted reforms: simplifying duplicative requirements, reducing boilerplate, or discouraging excessive quarterly earnings guidance. But cutting the mandatory reporting cadence in half is too blunt an instrument. It weakens investor protection without a convincing evidence-based justification. For these reasons, I urge the Commission not to adopt the proposal and to preserve mandatory quarterly reporting for public companies.

Joseph — Jun 20, 2026

Subject: S7-2026-15 Comment From: Joseph Affiliation: Jun. 20, 2026 I am Joseph Escue, retired software developer from TN Department of Health. We need quarterly reporting so companies can not hide financial facts needed to protect, preserve, and manage retirement investments. If financial data is six months old we are dangerously behind the facts and could disastrously devalue our investments. Some of us could possibly loose everything. Please keep reporting quarterly!

I know this administration is all about engaging and allowing the waste, fraud, and abuse that they claim to be trying to eliminate.
But this will only allow it to fester.
If you believe in accountability AT ALL you will kill this scheme before it starts.
We can see what you're actually trying to do.

Josh Nielsen — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Josh Nielsen Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
JWN - I do not agree with this, and if it goes through I have no reason to continue to hold a single stock, as there is no way to any longer keep track of my investments in a reasonably meaningful timeline. I would also instruct the others that look to me for guidance on their portfolios look to other securities to heavily invest in verses the stock market.

Lack of quarterly reporting will cause disinvestment across companies as investors can't KNOW what their money is doing anymore but twice a year, and if we are talking every 6 months then given another three months and a entire human could be born in that amount of time.....how is it acceptable to allow my investment to simply not allow me to know what they are doing during all this time, good, bad, win or lose, I deserve to know and within a reasonable timeline what my money is accomplishing, or not. THAT IS NOT EVERY SIX MONTHS! Id rather know monthly, not every three, or maybe six, your going in the entirely wrong direction and im wondering what the purpose of the SEC even is at this rate?!?!?

Joshua Barnick — Jun 20, 2026
Subject: S7-2026-15 Comments From: Joshua Barnick Affiliation: Jun. 20, 2026 I oppose efforts to reduce or limit quarterly reporting requirements for public companies. Quarterly reports provide investors with timely access to important financial and operational information, helping maintain market transparency and accountability. Less frequent reporting would increase information gaps between companies and investors and could make it more difficult for individual investors to make informed decisions.
While reporting requirements should be efficient and focused on material information, the solution is to improve reporting processes rather than reduce the frequency of disclosures. Regular reporting promotes investor confidence and supports fair, orderly, and efficient markets.
Josh Barnick

Individual investor.
This issue matters to me because I rely on periodic company disclosures to evaluate investments

and monitor the performance of companies in which I invest. Timely access to information helps ensure that all investors, not just large institutions, can make informed decisions.

joshua lochner — Jun 20, 2026
Subject: S7-2026-15 Comments From: joshua lochner Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission,

In regards to S7-2026-15, I disagree with the change and want quarterly reporting to stay.

As an investor, I require an accurate assessment of the businesses in which I invest, both for myself and for the fund managers working on my behalf.

Quarterly reporting is essential for evaluating whether a company's plans are sound and on track. Furthermore, maintaining portfolio stability by preventing significant valuation corrections strengthens my confidence in the stock market over other investment opportunities.

I believe it is the responsibility of the SEC to ensure this transparency and oversight.

Best regards,

Joshua L.

Judy M Jones — Jun 20, 2026
Subject: S7-2026-15 From: Judy M Jones Affiliation: Jun. 20, 2026 I wish to express significant concerns regarding any potential shift away from the current standard of quarterly financial reporting. My apprehension stems from the belief that reducing the frequency of detailed financial disclosures could inadvertently foster an environment of decreased scrutiny and accountability within corporate leadership.

Such a change might lead to a perception that operational challenges or unfavorable performance indicators can remain unaddressed or undisclosed for longer periods. This reduced cadence of rigorous financial review could delay the identification and rectification of critical issues, potentially allowing problems to escalate significantly before public disclosure. History has repeatedly demonstrated the severe consequences that can arise from a lack of timely and transparent corporate oversight, undermining market confidence and leading to substantial financial and reputational damage.

Maintaining quarterly reporting is not merely a procedural requirement; it serves as a vital mechanism for ensuring continuous transparency, reinforcing robust corporate governance, and upholding investor trust. It acts as a consistent reminder to executive leadership of their profound responsibility to accurately represent the financial health and operational integrity of the organization. The legal and ethical obligations associated with certifying these reports are paramount, carrying stringent repercussions for any deliberate misrepresentation or fraudulent activity.

Therefore, I strongly advocate for the preservation of quarterly reporting. This consistent and detailed oversight is essential for promoting sound decision-making, safeguarding stakeholder interests, and upholding the highest standards of corporate accountability.

Judy M Jones — Jun 20, 2026
Subject: S7-2026-15 From: Judy M Jones Affiliation: Jun. 20, 2026 wish to express significant concerns regarding any potential shift away from the current standard of quarterly financial reporting. My apprehension stems from the belief that reducing the frequency of detailed financial disclosures could inadvertently foster an environment of decreased scrutiny and accountability within corporate leadership. Such a change might lead to a perception that operational challenges or unfavorable performance indicators can remain unaddressed or undisclosed for longer periods. This reduced cadence of rigorous financial review could delay the identification and rectification of critical issues, potentially allowing problems to escalate significantly before public disclosure. History has repeatedly demonstrated the severe consequences that can arise from a lack of timely and transparent corporate oversight, undermining market confidence and leading to substantial financial and reputational damage. Maintaining quarterly reporting is not merely a procedural requirement; it serves as a vital mechanism for ensuring continuous transparency, reinforcing robust corporate governance, and upholding investor trust. It acts as a consistent reminder to executive leadership of their profound responsibility to accurately represent the financial health and operational integrity of the organization. The legal and ethical obligations associated with certifying these reports are paramount, carrying stringent repercussions for any deliberate misrepresentation or fraudulent activity. Julie Cornett — Jun 20, 2026
Subject: S7-2026-15 Comments From: Julie Cornett Affiliation: Jun. 20, 2026 Julie Cornett retired federal employee. I have money invested across several funds that rely on current reporting. I am against changing the quarterly reporting for small investors while large investors continue getting inside information. The reporting timing must remain the same for all investors. The wealthy already benefit from tax loopholes that I will never be able to use. If the SEC makes yet another change that favors the wealthy over the regular small investors you will lose credibility and prove once again that only wealthy investors matter. As a small investor I have trusted that the SEC is fair and transparent. A change like this brings confidence in the SEC very low. Do not make these changes that will destroy citizen's abilities to invest wisely.

Julie Finger — Jun 20, 2026
Subject: S7-2026-15 Comments From: Julie Finger Affiliation: Jun. 20, 2026 We are sick and tired of corruption, in all aspects of our lives. Justine Byun Speech-Language Pathologist — Jun 20, 2026
Subject: File No. S7-2026-15 From: Justine Byun I am a retail investor. Not having recent access for recent data about a company, including those related to ROE, price-earning ratio, dividend data, and other statistics related to its stock value is a terrible idea. We need that information, including who from within the company has been recently selling/buying stock, to make decisions. Even stock market advisors, whom I've worked with in the past, need this information to share and consider with their clients. Changing the rule to have companies report their earning etc. only 2 times a year would also hide potential insider trading. This potential new rule is a loss for anyone involved in ethical decision-making and really hurts smaller investors.

Subject: S7-2026-15 Comment From: Karen Randall Affiliation: Jun. 20, 2026 We have to keep companies reporting quarterly. I am retired, married, and a lot of our retirement is invested which we try to manage intelligently. Don’t put us at a disadvantage.

Karen Rhodes — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Karen Rhodes Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Do not allow companies to go to bi-annual reporting. This is the stupidest idea ive heard in quite a while. This will only fuel insider trading amd allow companies to hide important information. I trade in the market. Being able to see quarterly statements is imperative for me to make decisions anout my investments. Do not do this.

Karen Rista — Jun 20, 2026
Subject: S7-2026-15 Comments From: Karen Rista Affiliation: Jun. 20, 2026 Bad for those wanting to invest!
Investing blindly is not the way to boost the economy!

This is an opportunity to open other secretive loopholes for companies to not report things they don't want to!
It is simply wrong!

Karen Rudiger — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Karen Rudiger Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission: Most Americans have spent their lifetimes working to feed their families, to pay their fair share of local, state, and federal taxes. What they have managed to invest is theirs to spend or to leave to their children. They have put their trust in various investment firms that rely on the current rules which were designed to PROTECT their clients. Those who have benefited from generational wealth or have achieved it by their own efforts should NOT be making decisions with such dire consequences for other Americans. Do NOT change the cirrent reporting rules.

Karen Runnels — Jun 20, 2026
Subject: S7-2026-15 Comment From: Karen Runnels Affiliation: Jun. 20, 2026 It’s tyrannical to end quarterly reporting for the common people while only the wealthy insiders continue being able to access the financial records. I am strongly opposed to ending quarterly reporting for all but lawyers, brokers & financial industry players.

Regards,
Karen Runnels

Karen Thurman — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Karen Thurman Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission
Allowing public companies to hide vital information will definitely hurt the small investor. You should be protecting them. The big insiders don't need protection. Protect the millions of small investors by eliminating insider trading. This is still America.
.

Kari Moeller thomas — Jun 20, 2026
Subject: S7-2026-15 Comment From: Kari Moeller thomas Affiliation: Jun. 20, 2026 Kari Moeller, Nurse Practitioner
Stop the corrupt nonsense. The is a bad idea and unfair to average investors !

Karimah Knowlea — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Karimah Knowlea Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
as someone with life savings invested mostly in the stock market, I am opposed to this proposed reporting rule change. It will not increase transparency and will not be good for the public markets in the long term.

Karin Cornell Tax Analyst and Owner, FabTax USA — Jun 20, 2026
Subject: File No. S7-2026-15 From: Karin Cornell Quarterly reporting has served individuals and financial industry professionals well for generations. Changing the public reporting periods would have a relatively small financial impact to companies, but decreased transparency could cause great harm to investors. I cannot support this proposed measure.

Karin Peterson — Jun 20, 2026
Subject: S7-2026-15 Comments From: Karin Peterson Affiliation: Jun. 20, 2026 I am a retired executive and not in favor of moving to a six month filing of public company financials. First, public companies are maintaining monthly financials so the data is easily available. Second, today’s economy is so volatile that a lot can happen in three months and investors should have visibility to any changes or trends that arise. I believe the SEC should continue to require quarterly reporting for public companies and simplify the process if the issue is the time it takes to submit information.

Karin Peterson

Karl Miglin — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Karl Miglin Affiliation: Jun. 20, 2026 Let’s keep it like it is. Why move backward and cost people money? Stay the same.

Sent from my iPhone

Karl Tatgenhorst — Jun 20, 2026
Subject: S7-2026-15 Comment From: Karl Tatgenhorst Affiliation: Jun. 20, 2026 Cutting back on the reporting requirements is literally easing up on fiduciary accountability. The fact that this is being discussed is shameful.

Karl Tatgenhorst
Data Engineer

Karla Stine — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Karla Stine Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Quarterly reporting is an undeniable necessity-- corporations owe it to the public!

Karol Chapman — Jun 20, 2026
Subject: S7-2026-15 Comment From: Karol Chapman Affiliation: Jun. 20, 2026 Companies would still have to figure income for tax purposes at least quarterly so there really isn’t a big work savings for them. Eliminating quarterly reporting only makes them less accountable to their shareholders. Please retain quarterly reporting.

Karol Chapman

Kate Albrecht — Jun 20, 2026
Subject: S7-2026-15 From: Kate Albrecht Affiliation: Jun. 20, 2026 We sign things to verify that we say this is true.
CEOs MUST verify that their financial statements are true, AT LEAST quarterly.

Kate Fitzsimmons — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Kate Fitzsimmons Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
I oppose the idea of reducing fiscal transparency through a change in reporting, from quarterly to semi annual reporting, for publicly held companies. Investors need financial information to make informed decisions. Reducing transparency to twice a year, rather than the current 4 times a year handicaps anyone, except the insiders, from making decisions based on all the pertinent information available. This move is a terrible idea and should NOT be approved.

Kate Jewell — Jun 20, 2026
Subject: S7-2026-15 Comment From: Kate Jewell Affiliation: Jun. 20, 2026 Refusing to be transparent, creates an untrustworthy atmosphere… Not good for the SEC and the American public. Quarterly reporting is necessary to create and keep integrity and honesty.

Dr. Kate Jewell

Katherine Southworth — Jun 20, 2026
Subject: S7-2026-15 Comments From: Katherine Southworth Affiliation: Jun. 20, 2026 Please, please don't do this! Hard working Americans are suffering financially, and there are so many working yet living in their cars, homeless and they have hungry kids. There is so much corruption and so many not paying their fair share of federal tax, so please, please have mercy on regular Americans doing hard jobs, whether it be waiting tables, retail, nursing assistants, trash collectors…. .We desperately need a fair shot at life, liberty and the pursuit of happiness. There wealthy have it made, and use our highways, bridges, waterways and this country has made them rich beyond their wildest dreams. If I were wealthy, I would not mind paying my fair share of taxes because I know it is the right thing to do for the country that gave me the opportunity to be financially comfortable. Please keep the playing field fair for us. We desperately need to trust our government and big business to be able to love our country again.
Thank you for reading this and please give it some serious thought, as we are all losing any hope for this country's integrity to be restored.

Subject: Comment on S7-2026-15 From: kathleen mcdonald Affiliation: Jun. 20, 2026 Corporate America has already beat citizens up with theft,corruption, extortion, stock manipulation and greed. American citizens are being eaten alive. We need quarterly reports.

Yahoo Mail: Search, Organize, Conquer

Kathleen Moran — Jun 20, 2026
Subject: File No. S7-2026-15 From: Kathleen Moran The benefits of quarterly reporting outweigh the modest cost savings. A shift to semiannual could harm transparency, fairness, and market confidence as it deprives markets of timely, material information and undermines informed decision-making. As an investor, I prefer that the SEC keep the quarterly mandate. A change to semiannual will deprive markets of timely, material information and undermine informed decision-making and will only potentially benefit insider traders.

Kathleen Mullen — Jun 20, 2026
Subject: S7-2026-15 Comment From: Kathleen Mullen Affiliation: Jun. 20, 2026 The reporting needs to remain quarterly so that adjustments can be made in a timely fashion. Six months is too long a period without this critical information.

Thank you for your consideration.

Kathleen Mullen
Alexandria, VA

Kathleen Murphy — Jun 20, 2026
Subject: S7-2026-15 Comments From: Kathleen Murphy Affiliation: Jun. 20, 2026 As a person who relies on income from these stocks in retirement, this puts my quality of life in jeopardy. I would not have opportunity to add more income generating options. We are already at risk of market changes and scams - this adds to risk.

There hasn’t been any good reason offered that helps the average person.

I say “NO!”

Kathleen Williams — Jun 20, 2026

Subject: Comment on S7-2026-15 From: Kathleen Williams Affiliation: Jun. 20, 2026 SEC, keep the reporting quarterly. We have a need to know what is happening to our investments. Kathleen Williams RN. Tinley Park, IL 60477

Kathryn Gillenwater — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Kathryn Gillenwater Affiliation: Jun. 20, 2026 I agree with Warren Buffett. I am Kathryn Gillenwater, a retired educator who will be 80 very soon and I live in Arapahoe , NC. Four times a year works for me. There's something about accountability that we need to embrace.

Kathryn Kelly private investor and citizen — Jun 20, 2026
Subject: File No. S7-2026-15 From: Kathryn Kelly I am writing in strong opposition to proposed rule S7-2026-15 to allow companies to file semi-annual reports rather than quarterly reports. This proposal will harm investors. This proposed rule weakens the ability of investors to track performance of entities we invest in. It weakens the ability to review debt balances, product failures, loss of customers. Singapore allowed semi-annual reports and is reversing course due to loss of disclosure quality and trading volume. The EU and UK studied semi-annual reporting and found no meaningful improvement in investment behavior. Critically, semi-annual reporting may worsen fraud. Do not enact this proposal.

Kathryn Rasberry — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Kathryn Rasberry Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
As a long term investor I monitor a company's performance And regular accountability to the shareholders is critical in determining how the company is actually performing The executives can spin the story but the number bare the facts Please do not change the reporting schedule especially by reducing the frequency This encourages the executives to hide the reality of the company and gives the opportunity to self inflate their position without facts

thank you for your consideration

yes i use to work in a high tech company and the executives were more concerned with self promotion and rewards than rewards to employees and investors I saw it first hand

Kathy Ricciardi — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Kathy Ricciardi Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
If you allow this, know their will be a backlash by Unions and individuals switching to those Companies willing to be Honest and transparent.

Kathy Sagraves — Jun 20, 2026
Subject: S7-2026-15 Comments From: Kathy Sagraves Affiliation: Jun. 20, 2026 I totally believe that quarterly reporting should remain as is. Those large gaps allows too much room for error and deception to occur. Thieft and usually occurs with an insider such as manager or any employee. How will shrink be controlled and who will be the one at the end of six months ?? I as one who managed many businesses do not see the plus except attitude that oh well worry later and I really don't give a crap. Keeping it the way it is makes folks accountable. I am surprised that you would even suggest such an option. I've seen too many businesses fail over the years from not reporting properly or on purpose and then bankruptcy gone some forever. Kathy Charon,retired retail management (47 years in retail)

Kathy Vance — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Kathy Vance Affiliation: Jun. 20, 2026 Kathy Vance, self-employed consultant, Washington state

I'm very close to retirement and it is essential I keep a close eye on my retirement investments to ensure I will be financially sound once I quit working.

Semi-annual reporting will not provide sufficient information to make adjustments based on market changes.

It’s essential publicly traded companies maintain the highest level of transparency for the trust in both the companies and the SEC to stay at a higher level.

Thank you!

Sent from my iPhone

Kathy Weaver — Jun 20, 2026
Subject: S7-2026-15 From: Kathy Weaver Affiliation: Jun. 20, 2026 CEO's should still be required to do quarterly submissions. It is asking very little from them in terms of time and costs commitment. Considering CEO's are paid large bonuses and make decisions that effect all employees and many consumers, as well as the company's bottom line, quarterly reporting is not a burden.
Now if this is neccesary to decrease government workload, then there should be a benefit to the employees of the company. I am suggesting that the CEO's company should provide all employees with medical and dental benefits from day 1 on the job. Then semi annual submissions would be acceptable. But should there be any wrongful filing, then the rule should go back to quarterly submissions for life on that company. Unfortunately, I see this rule change as nothing more than the Administration (Trump) seeking ways to pay back all those persons/ businesses whom financially donated to Trump and his agenda. We already see how grants and contracts are going to big donors. That doesn'twork well for smaller businesses. All this is at the expense of American poor and working class. So now is the time to give back to the employers and employees of this country. The medical and dental benefits will help them work better for the company. In turn the CEO will be able to file semi-annual submissions. And it is important to add that there shall be no change to the work schedules or days off to pay for these benefits. Profits will not be as large as usual. However, the happiness and health of employees and their families will allow them to work better for the companies. That will trickle down to less theft, damage and less sick days by those employees.
But as a precaution, if any CEO violates the rules of reporting, they will lose the privilege to report semi-annually for the remainder of their term.
I am a former State employee in the State of Minnesota and worked my way up from secretary to the professional ladder working in the computer services department of MNIT. I took extra training on my own time and when attrition was used to thin the ranks, I and others took on those duties of the now empty position. We help achieve management goals because we were on medical and dental plans. We also had vacation days and were rewarded promotions because we initiated the transfer of knowledge and assuming duties that would not have been done. My Name is Kathy Weaver and I have been retired for 5 years. The respect I was shown as an employee of the State for 35 years made me work hard everyday. I also had coworkers who were as dedicated and hard working . We valued our careers and cared about how we looked to the citizens we served.
I now give back to my community by volunteering.

Kathy Zarling Pritz — Jun 20, 2026
Subject: S7-2026-15 Comments From: Kathy Zarling Pritz Affiliation: Jun. 20, 2026 Kathy Z. Pritz Retired financial professional
Quarterly reporting is critical and not at all onerous. Please help keep our citizen's investments transparent.

Katie — Jun 20, 2026
Subject: S7-2026-15 Comment From: Katie Affiliation: Jun. 20, 2026 To whom it may concern:
I think companies should continue to keep reporting quarterly. That way investors like me can try to use the stock market as a tool to retire. As a teacher it's important to me to know where I'm investing and how they're doing and reporting only two times per year will make it harder for me to use data to drive my decisions. Please keep reporting quarterly.
Best,
Kate Mucharsky

Katie Harmon — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Katie Harmon Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
As an investor this is new rule would be extremely detrimental to my ability as well as all other investors to access vital information that affects where I should put my money and how I should be investing. I do not want to be flying blind and I want the companies I invest in to be held to the highest standards. It is ridiculous that investor rights would be sidelined in order to benefit huge corporations--corporations that should ultimately be accountable to their investors.

Katiria Lagares — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Katiria Lagares Affiliation: Jun. 20, 2026 Quarterly reporting needs to stay. If a change is needed, reports should be submitted more regularly, not just twice a year. Do not allow businesses time to hide their finances.

Katryna Wright — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Katryna Wright Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:We investors are powerless to affect the market and we do the best we can with the information provided to us to make wise investment decisions. You should not take away timely access to said information allowing corporations to hide financial situations longer and delay reporting. The reckless words and actions of dimwits directly affect our retirement ever day. This change to lessen transparency will only give corporations more cover to commit treachery and along with everything else you're handing them it's giving them a license to commit fraud. You all need to start working for the people instead of making this a huge power and money grab. It's disgusting and despicable and you should all be ashamed.

Katscan Ugalde — Jun 20, 2026

Kay Heley — Jun 20, 2026
Subject: S7-2026-15 Comment From: Kay Heley Affiliation: Jun. 20, 2026 Please reject Rule S7-2026-15 allowing financial reporting to occur every 6 months rather than the current requirement for every 3 months. This is a bad rule because it decreases transparency, accountability and makes fraud much more likely. This Rule benefits large investors who can pay for staff or consultants to advise them. This Rule does not benefit smaller investors like teachers, nurses (me), plumbers, water utility operators, to name a few, who cannot afford to pay for those advisors.
The SEC should be focused on stopping insider trading and fraud like we saw with Enron not making it easier for it to happen!
Please reject this Rule S7-2026-15.
Most Sincerely,
Kay Heley RN retired

Keegan Witt — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Keegan Witt Affiliation: Jun. 20, 2026 Keegan Witt, Staff Software Engineer, Ashville OH. I can't think of any benefit to this proposal. The world is changing faster and faster every day, we need more information, not less. Making the reporting period longer would also likely increase the opportunity of insider trading since the insiders have a larger window of time that the information isn't public. The SEC is already doing a pretty poor job on that front. Let's not make it any worse. There are tons of downstream effects as well. Pension funds, ETFs, etc won't be able to make quarterly adjustments without updated data. This creates another potential area of abuse through arbitraging non public material information. This seems like an overall bad idea that profits on of the elites and insiders.

Kenneth Batchelor — Jun 20, 2026
Subject: S7-2026-15 Comment From: Kenneth Batchelor Affiliation: Jun. 20, 2026 Public Comment Letter Opposing SEC Proposal on Optional Semiannual Reporting

Kenneth Batchelor
Batchelor_ken@ Hotmail.com

June 20, 2026

Securities and Exchange Commission
100 F Street, NE
Washington, DC 20549
Re: File No. S7-2026-15 – Proposed Amendments to Permit Optional Semiannual Reporting by Public Companies (Release Nos. 33-11414; 34-105368)

Dear Chair Atkins and Commissioners:

I write to strongly oppose the SEC's proposed rule that would allow public companies to elect semiannual reporting on a new Form 10-S in lieu of quarterly reports on Form 10-Q. While framed as providing "flexibility," this change would reduce mandatory transparency, harm investors, and increase risks without delivering the promised benefits. I urge the Commission to withdraw the proposal and maintain the current quarterly reporting regime, which has served U.S. capital markets well for over 50 years.

1. Reduced Insight and Transparency for Investors

Quarterly reporting delivers timely, standardized financial information that investors rely on for valuation, risk assessment, monitoring performance, and making informed decisions. Shifting to a six-month cadence would create longer periods of stale or incomplete information, increasing information asymmetry between management and investors.
This would likely lead to:
* Greater difficulty in timely detection of operational or financial issues.
* Reduced analyst coverage and forecast accuracy.
* Higher market volatility around the fewer reporting dates.
* Potentially higher cost of capital due to elevated uncertainty.

Evidence from Europe supports these concerns. After the EU abolished mandatory quarterly reporting in 2013 (via amendments to the Transparency Directive, effective ~2014–2015), companies that stopped issuing quarterly updates experienced a significant decline in analyst coverage. Studies of the UK experience (where mandatory quarterly reporting was introduced in 2007 and removed in 2014) found that quarterly reporting increased analyst coverage and improved the accuracy of earnings forecasts. When companies ceased quarterly reporting, analyst following dropped.

Additional research on European firms terminating or reducing quarterly reporting content shows economically significant reductions in stock liquidity and negative abnormal returns around announcements ending the mandate.

Investors — including major institutions — have voiced strong opposition, noting that quarterly data is essential for monitoring and protecting capital.

2. Lack of Positive Effects Observed in Europe

Proponents often cite Europe as a model, claiming the shift from quarterly to semiannual reporting there successfully reduced short-termism and benefited companies and long-term investors. This has not materialized.
The EU's explicit goal in 2013 was to "encourage sustainable value creation and long-term oriented investment strategy" by reducing short-term pressure. However, rigorous studies of the UK and broader European experience found no material impact on corporate investment levels (capital expenditures, R&D, or fixed assets) when reporting frequency changed in either direction.

Many European companies continued providing quarterly updates or limited interim information voluntarily because markets demanded it. Those that fully shifted to semiannual often saw reduced analyst attention without offsetting gains in long-term investment or valuations. There is no statistically significant evidence of broad positive effects on companies or investors from the change. Adopting a similar approach in the U.S. risks importing these shortcomings into the world's deepest and most transparent capital markets without any proven upside.

3. Increased Opportunity for Fraudulent or Misleading Statements

Biannual reporting would create extended "dark periods" of up to six months without required SEC filings, management certifications (under Sarbanes-Oxley), or limited auditor reviews. This gives company leadership significantly more time to engage in earnings management, channel stuffing, cookie-jar accounting, or outright fraud before issues must be disclosed.

Quarterly reporting imposes regular discipline and scrutiny that helps surface problems earlier. It also forces more frequent cleansing of material non-public information, reducing opportunities for insider trading and selective disclosure. Multiple analyses note that quarterly disclosures serve an important role in preventing fraud and market manipulation by providing timely, standardized checkpoints.

While fraud can occur under any regime, lengthening the interval between formal reports inherently widens the window for misconduct to grow undetected. The proposal would weaken a key safeguard that has contributed to the integrity of U.S. markets.

Conclusion and Request

The proposed change prioritizes reduced compliance costs for some companies over robust investor protection. The evidence from Europe demonstrates that the promised benefits are illusory, while the downsides — diminished transparency, weaker analyst monitoring, potential liquidity impacts, and greater fraud risk — are real and well-documented.

I respectfully urge the SEC to reject this proposal and preserve quarterly reporting as the mandatory baseline. If flexibility is desired, companies should remain free to provide additional voluntary disclosures rather than being allowed to provide less mandatory information.

Thank you for considering these comments. I am available to discuss further.

Sincerely,

Kenneth Batchelor

Subject: My view on Rule S7-2026-15 From: Kerry Lohr Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
In all my studies in mathematics and the sciences, information has always been important. When I worked in city government and in education, information has been important. Not knowing what is happening or what is going on for half the time keeps us, all of us, in the dark. This is not helpful and does not promote or provide for an exchange of information. We need more clarity not less.

Kerry Texley — Jun 20, 2026
Subject: S7-2026-15 Comments From: Kerry Texley Affiliation: Jun. 20, 2026 By changing the reporting periods from quarterly to semi-annually I feel I will not know what is happening with my investments or have the opportunity to make changes when I feel it is necessary. As for the process of reporting a company must follow and the time and cost involved, computers have made it more efficient. It is easy to email reports or put them on the web for access. With major changes happening now and in the future due to AI, it will become even easier to file these reports at less cost. The government is concerned about fraud, but this will make such an important aspect of investing and company health less transparent.

Kesley Moore — Jun 20, 2026
Subject: S7-2026-15 Comments From: Kesley Moore Affiliation: Jun. 20, 2026 Kesley Moore here. Retired. I have built my investment portfolio over the years ,in order to provide financial security in my retirement years. Big Corporations that are offered on the stock exchange, owe it to their investors to keep them informed of their financial standings, and performance. Investors NEED to know how the corporation is doing on a timely basis in order to make knowledgeable decisions concerning their investing strategies in order to protect ourselves from market volatility, and corporation standings ! Presenting quarterly reports gives the investors the ability to make moves in order to maintain the integrity of their portfolios. A LOT can happen within a six month period. We need to be able to make these decisions based on market / company performance within reasonable time periods, and semi-annual reporting is not conducive to that endeavor.

Retired
Wagener, SC

To Whom it may concern;

Having worked in the banking industry for 43 years performing mergers and acqisitions caused in many cases by poor or nefarious bank management, I for certain don't have to tell you about the absolute need for constant oversight of financial institutions. All financial institutions. In consideration of the current and ongoing breaches in financial trust and bad actors that have been investigated and prosecuted for criminal financial activities past, present and future, it is imperative that the current quarterly reporting system remain intact and not amended. Lowering the current reporting standards will be detrimental to the financial well being of all investors as I've historically noted in banking regulation where as soon as regulations are eased, bad things start to happen in much the same way that caused stricter regulations to be instituted in the first place. At this time of rampant corruption in government that reliable sources uncover every day as well as the fact of life scams being perpetrated on private persons, I strongly urge the SEC not to roll back to old standards and if entertaing this idea, expect trouble. There are reasons for truth in lending and savings regulations.

Please do not eliminate these checks on the financial market brokers. It's a really bad idea based on history.

Thank you for entertaing my thoughts on this matter.

Respectfully,

Kevin Dellacroce

Kevin H — Jun 20, 2026
Subject: S7-2026-15 Comments From: Kevin H Affiliation: Jun. 20, 2026 The only reason to change rules should be to promote competiton in the market. Minimizing transparency allows big players to prevent that and helps the already wealthy grow their assets unfairly. America should be better than that.

retain quarterly reports or propose an actual change that will help average Americans.

Kevin Lord — Jun 20, 2026
Subject: S7-2026-15 Comments From: Kevin Lord Affiliation: Jun. 20, 2026 My name is Kevin Lord and I am a retired, 29-year service member. I converted my federal retirement monies to a civilian IRA and I own another IRA I contributed to across many years. As such, I am significantly invested in a broad range of securities and I analyze their performance far more frequently than quarterly. However, I absolutely rely on quarterly disclosures to make investment decisions and I do not believe the cost to provide quarterly reports is too much for the companies or other entities I am invested in to pay. Further, I believe changing from quarterly to semi-annual reporting does not provide me with a timely and adequate opportunity to review performance and make changes as I determine needed to protect my and my family's investments, monies and livelihood.

Kevin McLaughlin — Jun 20, 2026
Subject: S7-2026-15 Comments From: Kevin McLaughlin Affiliation: Jun. 20, 2026 There is ample reason to think current regulations lead to the strongest outcomes for market valuation and fraud protection. There is insufficient evidence that less reporting will be better and cheaper in the long

run. I do not support change on this, after 25+ years as a finance instructor on investments, valuation and financial services, with a background in both finance and accounting.
Best,
Kevin w. McLaughlin

kramerc221 — Jun 20, 2026
Subject: Comment on S7-2026-15 From: kramerc221 Affiliation: Jun. 20, 2026 Dear SEC:
I am not going to write a long and detailed soliloquy on why reducing reporting to bi annual as opposed to quarterly is a bad idea. You know it is a bad idea. You are not proposing it because it is a good idea, you are proposing it so those who benefit from hiding loss or rates of return on investments are not informed of potential issues until it is too late and their investments have diminished in value so much that they are forced to sell to recoup some shred of value. Why do this? Of course so those who will have significant leverage, ie the billionaires, can purchase from those who have no choice but to sell, at rock bottom prices. This is just another proposal to reduce

oversight by government that actually helps the average investor whose funds are put into investment vehicles to fund retirement. Why do this? There is no legitimate reason. Do NOT implement this new rule.
Cynthia Kramer

Kristin Carstarphen — Jun 20, 2026
Subject: S7-2026-15 Comment From: Kristin Carstarphen Affiliation: Jun. 20, 2026 Why are some allowed access to the numbers and others not? This is of benefit not to all, but only to those who are special enough to have access. It allows these privileged few to take actions to benefit themselves before the information is made available to the general public. This goes against everything that America and a democracy built upon all people being equal stands for. Shame on you.

L Booth — Jun 20, 2026
Subject: S7-2026-15 Comment From: L Booth Affiliation: Jun. 20, 2026 I am not a professional investor and I know little about how it all works, but I do do some investing of my own and I depend on those quarterly reports to tell me who is a good risk and who isn’t. This feels very much like a grift. If you have nothing to hide from the people who buy your stock and give you money, why do this? The answer is simple. You don’t want to have to actually report what you’re doing. Not hiding the results for six months. There is a severe lack of trust in many “officials” currently in this country. Do not contribute further to that lack of trust.

L. Booth

Lance Tarran — Jun 20, 2026
Subject: S7-2026-15 Comment From: Lance Tarran Affiliation: Jun. 20, 2026 This rule does not provide for timely and accurate visibility and will allow for manipulation and corruption.

Landin Boring — Jun 20, 2026
Subject: File No. S7-2026-15 From: Landin Boring I strongly oppose the new rule removing quarterly reporting requirements for public companies. Shareholders are part owners of companies, and therefore need more information and transparency on how the business is performing, not less. The new rule will favor institutional investors over individuals, and make it easier for unscrupulous management teams to deceive investors. Further, research on a similar rule change in the UK

showed semi-annual reporting did not affect corporate investment behavior. In summary, the proposed rule change is a bad idea and has the smell of special interest lobbying all over it. Thank you for considering my comments.

Lane Sykes — Jun 20, 2026
Subject: S7-2026-15 Comment From: Lane Sykes Affiliation: Jun. 20, 2026 Why would companies get this advantage? It's wrong. For the public not to know what's going on for 6 months, how does that benefit the people? I'm against this.

Laura Feierabend — Jun 20, 2026
Subject: S7-2026-15 From: Laura Feierabend Affiliation: Jun. 20, 2026 Quarterly reporting has been required for "self employed" to the IRS. Those that are self employed include clergy, like my dad, who didn't make much money, and didn't have vast resources. So my mom did the reporting and paid the taxes. I made more money in my engineering internship asas a softmore in college than he did, with a divinity degree, 25 years experience, long hours navigating meetings and politics and people's lives. Since quarterly reporting isn't a hardship for a CEO who has money, resources such as accountants, spreadsheets and could use a reminder of honest humanity, I see no reason to reduce the reporting requirement.

Thanks,

Laura Feierabend

Laura Moehr — Jun 20, 2026
Subject: S7-2026-15 Comment From: Laura Moehr Affiliation: Jun. 20, 2026 To the SEC:

I am writing to formally express my concerns regarding illegal financial practices, specifically the withholding of earnings information by publicly traded companies.

Restricting access to financial data to only top investors constitutes insider trading. It is vital that organizations like the FTC and the FBI investigate these actions to ensure market integrity. Practices such as "cooking the books" and utilizing non-public information allow insiders to benefit at the expense of individual investors, making it increasingly difficult for the general public to participate in the market before prices surge.

This behavior is illegal and must be addressed immediately to ensure a fair and transparent financial

system for everyone.

Subject: My view on Rule S7-2026-15 From: Laurie Luther Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Publicly traded companies must reveal information that affects the current and future stock price. If not, people cannot make educated choices in the stock market.
The stock should be labeled as non-disclosure if they do hold back pertinent information. That way, people can know to avoid investing in the company. This is only fair.
Thank you for your prompt attention to this issue.

laurie savery — Jun 20, 2026
Subject: Comment on S7-2026-15 From: laurie savery Affiliation: Jun. 20, 2026 “Washington wants to let every public company stop reporting its results each quarter and disclose just twice a year. We tried this once, between 1955 and 1970. Less transparency came with lower returns and lower valuations. For an ordinary investor, a return to those days could mean losing a third, or even half, of your life savings.“

Why twice a year? Less costs for the Company? Less information metered out to less informed investors, especially individual older investors?
As a college/university trained registered nurse for over 48 years, I’m beginning to enjoy some retirement time as i work per diem only.
SEC, be transparent, truthful and trustworthy to folks like me, not sleeping with the billionaires as much of our current government agencies are doing.
You can’t make America first by deceiving/robbing Americans!
Respectfully~

Lawrence Lesterud — Jun 20, 2026
Subject: S7-2026-15 Comment From: Lawrence Lesterud Affiliation: Jun. 20, 2026 We need quarterly reporting to determine the fiscal health of companies to protect pensions and retirement accounts, and investors’ portfolios, be they individual or institutional. The SEC proposal has greater potential to destabilize markets by reducing CEO/executive fiscal m accountability and it slows reaction to market changes. This proposal will definitely hurt investors as a lot can happen to publicly traded companies in a 6 month cycle that will no longer be visible ina timely manner. This proposal will also advantage inside trading while keeping the rest in the dark until it is too late. This is a cash grab for the C Suite at everyone else’s’ disadvantage. Keep things as they are. We need greater corporate transparency and accountability for a healthy economy, not less.

Linda Bonney — Jun 20, 2026
Subject: S7-2026-15 Comments From: Linda Bonney Affiliation: Jun. 20, 2026 Following a review of our operational workflows, we find significant value in maintaining our current reporting cadence. The quarterly schedule has proven to be highly effective, providing a comprehensive overview of progress and key performance indicators without imposing excessive demands on team resources for more frequent submissions. This strategic interval allows for thorough data analysis and supports more informed decision-making, aligning seamlessly with our broader planning cycles. We kindly request that these essential updates continue to be delivered on a quarterly basis.

Linda Boone — Jun 20, 2026
Subject: Quarterly Reporting Comments From: Linda Boone Affiliation: Jun. 20, 2026 Quarterly reporting must continue rather than go back to 1950's! Transparency and fairness are essential to our economy. Decisions are made based on all available information and withholding information by not disclosing it in a timely fashion would adversely affect our economy and individual personal finances.

Sincerely
Delaware resident and stock and bond holder

Linda Bozeman — Jun 20, 2026
Subject: S7-2026-15 Comment From: Linda Bozeman Affiliation: Jun. 20, 2026 My name is Linda Bozeman. I am a retired educator. I am writing to you earnestly requesting that you keep the quarterly reporting requirements exactly as they are. Reporting quarterly lets investors (of whom I am one) understand the gains and losses all companies are experiencing. This allows investors to have a better understanding of how the company is doing and help prevent catastrophic loss of portfolios for the investor and allows the company to make changes when things are not going in the right direction. I realize that some other countries do not mandate quarterly returns. But keeping a quarterly pulse on progress (up or down) is crucial for both companies and investors. Thank you for your consideration.

Sincerely,
Linda Bozeman

Linda Torres — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Linda Torres Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Quarterly disclosures provide vital information that helps investors stay informed and hold public companies accountable. These reports promote transparency, help identify risks, and make it harder for misconduct or financial problems to go unnoticed. Reducing access to timely information would make it more difficult for everyday investors to make informed decisions and would weaken confidence in our markets.
The SEC should preserve quarterly disclosure requirements. Consistent, timely reporting benefits all investors and helps ensure that companies are transparent, honest, and accountable. Access to important financial information should remain available to everyone, not reduced or delayed.
Thank you,for your time now get to work and protect us.
Linda

Linda Townsend — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Linda Townsend Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
American investors need MORE transparency, not less. The world of investing is difficult enough already, and we certainly don't need another collapse like we saw in 2028. I lived through that once and am too old to survive another. There is nothing to be gained by providing less information unless you're doing something you're embarrassed about or ashamed of. Don't make this stupid and dangerous change.

Linda Vloedmans — Jun 20, 2026
Subject: File No. S7-2026-15 From: Linda Vloedmans With computers perhaps daily reports are possible? Seems like moving to signed monthly reports would be expected. Quarterly reports is not unreasonable. With fewer reports investors are not given enough information & updates to make good decisions.

Linda Willis — Jun 20, 2026
Subject: S7-2026-15 Comment From: Linda Willis Affiliation: Jun. 20, 2026 Totally absurd to even consider doing this. Why on earth would people want to wait six months to find out information about a company they may be investing in? This provides way too much time for companies to hide their problems. Linda Willis

Lisa P — Jun 20, 2026
Subject: S7-2026-15 Comments From: Lisa P Affiliation: Jun. 20, 2026 I am LP, a school administrator. I vehemently oppose the proposed rule allowing public companies to replace quarterly reporting with semiannual reporting.

Public investors already bear substantial financial risk. We entrust our retirement savings, college savings, and personal investments to public markets that can be volatile, speculative, and vulnerable to manipulation. In that environment, transparency is not a burden—it is a necessity.

I do not find it persuasive that companies worth millions or billions of dollars should be relieved of reporting obligations at the expense of the investors who provide their capital. If there is a choice between reducing burdens on large corporations and maintaining transparency for investors, the SEC should prioritize investors.

Less frequent reporting would mean less timely information, greater uncertainty, and a less level playing field for ordinary investors. Transparency strengthens confidence in the markets; reducing transparency weakens it. A point for contrast, public employees must make even their own personal

salaries part of the public record.

For these reasons, I urge the SEC to reject this proposal and preserve quarterly reporting requirements.

Lisa Petty — Jun 20, 2026
Subject: S7-2026-15 Comments From: Lisa Petty Affiliation: Jun. 20, 2026 When you go to the doctor, you want to see results of diagnostic tests in a timely manner. That way, you find out if you should make changes to your lifestyle or modify ongoing therapy. Similar philosophy for investments. Do not make investors wait in the dark for a report that could have easily been available sooner.

Lisa Ranaldi — Jun 20, 2026
Subject: File No. S7-2026-15 From: Lisa Ranaldi Do not eliminate the quarterly reporting requirements. Moving to a semi annual reporting will reduce investor confidence and transparency in the market

Lori Murphy — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Lori Murphy Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission
I am writing today to express my view and concern on Rule S7-2026-15 and the possible decision to not share quarterly information. As a personal investor in the stock market, I have relied on these reports to make sure to track, what I believe is a sound investment, and to determine if my investment looks to stay that way by looking at the health of the company. I do track them and I do read them as I would like to know the what and the why the companies I invest in are making the choices they make. They help me to realize if the companies are truly slowing down so I can evaluate the market risk.
I am a small-time investor and I have no formal training in the markets. This is one of the ways I am choosing to grow my small, and hopefully continually expanding, amount of retirement. There are millions of people like me who count on this to make smart investments and to be able to help with solid and informed decisions to continue to grow our savings and investments. These reports a much needed snapshot into the futures of the companies that we do invest in. These versions make it easy to compare quarter to quarter and track actual financials .
When the government asks more of individuals and as social security benefits seem to always be a potentially on the chopping block, I would like to believe that my government would make an important choice to keep their people as informed as they possibly could. I am sure everyone wants the best for the American public and to make any tools readily available to help people grow their money. The only expected outcome would be that the government has to expend less financially (that of course originally comes from the people) to take care of them in their older age. Seems to me to be a small enough ask to keep reporting quarterly.
Best regards,
Lori Murphy

Lori Olson — Jun 20, 2026
Subject: S7-2026-15 Comment From: Lori Olson Affiliation: Jun. 20, 2026 This is not a good practice. Once again, no one looking out for the average American. Too many things can happen in a 6 month window

Lorraine Sumner — Jun 20, 2026
Subject: S7-2026-15 Comments From: Lorraine Sumner Affiliation: Jun. 20, 2026 My name is Hailey Sumner and I am concerned about the proposed changes to quarterly reporting. I am a digital artist and marketing specialist, and I work part time for a non-profit. Although I'm not a fancy executive or big wig investor, I care about these proposed changes because of the risks they pose to my retirement and investments. I am concerned this would be yet another shady practice meant to benefit the ultra rich at the expense of the working class. By not requiring companies to report quarterly, they can sell shares and leave the little people footing the bill. It reduces transparency and makes investing less accessible. It is an affront that this is even being proposed.

See Ya Later, Alligator

This answer was composed by Lysted Assist, Lysted Support's AI Agent.

M — Jun 20, 2026
Subject: S7-2026-15 Comment From: M Affiliation: Jun. 20, 2026 The less transparency the easier it is to steal, lie and hide illicit and/or covert operations. Financial security is about mobility, communication and understanding. To restrict information transfer by cutting in half the reporting times is to be secretive and potentially reducing the ability to react to market trends and changes. In the electronic age, we have the capability to report DAILY and further avoid secretive and diabolical schemes to defraud investors. We probably now have the capability to electronically (especially with the advent of AI) on a much faster and more timely manner rather than hiding details for half a year. If public companies are unwilling to report more quickly, I believe they are only serving themselves and are fully willing to deceive the entire investment community of both private and public investors. We need MORE information, NOT LESS!

M Brown — Jun 20, 2026
Subject: S7-2026-15 Comments From: M Brown Affiliation: Jun. 20, 2026 From: Melissa J Brown, Bristol,CT

M Yeager — Jun 20, 2026
Subject: S7-2026-15 Comment From: M Yeager Affiliation: Jun. 20, 2026 The SEC should maintain Quarterly Report. In the event the SEC drops to only Reporting every 6 months, the SEC is of no more use and eneryone fired and the buildings sold.

M.P. None — Jun 20, 2026
Subject: File No. S7-2026-15 From: M.P. This is written in opposition of changing reporting from quarterly reporting. Investors deserve to have more regular updates in order to remain informed about performance and make informed decisions about their money. Do NOT reduce reporting to twice per year. This would NOT be in the interest of investors!

Macky — Jun 20, 2026
Subject: S7-2026-15 From: Macky Affiliation: Jun. 20, 2026 There's plenty of opportunities to go around. You have to be willing to do the work at a minimum just like being the President there's a certain amount of work involved in doing that job. There's amazing opportunities always , if you have a dream and willing to make your dream real it's possible to be anything you can imagine. If anyone or anything interferes with another human beings growth he has committed murder. He should be procacuted for every count. If he wilfully does it, life in prison. This example of fraud is treason hell there is no excuse that exist. Hell if the accused appeals to the highest court and found guilty. Verdict: Hanging by the neck until dead, at next sunlight.

M Covell

Margaret Hoppe — Jun 20, 2026
Subject: Rule S7-2026-15 From: Margaret Hoppe Affiliation: Jun. 20, 2026 Dear SEC,

I am against Rule S7-2026-15 and changing reporting from four times a year to twice a year.

We need accountability from our top level leaders and we need more visibility as shareholders. Quarterly reporting and signatures holds them to account and provides stronger enforcement of financials and accountability towards shareholders. With longer time between reporting, there can be a bigger temptation to do wrong and a greater runway to make decisions that are unethical and without a conscience to convict them as they aren’t certifying the honesty of their numbers as often. Investors and stock holders, employees and customers do not want another Enron. It is bad for business and bad for our communities. Dishonesty and fraud hurts everyone and weakens trust in our institutions. We need quarterly reporting.

Thank you,
Maggie McClurg
Science Teacher

Marisa Heath — Jun 20, 2026
Subject: S7-2026-15 From: Marisa Heath Affiliation: Jun. 20, 2026 We must keep this reporting requirement to quarterly. We must protect the investors. This law was put into effect to protect people for transparency. If reporting is reduced. Then there is more room for fiddling the books. We need more transparency not less.

Marissa Schlitter — Jun 20, 2026
Subject: S7-2026-15 Comments From: Marissa Schlitter Affiliation: Jun. 20, 2026 Marissa Schlitter
Program Manager
There is a plethora of evidence that shows when disclosure is voluntary, companies do not step up transparently. Given the current fraud, negligence and abuse, allowing for longer periods without public oversight is inviting more unethical practices and additional corruption. Do not proceed with a change in cadence, keep the quarterly reporting.

Subject: S7-2026-15 From: Mark Affiliation: Jun. 20, 2026 Keep it. Why replace something that works? I don't care if it's easier for CEOs and SEC, all of you work for US!

Mark and Cheryl B — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Mark and Cheryl B Affiliation: Jun. 20, 2026 Companies argue it costs too much to report this…
BS! It costs less now to manage the information than it ever did due to technology.

Convince me that managing business data is today is tougher to manage than the hand writtten ledger sheets of yesterday.

Same thing with voting.
Both examples are devices to give more time to cheat the numbers.

Thank you for the opportunity to comment.

Mark Berkowitz

Mark and Dana Brown — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Mark and Dana Brown Affiliation: Jun. 20, 2026 Dana Brown
Director of Marketing
Oregon / Arizona

Our country has seen more turmoil, more conflict, and more anger in the last 10 years than we have

experienced in the past 50 years.

Momentum is building. Citizens continue to distrust ... our corporations, our leaders, our government. So, the SEC is trying to reduce corporate reporting from quarterly to bi-annual. Why? What is the REAL reason? And better yet, who will benefit by doing this and who will not? I firmly believe there is absolutely no benefit to the general population by making this change. We must not give in. The current law must be maintained.

Dana K. Brown

Mark Arciuolo — Jun 20, 2026
Subject: S7-2026-15 Comment From: Mark Arciuolo Affiliation: Jun. 20, 2026 Please keep the quarterly reporting. Understanding market trends are important since that helps to guide my investment strategy. Since companies review performance daily, this should be no imposition to report 4 times per year.

Mark Arciuolo - retired

Mark Bonacci — Jun 20, 2026
Subject: S7-2026-15 Comment From: Mark Bonacci Affiliation: Jun. 20, 2026 We should keep the every 3 months as it stands. Keeps everyone focused on how businesses doing. Don't allow this SEC change to occur.

Mark Bonacci — Jun 20, 2026
Subject: S7-2026-15 Comment From: Mark Bonacci Affiliation: Jun. 20, 2026 We should keep the reporting every 3 months as it stands. Keeps everyone focused on how businesses are doing. Don't allow this SEC change to occur.

Mark Bonacci

Mark Caldwell — Jun 20, 2026
Subject: S7-2026-15 Comment From: Mark Caldwell Affiliation: Jun. 20, 2026 This is Mark Caldwell, retired Navy, presently a state employee. Right now quarterly reports is the bare minimum. Unless you're trying to hide something detrimental about your company or giving an inside edge to "friends" to invest, or to bail, there is no reason to extend it further out!

Mark Clark — Jun 20, 2026
Subject: S7-2026-15 From: Mark Clark Affiliation: Jun. 20, 2026 I am certainly for keeping reporting on a quarterly basis. I am retired and part of my retirement savings are based on market earnings.

When the market is up, I get a higher return on my savings. When the market goes down, I get a lower return on my savings. When bad things happen with companies that are involved with the securities market, bad things happen to the market and my earnings go down. I don't have much, so I would like to keep what do I have growing. The higher accountability will help keep these bad things from happening. This will benefit not only me but the millions of others in this country who have security backed retirement savings.

Mark S. Clark

Mark Kenny — Jun 20, 2026
Subject: S7-2026-15 Comment From: Mark Kenny Affiliation: Jun. 20, 2026 Do not let this happen. There is already too much distrust and division in this country. Insider trading will only get worse if this is allowed to pass. Protect the people of this country, not the corporations.

Sent from my iPhone

Mark King — Jun 20, 2026
Subject: S7-2026-15 From: Mark King Affiliation: Jun. 20, 2026 When an agency rule is already needing to be fixed, the reason to pass it disappears, unless the reason is to weaken the safeguards. Quarterly certified filings obviously work. Nothing has changed since Enron safeguards have been enacted. Why fix what isn’t broke unless you’re planning to re-break it. This seems sketchy. I don’t like it.

---

mark koehler — Jun 20, 2026
Subject: S7-2026-15 Comments From: mark koehler Affiliation: Jun. 20, 2026 Given the actions of

corporations in the past I am sure that eliminating quarterly reports will make it easier for companies to manipulate valuations and profit/loss reports. I am most definitely in favor of keeping quarterly reports for this reason and many others.
Regards,
Mark Koehler

Sent from my iPad

Mark L — Jun 20, 2026
Subject: S7-2026-15 Comments From: Mark L Affiliation: Jun. 20, 2026 Moving to semi annual reporting would allow companies to hide their problems longer and make trading windows more volatile when reporting is done. Like dollar cost averaging, a frequent reporting schedule evens things out. Leave the schedule quarterly so regular household retirement and pensions don't get abused by a rule designed to decrease our visibility into the inner workings of our investments.

Mark Lindsay

Mark Lambert — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Mark Lambert Affiliation: Jun. 20, 2026 My name is Mark Lambert and I live in St. Louis, MO. I am retired and market health and success is key to my ability to live and pay my bills.

I am opposed to a move away from quarterly reporting. History has clearly shown that less transparency comes with lower stock returns and weaker valuations.

For me personally, my investments are my only significant source of income in retirement so my quality of life is directly tied this issue.

Accurate and timely information is essential to healthy and thriving markets so please do not meddle with decades of proven success with quarterly reporting.

Thank you for your consideration.

Mark Sanderson — Jun 20, 2026
Subject: S7-2026-15 Comments From: Mark Sanderson Affiliation: Jun. 20, 2026 Greetings: Quarterly reporting is a key metric in evaluating an investment. While insiders with knowledge and information may be able to gauge the performance of a company, individual investors are left in the dark. Bi-annual reporting eliminates accountability to all investors, from large pension funds to individual investors. Bi-annual reporting unnecessarily injects a lack of transparency and uncertainty in the financial markets. Uncertainty in the market leads to catastrophic results. Most investors are not gambling when they invest in the market, they are investing in their future. Eliminating quarterly reporting would result in a market driven by risk, rumors and speculation. This is gambling. Quarterly reporting is a small burden on corporations to be listed on the stock exchange and meet its duty to investors. Quarterly reporting infuses stability and confidence in the market. Why on earth would the SEC undermine this key metric? For reasons stated above, I ask that no changes be made in the current quarterly reporting requirement.

Sincerely,

Mark Sanderson

Marquita Martin — Jun 20, 2026
Subject: S7-2026-15 From: Marquita Martin Affiliation: Jun. 20, 2026 We live in times where honesty and trustworthiness in people and systems is rare. Having faith is hard. We place faith in people and are disappointed no matter how much we trust them.. teachers, clergy, athletes, elected officials, spouses, etc. People who show they have capabilities beyond most others, are hired or elected to positions because they excel. They are also rewarded with very hefty salaries. In return for being highly compensated, there are expectations. Results of how they are performing are reported and they are expected to be accountable for the accuracy of what is being reported. They certify everything to be true and accurate with their signature. They receive high compensation for this and

we trust them to be honest. There is no acceptable reason any CFO or CEO is cannot commit to signing their name 4 times a year to certify the reports they put forth are true and honest. Quarterly reporting and
certification is absolutely necessary ..NO EXCEPTIONS!!!

Respectfully submitted,
Marquita M. Martin

Mary Alice Curtis — Jun 20, 2026
Subject: File No. S7-2026-15 From: Mary Alice Curtis Seriously?? Have we still not learned from multiple examples throughout history?? The Market crash of October 1929, Savings & Loan debacle in the 1970s, the Foreclosure Crisis of 2007, which led to a chain reaction of WORLDWIDE economic turmoil, and almost gave us a SECOND "Great Depression." ALL were direct fallout from less regulation of financial industries. Less regulation = less accountability = less restraint = MORE RISK to the economies and taxpayers of the world. Bankers and corporations want less regulation like criminals want less police. Stop being stupid. Be worthy of your role in protecting economies and taxpayers from corrupt, greedy bastards. Don't diminish regulations. If anything, STRENGTHEN THEM!!

Mary Alice DeBow — Jun 20, 2026
Subject: S7-2026-15 Comment From: Mary Alice DeBow Affiliation: Jun. 20, 2026 My money is invested to enable me to live a full and secure life in my senior years. If the companies do not have to report quarterly, my investment companies and I do not have clear guidelines to guide us in financial decisions regarding my livelihood. Please keep the quarterly reporting. Thank you. Mary Alice DeBow, senior citizen.

Mary Ann Hirst — Jun 20, 2026

Mary Brown — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Mary Brown Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
According to my research, changing the reporting time from three months as it has been to six months, allows for less transparency for those additional 3 months. That allows for more possibilities of fraud. There is no reason that benefits investors in changing to from three months to six months of reporting. It simply allows for more time of lack of transparency. Don't change the reporting time to allow that increase information being hidden from investors.

Mary Cureton — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Mary Cureton Affiliation: Jun. 20, 2026 We need to stick with quarterly reports. I'm a senior citizen living on a fixed income and I've slowly invested money all my life. I can't afford to loose any of my investment money.

Mary Frances O'Brien — Jun 20, 2026
Subject: S7-2026-15 Comment From: Mary Frances O'Brien Affiliation: Jun. 20, 2026 This appears to be blatant robbery. This matters to me because I want my country to be more honorable, not less.

Mary Hayes Gordon — Jun 20, 2026
Subject: S7-2026-15 From: Mary Hayes Gordon Affiliation: Jun. 20, 2026 Hello. As someone who remembers the Enron debacle, I strongly recommend keeping the quarterly reporting. This is not an onerous task for companies - they are tracking this information whether it is reported or not. But reporting keeps a spotlight on what is going on and can help expose fraud more quickly than reporting only twice per year. I can't see how this is a significant savings since the work is already being done. For years I have adhered to tight (I would even say onerous) grant reporting requirements for relatively small amounts of money, the idea that we have to report quarterly and huge corporations that are priveleged to operate in this country would not seems absurd. The regulations were put into place to help stop the types of problems that arise when oversight is lessend. Let's remember that lesson.

Mary Koch — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Mary Koch Affiliation: Jun. 20, 2026 To the Securities and Commission:
Changing this rule will allow corporations to keep necessary information from me...they need less tools to make me poorer, not more.

Mary Lamontagne — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Mary Lamontagne Affiliation: Jun. 20, 2026 Changing this rule allows entities to not disclose what is going on for six months or longer. All I can go wrong in six months. Learning that, lawsuits, vanishing companies they could sell off their shares and stockholders would have no idea that this has occurred. Six months would make it feasible for a repeat of what occurred at Enron in 2008 to be repeated. If anything, the SEC Should be working harder to improve compliance, and make reporting monthly. What is going on in the economy shown

by all economic indicators, that we are already possibly in a recession, if not worse, requires that the SEC not approve this and enact and use more stringent policies to protect the people who invest their hard earned Money.

Mary LaPointe — Jun 20, 2026
Subject: S7-2026-15 From: Mary LaPointe Affiliation: Jun. 20, 2026 These corporations could easily do more than quarterly. With AI, they could do monthly. It's amazing that licensed home daycare providers have to fill out daily reports and have them ready in case of a surprise visit.

Sent from my iPhone

Mary Lofstrom — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Mary Lofstrom Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
The SEC is a security commission. Security towards investors, security for the future and fairness of investing. Changing the rules to allow such things as the SpaceX IPO and change in quarterly reports are verifying that the SEC no longer is concerned about the rights of investors . Please do not allow these changes to occur.

Mary Longe — Jun 20, 2026
Subject: S7-2026-15 Comments From: Mary Longe Affiliation: Jun. 20, 2026 Quarterly reporting requirements established by the SEC are an important foundation of market transparency and investor confidence. Requiring public companies to disclose financial results every three months provides investors, analysts, employees, and regulators with timely information about a company's performance, risks, and changing business conditions. Moving to a six-month reporting schedule would lengthen the period during which investors must make decisions without current information, potentially increasing uncertainty, market volatility, and the risk that significant problems go undetected for longer periods. While critics argue that quarterly reporting can encourage short-term thinking, regular disclosures help ensure accountability, support efficient capital markets, and promote equal access to information for all investors rather than only those with insider knowledge or greater resources.

Mary Longe
Deerfield, Illinois

Mary Lynch — Jun 20, 2026
Subject: S7-2026-15 Comment From: Mary Lynch Affiliation: Jun. 20, 2026 Keep the Quarterly reporting in place. Too much can go wrong waiting 6 months to report their earnings and too many every day investors could be hurt. There is no valid reason to change the process other than to allow business to hide negative earnings.

Mary Lynch

This is not a good idea especially for people who have investments to not know what there investments are doing quarterly. Please vote against this bill. Mary Steinhauser

---

Mary Taylor — Jun 20, 2026
Subject: S7-2026-15 Comments From: Mary Taylor Affiliation: Jun. 20, 2026 I strongly support maintaining quarterly reporting requirements for public companies and oppose allowing companies to “go dark” to avoid transparency. Regular SEC reporting provides investors with timely information, promotes accountability, and helps maintain confidence in our capital markets. Reducing disclosure obligations or allowing companies to operate with limited transparency undermines investor protections and creates an uneven playing field. Public companies benefit from access to public capital and should continue to meet their responsibility to provide shareholders with consistent, reliable, and timely information.

Respectfully,

Mary Taylor

Mary Torres — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Mary Torres Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Frequent and consistent reporting of stock and all investment strategies is a vital part of investing that enables me to make intelligent and less volatile decisions how I establish my portfolio. Please DO NOT reduce the frequency of reporting requirements. It is vital to the health of our country and should be a right provided to all investors.
Thank you,
Mary Torres

Mary Tresnak — Jun 20, 2026
Subject: S7-2026-15 Comment From: Mary Tresnak Affiliation: Jun. 20, 2026 As a former insurance regulator, a former employee of a publicly traded company and a current investor, it is imperative that publicly traded companies complete, sign and file quarterly financial statements. Every American investor - whether private individuals, investment firms or retirement funds - relies upon quarterly filed financial statements to make decisions about their investments. Without the level playing field of quarterly reporting, investing will not be based upon informed decisions but simply

gambling with our financial futures. Please maintain the status quo of requiring quarterly reporting.

Sent from my iPad

The greed of the wealthy is destroying our nation. Please do not help them make it any easier. Many of these wealthy people have a terrible case of greed and it is destroying the working class!!!

Maureen McBrien — Jun 20, 2026
Subject: S7-2026-15 Comments From: Maureen McBrien Affiliation: Jun. 20, 2026 This move is a direct assault on investors, but will enable insiders to trade with advantage...leading to a highly corrupted inestment system whereby insiders will have a clear advantage. It will also cause investment managers to spend much more on research and trying to get credible intel for clients, likely raising brokerave and other fees. It could also reduce investments as people might grow weary of trying to make decisions based on limited information. This is a roleback of consumer and investment right to information leading to a weakening of investor confidence.

mckenna1962 — Jun 20, 2026
Subject: S7-2026-15 COMMENT From: mckenna1962 Affiliation: Jun. 20, 2026 Dear Sir(s),

I am writing regarding SEC File S7-2026-15. This rule change will be a disaster for my retirement portfolio. I'm a retail investor and I rely on quarterly reports to make decisions about my retirement savings. Longer gaps give corporate insiders an unfair advantage by taking away my ability to adjust my retirement accounts due to poor performance before the damage is done. I also understand that SEC File S7-2026-15 would give companies the "option" to participate or not. Well, this doesn't help either because those companies are often the ones whose investors most need frequent updates. The savings to companies aren't worth the cost to me.

PLEASE DO NOT ALLOW SEC File S7-2026-15 TO PASS.

Thank you for your consideration.

Michael Hester — Jun 20, 2026
Subject: S7-2026-15 Comment From: Michael Hester Affiliation: Jun. 20, 2026 To Whom it May Concern,
As a strong advocate of investing in American companies, I find it concerning that you would consider allowing companies to move to bi-annual reporting. This “opens the door” to scenarios that could more negatively impact investors and create clear paths for fraud, than providing any clear financial benefits to investors.
In today’s financial environment and with the technology used to track companies and data, reporting on a quarterly basis has zero negative impact on business. In my humble opinion, any considerations to change the reporting period should be to a shorter time frame, not longer! Reporting every two months will help stabilize and validate the data reported; allowing investors to make more informed and timely decisions.
In closing I want to be clear. I am requesting that you do not allow companies to move to twice a year reporting and require them to, at a minimum, provide quarterly reporting.

Sick and tired of things going against the average American that pays the bills for this Country. Illegals don't even get treated this poorly. I want to grow my future and can't do so with my information and options being limited. Would your Grandmother be happy with the decisions that are being made. ...

Michelle Ramnarine — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Michelle Ramnarine Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
I have worked in the financial industry now for 36 years. Quarterly reporting is extremely important for the maintenance of transparency and shareholder edification.
Quarterly reporting is imperative to shareholders and company board members to gage how a company is doing in terms of profitability, financial stability, and accountability.
If your agency stops requiring quarterly reporting, how can a shareholder know whether to buy, sell or hold the stock if they do not know how a company is doing throughout the year???

People will stop investing because they will have no facts to review about a company's stability. Press releases can be put out with no actual facts or proof to back it up. Quick pump and dump incidents will occur just as they do all the time with pink sshhets.
Not requiring reporting is utterly ridiculous. I know many clients who would sell their entire portfolio and just sit in cash if they were informed the SEC is stopping requiring quarterly reports.
We have many clients who are well informed, experienced investors who actually read every single quarterly and annual report on each company they are invested in or are considering to buy in. If there is no report to review, there would be no decision as to buy more or not. They would sell it all and go to cash.

You must truly rethink that decision and stand by your original requirements of quarterly and annual reports.

I do hope my opinion has helped to persuade to reconsider. Thank you.

Respectfully,
Michelle Ramnarine

Mike L — Jun 20, 2026
Subject: S7-2026-15 From: Mike L Affiliation: Jun. 20, 2026 Keep CEO's signing their quarterly financials. There is no more important business tool than its monthly , quarterly and annual financials. Checking the vitals of your business is what allows you make your business adapt and grow. For public businesses, that is more true. People have every right to know the truth before and during their investment with an entity. Knowing the vitals only twice a year puts that investment at risk. 6 months is too long of a period in which to make the decision to stay or sell your position. Please leave the quarterly rule in place. Sincerely, Michael P. LeVangie, retired business owner, North Port, FL.

Mike LeVangie

Mike Lowell — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Mike Lowell Affiliation: Jun. 20, 2026 Quarterly reporting is a must. Anything favors corporate America and leaves investors holding the proverbial bag. Now, more than ever, with social security cuts inevitable, the lack of pensions and therefore the dependence upon our personal investments for our future, Americans need safeguards and accurate information to be informed investors.

Milissa Wilk Larstanna — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Milissa Wilk Larstanna Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
I am upset to here of this potential reporting change. I do not have much but I value the privilege of keeping an eye on my investments and make changes accordingly. I expect transparency in the way my invested funds are being maintained and protected. This new law would limit my ability to maintain oversight and give too much power to the companies to not be held accountable and/ or misappropriate funds.

Mimi Wahlmann — Jun 20, 2026
Subject: S7-2026-15 Comment From: Mimi Wahlmann Affiliation: Jun. 20, 2026 Mimi Wahlmann Realtor, most of my clients buy homes eith stocks & savings. When the tariffs hit in 2025 our market stood still for some time. If the stock market falls due to less reporting & corruption our housing market is affected. You will crash our local economy & no one will vote for you again. please don’t allow this to happen keep reporting quarterly. We don’t have insider trading like you all do…

Mimi Yang — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Mimi Yang Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Your organization exists to protect everyday citizens against corporate greed, abuse of trust, and carelessness. When a company goes public, the quarterly required reports make it so that they are accountable to the public shareholders. Removing this would cause public trust in the process to plunge. In a world where folks can invest easily outside of the US, all this would do is to divert investments to international companies and decrease American foothold in the global financing, which in turn will decrease the cash flow available to those companies. It's a terrible idea. Please

don't do this.

Mindy A Smeal — Jun 20, 2026

N/a N/a — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: N/a N/a Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
The mission statement of the Securities Exchange Commussion explicitly states that it aims to protect investors. One of those protections would be to maintain fair markets and ensure equality among investors. Even with these "protections" provided by the SEC, there is a stark distinction

between individual and institutional investors. This rule change will further jeopardize the position of the indiviual investors further signaling that "some investors are more equal than others." This change would be Orwellian in nature at best.

Nadia Barrera — Jun 20, 2026
Subject: S7-2026-15 From: Nadia Barrera Affiliation: Jun. 20, 2026 Nadia Barrera-Ramirez, Manager, Austin, Texas. Sharing financial information keeps people accountable. This should be an annual event.

Naida Hedgepeth — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Naida Hedgepeth Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission
much consideration should be given to increasing your oversight of the stock market rather than diminishing your abilities to keep current the activities of the stocks that you are mandated to report to the public.
it's astonishing that you are considering less oversight instead of more scrutiny!!:

Please don't let companies take vital information that we need to make good decisions! Please! Thank you!

Nathan Herring — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Nathan Herring Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission: In an unprecidented time where the retirement plans of most americans are about to be forced to invest in an IPO that smells badly of corruption (Space-X), and is I

Nathan Phipps — Jun 20, 2026
Subject: S7-2026-15 From: Nathan Phipps Affiliation: Jun. 20, 2026 Nathan Phipps, Accounting student.
I spent 4 years learning how the Enron fiasco necessitated consistent reporting. These quarterly reports are vital to keep executives accountable for their actions. These same ****s will happily defraud their investors if it meant they got some extra change from it, and I am appalled at any attempt to loosen the SEC's grip over these slimy goofballs

Nathan Phipps

Nathaniel Anderson — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Nathaniel Anderson Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Hello, together with the existence of Social Security being threatened my entire working life and Medicare also unreliable as I age, I have spent decades of time and savings trying to build up my own retirement funds. In the past few years, the government has actively been encouraging citizens to do the same, probably because these programs are in the crosshairs for elimination.
As an investor, I rely on financial reports to educate myself about companies I am interested in. I am very concerned about the future of my retirement funds if I cannot effectively make decisions based on the performance of companies. Please, I urge you to reconsider changing the frequency of reports.
Thank you,
Nathaniel Anderson

nathaniel bennett — Jun 20, 2026
Subject: S7-2026-15 From: nathaniel bennett Affiliation: Jun. 20, 2026 Keep the report system the way it is currently... Add more jail time and more fines. There should be more openness with all

things public from the very top tier companies and this should include every type of government spending and earning plan as well.
The people who keep these entities going and growing should be allowed to see what their money is doing, where it is going, why it is going there, and be able to see and be able to understand why the money is involved with whatever it may be involved with.
Lies and corruption grow in the dark... Openness, honesty, and frequency of reports are some of the few shields we have against such things.

Average securities buyer will not trust the delay and stop many from risking their money. In fact large pension funds, corporations will not trust this process.

Nedene Martin — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Nedene Martin Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
I am a retiree who manages my own investments. To do this successfully, I need information. Accurate and timely information. Complete information. I also need to know that experts are receiving and reviewing this information. To end the requirements of quarterly reporting is rash and dangerous. Please continue to require complete quarterly reporting.
Thank you for the opportunity to comment and to urge you to reject this proposal that would be very harmful to individual investors.

Neema Douglas — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Neema Douglas Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Don't allow companied to hide information that could affect my personal investments so That we can make informed decisions about how/what our money is invested in. Quarterly reportings are a must!

Neferista Merrusheta — Jun 20, 2026
Subject: S7-2026-15 Comment From: Neferista Merrusheta Affiliation: Jun. 20, 2026 Dear SEC and whoever else needs to hear this,

My name is Neferista Merrusheta, and I am a Psychiatric Rehabilitation Coordinator. As a 56-year-old grandmother raising two grandchildren, I invest small amounts through platforms like Cash App to secure my family's future.

I am writing to emphasize the importance of providing everyday investors with timely access to quarterly reports and financial information. Currently, it feels as though the opportunity to make sound, logical decisions is being restricted. Relying on media coverage is insufficient, as it can be flawed and subjective; I believe investors should have the right to receive information directly from the source on a regular basis.

Without timely access, smaller investors are forced to "fly blind," leaving us vulnerable to financial losses that we cannot easily recoup. While large companies may be able to absorb the impact of market shifts, everyday people cannot afford to be left in the dark.

Please consider the needs of individual investors and ensure that we have the transparent, consistent access to information necessary to protect our financial interests.

Thank you for your time and consideration.

Sincerely,

Ms. Neferista
(MoMo of Shayla 11 y.o. and Shakur Jr 8 y.o.)

Neil Paragas — Jun 20, 2026
Subject: S7-2026-15 From: Neil Paragas Affiliation: Jun. 20, 2026 Do not allow CEO's of any corporation to have any advantage. Keep the law as it stands and make every CEO report every quarter.

Neo Ekwueme — Jun 20, 2026
Subject: S7-2026-15 From: Neo Ekwueme Affiliation: Jun. 20, 2026 Ignorance is not a justifiable defense if one abides by the laws of the United States. Historically less oversight has always resulted in criminality by those who would selfishly benefit on the backs of the public. Common sense should say exactly what this country its government when it routinely is complicit in creating the means and avenues for corruption to take place.

Nicholas Smith J.D. — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Nicholas Smith J.D. Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Dear Securities and Exchange Commission:
I am writing to express my concern regarding any proposal to reduce or eliminate quarterly reporting requirements for publicly traded companies.
Quarterly reports provide retail investors with timely, consistent, and transparent information about a company’s financial condition, operations, and risks. These disclosures are essential for making informed investment decisions and maintaining confidence in the fairness and integrity of U.S. capital markets.
Without regular quarterly reporting, investors would have fewer opportunities to evaluate a company’s performance and identify emerging problems. Longer periods between required disclosures could allow management to delay revealing adverse developments, making it more difficult for investors to accurately assess risk. Reduced transparency may also increase opportunities for fraud, misrepresentation, or the concealment of material information.
Retail investors do not have the same access to corporate management, analysts, or institutional research resources that large investors often possess. Quarterly reporting helps create a more level playing field by ensuring that all investors receive important information on a regular and predictable basis.
Strong disclosure requirements have long been a cornerstone of investor protection and market efficiency. Eliminating or weakening quarterly reporting obligations could undermine market confidence, reduce transparency, and ultimately harm the investors the SEC is charged with protecting.

Thank you for your consideration of these comments and for your continued commitment to fair, orderly, and transparent markets.
Respectfully,
Nicholas M. Smith J.D.

Nicole Jackson — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Nicole Jackson Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission: You are paving the way for corruption with these proposed changes.

Nicole Roach — Jun 20, 2026
Subject: S7-2026-15 Comment From: Nicole Roach Affiliation: Jun. 20, 2026 Nicole Roach, principal administrative associate for the city of New York, reporting must be kept quarterly to force transparency and maintaining the workload for the departments which generates these reports, especially in light of recent automation already taking away jobs.

Nicole Specht — Jun 20, 2026
Subject: S7-2026-15 Comment From: Nicole Specht Affiliation: Jun. 20, 2026 We as farmers work hard for our money and we pay people to give us advise on where to put that money. How is anyone going to publish accurate company stats if they only get reported every 6 months. Too much can happen to a business in 6 months that may not warrant holding the stock in it or maybe one needs to add to that stock.
As for voluntary so are taxes and we know how that worked out.
Since there seems to be little savings or benefits for the majority and/or good that comes from this proposal I would suggest we keep whats been working thus far.
Thank you
Nicole Silver

Nicole VanCoeur — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Nicole VanCoeur Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Doing away with quarterly reporting is the dumbest, most irresponsible idea ever. We, the People, need these reports to make informed decisions about our finances. If it ain't broken, don't fix it, stupid!!

Nikki Chtaini — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Nikki Chtaini Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Quarterly reports have been the model for 50 years. There is no reason to
change this practice which greatly benefits existing and potential investors.
Investors rely on these reports to monitor their investments.

Keep a good thing goning!

Nina Anthony — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Nina Anthony Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
I'm a recently retired individual who has saved a lifetime to invest for a comfortable, not extravagant, retirement.
By the time I retired, I was making a modest income and my Social Security earnings are not enough to support me. My investments are my lifeline. I review my quarterly reports carefully.
Therefore, I oppose this proposed rule that would eliminate quarterly reporting. Quarterly reports help me keep track of how my investments are doing and empower me to make smart financial decisions for my future.
I urge you not to enact the S7 2026 15 Rule for the sake of Main Street Americans like me who worked hard all of their life and are barely scraping by with today's cost of living and inflation. Help me live out the rest of my years with the dignity of having some semblance of control of my finances.
Keep reporting transparent. Don't let companies hide their financial performance from the people who are investing in them.
Remember, accountability and transparency are important issues to voters .

Noreen Beatley — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Noreen Beatley Affiliation: Jun. 20, 2026 I am opposed to Rule S7-2026-15, the SEC's proposal to allow public companies to alter their financial reporting from quarterly to semiannual. While this might help corporations reduce compliance costs, it will remove the transparency needed for investors and could significantly contribute to insider trading. There are already enough risks with investing, allowing companies to basically "hide" financials for an additional three months could blindside investors to potential issues with a company. While some folks may say this change will allow companies to focus on long-term strategies versus short-term earning goals, strong companies should already be considering their long-term strategies and be able to assuage investor fears if quarterly earnings don't meet expectations by detailing their goals and objectives.
As an individual investor, I need to be able to see what a company I'm investing in is doing without them hiding behind a curtain like the Wizard of Oz. Please do not implement rule S7-2026-15. Thank you.
Noreen Beatley

Norma Elizabeth Ramirez — Jun 20, 2026

Subject: S7-2026-15 Comment From: Owen Barr Affiliation: Jun. 20, 2026 Owen Barr, Ohioan, kitchen worker.

For too long corporations have long controlled our lives, taken lots. And now they want the right to hide their misdeeds and financial dawdling behind closed doors. Do not give companies even more power and leeway to stack the financial deck in their favor. We the people deserve to know how the companies that control our lives operate with transparency. The SEC was created during the Great Depression to end corporate malfeasance, not enable it. Do the right thing.

Pamela Daniel — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Pamela Daniel Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission: Quarterly disclosures help us make informed decisions. Waiting six months takes away the average investor's ability to keep a pulse on their investments. This is completely wrong.

Pamela Dodt Citizen taxpayer — Jun 20, 2026
Subject: File No. S7-2026-15 From: Pamela Dodt I strongly oppose the proposal to reduce company reporting requirements from fours times a year to twice a year. The ability for those who are not "insiders" is severely damaged by this proposal. Transparency in company reporting is vital to everyone invested the market.

Pamela Edwards — Jun 20, 2026
Subject: S7-2026-15 Comment From: Pamela Edwards Affiliation: Jun. 20, 2026 I'm Pamela Edwards, I'm 61 and I'm disabled. I think that the more you make, the more you pay. This is just a way for the rich to get richer and keep us poor. It should be illegal! Make it illegal!

Sent from my iPhone

Pamela Eide — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Pamela Eide Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission: They need to stop the ultra-wealthy but not even 10 cents for the working classes. There is no way that the working stiff can ever obtain any wealth... you have to be born with it.

Pamela Focarino — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Pamela Focarino Affiliation: Jun. 20, 2026 These are precarious times financially for all Americans. Each day our norms are being challenged and AI is knocking at the door. To ,at this time, change a time honored successful routine as quarterly information,I feel,is dangerous for investors. Truth and transparency are on thin ice as it is. We need a steady structure to ease our fears and anxiety.

Pamela Gray — Jun 20, 2026
Subject: S7-2026-15 From: Pamela Gray Affiliation: Jun. 20, 2026 I used to work in Application Security for a Fortune 500 company. I had to report how well we secured our systems to both our Internal and External Auditors. I think it is important to keep the Quarterly reporting to keep

Corporations honest.

Pamela Gray
Retired Texas Instruments Employee
Plano, TX

Pamela Isenhour — Jun 20, 2026
Subject: S7-2026-15 From: Pamela Isenhour Affiliation: Jun. 20, 2026 This should NOT change... EVER! Extending the time gives them much more space to do bad , wrong things! They need to be watched like a hawk. I have a truck, the state is on my back constantly due to quarterlies. These guys .... Are horrible to begin with..... Thieves arecacset of humans you just can't give TIME too

---

Pamela Isenhour — Jun 20, 2026
Subject: S7-2026-15 From: Pamela Isenhour Affiliation: Jun. 20, 2026 This should NOT change... EVER! Extending the time gives them much more space to do bad , wrong things! They need to be watched like a hawk. I have a truck, the state is on my back constantly due to quarterlies. These guys .... Are horrible to begin with..... Thieves are a set of humans that you just can't give TIME too!

Pamela Marcum — Jun 20, 2026
Subject: S7-2026-15 Comments From: Pamela Marcum Affiliation: Jun. 20, 2026 I am retired and have watched the very wealthy and corporations slowly eat away at any regulations that would mean disclosure of their wealth and taxes. We need to keep this regulated and made public at each quarter so people know where the taxes aren't paid and how the salaries of corporate leaders and owner avoid it.

Pamela Mariscal — Jun 20, 2026
Subject: S7-2026-15 Comments From: Pamela Mariscal Affiliation: Jun. 20, 2026 I have always believed that doing monthly, quarterly reports was the best way to know how a company is doing. It keeps them as honest as possible. It helps the people who do business with them,
especially banks to know what kind of a risk they are. I believe the reports must stay quarterly to keep honest reporting. Thank you. Pamela Mariscal, I am retired and live in yuma, az. I had worked in business for the first 30 plus years doing, payroll, accounts
receiveable, accounting, spread sheets monthly, quarterly, and yearly. I later went back to school and received 3 degrees. I'm a firm believer of true transparency. Keep honest books.

Have a great day!

Pam Sears

Pamela Whitaker — Jun 20, 2026
Subject: S7-2026-15 Comment From: Pamela Whitaker Affiliation: Jun. 20, 2026 Companies Should HAVE TO REPORT QUARTERLY EARNINGS. If consumers, employees and investors are spending their money and time assisting to build a company/owners and it's/their assets, the Quarterly Reports of Everything, Especially Finances, SHOULD BE REPORTED. Too many companies (the rich) are making money "hand over fist" and Not being held accountable for their UNLAWFUL actions/practices. If their business model/practices are "above board" and LEGITIMATE/LEGAL, they Wouldn't And Shouldn't have a problem reporting Quarterly Earnings as required And Necessary.

And if companies Require "necessary" information from employees, investors And consumers for whatever reason they deem necessary, turnabout Should be Fair play.
Unfortunately, I am disabled and can No longer work but I have family And "friends" who do, so I'm speaking/protesting on their behalf.

Pastor — Jun 20, 2026
Subject: S7-2026-15 Comment From: Pastor Affiliation: Jun. 20, 2026 As a consumer I need accountability from companies in which I invest. Accountability to all people through timely, ie daily, weekly and monthly oversight.

Patricia Corey — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Patricia Corey Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
I believe quarterly disclosures are essential to my personal investments.
A company's position can change substantially over the course of a year and blind side investors if

quarterly disclosure is eliminated. A large portion of retirement investment is in the stock market. Current and future retirees rely on accurate information to maintain self sufficiency in retirement years. As public and private pensions become more scarce it is up to the individual investor to ensure they have adequate savings for the future. Elimating quarterly report would put retirement savings at risk and harm individual investors.
Please do not eliminate quarterly reporting.

Sincerely,

Patricia Corey

Patricia D Bartilucci — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Patricia D Bartilucci Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:

Patricia Jarosz — Jun 20, 2026
Subject: S7-2026-15 Comment From: Patricia Jarosz Affiliation: Jun. 20, 2026 Patricia Jarosz, controller CFO, As a controller, I believe the SEC must preserve quarterly reporting with CEO/CFO certification. It delivers timely, decision-grade data to investors and lenders, strengthens internal controls through a disciplined close every quarter, and forces rapid disclosure of emerging risks instead of letting problems compound unseen until year-end.

Patricia Jarosz
Senior Accounting Manager

Patricia Keelean — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Patricia Keelean Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Best practice and common sense dictate the need for quarterly reporting. Average investors, like

myself, need access to these reports to make informed decisions. Most importantly, however, this is about ACCOUNTABILITY - but you already know that.
This seemingly benign change in reporting requirements is just another way to stack the deck against the average American investor.
Leave the **** reporting rules alone!

Patricia Kennedy — Jun 20, 2026
Subject: S7-2026-15 Comments From: Patricia Kennedy Affiliation: Jun. 20, 2026 Patricia Kennedy, age 76, retired school teacher. Keep financial reporting quarterly. Keep our financial institutions accountable. Keep my savings safe. I'm 76. I don't have time on my side. If companies screw around and lose my savings, I have nothing to live on. I can't go back to work and start saving all over again or wait until the market rebounds and I get back what I lost in a few years. I may not have a few years to wait. Financial institutions MUST be hrld accountable to me quarterly.

Patricia Kimble — Jun 20, 2026

Patricia Pence — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Patricia Pence Affiliation: Jun. 20, 2026 I know putting my name on this is going to be possibly putting it on just another sketchy list, but here goes. My is Patricia Pence. I am totally against this. I am 73, still working and don't have nearly enough saved. I am a veterinarian at a Humane Society. If you chop a third off of what little I have and add the threat of social security become in greatly reduced in 2032, I'll be working until I die. Another one of Trump and his buddies' great ideas to screw America and hide the fact that a lot of companies are having problems due to Trump's tariffs.

This administration is a joke!

Signed

Patricia Pence

Patricia Pritchard — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Patricia Pritchard Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Reporting forces more honesty. Do not cut that down...

Patricia Quade-Hocking — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Patricia Quade-Hocking Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
For people thinking about investing in a company having the most up to date information is essential to making the best decision. Taking away this important step would leave investors open to making mistakes. To keeping it quarterly would be offering the most up to date information to assist a person to make the best decision. Why you want uninformed investors? It would not be an intelligent move. Important decisions require the most current information.

Patricia Y Marshall — Jun 20, 2026
Subject: S7-2026-15 Comment From: Patricia Y Marshall Affiliation: Jun. 20, 2026 I'm Patricia Y Marshall, a retired LPN staff nurse. I've been a nurse for 41 years. I'm against companies no longer having to reporting quarterly. Please continue making companies have to report quarterly. It doesn't benefit me , it benefits the companies if they don't report for 6 months. The savings are not worth the cost to me. I rely on quarterly information to make decisions. Longer gaps create an unfair advantage to corporate insiders. Optional doesn't fix the problem, the ones that opt in are often the ones whose investors need updates. Again please continue to make companies financially report quarterly to protect my savings and my future. Thank you.

Subject: S7-2026-15 Comment From: Patrick Daly Affiliation: Jun. 20, 2026 Sunshine is always the

best disinfectant and information is power.Any hoarding or hiding of such information has a very obvious purpose and that's not good for the little guy.As usual

---

Patrick Fortson — Jun 20, 2026
Subject: S7-2026-15 Comments From: Patrick Fortson Affiliation: Jun. 20, 2026 Do not make this change. The quarterly reports provide valuable information about how a company is performing. As a personal investor that level of transparency gives me confidence in the market to keep investing to achieve my family's goals for retirement, college, and teaching my kids how to invest smartly. The cost to companies of quarterly reports is minimal and already baked in. There is no major burden necessitating the proposed change yet the risks are huge when we lose transparency and holding corporations accountable.

-Patrick Fortson, Principal Scientist, Texas

Paul B. Rucker — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Paul B. Rucker Affiliation: Jun. 20, 2026 My name is Paul Rucker and I am an investor based in Minneapolis, MN. I want companies to report quarterly as they have done throughout most of my lifetime. The data show that this is a necessary level of transparency for individual investors to be properly informed about companies on the open market to enhance decision-making, in addition to increasing market efficiency.

Insider information (trading) may be more likely to overweigh fair public access to companies' financial health without sufficiently regular reports. I perceive no benefit to consumers from this proposed ruling, especially since quarterly reporting appears to drive more consistently higher valuations for the markets of nations employing this.

Please do NOT switch from quarterly reporting.

Thank you.

Paul Coscino — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Paul Coscino Affiliation: Jun. 20, 2026 This is a terrible idea; unlessed combined with a return to 1955 tax codes for the wealthy.
Paul Coscino

Paula Smith — Jun 20, 2026
Subject: S7-2026-15 From: Paula Smith Affiliation: Jun. 20, 2026 My name is Paula Smith, and I am a retired clerk typist. I live in northern Utah. Because of my retirement account, I am an investor in multiple corporations. As such, I depend on the honesty of those companies to pay dividends in the manner the contract requires. One Very Important means of maintaining that honesty is the quarterly requirement of signed, filed, legal documents WITH LEGAL CONSEQUENCES LOOMING.

This is clearly shown in the Enron Debacle, which I am old enough to remember. The proposed option to release an “8-K” statement (both to keep me and other investors informed as to the performance of the stock AND to advertise said performance to potential investors) would simply become, to some corporate officers, an opportunity to inflate performance in an “advertising” manner. This is a worrying concern for me. Of course, any executive who thought that way would believe he/his organization would be able to “right the ship” in less than another quarter, because of the half-year requirement that remains.

But the men who ran Enron into the ground were gamblers, gambling with other people’s money, and gamblers frequently become addicted to the risk and make dangerous choices! This setup COULD be described as “luring” one or more executives into gambling (in an illegal manner, nonetheless) with the stockholders’ money. That could become a defense we might see in a court of law.

I don’t understand what would be saved by this change in reporting, for the stockholders, indeed, for the country! This level of safeguards was imposed after Enron for a reason, and the SEC has not sufficiently explained what has changed. An ounce of protection is worth a pound of cure, remember.

Paula Wilson — Jun 20, 2026
Subject: S7-2026-15 Comment From: Paula Wilson Affiliation: Jun. 20, 2026 My opinion is vote NO!!

Paulette Montville — Jun 20, 2026

Subject: S7-2026-15 Comment From: Paulette Montville Affiliation: Jun. 20, 2026 In this day & age with so much fraud, insider trading, corporate shenanigans, etc, I want to see transparency!
I rely on quarterly information to make decisions, longer gaps create an unfair advantage for corporate insiders, "optional" doesn't fix the problem because companies that opt in are often the ones whose investors most need frequent updates, the savings to companies aren't worth the cost to me.
It's imperative that companies & corporations are held to strict principles & quarterly reporting requirements to insure the integrity and stability of the financial markets to hold them accountable and lessen the fraud, collapse and weakening of the requirements to protect me !!!!
Paulette Montville

Paulette Notari — Jun 20, 2026

Peggy Bach — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Peggy Bach Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission: we need to keep quarterly checks on companies. Six months is too long.

Peggy Hoff — Jun 20, 2026
Subject: S7-2026-15 From: Peggy Hoff Affiliation: Jun. 20, 2026 While the SEC has allowed insider trading for years in the halls of Congress, I would assume investigations have gotten more lax and less funded. But at the very least I would like to assume the pertinent data to hold people accountable would still be retained within the bureaucracy, if not the manpower to propel integrity. Without official quarterly reports required by law, accountability to the stockholders and American regulators, these important investigations, and possible legal action is thwarted. My own retirement funds are endangered without SEC oversight. I certainly wouldn’t survive on my social security.

Peggy Oak — Jun 20, 2026
Subject: S7-2026-15 From: Peggy Oak Affiliation: Jun. 20, 2026 Why would anyone think that not reporting quarterly earnings would be acceptable business practice is ridiculous. When an investor is putting their money into a company stock they should expect that company to report quarterly earnings so that if the company is not profitable they can sell their stock. Investors need accurate information because worldwide influences and political policies can rapidly affect their investment.

This is a very short sighted strategy that will allow corporations to make decisions that investors will not want or agree to. Stop allowing political influence of corporations and PAC monies from dictating policies that affect the PEOPLE and our investments

Philip Owens — Jun 20, 2026
Subject: S7-2026-15 Comment From: Philip Owens Affiliation: Jun. 20, 2026 6 months is to long.

Philip Palese — Jun 20, 2026
Subject: S7-2026-15 Comment From: Philip Palese Affiliation: Jun. 20, 2026 Nothing should be hidden. Defeats the whole purpose of reporting. Ridiculous.

Phillip Rower — Jun 20, 2026
Subject: File No. S7-2026-15 From: Phillip Rower This proposed rule is unjust. It's a corruption of the SEC. This is absolutely another unconservative action by the most unconservative government in my lifetime. We don't need more insider trading and less transparency. We should be expanding the amount of information provided to the public not eroding the publics trust in what is left of our institutions. Information is more economical than it has ever been before and costs are only going down. I don't see any burden here. Just another artificial opportunity for insiders to manipulate the market.

Phillip Williams — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Phillip Williams Affiliation: Jun. 20, 2026 Quarterly reports are needed to give early notification of problems. Just like a smoke alarm gives an early warning of a fire. Going to annual reports would be the same as having a smoke alarm that doesn't sound until it's engulfed in flames. Continue quarterly reporting.

Phillis Boone — Jun 20, 2026
Subject: S7-2026-15 Comment From: Phillis Boone Affiliation: Jun. 20, 2026 It's necessary due to corruption. Just look at the Trump families Financials and moat of the insider tradees8!

Phyllis — Jun 20, 2026
Subject: S7-2026-15 Comment From: Phyllis Affiliation: Jun. 20, 2026 SEC should be a world-class leader in financial practices. The regressive proposal to end quarterly reporting would destroy that potential. The SEC should serve and educate all investors, as opposed to facilitating the concentration of wealth for the wealthiest investors.

Phyllis Callender — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Phyllis Callender Affiliation: Jun. 20, 2026 Quarterly gives better information on a companies day to day and future business plans and executions.

polkadotlady123 — Jun 20, 2026
Subject: S7-2026-15 From: polkadotlady123 Affiliation: Jun. 20, 2026 Save quarterly reporting.!
I, Anne Buchalski, as owner of a small business in the State of Connecticut demand the SEC safeguard the retirement funds of myself, my employees and my fellow state residents and investors in the market.
We investors need 4 certifications a year by CEOs and CFOs to ensure our investments do not suffer another "Enron" disaster. Nothing has changed since 2002 and "Enron" to warrant a reduction in certifications and the SEC has provided no explanation as to why it has proposed this change. 8Ks and press releases aren't certifications and don't carry the weight or assurances of certifications. Even the SEC has called for a patch to this situation and **withdrawal** of this proposed absurdity of reducing certifications to 2 per year is the only solution.
To reiterate, Save quarterly reporting and certification.! Prevent another Enron disaster.

Pro fit Installation — Jun 20, 2026
Subject: S7-2026-15 Comment From: Pro fit Installation Affiliation: Jun. 20, 2026 Please do not let companies go dark for six months at a time. Their are hundreds of millions of small investors that make little money in the market because we do not have the resources to
gather data in order to make good decisions. Don Stowe/ Central Texas retiree.

Rebecca James — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Rebecca James Affiliation: Jun. 20, 2026 My name is Rebecca James and I live in FL. I manage $2 million in assets that are everything my husband and I have worked for and invested for our retirement. As retail investors we must do research and make judgment calls about whether a company continues to hold our trust for us to stay invested. Quarter by quarter, year by year, sector by sector we make decisions that make us financially successful. Do not think about this decision lightly. We need this info and must demand the reporting we have come to expect! You make decisions everyday that line the pockets of the wealthy. Please do not jeopardize a system that has worked to keep a modicum of transparency so that retail investors can navigate the stock market. If companies don't want to make their info public, they should take the company private!

Rebecca Kimmons — Jun 20, 2026
Subject: S7-2026-15 From: Rebecca Kimmons Affiliation: Jun. 20, 2026 You people are taking full advantage of having a vicious crook in the White House, surrounded by an assortment of low-lifes, some of them with fancy educations and resumes. They all stink, and so will you if you capitulate. Is there any decent person among you, or do you even know what decency is now? HOLD THE LINE for integrity, and if that line has been erased, DRAW A NEW AND BETTER ONE. Maybe your mothers didn’t know right from wrong and that’s why you don’t, either. If you need to get re-educated, re-sensitized, or made aware for the first time, I’ve got some jobs for you that would give you some insight. You with the reins in your hands—prove yourself worthy, if you even know what that means. Hold the line against corruption. Make rules that hold people accountable. My name is Rebecca Kimmons. I am a retired business owner, a career public relations practitioner who spent

an entire career in West Virginia, which is and was run like Hungary under Viktor Orban. I still believe in the promises of American democracy and in the power of the Constitution. Don’t trample it, like stampeding pigs. —Rebecca Kimmons, Charleston, WV

renee friedman — Jun 20, 2026
Subject: S7-2026-15 Comments From: renee friedman Affiliation: Jun. 20, 2026 Everyone must be held accountable in these times of corruption & continuous change, to keep everything just & safe for as many humans as possible! Do what you know is right, now before you are all brought to justice & your good lives become a shadow of what they were!

Renee Kerns — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Renee Kerns Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Citizens work, put money away for retirement so they can enjoy life. Allowing these companies to not be transparent would be a travesty. Our country is suffering BIG TIME due to the haves prioritizing their greed. Transparency and timely reporting is a must

---

Renee Kube — Jun 20, 2026
Subject: S7-2026-15 Comment From: Renee Kube Affiliation: Jun. 20, 2026 To Whom It May Concern:

My name is Marie Renée Kube. I'm a nonprofit program director. As such, I don't make a salary as high as those in comparable positions in for-profit companies. My investments are more important than ever, as I will need those funds during my retirement years.

We live busy lives, and quarterly reporting is a great reminder of how my investments are doing. It is only right to inform investors on how well their money is doing and how much dividends they have received on a quarterly basis. Cutting reporting to semi-annual provides less transparency to regular investors, as well as possible advantages to insiders.

I'd be willing to move my money to companies that value transparency to all of their investors.

Thank you for this opportunity to comment on this important matter,

M. Renée Kube

Renee Lorenz — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Renee Lorenz Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Less transperity means less Honesty. We need Honesty more than ever because of all the corruption going on in this country. Without quarterly information investors can't make heads or tails of how a company is doing & what to invest in. Knowledge is Power & it's only fair to investors to put out this information quarterly! If the SEC isn't allowing quarterly information, I believe it's trying to hide something from investors, something that will only benefit a few people & not MOST of Investors! Shame on U for even thinking of withholding this vital information. It'll be another form of corruption. I believe the Supreme Court would rule against such a move as it would violate the Freedom of Information Act. Don't let this happen!

Renee Picard — Jun 20, 2026
Subject: S7-2026-15 Comment From: Renee Picard Affiliation: Jun. 20, 2026 It's my money I have a right to see where and what's happening with it! This way I can make informed decisions.

Subject: S7-2026-15 Comments From: Robert 2nd Affiliation: Jun. 20, 2026 RJDesgrosellier
Senior Engineer - retired

Companies still must keep their books and still have to report to their boards. Whether somebody invests $10,000 or $10,000,000, less reporting really increases the impact to the smaller investor.
LEAVE IT AS IS!!
Large companies won't save much $ but the proposed change will mostly have a heavy impact on the level of trust of the SEC the public investor has already taken a hit on.
I believe the SEC should keep their quarterly reporting AS IS!!

Robert Copeland Investor — Jun 20, 2026
Subject: File No. S7-2026-22 From: Robert Copeland To me it seems it was just yesterday (2018-2024) that the SEC and CFTC were raging to have more transparency on SWAPS. Why would anyone wish to get involved with something that will be turned upside down in less than three years. In fact it seems to me that since Mr Orange came into office you have replaced everyone involved in that mishap and unwound everything that was done. Pitiful is the best I can come up with. The one I really like is binaural reporting for the company's. I bet investors love it in the end. Good luck.

Robert Couchman — Jun 20, 2026

robert highsmith lawyer — Jun 20, 2026
Subject: File No. S7-2026-15 From: robert highsmith i oppose this amendment. history demonstrates clearly need for clarity and responsibility. keep the rule intact verification quarterly.

Robert Kania — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Robert Kania Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission: I highly support cost savings to small businesses. However, if you make yourself a publicly traded company you're probably not that small of a business. Secondly, you should be well aware of the costs of reporting quarterly which is your duty to the public. This burden

is also your responsibility. This policy has a negative inpact for the common public and retail investors. The cost to the public and the damage that would be done to the integrity of the market is far more then the cost savings. I wanted to quote a bunch of cons to this proposal but I am sure you already have seen them all over the Internet. So I will quote this instead, "With great power, comes great responsibility!"

Robert Keat Chandler — Jun 20, 2026

Subject: S7-2026-15 From: Robert Townsend Affiliation: Jun. 20, 2026 After experiencing Enron I believe that quarterly reporting remains necessary.

Robert Wall — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Robert Wall Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Businesses are evolving faster and faster in this technological age. There is a need to be more transparent and frequent with information, not less. Individual investors need to see accurate reporting from companies to make sound financial decisions. Allowing a company to hide critical financial information for half a year is not acceptable. It allows more fraud, insider trading, and adds more volatility to the market which always hurts the smallest investors like me.
Do not move forward with this proposal.

Robert Watkins — Jun 20, 2026

rosely89 — Jun 20, 2026
Subject: Comment on S7-2026-15 From: rosely89 Affiliation: Jun. 20, 2026 Lydia Rose, retired NYS employee. I monitor my own retirement portfolio. Three months is not a long period of time overall, but when you look at the stock market, because of such frequent ups and downs in the market, it needs to be monitored every three months. Watching my portfolio drop and rise over this past year has been terrifying to me, but the three month monitoring helps me keep my eye on where to move my money to prevent mass loss. If I had to wait six months, I would take a much larger loss before I could make an adjustment in my portfolio. It just makes more sense for investment purposes, not everyone can afford to pay an expert to watch their money 24/7 so I monitor myself. Taking away the three month monitoring disenfranchises ordinary working Americans who are striving to build their own wealth. Please take into consideration the hard-working Americans who are just trying to build their retirements because Social Security will be disappearing within the next ten years.

Russell Krauss — Jun 20, 2026
Subject: S7-2026-15 Comments From: Russell Krauss Affiliation: Jun. 20, 2026 Hello,

I want to exprees my concern over changing from quarterly reporting to bi-annual 6-month. I worked for publically traded companies most of my life. The CEO of the company I work for recently stated, before this was a known proposal, the quarterly reporting kept a pulse on the market and was a good cadence to measure progress.

Six month outlooks projections will be less reliable than three. Most Americans depend on market investing to build retirement and need as much information as possible to make understand risk.

Changing from quarterly to bi-annual reporting will have investors flying blind. It wasn't good in the past and it will not be good now to go to 6- months.

The quarterly reporting keeps investors informed and their finger on the pulse. More time will only give more opportunity to hide negative outcomes.

Please reconsider this change and keep it to quarterly.

Thank you,
Russell Krauss,
Sr. Engineer

Ryan Mack — Jun 20, 2026
Subject: S7-2026-15 From: Ryan Mack Affiliation: Jun. 20, 2026 Rollback of safety measures for accountability of those with the most resources, oppurtunity and incentive to commit fraud is a litmus test for reliability and integrity of responsible legislative bodies. Keep, maintain and even strengthen those safety procedures, not denigrate the spirit of those measures and what led to their development.

Ryan S. Wright — Jun 20, 2026
Subject: File No. S7-2026-15 From: Ryan S. Wright SUBJECT: Non-Concurrence with Proposed Shift to Semi-Annual Corporate Reporting Framework Purpose: This statement serves as a formal non-concurrence regarding the proposed regulatory transition from a mandatory quarterly reporting framework to an optional semi-annual reporting mechanism. Robust, timely public disclosure is the cornerstone of market integrity. We must actively advocate for absolute transparency to safeguard the financial security of American taxpayers, retail investors, and consumers from the systemic risks of corporate opacity. Position and Justification: The degradation of the 90-day reporting cycle directly undermines the stability and fairness of the domestic marketplace. Non-concurrence is based on the following operational and strategic assessments: - Amplification of Information Asymmetry: Transitioning to a 180-day reporting window creates an unacceptable operational blind spot. While institutional entities possess the capital to secure proprietary, alternative data streams, everyday retail investors rely entirely on verified public filings. Extending the reporting interval creates an unequal playing field, leaving the public to make critical capital allocations based on stale, outdated information. - Inducement of Market Volatility: Reducing data frequency prevents the market from executing incremental, systematic price adjustments. Compounding six months of fiscal performance, supply chain disruptions, or liabilities into a single disclosure guarantees severe, unpredictable price swings. This volatility exposes public capital to sudden, catastrophic losses before remedial investment strategies can be executed. - Degradation of Corporate Accountability and Governance: Quarterly disclosures serve as a vital forcing function for management accountability. A semi-annual buffer allows operational deficiencies, collapsing margins, or product safety liabilities to remain shielded from public view for half a year. This delay in transparency stalls necessary market corrections, ultimately shifting the economic burden onto the consumer through inflated costs and compromised product stability. Conclusion: The proposed framework prioritizes short-term corporate administrative relief at the direct expense of systemic market health. Protecting the taxpayer and investor base requires more light, not less. The current quarterly reporting standard must be maintained to preserve public trust, ensure executive accountability, and maintain national market integrity.

Ryan Schilling — Jun 20, 2026

Sandy Macchioni — Jun 20, 2026
Subject: Hey SEC, keep it quarterly. From: Sandy Macchioni Affiliation: Jun. 20, 2026 I believe that more regulation/oversight of the SEC and corporations is needed now, not less. It is now time to codify rules, regulations and consequences relating to ANY governmental agency, corporation or oligarch in order to prevent market manipulation and outright fraud. It is way past time to insure that investor's, large and small, have the exact same financial information and are playing FAIRLY. A concept that this administration is not willing to accept. The fact that the SEC has already changed rules relating to IPOs, which is responsible for making Elon Musk the only trillionaire in the world and demonstrates a willingness to make accommodations for private corporation's and it's founders to gain early access to capital without an established track record of financial data and is therefore risky for public investors.

DO NOT CHANGE CORPORATE REPORTING REQUIREMENTS!!!!!

Sara Snoy — Jun 20, 2026
Subject: S7-2026-15 Comment From: Sara Snoy Affiliation: Jun. 20, 2026 We have "trained" U.S.

retirees - and future retirees - to invest in stocks and bonds with the promise of a secure future.
Please do not take away our ability to know what is happening with our investments by reducing the reporting required of corporation.
I am a retiree who worked as a human resource executive for various corporation - including Fortune 500 companies. I know enough that if quarterly reporting is reduce to semi-annually it will be to cash in my investments and put them somewhere safer - under the mattress.
Please don't do this. Protect investors - not corporations.

Sara J. Snoy

Sarah Adriance — Jun 20, 2026
Subject: S7-2026-15 Comment From: Sarah Adriance Affiliation: Jun. 20, 2026 We need as much transparency as possible. Protect smaller investors!

Please do not orchestrate another depression.

Sarah Burton-Price — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Sarah Burton-Price Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
As a CFO for 20+ years and an investor, I am completely opposed to changing to bi-annual earnings. This would have detrimental impacts on our stock market as analysts and investors would have to speculate how changes in market conditions, macro-economic shifts, and global political changes are impacting their investment. This will lead to higher volatility and a less efficient market. Keep qrtly earnings!

Sarah Furnish — Jun 20, 2026
Subject: S7-2026-15 From: Sarah Furnish Affiliation: Jun. 20, 2026 Please keep & strengthen laws that root out corruption and keep justice within reach!!!!!!

Sarah Hampton — Jun 20, 2026

Serena Akinaga — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Serena Akinaga Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Please strike down Rule S7-2026-15. Regular investors are being stripped of their abilities to compete in the markets.
thank you.

Seth King — Jun 20, 2026
Subject: S7-2026-15 Comments From: Seth King Affiliation: Jun. 20, 2026 Seth King, project manager

This is important because what is an economy where people are having what they have earned taken straight out of their hands by billionaires.

This is unacceptable and corruption personified

Regards,

Seth King

Seth Schroeder — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Seth Schroeder Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
I actively track 30 companies on any given day. I am managing 3 different accounts and each has an average annual return of at least 24.3% for the last 8 years. I use information from conference calls, in addition to macro economics and my observances in my community, to know which industries/ companies to track.
Removing the conference calls will hamstring my returns because I would be missing a vital piece (33%) of my information to make informed investing decisions. Without conference calls, I would be reduced to index funds and the market return pails in comparison to my 25% returning accounts.
Aside from my personal investing, this would be bad for businesses as well. Big businesses (mag 7) will get bigger while small businesses will struggle even more to raise capital to develop. If you can't tell, I am a personal fan of capitalism, which will suffer a major blow if this proposal passes.
Alas, although I could write a book on the evil of this proposal, I digress. Do not take away my ability to retire.

---

seweekes — Jun 20, 2026

Subject: S7-2026-15 Comment From: seweekes Affiliation: Jun. 20, 2026 The SEC, and all financial organizations need to have accountability to protect ALL the investors; not just the billionaires! If anyone changes are to be made in reporting, it should be MORE frequent; not less frequent reporting!

Sue Weekes

shada.williams16 — Jun 20, 2026
Subject: S7-2026-15 Comments From: shada.williams16 Affiliation: Jun. 20, 2026 Mrs. Williams, Program Manager

We should all learn from the mistakes of the past. This country is being ruined by greed that is like an insatiable lion. We need to keep order or the balance that is already so precarious will crumble. We little people work harder than our government to make the money it robs us blind for and we either give it up or go to prison. If you all let this happen and we lose the little bit of gains we try to make in an attempt to grow beyond our basic work checks will be the last straw. The order you hold will not prevail. We are tired of being tired while the rich are literally getting fatter and richer through cheating. Do the right thing and make sure we all get a fair shot!

Shannan — Jun 20, 2026
Subject: S7-2026-15 Comment From: Shannan Affiliation: Jun. 20, 2026 Corporate America is destroying our country and you want to help it along. Corporations were designed to help Americans and you've literally destroyed the American dream by making it impossible to own a brick and mortar small business. What happens when you have it all and the people have nothing? Why do you want to live in a world where the majority are suffering while the few rejoice? I'm a nail technician and I've been watching business decline because of the economy, fortunately I'm in a tourist area so we do get those with summer homes and vacationing, but the decline has been the most obvious this past year. It's also scary that the credit cards that are starting to be used more frequently aren't your mainstream bank credit cards. They're the low limit 35%/$250 annual fee credit cards from small pop up providers. This is not a good direction. It's sad to have a country whose literal foundation is built on hedging bets, and now you want to make it harder for the average American to participate and be successful in the scheme you've built. It's disgusting!!!

It's problematic to give businesses even more places to hide info from the public and investors. Transparency is what everyone wants and needs!

Sharon Peterson — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Sharon Peterson Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Reducing the information available to investors greatly increases their risk.
As is the case for most Americans,, it is very important that I closely monitor my investments, and have up-to-date data to help hedge against market volatility and the fast changes occurring in the market due to automatic trading and AI-based trading.
Quarterly disclosures keep retail investors informed and better able to make wise choices in support of their financial future.
Do not make this change. Thank you.

Sharon Plummer — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Sharon Plummer Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
To much can be swept under the rug in 6 months time. I want to know that my retirement savings are being managed appropriately. To me that means timely reporting. A lot can happen in 3 months but by the time you get a 6 month report your account has tanked or you have invested more money in a company that was in freefall. The SEC should never minimize the reason they even exist.....the 1929 Stock Market Crash due to fraud, insider trading, and market manipulation. Greed continues to flourish and going dark for 6 months only causes mold to grow faster. Your job is to remain vigilant... .not take a 6 month vacation.

Sharon Vopal — Jun 20, 2026
Subject: S7-2026-15 Comments From: Sharon Vopal Affiliation: Jun. 20, 2026 We are a one-income, middle-income retail investor. We are not financially savvy and don't have any inside tracks on the stock market. What we do have, however, are quarterly reports and we rely on them to make the decisions that we make about our retirement savings. This is critically important to the small investor, like us. What this proposed rule change does is keep people like us in the dark and it protects the insiders and it pads the pockets of the rich, so they become even richer. Are you trying to eliminate the middle-class entirely, so that the US is left with two socio-economic classes - the rich and the poor? Because that's what doing things like this accomplishes. And stop kidding yourself if you think making this optional will protect me, because we all know when it comes to the mighty dollar, the people who have more and never satisfied with how much they have and will do anything to make more, even if it means doing so off the backs of people like me and my family.

Sincerely,
Sharon Vopal
Self-employed/Independent Contractor

Shaun Kelley Jahshan — Jun 20, 2026
Subject: S7-2026-15 Comment From: Shaun Kelley Jahshan Affiliation: Jun. 20, 2026 Dear SEC Administration,

I am writing to urge you to maintain the requirement that publicly traded companies publish result, verifiable reports. Quarterly reports provide essential information for private individuals, who do not otherwise have access to it. Eliminating these reports will provide marginal benefits to the few while causing proportionally greater harm to the many and to the reputation of the SEC.

Dr. Shaun Kelley Jahshan, Writer and Educator

Shawn Simmons — Jun 20, 2026

Subject: S7-2026-15 Comment From: Shawn Simmons Affiliation: Jun. 20, 2026 Shawn Simmons Head of Digital Marketing

For more than 50 years, public companies have been required to report their financial results every quarter, providing investors, regulators, policymakers, and the public with regular insight into corporate performance and risks. A proposal to reduce that reporting frequency would allow companies to go up to six months without publicly disclosing key financial information.

While corporate executives, boards, attorneys, and large institutional investors often have access to extensive information and resources throughout the year, individual investors, retirees, employees, watchdog organizations, and local communities rely heavily on public disclosures to understand how companies are performing and whether they are meeting their obligations.

Reducing reporting requirements would weaken one of the most important safeguards supporting fair and transparent capital markets. Less frequent disclosures create longer periods during which problems can go undetected, including financial mismanagement, governance failures, compliance issues, or other activities that may harm shareholders and stakeholders. Transparency is not merely an administrative requirement; it is a cornerstone of market accountability and investor confidence.

At a time when Americans are demanding greater transparency from institutions, moving away from quarterly reporting sends the wrong message. It risks limiting oversight, reducing accountability, and creating information gaps that disproportionately disadvantage ordinary investors while benefiting those with greater access to resources and insider knowledge.

Lawmakers should carefully consider whether reducing disclosure requirements serves the public interest. Strong, consistent reporting standards help protect investors, strengthen market confidence, and ensure that public companies remain accountable to the people whose investments, retirement savings, and livelihoods depend on them.

Sincerely,
Shawn A. Simmons

Sheila Johnston — Jun 20, 2026
Subject: S7-2026-15 Comments From: Sheila Johnston Affiliation: Jun. 20, 2026 I believe quarterly reporting should remain in effect. It is an unfair advantage to cooperate insiders to increase this reporting to 6 months. The average everyday individual will not benefit from a 6 month reporting window. Most companies will not choose the option to report more often. The savings to companies are rarely, if ever, passed on to the consumers in the modern United States. It is therefore my belief that quarterly reporting will protect the consumer to a greater extent than 6 month reporting.

Thank you,

Sheila Johnston

I would like to express my dismay at the possibility of corporations to only report semi-annually!
I rely on quarterly reports to keep abreast of my personal financial investments to know when to adjust my holdings.
Given these reports are available TO Corporations for their own use, I don't understand Why they could not also be available to the investors as well! Seem a bit suspicious to me that the SEC would side with corporations and NOT with the American people!

Shelia LeFridge — Jun 20, 2026
Subject: S7-2026-15 Comments From: Shelia LeFridge Affiliation: Jun. 20, 2026 Shelia Brooks-LeFridge
Nonprofit CEO

Quarterly reporting is about accountability to investors, stakeholders, and avoiding improprieties. What is not inspected cannot be expected. Quarterly reports allow inspection of financial information every 90 days. Doubling the time between visual information creates double the amount of time to make educated decisions or notice any concerning changes. For me, when I look, I want updated and timely information to make my financial decisions. It's clear the broader timeline in other global markets have revealed
problems with corporate oversight. Corporate ethics are already lax and highly suspect. We do not need to provide additional latitude that may disadvantage investors and interested persons on the outside.

Shelia Brooks-LeFridge, M.A.O.M.

Shelley Perry — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Shelley Perry Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
I am not a wealthy person.
I grew up very poor. Myself & my family deserve to use our money to grow what little we have into more so that we can retire comfortably.
This country is quickly growing into the "HAVES & HAVE NOTS".
The HAVES keep getting more & more while living off of the backs of the "HAVE NOTS". While they continue to grow their wealth, we continue to loose anything & everything that we gained & what we are trying to sustain.
It isn't right! Those in power do not deserve more information to keep growing while it is taken from us.
Please, find your ability to stand on MORAL GROUND! To help everyone obtain financial security.
I'm not seeking to become wealthy. I'm seeking & looking for financial security & equality for all American Citizens.
It's supposed to be what this county is founded upon!
It's what this administration is trying to take away.
Thank you for reading. May God guide you to obtain & uphold your moral fortitude in a very unmoral world!

Sonja Bontrager — Jun 20, 2026
Subject: S7-2026-15 Comments From: Sonja Bontrager Affiliation: Jun. 20, 2026 Sonja Bontrager

Corporations have a responsibility to investors and to the people living in the regions that support these companies through shared natural resources, infrastructure, health, and the education of workers.

50% less reporting proportionately reduces accountability to investors and disregards hosting communities and all connected through commerce.

Maintain communication—this could even be increased in times of AI. Each month, I trust a company with my earnings from a modestly-paid position as an educator. These companies can ensure me every three months that my confidence is respected. Isolating a company from all who support it would be a departure from the traditional values of a nation founded by “we the people.”

Sonja Bontrager

Stacey Spina — Jun 20, 2026
Subject: S7-2026-15 Comment From: Stacey Spina Affiliation: Jun. 20, 2026 As a small business owner, I am not in agreement with reducing reporting from quarterly to biannually. If it's more work in record-keeping and reporting, so be it. I would never say to a doctor it seems like more effort to wash your hands every time you treat a patient, its a doctor's business to do no harm. Why would financial reporting need to be cut back on, profit is a company's business? The companies should know how they're doing. Sharing it with investors and regulators seems obvious to me.
This seems like just more abdicating of responsibility which I believe is weakening the fabric of our country, and degrading the strength of our economy.
It also allows for those in the know to mislead investors while executing their own salvation. I have owned a daycare, a retail store, and now a mental health program. In each of these, at any time, I knew what was happening financially. So should larger businesses.
Thank you for your consideration.
Stacey Spina, LCSW

Stacy — Jun 20, 2026
Subject: S7-2026-15 Comments From: Stacy Affiliation: Jun. 20, 2026 Please continue with the tradition of quarterly reporting. It brings just a little more transparency and mandatory truth to the process. I believe most investors will benefit from having the extra knowledge that quarterly reporting brings. My name is Stacy Wilson and I an a recently retired person who now lives in rural Oregon but I was a cellular and molecular biologist for over 30 years. Quarterly reports enabled me to invest carefully to provide for my retirement. Thank you for your attention.

Stacy Hornstein None — Jun 20, 2026
Subject: File No. S7-2026-15 From: Stacy Hornstein The Commission should reject any move to semiannual reporting because it solves a problem that does not exist while creating a harm that is real and measurable. The theoretical justification — that quarterly reporting drives short-termism — is not supported by the evidence; research from the CFA Institute on the United Kingdom's experience with reduced reporting frequency found no measurable effect on corporate investment behavior, meaning the SEC would be trading a concrete benefit (transparency) for a speculative one (longer-horizon management). That tradeoff falls hardest on ordinary investors. Doubling the information gap between insiders and shareholders is precisely where volatility, uncertainty, and mistrust take root — and the companies most likely to opt out are smaller, less-covered businesses where independent oversight is already thin and reduced disclosure makes them harder to monitor and harder to own. This proposal moves in the opposite direction of Regulation FD, which was designed to level the informational playing field; this levels it downward. The market itself offers the most direct rebuttal: the entire S&P 500 files quarterly, and the S&P 500 is at an all-time high. If quarterly reporting were crushing American capitalism, the evidence would show it. It does not. The Commission should not reduce disclosure requirements for individual investors in exchange for a benefit the data does not support.

Stan Jenne — Jun 20, 2026

Subject: S7-2026-15 Comment From: Stan Jenne Affiliation: Jun. 20, 2026 As a former board member of a community bank, retired CPA, retired Certified Fraud Examiner, and retired professor of accounting I strongly disagree with changing the reporting of public companies from three to six months. Any well run public company compiles monthly and quarterly reports for their board of directors. They have been providing quarterly reports to the public for decades. All publicly held corporations have all of the systems in place to continue quarterly reporting. Now with the ability to report electronically the cost of quarterly reporting is nominal. The only ones who benefit from semiannual reporting are those with insider information. Please do not change the requirement for quarterly reporting to semiannual reporting!

Stanley Walczyk — Jun 20, 2026
Subject: S7-2026-15 From: Stanley Walczyk Affiliation: Jun. 20, 2026 Commissioners,
I find it unconscionable that you would even consider weakening the reporting requirements of business to their shareholders. These reports are the only way to ensure important data is provided to the shareholders. They provide a critical measure of accountability for the people we have invested our hard earned money in. With the overwhelming amount of our countries wealth invested in the stock market it is essential that timely data be provided to the investor.

If similar requirements were made on our publicly (tax) funded entities maybe we wouldn’t have a huge deficit fraught with waste, fraud, and abuse.

Respectfully
Stan Walczyk

Stephanie M Maloy Retired — Jun 20, 2026
Subject: File No. S7-2026-15 From: Stephanie M Maloy Dear Sir or Madame, I don't know what is driving these reporting changes, but as a retiree who is dependent on my IRA investments, I don't want them to go forward to make the changes from the existing monthly and quarterly reporting practices. The markets are easily manipulated by news and policies, and delaying reports will not only hinder investment choices, but also puts its thumb on investing on the whole markets and could cause undue investment losses throughout the year. Please do not make the changes. Sincerely, Stephanie Maloy

---

Stephanie Molenstra — Jun 20, 2026
Subject: S7-2026-15 Comments From: Stephanie Molenstra Affiliation: Jun. 20, 2026 Stephanie Molenstra, police detective. Please keep the quarterly reporting. I've worked hard all my life to invest my money and to invest wisely. I constantly review my invests and read the reports as they come out. Not only for stocks I hold, but for those I'm interested. I'm saving for my future, there is no reason that someone like me should not be able to obtain the most current up to date reports every 3 months. A lot of things can happen in a short period of time even in 3 months, but to change

reporting to 6 months is unfair to the everyday investor like me.

Stephanie Paull — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Stephanie Paull Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
As stated already, the information provided gives detailed information of where companies are at that quarter. They provide guidelines on a regular timely basis. Why mess with something that's been done for 50 years and provides current statistical information on a company's standing. Per quarter. Tech and business news refers to quarterly often. Can imagine information annually. You don't see trends and growth or loss at which quarter breaking things down.

Stephanie Smith — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Stephanie Smith Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
We've already experienced issues back in 2008 with the lack of oversight in predatory loans in the housing market. New laws were put in place to protect the American people because of this. We don't need to allow less transparency on Wall Street by hiding information from retail investors. This could lead to financial disasters for America.

Stephany B Grindol — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Stephany B Grindol Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission: I would like you to continue with quarterly reports. Keeping close watch in my investments is important to me and the quarterly disclosures are imperative to the health of my investments. I do not want to wait 6 months to know how my investments are doing, 3 months is long enough.

Stephany Castillo — Jun 20, 2026
Subject: S7-2026-15 Comments From: Stephany Castillo Affiliation: Jun. 20, 2026 Quarterly reporting helps me discern and make better choices of where to make my investments as a retail investor for my future. I'm doing the right thing by starting early, but I need transparency to be able to make good choices so that the investment actually grows and is worth the effort when I need it.
Stephany, PhD student

Susan Ahearn — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Susan Ahearn Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:

Why are you changing the quarterly report system which has worked so well for so long?

You make me suspicious. The SEC seems to be hoping for the benefits of insider trading, which IS illegal. Even though DJT's pals have seemingly pulled it off and gotten away with it, NO ONE SHOULD! Especially the folks charged with regulating the system in the first place.

So why not leave it the way it is, and let those who do their homework benefit from their labor. Don't pull the rug out from under decent investors. Thank you.

Susan S. Ahearn
(Just learning and wanting equal opportunities.)

Susan Anderson — Jun 20, 2026

susan boos — Jun 20, 2026
Subject: S7-2026-15 Comments From: susan boos Affiliation: Jun. 20, 2026 As a retired lifetime earner, investment club member and previous employee of a fortune 500 company, I know what a pain it is to do these reports every quarter however it is imperative that this information is given as frequently as possible. We know now that companies lie, cheat and steal and the only way an individual investor can get an inkling that it is happening is those reports. It puts them at a disadvantage. Please do not change this!
Thank You
Sue Boos
Milwaukee, WI

Susan Brown — Jun 20, 2026
Subject: S7-2026-15 From: Susan Brown Affiliation: Jun. 20, 2026 My name is Susan Brown and I was a technical writer in Northern California before I retired. When the Enron scandal broke, I was sickened by the blatant disregard, disrespect, and willingness to ignore the rule of law.

The quarterly reporting requirement for CEO's seemed like appropriate and logical guide rails to keep the temptation in check, so I can't imagine why reducing that oversight seemed like a good idea!

Please, keep the original quarterly reporting schedule; it just makes sense.

Susan Burnett — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Susan Burnett Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Please do not change the rule whereby corporations must report every three months rather than every six. This change would be harmful to investors, including myself. Thank you.

Susan Castro Retail Investor — Jun 20, 2026
Subject: File No. S7-2026-15 From: Susan Castro I oppose allowing companies to replace quarterly reporting with semiannual reporting. Quarterly reports provide important transparency for ordinary

investors and help reduce information advantages held by insiders and large institutions. Reducing reporting frequency could delay discovery of financial problems, weaken market confidence, and make it harder for individual investors to make informed decisions. The SEC's mission includes protecting investors, and this proposal risks reducing timely access to material information.

Susan Colie — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Susan Colie Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
The SEC should not take vital quarterly disclosures away from us as they help the public to make informed decisions and would absolutely blindfold retail investors!!
Thank you!

Susan DAmico — Jun 20, 2026

Susan Davis — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Susan Davis Affiliation: Jun. 20, 2026 Public companies need to remain transparent, and quarterly reporting aligns with this. Companies want people to continue to invest in them, and trust is a large part of financial support. Communicating openly and honestly plays a large role in stakeholders verbally and financially advocating a company. The notion of returning to biannual reporting hints at hiding and covering up business activity. The economy is in a negative state for a majority of Americans. Those that can afford to invest do not want to endure the impact a return to biannual reporting would produce.

Continue with quarterly reporting.

Susan Davis, educator
Bluffton SC

Susan Denise Beasley — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Susan Denise Beasley Affiliation: Jun. 20, 2026 Denise Beasley, substitute teacher, Cullman County AL 35098. We need to protect money people have saved. If the dollar bill does keep going down in value world wide. The way it was from 1955 til 1970

will be better than if the SEC gets to change the report from quarterly.

Susan DeSaulnier — Jun 20, 2026
Subject: S7-2026-15 From: Susan DeSaulnier Affiliation: Jun. 20, 2026 We must not allow them to have less watchdog reports . Indeed it is the only way to protect US. Greed must not be given an easy path , it is what got us into the mess that is 45/47 !!

Susan Glenn — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Susan Glenn Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
I feel this should be a monthly report. So no I don't support the change to every 6 months. I really need to get this information every 3 months. Please don't change. I feel left out in the dark as it is. This is my money and I want to know how it is working for me. I want the company to be clear and upfront with information about what is happening with my investment. And I want that shared often as I said every month would be good.

Susan Goldin — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Susan Goldin Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Information about public companies is essential to everyday investors and big investment firms. Please keep the quarterly reporting rule. Allowing public corporations to not provide the information investors need to know about their corporation is clearly allowing and, in fact encouraging corporations to not be transparent about their finances with the public. The quarterly reporting rule needs to remain intact. It surely can not be a great corporate burden to provide important information to those they hope will invest in their company on a quarterly basis.

thank you.
Susan Goldin

Susan H — Jun 20, 2026
Subject: S7-2026-15 Comment From: Susan H Affiliation: Jun. 20, 2026 I am of the opinion that Wall Street Financials should be OPEN and visible Monthly, and not Bi-annually. At the very least, keep what we have now.

Susan Hughes — Jun 20, 2026
Subject: S7-2026-15 Comment From: Susan Hughes Affiliation: Jun. 20, 2026 Why? Do they think this is a good idea? The only ones who benefit are the LEO'S and CFO's, and they're the ones who are supposed to be protecting US. Show us your arguments, and then your stock portfolios.

Susan Johnson — Jun 20, 2026

Susan Sawyer — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Susan Sawyer Affiliation: Jun. 20, 2026 Susan Sawyer
Retired Public Servant
Sacramento, California

This matters to me because while a quarterly report is a pain to investment groups, it is as near to real time reports that Joe and Jane Citizen Investors have as a tool to manage their finances and investments. I am old enough to remember when most Americans had little to no access to this type of wealth building. The stock market was only for the chosen few and was presented as a very mysterious process. Since the Institutes went quarterly, more and more average investors had a chance to invest, see "real time" results and allowed for timely investment corrections, when needed. It is this type of quarterly investment information that allowed me to retire on firmer financial grounds than just a pension (and many pension plans were eliminated during my working years)

and/or Social Security alone. 1955 norms need to stay in the past; keep the quarterly reports to assist average investors!

Susan Wells — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Susan Wells Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
I am a retail investor and I'm certainly no financial expert. But I do rely on the quarterly statements to keep me informed about what is happening in my accounts. If I have any questions or concerns I can reach my financial advisor to clear up my understanding and we can, together discuss any changes that might be warranted. Moving to a 6 month statement would be quite detrimental to my own knowledge and to my accounts.. we need the quarterly statements to be continually aware of the movements of our accounts. There is so much that can go on, negatively and positively, that the account owners should be made aware of in a timely manner. Continue the quarterly statements please.

Susan Wilder — Jun 20, 2026
Subject: S7-2026-15 Comment From: Susan Wilder Affiliation: Jun. 20, 2026 I cannot comprehend why you want to return to standards change 60 years ago. Do you want to steal without consequences? Lie to the American people? Do not change the reporting. Transparency now.

SUSAN WRAY — Jun 20, 2026
Subject: S7-2026-15 From: SUSAN WRAY Affiliation: Jun. 20, 2026 Susan Wray, retired, Longwood, FL. I remember Enron. Signing off on a quarterly report is working. We haven't had another Enron scandal, we haven't had another CEO claiming they "didn't know" fraud was committed. This was put in place to protect investors, like me, from illegal activity. The quarterly reports with CEO's names on the dotted line gives us accountability. Please do not change what is currently working.

Tammy Hutchinson — Jun 20, 2026
Subject: S7-2026-15 Comment From: Tammy Hutchinson Affiliation: Jun. 20, 2026 Following our thorough deliberations regarding the **[insert specific document/report/communication, e.g., 'proposed policy brief' or 'findings of the recent investigation']**, my strong recommendation is to proceed with its immediate dissemination in its current, unedited form. It is paramount that this information reaches the public precisely as it stands.

Our commitment to transparency and accountability necessitates full disclosure. Any modifications or delays in sharing these details could inadvertently compromise the integrity of our message and erode the public's trust. Providing the complete context enables our stakeholders to make informed judgments, participate meaningfully in discussions, and fully grasp the implications.

The public has a fundamental right to access comprehensive information that impacts them. Upholding this principle ensures clarity, prevents speculation, and reinforces our dedication to open communication. Therefore, I urge that we maintain the current version for public release, aligning with our overarching goal of fostering an informed and engaged community.

Tammy Smith — Jun 20, 2026
Subject: S7-2026-15 Comment From: Tammy Smith Affiliation: Jun. 20, 2026 It is imperative that quarterly reporting remain in place as it is in the best interest of stockholders and the public. We

have the right to as much information related to investments as is possible so keep the current system in place. It should be required by law so that this lawless administration cannot try to dupe the public. Tammy C. Smith CFNP-BC, MSN. MY INVESTMENT/RETIREMENT ACCOUNTS ARE MY HARD EARNED DOLLARS FROM A LIFETIME OF WORK IN THE MEDICAL PROFESSSION. I WANT TO BE ABLE TO SEE HOW COMPANIES ARE PERFORMING SO THAT I AM ABLE TOMAKE INFORMED DECISIONS ABOUT MY HOLDINGS.

Tammy Taz Diaz — Jun 20, 2026
Subject: S7-2026-15 Comments From: Tammy Taz Diaz Affiliation: Jun. 20, 2026 This would be devastating for our economy. Not only would it put investors at greater risk but would erode investor confidence in publicly held companies. I would expect a massive shift from investing in businesses to lower risk investments, reducing available operating cash for these big companies. D.T. might see this as a way to make his rich friends increase their short-term gains, but it's not going to benefit them in the long run, unless they think having more time to pursue a doomed-to-fail business plan without telling their investors is a good thing.

Tara Ballard — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Tara Ballard Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
I was graduating high school when Enron fell out. It affected my mother's retirement. I witnessed people lose everything. It was devastating.
Corporations have proven time and time again that they need someone to hold them accountable and will continue to need that accountability. Greed makes people do stupid things and the people of the United States have had enough.

Not only should these regulations stay in place, I suggest adding more review periods as corporate fraud is rampant at this time. Please don't put the average investor at risk. Continue holding them accountable and protect the people.

Taryn Ravosa — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Taryn Ravosa Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
this proposal is Terrible for the everyday investor. Without a quarterly report on how the company is doing how do you feel comfortable that an investment is safe. It would be unfair to hide any pertinent information where the consumer would possibly lose money due to the fact that a company may be hiding information Please do not pass

---

Tasha Fulkerson — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Tasha Fulkerson Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
We need more transparency not less. Eliminating the requirement for quarterly reporting will disadvantage retail investors and increase the potential for companies to hide bad performance so investors can take action that reflects that performance. There is no need for this regulation other than to further stack the deck for those who wish to game the system for corporate insiders.

Tawny Vernau — Jun 20, 2026
Subject: S7-2026-15 Comments From: Tawny Vernau Affiliation: Jun. 20, 2026 Everyday people need to plan for their retirements. There is absolutely no reason to hide what the economies doing. And it feels very deceitful.

Do not make it more difficult for individual investors.

Tempe Goodhue — Jun 20, 2026
Subject: S7-2026-15 Comment From: Tempe Goodhue Affiliation: Jun. 20, 2026 From Temple D. Goodhue, retired.

I do not own mutual funds, only individual stocks. I want my financial advisors to have detailed information on all of my holdings. In general, I consider transparency a virtue, and efforts to duck it highly suspicious.

Thank you for reading this.

Teresa Eickhoff — Jun 20, 2026
Subject: S7-2026-15 Comment From: Teresa Eickhoff Affiliation: Jun. 20, 2026 Teresa Eickhoff. Global Accounts Payable

It should remain quarterly. Public companies should be held accountable to report their financial state more than 2x a year. It is not fair to investors. There would be more fraud, individuals in a company that is tanking could sell off their shares and benefit, many things can go wrong in 6 months and the cost to file is minimal.

Teresa

Teresa Herrera — Jun 20, 2026

Terrie Reilly — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Terrie Reilly Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Transparency is utmost in transactions. Real and timely information is required for all participants.

Terry and Linda Ator — Jun 20, 2026
Subject: S7-2026-15 Comment From: Terry and Linda Ator Affiliation: Jun. 20, 2026 Changing reports from quarterly to semi-annually just reopens the door to former abuses. This change will not benefit the average investor and makes abuses such as Enron much easier.

Terry Brogan — Jun 20, 2026
Subject: S7-2026-15 Comment From: Terry Brogan Affiliation: Jun. 20, 2026 Stopping fraud requires accountability to the use of fund. Do not change the quarterly reports. If a company choses to use funds from citizens, there needs to be open reporting. If companies do not want public funds, return to the private funding and get out of the market. Companies owe quarterly reporting to people who invest.

Terry Brogan Former Telco Engineer

Terry Morris — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Terry Morris Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission: As a professional Financial and Statistical Analyst I am horrified that this reduction in visibility is even being considered. Corporations perform extensive manipulation to create favorable financial positions already to mislead their investors. Why give them extended room to cook the books?
Decisions are made and metrics are evaluated based on the quarterly reports. In this current fast-paced environment where companies are bought, sold or otherwise acquired in short timeframes, these quarterly filings are critically needed - by outside investors!

Terry Raubacher — Jun 20, 2026
Subject: S7-2026-15 Comment From: Terry Raubacher Affiliation: Jun. 20, 2026 The continued effort to eliminate the middle class. I am sure all is well for those in the US Congress, Presidency (and offices therein), and Supreme Court, who have continued access to insider trading. Those of us in the middle and lower classes have no chance. Change like this helps the groups above (the inside traders) and the ultra rich because they all need more.

Terry Timms — Jun 20, 2026
Subject: S7-2026-15 From: Terry Timms Affiliation: Jun. 20, 2026 Keep corporations LEO'S honest. Require quarterly reporting!

The Ankeny Klothing Exchange — Jun 20, 2026
Subject: S7-2026-15 Comment From: The Ankeny Klothing Exchange Affiliation: Jun. 20, 2026 There is currently under consideration a change to require public companies to only issue financial statements every 6 months instead of the current requirement of doing so every 3 months. For current stockholders and potential stockholders at a disadvantage. Those within the companies or with other close ties to the company will know more quickly of changes that occur within a company. And the rate of change within the country and the world has not slowed, but has rather increasd! Wars, epidemics, catastrophes all can start or happen without much warning. The impact and how they affect a company needs to be possibly commuicated more frequently buy the company.

Certainly dublong the time in between public reports is NOT appropriate.

For protection of the general public, a change to the public reporting requirements to only require public companies to do so every 6 months needs to be rejected. It is a move in the wrong directions!

Thank you.

Jerry Linde

The Motley Fool Community Qualified Trader — Jun 20, 2026
Subject: File No. S7-2026-15 From: The Motley Fool Community The last time something like this was attempted was in 2000. Here we are 26 years later trying to head off yet another attempt to reduce transparency to investment banks, retail investors, and traders of all sizes, are going to have to find alternatives to investments that provide more transparency. Personally, I would move my trading business out of the country and trade in other markets that understand the importance of transparency and the trust level of both private and public equity markets. Ask yourselves this question: When was the last time deregulation paid off for the country?

The Petravicks — Jun 20, 2026
Subject: S7-2026-15 Comment From: The Petravicks Affiliation: Jun. 20, 2026 Dear commissioners. I do understand that quarterly reporting has a downside, however it provides a great deal of trust in the markets. I believe establishing trust each quarter is fundamental, and that reporting framework can be modified to put more emphasis on a firms long term. I urge you to keep the quarterly reporting cadence, and work to provide long term short term balance in the reports.

Thomas Sidlinger — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Thomas Sidlinger Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:

I have been on corporate cases totaling over $31 billion in plaintiff awards.
As a plaintiffs' attorney, quarterly reports give me updated information about subject corporations during class action and multi-district litigation. Financials, changing corporate structure, litigation summaries, and market strength. I have used quarterly summaries to decide both to sue and not sue corporations.
Without this information, I would have decided to suggest litigation to my firm's relevant committee more often. Once litigating, I would have required more expensive work for the Defense to provide things through their expensive counsel, instead of just pulling that information myself.
Changes here would increase litigation risk and costs for companies. This likely extends to investor suits as well, but that's not an area of my expertise.
I therefore oppose this rule change.
Best,
Thomas Sidlinger
Kansas Bar No. 27230

Thomas Simpson — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Thomas Simpson Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
It is vitally important that investors have current information about the business they invest in. Rolling this ruling back will give insiders the ability to unfairly profit from activities that are not in the best interest of all corporate stockholders. If a business wishes to issue stock to raise money, they are now a public corporation and thus must act in the the best interest of shareholders, not just insiders. Requiring quarterly reporting helps to keep management accountable.

THOMAS SLAVIN — Jun 20, 2026
Subject: S7-2026-15 Comments From: THOMAS SLAVIN Affiliation: Jun. 20, 2026 The SEC should maintain Quarterly financial reporting by all companies as it has been in place for decades. It would be nearly impossible to monitor companies performance at 6 month intervals and would put the investment portfolios of small investors like me at a huge risk of downturn due to hidden corporate fraud and insider trading. Thank you!

Tia Hudson — Jun 20, 2026
Subject: S7-2026-15 Comment From: Tia Hudson Affiliation: Jun. 20, 2026 Tia Hudson, English

Professor Emerata. Do not reduce the quarter reporting. Time after time corporations try to get the upper hand, and everytime they use that to profit themselves. For the
 sake of the Amercan people, keep the reporting quarterly. A longer time for making these reports will only harm the general American person by allowing time for corporations to cook the books. As did Enron before quarterly reporting was instituted.

Tia Hudson (she, her)

"If you are neutral in situations of injustice, you have chosen the side of the oppressor. If an elephant has its foot on the tail of a mouse, and you say that you are neutral, the mouse will not appreciate your neutrality."

Timothy Rue — Jun 20, 2026
Subject: S7-2026-15 Comments From: Timothy Rue Affiliation: Jun. 20, 2026 Timothy Rue, freelance CAD work.
This is a financial related topic and businesses are required to file quarterly. Perhaps this too should change to semiannual.

All insider trading gains + investment across the board to be used to pay down the national public deficit. Same applies within government using government insider information. No work arounds! Additional penalties and fines accumulate from the time of investment over time until settled with deficit paydown. Get it done!

Proof? Timing vs knowledge of information creation used in insider trading.

Regards,
Timothy Rue

Timothy Watt — Jun 20, 2026

Tina Cowan — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Tina Cowan Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission: As a small individual investor, the quarterly reports are vital. I read and use this information to check my investments and adjust regularly. This is how I build my portfolio. I am a single income household and rely on some of my investments for income and the balance to build a secure retirement.
Do not eliminate the quarterly reports as this will harm people like me and build a wall that will prevent me from accessing the information I and countless others by limiting information and will only help those with inside information. This will add another layer of volatility to the markets and has the potential to cause a stock market crash. This type of change would make me re-evaluate and potentially have the dnd effect t of me and people and groups like me to pull out if the stock market.

TINA CRUMPACKER — Jun 20, 2026

Tina Dickens — Jun 20, 2026
Subject: S7-2026-15 Comments From: Tina Dickens Affiliation: Jun. 20, 2026 Tina Dickens, retired financial employee. Public companies have reported their financial results every three months for over half a century. A new SEC proposal would let them go dark for six months at a time. While the executives, lawyers, and big institutional investors still know exactly how the business is doing, we would be the last to find out.

Tina LEVORSE — Jun 20, 2026
Subject: S7-2026-15 Comments From: Tina LEVORSE Affiliation: Jun. 20, 2026 In this age of gross

misbehavior by the people who hold the purse strings in this country and flaunt oversight regulations like they matter not at all, we need quarterly reports more than ever. My retirement survivability depends on my ability to know how my funds are tracking over time and in the short term. Removing quarterly reporting requirements hamstrings the common person causing far more harm than the benefit of a few extra dollars for the profit of the top Wall Street earners.
Leave quarterly reporting requirements in place.

Tina Ruffner Owner, Bravo Bella Art Studio — Jun 20, 2026
Subject: File No. S7-2026-15 From: Tina Ruffner I'm a Marine Corps veteran, a small business owner, and a retail investor. I've spent my career doing things the hard way — with discipline, accountability, and transparency. I expect the same from the companies I invest in. This proposal fails that standard. Allowing public companies to report their finances twice a year instead of four times sounds like a paperwork tweak. It isn't. It hands corporate insiders a six-month window to know things the rest of us don't. This Hurts Regular People Most Quarterly reports are how everyday investors find out what's really happening inside a company. Cut them in half, and you double the window where problems can grow undetected — and where insiders can act on information the public doesn't have. Experts warn this change would hit less sophisticated investors hardest. That's most Americans. Nobody Who Matters Asked for This This proposal didn't come from investors. It came from companies that want to report less. Even Wall Street pushed back — Citadel, Fidelity, Two Sigma, D.E. Shaw, and the Managed Funds Association have all raised concerns. When major financial firms and investor advocates both oppose something, that's not a debate. That's a verdict. As Benjamin Schiffrin of Better Markets put it: "Disclosure is the bedrock of investor protection." We Already Ran This Experiment The United Kingdom made quarterly reporting optional in 2014. A CFA Institute study found that when companies stopped filing quarterly, analyst coverage dropped and earnings forecasts became less accurate. Less reporting didn't streamline markets — it made them less trustworthy. There Are Better Options If compliance cost is the real concern, the SEC has tools that don't gut transparency: simplified forms, tiered requirements, extended deadlines for smaller filers. The SEC itself asked the public in 2018 how to preserve or strengthen investor protections while reducing burden. This proposal abandons that mission entirely. The Bottom Line In the Marines, you don't get to report in less often just because it's inconvenient. Accountability doesn't work that way. The SEC's job is to protect investors — not to make life easier for companies that would rather operate in the dark. Withdraw this proposal. Respectfully submitted., T. R.

Tina Sekimi — Jun 20, 2026
Subject: Please do not stop quarterly reporting From: Tina Sekimi Affiliation: Jun. 20, 2026 We live busy lives and quarterly is a great reminder of how investments are doing. It is only right to inform investors on how well their money is doing and how much dividends they have received on a quarterly bases .Businesses can afford to create the reports. It makes the playing field level for those of us without inside knowledge.
Thank-you!

Tina Smith — Jun 20, 2026
Subject: S7-2026-15 From: Tina Smith Affiliation: Jun. 20, 2026 To the SEC

Once again we are seeing a shift in responsibility regarding the monetary system of our country. Once again the country is truly on the brink of a major recession and this administration is considering a change BACK TO LESS REVIEWS? Excuse me, I have been through so many financial crisis in my life time and you are considering putting us through another? This country needs even more oversight than ever before, based on current situations. Some part of this government has to keep control of the economy and by extending these requirements you are opening the door to more chaos! We have allowed too many “changes” in the years past and that was caused by not following the right process! Leave the system alone,

Sincerely

Tina S. Smith

Tina Woods — Jun 20, 2026
Subject: S7-2026-15 Comments From: Tina Woods Affiliation: Jun. 20, 2026 My name is Kristina Woods. I am a retired lawyer. As such, and like millions of other Americans, I depend on my investments to live, to take care of myself as I age, and to leave a legacy for my children and grandchildren. I am appalled that the SEC wants to do away with quarterly reporting. Biannual is not enough. Conditions change more quickly than that.I spent my career as in-house counsel for a large corporation and was involved in drafting the sections of our report related to my practice area. It was not a huge burden for us, and it actually helped us assess our own health and assumptions. The SEC owes it to the American people to continue the transparency the current rule engenders.

Respectfully,
Kristina Woods

Valkyrie Weather — Jun 20, 2026
Subject: Comment on S7-2026-15 From: Valkyrie Weather Affiliation: Jun. 20, 2026 My name is Val Weather, and I'm a trade laborer in Portland, Oregon. People like me depend on rigorous oversight of large companies and financial institutions. When corruption is allowed to spread unchecked, it's rarely the executives who suffer. Rather, it's middle-class workers like me who have to face the devastating consequences of the greed of a few. Reverting to a 6-month model as proposed allows far too much unwarranted grace and trust to these companies and institutions.

Ignore the voices of the workforce at your peril, commissioners, for we are the ones who move the wheels of this economy.

Vicki Taylor — Jun 20, 2026
Subject: S7-2026-15 Comments From: Vicki Taylor Affiliation: Jun. 20, 2026 My name is Vicki Taylor, and I am a sales manager at an insurance company. I am absolutely not in favor of removing quarterly reporting requirements for public companies. It is important for investors to have a view of how the large companies they are investing in are doing on a regular basis, and bi-annually is simply not enough. To remove that requirement will mean that large corporations will be able to sit on troubling developments for months at a time. Ordinary investors such as myself rely on timely reporting to make decisions about the stocks we hold in our investment portfolios, and delayed reporting will create more volatility in the market. Longer reporting gaps create an extremely unfair advantage to corporate insiders, and it is the average investor like myself who will potentially pay a hefty price in my retirement fund. Please keep the reporting quarterly.

Vickie Duff — Jun 20, 2026
Subject: S7-2026-15 From: Vickie Duff Affiliation: Jun. 20, 2026 Hello! My name is Vickie Duff and I'm an accounts manager for a Medicaid Waiver agency in Lexington, KY. We are required to keep strict records for our clients and staff. I remember Enron, and so many other crooked companies, and I am appalled to know the SEC is even considering reducing their reporting from quarterly to twice a year. Time and again, companies have cheated employees of their jobs and pension while the officers walk off filthy rich. Please keep the quarterly report requirements and watch these companies--too many have proven they are not to be trusted. Thanks for reading my letter. I hope you will cancel the plan to reduce the report requirements . Sincerely , Vickie Duff

Virginia Lambert — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Virginia Lambert Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
We are all not rich or powerful so that we have access to the "people who know'. We do know of the

insider trading by some of our legislative representative, and likely between powerful CEOs. But we, the regular people in this country, still invest our money and need to receive that information quarterly and signed by the CEO, so we can keep track of what is happening in the corporations that we have invested in. To allow the corporations 6 months without reporting will allow increased corruption and provide dishonest leaders a greater ability to play with money and act in ways that may have negative results for both the corporations and the investors. Knowledge provides a level of security for investors, keeps us informed of what is happening financially and should be frequent as the markets can change quickly. Investors also need frequent updates on the corporations to provide the current state of the corporation financial state to decide if they want to make changes in their investments.
There is no benefit to the people who have invested their money in a venture to release corpoations from their obligation to provide this information quarterly. Please consider your role to protect the people investing, and do not remove this requirement.
Sincerely,
Virginia Lambert

Virginia Lindengren Barton — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Virginia Lindengren Barton Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
I'm surprised that, with AI technology, there is a proposal to reduce information sharing. AI should be revolutionizing the process. Is it possible to only offer semiannual reporting to vetted companies so the risk of fraud and failure is significantly reduced? Transparency is needed to expose risks in the market. Maybe one day monthly reports will be considered instead.

Virginia Louw — Jun 20, 2026

wade miller — Jun 20, 2026
Subject: S7-2026-15 From: wade miller Affiliation: Jun. 20, 2026 All public Corporations do quarterly reporting to share with their boards and investors anyways, so each of these reports should remain certified, why give executives the ability to cover up company mismanagement or actual fraud by allowing them to pick and choose which quarterly fillings they wish not to certify. Let's not forget how much investors lost in just these two fake publicly traded companies, or how many hedge funds were affected by their scandalous behavior, and most importantly how many American citizens saw their retirement accounts evaporate over night. If it's not broken why fix or change it, and I would say it's not broken because we have gone 24 years now with out a major stock valuation loss due to fraud. While admittingly these quarterly certifications don't prevent fraud itself, it does insure that the executives responsible will be held accountable.

Walter F — Jun 20, 2026
Subject: S7-2026-15 Comment From: Walter F Affiliation: Jun. 20, 2026 As a small investor with an IRA, nearing retirement, this rule change stinks to high heaven. Allowing companies the time to hide

disastrous financial events, while insiders get to cash out is as crooked as it sounds.
I vote "NO"!

Washington DC 20016

Walter Niewiadomski — Jun 20, 2026
Subject: S7-2026-15 Comment From: Walter Niewiadomski Affiliation: Jun. 20, 2026 Financial data is absolutely essential in assessing trends and guiding not only investments but also manufacturing and marketing opportunities. To shut down critical data for six months is the creation of a huge blind spot that can be fatal to some businesses. The Soviet Union failed to develop a data based economy and subsequently failed to respond to the dynamics of consumerism.

Wendy Packan — Jun 20, 2026
Subject: S7-2026-15 Comment From: Wendy Packan Affiliation: Jun. 20, 2026 Transparency is what keeps companies accountable and reduces profit-grabbing (such as when private equity firms over time dismantle the profit making engine of an aquired company, adding on debt and eventually bankrupting companies, even shredding workers pensions in the name of profit). If a company reduces reporting frequency it opens the doors for behind the scenes chicanery. If a company is solid, it would not be afraid to remain transparent with quarterly reporting. So many gimmes are already on the table by the current administration that there is no need to add another one.

Wendy Packan
Retail Associate

Wendy V.C. Purcell — Jun 20, 2026
Subject: S7-2026-15 Comment From: Wendy V.C. Purcell Affiliation: Jun. 20, 2026 Name: Wendy VC Purcell
Occupation: Retired, former Corporate Lender to Fortune 500 companies, Former Director and Practice Leader for Business Valuation
Current Investor
Quarterly reporting is a critical tool for bankers, valuation professionals and investors to properly evaluate investment opportunities as well as the ongoing health of their existing investments and portfolios. Current quarterly reporting already has a 1 to 3 month information lag built into them. Cutting the reporting windows from 4 times a year to 2 times a year will result in too large an information lag. It will put banks and investment companies like Pimco, Morgan Stanley, JP Morgan at significant risk of investment failure. Also, quarterly reporting is easier today than it ever has been due to technology. Reduced reporting only increases the opportunity for fraud and waste.

Wendy Vallery — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Wendy Vallery Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
It is unconscionable that you are proposing this change in reporting for corporations. Corporations have been reporting quarterly for generations. There is no good reason they should become less transparent in their financials.
Further, it is a travesty that LPs and hedge funds don't have the same current requirements as corporations. Don't bring more entities into the dark, hiding from the public

---

Wesley Hendrix — Jun 20, 2026
Subject: S7-2026-15 Comments From: Wesley Hendrix Affiliation: Jun. 20, 2026 My name is Wesley Hendrix. I'm an aerospace technician. Companies should not be able to hide their financials for six months. That is absurd! Quarterly reporting should stay the standard. It's the only way investors stand a chance while planning their retirement. Not everyone can treat their investments like a dice roll. Some of us are trying to plan for our future.

Whisper Mccave — Jun 20, 2026
Subject: S7-2026-15 Comment From: Whisper Mccave Affiliation: Jun. 20, 2026 Jeep quarterly reporting. Im sick of the SEC helping their friends out by letting them commit fraud

Whisper McCave Whisper McCave — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Whisper McCave Whisper McCave Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:

Keep the 4 sig rule. Stop trying to let CEIs get away with fraud. You do this because you are all fraudsters. It is the only thing that makes sense. We are sick of you all playing us.

Whitney Sherman — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Whitney Sherman Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
Don't let public companies hide vital information from retail investors. We need to know what the companies we've chosen to invest in are doing. We need to have control of whether it's time to stay or go from investing with a company. It our money that has helped companies we invest in grow. We must be able to see what is happening. No blind spots!

Wilbur Howell — Jun 20, 2026
Subject: S7-2026-15 Comments From: Wilbur Howell Affiliation: Jun. 20, 2026 Quarterly reporting helps me make decisions with my retirement portfolio. The small amount of relief to corporations from semi-annual reporting is not worth the cost to every day investors. Less transparency will inevitably lead to more fraud. Please, keep reporting quarterly!

Wilbur H.
IT Systems Administrator

Electrical Utility Designer

This matters to me because I care about this country and I majored in Geography and minored in Political Sciences.

Quarterly reporting should remain the standard for public companies because investors make decisions when they have timely, consistent information.

Financial markets work best when information is widely available. Requiring companies to disclose results every three months helps level the playing field between ordinary investors and large institutions that have greater resources to gather information independently. More frequent reporting reduces uncertainty, improves price discovery, and strengthens confidence in the market. Research and policy analyses have argued that quarterly reporting lowers information gaps and can reduce the cost of capital by giving investors a clearer picture of corporate performance.

Supporters of semi-annual reporting often argue that quarterly reports encourage short-term thinking. However, there is little evidence that moving from three-month reporting cycles to six-month cycles would suddenly promote meaningful long-term investment. Companies with strong long-term strategies already attract patient investors, even while reporting quarterly. At the same time, delaying disclosures would leave investors with less current information and increase the period during which insiders and market professionals may have informational advantages.

Quarterly reporting is not about forcing companies to chase short-term results. It is about transparency and accountability. Investors deserve regular updates on the businesses they own, and markets function more efficiently when participants have access to timely information. Rather than reducing reporting frequency, regulators should focus on making disclosures clearer, more useful, and less burdensome to prepare.

For these reasons, quarterly reporting should be preserved as a cornerstone of fair and transparent capital markets.

Thank you for your time and consideration!

-Zack Ottoson

Zan Hale — Jun 20, 2026
Subject: My view on Rule S7-2026-15 From: Zan Hale Affiliation: Jun. 20, 2026 To the Securities and Exchange Commission:
My investments are small, so I can't afford to be scammed by unscrupulous business exectutives.

Keep quarterly reports so I can keep them honest.

Histroy has broven they will cook the books so they personally make more money if they think they can get away with it.
Being transparent with a company's financial staatus is part of the cost of doing business. If a company wants the benefits of being part of the stock market, they need to follow the rules.

Zelda Ann Thomas — Jun 20, 2026
Subject: S7-2026-15 Comments From: Zelda Ann Thomas Affiliation: Jun. 20, 2026 Why so much greed in this country. They cannot take that money with them to their grave. Do not move forward with this 6 month plan.

God is blessing you right now

Jr Stanley Wilk — Jun 19, 2026
Subject: S7-2026-15 Comments From: Jr Stanley Wilk Affiliation: Jun. 19, 2026 Hello my name is Stanley Wilk Jr.
I am a retired heavy equipment operator and general construction worker.
My retirement investments depend upon up to date and correct information from the businesses my investment managers choose to invest in. The longer the time between a companies information takes to get to my investment managers the more damage could happen to my investments. If a company is doing poorly or well is so very important to know about in the most timely manner.
We are supposed to be a Capitalist country and our government needs to protect our capital with the most timely information. We can't go backwards, we need timely access to the health of a company. This is what helps keep companies working in the best interests of people like me who choose to trust the investment managers with the money we saved to carry us forward for the rest of our lives.

Jr. Ralph Emerson — Jun 19, 2026
Subject: S7-2026-15 Comments From: Jr. Ralph Emerson Affiliation: Jun. 19, 2026 This sounds like the filthy rich want to get even more filthy rich. And the SEC are accomplices.

Jr. Tom Boehm — Jun 19, 2026
Subject: Comments on File number S7-2026-15 From: Jr. Tom Boehm Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:

I am writing to you as an individual person who is my own retail investor. I strongly and respectfully oppose the rule change proposal to go to semi-annual rather than quarterly reporting. Professional and insiders to company will still have access to the company performance information while private individuals will be in the dark for half a year. I rely on the timely and accurate information to make prudent investment decisions.

Sincerely,

Tom Boehm

Tasha Richer — Jun 19, 2026
Subject: S7-2026-15 Comment From: Tasha Richer Affiliation: Jun. 19, 2026 The federal government seems to be doing everything they can to prevent everyday Americans from accumulating any amount of wealth. This is supposed to be a free market open to everyone. Everyday people need to have as much information as possible to make informed decisions. Additionally, this proposal is creeping closer and closer to allowing only “insiders” to benefit from investment opportunities. Isn’t insider trading illegal?? Keep this country as the land of opportunity and require strict quarterly reporting of openly traded companies and corporations. All American deserve this information quarterly now more than ever in such a volatile market. It seems that you want Americans to loose everything.

Please prove me wrong and keep requiring quarterly reporting so that all people to can prosper.

Tasha Richer

Adèle Bradley — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Adèle Bradley Affiliation: Jun. 19, 2026 To the

Securities and Exchange Commission:
The U.S. Securities and Exchange Commission (SEC)’s proposed rule will blindfold retail investors. The quarterly disclosures I receive from my investment houses help me to make informed decisions, which, as a consumer, provide vital information to me about whether to continue onward or to change course. It seems a responsibility of these investment houses to provide me with routine disclosures pertaining to how my investments are faring. If the SEC stops requiring this reporting, who is to know, without doing extensive research, how solvent one's financial investments are? And if the SEC stops requiring these disclosures, it is very likely the quarterly information will cease to be made regularly available. It seems a way to hide or otherwise disquise loss or theft. As the SEC, please continue to be the watchdog and protective agency you were designed to be, and continue to require these quarterly disclosures.

Adriana Maher — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Adriana Maher Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:

al justeco — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: al justeco Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Very simply, public companies should be public with their information. AND, considering that information technology has improved tremendously over the last 50 years, there should be more, not less information, easily available.

With trades happening in nanoseconds, 6 month old information is not acceptable to make intelligent decisions.

Al Lee — Jun 19, 2026
Subject: S7-2026-15 Comment From: Al Lee Affiliation: Jun. 19, 2026 Creating less accountability by making quarterly reporting optional and requiring only 6 month intervals is a terrible idea. In these volatile times especially, changing to less frequent reporting would create an environment where corporations and individuals with unscrupulous motives could hide their actions to exploit the market. Any supposed and alleged savings to companies as a result of less frequent reporting is not a worthwhile justification in light of the potential for abuse. Quarterly Reporting has long been the

established standard already in place and introducing an "option" to only report at 6 month intervals could have disastrous results. Such reduced frequency will lead to an increase in hidden activities which are detrimental to the overall market and economy.

Al Upton — Jun 19, 2026
Subject: S7-2026-15 From: Al Upton Affiliation: Jun. 19, 2026 accountability every 90 days is a necessity in business, always/licensed commercial businesses are excellent at self justification when left unchecked!

---

Amber Howell — Jun 19, 2026
Subject: S7-2026-15 Comment From: Amber Howell Affiliation: Jun. 19, 2026 I am writing as a financial manager to express my opposition to the Commission's consideration of replacing quarterly reporting requirements with a semi-annual filing schedule. While I understand the intent is to ease compliance burdens and reduce short-term pressure on management, I believe the costs to investors and market integrity would outweigh the benefits.
Quarterly disclosure narrows the gap between what insiders know and what the market knows. Extending that gap to six months gives material problems more time to compound before investors, creditors, and counterparties have visibility into them. It also weakens price discovery: markets price securities most accurately when they receive fresh, audited fundamentals on a regular cadence, and a longer reporting gap means prices drift further from underlying value between updates.
From a practical standpoint, much of the financial data used for quarterly filings is already tracked continuously for internal management purposes. The incremental burden of formalizing and filing it quarterly is modest compared to the loss of timely, comparable information that a semi-annual schedule would impose. Analysts, lenders, and internal finance teams have also built their models and risk monitoring around quarterly cadence; moving to semi-annual reporting would disrupt that infrastructure without a clear offsetting benefit.
If the Commission's goal is to reduce short-termism in corporate decision-making, I would encourage exploring more targeted reforms — such as guidance on earnings call practices or buyback disclosure — rather than reducing the frequency of mandatory financial disclosure itself.
I respectfully urge the Commission to maintain the current quarterly reporting requirement under Exchange Act Rule 13a-13.
Thank you for considering my comment.
Amber Howell

Amrita John — Jun 19, 2026
Subject: S7-2026-15 Comments From: Amrita John Affiliation: Jun. 19, 2026 Amrita John, retail investor and physician. When governments and companies and individuals are moving into a space/era of increased transparency there is no reason for reports to be available to the public biannually. If anything we should be looking for increased transparency especially when majority of Americans no longer rely on pensions and other guaranteed mechanisms for their retirement rather on the machinations of the stock market to keep them secure in retirement. Almost all employer retirement plans rely on these retail investors such as myself to be able to make informed decisions and participate in the economy to fund their retirement. This step will be a set back in equitable participation of retail small investors.

Amy Cone N/A — Jun 19, 2026
Subject: File No. S7-2026-15 From: Amy Cone From Amy Cone, Eureka , CA. Concerned citizen. The SEC needs to learn from historic trends and evidence and continue with quarterly reporting so as not to return to non transparent tactics. It seems corporations are trying every means to take more fees and funds from people. Do not stop reporting quarterly. And stop letting money dictate what is right and good for advancement. Corporations shouldn't have a say. It seem the SEC is listening to paid advocates and maybe think there is some savings here. It is a lie. I have never seen non transparency work to the advantage of the people just to corporate greed.

Amy Duda — Jun 19, 2026
Subject: S7-2026-15 Comment From: Amy Duda Affiliation: Jun. 19, 2026 This is a democracy and corporations will not be allowed to suppress it.

Amy Fulcher — Jun 19, 2026
Subject: S7-2026-15 Comment From: Amy Fulcher Affiliation: Jun. 19, 2026 I am opposed to changing from quarterly to 6 month or any other period of time longer than a quarter for publicly traded companies. This harms the average investor and retiree. There is no good, legitimate reason for this.

Thank you,
Amy

Amy Jo Dorler — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Amy Jo Dorler Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
We need more accountability not less. We sit here in the dark while those wealthy more powerful manipulate the market in their favor. Stay strong and do the right thing! Stop this new rule!

Amy Lee — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Amy Lee Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Regarding Rule S7-2026-15.

Should this rule pass and reporting becomes bi-annual, the rich will have more opportunity to get insider information about proposed profits and changes, thus allowing them to make an informed decision before the rest of the public.
This just makes the rich, richer and the poor, poorer.

Please do not pass this Rule. Continue as it is now. If its not broken then leave it alone.

Amy Maney — Jun 19, 2026
Subject: S7-2026-15 Comments From: Amy Maney Affiliation: Jun. 19, 2026 Shame on the SEC. We as investors deserve to have this information at least
quarterly. Why not learn from past failures, we need transparency as investors. Help the average American person trying to build a retirement by giving them the information needed to make decisions in what they're investing in. KEEP IT THE SAME, no reason not to besides lining the pockets of the ultra rich- it's disgusting.

Amy Morin — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Amy Morin Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
American citizens have had ENOUGH! We demand MORE transparency not less. Do your jobs and protect our economy and democracy!!!

Amy Ott — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Amy Ott Affiliation: Jun. 19, 2026 I'm Amy Ott a research scientist from Indiana. The government should work for the people. Changing reporting from quarterly to semi-annually is in favor of big corporations over the interests of the people. The investors should be aware of the state of the company 4x a year to make decisions about where to invest their hard earned money. Please consider the well-being of the American investors just trying to save for retirement over the desire for big business to only have to report their financials 2x a year.

Sent from my iPhone

Amy Richards — Jun 19, 2026
Subject: S7-2026-15 Comments From: Amy Richards Affiliation: Jun. 19, 2026 Quarterly reporting is a must! Anything less is a clear dereliction of responsibility to the consumer, i.e., me & millions of other regular people. Why would less be anything other than shady and an invitation for corruption and deceit. Keep quarterly reports!!!

Amy Robinson — Jun 19, 2026
Subject: S7-2026-15 From: Amy Robinson Affiliation: Jun. 19, 2026 Dear SEC, You have the power to stop another Enron. You also have the power to put a check on a megalomaniac that seems to think he's a king. Your job is to protect Americans from abuse and fraud. Removing half the reporting requirements for CEO's certainly lowers the protections against both! It is hard to fathom the speed with which this country has fallen into a cesspool of corruption at the very top, and all the normal safeguards that should have stopped it, but didn't . In my opinion, this is another step in further

allowing his overreaching corruptive practices. PLEASE HOLD THE LINE AND DON'T ALLOW IT! Thank you very much for considering my plea. Amy Robinson, Retired Small Business Owner.

Amy Rockwell — Jun 19, 2026
Subject: S7-2026-15 Comment From: Amy Rockwell Affiliation: Jun. 19, 2026 Amy Rockwell, Retired Corporate Counsel and Individual investor. My work experience has taught me how fast something can change and limiting communications to twice a year is an excellent way to hide and downplay what is happening with a business. It is also creating additional opportunities for insider trading. If reporting quarterly has become onerous, simplify the reporting. Business managers review financial data constantly. Why prohibit investors from access quarterly? Do you intend to motivate less investment in public businesses?

Amy Schwartzman — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Amy Schwartzman Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Quarterly disclosures are vital to investors. Accountability and transparency are vital and the role of the SEC is to protect us and not them. This is the government's job. The powerful do not need more government aid; consumers do.

You must not enact this proposed rule. It is a terrible idea that could result in another stock market crash, and would prevent Americans from having necessary and ongoing information they need that also hold corporations accountable. My memory is the last time this was in effect, bad things happened. Do not change the current rule.

Amy Stillwell — Jun 19, 2026
Subject: S7-2026-15 Comments From: Amy Stillwell Affiliation: Jun. 19, 2026 Do Not make the change to eliminate quarterly financial reports. This would destabilize our economy and set us up for incredible fraud. I vote No!!!

Amy Traversa — Jun 19, 2026
Subject: S7-2026-15 Comment From: Amy Traversa Affiliation: Jun. 19, 2026 The public is already at such a disadvantage when trying to get timely information on publicly traded companies, and we've paid dearly for the deceitful and reckless behaviors of the past. Hold them accountable and keep requiring quarterly public reports!

Ana Fuller — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Ana Fuller Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
More information needs to be public not less. Why would you want to make it harder to prove when companies are engaging in illegal activity or insider trading?

Ana Pechenik — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Ana Pechenik Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
rely on quarterly reports to understand how the companies I invest in are performing. As a retail investor, I don't have teams of analysts or access to private information. Quarterly disclosures help me make thoughtful decisions based on facts, not rumors. Less frequent reporting would reduce transparency and make markets less fair for ordinary investors. Please do not take away information that helps individual investors participate confidently in the market.

Ana Pechenik — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Ana Pechenik Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
As an individual investor, quarterly disclosures are essential to making informed decisions. Timely financial information allows me to evaluate company performance, assess risks, and determine whether my investments still align with my goals. Reducing the frequency of disclosures would limit transparency and put retail investors at a disadvantage compared with institutional investors that have access to additional resources and analysis. Regular quarterly reporting promotes accountability, market confidence, and a level playing field. The SEC's mission is to protect investors, and taking away access to timely information would do the opposite.
Please preserve quarterly disclosures for public companies.

Anastasia Petersen — Jun 19, 2026
Subject: S7-2026-15 Comments From: Anastasia Petersen Affiliation: Jun. 19, 2026 No benefit only more power to the companies / monopolies the gov Is supposed to / has a duty to keep in check! NO! We the public see this.

Anastasia Vaille — Jun 19, 2026
Subject: S7-2026-15 Comment From: Anastasia Vaille Affiliation: Jun. 19, 2026 As a investor I need

current information to make financial decisions. If corporations can ghost for 6months then every investors small and large can ghost the same amount of time. The stock market would be on Shakey grounds.

My retirement, and that of MANY MILLION OTHERS depends on YOUR insistence on TRANSPARENCY.

Andrew So — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Andrew So Affiliation: Jun. 19, 2026 To the Securities

and Exchange Commission:
The Consolidated Audit Trail should be preserved, strengthened, and improved, not dismantled. Financial markets are extraordinarily complex, and regulators need a comprehensive audit trail to effectively monitor trading activity, investigate misconduct, reconstruct market events, and enforce securities laws. While concerns about cost, governance, privacy, and efficiency are legitimate, those concerns should be addressed through reforms and enhancements to CAT rather than eliminating it. Reducing transparency or weakening regulatory visibility would make it harder to detect market manipulation, investigate abuses, and maintain investor confidence. The appropriate response to an imperfect oversight tool is to improve it, not remove it.

Subject: S7-2026-15 Comments From: Angel Castro Affiliation: Jun. 19, 2026 It makes it easier to hide financial misdeeds. Everything is done electronically in today's world. If they are not hiding anything then honest companies have nothing to hide. Be upfront with their records there is not a need for paper anymore. Paper pushers can actually do something useful and keep doing quarterly reports not biannually. AI is used everywhere and can be used for reports

---

Angel Lopez — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Angel Lopez Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I write to you today in Support for Quarterly Reporting. Removing reporting requirements for publicly traded companies will decay the economic resiliency of small businesses and the communities they operate in.
First it will raise a red flag to international investors and banks who depend on quarterly reports that are reviewed and audited to make sound financial decisions. This will slow down investment earnings and wind down lending to working class individuals and "mom and pop shops."
Second, no quarterly reporting requirements will allow promotional propaganda to become an investor's compass. I would like to remind you of ENRON. An energy company that used Marketing campaigns to fool their own workers, leading to the biggest collapse in savings that I have seen in my lifetime. The result of ENRON triggered the initial decay of the middle class, dismantled Arthur Anderson (one of the then, big five accounting firms) for complicity, and harmed many businesses and communities with their "energy scheme."
Third, we meaning humans are currently being comfronted by the examination of our own value as humans because of Artificial Intelligence (A.I.) propaganda. Rule S7-2026-15 is creating room for a coded program or A.I., to determine and communicate to the public what a sound investment is. Even, the Office of Professional Responsibility within the Internal Revenue Service communicates that A.I. does not replace due diligence. Quarterly Reports are diligent acts regulated by your Agency. The US economy needs quarterly reporting now more than ever.
In conclusion, No Quarterly Reports means No Accurate Reporting. If a bank will deny a small business a loan because of messy books, why should the public be encouraged to invest in a company that can bypass quarterly reporting. The SEC should place sanctions and fines on those companies for negligence. The priviledge of being a publicly traded company should be maintained instead of preserved with nepotism.
Thank you for taking the time to read this.

Angela B — Jun 19, 2026
Subject: S7-2026-15 Comment From: Angela B Affiliation: Jun. 19, 2026 Angela Bain, CIP, Senior Human Research Compliance Protocol Analyst. I believe in reducing regulatory burdens when those regulatory requirements do not add value or protections. That is not the case here. Publicly traded companies have a responsibility to the public whose money they use to operate their businesses. Any reduction in requirements for reporting information that investors need to make informed

decisions regarding their investment will only result in harming those investors. If a company finds these requirements to be overly burdensome, they can choose to not take any money from outside investors and put up all the capital they need to operate the business themselves. This proposal creates more harms than benefits and should not move forward.

Angela Bach Wilkes — Jun 19, 2026
Subject: S7-2026-15 From: Angela Bach Wilkes Affiliation: Jun. 19, 2026 This move is extremely bad given the current economic climate, for both financial and economic reasons. This move looks extremely bad to the "little guy" who will interpret it as "just one
more way those that 'have' are going to find ways to cheat and profit from those who 'have not.' " But really, it's TWO more opportunities a year the preferred class will have time to hide financials from investors who should have the right to know if they
are going to lose their retirement funds. Corporations SHOULD be frequently transparent with the financial state of things for the sake of all the small investors. It's not a hardship to report four times a year. Make CEO's earn their salaries. The SEC should
continue to require continue to require honest reporting four times a year. Angela Wilkes MSN, RN Indiana

Angela Virtudazo — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Angela Virtudazo Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Please continue to require quarterly reporting to safeguard our investments. There are too many opportunities for fraud when a company has six months to share results with the public. We already pay fees that more than adequately cover their costs. We should not bear the burden of policing them even more than we do now. We cannot be informed investors, not can our representatives, without sufficient information.

Angelina Cardenas — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Angelina Cardenas Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
This information is vital for investors and it needs to be done quarterly as it is now. This proposal is not beneficial to the general public. If it ain't broke don't fix it.

Angelique Barham — Jun 19, 2026
Subject: S7-2026-15 Comments From: Angelique Barham Affiliation: Jun. 19, 2026 If you need to change the financial reporting, do so to make it more frequent not less. To fight fraud and misinformation we need more transparency and open communication not less. Please keep the quarterly reporting or make it monthly reporting.

Sent from my iPhone

Angelique Dumas Edwards — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Angelique Dumas Edwards Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Quarterly reports help keep everyone informed of their financial status and help those of us who are diligent to plan our next steps and financial future. Getting rid of them will only hurt the transparency that the public has learned to trust and respect. It will also hurt the credibility of the companies. Individual investors will not know the inne value of a company until it's too late. Quarterly reports allow stakeholders to review trends and help companies determine next steps. We need to continue

to create more opportunities for transparency not find ways to make it more difficult. Keep Quarterly reports!

Angie Seigle — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Angie Seigle Affiliation: Jun. 19, 2026 Quarterly transparency is a must for investors. Lack of quarterly reporting will on further aid the rampant insider trading that a blind eye is turned toward today by those at the top of the food chain. It will also enable publically traded entities to and soften risks to investors, creating wilder swings in the market when reporting does occur.

Regards,

Angie Seigle Gimino

Ann DeLong — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Ann DeLong Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Quarterly reports are universally relied upon to make adequate decisions on investments.
Limiting reporting to 6 month intervals, quite frankly, feels as if you a deliberately hiding information from investors to give yourselves an unfair business advantage over your investors.
It's cheating and I'm aware that you have the larger share of the money and are entitled to do this.
Just consider, that if you do this, it is my belief you will lose investors.

Ann Ely — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Ann Ely Affiliation: Jun. 19, 2026 To the SEC,

I am writing to request that you maintain my quarterly reporting schedule.

I find that receiving reports four times a year is essential for properly monitoring my investments. If reporting is reduced to twice a year, the interval between updates is too long, which significantly slows down necessary reaction times for investors.

Please keep my account on a quarterly reporting cycle.

Thank you,

Martha Ann Ely

Ann Taylor — Jun 19, 2026
Subject: S7-2026-15 Comment From: Ann Taylor Affiliation: Jun. 19, 2026 I submit this comment as a former FINRA-licensed principal (Series 6, 63, and 26) and as the former Vice President of Software Quality Assurance at what was, at the time, the largest mutual fund transfer agency in the world. In that role I had direct oversight of mainframe recordkeeping systems, regulatory compliance, anti-money-laundering controls, and a team of roughly thirty people responsible for the accuracy and timeliness of shareholder and fund-level data that ultimately fed into the periodic reporting this proposal would weaken.
I recognize the proposal is framed as optional and is being advanced in the name of reducing compliance burden and encouraging companies to go and remain public. I do not dispute that quarterly reporting carries real costs. But the Commission's economic analysis treats reporting frequency primarily as a cost-and-burden question for issuers. From a quality assurance and operational risk perspective, it is something else entirely: it is the detection interval for the entire system.
1. Doubling the detection interval does not double the risk, it compounds it.
In any system I oversaw, whether a recordkeeping platform or a control environment, the interval between checkpoints determined how long an error, a control failure, or a misstatement could propagate before anyone caught it. Moving from quarterly to semiannual reporting does not simply halve the number of filings; it doubles the window in which a misclassified transaction, a broken reconciliation, or a deteriorating control can compound, undetected, before it surfaces in a public

filing. Errors caught at ninety days are corrections. Errors caught at one hundred eighty days are often restatements, and the companies and investors most exposed to that gap are exactly the smaller, newer, or development-stage issuers the Commission's own release identifies as the proposal's primary intended beneficiaries, the same companies with the thinnest internal control infrastructure to begin with.
2. "Optional" does not mean the costs are contained to the companies that opt in.
A reporting frequency election made once a year and difficult to change mid-stream is not a neutral menu choice. It is a signal, and markets price signals. Analysts, creditors, and counterparties calibrate their own monitoring cadence to a company's disclosure cadence. Debt covenants and credit agreements built around quarterly deliverables do not automatically renegotiate themselves around a company's election. The proposal pushes that reconciliation work onto investors and counterparties after the fact, rather than addressing it before the rule takes effect.
3. The transfer agency and recordkeeping infrastructure was never designed around a six-month cycle.
Having managed the mainframe systems and reconciliation processes that ultimately roll up into issuer-level reporting, I can say plainly that the underlying data infrastructure across this industry was built, tested, and audited around a quarterly cadence. AML monitoring, FinCEN-related recordkeeping, and routine subpoena and regulatory production all rely on quarterly checkpoints as a de facto control structure, even where they are not the formal trigger. Halving the public-reporting cadence does not halve the underlying operational risk; it just removes one of the few independent, externally verified checkpoints that risk was ever being measured against.
For these reasons, I respectfully urge the Commission to either withdraw this proposal or, at minimum, condition any final rule on enhanced interim control attestation requirements and a meaningfully shorter election lock-in period, so that the cost of a bad election falls on the company that made it rather than on the investors and counterparties who relied on the old cadence.
Thank you for considering this comment.

Ann Trollinger — Jun 19, 2026
Subject: S7-2026-15 Comments From: Ann Trollinger Affiliation: Jun. 19, 2026 To whom it may concern at the SEC,
Investors have a right to know what the companies they put their money into are doing with transparency and FREQUENCY. Keep public filings quarterly! A lot can go wrong in half a year. Failed product, launches, ballooning, debt, lawsuits, vanishing customers. Today, the law forces companies to surface that information every quarter but under the new rule, they can sit on it for six months at a stretch. For insiders to sell their shares to you (or the funder ETF you've invested in) before the bad news takes the stock. It is abundantly clear that even with quarterly disclosures, we have insider training going on, and this decision to make these public filings. Biannual will only make this problem worse and create more distrust, driving investors away from investing in the market.
Sincerely,
Ann Trollinger

Ann White Briggs — Jun 19, 2026

Anna Cristofaro — Jun 19, 2026
Subject: S7-2026-15 From: Anna Cristofaro Affiliation: Jun. 19, 2026 Anna Cristofaro -- retired Connecticut, USA

Quarterly reports help ensure accountability. With reporting primarily handled electronically, the excuse of "savings" to companies and stockholders wears thin.

Frankly, there is little to support the need to reduce the current standard of Quarterly reporting. Stockholders have a right to know, and this step towards biennial reporting is an attempt to put blinders on us.

A. C.

Subject: S7-2026-15 Comments From: Anonymous Affiliation: Jun. 19, 2026 The SEC needs to keep reporting quarterly, instead of every 6 months. This has been working, and it's too risky to change the rules now.

Yahoo Mail: Search, Organize, Conquer

Anonymous — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Anonymous Affiliation: Jun. 19, 2026 Quarterly disclosure is essential to fair markets. Quarterly reports give investors regular and frequent updates of company's financial performance, risks, and operations. During America’s stretch of twice-a-year reporting, real stock returns went nowhere and valuations sat far below today’s. In the half-century of quarterly reporting that followed, the market compounded steadily higher, year after year. More frequent reporting makes it harder to hide financial problems or misconduct and provides

transparency and accountability.

Anonymous — Jun 19, 2026
Subject: S7-2026-15 Comment From: Anonymous Affiliation: Jun. 19, 2026 Annisha Tanzie Williams, former Regional Counsel for the Federal Government. This is unfair that businesses and the general public are in the dark for longer periods when making projections for its operations and general investment decisions. Why in less real time is good? It's no reason.

Six months is a long time to hide company failures that decisions are based on. Hidden books for shorter time festers fraud, and is there any real reason to give companies more time to hide what's really happening whether it's failure or success? Is this reasonable and responsible behavior?

Insiders will know when to dump the stock based on failures of the company like for example, when a new product is under performing more so than they do now. So, even less transparency for longer periods of time is not good for anyone as it grows fraud in giving more time to cover mistakes and misgivings. I thought the government was about decreasing fraud, waste and abuse—this simply invites all of that.

Quarterly is better than 6 months and every 2 months would be even better so we as the general public will know more about where our money should and should not go.

the technology available it should be monthly people need to know we can't let things go 6 months without review
Tony Thomas retired Mason OH

Anonymous — Jun 19, 2026
Subject: S7-2026-15 Comments From: Anonymous Affiliation: Jun. 19, 2026 Please keep SEC

reporting quarterly.
As a retired couple on fixed income, quarterly reports help us to keep a close eye on our hard earned investments that boost our income to have money
that will sustain us through the rest of our years, including paying for medical as well as emergency and expensive home repair costs. We definitely don't need less transparency and should have learned from past episodes.
We also know that "opting in"
is an open door for all companies to take advantage of this. I see this a being damaging to small businesses with large corporations already having the upper hand with greater access to information.
Other countries are already finding that this is a wrong
strategy and opens the door to insider trading and big losses to the general public like ourselves.
We see very little if anything to be gained by going to six month reporting. Our livelihood and well being rely heavily on staying on top of our investments
and we do.
Don't take away that transparency that has saved us multiple times to make wiser decisions. If I had it my way, it would be monthly reporting. Being in the senior community I know this represents so many of us. I also am concerned for my
children and grandchildren who may never see the return on their social security and will rely even more on their investment decisions and returns. Keep the investment companies and brokers accountable. Please think about us instead of the big guys for a
change. Thank you for your attention. Kathy Crist

Subject: S7-2026-15 Comment From: Anonymous Affiliation: Jun. 19, 2026 Gene Myers, retired, private citizen, no holding in any stock. Truth in reality.
Keeping it Quarterly insures America public can monitor companies and any misdirection is corrected. Keeping it Quarterly will insure that a true civil uprising, (see Russian Revolution, French Revolution) does not occur. The general public from youth to 45 years of age doesn't care, liberal teachers indoctrinated them long ago. But America still has true blood warriors 45+ in age, tradesmen of all craft and experience are still willing to fight injustice, legal warfare and otherwise. Channeling Paul Harvey I believe he would tell America public and SEC not to be stupid and do not go down a blind six month road.

Subject: S7-2026-15 Comment From: Anonymous Affiliation: Jun. 19, 2026 I'm Eric Larson and I'm a math tutor.

The SEC was founded in the aftermath of the stock market crash that kicked off the Great Depression with the belief that proper regulations and transparency can be used successfully to prevent another stock market crash like that one. I believe that removing the requirement for quarterly reports will further destabilize the stock market contrary to the purpose of the SEC. For that reason I oppose the proposition to remove the requirement of quarterly reporting.

Anonymous — Jun 19, 2026
Subject: S7-2026-15 Comments From: Anonymous Affiliation: Jun. 19, 2026 Biannual financial disclosures leave long periods during which misconduct, accounting irregularities, conflicts of interest, or fraud can remain hidden. By the time information becomes public, losses may already be significant and corrective action more difficult. Monthly disclosures create a much shorter accountability cycle, making it easier for regulators, investors, stakeholders, and the public to identify unusual patterns before they become major scandals.

Monthly reporting offers several advantages:

1. Earlier Fraud Detection
* Fraud often relies on time and lack of scrutiny.
* Monthly disclosures reduce the window during which fraudulent activity can remain concealed.
* Regulators and auditors can identify trends and anomalies much sooner.
2. Greater Transparency
* Frequent reporting demonstrates a commitment to openness.
* Stakeholders receive a more accurate picture of an organization's financial position throughout the year rather than snapshots six months apart.
3. Improved Public Confidence
* People are less likely to assume corruption or hidden misconduct when information is regularly available.
* Transparency can reduce speculation, rumors, and distrust that often arise when financial information is delayed.
4. Faster Corrective Action
* Problems identified in one month can be addressed immediately rather than compounding for half a year.
* Boards, regulators, and management can intervene before issues become systemic.
5. Reduced Incentive for Manipulation
* Long reporting intervals create opportunities to shift transactions between reporting periods or conceal problems.
* Monthly disclosures make such tactics more difficult because there are more checkpoints.
6. Modern Technology Makes It Practical
* Most organizations already maintain real-time accounting systems.
* Automated reporting tools significantly reduce the administrative burden that once justified less frequent disclosures.

Public Stability Consideration

A functioning society depends on confidence that institutions are being monitored and held accountable. When people believe financial misconduct is ignored or hidden, frustration can grow and trust can erode. More frequent disclosures provide lawful, transparent mechanisms for oversight and accountability, reducing the perception that problems are being concealed and helping ensure concerns are addressed through institutions rather than through public outrage or vigilantism.

A policy of monthly disclosure is not a substitute for auditing or enforcement, but it creates a stronger framework for early detection, transparency, and public trust than a biannual reporting schedule.

Anonymous — Jun 19, 2026
Subject: S7-2026-15 Comments From: Anonymous Affiliation: Jun. 19, 2026 Please do not go back to semi-annual corporate reporting. The minimum should be the existing quarterly reporting as transparency, currency, and accuracy is more important now that at any time in our history. Technology has advanced so rapidly that we need dependable, timely, and reliable information that these reports demand for us to ensure that decisions are founded on sound fundamentals.

Technology has also allowed quarterly reporting to be accomplished more easily than ever before as well. There is little reason to reduce quarterly reporting and many more reasons to maintain it to ensure that investors are able to make sound investment decisions that are more important now with less reliable social security and pension programs than existed the last time semi-annual reporting was allowed (and failed).

Transparency matters.

Thank you,

David T. Swan
Investor and former pension fund trustee
Wilmington, NC

Subject: Comment on S7-2026-15 From: Anonymous Affiliation: Jun. 19, 2026 I'm a healthcare worker in Indiana. I work hard physically and mentally, and like most workers, I invest part of each paycheck for retirement. I do this because I physically won't be able to do my demanding job as I age, and those retirement saving are critical to my future. I rely on quarterly reports for my retirement planning. Don't risk my retirement savings. Other countries who have tried these proposed changes are seeing poor results, like the U.S. did from 1955 to the 1970s before reporting became quarterly. Quarterly reporting makes fraud more difficult to hide, which builds confidence for investors like me. This should outweigh any burden to public companies who have to report quarterly. Rayna Smith

Subject: Comment on S7-2026-15 From: Anonymous Affiliation: Jun. 19, 2026 Hello, my name is Micah and I am a licensed CPA and Financial Reporting manager for a publicly traded large accelerated filer. I work directly on the SEC filings for the company and it never ceases to amaze me just how much new, pertinent information we have to report to investors every single quarter. The quarterly trends paint a narrative that's necessary to truly understand the performance and health of the company. I firmly believe that moving to biannual reporting leaves the average investor at a disadvantage and opens the gates for more corruption and insider trading. On the scale of Companies that report to the SEC, the cost of quarterly reporting is a drop in the bucket - but to mom and pop investors, the money they have riding on these companies is often make or break for retirement, college for their kids, or as a fall back plan for a rainy day. I hope you will reach the conclusion that quarterly reporting is in everyone's best interest.

My best,
Micah Stiel

Subject: S7-2026-15 From: Anonymous Affiliation: Jun. 19, 2026 Please look at history. Financial transparency is critical to the health and foundation of the US stock market. Giving a corporation the opportunity to only report twice a year will lead to hiding of decisions, embezzlement and many other illegal activities that would take a long time to uncover. Also, keep in mind the employees who will be negatively impacted by the decision to lessen the transparent reporting by corporations. Do the right thing and avoid another banking crisis that causes a nationwide issue.

Aoibheann Clarke — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Aoibheann Clarke Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Are you kidding me!? There is only one motive for the SEC changing this rule & that is to benefit publicly traded corporations at the expense of retail investors.
Retail investors are allready at a disadvantage to the biggest & most powerful don't compound it!

Aprl Reagan Microsoft — Jun 19, 2026
Subject: File No. S7-2026-15 From: Aprl Reagan In this day and age reporting quarterly is not a burden. With automation and routine data collection, this should not be a problem when everything is moving faster and faster we must maintain or report more often not less frequently. Investors have the right to understand what's happening with their investments. It's insane to reduce those windows to twice a year in this current state of affairs. Reporting twice a year allows businesses too much time to obfuscate and mislead. The SEC should retain quarterly standards. Thank you.

Ariana Murray — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Ariana Murray Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:

Receiving detailed disclosures about how my funds are doing and what is being done to them has helped me become more financially literate and aware of what is being done with my money. The proposed rule by the SEC would remove that transparency, making investing less responsible and

thus minimizing the incentive for people to invest in the market. This could lead to decreased stock value for shareholders, and a less stable marker overall. This would make things worse for investors, not better
.

Arleen Paiso — Jun 19, 2026

Subject: File No. S7-2026-15 From: Ashley Sheehy I think keeping required quarterly reporting improves transparency which as an investor I find important.

Ashvin Patel — Jun 19, 2026
Subject: S7-2026-15 Comments From: Ashvin Patel Affiliation: Jun. 19, 2026 Dear [Recipient Name/ Relevant Department],

I am writing to respectfully express my profound concern regarding the proposed legislative changes concerning the reporting period, and to strongly advocate for the retention of the current three-month cycle.

From the perspective of a retiree, the established three-month reporting period is indispensable for stable financial management and effective personal budgeting. This timeframe provides the necessary predictability that allows individuals, particularly those on fixed incomes, to plan their finances meticulously, allocate resources judiciously, and maintain a sense of economic security without experiencing undue stress or disruption.

The proposed new law, which, as I understand it, suggests alterations to this established reporting frequency, poses a significant risk to the financial stability and peace of mind of the retiree community. Introducing a different reporting schedule could lead to considerable uncertainty, complicate financial planning, and potentially impose unforeseen burdens or hardships on individuals who depend on consistent and predictable financial processes.

Therefore, I earnestly request that you reconsider any provisions within the proposed legislation that would deviate from the current three-month reporting period. Maintaining this cycle would demonstrably support the financial well-being, facilitate sound planning, and ensure continued stability for numerous retirees.

Thank you for your attention to this critical issue and for considering the profound impact of these decisions on our community.

Sincerely,

Ashvin Patel
Retiree

b Moore — Jun 19, 2026
Subject: S7-2026-15 Comments From: b Moore Affiliation: Jun. 19, 2026 Brad Moore retired and recently disabled. I earned my money as an hourly worker. There was a time when I worked for Sarasota county mosquito control as the sole income earner for a family of 4 that I couldn't afford a 39 cent big gulp when we stopped at the 7-11 and had to take my vacation time working at a flower shop just to pay off my credit card because we had to charge food and diapers for our twins. After the boys graduated I finaly divorced and went back to a working poverty. My lunch consisted of a whopper and water. After 4years I was able to get things going again and was able to make investing a priority. I know this sounds like a sob story but it's the truth. You need understand after taking care of my home bound 92 year mother in law who recently passed for the last 12 years I would like to be able to finally enjoy life. I need to be able to keep a close watch on my investments, not just hope that everyone is honest and up front and has the best interests of the company and share holders in mind. During the beginning of the EV hype I lost a lot on a company named Arrival, who I believe lied and strung us along with claims of large future truck sales with UPS and breaking ground on factories in the US and Europe. They were pretty good at their lies. Should have been investigated. This is why, as a highly motivated individual who has physically worked and saved and always worked at doing the right thing, I don't trust everyone who sees money through the lens as just numbers or as a game. I need to be able to keep track of my investments. I have worked hard and done without things to ensure a comfortable final part of my life. Please do not pass this change, I need the opportunity to know what's going on with my investments every quarter and not just twice a year.

B Schwartz — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: B Schwartz Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
It's vital that the SEC cancel this proposal. Many Americans have lost faith in the honesty and integrity of the stock market and government. Please keep it fair for all and keep providing quarterly disclosures.

B Vrana — Jun 19, 2026
Subject: Comment on S7-2026-15 From: B Vrana Affiliation: Jun. 19, 2026 Quarterly reporting needs to stay quarterly. The US. Economy with all of our global investments and dependencies is significantly different than it was in 1955. To abandon quarterly reporting would be a big mistake.

Barbara Vrana

Barbara Laroa — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Barbara Laroa Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
This proposed rule will allow companies to hide vital investment information from retail investors for long periods (6 months!) essentially guaranteeing losses for retail investors. This rule would also allow fraud to balloon before being discovered. This rule will hit retail investors like myself the hardest since we have no way to get timely information about the companies we invest in.
I urge the SEC to shoot down this proposed rule. It would absolutely devastate retail investors.

Barbara Levine — Jun 19, 2026
Subject: S7-2026-15 Comments From: Barbara Levine Affiliation: Jun. 19, 2026 SEC needs to keep requiring quarterly reporting. In this day of technology, there should be no reason to expand this window. Businesses need to keep everything above board and transparent. If they are not following the rules, they don't need more time to be "creative".

Barbara McIntyre — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Barbara McIntyre Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I'm a very concerned citizen and would love to share my views with the securities and exchange commission. I do not understand the reason to stop the quarterly reporting. Less information is never preferable to more information. My friend that's helping me make investment decisions to try and make my money stretch as long as I live, relies heavily on these reports. I am learning how to read and understand a lot of this information, so please don't take it away from me. And those that help me to learn more about investing, rely heavily on these quarterly reports. So please don't take it away from them either. I can't help but feel that this has to do with taking away some of the transparency. And we all know that in the investment industry that's never a good thing.
Sincerely, Barb Mcintyre

Barbara Odom — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Barbara Odom Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
With monopolies being allowed to continue, and fair market competition stomped on, reducing the reporting requirements only weakens public trust.

Barbara Oliva — Jun 19, 2026
Subject: S7-2026-15 Comments From: Barbara Oliva Affiliation: Jun. 19, 2026 Quarterly reporting is an absolute must and help maintain transparency in the market, a vital element to investors and the public as a whole. Changing to semiannual reporting equals less information, less often and more room for nefarious activity that does not benefit or reflect the desires of average stockholders. Quite frankly, changing to semiannual reporting equals another way to “rig “ the markets. As a stockholder, I am totally against changing from quarterly reporting,

Barclay Leib — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Barclay Leib Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
As a Certified Fraud Examiner who has assisted the SEC uncover a variety of financial malfeasances, I believe that the Agency's entire focus is moving entirely in the wrong direction at present.
We have been living in an era of acute and prevalent fraud where people are just hiding behind disclaimers as protection. Disclaim that you are about to rip some retail investor's eyeballs out through any number of paths (dilution, stock option awards to management at 0 cost, business status that capitalizes undue costs, etc) and it is almost ok in today's world.

Allowing companies to report less often rather than quarterly will just make this situation worse.

As it is, the SEC barely does anything when reporting entities are significantly late in their report issuance.

in my humble opinion, Atkins is sewing the seeds at present for many future problems.

Barry Kula Independent sales & marketing consultant — Jun 19, 2026
Subject: File No. S7-2026-15 From: Barry Kula Subject: Oppose Reducing Public Company Reporting from Quarterly to Semiannual I am an individual investor and strongly oppose any proposal to allow public companies to report financial results only twice a year instead of quarterly. Quarterly reporting provides information that I and many other investors rely upon to make informed investment decisions. Public markets function best when investors have timely access to company performance data. Extending the reporting interval to six months would leave investors operating with stale information for much longer periods. Reducing reporting frequency would also create a greater information imbalance between corporate insiders and ordinary investors. Company executives, directors, and others with access to internal information would continue to know how the business is performing, while public shareholders would have to wait much longer for meaningful updates. Longer reporting gaps increase the advantage enjoyed by insiders and reduce market transparency. Some have suggested that semiannual reporting could be optional. However, making it optional does not solve the problem. In many cases, the companies whose investors most need frequent updates—such as firms facing operational challenges, rapid changes in performance, or uncertain business conditions—may be the very companies that choose to provide less information. Investors should not be placed in a position where they receive less transparency simply because management prefers it. Finally, any cost savings achieved by reducing reporting frequency are unlikely to outweigh the costs imposed on investors through reduced transparency, less informed decision-making, and potentially less efficient markets. Public companies benefit from access to public capital, and regular disclosure is a fundamental responsibility that comes with that privilege. For these reasons, I urge the SEC to maintain quarterly reporting requirements for public companies. Thank you for considering my comments

---

Barry Lasher — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Barry Lasher Affiliation: Jun. 19, 2026 My name is Barry H Lasher. I am a retired CIO for the Clerk of Court, Seventeenth Judicial Circuit located in Broward County, Florida. My wife and I have invested heavily in both funds as well as common stocks for many years relying on mandated reporting by the respective entities. These corporations are well established to continue reporting on a quarterly basis as they have done for decades. There is no plausible reason that their reporting requirements now need to be reduced. Public corporations owe frequent disclosure to the public whom they wish to have invest in their enterprises. Maintain the quarterly reporting requirements and maintain public trust in the process.

Barry McCloud — Jun 19, 2026
Subject: S7-2026-15 Comment From: Barry McCloud Affiliation: Jun. 19, 2026 We need more predictability in the market.

Barry Singer — Jun 19, 2026
Subject: File No. S7-2026-15 From: Barry Singer Your proposal to allow companies the option of semi-annual reporting is very troubling. Mandatory quarterly reporting is vital in keeping investors informed of price-related corporate information, More importantly, it helps protect investors from fraud. Semi-annual reporting, although it saves companies some administrative expense, has the very real danger of providing a great opportunity for unethical insider behavior. Bad actors within companies would have double the time to act on, and illegally profit from, information that the rest of us are not privy to. This sort of malfeasance is a problem now; it would be absolutely worse if the option of every-six-month reporting is offered. If the SEC is truly interested in protecting investors, it must enforce quarterly reporting for all public corporations. Thank you for taking this into consideration.

Becky Godbey — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Becky Godbey Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
It is critical investors and investment companies receive accurate quarterly disclosures. This information allows myself and my investment firm vital information when making decisions about where to invest my money. It is wrong to consider public companies will not have to make these important disclosures. These quarterly disclosures help ensure that I am getting the best investment returns.
These quarterly disclosures are also a way to keep fraudulent behavior in check. It is a good tool for checks and balances. There is greater transparency when a public company is having to report disclosures quarterly.
Please require public companies to continue to make these comprehensive quarterly reports.
Thank you.

Beth Mooney — Jun 19, 2026
Subject: S7-2026-15 Comment From: Beth Mooney Affiliation: Jun. 19, 2026 To Whom It May Concern:

The SEC's mission is to protect investors, maintain fair and orderly markets, and facilitate capital formation. Protecting investors is first in that mission because without that protection, trust collapses and the markets will soon follow.

Corporations may find quarterly reporting inconvenient but without this level of accountability, Americans who rely on these reports to make timely decisions about our investments will be harmed. Quarterly reporting is not too much to ask of them.

The SEC is supposed to have our backs, not scratching the backs of the corporations they are charged with overseeing. Keep the quarterly reporting requirements. It's the cost of doing business and maintaining faith with investors.

Thank you,

ELIZABETH MOONEY

bethany padron — Jun 19, 2026
Subject: S7-2026-15 Comment From: bethany padron Affiliation: Jun. 19, 2026 Corporations that are large enough to require SEC reporting need to be help responsible for quarterly reporting. Any number of factors from industrial disasters to international interference to internal malfeasance by individuals can drastically effect the projections and trust in a company that effects hundreds of thousands of people directly or transactionally. Keeping quarterly reporting is part of maintaining transparency and faith in the institution of the SEC and the companies regulated by it.

bethany.fieldhouse — Jun 19, 2026
Subject: Comment on S7-2026-15 From: bethany.fieldhouse Affiliation: Jun. 19, 2026 I am Bethany Fieldhouse-Elliott, Fitness Trainer, living in Shingle Springs, CA.
I am an investor. I do NOT want to change corporate reporting from quarterly to semi- annual periods.
My investments must be monitored and scrutinized more often than every 6 months. I worked my tail off in low paying jobs for more than 50 years to save and invest in our economy. I'm tired.
I need an investment income that will supplement my social security income. That means tracking and adjusting is necessary every 3 months.

Please do NOT allow for semi- annual reporting!

Thank you,

Bethany Fieldhouse-Elliott

Fitness Professional. "Strong is the new beautiful."

Betsy Saddler — Jun 19, 2026
Subject: S7-2026-15 Comment From: Betsy Saddler Affiliation: Jun. 19, 2026 I am writing as an individual retail investor who relies on timely, transparent information to make responsible financial decisions. I strongly oppose any rule that would reduce or weaken quarterly disclosures by public companies.

Quarterly reporting is not an abstract regulatory requirement — it is the only consistent window I have into a company's performance, risks, and management decisions. These disclosures allow me to evaluate whether a company is being run responsibly, whether its strategy is working, and whether my investment remains appropriate for my financial goals and risk tolerance. Removing or weakening these disclosures would blindfold the very people the SEC is meant to protect. Retail investors cannot make sound decisions when information is withheld or delayed.
I urge the SEC to maintain — and ideally strengthen — quarterly reporting requirements. Transparency is the foundation of fair markets. Please do not take vital information away from the public.

Betsy Saddler — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Betsy Saddler Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I am writing as an individual retail investor who relies on timely, transparent information to make responsible financial decisions. I strongly oppose any rule that would reduce or weaken quarterly disclosures by public companies.
Quarterly reporting is not an abstract regulatory requirement — it is the only consistent window I have into a company's performance, risks, and management decisions. These disclosures allow me to evaluate whether a company is being run responsibly, whether its strategy is working, and whether my investment remains appropriate for my financial goals and risk tolerance.
If companies are allowed to disclose less frequently or with less detail, retail investors like me will be placed at a significant disadvantage. Large institutional investors already have access to sophisticated research tools and direct communication channels with corporate leadership. Reducing quarterly transparency would widen that gap even further, leaving ordinary investors with delayed, incomplete, or outdated information. Removing or weakening these disclosures would blindfold the very people the SEC is meant to protect. Retail investors cannot make sound decisions when information is withheld or delayed. I urge the SEC to maintain — and ideally strengthen — quarterly reporting requirements. Transparency is the foundation of fair markets. Please do not take vital information away from the public.

Betty Barrett — Jun 19, 2026
Subject: S7-2026-15 Comments From: Betty Barrett Affiliation: Jun. 19, 2026 Betty and Mike Barrett My husband and I are veterans, we have five kids who have become well educated and contributing adults, two of them have life long disabilities, that has not stopped them. We also worked in the private sector and have two retirements and have invested wisely. We are not wealthy by any stretch of imagination, but we can pay our bills and meet our needs. Being able to follow our investments and see real time trends and track troubling changes allows us the opportunity to make wise decisions about our retirement funds and hopefully, protect our ability to take care of ourselves as we age. Removing transparency by eliminating quarterly reporting could become an issue for investors like ourselves and millions of other retired people. Please do not allow the quarterly reporting to be changed.
Thank you.

Betty Olive — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Betty Olive Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Re/Public companies MUST CONTINUE providing investors and traders with high quality, detailed information every quarter.
In my opinion, As a small business owner of many decades, I do believe, like many others who care to be a contributors for the good of local people, our county and/or our nation, that an honest and transparent business looking for public investment, must remain as it has been for the last 50 years, consistent with an open clear reporting and oversight. Because, ethical work includes, regularly reporting it's present state, its vision or plans for future investments with truth and clarity to its investors.
This is the only way reporting will continue to prevent, deceit and fraud.
A public business that keeps secret it's investments and financial reports from the knowledge of its contributors, is not a business that could be trusted, nor it deserves the support of the nation or its people.

Betty Sanders — Jun 19, 2026

Bill Alvarez — Jun 19, 2026
Subject: S7-2026-15 Comment From: Bill Alvarez Affiliation: Jun. 19, 2026 Dear Secretary of the Commission,

I write to urge the Securities and Exchange Commission to retain mandatory quarterly reporting requirements for public companies.

Quarterly reports (Form 10-Q) provide investors with timely, standardized financial information that is essential to informed decision-making. Reducing reporting frequency to semi-annual or annual would leave investors without critical data for extended periods, undermining market transparency and price discovery.

Furthermore, quarterly reporting deters fraud and mismanagement by requiring companies to account for their performance on a regular basis.

Weakening this requirement would reduce accountability and could expose retail investors — who lack the resources of institutional investors — to greater risk.

The current quarterly reporting framework has served U.S. capital markets well for decades. I strongly urge the Commission to preserve it.

Respectfully submitted,

W. E. Alvarez, CFO

Bill Boggs — Jun 19, 2026
Subject: S7-2026-15 Comments From: Bill Boggs Affiliation: Jun. 19, 2026 I'm taking time to write to urge you not to reduce corporate reporting requirements from Quarterly to semi-annually. Ample history has shown no shortage of corporate malfeasance when reporting was inadequate. Quarterly reporting provides greater transparency into a companies health and may force CEO's to take a longer view of shareholders best interests. William Boggs, Retired, Private Investor.

Bill Boggs

Bill Charlton — Jun 19, 2026
Subject: File No. S7-2026-15 From: Bill Charlton I am an 75 year old individual investor. My father was also an individual investor and taught me investing's value in achieving financial success. I am opposed to the proposal to go to semiannual reporting for publicly held corporations. The deck is already stacked in favor of institutional investors and insiders who have resources available that individuals do not. I do wish that public corporations would not focus on short term goals but this change will not accomplish that. I believe that this proposal has more to do with executive compensation goals than anything else. I also believe that insider information and trading is a much more pressing problem that needs to be addressed. The DOW, S&P and nasdaq are all at or near all time highs so the existing mechanism for quarterly reporting is not adversely impacting stock performance. I pay close attention to quarterly reports and projections of future earnings and profits. I believe that my ability to interpret and quickly react to that information gives me an edge over the mega institutional investors that would lost by extending the reporting period to six months. I request that the SEC not act favorably on this proposal and retain the requirement for quarterly reporting of financial results. Bill Charlton

Do not change the quarterly reporting requirement! The average American has little agency to prevent fraud that could leave them penniless.

Bob Egelson — Jun 19, 2026
Subject: S7-2026-15 Comment From: Bob Egelson Affiliation: Jun. 19, 2026 As investors we need the 3 month reports. But you are welcome to read your reports only once or twice a year if you want.

Bob Heist — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Bob Heist Affiliation: Jun. 19, 2026 Having worked in both public and private companies I strongly support quarterly reporting. Berkshire Hathaway is an example of how businesses successfully handle both quarterly reporting with long term business management.

I live in Nebraska a very conservative state and most people I know support quarterly financial reporting.

Subject: S7-2026-15 From: Bob Kedz Affiliation: Jun. 19, 2026 I lost money due to the fraudulent statements of corporate bigwigs. Keep them accountable.

Bob Metz — Jun 19, 2026
Subject: S7-2026-15 From: Bob Metz Affiliation: Jun. 19, 2026 Do not, for any reason, and under no circumstances change the quarterly reporting rule. Do not even consider making rules changes that lower the requirements of accurate reporting. Donald J. tRump is, sadly, president, but he is NOT a God or a king to be worshiped or appeased and there has been too much damage done to our

accounting and reporting standards already. ENOUGH!

Bob Miller — Jun 19, 2026
Subject: S7-2026-15 Comment From: Bob Miller Affiliation: Jun. 19, 2026 I have investments in public companies. With the rapid financial changes that take place with many companies, sometimes on a weekly basis, I need to see their quarterly financial reports at
least every ninety days at a minimum inorder to be able to make timely financial investment decisions. Once every six months is too much of a time lag for my financial protection in financial decision making. Robert W. Miller PAinsure@yahoo.com

Bob Raab — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Bob Raab Affiliation: Jun. 19, 2026 Robert Raab, Delaware Ohio, retired.This is a terrible idea that hurts individual investors who may already lack financial education, understanding and risk surrounding investments.
This only helps public companies and the government save money which is a piss poor reason to do anything, especially when it results in less meaningful information to the investing public.
It’s hard enough to navigate investment options without up to date facts and financials.

Bob Rynes — Jun 19, 2026
Subject: S7-2026-15 Comments From: Bob Rynes Affiliation: Jun. 19, 2026 Retired hard working blue collar man here. Absolutely NO!!!!! Why give the unscrupulous people at these big corporations the chance to illegally make money off of my money? I'm retired and my investments are my lifeline. I didn't work 35 years to have some slick corporate guy basically have access to insider trading in a sense. I say keep it the way it is and if anything make it more transparent and available much more often. Even quarterly would be better!

Bob Smith — Jun 19, 2026
Subject: S7-2026-15 Comment From: Bob Smith Affiliation: Jun. 19, 2026 They are the ones raking in the profits, make them work for it! Keep them honest.

Bob Sylvester — Jun 19, 2026
Subject: S7-2026-15 From: Bob Sylvester Affiliation: Jun. 19, 2026 Given the uptick in corruption at the top levels of government it is ñot prudent and not acceptable to be cutting back on oversight of companies during this scandalous period in the broadest and highest levels of government. Quarterly reporting is the least that can be done. Follow the law. We are a country of laws. Not of corrupt men.

Bob Waybright — Jun 19, 2026
Subject: S7-2026-15 Comments From: Bob Waybright Affiliation: Jun. 19, 2026 My name is Robert Waybright, I'm a retired professional but depend on my investments to make ends meet. I try to invest wisely and having accurate and timely information about corporate financials is the only way to do that. Why would the FEC want to denigrate itself any further than it already has. Wise people don't trust it already. In a time where transparency is a must, this is a really stupid idea and must be rejected. Keep the quarterly reporting to further reduce fraud. Don't be lazy.

Sincerely,

Robert Waybright

Bob Wooden — Jun 19, 2026
Subject: S7-2026-15 Comment From: Bob Wooden Affiliation: Jun. 19, 2026 Robert Wooden Retired
I believe that the SEC needs to maintain the requiring of quarterly reports. I invest in the stock markets and find this information to be very valuable, and it needs to be continually available. Thank you

Bobbi Hart — Jun 19, 2026
Subject: S7-2026-15 Comment From: Bobbi Hart Affiliation: Jun. 19, 2026 If timeframe is changed, any irregularity, whether by error or fraud, will not be caught soon enough. The reason for oversight, auditing, review will be compromised. Please keep it as is.

Bobbi Jordan — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Bobbi Jordan Affiliation: Jun. 19, 2026 I wish to formally articulate my strong opposition to the proposed change concerning the frequency of financial reporting, specifically the reversion to a semi-annual schedule. My primary concern stems from the potential for such a policy shift to significantly undermine market transparency and jeopardize the ability of investors to make timely and informed decisions. Reducing the frequency of disclosures could inadvertently obscure critical events and material developments within the reporting period. This delay in the dissemination of vital financial data creates an environment of increased uncertainty and risk, potentially leading to suboptimal investment choices and an erosion of confidence among both individual and institutional investors. Maintaining a more frequent reporting standard is essential for a robust and equitable investment landscape, ensuring all market participants have access to the necessary information for accurate valuation and strategic planning.

Bobbi Lewis — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Bobbi Lewis Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Please continue with qtrly disclosures to help those who depend on sooner rather than later financials

Bobbi Reed — Jun 19, 2026
Subject: S7-2026-15 Comment From: Bobbi Reed Affiliation: Jun. 19, 2026 My name is Bobbi Reed and I am an attorney from Oklahoma. Quarterly reports for companies are so important to investors so that an oversight of the executives of the company can be maintained.

Quarterly reports allow the market to respond to information in a more time-appropriate manner than half year reports ever allow. This helps keep management of companies more honest and fewer incidences of massive corporate fraud that negatively impact the public like Enron from occurring.

Taking the quarterly report and turning it into a biannual report will allow for more shenanigans from the companies and less oversight from the consumers. A free market would indicate that more information availability gives consumers the ability to take action on that information, which is the

appropriate method for protecting consumers, which is also a purpose of the securities ann exchange commission.

Consumers like me, who have substantial portfolios not only in taxable accounts, but in tax-protected accounts rely on this quarterly report information to make informed decisions and we are becoming ever more weary and tired of Congress not taking action to protect us and instead putting corporate and self-interests first.

Regards,
Bobbi
