Subject: Comment on S7-2026-15 From: Bonnie Mallen Affiliation: Jun. 19, 2026 Bonnie Mallen
Public School Teacher
College Station, Texas
Quarterly reporting is essential for both businesses and investors to keep a current pulse of the economy. Let me relate it to education. As a teacher, if I only evaluated my student's knowledge semi-annually, I would not have a clear understanding of what knowledge my students absorbed and what gaps they had when it came time for state testing and end of year assessments. I am constantly assessing what my students know and what I need to reevaluate, re-teach, and what I may need to approach in a different manner. The same is true for our personal, state, and national economic knowledge. Why would anyone want to revert to a 75-year old method that has been improved on and researched as being better today?

Subject: Comment on S7-2026-15 From: Bradley Leedy Affiliation: Jun. 19, 2026 Bradley Leedy, Chief Operating Officer, New Albany. Indiana, 47150

I am strongly in favor of keeping quarterly reporting as the gold standard for entities traded on the open market. We have seen how moving to a less frequent schedule will depress investing and take money away from companies during the 50s and 60s. We should not return to a system that has negative ramifications for our investors, our markets and our companies. This rule should continue to mandate quarterly reporting to provide the same level of transparency as we have enjoyed for the past 55+ years.

Brenda Flowers — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Brenda Flowers Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
My personal view on Rule S7-2026-15 is very straightforward; public companies should not be encouraged by the SEC nor provided the pathway by the SEC to hide vital investment information from the citizens of the United States. In all likelihood, this proposed reduction in reporting from the current quarterly reporting requirements to a lesser reporting structure of once every six months would result in huge investment losses to individuals.
Personally, I am simply dumbfounded to read the SEC's proposal to restructure reporting from the current quarterly calendar to a limiting bi-annual structure. I am a widowed retired hospital and independent healthcare operations administrator. The value of current historical data is imperative to me when determining business decisions and personal investment strategies. I cannot support the SEC's shortsightedness in limiting the information disclosures that assist me in making informed financial decisions during my retirement.
PLEASE, do not limit and/or take away vital investment information from me. Maintain the current quarterly reporting calendar!
Respectfully,
Brenda Flowers

Brian Starr — Jun 19, 2026
Subject: S7-2026-15 From: Brian Starr Affiliation: Jun. 19, 2026 Dear SEC:
I am writing in strong opposition to the proposal to allow companies to report public earnings less often than quarterly. The present rule has served transparency and the retail investor for over 50 years. I am concerned Relaxing these rules will be a disadvantage to all Americans who manage their own retirement accounts. We rely on quarterly information to make investment decisions. Please reject his proposal on behalf of 156 million Americans who are invested in the stock market and rely on mandated transparency to intelligently manage their retirement investments.

I am also concerned this will make the American stock market less appealing to foreign investors and may prompt some degree of international exodus from US equities prompting fall in equity value, as well as devaluation of our currency.

Warm regards,
Brian L Starr MD

Brianna Graf — Jun 19, 2026
Subject: S7-2026-15 Comment From: Brianna Graf Affiliation: Jun. 19, 2026 We should always maintain transparency with our constituents and with the public. Too many times companies have found loopholes for tax evasion, misappropriating funds, and using resources maliciously for their own gain (at the expense of the public). If we allow them to wait 6 months to report, the easier it will be for them to hide these transactions amid mounds of paperwork. It will also be harder for that hardworking people who analyze their financial records, to spot the anomalies. Say no to moving the reporting to six months.

BRYANT DUANE — Jun 19, 2026
Subject: S7-2026-15 Comments From: BRYANT DUANE Affiliation: Jun. 19, 2026 My name is Duane Bryant and I am now semi-retired. I finally have more time to study financials for my retirement investments, just to learn that the SEC is considering reducing reporting which is the wrong direction. This day and age we need more, and more frequent information, and greater oversight by the average investor, to hold poor performers and bad actors accountable before too much time passes. If you reduce information to the average investor, the only people who have the information are the ones who will misuse it.

Bryce Mercado — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Bryce Mercado Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I'm just a regular person who invests in the stock market. Quarterly reports are one of the main tools I use know what the world is going on with a company. Why in world would anyone want less information? What am I supposed to do when the data I have is cut in half and woefully out of date? Six months is an eternity is business. Especially when large investment companies have access to information I don't have. This seems like a ridiculous choice on the part of the SEC to even consider this action. I thought you were supposed to be protecting me, not making it easier for companies to get away with things.

Buckley Holton — Jun 19, 2026
Subject: S7-2026-15 From: Buckley Holton Affiliation: Jun. 19, 2026 Require continued quarterly reporting AND signatures !!!! This was done for an important reason. We need more accountability NOT less!!!

Burt Toast — Jun 19, 2026
Subject: S7-2026-15 From: Burt Toast Affiliation: Jun. 19, 2026 QUARTERLY REPORTING SHOULD NEVER BE BANNED - WE ALL LIVE BY RULES AND CORPORATIONS ARE NO DIFFERENT

Byron Willhoite none — Jun 19, 2026
Subject: File No. S7-2026-15 From: Byron Willhoite Getting information only twice a year gives the ordinary investor information in a less timely manner than insiders would get. The gap between the time insiders get the information and ordinary investors get the information creates volatility, mistrust and uncertainty. All things that are negative to investors. The SEC is accepting a real cost – less transparency for individual investors – for a benefit that the evidence says simply won't have an affect on corporate investment behavior. Reg FD moved towards a more equal playing field for ordinary investors. This proposal has just the opposite results.

C & L Butler — Jun 19, 2026
Subject: S7-2026-15 From: C & L Butler Affiliation: Jun. 19, 2026 Do not change the rules or allow any of these people to escape punishment. They ruin people's lives!!!!!!!

C Bailey — Jun 19, 2026
Subject: S7-2026-15 Comment From: C Bailey Affiliation: Jun. 19, 2026 Are you kidding me? The SEC isn't handling the corruption and collision with investments and dark money as it is, let alone, give them more time to play dirty deeds and turn the other cheek behind the curtain. I believe the reporting should go the other way ... Monthly reports!!!

---

c Beck — Jun 19, 2026
Subject: S7-2026-15 Comments From: c Beck Affiliation: Jun. 19, 2026 As a shareholder for many public companies, reporting should remain quarterly. It's the only way to fairly evaluate a company.

Cynthia Beck

Yahoo Mail: Search, Organize, Conquer

C C — Jun 19, 2026
Subject: S7-2026-15 Comment From: C C Affiliation: Jun. 19, 2026 Do not approve twice a year reporting. Quarterly reporting is the bare minimum to keep an eye on possible misconduct; twice a

year is a gift to less than honest CEOs, CFOs, and money managers. Protect those who will be harmed the most: small investors, retirement plans, and anyone who would suffer because of corporate greed.

C Diane Jones — Jun 19, 2026
Subject: S7-2026-15 From: C Diane Jones Affiliation: Jun. 19, 2026 Don't change the law to lessen the reporting period from 4 times to two. Cathrine Diane Jones, retired vice president of Potomac Aquatics, Inc. Westminster, Maryland. Quarterly reporting holds people accountable from the human weakness of greed and laziness.

C Hayduk — Jun 19, 2026
Subject: S7-2026-15 From: C Hayduk Affiliation: Jun. 19, 2026 I'm a retired 70 year old widow. We invested the bulk of our retirement money because Social Security is not enough to live on. I depend on that investment to pay for things when money is short. Since everything has gone up substantially, I would never be able to keep taxes and insurance paid, along with necessary repairs, without having that invested money, and profit, available to me. If I lost that, due to unscrupulous business practices, I would probably lose my house.
The system in place to prevent fraud is working. Why even discuss changing the rules? What has changed to make this proposition worth discussing? Please let the current rules stand.
C. Hayduk
Retired
Johnstown, PA

C S — Jun 19, 2026
Subject: S7-2026-15 From: C S Affiliation: Jun. 19, 2026 Keeping it at 4 times a year keeps it honest in this period of dishonesty! I think it would be a terrible disservice, and it’s a sign of sheer laziness to reduce the frequency of disclosures. The SEC is a federal regulatory agency, they need to regulate including necessary quarterly reporting. President Trump exercises control over the Securities and Exchange Commission (SEC). While the SEC is historically an independent agency, the Trump administration has asserted direct White House authority over it. For this reason alone, cutting back on the reporting is a no-go for me.

Reducing the frequency of disclosures hurts market transparency, creates information vacuums, and makes it harder for individuals and analysts to track a company's financial health.

Claudine Stanton
Contract Support Specialist-Florida

C Santos — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: C Santos Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission
All information must be provided on a quarterly basis as it has always been. Why is this so hard to understand and pass through the vsrious chsnnels, listen to "We The People,". Why should not have to beg for the right thing to take place in our lives for "ALL" the American people???

C Therese A — Jun 19, 2026

Subject (as required by the SEC): My view on Rule S7-2026-15
Stop this Rule now it's not reasonable nor responsible to reduce or limit quarterly disclosures!

Carey Gregory — Jun 19, 2026
Subject: S7-2026-15 Comment From: Carey Gregory Affiliation: Jun. 19, 2026 My name is Carey Gregory. I'm a recently retired software engineer
living in Connecticut and I now make my living trading stocks and
options. This rule change will actively harm me and millions more like
me. There will be very little benefit to anyone other than companies
that happen to be managed unethically. It's basically a free pass for an
extra 3 months to conceal material changes that affect the value of the
company. This will benefit ONLY insider traders.

All companies prepare quarterly results internally regardless of SEC
rules, so there's no reason to allow them to conceal those results from
their stockholders and the public.

--

Carla — Jun 19, 2026
Subject: S7-2026-15 Comment From: Carla Affiliation: Jun. 19, 2026 I am retired after working over 48 years and deserve to be able to monitor my life savings quarterly. My name is Carla Fuentez and I need you to hear me and the every day working class. Don't keep turning our nation over to the ones that already have more advantages than
they need or deserve.

Carla Brookins — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Carla Brookins Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I want to know who I am invested with is reporting the truth in real time.

Carla burge — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Carla burge Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I am very concerned about your consideration of Rule S7-2026-15. We are retired and worked hard to have enough money to invest so that when we did retire, we would have enough to survive and help our grandchildren and children when they need it. My husband worked first in the military for 10 years and then for an electronics aviation company for 3r years. I worked in a number of jobs that cared for people but did not make us rich, by any stretch of the imagination.
We depend on having the kneowledge that comes from those quarterly reports. This rule would limit our information and keep us in the dark far too long. Quarterly reports are absolutely neccessary to allow the every day working person who invests to make good decisions on their investments.
The rich and the huge corporations do not need a boost. It is on the backs of the very individuals you are now considering advsersely affecting that they have made the money they have. We NEED you to stand up for us, not them. Please do not blindfold those of us who have worked hard to get where we are and , like my husband, done the work and planning that has made the companies the incredible profits .
The nmore often they give us information, the sooner fraud will be dtected and surely you want to prvent that! Do not allow them any more leeway to commit fraud than exists at this moment.
Thank you for considering this point of view and please continue to insist that we be kept up to date. Quarterly is the bare minimum.
Sincerely,
Carla L Burge

Carol Carrino — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Carol Carrino Affiliation: Jun. 19, 2026 I'm 81 years old. I cannot afford to lose $ on investments and recoup it in my old age; I'm there. It's important to have accuracy and accountability in government, no smoke and mirrors. You wouldn't conduct your own home or business without knowing where you are and having some security that you are dealing with reality. Please assure us that the government will maintain quarterly reporting and assist us in being prudent and self-reliant.
Carol Carrino, retired healthcare provider and distressed citizen, fed up with shenanigans and shysters.

Carol Carter — Jun 19, 2026
Subject: S7-2026-15 Comment From: Carol Carter Affiliation: Jun. 19, 2026 My name is Carol Carter, retired from 48 years of banking and auto finance. Last job Director at a powersports lender. Retired age 72.7. I used to analyze car dealership financial statements when I was a 39 year

employee of GMAC/Ally Financial. I know first hand what risks are there if we take our eyes off of companies for six months at a time. We learned that the biggest losses we take are in our top dealers we reviewed only annually or semi annually. We loaned them the most and they had time to do water they were going to do when we weren't looking. The impacts of stepping back from due diligence for a) customers of the investment community, b) vendors doing business with corporations, can be catastrophic. I saved a lifetime as a woman making cents on the dollar for my single family for my retirement. At 75 I can't replace the potential loss of a large business or market segment. I implore you to maintain the quarterly reporting schedule. If investors take unexpected hits then other systems such as social services, and lending (high default rates) will feel the strain driving up cost of lending for example. Please keep your eye on the ball. We are trusting our agencies to serve the people. Thank you.

Carol Chace — Jun 19, 2026
Subject: S7-2026-15 Comments From: Carol Chace Affiliation: Jun. 19, 2026 Time to stop this nonsense! The rich keep getting richer.

Carol Clark — Jun 19, 2026
Subject: S7-2026-15 Comment From: Carol Clark Affiliation: Jun. 19, 2026 Public companies should continue to be required to report their financial results on a quarterly basis. Moving this timeframe to every six months would not be fair to investors. Many things can change in a company's financial basis in six months and investors will be adversely affected by making this change. Leave this reporting quarterly!

Carol Clark

Carol Sanchez — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Carol Sanchez Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission: the proposed rule to eliminate quarterly disclosures would blindfold retail investors. I need quarterly disclosures to help me make informed decisions, and the SEC shouldn't take vital information away from you. KEEP QUARTERLY DISCLOSURES MANDATORY. Thank you.

Carol Schindler — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Carol Schindler Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I like and need my quarterly disclosure reports. Please do not take away this vital insight. TY CAROL SCHINDLER

Carol Scott — Jun 19, 2026
Subject: S7-2026-15 Comments From: Carol Scott Affiliation: Jun. 19, 2026 The protracted intervals between mandated quarterly disclosures inherently provide organizations with an extensive window to strategically manage, manipulate, or even conceal adverse operational realities and ethical infractions. This delayed reporting mechanism can inadvertently serve as a buffer, allowing ample time for the obfuscation of inconvenient truths, thereby impeding swift scrutiny, undermining genuine transparency, and delaying the identification and rectification of potential injustices or systemic failings.

Carol Shea — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Carol Shea Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission: I'm tired of people in the government getting inside information or making certain moves knowing that it's going to affect that certain stock and then they clean up while the rest of us lose!!! Thank you for your time.

Carol Simpson — Jun 19, 2026

Subject: My view on Rule S7-2026-15 From: Carol Simpson Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Why would the SEC stop public companies from filing quarterly reports? It just gives fraud a place to hide for 9 months. It harms the consumer and directors of mutual funds who must make decisions based on the latest information in file. A lot can happen in 12 months. Consumers and mutual fund managers will be making purchase decisions based upon stale information. Reject this new rule.

Carol Stockton — Jun 19, 2026
Subject: S7-2026-15 Comment From: Carol Stockton Affiliation: Jun. 19, 2026 Do not authorize this change. This is clearly an attempt to rob account holders.

Carol Syrylo — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Carol Syrylo Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
To eliminate quarterly reporting leaves investors without the benefit of insider trading knowledge blind to how and what a company is doing, especially in the volatile world financial market we currently exist in. This further disadvantages those trying to attain or maintain their middle class status, plan for retirement, save for their children's education, buy a home, or otherwise achieve the American dream. The SEC has an obligation to demand transparency from publicly traded entities, and those entities have responsibilities tied to the funding they raise from outside investors. Yes, it's burdensome and costly, but must be factored in to the cost of doing business.

Carol Thomas — Jun 19, 2026
Subject: S7-2026-15 From: Carol Thomas Affiliation: Jun. 19, 2026 My view is straightforward. Less accountability leads to greater malfeasance. Do not end quarterly reporting. Require truthful, signed reporting. Let’s not have another Enron.

Carol Walters

Carol White — Jun 19, 2026
Subject: S7-2026-15 Comment From: Carol White Affiliation: Jun. 19, 2026 The reporting needs to be QUARTERLY and companies held accountable with strict adherence to honesty, following the best ethics and law, strict, accurate, prompt reporting with thirough oversight. Also important, rebuild human citizens' voices by immediate repeal of Citizens United which ridiculously made corporations obscenely powerful. What a travesty for our beautiful country.

Carol White — Jun 19, 2026

Subject: S7-2026-15 Comment From: Carol White Affiliation: Jun. 19, 2026 The reporting needs to be QUARTERLY and companies held accountable with strict adherence to honesty, following the best ethics and law, strict, accurate, prompt reporting with thirough oversight. Also important, rebuild human citizens' voices by immediate repeal of Citizens United which ridiculously made corporations obscenely powerful. What a travesty for our beautiful country.

My many decades of successful DIY and employer saving and investing benefited from quarterly reports. Personal investors and our families and communities need companies and government need tight oversight. There are way too many dishonest, greedy, unethical sorts out there. High quality reporting is a curb on their insatiable appetite for undeserved wealth and power.

Carol White

Carole Mitchell — Jun 19, 2026
Subject: File No. S7-2026-15 From: Carole Mitchell "I strongly oppose the SEC's proposal to make quarterly reporting optional. Eliminating the mandatory 10-Q filing severely degrades market transparency and disadvantages retail investors. Regular financial disclosures are vital for a fair, efficient market. Reducing reporting frequency creates a dangerous information gap, allowing institutional traders and insiders to act on material developments months before everyday investors are informed. The Commission should maintain strict, uniform quarterly reporting standards to protect all market participants.

Carole Morgan — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Carole Morgan Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
As a retiree who worked in Financial Reporting at a large corporation for many years, I understand how this will benefit corporations immensely.
As a retiree and shareholder in many stocks, the concern for reduced transparency and responsibility is enormous.
This seems like more taking care of the wealthy and not taking care of the rest of us at all.

Carole Petty — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Carole Petty Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:

Have worked hard for my savings n retirement. Feel companies should reveal everything quarterly as usual

Carr Joy — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Carr Joy Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
please vote no for Rule S7-2026-15. I am currently retired. I have followed the stock market since I was 18 yrs old. Quartly reports are critical for evaluating the stability of a stock. It requires managers of companies to inform stock holders of progress or problems throughout the year. I don't sell a stock based on 1 quarter results but quarterly reports do help with spotting serious trends. You will be creating a system where only the very wealthy stockholders will profit from knowing ahead of the market which stocks are struggling. I am too old to replace lost retirement income by working so please help the individual stock owners to stay informed.
Sincerely, Carr Joy (70 yr old retiree)

---

carrie binetti — Jun 19, 2026
Subject: S7-2026-15 From: carrie binetti Affiliation: Jun. 19, 2026 The Securities Exchange needs to hold companies accountable for accurately reporting financial statements on a quarterly basis. The public and our tax monies shouldn’t be used to prop up failing companies due to fraud. The CEO’s and upper management walk away with excessive retirement packages.

Subject: S7-2026-15 Comments From: Carrie Erickson Affiliation: Jun. 19, 2026 Why is this even being considered? The corporate elites take advantage is every way they can. This is another way they can rig the system. Quarterly is an established and fair way to oversee business results and manage companies. Stop. Just stop.

Carrie Rieble — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Carrie Rieble Affiliation: Jun. 19, 2026 It’s about accountability. If reporting is required less frequently, dealings will be less visible and allow public companies more time to do what’s right for them instead of the investor. While the cat’s away, the mice will play. Investors will suffer lower returns when oversight is less frequent. I am currently a public school secretary in New Jersey without about 3 years until I retire who needs every penny in her retirement accounts!

Sincerely,
Carrie Rieble,

Catherine E Scott The Motley Fool Community — Jun 19, 2026
Subject: File No. S7-2026-15 From: Catherine E Scott As a small business owner I value the discipline of evaluating & reporting results to my team on a monthly basis. It is only too easy to put off preparing financials in order to "put out fires". As a longtime investor, I recognize that our economy and our society are changing very quickly. As a stock owner, it makes little sense to demand less frequent information 10Q's when the information can go out of focus so quickly. Please retain the requirement for quarterly reporting of financials.

Catherine Fox — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Catherine Fox Affiliation: Jun. 19, 2026 Quarterly reporting is a critical consumer protection and I support keeping and enforcing this requirement.

Catherine Fox

Catherine Granger Glover — Jun 19, 2026
Subject: S7-2026-15 Comments From: Catherine Granger Glover Affiliation: Jun. 19, 2026 Catherine Granger Glover
Retired

Keep the reporting to as often as possible, for we need to know! I was brought up being trained as a NYSE consumer, as I trained my children. Without information being required from companies they will not be forthcoming and it will become enemies more of a closed society.

catherine Greenberg — Jun 19, 2026
Subject: Comment on S7-2026-15 From: catherine Greenberg Affiliation: Jun. 19, 2026 Stop trying to hamstring the American people please. Leave this alone. We do not want to return to the past!

Catherine Heckel — Jun 19, 2026
Subject: S7-2026-15 Comment From: Catherine Heckel Affiliation: Jun. 19, 2026 There is no reason given for quarterly reporting. Maybe if the billionaires in charge of Administration are trying to hide something? If DOGE and Musk hadn't gutted the employees of the Administration in the name of fake 'waste, fraud and abuse' we'd have a working government. Businesses need more than quarterly reports to keep their businesses competitive.

Catherine McCartan — Jun 19, 2026
Subject: S7-2026-15 (change to reporting frequency) From: Catherine McCartan Affiliation: Jun. 19, 2026 To Whom It May Concern:

I request that the SEC retain the quarterly reporting requirements rather than switch to a twice yearly requirement as proposed in this rule change.

It is imperative that companies be transparent and provide as much information as possible in a timely manner to confirm the financial health of their organization to their clients. While companies will retain the option to continue with quarterly reporting, most will opt for the six month reporting cycle if this rule change gets passed.

Lack of transparency is what allowed Enron to hide their potential insolvency and eventually go belly up, to the catastrophic detriment of their investors. I think the SEC should view the Enron situation as a cautionary tale, and do your best to never allow this to happen again.

I am speaking as an investor who has a large majority of my life savings tied up in the stock market. Please protect the consumer.

Thank you for considering my viewpoint as you cast your final votes.

Catherine Milanak — Jun 19, 2026
Subject: S7-2026-15 Comment From: Catherine Milanak Affiliation: Jun. 19, 2026 Catherine Milanak, Bid Administrator.
I need quarterly reporting to make decisions. Anything else is unfair. I believe only reporting every 6 months gives corporate raiders an unfair advantage . The savings to companies aren't worth the cost to me.

Sent from my iPhone

Catherine Nemchek — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Catherine Nemchek Affiliation: Jun. 19, 2026 I strongly discourage the return to less reporting. Transparency is extremely important here. An analysis of countries that require quarterly reporting shows a distinct advantage over those that don't. Do not jeopardize my access to valuable information for my investments.

Catherine Nifong — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Catherine Nifong Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Detailed financial information is readily available to corporations and they should continue to provide it to their investors on a quarterly basis. Such information is needed quarterly to make investment decisions and to ensure the company is on a solid path. Too much can happen in six months that would be detrimental.

Catherine Pixton — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Catherine Pixton Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I'm a retail investor and I'm against the proposed rule S7-2026-15. I'm very concerned about such a major change in policy. Company conditions can change very quickly with publicly traded companies and my husband and I rely on quarterly updates to make decisions about investments in our retirement accounts. We have two young adult children who will also be a affected as they begin their careers and making investments as retail investors. We need more frequent updates not a major cut in the frequency of required updates from publicly traded companies. Thank you for your consideration.
Sincerely,
Catherine Pixton

Charlotte — Jun 19, 2026
Subject: S7-2026-15 Comments From: Charlotte Affiliation: Jun. 19, 2026 To the SEC:
Quarterly reporting of company performance should remain the standard in the business world. I am retired and living off of my investments. I cannot afford to have them wiped away due to infrequent reporting of performance. I am early into my retirement and have to make my savings last for many years hopefully. Quarterly reporting is necessary to prevent unethical business practices and failures.
Sincerely,
Charlotte T Davis

Subject: My view on Rule S7-2026-15 From: Cheryl Parks Affiliation: Jun. 19, 2026 Do not do this!!!! To the Securities and Exchange Commission:

Cheryl Silfee — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Cheryl Silfee Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Quarterly disclosures provide timely, standardized information that helps retail investors understand a company's financial condition and performance. Public reporting promotes transparency, accountability, and fair access to information. Reducing the frequency or amount of disclosure could make it more difficult for individual investors to make informed decisions and could increase the informational advantage of larger institutional investors. Maintaining strong disclosure requirements helps support confidence in U.S. capital markets.

Cheryl Thomas — Jun 19, 2026
Subject: S7-2026-15 Comments From: Cheryl Thomas Affiliation: Jun. 19, 2026 Cheryl Thomas RN. Why do you need to avoid accountability? The current system works fine!

Sent from my iPad

Chris Grove Software Development/IT — Jun 19, 2026
Subject: File No. S7-2026-15 From: Chris Grove I am writing to demonstrate that I do not support the move to semiannual reporting as proposed in S7-2026-15. As someone that witnessed the DotCom bubble firsthand and was employed at WorldCom during the accounting scandal, I do not agree with the notion of relaxing reporting requirements for corporations. I saw what accounting misrepresentations did to employees that lost their life savings because of corporate greed and the financial engineering that took place to make the financial picture look rosier than it was. Any company that is worth its salt does monthly reporting anyway, so the data is there, hiding any explanation to investors for an additional three months is counter to the transparency that has been a hallmark of the financial markets for the last 20 years. Please do not change the reporting period from quarterly to semiannual. Thank you, Chris

---

chris hall — Jun 19, 2026
Subject: S7-2026-15 Comment From: chris hall Affiliation: Jun. 19, 2026 Reducing the reporting to quarterly is a bad idea. We need more visibility into finances, decisions, and results, not less. I think monthly reporting is necessary to protect investors and
 the economy.

Chris Tinker — Jun 19, 2026
Subject: S7-2026-15 From: Chris Tinker Affiliation: Jun. 19, 2026 Name: Chris Tinker
Job Title: Help Desk Technician
Location: Sacramento, CA

Why: It is a sad day that we Americans have to look upon each other with suspicion or fear. While it is true that a corporation hasn't always existed for us to be suspicious of, they are now an unavoidable part of life and our lifestyle. Almost everything that is done in most of our day-to-day happenings includes interaction with a corporation (or many). Because they are so ingrained, we must be able to put our full financial trust in them while doing so.
It is indeed a sad day when we cannot trust the corporations that we interact with, but sadly that day is today. If the only thing that can guarantee CEO oversight on their own company's financial actions is to have quarterly accountability, than that is what is needed. A lot can go very wrong in the space of six months that would not get as bad in just three. We all know this. In an era of corporate wrongdoing, having laws like these allows us to keep our trust in the transactions we have daily with these corporations. It allows us to keep our trust in America.

Chris Tsanganelias — Jun 19, 2026
Subject: S7-2026-15 From: Chris Tsanganelias Affiliation: Jun. 19, 2026 The regulations hold the CEO's accountable as they should be for their company's actions. Do not adjust the existing term of quarterly signatures. There's no excuse to reduce that. I work at a family run company and believe in the responsibility.

Chris Williams — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Chris Williams Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
We MUST retain quarterly disclosures. Quarterly disclosures are the absolute bare minimum of information needed by everyday average Americans to confidently invest. By eliminating quarterly disclosures the SEC would be taking vital information from the average American investor and leave this information only in the hands of the connected, rich, and powerful. The only "in" to a companies status that the average American investor has is quarterly disclosures. Keep the market free, don't give an unfair advantage to a few already at the top. Keep quarterly disclosures.

Christa Beals — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Christa Beals Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
As an individual investor, quarterly disclosures are essential to making informed decisions. Timely access to financial results, risks, and operational updates helps me evaluate companies based on current information rather than outdated annual reports. Quarterly reporting promotes transparency, accountability, and confidence in our markets. Reducing or eliminating these disclosures would deprive investors of vital information and make it harder for ordinary investors to assess performance, identify emerging risks, and make sound investment decisions. I urge the SEC to preserve quarterly disclosure requirements and continue ensuring that all investors have access to timely, reliable information.

Christi Walter — Jun 19, 2026
Subject: S7-2026-15 Comment From: Christi Walter Affiliation: Jun. 19, 2026 Quarterly reporting must be maintained. Keeping information from USA citizens is a leap away for mankind. Keep the facts laying field level for everyone.

Christian Eckman — Jun 19, 2026
Subject: S7-2026-15 Comments From: Christian Eckman Affiliation: Jun. 19, 2026 Quarterly reports are the minimum owed to the public. Informed investment decisions cannot be made with less i formation at hand. If this moves forward I hope the public moves away from these financial vehicles,

to our ultimate great peril

Christian Gearheart — Jun 19, 2026
Subject: S7-2026-15 Comment From: Christian Gearheart Affiliation: Jun. 19, 2026 Christian Gearheart, automotive service tech at walmart. Keeping quarterly reporting is important to me because it helps those of us who do not have the info or ability to getbaway with insider tradimg, as well as keeping dark money out of politics. going to twice anually would increase the amount going dark forcing the ones likemyself that struggle week to week making iit harder with what little funds we have to trade and try and build up portfolios.

Christie Borchin — Jun 19, 2026
Subject: File No. S7-2026-15 From: Christie Borchin As a retiree, I oppose the proposal to reduce public company reporting from quarterly to semiannual disclosures. As an individual investor, I rely on regular, transparent financial reporting to make informed decisions about my investments. Quarterly reporting provides timely information about a company's financial health, performance trends, risks, and management effectiveness. Reducing reporting frequency would decrease transparency and make it more difficult for ordinary investors to evaluate companies and protect their savings. Less frequent reporting could also increase the information advantage held by insiders and large institutional investors, while leaving individual investors with fewer opportunities to assess changes in company performance. Public markets function best when all investors have access to timely, standardized information. While I understand the desire to reduce compliance costs and encourage long-term thinking, those goals should not come at the expense of transparency and investor protection. Strong disclosure requirements help build confidence in our financial markets and contribute to fair pricing of securities. For these reasons, I urge the SEC to maintain the current quarterly reporting requirements for public companies. Christie Borchin Retired ,Roseville CA

Christina Brandt — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Christina Brandt Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
When it comes to financial decision making, the more information I have, the better.

The proposed rule that would lessen the amount of financial information that helps me make informed decisions is ludicrous and dangerous. Quarterly reporting requirements were established to protect me, and I don't appreciate the attempt that's being made to take away that protection.

Christina Smith — Jun 19, 2026
Subject: S7-2026-15 Comments From: Christina Smith Affiliation: Jun. 19, 2026 SEC why are you bowing to the America's wealthy to enable more corruption? No benefits for hardworking Anericans … but rather making it more difficult to investigate and prosecute the corruptions. And likely impossible to "catch up" with the mess this will creates.
Christina Smith

Christopher Sedenquist — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Christopher Sedenquist Affiliation: Jun. 19, 2026 Good day,

I am personally heavily invested in the US stock market. Please keep the current quarterly financial reporting schedule.

I believe quarterly reporting forces companies small and large to be more transparent than if they only need to report semi-annually. Reducing the required frequency of reporting makes informed trading more difficult, primarily for individual investors. The burden of reporting quarterly is the cost of transparency and affords valuable, standardized information to all investors.

Thank you and best regards,
Chris Sedenquist

Christopher Watts — Jun 19, 2026

Christy Orosco

Christy Perry — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Christy Perry Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Rule S7-2026-15 appears to be another means to limit investors' access to good, reliable information. If we are to put our efforts and money behind ANYTHING, we should have a good, reliable source for the information that will help make good decisions. The question here should be WHY CHANGE THIS TO HURT THE INDIVIDUAL WHEN THEY ARE YOUR SOURCE OF STABILITY!?!

Chrystalle Doyle — Jun 19, 2026
Subject: S7-2026-15 Comment From: Chrystalle Doyle Affiliation: Jun. 19, 2026 Good morning,

My name is Chrystalle Doyle. I work in education.

I believe this is a bad idea to go from quarterly reporting to twice a year reporting.

The framing is voluntary, but the dynamics aren't. Once large companies start filing twice a year, smaller competitors face pressure to follow. They can't justify "more compliance than the bigger guy." Investor expectations adjust downward.

What started as a choice quietly becomes the new normal. Almost no rule like this stays optional for long.
This gives too long for things to be hidden and bad things to happen with no oversight.

Chrystalle Doyle

---

Claire Kirkpatrick — Jun 19, 2026
Subject: S7-2026-15 Comments From: Claire Kirkpatrick Affiliation: Jun. 19, 2026 I support maintaining quarterly reporting requirements. Quarterly disclosures provide investors with timely, transparent information about a company's financial condition, risks, and performance. Reducing reporting to a semiannual schedule would create larger information gaps and primarily benefit corporate insiders and large institutional investors who have greater access to information and resources. Retail investors rely on regular public disclosures to make informed decisions, and less frequent reporting would make it harder for them to fairly evaluate companies and protect their investments. Quarterly reporting helps level the playing field, promotes accountability, and supports transparent, efficient, and trustworthy capital markets.
Sincerely,
Claire Cobb, Physician Assistant, Savannah GA.

Clayton McKinnis — Jun 19, 2026
Subject: S7-2026-15 Comments From: Clayton McKinnis Affiliation: Jun. 19, 2026 Good morning,

In 2026, businesses run on information and access to it. Allowing corporations to conceal their financial information for up to six months invites fraud akin to the Pelosi scale.

In a time where AI can crunch the numbers and produce the report in a matter of days, or even hours, allowing corporations to hide their financial activity would hurt the American consumer.

Respectfully,
Clayton D. McKinnis

Colin — Jun 19, 2026
Subject: S7-2026-15 From: Colin Affiliation: Jun. 19, 2026 I am Colin Thornsberry, I'm a government contractor, and I oppose any change in laws that weaken the SEC. CEOs have a duty to report honestly and reducing to quarterly reporting is just wrong. I think it's criminal laws and rules are being changed making it easier for corruption to exist within the financial markets. Rule changes to the stock exchange are why there is now a trillionaire. Companies have a responsibility not only to their shareholders, but to their employers as well! It appears the American public is being lied on what are good investments, not exercising sound judgement. President Trump has been passing lies that everyone is doing well simply because stocks are rising. We all know this is untrue because most normal people go shopping every week and any raises we receive in our jobs are not keeping up with inflation. Your duty is to be faithful to the American public, not partisan to the billionaires or the President. Any rule changes making it easier for CEOs to lie should not be approved. If anything, we require more oversight not less oversite. Most of us know the AI bubble will bust, and when it does, who will be left holding the bag? It's not the billionaires and trillionaire. We should've learned something after the previous blown bubbles.

Connie Markowic Career & Technical Educator — Jun 19, 2026
Subject: File No. S7-2026-15 From: Connie Markowic To Whom It May Concern, I am writing as a voter, taxpayer, and retail investor from New York to strongly oppose the Commission's proposal to allow public corporations the option to shift to a semiannual reporting framework (Form 10-S). While this change is framed as a way to reduce administrative burdens for corporate America, it directly harms the everyday investors who provide the vital capital that keeps these businesses running. Since traditional pensions are largely a thing of the past, public markets now hold the life savings and retirement nest eggs of millions of working Americans. We deserve transparency. Allowing companies to withhold financial results for six months at a time creates several severe risks for retail investors and the public at large: •Severe Information Asymmetry: Institutional investors have the capital to purchase expensive "alternative data" (such as credit card tracking and supply chain analytics) to monitor a company's health in real-time. Retail investors rely entirely on public SEC filings. Reducing reporting frequency to twice a year effectively blindfolds everyday investors while allowing Wall Street to trade with a massive informational advantage. •Increased Market Volatility: Spacing disclosures out over six months means that two quarters' worth of business changes, operational erosion, or material updates will hit the market all at once. This lack of continuous calibration will result in severe, unpredictable stock price shocks—shocks that retirement savers cannot afford. •Loss of Sector Comparability: Because this rule is optional, it will fragment the market. Trying to evaluate and compare a company reporting quarterly against a peer reporting semi-annually destroys the uniformity required to make sound asset allocation decisions. •Macroeconomic and Societal Vulnerability for Seniors: Retail portfolios are the literal baseline of

survival for an aging demographic. Sudden, violent upheavals in retirement funds—caused by long-delayed financial disclosures catching the market off-guard—will inevitably destabilize the financial security of our senior population. Forcing seniors to absorb these artificial market shocks occurs at a time when our nation's healthcare and elder care infrastructures are already severely strained and facing unprecedented logistical and financial challenges. The SEC should not adopt policies that risk turning corporate disclosure relief into a broader societal crisis. Corporate America must remain accountable to the public providing its funding. I urge the SEC to uphold its foundational mandate of investor protection and reject this proposal. Mandatory quarterly reporting ensures a level playing field; rolling it back only serves corporate insiders at the expense of Main Street. Thank you for your time and consideration of my comments. Sincerely, [redacted]

Connie Markowicz — Jun 19, 2026
Subject: S7-2026-15 From: Connie Markowicz Affiliation: Jun. 19, 2026 To Whom It May Concern,
I am writing as a voter, taxpayer, and retail investor from New York to strongly oppose the Commission’s proposal to allow public corporations the option to shift to a semiannual reporting framework (Form 10-S). While this change is framed as a way to reduce administrative burdens for corporate America, it directly harms the everyday investors who provide the vital capital that keeps these businesses running.
Since traditional pensions are largely a thing of the past, public markets now hold the life savings and retirement nest eggs of millions of working Americans. We deserve transparency. Allowing companies to withhold financial results for six months at a time creates several severe risks for retail investors and the public at large:
•Severe Information Asymmetry: Institutional investors have the capital to purchase expensive "alternative data" (such as credit card tracking and supply chain analytics) to monitor a company’s health in real-time. Retail investors rely entirely on public SEC filings. Reducing reporting frequency to twice a year effectively blindfolds everyday investors while allowing Wall Street to trade with a massive informational advantage.
•Increased Market Volatility: Spacing disclosures out over six months means that two quarters' worth of business changes, operational erosion, or material updates will hit the market all at once. This lack of continuous calibration will result in severe, unpredictable stock price shocks—shocks that retirement savers cannot afford.
•Loss of Sector Comparability: Because this rule is optional, it will fragment the market. Trying to evaluate and compare a company reporting quarterly against a peer reporting semi-annually destroys the uniformity required to make sound asset allocation decisions.
•Macroeconomic and Societal Vulnerability for Seniors: Retail portfolios are the literal baseline of survival for an aging demographic. Sudden, violent upheavals in retirement funds—caused by long-delayed financial disclosures catching the market off-guard—will inevitably destabilize the financial security of our senior population. Forcing seniors to absorb these artificial market shocks occurs at a time when our nation's healthcare and elder care infrastructures are already severely strained and facing unprecedented logistical and financial challenges. The SEC should not adopt policies that risk turning corporate disclosure relief into a broader societal crisis.
Corporate America must remain accountable to the public providing its funding. I urge the SEC to uphold its foundational mandate of investor protection and reject this proposal. Mandatory quarterly reporting ensures a level playing field; rolling it back only serves corporate insiders at the expense of Main Street.
Thank you for your time and consideration of my comments.

Constance Bruns — Jun 19, 2026
Subject: S7-2026-15 From: Constance Bruns Affiliation: Jun. 19, 2026 My name is Constance Irene Bruns, and my husband Charles H. Bruns and I resided in Palm Beach County at the time the Enron (and banks) failure occurred. I believe the short reins are absolutely
necessary to minimize the natural human tendency to abuse liberties and take advantage of vulnerable/gullible investors. Be advised that the SEC has NO right to rescind the checks and balances put in place by order of the Judge on behalf of the victims, which
included my now deceased husband and myself. We were wiped out of our investments and savings, from which we never recovered, as it affected his health (heart attack followed by a stroke), which forced him out of work for the remainder of his life. We don't
get a do-over, so neither should the term of quarterly accountability measures be cut in half. If the job is "too burdensome" then resign and get a different job. There is such a thing as forgiveness, but that doesn't mean we should forget, so as to allow
yet another repeating of history. Do the responsible thing, and uphold the measures that have managed things well so far. We know they find loopholes and private back doors through which to make their fortunes anyway. So please, please, PLEASE do not grant
an inch or even a minute of restored "broad powers" to these people. I am now retired, on minimum pension, so there is no title or career to mention anymore. I currently reside in Greenville, SC with a younger sibling who also was forced into retirement due
to health issues. Ladies and gentlemen, DO YOUR JOB. Or get out of the way, so that a more responsible and reliable individual can fill your position/s. Thank you for your time and attention to this matter. Sincerely, --Constance I. Bruns, in Greenville County,
South Carolina, USA

Constance Nappi — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Constance Nappi Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
We need accountability! History tells us that we cannot rely on the honor of those in powerful positions. Safeguards must remain in place to protect investors. There is no evidence suggesting anything else will work except forced accountability.

Constantina Dallas — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Constantina Dallas Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I oppose this proposal because I believe quarterly reporting provides important transparency for everyday investors. As a retirement investor, I rely on regular financial disclosures to make informed decisions about my savings and investments. Reducing reporting from every three months to every six months could delay important information and make it harder for individual investors to evaluate a company's financial health in a timely manner. Public companies benefit from access to public capital markets, and regular reporting is an important part of maintaining investor confidence and accountability. Thank you.

Subject: Comment on S7-2026-15 From: Corinna Payne Affiliation: Jun. 19, 2026 My name is Corinna Payne. I am a residential supervisor for a local Assessor's office. Please do not remove quarterly reporting for companies. This will severely hurt my investment savings and I am relying on that for part of my retirement. Thank you.

Cory Davenport — Jun 19, 2026
Subject: S7-2026-15 Comment From: Cory Davenport Affiliation: Jun. 19, 2026 To whom it concerns,

I am writing to express my support for maintaining mandatory quarterly reporting. I rely on quarterly statements to make informed decisions about my savings, and I believe that longer gaps in reporting create an unfair advantage for corporate insiders.

Making these updates "optional" does not solve the problem, as companies that choose to opt out are often the ones whose investors require the most frequent updates. Furthermore, any potential savings to these companies do not outweigh the cost and risk to individual investors.

Thank you,
Cory Davenport

Cory Stone — Jun 19, 2026
Subject: S7-2026-15 Comment From: Cory Stone Affiliation: Jun. 19, 2026 Cory, Individual investor. This new policy will give even more advantage to big money, while shutting out the independents. In conjunction w the changes in index policies for IPO's and their effect on index funds, this appears as trend on several fronts to increase the wealth gap and shrink the middle class. It's bad for the country.

Cory

Craig Howard — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Craig Howard Affiliation: Jun. 19, 2026 Craig Howard, retired, Clermont, Fl. Quarterly report lowers chance of a negative windfall. Retired folks carefully scrutinize their savings way more than twice a year. Keeping reporting quarterly lowers our risk of being blindsided by negative reporting during the interim period.

Craig Messmer — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Craig Messmer Affiliation: Jun. 19, 2026 Craig Messmer here, I am in international produce sales.
Like any business decisions made, it is best to have as recent, up to date information. Making reporting semi annually would not provide as up to date information as needed. Please don't change something that isn't broken. It is just another way a company is protected and the common investor assumes more risk
Sincerely,
Craig Messmer

Craig Reynolds — Jun 19, 2026
Subject: S7-2026-15 Comment From: Craig Reynolds Affiliation: Jun. 19, 2026 Quarterly reports work well. No good reason to change it to 6 months. Sunshine is the best disinfectant. Better to know of corporate shenanigans before they are 6 months in the rearview mirror.

Craig Scheetz — Jun 19, 2026
Subject: S7-2026-15 Comment From: Craig Scheetz Affiliation: Jun. 19, 2026 Don't return to a failed policy that was abandoned in the past.

Crystal Stringer — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Crystal Stringer Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Transparency is not optional. It's the duty to keep all investors informed regarding the market, and corporate intentions, mergers, sales, and whether a company is experiencing any foreseeable downturn and decline in the value of their company. Private investors has the right to demand transparency of following trends, based on real knowledge of whether a business is flatlining, showing growth, or gaining revenue. People doesn't enter into investing in stocks blindly... as we need to monitor the performance of each company we trust to invest our money with, and track their success and growth accordingly. Just as each company's CEO and top executives have charted out for their fiscal year's quarterly reports.

Cuyler Reid — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Cuyler Reid Affiliation: Jun. 19, 2026 Public reporting is good for the public! Reducing reporting increases opportunity for errors.

Cynthia Barber — Jun 19, 2026
Subject: S7-2026-15 From: Cynthia Barber Affiliation: Jun. 19, 2026 Apparently SEC is ready to sell their souls to help CEOs.
I am a disabled veteran and I already dread getting utility bills. I live in central Texas and summers are brutal. Allowing CEOs to skip reporting is going to open things up for another Enron. There are enough expenses under the current regime.Please don't make things worse than they already are. There are too many problems the SEC should not make things worse. Far too many elderly are already suffering under this regime. Those who are young with small children are having to work multiple jobs and are not able to gain against the cost of living. Please realize what SEC can make worse.
C.A. Hite.

Cynthia Bischoff — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Cynthia Bischoff Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
It is imperative to continue quarterly reporting so investors can see what is going on with their investments!

Cynthia Bivens — Jun 19, 2026

Cynthia Roy — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Cynthia Roy Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
For me, as a retired CPA, CIA and CFE, financial information was essential to do my job. Using the quarterly statements to run analytics for testing allows professionals both inside and outside the company the ability to notice and address any discrepancies, changes, trends in a timely manner. Also as an investor, it's important to have timely accurate financial statements.
Twice a year is a distinct disadvantage and will result in financial losses for the investor class due to delayed financial disclosures with the end result being large reactive swings in the stock market.

CYNTHIA RUSTANIUS — Jun 19, 2026
Subject: S7-2026-15 From: CYNTHIA RUSTANIUS Affiliation: Jun. 19, 2026 Quarterly reporting needs to stay. CEOs need to be held responsible for what they are representing as accurate financial statements. The auditors are already responsible but companies' management provide the information just point the finger at auditors if something is misrepresented and are off the hook. CEO's should have just as much vested in correct and accurate financial statements.l
As you know many portfolios are held for retirement accounts and their holdings need to have accountability and accuracy to protect the investors.

Dan Ralston — Jun 19, 2026
Subject: S7-2026-15 Comment From: Dan Ralston Affiliation: Jun. 19, 2026 The whole point of the SEC is accountability and transparency. Relaxing standards on reporting means that insiders are able to move markets without the public having the same information and hiding far more problems.

Dan Yahne — Jun 19, 2026
Subject: S7-2026-15 Comment From: Dan Yahne Affiliation: Jun. 19, 2026 Dan Yahne, retiree..,It should be obvious why quarterly reports are important to ALL Americans!

Dana Bice — Jun 19, 2026
Subject: S7-2026-15 Comments From: Dana Bice Affiliation: Jun. 19, 2026 Companies are required to give quarterly reports to inform investors and the market of the financial health of the company! This holds the Companies accountable to their shareholders and financial institutions! Within quarterly reporting shareholders and financial institutions would know the financial health of the company. Shareholders, Financial Institutions, Investors and the SEC would be able to hold the publicly traded Companies accountable, from knowing when to buy or sell their stock. Without the SEC quarterly reporting we could have another "Enron"! Without quarterly reporting you have a higher chance of illegal insider trading! It is imperative that we hold these companies accountable!

Dana Bice

Daniel Cook — Jun 19, 2026
Subject: S7-2026-15 Comments From: Daniel Cook Affiliation: Jun. 19, 2026 Dan Cook - US Military

Quarterly reporting needs to remain the standard, or even brought to a more frequent period such as monthly reporting. The mechanics of the markets already disadvantage the small investor. Increasing corporate transparency so that we have less opportunity to be taken advantage of benefits the American people .

Daniel King — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Daniel King Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
We live in a time where the public needs more transparency, not less. This proposal only serves to increase the advantage and frequency of traders who break the law via insider trading. Our country has a reputation as the backbone of the fincial world; ripples here are felt everywhere. Should more voletility arise from this proposal then the world will find a way to replace us. The citizenry relies on Federal agencies to hold the people and it's leaders accountable; time to do your job and do the right thing. Do not allow this proposal to pass.

Daniel P — Jun 19, 2026
Subject: S7-2026-15 From: Daniel P Affiliation: Jun. 19, 2026 Daniel Pagac. Disabled citizen. Michigan. The law helps mitigate damage to shareholders and exposing new investors to financial harm. You're the CEO for a reason. Accept the responsibility. If your company produces sound financial reports, there's no valid reason to suggest the need for reducing the number of signatures.

Daniel Patrick Farrell — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Daniel Patrick Farrell Affiliation: Jun. 19, 2026 keepitquarterly.org/ makes a pretty good case that this is not a wise idea. To me it looks more like corporate cronyism.

Corporations don't face a reporting problem. It is not at all onerous to have them report quarterly.

Danielle Tremblay — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Danielle Tremblay Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:

It seems like thisproposed change is coming at a very suspicious time. Removing the need to have companies required to report activities, positive and negative would allow companies to hide things that they don't want their investors to know about. They will always release positive updates publicly but this change would allow for more time to cover up wrongdoing and corruption. This stinks of Trump's influence and another instance of his corruption making its way into our world and those around him cowtowing to his whims. If this goes through, it will be clear that there are more people at the SEC that are in his pocket or changing rules to get closer to his pockets and cannot be trusted.

David Capella Certified Public Accountant — Jun 19, 2026
Subject: File No. S7-2026-15 From: David Capella I don't think this is a good idea to allow companies 6 months for interim reporting. From my experience companies fly a little too loose on off quarter months and shore up reporting for the quarter which could potentially impact analyst decisions. Additionally, while I am sure many retail investors aren't reading the quarterly reports when they come out. I do think they are leveraged when performing fundamental research. I in my personal investing use them as the source of truth to validate results claimed by analyst. While quarterly reports aren't subject to full blown audit procedures I still have comfort knowing they are being compiled and reviewed by a third party. Lastly by reducing the number of interim reports required for companies will also call into question the value of the market. Said otherwise this idea is just as bad as when we moved off the gold standard.

David Chuchla — Jun 19, 2026

David Harrison — Jun 19, 2026
Subject: S7-2026-15 Comment From: David Harrison Affiliation: Jun. 19, 2026 David Cumming, Veteran,
It is absolutely imperative to keep this bare minimum of quarterly reporting in order to make reasonable judgment calls. In a free and open market where our money is on the line we require a good understanding of how the businesses we place trust in to be as open and transparent as possible. It is remarkably shortsighted to think that anything less than quarterly reporting is appropriate. The mere suggestion of obfuscating the progress or lack thereof of any business entity benefits the United States and the health of our economy is nothing other than pure unadulterated insanity. The SEC has long maintained standards that have kept us from slidin

David Quaglieri — Jun 19, 2026
Subject: File Number S7-2026-15 From: David Quaglieri Affiliation: Jun. 19, 2026 Please find herein my comments relative to the SEC semi-annual reporting proposal, thank you for the opportunity to provide feedback. My points support a detrimental impact to investors if the proposal is adopted by companies. Higher Volatility: Relevant shifts in business momentum remain hidden longer. When updates do arrive, they may cause significant and or negative stock price swings.
Asymmetry of information: Retail investors and everyday portfolio managers may be at a disadvantage, as longer report cycles widen the information and knowledge gap between corporate executives and the public. Reduced transparency of information: Volume and frequency of information may be reduced, limiting financial data used by investors to make informed financial decisions based on company performance. Ad hoc recommendations, unofficial reports, even rumors may become prevalent causing stock price volatility. Reduced Analyst Coverage: Analysts may find it difficult to provide accurate and continuous forecasts, potentially causing some companies to suffer reduced liquidity and higher risk.
Thank you again for the opportunity to provide feedback.

David R — Jun 19, 2026
Subject: S7-2026-15 Comments From: David R Affiliation: Jun. 19, 2026 David Russell, Stationary Engineer - as a retail investor, with fifteen years until I reach retirement age, quarterly reports have become a vital tool to manage my private retirement portfolio. Gen X had pensions erased from our future (which is now present day), quarterly reports help make educated investment decisions that are critical to financial security in retirement. The government fails to properly manage social security (both republican and democratic), I have nothing to truly count on except my retail account. My generation is a failed government retirement experiment - please don’t eliminate quarterly reports.

David Richert — Jun 19, 2026
Subject: S7-2026-15 Comment From: David Richert Affiliation: Jun. 19, 2026 You have got to be kidding me. This would give the wealthy all they need to commit fraud, hide assets, cook their books, etc. This absolutely cannot be approved.

David Rodriguez — Jun 19, 2026
Subject: S7-2026-15 Comment From: David Rodriguez Affiliation: Jun. 19, 2026 My name is David, as a Mariner, we often don't have access to steady internet, news outlets, TV, or other media forms to keep ourselves in formed on our personal finances. Changing the quarterly reporting my companies would limits our access to information and could potentially lead to severe fraud for investors. This affects individual investors far more than an institution or company which has greater access to the information needed to make informed investing decisions. Personally this seems to disregard the lessons learned by so many wall street failures in the past, and simply opens the door for companies and institutions to take advantage of invididual investors, and ultimately, the American tax payer.

David Rogers — Jun 19, 2026
Subject: Comment on S7-2026-15 From: David Rogers Affiliation: Jun. 19, 2026 I'm an engineer leading a $120m business, we rely on quarterly reporting to make sure we are hitting our financial execution targets for direct hours, overtime hours, materials, contracts and indirect expenses. Moving to biannual reporting would not give us time to make corrections if any of our metrics are off. I'm about to retire, I don't want any changes to the financial system that would jeopardize my savings at this point.

Subject: S7-2026-15 Comments From: Deborah Fredson Affiliation: Jun. 19, 2026 They need to keep reporting quarterly. Honesty dies in darkness.

Sent from my iPhone

Deborah Gray — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Deborah Gray Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I oppose the proposed rule S7-2026-15 that would end quarterly reporting of financial standings by public companies. We are retired and having quarterly financial reports allow us to keep on top of our investments and protect our future. This rule allows a risk of fraud and financial distress of these companies going unnoticed for too long. It is surprising that the SEC would consider this when the SEC makes it arduous for a company to prove it's financial stability in order to qualify for an IPO and be publicly traded. Quarterly reports and the scrutiny they provide should continue.

Deborah Hanson — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Deborah Hanson Affiliation: Jun. 19, 2026 I am writing to tell you that the SEC needs to retain quarterly reporting. Evidence from the past shows that more transparency…by companies making quarterly reports is actually better for the economy. Do not go back in time and repeat the problems that history has shown us we have already overcome. Thank you for allowing my voice to be heard
Deborah Hanson, RN, Retired former business owner

Deborah Haradon — Jun 19, 2026

Subject: S7-2026-15 Comment From: Deborah Haradon Affiliation: Jun. 19, 2026 My name is Deborah Haradon. This is an issue of fairness for all. We must continue to require the reporting to ensure the safety and security of our resources. Protect everyday Americans.

Deborah Harrison — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Deborah Harrison Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission: You should always show all everything that goes on that way you can't be charged for anything that goes against the law.

Deborah Holvey — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Deborah Holvey Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I need to know where my money is going and who it supports. This rule change would cause me great distress and impact my life. I have as much right as a large investor to know where my money is being used and what it is being used to do in the world I live in. I want to support free enterprise and business with my money. I do not want to support companies who hide what they are doing. Support the people who invest, small and large.

Deborah Kramb — Jun 19, 2026
Subject: S7-2026-15 Comments From: Deborah Kramb Affiliation: Jun. 19, 2026 I believe we have to keep watch to keep wall street accountable. Please don’t reduce over watch Deborah Kramb educator

Please maintain transparency with quarterly reports.

Deborah LeBlanc — Jun 19, 2026
Subject: S7-2026-15 From: Deborah LeBlanc Affiliation: Jun. 19, 2026 Keep it QUARTERLY!!! WOW haven’t we had enough fraud in this country lately, and since Enron??? OR is there a new crowd trying to pull off similar “no accountability” tactics within a different entity????
Is the FRAUDULENT Democratic Party running this operation too?

What in the HELL is going on with you people! Tighten Up!
Deborah

Deborah Lennon — Jun 19, 2026

Subject: S7-2026-15 Comment From: Deborah Lennon Affiliation: Jun. 19, 2026 I'm a retired former high tech executive. Quarterly reports are the minimum that investors and the public need to make informed decisions on whether to invest, divest, or purchase a corporation's products/services. American corporations are managed to quarterly goals including revenue, profits, expenses, and hiring - why would the SEC allow executives to hide quarterly activity and results against these expectations? This would severely impact transparency, weaken executive accountability and undermine trust and confidence in the U.S. securities markets. Keep reporting requirements quarterly!

Sent from my iPhone

Deborah Lydon — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Deborah Lydon Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
The standard quarterly reports are investor's rights. You are not welcome to hide your games with Americans' money, NOT YOURS!
YOU WILL LOSE INVESTORS TO FIRMS THAT OPERATE WITH MORE TRANSPARENCY! DONT BE EVEN MORE GREEDY. AMERICAN CITIZENS WILL DISEMPOWER AND DESERT YOU!

Deborah Male — Jun 19, 2026
Subject: S7-2026-15 Comments From: Deborah Male Affiliation: Jun. 19, 2026 Leave it alone. Quarterly is absolutely necessary for honest, up to date information that everyone should know. Fraud is rampant in this country. This should stop some of it.

Deborah Mann — Jun 19, 2026
Subject: S7-2026-15 Comment From: Deborah Mann Affiliation: Jun. 19, 2026 I want to see my reports Quarterly. That gives me time to see what I want to do with my stocks. Six month reports I may not have any stocks left.

Deborah Moore — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Deborah Moore Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
My view on Rule S7-2026-15:
Quarterly disclosures allow people like me to keep abreast of changes that may be damaging to my finances & allow me to counteract any damage. Do not change what works for all investors.
Sincerely,
Deborah Moore

Deborah Nissen — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Deborah Nissen Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:

This proposed rule to take away quarterly disclosures will hurt small investors like myself. I rely on my investments to enable my retirement. I and my financial advisor rely on up to date information from companies to make my retirement money work for my family. Insider trading already advantages the big guys. Less reporting on the bottom lines will help those on the inside. It will make it even harder for us little guys to benefit from this strong market.

Please do not implement this rule.

Deborah Pellock — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Deborah Pellock Affiliation: Jun. 19, 2026 Not good!!!

---

Debra McKinley — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Debra McKinley Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:

As an investor I rely on quarterly reports to help me make good decisions on my investments. To change that reporting and make me wait 6 months to hear news about a company.I have invested in is too long. This has been working for fifty years. Companies are used to this reporting already. Why are we going backwards and wanting to change it every six months? That is too long.
Meanwhile , I see public figures manipulating the stock market by making comments, everybody buys stock, then the same person makes an opposite comment, and the stock goes down. Meanwhile , the person making the comments has just made a bundle of money.
Please don't change the quarterly reporting from quarterly to 6 month. This country is already going backwards in so many other areas. Don't let the SEC be part of that movement.

Debra Rentsch — Jun 19, 2026
Subject: S7-2026-15 Comment From: Debra Rentsch Affiliation: Jun. 19, 2026 Stop bowing down to the rich and large investors. There is no reason to change the current accounting procedures, other to give them a better advantage. The quarterly reports are available, as we used in our government accounting programs. Debra K Rentsch, Retired Fiscal Officer

Dee Stickley — Jun 19, 2026
Subject: S7-2026-15 Comments From: Dee Stickley Affiliation: Jun. 19, 2026 At a time when wealth is flowing to the wealthiest among us, where those with money weild power, this seemingly simple change concentrates even more power and wealth among those who already possess it. Concealing information from the people allows for greater manipulation. The information will still be collected. Share it and give at least some semblance of transparency, accountability, and trust. Secrecy activates dishonesty, fraud, and abuse.

Deanna Stickley-Miner

DeeLayne Roark — Jun 19, 2026
Subject: Comment on S7-2026-15 From: DeeLayne Roark Affiliation: Jun. 19, 2026 Please don't change the reporting timeline! Transparency is needed, more than ever, and quarterly reporting helps support this. Do not roll back our reporting system to the 1950s.

DeeLayne Roark McCoy — Jun 19, 2026
Subject: Comment on S7-2026-15 From: DeeLayne Roark McCoy Affiliation: Jun. 19, 2026 Transparency in reporting is vital Do not change reporting structures or timetables. Quarterly reporting is not effective. No roll backs!

Deena Barlow — Jun 19, 2026
Subject: S7-2026-15 Comment From: Deena Barlow Affiliation: Jun. 19, 2026 Why a proposal to make to easier for insider trading, yet harder for smaller shareholders to know what's going on in the businesses we have chosen to invest in? Why make it harder for small -medium companies that rely on quarterly filings to keep thir businesses moving forward? How does this help anyone but the biggest banks and corporations from hiding what they are doing? PLEASE do not make this change.

Deena Barlow
Seminole, FL

Deidre Link — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Deidre Link Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I DO NOT want this proposed rule change! Rule changes and deregulation have led to some terrible financial crises in the last 60 years.
Front running stocks and commodies markets and insider trading are at al time highs! Better to investigate, indict and punish than make a rule change.
I have studied the early 1900s and the socio-economic conditions and Great Crash that led to the founding of the SEC in 1934 - to protect investors.
No hide information or use 'blue sky' rules.
Do your job of protecting! Do not make it easier to hide information.

Deirdre Boland — Jun 19, 2026
Subject: S7-2026-15 From: Deirdre Boland Affiliation: Jun. 19, 2026 Why is it a problem to do this quarterly? The same teams that organize and present the reports will simply continue to do so. The individuals in question won’t work any harder or need more resources to do this.
I’m a manager in a retail environment where daily , weekly , monthly reports are normal.
This is not a hardship it is just part of the professional landscape for many , many people.
In a business that involves impact on other people’s financial security and monies with the ever present opportunities for fraud and theft there seems to be more rather than less imperative to maintain oversight for truth and transparency and honesty.
Thank you
Deirdre Boland
Los Angeles

Subject: Comment on S7-2026-15 From: Denise Johnson Affiliation: Jun. 19, 2026 You must keep report quarterly...we need to go forward not backwards!

Denise Lisbon — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Denise Lisbon Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
We need transparency from companies, otherwise how do we make informed decisions. Twice a year is not enough, we need quarterly disclosures. Please leave the reporting as is with no changes!

Denise Lubey — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Denise Lubey Affiliation: Jun. 19, 2026 To Whom It May Concern,

I am writing as an ordinary American citizen and investor to express my opposition to proposals that would reduce the frequency of public company reporting from quarterly to semiannual reporting.

Like millions of Americans, I depend on the stock market to help fund my retirement. I am not a professional investor, financial analyst, or institutional fund manager. My retirement savings are invested through retirement accounts, mutual funds, and other investment vehicles that rely on timely and accurate information from publicly traded companies.

Quarterly reporting provides transparency and accountability. It allows investors to monitor the performance of the companies in which they have invested and to make informed decisions based on current information. Reducing reporting frequency would leave investors with less information for longer periods of time, increasing uncertainty and potentially creating advantages for large institutional investors that have access to additional sources of information.

While I understand the desire to reduce regulatory burdens on companies, the SEC’s primary mission includes protecting investors and maintaining fair, orderly, and efficient markets. Less frequent reporting appears to benefit corporate management more than individual investors. Public companies receive access to capital from the investing public, and regular disclosure is one of the obligations that comes with that privilege.

The stock market functions best when information is widely available, timely, and transparent. At a time when more Americans than ever are responsible for managing their own retirement savings, reducing disclosure requirements could undermine investor confidence and make it more difficult for ordinary citizens to protect their financial futures.

I respectfully urge the SEC to maintain quarterly reporting requirements and to prioritize the needs of individual investors who rely on transparent and efficient markets.

Thank you for considering my comments.

Sincerely,
Denise Lubey
Bowling Green, KY

Denise Meyer — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Denise Meyer Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I strongly urge you NOT to reduce the annual instances (4) of corporate SEC filings to 2 per year.
It is obvious to even the most casual observer that this would allow more opportunities for dirty dealings among those who would deceive for their own personal gain.
As an American investor, I want to have access to quarterly reports which will, hopefully, keep those with control of corporate activities accountable to their investors.
Pretty sure you see this for what it is... i certainly do.
D. MEYER

Denise Mix — Jun 19, 2026
Subject: S7-2026-15 From: Denise Mix Affiliation: Jun. 19, 2026 Denise Mix; Senior Banquet Administrator; Chicago, IL I'm getting ready to retire. I THINK I'll be ok, but each day bringing news of multimillion dollar fraud schemes (after lengthy investigations), and then, after all those dollars

and time spent, pardons for so many of them being given (?) does nothing to reassure the public that the government is looking out for them and that after all their hard work they won't have to live hand to mouth. They'll be able to have a roof over their heads, some food on the table and the medications they need just to survive. It's not commutations where the defrauded money needs to be returned to the poor people that lost it, it's forgiveness for taking our money, and a "don't worry about it" to all of us. Regular reports that need to be signed off on - not once a month, but only 4 times a year (!)- is not asking too much to help avoid those horrible losses that cause average Americans so much suffering. These rules and regulations were put into place for those very reasons. Just because some people say that the "problem is solved" doesn't make for a compelling argument that they are no longer needed. When a physician prescribes medications for high blood pressure or cholesterol, and at your next checkup your doctor says your blood pressure and cholesterol levels are now within an acceptable/normal range, doesn't mean you're cured and no longer need those medications! Please do not take us off this "medication" and leave us without SOME protections. Thank you for the opportunity to express my concerns.

This matters to me because my daughter just graduated HS, and we can't afford for our investments and savings to be depleted. This cannot stand, we can't move further away from transparency heading into a recession as is.

Thank you,
Devyn Gordon

Dewey Elder — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Dewey Elder Affiliation: Jun. 19, 2026 I urge the Commission to maintain quarterly reporting requirements.

I understand that quarterly reporting does not prevent all corruption, fraud, or misconduct. History has shown that some individuals and institutions will find ways to deceive investors despite rules, audits, and reporting requirements. Enron and other scandals taught us that transparency alone is not enough.

But if corruption can occur even with regular reporting, that is not an argument for less transparency. It is an argument for maintaining and strengthening the safeguards that help investors see what is happening inside the companies they own.

Public companies are financed by the savings of ordinary Americans. Those investors include retirees, workers, young people building their first investment accounts, and families trying to secure their future. All of them deserve timely access to information.

I am troubled by a broader question. If we know that corruption, deception, and conflicts of interest remain a problem in both business and public life, why would we ask investors to accept less disclosure rather than more? Why are we lowering expectations instead of raising them?

Where is the commitment to honesty, accountability, and simple decency? Where is the expectation that those entrusted with other people’s money should be willing to operate in the open?

Transparency is not a cure for corruption, but secrecy and delay have never been cures either.

The public markets depend on trust. That trust is earned through regular disclosure, accountability, and respect for the people whose savings make those markets possible.

Please reject this proposal and maintain quarterly reporting requirements.

Dewey Elder

Diana Aloise — Jun 19, 2026
Subject: S7-2026-15 Comments From: Diana Aloise Affiliation: Jun. 19, 2026 My husband and I are demanding that the SEC do NOT allow publically owned companies to stop reporting their quarterly earnings and positions. The SEC is supposed to work for the interest of the investor and to protect us from fraudulent activity. We expect you to continue to do your job and keep quarterly reports as a permanent procedure so that everyday investors are not tricked or blind sighted by unscrupulous company executives. We still remember Enron!

Subject: S7-2026-15 Comment From: DirtyHarry8629 Affiliation: Jun. 19, 2026 Dirty Harry, retired American worker, and former Licensed Investment Company Representative & Watchdog!

As a former licensed Investment company representative, I believe it is very important for people to remain fully informed regarding their investments;

And BTW, the term hiding money is a red flag term, isn't it?

I'm thinking "Blue Sky Laws"!

Remember E.F. Hutton? & Enron?

The 2008 crash?

I'm very concerned that mega "BlackRock and other such companies, would be able to cheat and downright manipulate entire industries.

Hell, they have been doing that already!

These companies have been already manipulating trillions of dollars invested throughout the world, and these investment bank managers are frightening, they are soft big, they make Standard Oil in it's day compared to now, look like a mom and pop corner store!

Banking of yester-year has been replaced by Investment Banks all tied into Wall Streets Goldman Sacks.

This appears to me, to be yet another attempt by Globalist to further build an already oversized Anti-Anti-Trust weapon! There is no competition.

Money reporting should be every month when it comes to BlackRock Titans!

We see how these Bigger than earth sized Blockchain manipulators, are destroying competition!

We need to have monthly reporting, why not?

They have everything done on computers, they should be able to forecast weekly! If not daily!

Also, The Federal Reserve has been interfering with every market.

We need to demand monthly reporting!

And we need to force these companies to be broken up!

Not be given more time to shower themselves with obvious criminal activity!

Don Beemblossom — Jun 19, 2026
Subject: S7-2026-15 Comments From: Don Beemblossom Affiliation: Jun. 19, 2026 The US citizens are tired of the underhanded methods and tactics used to rape those who don't have the "power backing " of money to bribe or persuade those of power to help us. The mainstream American is getting tired of helping the "rich and in power" gain more while the "regular American " struggles while we have to listen to the garbage coming from the government and their cronies. I think quarterly reports are one of the few ways the Average American have to try to stay relevant on those who "WORK FOR US!!" Have had several friends in various levels of government only to be " forced to vote against what they believe or think. Those who have tried to do a good job for the general population never are in off to get the backing needed. Forever politicians should have a set number of in office time and then NO POLITICAL OFFICE FOR 8 Years. If that person did a good job while in office then that person might be elected again!! This should apply to all local, regional, state, and federal positions bar none!! Maybe we will get fresher views and less favoritism!!

Donna Croniser — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Donna Croniser Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Why would I even consider investing blindly. Transparency is needed in order to continue investing. I along with most Americans work hard for the money we earn. Investing is trusting in the quarterly reports to help make knowledgeable decisions. Six months is too long and would be disasterous.

Donna Dundon — Jun 19, 2026
Subject: S7-2026-15 Comment From: Donna Dundon Affiliation: Jun. 19, 2026 Dear Commissioners, I am writing as a teacher, taxpayer, and investor to urge the Securities and Exchange Commission to maintain mandatory quarterly reporting requirements for publicly traded companies.
Quarterly reporting is an important pillar of transparency, accountability, and investor protection. Millions of Americans rely on accurate and timely financial information to make informed decisions about their retirement accounts, college savings, and other investments. Taxpayers and individual investors are the backbone of America's capital markets and deserve regular access to reliable information about the companies in which they invest.
As an educator, I teach students about the principles that have helped make the United States a leader in innovation, economic opportunity, and fair markets. Transparency and equal access to information are among those principles. Reducing reporting requirements could weaken investor confidence and create information advantages for large institutional investors at the expense of ordinary Americans.
Mandatory quarterly reporting helps ensure that corporate performance is evaluated on facts rather than speculation. It promotes market integrity and supports the SEC's mission to protect investors, maintain fair and orderly markets, and facilitate capital formation.
I respectfully ask the Commission to preserve quarterly reporting requirements and continue

prioritizing transparency and investor protection for all market participants.
Thank you for your consideration and for your service to the American public.
Sincerely,
Donna Dundon
Teacher

Donna Scott — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Donna Scott Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I do not support changing financial reporting requirements from quarterly to semiannual reporting. Quarterly reporting provides investors, analysts, and other stakeholders with timely and consistent information about a company's financial performance, operational trends, and potential risks. More frequent reporting promotes transparency and allows investors to make informed decisions based on current data rather than relying on outdated information.
Reducing the frequency of required reports to twice per year could increase information gaps, create greater uncertainty in the marketplace, and potentially contribute to increased stock price volatility as investors attempt to interpret limited information. Quarterly reports also enhance management accountability by encouraging regular communication regarding strategic priorities, financial results, and emerging challenges.
While concerns have been raised that quarterly reporting may encourage short-term thinking, the solution is not to reduce transparency. Companies can address short-term pressures by emphasizing long-term objectives and providing clear guidance on strategic initiatives while maintaining regular disclosure practices.
Maintaining quarterly reporting requirements supports market integrity, strengthens investor confidence, and ensures that all market participants have equitable access to timely information.

Donna Shepherd — Jun 19, 2026
Subject: S7-2026-15 Comment From: Donna Shepherd Affiliation: Jun. 19, 2026 I need to know in a quarterly report how my stocks and investments are performing so I can make informed choices in a timely manner. By protecting companies who are using my money- you are enabling them to use my investments any way they choose.

Doris Berry — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Doris Berry Affiliation: Jun. 19, 2026 My name is Doris Berry from Florence, Alabama. I am a personal investor, retired and managing our investment portfolio. I use the information provided by companies and their financial health to determine suitability for inclusion in my income providing investments. Without timely stats and numbers, without current data, the likelihood of best case outcomes lowers significantly. I ask that the reporting remain quarterly to enable individual investors like myself, as well as corporate investors to have clearer insight into a company's inner workings! Transparency is a good thing! Thank you, Doris Berry

Doug — Jun 19, 2026
Subject: S7-2026-15 Comments From: Doug Affiliation: Jun. 19, 2026 Securities and Exchange Commission,

I am writing to express my strong concern regarding the Commission's consideration of shifting from quarterly reporting to semi-annual reporting, as well as the proposal to remove the requirement for CEOs to personally certify these reports.

From my perspective as an investor and stakeholder in U.S. public markets, these changes would materially weaken the transparency, accountability, and fraud-prevention mechanisms that underpin market integrity.

Quarterly reporting is not merely a compliance exercise. It is one of the most effective tools available to:
• Provide timely insight into a company's financial condition
• Detect irregularities before they escalate into systemic failures
• Ensure management remains accountable to shareholders and the public

Reducing reporting frequency to twice per year would create longer periods with no verified financial information, increasing the risk that:
• Material issues go undetected for months
• Investors make decisions based on outdated or incomplete data
• Market manipulation becomes easier due to reduced oversight

I am also deeply concerned about the proposal to remove the CEO certification requirement. CEO signatures serve as a critical deterrent to misconduct by:

• Establishing personal accountability for the accuracy of disclosures
• Reinforcing the seriousness of reporting obligations
• Ensuring that senior leadership cannot distance themselves from misstatements or omissions

History has shown—through cases such as Enron, WorldCom, and other major corporate failures—that weakened oversight and diluted executive accountability create fertile ground for fraud. The Commission's role is to strengthen market safeguards, not relax them.

For these reasons, I respectfully urge the SEC to maintain quarterly reporting requirements and preserve CEO certification obligations. These measures are foundational to investor confidence, market stability, and the prevention of corporate misconduct.

Thank you for your consideration.

Best Regards,

Doug Gilbertson

Sent from the iPhone of Doug Simpkins. Have a great day!

Doug Walker — Jun 19, 2026
Subject: S7-2026-15 From: Doug Walker Affiliation: Jun. 19, 2026 The divide between white collar and blue collar has never been wider. With daily operation of corporations that are beholden to the investors ever more prevalent, reporting should be more frequent rather than less. Semiannual reporting closes the curtains of trust. This would essentially take the "public" out of the publicly traded. Unless this change to semiannual reporting can be clearly articulated as beneficial to all, no change is necessary. This matters to everyone who works for a corporation, owns a retirement account dependent on the market, and our economy as a whole.

Thank you for your comprehensive consideration on this matter.

Douglas Walker

---

Douglas Warner — Jun 19, 2026
Subject: S7-2026-15 From: Douglas Warner Affiliation: Jun. 19, 2026 The American public despises the illegal and unethical flow and use of money and investments. We despise those who engage in illegal activities, and we despise those who have the opportunity and authority to prevent it, but chose to reduce that opportunity, not exercise that authority, or look the other way.
Quarterly reporting was put in place for a reason. Anything less than quarterly reporting opens the

door for fraud, laundering, and all sorts of illegal activity. When big money isn't constantly controlled and observed, the morally and ethically challenged fall to their temptations and corruption reigns supreme. There is no reason for the powerful and wealthy personalities to be given the opportunity to steal and defraud the public and their investors.
For too long, the authorities of this country have turned a blind eye to the illegal activities of the rich corporate elites and the illegal activities of the wealthy donors. Those with, and with access to big money should not be left to do as they please. Rather they should be more closely watched. Quarterly reporting does just that. No reason to stop it.
The average American, the middle-class Americans watch those with millions and billions to spend and invest. We watch those who have opportunity to move and manipulate wealth. We watch those whose responsibility it is to ensure the laws, not to mention the ethics are enforced and reported. When authority isn't properly and constantly involved in the observation of investing, the investor has little to no assurances that their investments are safe. Investors are less likely to invest. When investing is questioned, investment slows. This isn't good for business, nor for economics or economies. When big investments slow, national, and international economies are brought to question. If international economies are put to question, global economics can suffer.
Keep the investor protected. Protect the security of investments and the perception of investing. Show the American and international investors that America does not accept fraud, theft, nor any other illegal activities in any investment opportunity.
Keep the accountability checks quarterly. It's the fair thing to do.

Douglas Wolfe — Jun 19, 2026
Subject: File No. S7-2026-15 From: Douglas Wolfe When an individual owns a stock, she or he is a legitimate part-owner of that business. Quarterly reports are how a company you own part of shares the full picture with you. Individuals should not be subject to receiving less information from those companies if they decide to provide less because the SEC gives the company the "option" to be less transparent with its owners. This proposal should be scrapped.

Douglas Worthen — Jun 19, 2026
Subject: S7-2026-15 Comment From: Douglas Worthen Affiliation: Jun. 19, 2026 Quarterly reporting is necessary. We need to know the health of a company before we buy shares in it, or sell the shares we own.
Dr. Douglas Worthen
Boston

Douglas Zimmer Citizen — Jun 19, 2026
Subject: File No. S7-2026-15 From: Douglas Zimmer Corporations, ever more powerful thanks to Citizens United, need more inspection, not less. The new proposal gives them more time to break laws and commit fraud, then cover it up. Leave the existing rule as is.

Edward Flack — Jun 19, 2026
Subject: S7-2026-15 Comment From: Edward Flack Affiliation: Jun. 19, 2026 Quarterly reporting must be kept. Six months is far too long to wait. There is no justification for the change except possibly costs savings which are not worth the additional risks.

Ed Flack

Edward Jakaitis — Jun 19, 2026
Subject: S7-2026-15 Comment From: Edward Jakaitis Affiliation: Jun. 19, 2026 I am an investor that seeks to remain informed about the developing market for the companies I invest in. If I am going to make good choices for my retirement accounts, how can I do that with less information? This opens up more leeway for companies to make risky mistakes with my invested money. This will burden me as an investor and add no additional risk to the more informed insiders of the company. These companies and this market are supposed to serve the American consumer and investor, not the other way around. - Ed Jakaitis, Ashland, WI.

Eileen — Jun 19, 2026
Subject: S7-2026-15 From: Eileen Affiliation: Jun. 19, 2026 Dear SEC members:

I am writing this email to indicate my opposition to changing the certification from quarterly to twice a year.

Data shows that in the years since implementation that quarterly data reports and certifications allowed investors to keep better tabs on how their investments were performing and to do course corrections, if needed. It also cut down on the percentage of fraud being committed by CEOs/CFOs (etc).

Many of us are retired. We are small/smaller investors. We rely on others to help us manage our money wisely. We do not have a lot of resources and we are counting on the bit of money we have invested to help us in the long run.

Right now, the rich people run this country. I worked in the environmental field for 30 years, cleaning up old hazardous waste sites and military installations. I have health issues related to a job that I did in order to help heal the planet and protect the citizens of OH, as well as protect and provide clean training grounds for military personnel preparing to be sent to the Middle East during war time. The pay in Ohio was not great to say the least. CPI yearly increases have been a joke. Costs across the board have sky rocketed. Affordability is a huge problem. I am 69 years old and retired, on a fairly strict budget, have a 10 year old car, medical issues resulting from job exposures to toxins, etc. At this point, I am having to choose between paying for medical treatment, some prescriptions and needed repairs to where I live. I can foresee the expansion of this to the purchase of more medicines, food, utility payments, etc being thrown into the mix. Not a pretty sight for these "golden years."

I am required to be responsible and pay my bills and manage my resources. How can I do this, if CEOs and CFOs are able to basically shield what is going on for six months? This is my money that I worked awfully hard for, sacrificed for and invested into their companies. It seems to me that they should minimally provide quarterly reports in return.

I am asking you to hold the CEOs/ CFOs and companies accountable and responsible just as I have to be. If the numbers on their part are honest and true, I do not understand the issue. They should be able to sign a quarterly report without a problem. Sure, it probably costs money to issue 4 reports instead of 2, but I am certain that the majority of the companies can cover it without blinking. The salaries and benefits of many of the CEO/CFO salaries are obscene, and the profits the companies are making are as well.

All that is being asked for is continued transparency. The fact that there is a push to change the reporting from quarterly to twice a year raises a lot of red flags in my mind.

Please keep those of us in mind, the many of us who are investing in the companies and who count on information in order to make smart decisions.

Again, please decide to stick with quarterly reporting.

Sincerely -

Eileen T Mohr

Eileen ODonnell — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Eileen ODonnell Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
My view on Rule S7-2026-15. Quarterly reports allow us to make more informed decisions regarding my investment strategy. This new rule would keep information from retail investors like myself and create an unfair playing field. Please do not allow this change to happen. Thank you.

Eileen Slagle — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Eileen Slagle Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Public companies have provided investors and traders with high quality, detailed information every quarter for over 50 years.
Quarterly disclosures help me make informed decisions. The SEC shouldn’t take vital information away from me.
I also feel that by taking away quarterly reporting it opens the door to more fraud. Public companies need to be held accountable at least quarterly.

Eileen Stapp — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Eileen Stapp Affiliation: Jun. 19, 2026 Keep it semi-annually. Changing to quarterly would diminish the nest egg we have worked years to save and invest. We are in our 80's and can't possibly make it back again. With compromised health and outrageous inflation, out costs of living are higher than ever. Don't change what works for millions of Americans.
Eileen Stapp

Ejlaruffa — Jun 19, 2026
Subject: S7-2026-15 Comments From: Ejlaruffa Affiliation: Jun. 19, 2026 This is not in the best interest of the shareholders and public trust. Not holding management accountable creates a culture where greed and corruption can thrive again. This violates the SEC’s statutory mission: to protect investors. This may create another financial crisis, which will be devastating at this point of history.

Please retain moral character, enforce regulations and stay aligned to the mission that the SEC was founded upon.

JLaRuffa, CPA and Auditor.

---

Elizabeth Stapleton — Jun 19, 2026
Subject: S7-2026-15 From: Elizabeth Stapleton Affiliation: Jun. 19, 2026 My name is Elizabeth Stapleton. I am a Master of Public Health Student at Kent State University, and I live near Akron, Ohio. We have two Level 1 Trauma Centers in competing hospital systems. However, there is a bigger difference than just the competition: Last year, the Summa Health System was bought out by HATCo, a for-profit subsidiary of a larger corporation. This was widely announced as early as three years ago. The first people to leave were the nurse practitioners that I trusted. Then I was hospitalized and found out that I was being cared for by travel nurses - competent, but not employed by the hospital. After I was discharged, even more of the RN nurses in the department I was going to for care had left. Why the exodus? The Public Service Loan Forgiveness program requires enrollees to have ten consecutive years of payments - not a single one missed - AND employment at a non-

profit organization. All of these nurse practioners and RNs had left, not because they wanted to, but because the HAD to if they were going to continue in the PSLF program.
Now we have a for-profit hospital versus a non-profit hospital acquired by Cleveland Clinic in roughly 2016. I wasn't going to take chances with a for-profit hospital being out of network or charging me exorbitant amounts of money for my treatments. I am also a multiple rare disorders patient, and it just made sense for me to move all of my doctors and nurse practitioners into the Cleveland Clinic system, which is also non-profit.
So what does this all have to do with CEOs signing every quarterly report? Accountability. It's making sure that not only is the CEO aware of everything going on in his or her company, but that s/he is aware enough and confident enough about those reports that s/he is willing to sign it, essentially guaranteeing that the quarterly reports are correct and complete.
When I was in college, I was treasurer of my music fraternity. I had to sign every check, countersign every reimbursement request, and send the books in (or a copy) twice a year to both the Student Activities Director and the fraternity's Province Officer. When we dropped to $100 in our account with no outstanding checks, I told the executive board that I was not going to pay any reimbursements until we had at least one fundraiser scheduled that semester. The exec board said that I couldn't do that. I said, "I'm not signing another check that could overdraw our account. None - because it's my signature and also the Student Activities Director whose signature are on those checks. I won't put either of us in fiscal jeopardy." Almost needless to say, we had TWO fundraisers set after I made the same announcement to the entire chapter sisterhood. I took better care of that fraternity account than I did with my own money and meal plan points., because I HAD TO BE accountable. I had two people who could close our fraternity chapter if I made mistakes, especially large mistakes.
If I had to do that with a college fraternity chapter's books and reports, why would I accept anything less for CEOs of large (or small) organizations?
Again, it's all about accountability - something that the current government doesn't have.
Be different. Stand up for corporate accountability. Make the CEOs sign the reports. We are waiting.

Sincerely,

Elizabeth R. Stapleton, MLIS

Elizabeth White — Jun 19, 2026
Subject: S7-2026-15 Comment From: Elizabeth White Affiliation: Jun. 19, 2026 Quarterly Reporting is important to me as an investor. The idea of changing your standard to twice a year begs the question. “What are you hiding?” “Why would you want to decrease visibility?” It smells of one more area of corruption in which corporations and ultra wealthy are going to take advantage of those of us who are retired or still working with dreams of retirement. Don’t do it!

Ella King — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Ella King Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
PUBLIC COMPANIES ARE "PUBLIC" WHICH MEANS NO HIDING ANYTHING FROM CLIENTS, INVESTORS....NOBODY
JUST ANOTHER WAY FOR HARDWORKING AMERICANS TO HAVE THIER MONEY STOLEN FOR THE MEGA "maga" billionaires .
JUST IN CASE, THE US GOVERNMENT DOES NOT REMEMBER THE DEFINTIOIN OF PUBLIC COMPANIES....

A public company (or publicly traded company) is a corporation that has sold a portion of its ownership to the general public through an Initial Public Offering (IPO) or subsequent offerings. Its shares are freely traded on public stock exchanges, such as the New York Stock Exchange or Nasdaq. [1, 2, 3, 4, 5]

Key Characteristics
Ownership: Anyone can buy and sell fractional ownership (shares/stock) in the company, making its shareholder base potentially limitless. [1, 2, 3, 4, 5] Regulation: Public companies are subject to heavy regulatory oversight. For example, in the U.S., they are regulated by the SEC (Securities and Exchange Commission). [1, 2] Transparency: They are legally required to regularly disclose detailed financial statements, business operations, and management details to the public.

Elodia Thomas — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Elodia Thomas Affiliation: Jun. 19, 2026 To the

Securities and Exchange Commission:
Regarding the delay in quarterly disclosures - You must be kidding! Do the words transparency, integrity, and accountability mean nothing anymore? There are already so many comments about insider information and trading amongst major investors, judges, and U.S. Congress members, never mind the shenanigans of a President and his family who are running off the rails with all their deals and lawsuits.
Do not support this SEC proposal! We need to rebuild faith in our system economically and politically. Quarterly disclosures are a must to insure fair play and investment opportunity in the market. Make American Great and rise up to the highest standards regarding financial trading and market standards.
It is shocking that this is even being considered by the SEC.
A very concerned citizen,
Elodia Thomas

Eloise Maughan — Jun 19, 2026
Subject: S7-2026-15 Comment From: Eloise Maughan Affiliation: Jun. 19, 2026 Aweez, retired, this proposal shouldNEVER go into force. Twice annual recording allows the people in the know to defraud people, not in the know!

It is all about deception and keeping people out of the loop. Keeping people out of the know.

It has been tried in other countries and has been known to fail for the very reasons that are put forth here with.

DO NOT ALLOW THIS!

Erik Homan — Jun 19, 2026
Subject: S7-2026-15 From: Erik Homan Affiliation: Jun. 19, 2026 I think it's a good idea to continue having corporations report their earnings on a quarterly basis. The suggestion of limiting the reports to twice a year, in my opinion, only limits the accountability of the corporation and it's leadership to it's investors, and allows for malfeasance.

Erika Green — Jun 19, 2026
Subject: S7-2026-15 Comment From: Erika Green Affiliation: Jun. 19, 2026 My name is Erika Green, and I am a software engineer. I strongly support maintaining quarterly reporting requirements for public companies.

Quarterly reports provide investors, employees, and the broader market with timely, transparent information about a company's financial health and performance. As someone who works in a data-driven profession, I believe regular reporting promotes accountability, reduces information gaps, and helps markets operate more efficiently. Reducing reporting frequency would decrease transparency and make it more difficult for investors to make informed decisions.

I encourage the SEC to preserve quarterly reporting requirements.

Evening Star Grutter — Jun 19, 2026
Subject: S7-2026-15 Comment From: Evening Star Grutter Affiliation: Jun. 19, 2026 Evening Star Grutter, yes, Evening Star is my first name. I was born at night in a log cabin in rural Alaska. The evening star was the only star in the sky at that moment and the name my parents had planned for me was scrapped, instead they named me Evening Star.
I am a Business Owner making soap, and salve. I am also a fisherman with permits for sablefish and halibut.
I invest in Stock and rely on monthly and quarterly reports to follow the data on what companies to best invest in. I am a parent that faces childcare challenges and investing in dividend stocks has been one way that I have been able to increase annual income while taking care of my family in a community with very limited child care. The dividend income has also increase my savings and retirement. Knowing the financial health of companies I am investing in is of the utmost importance. Please do not reduce the requirements for SEC filing.

Aside from this information being of use for my personal family, knowing the financial health of large companies is valuable for the greater good of the American economy. Our country relies on strong balance sheets from our leading businesses. One need look no further back than 2008 for a reminder of how poorly things can go when the numbers aren't good.

To keep on top of good financial health quarterly reports painted a more detailed picture than biannual reports.

Please keep quarterly reports, thank you for your time.

Evening Star Grutter — Jun 19, 2026
Subject: File No. S7-2026-15 From: Evening Star Grutter Evening Star Grutter, yes, Evening Star is my first name. I was born at night in a log cabin in rural Alaska. The evening star was the only star in the sky at that moment and the name my parents had planned for me was scrapped, instead they named me Evening Star. I am a Business Owner making soap, and salve. I am also a fisherman with permits for sablefish and halibut. I invest in Stock and rely on monthly and quarterly reports to follow the data on what companies to best invest in. I am a parent that faces childcare challenges

and investing in dividend stocks has been one way that I have been able to increase annual income while taking care of my family in a community with very limited child care. The dividend income has also increase my savings and retirement. Knowing the financial health of companies I am investing in is of the utmost importance. Please do not reduce the requirements for SEC filing. Aside from this information being of use for my personal family, knowing the financial health of large companies is valuable for the greater good of the American economy. Our country relies on strong balance sheets from our leading businesses. One need look no further back than 2008 for a reminder of how poorly things can go when the numbers aren't good. To keep on top of good financial health quarterly reports painted a more detailed picture than biannual reports. Please keep quarterly reports, thank you for your time.

Faith Cutrell — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Faith Cutrell Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
To even consider allowing these companies to hide financial aspects of their dealings from investors in the public, for ANY period of time, is highly damaging to the reputation and credibility of the SEC. It's not acceptable. Period.
There is enough Fraud & insider trading, lies, deceit, & outright criminal behavior going on right now in AMERICA.
The government will eventually collapse if this kind of behavior is continually supported & allowed.

Faith Garbin — Jun 19, 2026
Subject: S7-2026-15 Comment From: Faith Garbin Affiliation: Jun. 19, 2026 Faith Garbin, retired law librarian: I am a retired law librarian in Mississippi. I have a Deferred Compensation plan, and it is imperative that I see how my stocks are doing each quarter. Why? Because I am on a fixed income, and I need to do what I can to protect this investment. Please continue to report quarterly!

Thanks.

Felicia DeDominicis — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Felicia DeDominicis Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I oppose the proposed reporting rule change because transparency is crucial to a free and fair market.
If financial disclosure is reduced, financial risk for investors will increase. When quarterly reports are issued, investors and financial advisers can make more informed decisions about their investments. By removing the requirement for quarterly reports, investors will be disadvantaged by a lack of critical information.

Ferdie Cassel — Jun 19, 2026
Subject: S7-2026-15 Comment From: Ferdie Cassel Affiliation: Jun. 19, 2026 Keep it daily. Be transparent. Be honest for a change. God is watching and He will hold you to account. Fact.

Francine Lieberman — Jun 19, 2026
Subject: S7-2026-15 Comments From: Francine Lieberman Affiliation: Jun. 19, 2026 It needs to

remain quarterly - people need to know what's going on with companies they invest in. Enough either way the secrecy.

Sent from my iPhone

Frank Albert — Jun 19, 2026
Subject: S7-2026-15 Comment From: Frank Albert Affiliation: Jun. 19, 2026 In a world full of misinformation the relaxing of quarterly reporting of public companies strikes many as another ploy to pull more wool over the eyes of investors, institutional and individual. Thus leading to reduced transparency which is contrary to a narrative that organizations like the SEC are there to provide stability, not only to investors, but to having a secure and peaceful society.

Sent from my iPhone

Frank Catania — Jun 19, 2026
Subject: S7-2026-15 Comments From: Frank Catania Affiliation: Jun. 19, 2026 Let the sun shine in! Financial accountability depends on letting the public know what what financial decisions (for good or ill) a company makes. Internally, corporations see their financials and the impact of decisions on a daily basis. Stockholders also deserve to know on a timely basis. We can't see the financial status on a daily, weekly, or even monthly basis. So we make do with getting this information on a quarterly basis. Shifting to a semi-annual basis would be a terrible step backwards! Keep financial reporting on a quarterly basis!

Sent from my iPad

Frank Davey — Jun 19, 2026

Geo Ver — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Geo Ver Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
It's really important that firms have transparency and accountability on a quarterly basis. Though reporting can be a bit of work - lots can change in a quarter.

Geoff Mamlet Private investor — Jun 19, 2026
Subject: File No. S7-2026-15 From: Geoff Mamlet I've been investing in individual stocks since 1980. I have always relied upon the information reported each quarter by management to understand what is happening with the business, as well as listening to their comments to investors and their responses to analyst questions every quarter. Cutting this flow of information in half will not serve my interests as an individual investor. Cutting the flow of information will not build trust in the markets. Cutting the flow of information I receive about the businesses I own will not help me compete with professional investors to earn a decent return. While the SEC makes clear from its press release regarding this proposed change that they wish to aid company management, I want to remind the Commission that its role is to protect me, the individual investor. This proposed change does the opposite: it obscures, it effectively limits information, and it denies individual investors the means to understand the businesses they own and to fairly assess the risks they face. If Reg FD was a step forward for individual investors, this proposal is a clear step backward.

---

geoff rudolph — Jun 19, 2026
Subject: S7-2026-15 Comment From: geoff rudolph Affiliation: Jun. 19, 2026 It's a mechanism implemented to prevent fraudulent corporate manipulations from snowballing and affecting honest people's investment s and futures. Checks and balances are more important than ever in keeping unscrupulous money manipulators in compliance with the laws and the consequences of malfeasance.

Geoff Weigand — Jun 19, 2026
Subject: S7-2026-15 From: Geoff Weigand Affiliation: Jun. 19, 2026 My name is Geoff Weigand and I am retired living on Cape Cod (Eastham, Ma.). My career was in IT for 36 years - most of that time spent with a major insurance and financial services company. I was accountable for "quarterbacking" the project assuring that the firms IT systems were Sarbanes Oxley compliant in the wake of that legislation as a result of the Enron and other financial scandals. Holding CEOs accountable is essential in preventing these kinds of scandals. I personally invested time and effort in this area on behalf of our firm, our customers and policyholders, and our associates and their families. I do not want to see the SEC or any other financial regulatory body back off on this oversight. That is why I am calling on the SEC to maintained the current practice of quarterly reporting.

George C. Oliver — Jun 19, 2026

Gerhard Fandreyer — Jun 19, 2026
Subject: S7-2026-15 From: Gerhard Fandreyer Affiliation: Jun. 19, 2026 As much as it would be nice to have everything stay the way it is, we all know that things change. We have to be cognizant of the fact that just by them presenting this idea, that it has already been vetted by them. For them. There will probably be a time in the not-so-near future where these laws will be irrelevant. I'd say create a clause that no further reductions will be possible, meaning 2 signings per year from this point hence. As much as we'd prefer the tighter regulations, and probably even tighter?, you just create a tremendous amount of work in replications. In all the years this program has run, those running a clean ship have mostly been found. There will always be villains. And that is what Wall Street calls 'risk', which is part of what predicts the price. This life is difficult enough so please work to occupy

the middle ground. Thank you. by: G. Fandreyer, Job title: Many, this matters because it affects my investments.

Subject: S7-2026-15 Comment From: Gracie Dierssen Affiliation: Jun. 19, 2026 If we are going to change reporting, change it in the opposite direction! Require monthly reporting instead of semi-annual! Semi Annual reporting only favors ultra wealthy investors and will ruin our retirement accounts.

Graden Betz — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Graden Betz Affiliation: Jun. 19, 2026 Graden Betz
Retired Engineer
Navasota, TX

I worked hard for over 40 years to save for retirement. The information available and transparency of required quarterly reporting was valuable when evaluating investment options during my working career. Because I'm retired picking the right investments is even more important to preserve the source of my income.

Going to semiannual reporting by publicly traded companies will be detrimental to the growth of investments that the public sector depends on. I am in favor of the SEC keeping the requirement for

quarterly reporting.

Regards,
Graden Betz

Grand Master Fox — Jun 19, 2026
Subject: S7-2026-15 Comment From: Grand Master Fox Affiliation: Jun. 19, 2026 My name is J.J. Fox, I'm a retired Industrial Mercenary from Fort Worth Texas. During my 30+ years of providing contract services for corporate America I was required to provide accurate and timely reports and invoicing or I didn't get paid.

I believe the proposed reduction in the frequency of corporate 8k form submissions would be grossly unfair to the millions of Americans currently required to report earnings to the IRS on a quarterly basis.

It would be a slap to the face of every hard working man and women forced to become a contract laborer because a corporate executive decided to maximize profit. They layoff employees to reduce payroll and insurance costs in favor of outsourcing the jobs under contract (without insurance benefits) to many of the same workers they just fired.

With so many Americans currently struggling to survive with the ever increasing cost of living, throwing corporate executives a bone without simultaneously reducing the filing requirements imposed by the IRS on contractors is beyond inhumane... It's another broken straw on the camels back while corporate executives plan to replace human dignity with employbots.

We all know the IRS won't play ball so do the right thing, which in this case is nothing. How hard can that be?

=^.^= ©2026

Grant Bennett — Jun 19, 2026
Subject: S7-2026-15 From: Grant Bennett Affiliation: Jun. 19, 2026 It should remain quarterly. It needs to be quarterly to be at all accurate. It should probably be more often, to be honest.

Guy Haycraft — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Guy Haycraft Affiliation: Jun. 19, 2026 I am not wealthy, I have less than $200k in an IRA. I cannot afford to allow someone else to manage my savings and

investment income.
To change reporting prevents my fiduciary's ability to analyze the financial standing of a company by reviewing its financial performance. These documents give insight into the company's budget, revenue, profit and losses throughout a certain period of time. I can't afford to let an investment drop significantly reducing my meager savings because no quarterly report was there to prevent me from losing what little I have. I'm not the only person with small retirement savings accounts.
It is irresponsible to put so many people in danger of abject poverty and potentially homelessness, especially those of us who are are elderly. Do not screw us.

Gwen — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Gwen Affiliation: Jun. 19, 2026 We want to hear how companies are doing so we can MAKE OUR OWN MINDS UP as to how we choose to back them. Insider trading is illegal, yet you seem hellbent to make it easier for them to do so. Hasn't this administration f#cked up our lives enough already?

Heather — Jun 19, 2026
Subject: S7-2026-15 Comment From: Heather Affiliation: Jun. 19, 2026 As a stock holder who relies on her holdings as a retirement plan it is crucial we have insight into the companies of which we are invested. To go to 6month reports would be disastrous for independent holders. We'd be investing blind.

Heather Brennan — Jun 19, 2026
Subject: S7-2026-15 From: Heather Brennan Affiliation: Jun. 19, 2026 My name is Heather Brennan, I am a Nuclear safety technician working in Nuclear power plants across the country, and I live in Mineral, Virginia. Although our country boasts about a historically, strong and robust economy, and how capitalism is our strongest economic tool, the past several decades have shown us that capitalism has given way to object corporate greed. Time and time and time again, we have seen big corporations be much more concerned about their profit margins and their optics, rather than their employees, the environment, the community, the quality of their products, and the moral values that a large business leader should have. This trend needs to have guard rails, it needs to be regulated, and it needs a watchdog with teeth. BIG teeth. Quarterly reporting is the BARE minimum that these greedy and selfish companies should be held accountable to. The days of Reaganomics (deregulation & carte blanche capitalism) are over, and considering how much money these companies happily squeeze out of the people, I think transparency and quarterly reporting of their financials needs to be absolutely mandatory.

Heather Brennan

Heather Carey — Jun 19, 2026
Subject: S7-2026-15 Comment From: Heather Carey Affiliation: Jun. 19, 2026 As a budget analyst, I'm responsible for reporting out to my office monthly. It is part of my financial duty to keep our bosses informed and our associated coworkers who depend on that financial information to do their job, like make purchases and plan programs. If they have no idea what is going on with the money, they can't do their job properly. The same goes for investors and others who depend on these quarterly reports (consumers)...they are your customers and help drive investments. We have computers, programs, and have started instituting AI. There is absolutely no reason to hold off reporting quarterly. None, except to keep the public in the dark and that is a bad practice. It should be illegal. I have 36 years in the business of financial reporting.

Heather Carey

Heather Nelson — Jun 19, 2026
Subject: File No. S7-2026-15 From: Heather Nelson I oppose this change. Public owned companies should operate in transparency. Changing this rule will only impact those not large enough or privileged enough to have the data sooner. If a company thinks financial reporting for public companies is too rigorous then they can stay a private company. There are costs to that new capital

and transparency to you existing and future shareholders is one of those costs.

Heather Powers — Jun 19, 2026
Subject: S7-2026-15 Comment From: Heather Powers Affiliation: Jun. 19, 2026 I am a small business owner. Filing quarterly forces me to look into the working of my company's financial holdings. Waiting 6-12 months is unacceptable, it's like flying with a blindfold on. It's unsafe & I sure would not trust the pilot!

We need trustworthy & honest ceo/cfos, not crooks or lazy businesses looking to cheat the system & the American tax payers.

Cheers,

Heidi Michaels — Jun 19, 2026
Subject: S7-2026-15 Comment From: Heidi Michaels Affiliation: Jun. 19, 2026 There are many reasons that companies should be required to produce quarterly reports. Transparency is one of the biggest reasons - especially in today’s financial climate. Investors need to be able to assess a company’s financial health more than once or twice a year. There is also a considerable need for individuals and organizations to assess the health of a company and projected research/project support.

Heidi M.

Heidi Sanger — Jun 19, 2026

j hearing — Jun 19, 2026
Subject: S7-2026-15 Comments From: j hearing Affiliation: Jun. 19, 2026 Giving businesses more time to hide encourages bad behavior. This allows more damage to be done before investors are able to identify that their money and trust is evaporating. Quarterly reports at minimum gives the public the information it needs to protect ourselves.

Sent from my iPhone

J KLIM — Jun 19, 2026
Subject: S7-2026-15 Comments From: J KLIM Affiliation: Jun. 19, 2026 If shareholders are the consumer of corporations (via stock investments) it's imperative that the SEC (and the USG) continue to protect the consumer. That's what our taxes are paying for. Keep the quarterly reporting. It keeps good companies strong, makes growing companies stronger, and helps keep not-so-strong or less than transparent companies from being able to mask performance truths. Protect millions of consumers of stock. Keep the quarterly reporting.
Thank you
James K from CT

J M — Jun 19, 2026
Subject: S7-2026-15 Comments From: J M Affiliation: Jun. 19, 2026 They should have monthly audits. If they sign a lie. They should lose everything. 10 year minimum prison sentence. There rich enough. Always trying to **** the worker's.

J Mertz — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: J Mertz Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I'm a retail investor, and I rely on quarterly reports to make decisions about my investments and valuable retirement savings. We need more transparency, not less. This only opens the door to greater undetected fraud.
I am vehemently opposed to this change.
Regards,
A distraught citizen and investor

J P — Jun 19, 2026
Subject: Regarding financial disclosures and six month delay From: J P Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:

I strongly oppose the proposal allowing public companies to delay full financial disclosures for up to six months.

Timely quarterly reporting is one of the few equalizers available to ordinary investors. Large institutional investors already benefit from expert networks, alternative data sources, private analyst access, and direct communication with corporate management. Retail investors depend on regular public filings to make informed decisions based on the same core information.

Reducing the frequency or timeliness of required disclosures would increase information inequality and weaken market transparency. It would also reduce accountability for public companies and make it more difficult for individual investors to accurately assess financial health, operational risks, and changing business conditions.

Transparent and consistent reporting requirements are essential to maintaining public trust in U.S. financial markets. Delaying access to important financial information primarily benefits those who already possess informational advantages, while disadvantaging smaller investors who rely on public disclosures.

I urge the Commission to reject any proposal that weakens timely disclosure standards or limits equal access to material financial information.

JH Parr
Atlanta GA

J R — Jun 19, 2026
Subject: S7-2026-15 Comment From: J R Affiliation: Jun. 19, 2026 Jonathan Ryan -retired. Quarterly reporting is the bare minimum for information about a company's performance. How are we to judge a company's performance and other attributes if nothing is reported. Seems like a recipe for another global financial crisis!

Jonathan

J ROOKS — Jun 19, 2026
Subject: S7-2026-15 From: J ROOKS Affiliation: Jun. 19, 2026 Less frequent reporting will encourage and enable more insider trading. Small investors, like me, will suffer.
Going backwards on this is obviously bad policy and should not even be considered.

Subject: S7-2026-15 Comment From: James Melnychuk Affiliation: Jun. 19, 2026 Stop hiding the truth from the public! Say no to changing the quarterly reporting to hide illegal practices from the public taxpayers;

James Osborn — Jun 19, 2026
Subject: S7-2026-15 From: James Osborn Affiliation: Jun. 19, 2026 Keep the quarterly reporting and accountability.

James Palmer — Jun 19, 2026
Subject: S7-2026-15 Comment From: James Palmer Affiliation: Jun. 19, 2026 Please keep the requirements for Quarterly reporting . I'm retired and live on my investment income. Need to know how companies are doing quarterly so I can make decisions on my investment.

Thank you

Jim Palmer, Retired

James Parascandola — Jun 19, 2026
Subject: S7-2026-15 Comments From: James Parascandola Affiliation: Jun. 19, 2026 As a former institutional trader, I've always found having more information results in making better decisions. Reducing reporting transparency not only obfuscates a firm's financial health, it puts investors assets at an unnecessarily heightened level of risk. A transition from quarterly to semi- annual reporting is akin to taking a 30+ year step back in time.

James Pepa — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: James Pepa Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Doing away with the quarterly reporting rule is insane. The insiders get richer and the "regular guy" and his/her investment advisor gets blindsided and blindfolded. Do better.

James Price — Jun 19, 2026
Subject: S7-2026-15 From: James Price Affiliation: Jun. 19, 2026 James Price, retired, Berwyn, IL. I want full visibility to the results of my investments. I do not want to turn the clock back to times when company's did not have transparency! Keep the reporting quarterly!

James Roberts — Jun 19, 2026
Subject: Comment on S7-2026-15 From: James Roberts Affiliation: Jun. 19, 2026 Leave the reporting regulations as they are . We don't need to give rich people. He had another advantage at the expense of the rest of us..

James Roberts
Plymouth, MN

James Ward Retired — Jun 19, 2026
Subject: File No. S7-2026-15 From: James Ward Bad idea. If anything, more financial information should be available. A six month reporting period provides significant opportunity to bury market moving information. Bad news for everyday investors especially for retirement accounts. Could result in more significant stock price swings if six months worth bad news (or good) is released less frequently. Hard to determine if a company's reported strategy is being implemented and is effective. I am retired and 100% of retirement savings are currently invested in the market. I would significantly reduce that amount if the reporting period was changed to six months as I would no longer have faith that I knew any given company's financial condition.

This is the beginning of an unnecessary slippery slope. Simply put, do not go there. Transparency will always be the better course. With the amount of corruption going on with the present Administration, does the SEC really want to be complicit in that?

Jan Magnolia — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Jan Magnolia Affiliation: Jun. 19, 2026 Do not return to 1955! Senior citizens will lose money and any money that they have saved! I want to know what my money is doing quarterly and what the results are not twice yearly! Do not change the way it is now!

Jan Seidler — Jun 19, 2026
Subject: S7-2026-15 Comment From: Jan Seidler Affiliation: Jun. 19, 2026 Jan & Karen Seidler, retired marketing representative for the first hospice in Youngstown Ohio. Ans retired respiratory therapist of 43 years. Our social security is not enough for us to live on. We do draw each month from our investments. There is a chance that we could loose money that we rely on. Whenever we made a decision at work the question we asked was, "how will this affect our patients?" It seems this could hurt me and millions of other investors if this change happens, and protect big business, just as many decisions our government makes now doesn't think about "We the People". Our government is making changes that benefit corporations and not the average US citizen.

Thank you for your time.

Jan Stuessi — Jun 19, 2026
Subject: S7-2026-15 Comments From: Jan Stuessi Affiliation: Jun. 19, 2026 Stop this from happening! Small private investors need the quarterly reports to make good financial decisions.

Jan Worthy N/A — Jun 19, 2026
Subject: File No. S7-2026-15 From: Jan Worthy Dear Sirs, I OPPOSE the passage of a semi-annual reporting requirement for business. Please leave quarterly reports as the requirement. Quarterly reporting is more transparent and is a valuable tool for small investors, such as myself. It provides the most recent data and when studied, provides more data in order recognize trends. Unlike the resident of 1600 Pennsylvania Ave., I am not able to manipulate the markets and make obscene amounts of money with a press conference. Nor am I able to invest in a company and then award them huge government contracts in order to guarantee a healthy return on my investment. Sounds very "Tamany Hall" to me, but I'm just a member of the American citizenry. I actually pay taxes and participate in the every day economy of this country. I would suggest you spend your time on investigating corruption, insider trading and other violations occurring daily at the White House, instead of proposing rules that enable greedy politicians and their companies to perpetuate their fraud on our markets. I would imagine that your knees hurt and your back aches from all the bowing and scraping your agency does to appease this man-child currently driving our economy down the toilet. Remember, he is temporary. But We The People will still be here after he and his cronies are long gone. And we will remember who stood up to their criminality and who merely stayed on their knees. Jan Worthy

Janet — Jun 19, 2026
Subject: S7-2026-15 Comments From: Janet Affiliation: Jun. 19, 2026 Why would this be a good option? It seems like a good way for the small investor to be kept in the dark while the people in the know have to opportunity to sell bad stocks that in turn get sold to my retirement fund. My broker doesn't have access to this information and in turn can't make real time decisions on my behalf. Just seems to me it's another way to stick it to the small investor while the people in charge know when to hold and when to fold and we do not have access to real time data. Please do not let this pass. I hope my very small voice is heard and you put your selves in older Americans shoes that rely on this to live on in retirement who have always played by the rules but you keep changing them in the middle of the game.

Janet Chance — Jun 19, 2026

Subject: S7-2026-15 Comment From: Janet Chance Affiliation: Jun. 19, 2026 To the SEC,
My name is Janet Chance, I am retired now but I was an engineer, a patent examiner, a patent agent, and a mediator during my career. It is imperative that you keep quarterly filings. As a stock holder I need to know what is going on in the corporations that I have a monetary interest. I need to know quarterly, biannually is not often enough. How can I know what to do with my money, how can I trust the market if I have no visibility into it but 2x per year. I fear trust will be lost if this change goes through. Not just so people know where to invest but also to make sure companies are operating on the up and up. Six months gives bad actors too much time to commit crimes and cover their tracks . As there are more bad actors this would also take away from trust in the market. I implore you to retain quarterly filings.

From ,
Janet Chance

Janet Clark — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Janet Clark Affiliation: Jun. 19, 2026 My name is Janet Clark and I live in Hawaii. I am retired. I want quarterly reporting to continue and am opposed to semi annual given the rate of return has been demonstrated to be lower in the US past experience. I can’t create more income at this point to replace significant losses-and I feel it keeps businesses more transparent if they are required to report at least quarterly.

Annual reporting ivsviresvyhr factual realities if the market volatility and damages and obscures truthful quarterly deporting investors must and should have

---

Janet Smoker — Jun 19, 2026
Subject: S7-2026-15 Comments From: Janet Smoker Affiliation: Jun. 19, 2026 Every delay in providing information obscures the transparency that allows everyday Americans to participate in this part of the economy. Quarterly reporting requirement was one response to the Enron Scandal. I am now retired and financially responsible for a relative who lost all his considerable retirement savings to Enron. This has had substantial negative effects on our family at large and our own individual lives as elders. Limitations on health options, living quarters, transportation and recreation opportunities. We both worked hard for decades and saved to have some comfort in our old age. Making it easier for folks at the very top, to the potential severe detriment of everyone else, is this truly the new American way? If so, Shame on the SEC. Janet Smoker, retired fisheries scientist

Jay Elliott — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Jay Elliott Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
As an independent investor i value that every company has to make full disclosure of their financial condition as well as MD&A: .
Lots of that quarterly information is basic financials but there are also things like major legal proceedings that could cost a company a lot of money (or gain a lot of money) being hidden from individuals creates distrust and ill informed investments. Having quarterly reports helps mitigate some of these "suprises.". Institutional investors may be monitoring legal dockets to see if the company has become embroiled in significant legal proceedings. It is unlikely that retail investors will do this.
Retail investors are likely to learn about significant legal proceedings involving the company in the quarterly reports. If companies only have to file these reports twice a year, it will significantly delay when retail investors find out this highly relevant information.
Thank you for your time and consideration,
Jay

Jay Jones — Jun 19, 2026
Subject: S7-2026-15 Comments From: Jay Jones Affiliation: Jun. 19, 2026 This proposal is not good for investors whose entire life savings could be at risk. The companies are beholding to their

investors who make it possible for them to grow their companies. To reduce the communication between the companies and their supporters, i. e. Investors would be catastrophic and could lead loss of trust and possible mismanagement of the companies. I urge you to not approve this proposal. Jay Jones, President J Jones Properties, Inc. Claremore, Oklahoma.

Jean Paul Benoit Business Owner — Jun 19, 2026
Subject: File No. S7-2026-15 From: Jean Paul Benoit I oppose the SEC's proposal in S7-2016-15 to allow semiannual reporting. Quarterly disclosures are a core protection for individual investors, and reducing them would widen the information gap between insiders and ordinary shareholders—exactly where volatility and mistrust take root. The argument that quarterly reporting fuels short-termism is not supported by evidence; the CFA Institute's review of the U.K.'s shift away from quarterly reporting found no meaningful impact on long-term investment behavior. The companies most likely to opt out—smaller, less-covered issuers—are the ones where consistent oversight matters most. This proposal reverses the progress made under Reg FD and moves away from a level playing field. As one public comment put it, "The entire S&P 500 files a 10-Q every quarter, and the S&P 500 is at an all-time high." There is no demonstrated problem here that justifies reducing transparency for investors.

Jean Raines — Jun 19, 2026
Subject: S7-2026-15 Comment From: Jean Raines Affiliation: Jun. 19, 2026 Jean Raines, retired. I no longer follow my investments as closely as I used to because I am retired now. I depend highly on my financial advisor to keep up with what is happening in the companies in which I am invested. I expect him to have up-to-date information to help me with changes that need to be made. Consequently, he needs quarterly information not semi annual.

Sent from my iPhone

Jean Sampson — Jun 19, 2026
Subject: S7-2026-15 Comment From: Jean Sampson Affiliation: Jun. 19, 2026 I believe in complete transparency. I want to know how my investments are doing so that I can make an informed decision on my next steps with them when necessary. I believe this is important for those of us monitoring our money on a quarterly basis.
Moving back in time brings the issues that we had back then into play again. Investors kept in the dark for a six month period could negatively impact portfolios.

What is the SEC trying to hide?

Jeannette Welling — Jun 19, 2026
Subject: S7-2026-15 Comments From: Jeannette Welling Affiliation: Jun. 19, 2026 Maintaining the quarterly reporting framework is necessary to preserve the efficiency and fairness of our capital markets. Regular disclosure prevents the accumulation of unaddressed financial risks and reduces the potential for market manipulation. By curbing information drift, the current standard ensures that negative trends are corrected early and transparently, providing retail investors with the level playing field they require to invest safely.

JEFF Edleman — Jun 19, 2026
Subject: S7-2026-15 From: JEFF Edleman Affiliation: Jun. 19, 2026 Copying someone else's comments with which I agree.

I propose that quarterly signed financials be narrowed down to any changes in disclosure notes. The CEOs don't have to sign off on twice as much work, but they should be required to disclose things like extraordinary events, subsequent events and details on insider dealings, supporting schedules and changes in methods, estimates and other assumptions.

These disclosures provide a wealth of information and place focus where it belongs.

Ginny Edleman

Jeff Hardin — Jun 19, 2026

Jeffest — Jun 19, 2026
Subject: S7-2026-15 From: Jeffest Affiliation: Jun. 19, 2026 Reducing public company reporting from four times a year to twice a year may sound like a reasonable deregulatory move, but it would be a significant step backward for market integrity, investor protection, and corporate accountability. Quarterly reporting exists for a reason: it keeps investors informed. Markets function on information, and when that information becomes stale or infrequent, the consequences fall hardest on ordinary investors — the retirement savers, pension funds, and everyday Americans who don't have private access to management or the resources to conduct independent due diligence. Institutional players and insiders would adapt. Main Street wouldn't.
The argument that quarterly reporting burdens companies with short-term thinking is largely overstated. Poor strategic decisions aren't caused by disclosure schedules — they're caused by

poor leadership and misaligned incentive structures. Reducing transparency doesn't fix short-termism; it just hides its consequences longer.
More troubling is what a six-month reporting window enables: more runway for deteriorating financials to go undetected, greater opportunity for insider trading, and less accountability for executives whose decisions could quietly unravel a company before anyone outside the boardroom notices. Think Enron. Think Theranos. Opacity was always part of the problem.
Transparency isn't a burden on healthy, well-run companies — it's a safeguard against the ones that aren't. Investors, analysts, and regulators rely on regular, timely data to do their jobs. Cutting reporting frequency doesn't reduce red tape; it reduces the public's ability to hold corporations accountable.
That's not a tradeoff worth making.

Jeffie East — Jun 19, 2026
Subject: S7-2026-15 From: Jeffie East Affiliation: Jun. 19, 2026 This is a horrible idea. There is no legitimate cause for this. Do not let this happen. It’s in place for a very good reason. The markets are dangerous with less frequent updates. We only get four a year as it is.

Do not end quarterly reporting. It is financially irresponsible.
Jeff East

Jennifer Durgin — Jun 19, 2026
Subject: S7-2026-15 Comments From: Jennifer Durgin Affiliation: Jun. 19, 2026 My name is Jennifer. I'm a Marketing Manager and I support maintaining quarterly SEC reporting requirements. Quarterly reporting provides investors with timely, transparent information about a company's financial condition and performance. Regular disclosures promote market integrity, help prevent information gaps, and allow investors to make informed decisions based on current data rather than outdated information. Reducing the frequency of reporting could diminish transparency and potentially increase uncertainty and volatility in the markets.

Regards,
Jennifer

---

jennifer Ramirez — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: jennifer Ramirez Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
My name is Jennifer Ramirez. I am a teacher in Kansas. Each month I scrape together a distribution into my 404b, the only investment option I am given, so that I can afford to live my later years in my own home without burdening my son, my community, and my state.
My state retirement fund is dependent on the stock market to not only increase my earnings, but to allow me to maintain my monthly disbursement for the entirety of my life.
I need my entire 403 b earnings and my pension. Without it, I fear I, like hundreds of thousands of others, risk becoming dependent on state aid. Over the years I have invested thousands in American companies and companies that are located here and embedded into our communities. I ask you not take away from me or the companies my money has benefitted.
The purpose of these offices is to protect the people of this country. This change does not do that. It will not protect teachers like me, nor does it protect the companies themselves. How can a much smaller return benefit major corporations?
The SEC tried to decrease reported earnings once before and it backfired significantly. We must learn from our past mistakes. Our country and its businesses grew significantly once the quarterly earnings were restored in 1970. We must continue this path if we want to keep our businesses growing and people like me, a teacher in Kansas just trying to do the right thing, from becoming a burden on the system in our later years, on a path of financial independence.

Jennifer Richmond-Ananbeh — Jun 19, 2026

Subject: My view on Rule S7-2026-15 From: Jennifer Richmond-Ananbeh Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
DO NOT ALLOW THIS ADMINISTRATION TO REMOVE QUARTERLY REPORTS!!! If anything this is THE MINIMUM REQUIREMENT!!! How about daily or monthly?!?! Otherwise, LEAVE IT BE! Do NOT ALLOW them to change things so they may be MORE CORRUPT!!!

Jennifer Riina — Jun 19, 2026
Subject: S7-2026-15 From: Jennifer Riina Affiliation: Jun. 19, 2026 I am writing to register my strong disapproval of the proposed rule change allowing companies to file statements only 2 times yearly. This benefits insiders and harms the average investor. This rule change is designed to benefit the oligarchs and hurt the average American citizen. Enough is enough. Think about the common good and try to help all citizens not just the administration's cronies. We need more transparency in this country not less. Hiding a company's financial well being from investors and the public is perpetuating a fraud.

Jennifer Riina

Jennifer Saylor — Jun 19, 2026
Subject: S7-2026-15 Comments From: Jennifer Saylor Affiliation: Jun. 19, 2026 Keep businesses accountable with frequent reporting, NOT LESS. We The People have been duped far too many times in the past.
This rule change would only invite more corruption and less accountability.

Jennifer Steger — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Jennifer Steger Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
It is important for investors to be able to follow how the markets affect their investments, especially for those nearing retirement and to have the transparency to closely follow and choose investments that promote ethical and sustainable growth across several markets.

Jennifer sword — Jun 19, 2026

Subject: My view on Rule S7-2026-15 From: Jeremiah Rose Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission: Please do not lift restrictions created to protect the American citizen relying on public companies to display consistent guidance.

Jeremy — Jun 19, 2026
Subject: S7-2026-15 Comments From: Jeremy Affiliation: Jun. 19, 2026 Jeremy Gay, 46 years old, Operations Manager for a family business. Why does this matter? Manipulation of stocks to financially benefit major shareholders isn't enough. This will be worse than any insider trading or Bernie Madoff heist, it will lose the faith of every American and person in the world that invests. If this is your idea on how to fix our economy, holy **** we are in way bigger trouble than anyone could have possibly expected. We will be screwed.

Jeremy Ray Borders — Jun 19, 2026
Subject: S7-2026-15 Comments From: Jeremy Ray Borders Affiliation: Jun. 19, 2026 Please make sure the SEC is focused on people 1st. I'm a CEO, but we want to keep things out of the dark. I don't think the SEC should have much power at all.

Jeremy Shedrow — Jun 19, 2026
Subject: S7-2026-15 From: Jeremy Shedrow Affiliation: Jun. 19, 2026 Please keep financial reporting quarterly. Transparency is why people invest to become "owners" of these public companies.

Changing to semi-annual reporting will decrease transparency causing investors to seek alternative more transparent investment routes or pursue investments with limited transparency but greater returns (like private equity). I understand the proposal's stated goal is to encourage more companies to go public. However, less transparency will result in less capital in the market, reduced demand and lower stock prices. The idea that quarterly reporting is an overburden is false. These reports can be largely automated.

If we truly want to encourage more companies to go public, we must close the carried interest loophole that private equity firms use. The free flow of private equity (PE) money is causing companies to stay off the public markets. It's much easier for an owner to cash out with PE than to IPO. Closing the carried interest loophole would reduce the amount of private equity capital available and encourage more capital flow into transparent, gold-standard public markets, resulting in more IPOs.

Further, private equity's impact on small and medium-sized businesses across all sectors is gutting economic stability, harming employees and customers, and causing bankruptcies and job losses. PE investors often don't care about the business's longevity; they only care about the "exit". This short term view results in business failure more than in situations where the owners, and thus the leadership, have a long term interest in stability, as they would in a publicly held corporation.

Thank you for considering this.

_____

Jeryl DeGrasse — Jun 19, 2026
Subject: S7-2026-15 From: Jeryl DeGrasse Affiliation: Jun. 19, 2026 No, we don’t want another Enron! Quarterly reporting must remain the protocol.

Jess Ervin — Jun 19, 2026
Subject: S7-2026-15 Comment From: Jess Ervin Affiliation: Jun. 19, 2026 Jessica Ervin, Transportation Coordinator/Supply Chain, and quarterly reporting matters to me because fraud and theft are not okay. Quarterly reports allow for pivoting strategies when the market shifts, transparency is spending, and potential cost saving from market shifts. A bi-yearly report helps no one except the people asking for it.

Respectfully,

Jessica Ervin

Jesse Moore — Jun 19, 2026
Subject: S7-2026-15 Comment From: Jesse Moore Affiliation: Jun. 19, 2026 Quarterly reporting is the minimum companies should report. Honestly, by oks should be open and available online 24 hours a day so people can watch transactions, company spending, etc. Taking away any rules that further the uneven playing field should be illegal. SEC should remain separate from the whims of those that want to take advantage of everyday people.

Jesse Moore

Jessica Blacketter — Jun 19, 2026
Subject: File No. S7-2026-15 From: Jessica Blacketter Quarterly reporting was a corrective action to past catastrophe, and should not be undone. It is a critical level of transparency and the companies should be compiling this data already to manage their business properly. This is more warranted than ever with the tumultuous supply chain issues and daily policy changes impacting the business environment, combined with the faster pace of transactions due to modern tools and communication devices. It is necessary to allow people to make informed decisions.

Jessica BUTLER — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Jessica BUTLER Affiliation: Jun. 19, 2026 I want quarterly reports! I want to know the direction that my investments are going before the market crashes! Sincerely, Jessica Butler

Jill Vales — Jun 19, 2026

Subject: My view on Rule S7-2026-15 From: Jill Vales Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Quarterly information on public companies financial results, available to both institutional and individual/retail investors, is critical. It keeps companies more accountable. Yes, the pressure to achieve quarterly results equal to or greater than expectations is real. But quarterly reporting causes CEOs and CFOs to own up to issues and report on them way before year-end.

I am a retired CPA and CFO who was the CFO of a company traded on NASDAQ in the late 1990's, in the dot.com era

Jim Theis — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Jim Theis Affiliation: Jun. 19, 2026 Hi SEC folks,

Sending my opinion as an investor that I believe more information about public companies is better than less. That's pretty simple. I'm concerned about companies being able to hide "bad" information longer from investors, while insiders would have more time to make personal adjustments before the "bomb drops" only every 6 months.

Quarterly REPORTING would also smooth out the bumps in the market and provide everyday investors with crucial information. There is evidence for this and it's why we have the rule we have today. Quarterly FORECASTING of future earnings can be harmful and I would encourage public companies to refrain from that. But quarterly reporting - yes please. The more the better. Anyone who says otherwise just wants to give public companies cover the do bad things.

Thanks,

Jim Theis, M.D.

Jo Goolsby — Jun 19, 2026
Subject: S7-2026-15 Comment From: Jo Goolsby Affiliation: Jun. 19, 2026 Jo Goolsby, retired, and this issue matters to me because I am an investor who lives, in part, on income from my invested finds. Right now, companies are required to report certain information to the SEC on a quarterly basis. This information is relied upon by investors in making investment decisions. A lot can happen in 6 months which is the timeframe change proposed. Insiders have more opportunity to act before disclosure. It allows more time for fraud to grow. It currently says going to every 6 month reporting is optional, but it's to the companies' and their executives' benefit. Costs are not significantly reduced, but any benefit goes to the companies and executives, not investors. Bottom line, this change is to the benefit of companies and their leadership which is why it's being proposed, along with practically everything else this administration has been put in place. KEEP IT QUARTERLY!!!!

JO MORRIS — Jun 19, 2026

Jo Newman — Jun 19, 2026
Subject: S7-2026-15 From: Jo Newman Affiliation: Jun. 19, 2026 Did the Houston Enron debacle teach us nothing??????? Instad of cutting the checks from quarterly to twice a year, why not go to every 2 months, or even every month?

---

jo skelton — Jun 19, 2026
Subject: S7-2026-15 Comment From: jo skelton Affiliation: Jun. 19, 2026 My husband and I are both retired and rely on those quarterly statements as part of our budgeting. Unlike wealthy people we have to plan our expenditure with little to spare. I would also have concerns about transparency when those lights go out for 6 months. I do not trust big business these days of rampant corruption. The wealthy are increasingly out for themselves and do not care about the average person if they're out to increase their profits by the odd million dollars here and there. I don't want that opportunity to arise. I can't see why quarterly statements would be questioned unless somebody is looking to earn a gas buck or two. It's a bad idea.

Joan Hart — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Joan Hart Affiliation: Jun. 19, 2026 I'm Joan Hart I'm on disability in Ripley, NY. It matters to me because I'm on limited income and my investments have come in handy for emergencies with the rising cost of EVERYTHING and supporting NY City, which this tiny town shouldn't have to do. Quartly reporting are very important to me. I may not be a big investor but those investments help me. I can't afford to lose more money to the greedy people that want to keep taking away from me AND other Americans can't afford to support greedy people. Why should we suffer because you want to CHANGE IT UP TO FIT YOUR GREED??? LEAVE WHAT WORKS ALONE !!!

Joan Isaacs — Jun 19, 2026
Subject: S7-2026-15 From: Joan Isaacs Affiliation: Jun. 19, 2026 Now more than ever we need accountability! Quarterly statements!

Joanne Balitzky — Jun 19, 2026
Subject: S7-2026-15 From: Joanne Balitzky Affiliation: Jun. 19, 2026 Having seen the results if the Enron debacle on many small investors, and now being a retired with investments person dependent on see much accounts, It is important to me to maintain the quarterly reporting requirement. It makes for ownership of responsibility by the leaders of companies asking us to invest in them. Responsibility towards us as well as themselves
Joanne Balitzky, retired academic administrator, Maryland,

Joanne Ciurzynski — Jun 19, 2026

Subject: S7-2026-15 Comment From: Joanne Ciurzynski Affiliation: Jun. 19, 2026 Less reporting means less accountability. Six months is way too long for financials to be reported. People make decisions for purchases/investing based on those reports and would be easier for companies to hide when they were failing. Or is that the idea?

How can you properly forecast without following true, reported numbers? Keep it as it has been.

Regards
Joanne Ciurzynski

Joany Haag — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Joany Haag Affiliation: Jun. 19, 2026 Joan Haag, retired business owner, living in Arkansas. We worked our whole lives to pull together a retirement portfolio that would support us in our retirement. Our nest egg might not seem like much to a rich politician or bureaucrat but it’s all we need to be safely retired. Do not take away quarterly reporting; studies show that it definitely hurts investors like us. Even a small decrease in our bottom line and our returns would be life changing. Stop playing around with our livelihoods and ensure companies continue to be accountable to the millions of Americans who rely on these investments. Your job is to protect Americans’ interests, don’t do the opposite by giving these corporations a loophole they don’t need.

Joe Barry — Jun 19, 2026
Subject: Proposed change to filing frequency From: Joe Barry Affiliation: Jun. 19, 2026 The SEC should provide its reasoning for this proposed change. The financial reporting system is not perfect, but this proposal is a step backward in time, where documented financial instability was more prevalent. If anything, the SEC should be pushing for automation that could document the financial condition of a public company in real time. I believe this to be possible with the aid of AI, if it is linked to inventory, point of sale, and financial institutions.

Regards
Joe Barry

John D Altshuler

John Arackaparambil — Jun 19, 2026
Subject: File No. S7-2026-15 From: John Arackaparambil Quarterly reporting protects individual investors. Semiannual reporting doubles the information gap between insiders and ordinary shareholders. That gap is where volatility, uncertainty, and mistrust grow. The short-termism diagnosis doesn't justify this remedy. Research from the CFA Institute, which studied this exact maneuver in the U.K. market, shows that reporting frequency has no measurable effect on corporate investment behavior. The SEC is accepting a real cost – less transparency for individual investors – for a benefit that the evidence says simply won't materialize. The companies most likely to opt out are the ones where oversight matters most. Smaller, less-covered businesses operate with less scrutiny. Reducing their reporting requirements makes them harder to monitor, not easier to own. This is the wrong direction. Reg FD moved toward a more level playing field. This proposal moves away from it.

John Baumchen — Jun 19, 2026
Subject: S7-2026-15 From: John Baumchen Affiliation: Jun. 19, 2026 We have enough corruption and fraud as it is. I object to bi-yearly reporting.

John Kruglinski — Jun 19, 2026
Subject: S7-2026-15 From: John Kruglinski Affiliation: Jun. 19, 2026 Hello,
I am a retired CPA and Accounting and Finance Professor, I am commenting on the proposal to

reduce quarterly reporting for public companies. In both Public Accounting practice and as an employee working for a public company, I participated in, and saw the first hand benefit of quarterly reporting in keeping companies accountable. Analysts and speculators can spread rumors about a company's financial performance and condition, but on a quarterly cycle, those rumors and speculations are but to bed with hard facts. It is a discipline that must be continued.
In my career, spanning over 50 years, I have witnessed the collapse of Savings and Loans, Banks, Insider Trading scandals and perhaps the worst of all: the Enron et. al collapse of public confidence in public companies and their financial statements. Sarbanes-Oxley, helped restore confidence in financial reporting. The cost of quarterly SEC reporting is trivial compared to the economic benefit conveyed in terms of trust and the provision of actual information. It is essential to open and fair equity markets.
Quarterly reporting is necessary to keep management and the investment community honest. With huge bonuses, other compensation and trading gains tempting these people, we cannot rely on their personal moral compass. We need facts. Our financial reporting system is the result of years of experience and careful stewardship of the investor's trust.
I urge you to retain quarterly reporting and increase enforcement action and also inquiries of reports when filed. This is a cornerstone of our public equity markets and should be preserved and strengthened.

Respectfully,
John A. Kruglinski, CPA (Retired)

JOHN WITTEN — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: JOHN WITTEN Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Eliminating the requirement of quarterly filings would only give unethical actors more ammunition. People like Ken Lay and Jeff Skilling at Enron or Bernie Ebbers at Worldcom to name just a few, would be able to deceive the public even more than they did. Comparisons for evaluating stocks like specific year over year quarterly comparisons would be gone, and the public would be left flying blind a lot of the time. This is a terrible idea and only serves to help insiders and cheats. Please have at the very least, the same concern for the average investor who is already at a huge disadvantage.

Job Title: Software Engineer
Location: Lake Stevens, Washington

We need to continue to require companies provide quarterly reporting. This provides accountability and ensures there is compliance.

We've had quarterly reporting for over 50 years and it works for the market, for investors and publicly traded companies.

I have set up several investment accounts and I rely on quarterly reports to make decisions about my retirement savings. Longer gaps in reporting create an unfair advantage for corporate insiders, who may have the opportunity to short sell their company's stock. If we make quarterly reporting optional, this will not fix the problem - companies that choose to switch to biannual reporting are likely those where the investors need more frequent updates. The savings that these companies would realize by switching to biannual reporting are not worth the cost and potential loss of the value of my investment accounts.

I urge you to oppose and reject SEC Rule S7-2026-15.

Jonie Cason — Jun 19, 2026
Subject: S7-2026-15 From: Jonie Cason Affiliation: Jun. 19, 2026 This event caused all of us a lot of grief. Why would you think about changing this rule?

Jonna Grant — Jun 19, 2026
Subject: S7-2026-15 Comment From: Jonna Grant Affiliation: Jun. 19, 2026 I respectfully oppose the SEC's proposal to allow public companies to replace quarterly financial reporting with semiannual reporting.

As a Senior Budget Analyst and a retail investor, I believe quarterly reporting plays a critical role in maintaining transparency, accountability, and confidence in our financial markets. Public companies benefit from access to capital provided by investors, and those investors deserve timely, consistent, and standardized information regarding a company's financial performance and condition.

Reducing required reporting from four times per year to two times per year would create longer periods during which investors have limited access to verified financial information. While large institutional investors may have greater resources to analyze market conditions and engage with company leadership, individual investors rely heavily on public disclosures to make informed investment decisions. Quarterly reporting helps ensure that all investors have access to meaningful financial information on a regular basis.

Additionally, quarterly reporting promotes stronger corporate accountability. Regular reporting encourages management teams to remain focused on operational performance, financial discipline, and timely communication with shareholders. The current reporting framework has served U.S. capital markets well for decades and has contributed to the transparency and investor confidence that distinguish our markets globally.

While I understand concerns regarding compliance costs, I believe the benefits of quarterly reporting far outweigh those costs. Transparency should remain a cornerstone of our public markets, and reducing reporting frequency risks weakening investor protections and diminishing market confidence.

For these reasons, I urge the SEC to maintain the current quarterly reporting requirements.

Respectfully,

Jonna M. Grant

Subject: S7-2026-15 Comments From: Joyce Hamilton Affiliation: Jun. 19, 2026 That's terrible ! This is a piece of sh__ ! Here we have in America people who can barely have food, keeping the electricity on let alone Ac, or heat! I am a retired Hair dresser my Husband is a retired AF vertain ! But a big portion of country doesn't have a job or a way to help themselves! we and Those who have not don't want this! Big companies that keep and imbecile money from their companies are awful and I hope and pray when they meet their maker they will have to answer ! Don't forget weather you

are a Christian or not. YOU WILL REAP WHAT YOU SOW!

Joyce Hassell — Jun 19, 2026
Subject: S7-2026-15 Comment From: Joyce Hassell Affiliation: Jun. 19, 2026 My name is Joyce Hassell. My husband and I are retired. We, like millions of other citizens, spent years contributing to our retirement funds, paying attention to how those funds were allocated. Quarterly reporting is a reasonable mechanism for us, for millions of small investors, to keep track of the health of publicly owned companies. It keeps companies honest, helps to spread the wealth, as well as losses. Companies should not be allowed to hide while insiders take profit out of failing companies, leaving the rest of us to take the losses.

Joyce Sykes — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Joyce Sykes Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
This new rule is horrible! it takes no more time to publish a quarterly report as it does a 6 month or yearly report. most of my stocks give yearly published reports, but when I was working, we had to do quarterly reports, so publishing a quarterly is not a big deal. plus it gives the up and down on the market and management of the company, during that quarter and helps investors to see if management is doing the job they were voted to the board to do. And stops fraud: which might not be caught with a 6 month report....keeps the companies honest, I think. Thanks Joyce Sykes

---

Joyce Webster — Jun 19, 2026
Subject: S7-2026-15 Comments From: Joyce Webster Affiliation: Jun. 19, 2026 Quarterly reporting is what the owners (stock holders) signed up for when they made their purchase. Keep it so.

JT McGinnis — Jun 19, 2026
Subject: Comment on S7-2026-15 From: JT McGinnis Affiliation: Jun. 19, 2026 JT McGinnis, Design Engineer Greenville SC. I would consider it highly irresponsible to reduce the frequency of financial reporting. Lack of responsible regulation provides too much opportunity for lack of responsible management and informed investment by the public.

Juan Mariscal — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Juan Mariscal Affiliation: Jun. 19, 2026 Reducing public report from 4x a year to twice is bad policy and doesn't save much if anything at a publicly-traded corporation. Even mom and pop shops know you have to keep a handle on expenses as well as

income. Not doing so is a recipe for disaster. Of course, all publicly-traded corporations have the staffing and wherewithal to manage their finances. Guess what they don't just pass notes in the hall or whisper to each other in the men's and lady's rooms. They produce WRITTEN REPORTS on a monthly basis AT LEAST and if the CEO or other management needs updates, perhaps even more often. So if they are producing these financial reports anyway why not report the results. Each quarterly report is an opportunity to tell the public including investors that the company is fine, we did a bunch of great things and have a lot of great things coming too. it is communications, it is publicity, it is information - all valuable to the public AND the company. The only ones not reporting or not wanting to report are those that have something to hide. Keep the books open, I want to know what I am investing in. Do the right thing. Leave the system alone.

Juan Mariscal
Bristol RI

Juan Rodriguez — Jun 19, 2026
Subject: S7-2026-15 Comment From: Juan Rodriguez Affiliation: Jun. 19, 2026 Juan Rodriguez Attorney

Transparency is necessary for a free and fair market. Investors must be able to make informed investment decisions. Quarterly reporting is necessary to protect retail investors, ensure fairness, preserve market integrity, and assuage abuse.

Judith Van Cleeff — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Judith Van Cleeff Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Relieving publicly traded companies from their obligation to keep investors informed of their financial situation quarterly under penalty of law for false statements will only enable them to hide poor returns on investment and malfeasance and fraud more easily. It will also blind investors to the quality of the companies they invest in for too long. In the long run people like me, with only retirement portfolios to maintain our income in retirement will be hurt, and only poorly operated or fraudulent companies will benefit! There is no good reason for making this change. Do not weaken the reporting rules!

Judy Capper — Jun 19, 2026
Subject: S7-2026-15 Comment From: Judy Capper Affiliation: Jun. 19, 2026 It should be quarterly for better transparency and stability.

Judy Florczak — Jun 19, 2026
Subject: S7-2026-15 From: Judy Florczak Affiliation: Jun. 19, 2026 The insider's already have the upper hand over the average investor. At least with quarterly reporting , we would be able to keep tabs , and if any malfeasance occurrs there would be proof out there in the public. Those in power and in control of our economic well being as individuals and as a nation can and should be monitored and held accountable. All investors should have comparable access to critical information about a publicly traded company.
We need intelligent professional individuals, not on the inside, to have this information cordly , so it can be analyzed in a way that everyone can understand what's going on. If it were feasible , there should even be more than quarter reporting , especially nowadays with how quickly things change.

Please do not hand the ultra wealthy, those that already control a majority of the assets in this country , another leg up by eliminating quarterly reporting.
Sincerely,
Judith Florczak

Judy Strain

Judy Tyler — Jun 19, 2026

Subject: Comment on S7-2026-15 From: Judy Tyler Affiliation: Jun. 19, 2026 Transparentcy is absolutely necessary in reporting and should not have reporting rules rolled back to the 1950's . Do not change reporting to be less frequent. I am a senior who did all of my investing during the period post 1970. I will be very unhappy with a return to less transparentcy. Why would it be necessary to return reporting to fewer reports unless it is to keep the public from knowing what is happening with their accounts. More transparency not less!

Judy VandeWater — Jun 19, 2026
Subject: S7-2026-15 Comments From: Judy VandeWater Affiliation: Jun. 19, 2026 This proposal to eliminate quarterly reporting is going to destabilize the retirement investments that Americans count on. Insiders will have a field day with information that is not available to the broader market. It turns the market into a Vegas look-alike where the house (insiders and their friends and families) always win whether the market goes up or down. If enacted, this proposal will explode a pillar of U. S. markets - a belief that everyone gets information at the same time. Given that cash flow, inventory, debt -- EBITA -- is calculated on an ongoing basis by corporations, what is the point of non-disclosure?

J. VandeWater

Julie Teine — Jun 19, 2026
Subject: S7-2026-15 Comments From: Julie Teine Affiliation: Jun. 19, 2026 We already struggle to determine investment opportunities as citizens and cutting the quarterly reporting for companies will only make determining where a business is financially more difficult. This takes a process that is already full of insider knowledge and actions more insular and out of reach for the common investors. I do not support this reduction in business financial reporting and ask that the SEC keep the four reports required currently.

Julie Teine

Julie Atterbury — Jun 19, 2026
Subject: S7-2026-15 Comments From: Julie Atterbury Affiliation: Jun. 19, 2026 Julie Atterbury Retired Investors should be told the status of their investments quarterly. It’s open and honest to do so. By not disclosing on a quarterly basis you are hurting the average investor by withholding the knowledge that you have about their investment and the trends in the market.

Sent from my iPad

Julie Carpenter — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Julie Carpenter Affiliation: Jun. 19, 2026 In an age of data it does not make sense to offer less information. The more information we have allows for more informed decision making. If in looking at history and seeing that this plan didn't work in the 1950s, why would it be tried again? Has something shifted so greatly as to make this idea sound? Keep the reporting as is. If its not broke don't fix it.

Jcarpenter

I as a consumer, and as a stake holders need quarterly information to make decisions.
Most companies have to pay taxes quarterly. No hiding and no delays.

Julie Metcalf — Jun 19, 2026
Subject: S7-2026-15 From: Julie Metcalf Affiliation: Jun. 19, 2026 Julie L Metcalf, Assistant Language Teacher, Avon, Indiana
I stand firmly against regressively reducing SEC corporate reporting to twice per year. This Chesterton’s Fence must not be removed. Corporate CEOs are no more trustworthy today than they

were back in the days of Enron, and decisions they make impact all Americans. No changes should be made to this current transparency law unless they increase corporation accountability rather than decrease it. Thank you.

Justin Foster — Jun 19, 2026
Subject: File No. S7-2026-15 From: Justin Foster As an individual investor I believe the removal of quarterly filings would create an asymmetric information disadvantage for the individual investor like myself. I would have no capabilities that Wall Street has to glean information due to the amount of research that they can do and therefore it creates an unfair disadvantage to the individual investor. As such removing information from the public or reducing the frequency of publicly available information to the general investing public is not in the best interest of investors. I personally would be harmed by this especially if some material information was shared or discussed by a CEO with a

Wall Street insider or an investment bank that somehow got disseminated through the investment community that did not reach the public ear but became "the whisper number," which happens every quarter.

Justin Healy — Jun 19, 2026

K Condor — Jun 19, 2026
Subject: S7-2026-15 Comment From: K Condor Affiliation: Jun. 19, 2026 This reporting needs to be quarterly. AI has eased this burden on accounting staff. Way too much can happen in six months. Think about all that's happened since February! Investors and lenders and have the right to this information quarterly! Do not change the existing calendar.

Kathy Condor, former Banker and educator.

K F — Jun 19, 2026
Subject: S7-2026-15 Comments From: K F Affiliation: Jun. 19, 2026 The "Blind Spot" Effect: If a company experiences a major drop-off in sales during month two of the cycle, investors will remain entirely unaware for another four months. They may continue buying shares at inflated prices, unaware that the underlying fundamentals have shifted.
Because investing under a 6-month model introduces more blind uncertainty, investors will likely demand a higher rate of return to assume that risk. This means the company's stock price may suffer a permanent discount compared to competitors that choose to stay on a quarterly cycle.
Immediate Stock Volatility:
Severe, violent price drops. The stock is highly vulnerable to dramatic single-day plunges.
Obviously the rule change is more than likely to create chaos if a company has a large trading loss and the public isn't in the know the effect could be significant!

Kaitlin Shaw — Jun 19, 2026
Subject: S7-2026-15 Comment From: Kaitlin Shaw Affiliation: Jun. 19, 2026 To Whom it May Concern:

My name is Kaitlin, and I am a teacher. I rely on quarterly reporting for the same reason your child gets a quarterly report card: transparency, accountability, and the opportunity to change direction.

That quarterly grade is important for both me and your student. A failing grade means it's time to reevaluate. Am I, the teacher, doing an adequate job presenting the material? Has your student turned in the assignments? Are interventions needed? There the metaphor ends, because a good teacher can catch failing performance and course correct with parents long before report cards are issued. Investors do not have that luxury. We rely on that quarterly report because it is our chance to see how a company is doing and hold them accountable. Just as a quarterly report helps us all make better decisions for your child, a business's quarterly report helps investors make better decisions for themselves.

Consumers have been hit hard enough. Don't take away our opportunity to know what our money is doing.

Thank you,

~Kaitlin Shaw

Karen Jenkins — Jun 19, 2026
Subject: S7-2026-15 Comments From: Karen Jenkins Affiliation: Jun. 19, 2026 As a Senior citizen, having worked in retail and private companies, it is imperative for all companies, whether on US soil, or vending, contracting, or trading in markets here or abroad to be held accountable and audit, balance ledgers, and be responsible fisically, and physically, using best, safest practices and treating employees and stockholders fairly. Quarterly reporting must be mandatory across the board. Practicing clean, environmentally safe and controlled practices too.

KAREN JONES — Jun 19, 2026
Subject: S7-2026-15 Comment From: KAREN JONES Affiliation: Jun. 19, 2026 OUR money is invested, NOT donated. Enron was shameful and must not happen again. Accountability is a MUST

Karen Kenny — Jun 19, 2026
Subject: File No. S7-2026-15 From: Karen Kenny I’m writing to urge you to keep the SEC’s quarterly reporting requirements in place. These disclosures are a critical tool for transparency, investor confidence, and the overall health of our financial markets. Quarterly reporting ensures that investors — including everyday Pennsylvanians saving for retirement, college, or their first home — have timely, accurate information about the companies they invest in. Reducing reporting frequency would weaken oversight, increase information gaps, and make markets more vulnerable to manipulation or hidden risks. Stable, transparent markets depend on regular reporting. Quarterly disclosures have served our economy well for decades, and changing them now would create unnecessary uncertainty for investors and businesses alike. Please protect market transparency and investor trust by keeping SEC reporting quarterly. Sincerely, Karen Kenny

---

Karen L Bauer — Jun 19, 2026

Subject: Do NOT reduce quarterly reporting to the SEC - unless you want more cheating. From: Karen L Bauer Affiliation: Jun. 19, 2026 As a lifelong investor (I started as a kid) and as a voting American citizen (my family goes back to the second ship from Europe to land on America's northeastern shores, so all immigrants to me!), I am demanding that you perform your legally chartered duty of care to the American people to protect them from poor business practices. Your job is not to make it easier for businesses to hide their losses or do any secret self-dealing. The purpose of quarterly reports to the SEC are to prevent us ordinary folks from getting ruined by investing in what turn out to be shady businesses. Lord knows we have enough of that without loosening these regulations. Those regulations exist for the people, NOT for businesses!

Why ever would you not want to keep companies you've worked vested in reporting quarterly? It's hard enough as it is to find honest business people, giving them more room for self-dealing shenanigans is ridiculously stupid and evidence that you never intended to do your legally chartered job!

Do your job, which is to protect the public from bad business practices.

More reporting, not less!! Transparency is always the right thing.

Karen McBride — Jun 19, 2026
Subject: S7-2026-15 From: Karen McBride Affiliation: Jun. 19, 2026 Dear Persons,

It is vital to our economy that CEO's be held accountable for their financial acts and deeds in a quarterly calendar. Since the 1980'a the average pay for CEO's has increased 500 - 1000% . Has their workload increased more than their employees to justify such an outrageous inequality from labor to management?

We the people have tolerated the downsizing which increased our workloads, had to accept our jobs being outsourced to other countries along with manufacturing. Those actions which have increased their profits and stock values have had direct harm to the US labor force. We, the laboring taxpayers who also pay your salaries need you to do your job and hold CEO's accountable. You cannot let corruption be the standard practice by CEO's for the United States. It demeans the foundations of which your independent agency was created for; accountability, regulation, fair and stable markets. The only way to insure CEO's are held accountable is with quarterly reporting. Too much corruption can happen in a year as well as it makes it harder to spot the patterns of when the corruption starts and to have it cease before it damages the markets for a few people's greed and their creative accounting.

Hold them accountable, for We The People.

Cordially,

K McBride BES. PT. SFS.
California

Subject: S7-2026-15 Comments From: Karen Page Affiliation: Jun. 19, 2026 If anything, I'd rather see monthly reporting. Any way we can hold people accountable!

Karen Peaden — Jun 19, 2026
Subject: S7-2026-15 From: Karen Peaden Affiliation: Jun. 19, 2026 Quarterly reporting keeps public companies honest. Since Enron in 2002, every CEO must personally certify their numbers every quarter, with federal prison on the line for signing a lie. Right now, the SEC is proposing ‘semi-annual’ reporting, cutting those certified filings to twice a year. Half the jail risk for shady CEOs. Double the risk for your savings.

The signature is the deterrent. Four times a year, the CEO and CFO must each put their name to the company's books, certifying they've reviewed the report and that it contains no untrue statement of a material fact. Knowingly certify a false one: up to $1 million and 10 years in federal prison. Do it willfully: up to $5 million and 20 years. The proposal cuts those certified filings from four to two. Half as many moments when anyone at the top must stake their freedom on the truth.

02 Enron's defense was "I didn't know." Congress closed it. Enron's executives claimed ignorance of their own books, so Congress made ignorance impossible to claim. Every quarter, the CEO and CFO certify that they personally designed and evaluated the controls that surface bad news, and that they reported any weaknesses or fraud to the auditors. The law claws back executive bonuses even without proof the boss was personally involved. Halve the filings, and you halve the quarters where "I didn't know" is off the table.

03 8-Ks don't come with handcuffs. The SEC says current reports and press releases will fill the gap. Read the fine print: earnings releases ride on Form 8-K as "furnished," not "filed." That category exempts them from the automatic liability filed reports carry. No outside auditor reviews them, and no certification is required even when an 8-K contains financial statements. The SEC's own proposal concedes the problem. The 8-K may contain information, but it lacks any accountability.

04 We watched the signature crack a $2.7 billion fraud. Sarbanes-Oxley became law on July 30, 2002. Six days later, HealthSouth's CFO tried to quit rather than certify numbers he knew were fake: "he just couldn't sign the certifications."Months later he went to federal prosecutors and became the first of fifteen executives to plead guilty in a $2.7 billion fraud. A certification costs an honest

executive nothing to sign, it just exposes the fraudsters. Why roll them back?

You must STOP this from happening!!" We the people, have already lost too much during this administration's reign of terror! Stop Republicans from stealing more from us!

Karen Petersen — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Karen Petersen Affiliation: Jun. 19, 2026 Dear SEC Commissioners,
I strongly oppose any proposal to reduce quarterly reporting and disclosure requirements for public companies. Here's why:
1. Investors would be flying blind for six months.
Quarterly reports are one of the most important tools for everyday investors. A lot can happen in half a year — companies can pile on debt, face major lawsuits, or lose customers. Quarterly filings force problems into the open before they grow too big.
2. Less transparency leads to more fraud.
Transparency is the foundation of a fair stock market. Corporate scandals that hurt investors usually happen when there are gaps in financial disclosure. Quarterly reporting doesn't stop fraud entirely, but it greatly shortens the time bad behavior can stay hidden.
3. Retail investors would be hurt the most.
Everyday investors like me rely on clear, timely, and accurate public information to make good decisions. Company insiders and large institutions will always have other ways to get information. Weakening quarterly reports would put retail investors at a serious disadvantage and create an uneven playing field.
I urge the SEC to maintain strong quarterly reporting standards to protect investors and keep our markets fair and trustworthy.
Thank you for considering my comments.
Sincerely,
Karen Petersen

Karen van Vliet — Jun 19, 2026
Subject: S7-2026-15 Comments From: Karen van Vliet Affiliation: Jun. 19, 2026 I'm a retired person who relies entirely on retail investment for my livelihood. I depend upon timely, accurate, financial reporting to properly manage my investments to sustain me for the long term. Transparency in the US markets is what has kept it so resilient for decades.

I fear that changing to semi-annual reporting injects unnecessary uncertainty and opacity for individual investors regarding the true performance of the companies in which they invest. The risk is high. To those living on their investments, not having timely information about the value of their portfolio would put us at risk of overextending causing us to make financial expenditures in the dark based only on assumptions.

The savings to the companies by less frequent reporting is minimal in comparison to their earnings. Their internal accounting is maintained regardless of reporting frequency.
Before I retired, I worked for decades in the legal department of a major, national, insurance company. I saw firsthand that a reputable company keeps its books current. Only irresponsible or disreputable companies would benefit by lack of transparency. I fear that corruption would grow allowing insiders to cash out before disaster - at the cost to the public.

The SEC exists to protect the investing public. This proposed rule change does the opposite. I'm strongly opposed.
Karen van Vliet, Retired, Minnesota

Karissa Wallace — Jun 19, 2026
Subject: S7-2026-15 Comment From: Karissa Wallace Affiliation: Jun. 19, 2026 My name is Karissa and I oppose any effort to weaken or eliminate quarterly reporting requirements for public companies.

As an ordinary investor, I am deeply concerned that this proposal appears to prioritize the interests of large corporations and wealthy insiders over the interests of the public. Millions of Americans invest through retirement accounts, pension funds, college savings plans, and individual brokerage accounts. We deserve timely access to information about the companies that hold our money.

Corporate executives and large institutional investors already possess significant advantages. They have direct access to management, teams of analysts, and resources that individual investors can never match. Quarterly reporting is one of the few mechanisms that helps ensure ordinary investors receive regular, reliable information rather than being left in the dark.

Public companies benefit enormously from access to public capital markets. Transparency is part of the bargain. If a company wants the privilege of raising money from the public, it should also accept the responsibility of providing regular updates to the public.

I am particularly troubled by the argument that less disclosure somehow benefits investors. It is difficult to understand how investors are protected by receiving less information, less frequently. Transparency does not harm markets - it strengthens them. Accountability does not undermine

investor confidence - it creates it.

At a time when many Americans already feel that the economic system is tilted toward the wealthy and well-connected, reducing disclosure requirements would further erode trust in our markets and institutions. The SEC’s mission is to protect investors and maintain fair markets. Those goals are served by more transparency, not less.

Please reject any proposal that would reduce the frequency or quality of public company disclosures. The interests of everyday investors should matter just as much as the interests of corporate executives and billionaires.

Karl — Jun 19, 2026
Subject: S7-2026-15 Comments From: Karl Affiliation: Jun. 19, 2026 Karl Reichensperger, dir of Customer Services. I am against this because the investing public needs to know where their investments stand in the companies that they have shares in.

Karl Swenson — Jun 19, 2026
Subject: S7-2026-15 Comments From: Karl Swenson Affiliation: Jun. 19, 2026 This is a poor idea for transparency in keeping private investors informed. As equities are a substantial part of my retirement I would likely shift out of equities into more fixed income. The corporate savings of less reporting don't outweigh the added investment risk to me. I worked in corporate America and saw the rushed effects of quarterly burnishing, it shouldn't wait six months. I believe this would be an unfair advantage to corporate insiders and larger investors that would directly hurt individual stock holders.

Karl Swenson, P.E. -Retired Engineering Manager

Norwell MA

Karl Swenson, P.E Engineering Manager, Retired — Jun 19, 2026
Subject: File No. S7-2026-15 From: Karl Swenson, P.E In my opinion this is a poor idea for transparency in keeping private investors informed. Ideally with today's technology we should be having more frequent, albeit less detailed, reporting. As equities are a substantial part of my retirement I would likely shift out of equities into fixed income reducing capital exposure to this added risk. The corporate savings of less reporting don't outweigh the added investment risk to me. I worked in corporate America and saw the rushed effects of quarterly burnishing, it shouldn't wait six months. More importantly, I believe this could be a substantial and unfair advantage to corporate or political insiders and larger investors that would directly disadvantage individual stock holders.

Kathleen Finderson — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Kathleen Finderson Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
At a time when many investors are nervous about a possible AINbubble, and while we are trying to figure out how changing tariffs and the war with Iran will impact our portfolios, the very last thing we need is LESS information. To change reporting requirements from quarterly to semiannually seems to be a suggestion that investors have too much information, presented too often, while most of us think that we need all the information we can get, delivered as soon as it is available.
If you want to help investors, have listed corporations publish monthly results. Don't keep us in the dark.

Kathleen Freed — Jun 19, 2026
Subject: S7-2026-15 Comment From: Kathleen Freed Affiliation: Jun. 19, 2026 Keep SEC reporting quarterly. It doesn't benefit the public to change it to every 6 months.

Kathleen Freed
Cottonwood, Arizona

Kathleen Grover — Jun 19, 2026
Subject: S7-2026-15 Comment From: Kathleen Grover Affiliation: Jun. 19, 2026 I am a retired attorney. Transparency and accountability are important to me. Allowing corporate shenanigans to be hidden for an extra three months is very concerning. Whenever an entity wants to hide its books, I hear alarm bells go off. The only reason to hide the books is to hide something from the public. This administration has shown us the dangers of allowing corporate policies to rule our economy and our government. Please do not allow them further secrecy. Keep the mandate for quarterly reporting. We need to maintain governmental monitoring of corporate entities.
Kathleen M. Grover

Kathleen Hering — Jun 19, 2026
Subject: S7-2026-15 Comment From: Kathleen Hering Affiliation: Jun. 19, 2026 Continue quaterly reporting. Companies should be transparent in their earnings.
Kathleen Hering

Kathleen Hevener — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Kathleen Hevener Affiliation: Jun. 19, 2026 I worked hard to accumulate savings for my retirement and it is invested in US companies because I depend on the regular disclosure of financial statements. Rolling back these requirements would have an adverse affect on my and everyone else’s ability to have that trust.

Kathleen Hevener
Flagler Beach, FL

Kathleen A Pautler

Kathleen Quinn — Jun 19, 2026
Subject: S7-2026-15 Comments From: Kathleen Quinn Affiliation: Jun. 19, 2026 Keep the quarterly reports! See something say something ....

Kathleen Shamp — Jun 19, 2026
Subject: S7-2026-15 Comments From: Kathleen Shamp Affiliation: Jun. 19, 2026 My opinion on this is if it is fine the way it is, why change it? People have reasons for wanting the change and I can see that no good will come of it nor is there good reasons to change it. If it isn't broke, don't try to fix it.

Kathleen Ssteighner — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Kathleen Ssteighner Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission: Please keep the reporting rule as is for companies to report quarterly.
Keeping investors in the dark for 6 months is not in the best interest of transparency. All investors need transparency in making decisions for their future in the markets.

Make America Truthful again.

Kathleen Vandewetering — Jun 19, 2026
Subject: S7-2026-15 Comments From: Kathleen Vandewetering Affiliation: Jun. 19, 2026 There's NO reason to do this that is not nefarious. Kathy Van, stockholder, citizen.

Kathleen Wine — Jun 19, 2026
Subject: S7-2026-15 Comment From: Kathleen Wine Affiliation: Jun. 19, 2026 Kathleen Wine, HR Manager. Publicly held companies should continue to be transparent in their activities. Investors and the public should have the right to know how Companies operate. Moving to a six month reporting option decreases transparency and increases the opportunity for fraudulent activities. The SEC provides important oversight and should not give up that responsibility.

Kathryn Brunk — Jun 19, 2026
Subject: S7-2026-15 Comment From: Kathryn Brunk Affiliation: Jun. 19, 2026 Quarterly reporting is critical providing investor transparency. Given people's life savings and retirement are on the line, investors must be informed quarterly to make sound financial decisions for their future. Reducing frequency of disclosure does not benefit anyone but corporations hiding behind bad numbers, fraud and waste.

---

kathryn collinsduba — Jun 19, 2026

Kathy Davis — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Kathy Davis Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Please stand up for the little person that has so much to lose if you change the reporting timeline. I would far rather see SEC ask for more often disclosures, not less. I have my entire teacher retirement tied up in the stock market hoping to keep myself afloat until I die. I would even like to leave a little bit of money to my children. I am so afraid of losing my savings due to big billionaires trampling over the little people just so they can put more money in their own pockets.
I can't help but think that less regulation and less reporting is the kind of thing that caused the housing market to crash in 2008. People in the financial sectors of our society must be held accountable and held to very high standards of honesty and wise investments that do not jeopardize the smallest of investors.
At the very least, please keep the reporting to the quarterly timeline. I would still advocate to make the reporting happen more often. How about monthly?
Thank you!

Kathy Dibadj — Jun 19, 2026
Subject: S7-2026-15 Comment From: Kathy Dibadj Affiliation: Jun. 19, 2026 Please stop prioritizing the rich. This is destroying our country. Give all people a fair share with investing. Thank you!

Kathy Linstrom — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Kathy Linstrom Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
SEC quarterly reporting provides transparency into a company's financial performance, helping me, as an investor, to make informed decisions. It also ensures that companies maintain accountability and adhere to regulatory standards, which can protect my investments.
SEC quarterly reporting is crucial for providing transparency into a company's financial health. Quarterly reports ensure that companies adhere to regulatory standards, which benefits investors by:
Maintaining Accountability: Regular reporting holds companies accountable for their financial practices, reducing the risk of fraud or mismanagement. Protecting Investments: By ensuring that companies follow strict reporting guidelines, investors are better protected against potential losses due to undisclosed financial issues.

Kathy Little — Jun 19, 2026
Subject: S7-2026-15 Comment From: Kathy Little Affiliation: Jun. 19, 2026 Please keep quartet reporting. There is no win with a lack of transparency.

Retired Office Manager
Springfield Illinois
I have worked extremely hard and saved and invested those dollars so that my husband and I could have retirement. If it goes back to 1955, our savings and lifeline for retirement would be dramatically reduced. Transparency gives small investors like me and my husband the ability to know what is working as investments and what is not. If we cannot know whe there or savings are with good companies and how they are performing, we would be unable to know how our investments are doing and not allow us to see our losses and gains in a timely fashion.
We would then be struggling to survive. I would have to consider going back to work to take care of our needs. He is unable to work because of partial disability and mobility issues. Leave it alone, it is working well and doesn't need to be "fixed"!!!

Katie Collins — Jun 19, 2026

Subject: My view on Rule S7-2026-15 From: Katie Collins Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
As a constituent, I am asking you to vote against Rule S7-2026-15.
This rule inhibits the consumer's ability to make wise investment choices, by reducing their ability to see the performance of the companies they may be invested in. If anything, disclosures should be released more frequently. While the existing requirement of quarterly releases are somewhat helpful to consumers, monthly statements would be even better and help increase corporate accountability to their share holders.
Therefore, I ask that you reject Rule S7-2026-15. Help consumers to stay informed, to protect their invested dollars.
Sincerely,
Katie Collins

Katie Foster — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Katie Foster Affiliation: Jun. 19, 2026 My name is Katherine Foster. I am 74 years old, retired, and living in an expensive area of the country (Silicon Valley).

I object to the idea of going from quarterly to semi-annual reporting. Such a change would reduce transparency, and that’s a terrible idea for investors like myself, who rely on investment income to continue to live in my home.

Please do NOT make this reporting change!

Regards,
-Katherine Foster

Katie Hartman — Jun 19, 2026
Subject: S7-2026-15 Comment From: Katie Hartman Affiliation: Jun. 19, 2026 Katie Hartman-Grohn, Instructor in Madison, Wi.

Keep SEC reporting quarterly. Transparency is key for Americans to make prudent financial decisions. It is essential to mitigate fraud and manipulation in corporations. There is no good reason to reduce reporting requirements, but there are many, many good reasons to maintain them. Americans deserve transparency.

Katie L — Jun 19, 2026
Subject: S7-2026-15 From: Katie L Affiliation: Jun. 19, 2026 Removing quarterly reporting makes our entire less safe, less resilient and less capable of certifying factual data that our economy relies on. I wouldn't support an annual report card for a student as it would offer less time to course correct and less clarity on the status quo. This is shady and reaks of of corruption at the mere inclination of hiding information from the public and share holders. Am ericans deserve better than a secretive agenda that benefits corporations over the public. Kitty Fransisco, Operations Manager Lafayette, Louisiana

Katie McGee — Jun 19, 2026
Subject: S7-2026-15 Comment From: Katie McGee Affiliation: Jun. 19, 2026 To whom it may concern,

My name is Katie McGee and I am a public school teacher. The future of my finances is already up in the air with the way this administration has handled healthcare and retirement issues. My investments should not be put in jeopardy to benefit the elite. Without quarterly reporting, how can I make decisions that will bring me returns on my investments and protect the future of my family? It’s time that our country stand up for every day people. We are drowning here, and this will pull away another life raft.

Katie McGee

Katie Nelson — Jun 19, 2026
Subject: S7-2026-15 Comment From: Katie Nelson Affiliation: Jun. 19, 2026 I manage my own stock portfolio and depend on my investments in retirement. The quarterly reports are a very important part of my research and monitoring of the companies I buy stock and those that I maintain. Buying and selling those holdings are what keeps me financially afloat. I need that info just as much as the big companies! Giving them a 6 month wal to hide behind could easily spell disaster!!

Katie Nelson — Jun 19, 2026
Subject: S7-2026-15 Comment From: Katie Nelson Affiliation: Jun. 19, 2026 I DEPEND on those reports to manage my stock holdings, that bring in the money we live on! Taking then away could

cause total collapse of what I've worked so very hard to build. It is small investors like myself that will be the most impacted by the change in reporting, and will allow companies that are failing, to continue keeping their shareholders in the dark until it's too late. I fail to understand why the SEC is even considering this change, and who is behind it? If this goes through I'll take my half million out of the stock.market and put it into bonds or similar and will happily advise my many, many friends and former nurse and physician colleagues to follow suit. And in turn? They will pass that along and on and on. My voice can be ignored, but thousands, raised together, make a beautiful, powerful, noise that can being down walls. Or Wall Street.
Kathleen Nelson, age 70, retired.

Keith Haig — Jun 19, 2026
Subject: S7-2026-15 Comment From: Keith Haig Affiliation: Jun. 19, 2026 NOTHING ever got better or more transparent by LESS regulation. Human nature and greed are not good bedfellows. Your proposal will be disastrous and you know it. I implore you, do NOT reduce the reporting requirement.

Sent from my iPhone

Keith Haig — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Keith Haig Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I passionately believe,based on the previous historical period 1955-1970, that your proposal to allow public companies "go dark" for 6 months is a TERRIBLE idea. There is NO factual example where MORE opacity has improved adherence to fiduciary or GAP rules. Your proposal will ENCOURAGE insider trading and inappropriate actions. The retail investor will be flying blind. I implore you NOT to change publicly traded company reporting frequency.

Keith Hardie — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Keith Hardie Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Transparency is crucial to strong and fair markets. In the digital age, detailed financial information is available to executives at all times. Signed reports should be provided to investors more frequently, not less frequently. If reporting requirements are reduced, the potential for increased insider trading will increase. I find it hard to believe that proposals to reduce the amount of information available to shareholders and potential investors are being taken seriously. This appears to be an unfortunatecorollary to recent reductions in government information available to citizens. We are in dangerous waters. Please maintain or increase corporate reporting requirements. Light is a disinfectant.

Ken Bidwell — Jun 19, 2026
Subject: S7-2026-15 Comment From: Ken Bidwell Affiliation: Jun. 19, 2026 Everything quoted here are all the reasons why this is horrid for the average American small investor and/or consumer and great for ALL OF the GREED-ADDICTED, CORPORATE billionaires/trillionaires---all of the con men/women etc. THEY ALL NEED MENTAL HELP BADLY as they don't care at all that all they do RUINS SO MANY INNOCENT PEOPLE financially and beyond constantly. It's called Narcissistic, Anti Social Behavior diagnosis/es that they have, and, unfortunately, until Psychiatrists/Scientists find a cure for it, anyone who is not a MAGA SUPPORTING billionaire suffers from all of their SELFISH AND FRAUDULENTLY EVIL TACTICS, so the best help society needs and SHOULD GET is that they all all spend the rest of their lives in prison for such GRAFT/WHITE COLLAR CRIME that gets allowed due to horridly unfair loopholes in our very FLAWED legal system/laws/Constitution etc. that CONSTANTLY FAVOR THE RICH at our expense. SO SPECIFICALLY WHY THIS IS A BAD RULE THAT THE SEC WANTS TO ADOPT: "(1) you rely on quarterly information to make decisions, (2) longer gaps create an unfair advantage for corporate insiders, (3) "optional" doesn't fix the problem because companies that opt in are often the ones whose investors most need frequent updates, (4) the savings to companies aren't worth the cost to you."

Ken Brennen — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Ken Brennen Affiliation: Jun. 19, 2026 I am opposed to semi annual corporate reporting because we live in a very fast moving world and six months is too long for investors to learn what’s happening. In other words this is a reduction in transparency at a time when we need more transparency. I am a retiree depending on the investments I’ve made over a lifetime to keep me alive. I don’t want to see less transparency when it comes to managing my assets. Kenneth Brennen. North Port Florida 34286

Kim Payne — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Kim Payne Affiliation: Jun. 19, 2026 My name is Kim Payne Tisdale, and I am a retired educator. I am writing on behalf of myself and my spouse, Dorsey Tisdale, a retired commercial bank officer. After researching the history of financial quarterly disclosures we are against any reduction in disclosure reporting that could jeopardize the life savings of the public. We already live frugally these days due to the rapid increases in food, healthcare, utilities, gasoline, and city and property taxes. To jeopardize our savings is unthinkable. There is no way to justify changing reporting based on the historical past results when this was tried before. Reducing reporting to twice a year leaves an impression of shadiness--a shell game where monies are shuffled and invested in ways far riskier than we intended, and its most likely in hopes to continue spending at the government's current breakneck speed.

Kirby McCalister Professional Geologist — Jun 19, 2026
Subject: File No. S7-2026-15 From: Kirby McCalister I see no public benefit allowing reduced reporting by publicly traded companies. Instead, I see the grave potential for companies not being forthcoming on a timely basis with information important to investors. I believe the SEC should always keep the interests of the public in higher regard than that of publicly traded companies.

Kirsten Larson — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Kirsten Larson Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
The rules that are currently in place are crucial in a fair market who rely on a company's good standing to determine one's investments. To remove this is like putting a blindfold on our decision making. Not only is that unethical, it's dangerous as it will result in less investment for retail investors as they consider this to be too risky and untenable for future planning. Do not change the policy that has worked for everyone. It us short sided thinking that will have dire consequences, and quite frankly is one more reason that the American public doesn't trust the government.

Kirstine Baratta — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Kirstine Baratta Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
As an individual investor, I rely on regular public disclosures to understand the companies I own or may invest in. Quarterly reporting provides transparency and accountability, and it helps ensure that all investors have access to the same information at the same time.

Reducing the availability or frequency of disclosures would make it more difficult for ordinary investors to make informed decisions and could increase the advantage held by large institutions with greater resources. Public markets function best when information is broadly available, timely, and transparent.

I encourage the SEC to carefully consider the impact this proposal could have on retail investors and to preserve strong disclosure requirements that promote fairness, transparency, and investor confidence.

Kisha Watson — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Kisha Watson Affiliation: Jun. 19, 2026 Keep the quarterly reporting! The stock market & economy is already raddled due to this administration.

Kris Bowers — Jun 19, 2026
Subject: S7-2026-15 From: Kris Bowers Affiliation: Jun. 19, 2026 Dear SEC governors;

I am retired and have most of my retirement savings in carefully chosen funds. I am OPPOSED to semi- yearly reporting. I feel that you are giving corporations more opportunity to cover up losses with less accountability to their investors. Any savings on accounting and reporting will not be available for investors. Most reporting is done on line now anyway.

KEEP THE quarterly reporting regulations.

Kristine Bowers, 1611 Bobby Nichols Dr., Cookeville, TN 38506

Kristen Evans — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Kristen Evans Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
During modern times we as common investors should demand more accountability and reporting than less. The proposal to remove quarterly reporting and replace with a biannual report leaves too much risk for investors to make informed decisions with their funds. I see no advantage for pushing back regular reporting. It simply leaves too much room for manipulation of reported figures. It is your duty to protect the citizen investor not the large businesses behind the tickers. This lack of reporting is only in favor of the business not the common person. It would be a shame for the SEC to fall under such control from business interests as many other government sectors have in recent years. Think about it and do the right thing for Americans, not greedy businesses.

Kristen Hansen — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Kristen Hansen Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Please keep transparency and lessen the chances of loss and fraud through quarterly reporting!! thank you!!!

Kristen Hedden — Jun 19, 2026
Subject: File No. S7-2026-15 From: Kristen Hedden I have worked hard for over 50 years, carefully contributing to savings and retirement accounts. The data shows that quarterly reporting by companies provides citizens like me with more timely information for decision making, and better overall market performance. I cannot afford to lose my savings. Please keep the current quarterly reporting requirements. Since it is already in place, no additional burden is created. By keeping the current quarterly reporting, the SEC demonstrates that it has the public's interest at heart.

Kristen Maughan — Jun 19, 2026

Kristi Dawson — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Kristi Dawson Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
For decades, the average American had access to important and timely financial information provided by companies prior to investing in them. Without quarterly reporting, investors will be placed at a disadvantage.
Don't go backwards to where our ancestors were before the Great Depression descended over the country. At that dark time, insiders held all the cards and average Americans lost their life savings.

There is already enough risk involved in investing in the market, why add more?
Thank you.
Kristi Dawson

Kristi Fasburg — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Kristi Fasburg Affiliation: Jun. 19, 2026 This accountability must remain a quarterly event! Do not change it!

Kristian Olson — Jun 19, 2026
Subject: S7-2026-15 Comments From: Kristian Olson Affiliation: Jun. 19, 2026 I am an American homemaker. Stocks are how we save for retirement and how we can afford for me to stay home. Only hearing twice a year from companies really fails to give a full sense of what any company is doing. It makes it hard to trade in the stock market. Companies owe their investors time and public filings also allows the government and regular people assurance that the companies are being managed in ways that are legal and that benefit the overall society

---

Kristin McKenna — Jun 19, 2026
Subject: S7-2026-15 Comment From: Kristin McKenna Affiliation: Jun. 19, 2026 My name is Kristin McKenna, I am a sales executive. Investors like me need quarterly reporting so that we can make informed decisions about how our portfolios are managed. Without this information we are at huge disadvantage. Please stop inventing new ways to hurt people like me and the rest of the American middle class.

Kristine Knutsen — Jun 19, 2026
Subject: S7-2026-15 Comments From: Kristine Knutsen Affiliation: Jun. 19, 2026 It is imperative that they retain quarterly reporting for transparency for all Americans. Everyone has a right to the data for publicly traded companies so our investments are protected and we can make informed decisions.

This screams ENRON and WORLDCOM, do NOT take quarterly reporting off the table, please.

Krystal Peasley Salvator — Jun 19, 2026
Subject: S7-2026-15 Comment From: Krystal Peasley Salvator Affiliation: Jun. 19, 2026 To Whom It May Concern,

Quarterly reporting for publicly held companies is the transparency needed and the standard the public is entitled to receive.
There is no good reason in my understanding for allowing publicly traded companies to not continue to be held to this level of communication.
Malfeasance is harder to conceal when financial results are reported every 3 months.
If I am putting my money in the hands of others, quarterly reporting is the minimum standard that I expect to receive.

Krystal Salvator

Lane Tablet — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Lane Tablet Affiliation: Jun. 19, 2026 Leslie F Lane, retired Engineer, Moorestown, NJ. WE need to continue requiring quarterly reporting. As a concerned investor, transparency and audited quarterly reports are an absolute necessity. Less frequent reporting favors the ultra wealthy with insider information, leaving the average person disadvantaged. Knowledge is power. Companies and their Boards need to be accountable to their shareholders, reporting results in good times and bad times. Conditions may change dramatically in 3 months, let alone 6 months. It makes no sense to loosen reporting requirements.

Lanet Shorack — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Lanet Shorack Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
We deserve to know what is going on with our investments . Transparency is important. Do what is right , give us quarterly transparency.

Lannie Rutherford — Jun 19, 2026
Subject: S7-2026-15 From: Lannie Rutherford Affiliation: Jun. 19, 2026 Less accountability is not acceptable. Quarterly reporting is barely acceptable, and monthly reporting would be even better! By reducing the frequency of reporting you are saying that they are trustworthy to police themselves. There is very little evidence showing that they are honest enough to be trusted that way.

Please keep the door locks because those help people ro stay honest.

Lannie Rutherford — Jun 19, 2026
Subject: S7-2026-15 From: Lannie Rutherford Affiliation: Jun. 19, 2026 Less accountability is not acceptable. Quarterly reporting is barely acceptable. Monthly reporting would be even better!

Laura Bodtke Retiree — Jun 19, 2026
Subject: File No. S7-2026-15 From: Laura Bodtke To the Securities and Exchange Commission: I object to the proposed new Rule S7-2026-15 for several reasons. I am a retiree and I rely on quarterly information to make decisions. The longer gaps between reports create an unfair advantage for corporate insiders who can bail on 'bad' stocks before I ever get the chance to see the same info they do. Making quarterly reporting "optional" doesn't fix the problem because companies that opt in are often the ones whose investors most need frequent updates (hello, ME). And the "savings" this COULD bring companies is not worth the cost to me - they still have to keep their books, so reporting what's in them is minor and they most likely would still be creating those reports internally - why shouldn't they share them, unless they're hiding something or encouraging insider trading? Thank you for your consideration.

Laura Carrington — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Laura Carrington Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission: I am a 64 year old small time investor with my retirement funds. I need information from reports and disclosures on order to make informed decisions. Don't take that away from me. I do not have the time horizon to make up for this mistake. If this passes, I will have to be much more conservative because I will assume the worst about the companies I invest in, affecting investor confidence, multiplied by all investors. I am by no means alone in my situation or viewpoint. Investors or potential investors should have access to this information in full.

---

laura chapman — Jun 19, 2026
Subject: S7-2026-15 Comment From: laura chapman Affiliation: Jun. 19, 2026 Please keep the

reporting quarterly. In this volatile market, a lot can
happen within 3 months, let alone 6 months. Something came out in the
news yesterday about a company losing a lot of money in three months.
This may not have been known without the quarterly reports.

Laura Clark Speech Pathologist — Jun 19, 2026
Subject: File No. S7-2026-15 From: Laura Clark I am a retail investor who is asking that reporting remain quarterly so that I am able to make decisions regarding my retirement savings in a timely manner.

Laura D'Alisera — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Laura D'Alisera Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Keep the quarterly signatory period as currently coded in law. I still remember the Enron catastrophe and employees who lost everything because of an unscrupulous CEO. To safeguard my investments, we need guardrails on corporations, their boards and CEOs. I am invested in the stock market and count on these regulations to enable me to make sound decisions.

Laura Duvall — Jun 19, 2026
Subject: S7-2026-15 From: Laura Duvall Affiliation: Jun. 19, 2026 I make my financial decisions on quarterly reporting, and think that a 6-month reporting period could prove to be detrimental to the management of my accounts.
I also think the current reporting structure deters illegal misbehavior amongst those with large financial holdings, and/or those who manage, and are accountable for, other people’s financial holdings.
Laura Duvall, Retired
Texas

Laura Ecker — Jun 19, 2026
Subject: S7-2026-15 Comments From: Laura Ecker Affiliation: Jun. 19, 2026 Laura Ecker, Physical Therapist
The only reason you would change it to every 6 months is to hide information from the general public, The People whom you are supposed to represent. I want quarterly for transparency!

Lauren Hansen — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Lauren Hansen Affiliation: Jun. 19, 2026 Hello,
My name is Lauren Hansen. I live in Eureka, CA and work at an elementary school. My spouse works for the city and we have 2 children in school.

PLEASE do not roll back to the 1955 rules. Quarterly reporting to the SEC must continue. The middle class must survive to keep this country working.

Thank you,

Lauren

Lauren Holihan — Jun 19, 2026
Subject: S7-2026-15 Comment From: Lauren Holihan Affiliation: Jun. 19, 2026 Keep reporting the

way is is presently. Stop trying to screw the public

Lauren Irwin — Jun 19, 2026
Subject: S7-2026-15 Comment From: Lauren Irwin Affiliation: Jun. 19, 2026 Quarterly results are necessary to keep companies honest.

Lauren Jolly Fleenor — Jun 19, 2026
Subject: S7-2026-15 From: Lauren Jolly Fleenor Affiliation: Jun. 19, 2026 Im the chief financial officer, CPA, former public accountant. The comparative information that exists due to quarterly public filings is critical for accountanting research, benchmarking, competition in the marketplace, investor research, trend analysis. Going to less reporting sounds like vibe investing and we need less of that. In a world where data is at our finger tips and automation helps speed up reporting why would we do this?

Lauren Knebel Bodenski — Jun 19, 2026
Subject: S7-2026-15 Comments From: Lauren Knebel Bodenski Affiliation: Jun. 19, 2026 In this country, we should be aiming for greater and greater transparency. Not, less and less transparency, as seems to be the case. Companies should not be able to hide their earnings from the public because it makes it even harder and more dangerous for people to enter the market. Companies already have way too much influence in our country now.

Sent from my iPhone

Lauren Warner — Jun 19, 2026

Lauri Millot — Jun 19, 2026
Subject: S7-2026-15 Comment From: Lauri Millot Affiliation: Jun. 19, 2026 I oppose changing current reporting requirements. The amount of fraud, abuse of authority by individuals with a fiduciary duties, insider trading, and actions that ignore shareholder interests require that we remain vigilant

and have MORE access to information, not less.

As an attorney that has worked in the public sector most of my life, I plan to rely on the limited resources I have been able to invest for my retirement. Changing the reporting requirements has the potential and high probability, given the removal of ethical stakeholders, to place my life savings and impending retirement at risk.

Leslie Subaldo — Jun 19, 2026
Subject: S7-2026-15 Comments From: Leslie Subaldo Affiliation: Jun. 19, 2026 I'm Leslie Subaldo

and I’m a software engineer. Please do not cut the reporting from quarterly to just twice a year. I’m just a single person trying to live day to day.
Longer gaps will create an unfair advantage for corporate insiders and leave everyone else, like myself, in the dark. And guess who will foot the costs? There maybe savings to companies, but WE, the everyday people, are going to pay this unfair price. This isn’t worth the cost to me, to the rest of us everyday people. This is yet again another way for large corporations to make more money and make the rest of us poorer.

Lewis Swank — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Lewis Swank Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Don't tamper with with the rules. We need quarterly reports. How are to make resonable decissions with out them? Do not be holding vital info from us.

Lex — Jun 19, 2026
Subject: S7-2026-15 Comment From: Lex Affiliation: Jun. 19, 2026 Lex Poh, Former NASDAQ Financial Advisor. The information published on thr 10Q quarterly reports is already historical, eliminating quarterly reporting does not serve the public and makes if more difficult for investors to stay informed about their investments until it's too late. How does this serve investors? How does this make American markets attractive to domestic and foreign investors. We don't want a repeat of what made securities laws become necessary in the first place because that's where we are headed without this vital reporting. It makes US investment markets less attractive.

Lezley Johnson — Jun 19, 2026
Subject: S7-2026-15 Comments From: Lezley Johnson Affiliation: Jun. 19, 2026 Lezley Johnson, Branch Manager

I am a hobby investor. In other words I manage my own money and have done well because I have access to the tools I need to research companies and monitor their performance. Removing my ability to do that would significantly impact my ability to make informed decisions.

Linda Bubbers — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Linda Bubbers Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Public companies must provide complete, audited disclosure of financial status on at least a quarterly basis. Business activities, relationships, and partnerships must be reported. To be a Publicly held company means that the Public share holders own the company and these owners have the right to know, without delays, what the company is doing.

Linda Bunting — Jun 19, 2026

People didn't work their entire lives to support the gambling habits of Wall Street. Please don't do this.

Linda Carta — Jun 19, 2026
Subject: S7-2026-15 From: Linda Carta Affiliation: Jun. 19, 2026 My opinion is that any measure that helps to protect investors against fraud or cheating are needed. Quarterly reporting was required because semi annual reporting was believed to have some flaws or the potential for wrong doing. Quarterly has worked well. The old adage “ if it ain’t broke, don’t fix it” applies here. It was changed from semi annual to quarterly to fix a problem. Why would any sane person want to unfix the problem that quarterly reporting helped fix? No reasons I can think of other than laziness or a better chance to hide something. I realize there is probably an economic factor there, but I believe being above board and giving investors the opportunity to move faster if necessary out weighs that.

Lisa Barone — Jun 19, 2026
Subject: S7-2026-15 Comments From: Lisa Barone Affiliation: Jun. 19, 2026 Hello,

It is important to me that the SEC keep reporting quarterly. Quarterly reports are the best way for individual investors like me to have as much transparency as possible. Extending the reporting time from quarterly to semi-annually is of no benefit to anyone but corporations & corporate insiders.

Lengthening the time in between reporting could severely hinder my opportunities to manage my investments to the best of my ability if I am not receiving pertinent information to make informed decisions in a timely fashion. Extended time between reporting creates an unfair advantage to the company and a disadvantage to the investor.

As a retail investor nearing retirement, I rely on quarterly reports to make decisions about my current & my retirement savings!

Lisa Barone
Mortgage Loan Originator.

Lisa Bibeau — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Lisa Bibeau Affiliation: Jun. 19, 2026 Reporting should be kept quarterly, if something goes wrong with your investment it will take up to six months to build before you even know what's going on.

Large corporations have other channels to monitor the markets. By changing the reporting to semi-annual this cuts out the average person ability to accurately monitor their investments. In turn this enhances investor decision-making, increases market efficiency, and lowers the cost of capital.

In Europe it has been proven that companies that switched to semi-annual reporting saw their trading liquidity fall, while those that kept quarterly reporting did not.

Accurate and timely information is critical to the stability of the financial markets.

Thank you
Lisa Bibeau

Lisa Burtis — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Lisa Burtis Affiliation: Jun. 19, 2026 Good morning,

Thank you for your commitment to carrying out the SEC's important regulatory responsibilities.

I am a mother of three grown sons, a mental health provider, and the CEO of a very small mental health therapy S-Corporation in Mendocino County, California. As I approach retirement, the stability and transparency of our financial markets are increasingly important to me, as a significant portion of my retirement security depends on the investments I have made over many years.

I have studied the arguments both for and against moving to a semi-annual reporting structure, as well as proposals for other reporting schedules. After reviewing these perspectives, I believe public companies can and should continue providing quarterly reporting while maintaining a focus on long-term planning and strategic growth.

In particular, I find the cost-based arguments for reducing reporting frequency less persuasive in today's environment. Businesses now have access to increasingly sophisticated technologies, including automation, advanced data management systems, and artificial intelligence tools that can streamline data collection, analysis, and reporting. These technological advances make financial reporting more efficient and accessible than ever before, reducing administrative burdens while enhancing transparency and accuracy.

Rather than reducing the frequency of reporting, I believe the SEC should encourage the thoughtful use of technology to improve the quality, timeliness, and accessibility of information available to investors. Regular quarterly reporting promotes market transparency, supports informed decision-making, and helps maintain investor confidence.

I am particularly concerned that an optional, rather than mandatory, quarterly reporting framework could introduce unnecessary uncertainty and volatility into the markets. Consistent reporting standards create a level playing field for investors and ensure that material information is disclosed in a predictable and timely manner.

For these reasons, I respectfully urge the SEC to withdraw its proposal to move to a semi-annual reporting structure with optional quarterly reporting and to maintain mandatory quarterly reporting requirements for public companies.

Respectfully submitted,

Lisa Larimer Burtis
Mendocino County, California

Lisa Dance — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Lisa Dance Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
The proposed rule will make it harder for investors and the public to access performance, risk, and ESG impact. At a time were, corporations focus on shareholder value at the expense of workers, communities, the environment, and democracy. We don't need further hiding of their performance. Quarterly reporting is protection for retail investors who don't have the resources and research to underdstand what a company is acrrually We actually need more transparecy not less particularly with new ways of fraud and stock manipulation so easy to implement.
I am firmly against the propsed rule. Do not adopt it.

Hold them accountable. Don't trust them. A pass to cheat.

Lisa Hoffmann — Jun 19, 2026
Subject: S7-2026-15 From: Lisa Hoffmann Affiliation: Jun. 19, 2026 Lisa, Investor
I vote NO!
I believe that moving to semi annual reporting would be disastrous for investors because:
(1) I rely on quarterly information to make decisions, (2) longer gaps create an unfair advantage for corporate insiders, (3) "optional" doesn't fix the problem because companies that opt in are often the ones whose investors most need frequent updates, (4) the savings to companies aren't worth the cost to me.

Lisa Inks Disabled Voter — Jun 19, 2026
Subject: File No. S7-2026-15 From: Lisa Inks I want Quarterly Reports! Longer periods between reporting allows data/information to be hidden from me which makes it harder to course-correct in a timely manner. It’s imperative to provide quarterly reports to allow me to review the progress of my accounts over a short period of time. I’d prefer monthly reports. The old adage “out of sight, out of mind” is a very accurate description of how busy people often become oblivious to their investments. Everyone deserves 100% transparency regarding their money.

Lisa James — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Lisa James Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I oppose this because investors need more transparency not less. I rely on quarterly reports to make decisions about my investments. Who exactly is this for and how exactly does it help investors?

Lisa Kenion — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Lisa Kenion Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
It's destructive to have less information on the fiscal aspects of corporations. It just creates opportunities for corporations to be less than honest. Investors and the public have a right to know about the fiscal health of companies selling shares on the stock markets. Duh, this ain't rocket science, just good ole common sense and decency.

Lisa Kenion — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Lisa Kenion Affiliation: Jun. 19, 2026 To the Securities

and Exchange Commission:
People need information to know how to invest, duh. Why do you want to make that harder? Stupid

Lisa Pittman — Jun 19, 2026
Subject: S7-2026-15 From: Lisa Pittman Affiliation: Jun. 19, 2026 I, Lisa Pittman, am a very concerned retired software developer in Plant City Florida that cannot believe this would even be considered ! Does the SEC have anyone who remembers the carnage that was done to ordinary Americans by allowing companies to steal money from them? Please look this information up because no one who knows how easy that makes it for millionaires to steal with no real repercussions. Please DO NOT changes the current rules, that would be unconscionable.

Lisa Raphaela — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Lisa Raphaela Affiliation: Jun. 19, 2026 ITo the Securities and Exchange Commission:
I have been investing in the stock market for decades. I won some and I lose some. I make my decisions based not only on outward performance but the quarterly disclosures and information I can readily read on every company I own stock in. Blindfolding is so we can't see what's going on and not getting timely disclosures is not only dishonest but dangerous. This kind of thinking could drive the markets to another breaking point and send stocks spiraling dangerously downward. We need honesty, transparency and good faith dealings with our investments.

Lisa Roddy — Jun 19, 2026

Logan Branam — Jun 19, 2026
Subject: S7-2026-15 Comment From: Logan Branam Affiliation: Jun. 19, 2026 Logan Branam. Chef. This is one more step in the direction of distrust that the American people already have towards big companies and big investors. This is a time where more transparency not less needs to be enacted. A move like this is going to further inflame tensions between the richer and poorer, specifically those trying to invest to actually attain or maintain a middle class position.

Sent from my iPhone

Logan Vijayaratnam Retired CFO — Jun 19, 2026
Subject: File No. S7-2026-15 From: Logan Vijayaratnam We are in a period where a convergence of technologies is going to require a step change in investments which is going to be made by companies in all sectors. Reducing the cadence of reporting and giving colour to shareholders will make it very difficult to assess the progress made for individual shareholders. It will also lead to the Finance industry to have an increased edge over individual investors which is already the case simply by making the time between reporting windows longer. Trading technologies already give an edge to institutional investors creating large amounts of volatility on a daily basis and one way of balancing this is to have more individual participation. The proposal will reduce the information available to individual shareholders and will also impact the transparency that has been spearheaded by the US SEC which in my opinion is one of several reasons that makes the US a preferred destination for investors. I urge you to maintain the quarterly reporting as it is today.

Lois Boldrini — Jun 19, 2026
Subject: Keep Quarterly Reporting From: Lois Boldrini Affiliation: Jun. 19, 2026 Quarterly reporting is necessary to keep ALL shareholders informed of a company's status. Less frequent reporting lends itself to suspicion around the health and financial wellbeing of companies. Less frequent reporting puts us as individuals at a distinct disadvantage in protecting ourselves from potential significant losses because of delayed reporting of potentially significant negative news. This is critically important as the majority of us now rely on investments for our retirement security in the face of the literal disappearance of company pensions, and the now-looming eventual insolvency of Social Security. Please continue to provide the regular and TIMELY transparency of quarterly reporting as

is!

Lollie McIntire — Jun 19, 2026
Subject: S7-2026-15 Comment From: Lollie McIntire Affiliation: Jun. 19, 2026 To the SEC:
I totally and completely disagree with companies reporting earnings only twice a year. Publicly traded companies owe the public accurate and timely accounting if they are to gain my trust, and/or my money. With all the financial
fraud occurring every second in this country, why would we want to give crooks more time and opportunity to commit their crimes? I believe this idea, to go back to an antiquated system of financial reporting, would only benefit people at the top levels of wealth in this country. These are people who have already skewed the the accumulation of wealth in the US to favor themselves, and not society as a whole. Their big companies don't deserve three months of non-accoutability if we want to keep them honest, and fair to the rest of us. I want to know that my investments are solid, and for that I need quarterly earnings reports. A lot can go wrong in six months if we let it.
Signed,
Linda McIntire
A middle class, hard working citizen who's future depends on my investments

Subject: S7-2026-15 Comment From: Lori R Affiliation: Jun. 19, 2026 Nix the retail robbery rule. It's corruption in the making.

Lori Salyers — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Lori Salyers Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Corruption is at an all time high. We must stop it now. A country is only as strong as its constituents, most of them are sinking due to the corruption.

Lori Sherman — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Lori Sherman Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
The proposal to only have biannual disclosure from the SEC is not fair to investors like me. Quarterly disclosures provide more transparency and allow informed decision making concerning my investments. I am retiring in August and will rely heavily on these investments for income, so please keep the playing field more level and more fraud resistant for every day people like me by maintaining quarterly reporting.
Thank you,
Lori Sherman

Lori Spitzer — Jun 19, 2026
Subject: S7-2026-15 From: Lori Spitzer Affiliation: Jun. 19, 2026 I think this should occur quarterly, not only twice per year. These CEOs must account as regularly as possible.

Lori Sturges — Jun 19, 2026
Subject: S7-2026-15 Comment From: Lori Sturges Affiliation: Jun. 19, 2026 The only reason to change quarterly reporting is deception and thievery. We won't stand for it! Keep your dirty money out of politics. WE WILL NEVER FORGET ENRON!!

Lorna McGowan-Smith — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Lorna McGowan-Smith Affiliation: Jun. 19, 2026 As investors, we are entitled to more information not less. Quarterly reports on companies are a vital way to make that happen. The last thing we need is more insider information being used by the top 1% of the wealthy in the United States, all the while keeping the rest of the world with limited information. We need to do everything we can to stop this!

Lorraine Diaz — Jun 19, 2026
Subject: S7-2026-15 Comments From: Lorraine Diaz Affiliation: Jun. 19, 2026 The quarterly reporting needs to continue to keep companies honest and open with their investors. Long stretches of time allow for financial engineering to occur to hide the facts.

Lorraine Fling — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Lorraine Fling Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission: It seems to me the only reason to decrease reporting to investors would be to steal our money one way or another. Why would you want to hide information unless it is for corruption? I might just take my money out of US market and put it somewhere else if this is done.

Lorree Gardener Milne — Jun 19, 2026
Subject: S7-2026-15 Comments From: Lorree Gardener Milne Affiliation: Jun. 19, 2026 My name is Lorree Gardener, I'm a humble musician and all business owners should be real people, not some vague corporate entity. The larger the company is, the more important transparency is. The wealthiest companies and individuals are getting away with paying the least amount of taxes and this is simply unfair.

Macon & Mary Lou Roemer Retired educators — Jun 19, 2026
Subject: File No. S7-2026-15 From: Macon & Mary Lou Roemer It is critical , not only for us, but for everyone who has worked all their lives to save, for the quarterly reporting rule to remain in effect. We are both retired educators. We raised two children. We have grandchildren. We have a dependent elderly family member for whose care we are now being required to private pay. While we are better situated than some, the reduction in our savings and investments that would likely happen with twice yearly reporting could devastate our finances for the rest of our lives. Please have quarterly reporting remain in place.

Societies for centuries have understood the importance of using transparency and oversight as tools to ensure the integrity of governments and corporations.
Allowing for less reporting is a gateway to corruption. You should know this and you should value

your role in protecting the public from corruption that tears at institutional trust. Your Commission should be tightening oversight not lessening.
It is not in the best interest of the public to hide vital information please keep quarterly disclosures!

Mairead Murray — Jun 19, 2026

I have spent 60+ years of my life working for companies who followed common sense laws, official policies and fair business practices which made them great companies for this nation.
I strongly support the status quo in requiring quarterly reporting rules so we continue to make companies transparent in their ownership and financial condition now and in their future so other companies that are doing business with or for them can have statistics and financial information available to plan for everyone's future planning goals!

DO NOT CHANGE THE RULES!!!

Respectfully,
Michael Murphy

Mara Hilderman — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Mara Hilderman Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:

Dear Sir/Madam:
As a former analyst with Moody's Investors, I believe your proposal is a catastrophe for investors. It is already extremely difficult to accurately predict a bank or broker dealer failure. The elimination of quarterlies would make it impossible. The average investor would not know until the doors closed. This is designed to save corporations a small amount of money in reporting requirements at the expense of investors. For once, do not do the bidding of any corporation that asks you for a reporting break. Your job is to protect citizens' investments, not protect corporations.

Mara Hilderman

Marbry Hardin Software engineer — Jun 19, 2026
Subject: File No. S7-2026-15 From: Marbry Hardin Especially in light of the issues with companies like Enron, or Century Link (Lumen) which I actually lost money on because of their mis-reporting this seems to be a particularly bad idea to loosen those reporting requirements. It seems this could only increase the severity and extent of any damage when such deceptions are inevitably discovered. Please reconsider and ditch this change to lengthen required reporting intervals. We all know that "optional" == "not required" == "what can I get away with".

MARC COFFINER — Jun 19, 2026

June 19, 2026

Subject: Proposed Rule on Semiannual Reporting, File No. S7-2026-15

Dear Secretary Countryman,

On behalf of the California Public Employees' Retirement System (CalPERS), we appreciate the opportunity to provide comments on the U.S. Securities and Exchange Commission's (SEC or Commission) proposed rule to allow companies to file semiannual reports on the new Form 10-S in lieu of quarterly reports on Form 10-Q.

As the largest public defined benefit pension fund in the United States, CalPERS manages approximately $600 billion in global assets on behalf of nearly 2.4 million members. We seek long-term and sustainable returns through efficient capital allocation and stewardship in line with our fiduciary duty.

CalPERS respectfully but strongly urges the Commission to withdraw the proposed amendments and retain its existing quarterly reporting framework for all domestic registrants. The current periodic reporting cadence, which has been in place since 1970, is foundational to the depth, liquidity, and integrity of U.S. public markets and is directly relied upon by CalPERS and many similarly situated long-term investors to fulfill our fiduciary duties. Reducing the frequency of mandatory periodic reporting will not, in our view, meaningfully advance the Commission's stated objective of encouraging companies to go and stay public. Instead, we believe it will reduce transparency, widen information asymmetry, and weaken accountability between management and shareholders.

If the Commission's objective is to lengthen corporate decision-making horizons, then the more effective and well-targeted lever, as we have urged in prior comment letters, is to discourage the voluntary issuance of forward quarterly earnings guidance, not to dilute the historical financial reporting on which investors depend.

CalPERS has long believed that timely, comparable, and decision-useful financial disclosure is the bedrock of the U.S. capital markets. In our 2019 comment letter responding to the Commission's request for comment on earnings releases and quarterly reports (File No. S7-26-18), CalPERS provided "a strong endorsement for the existing framework of quarterly and annual reporting," and we reaffirm that position today.1

Quarterly reporting performs several functions that semiannual reporting cannot replicate:

• Quarterly reporting reduces information asymmetry. Mandatory quarterly disclosure ensures material financial information reaches all investors on the same timely cadence, narrowing the gap between informed insiders and the broader investing public.

Doubling the interval between reports widens that gap and increases the likelihood that markets price securities on selective disclosure, rumor, or alternative-data signals available only to a subset of participants.

• Quarterly reporting enables trend analysis and risk monitoring. Long-term investors, like CalPERS, rely on quarterly data to observe operating trends and identify emerging risks. Four data points per year materially improve trend identification compared with two; semiannual data is too coarse to detect inflection points in revenue, margins, working capital, or leverage before they become material to valuation.

• Quarterly reporting mitigates a dangerous gap in semiannual reporting. Proponents of

the proposed amendments often point to foreign jurisdictions—such as the United Kingdom, Australia, or the European Union—as successful models of semiannual reporting. However, this comparison relies on a fundamentally flawed equivalence of underlying legal frameworks. Those markets pair semiannual periodic reporting with principles-based continuous disclosure requirements that mandate the immediate public release of any material information. In contrast, the U.S. disclosure requirements rely heavily on the specific, itemized triggers of Form 8-K for intra-period updates. Superimposing a semiannual cadence onto the existing U.S. framework is likely to create a significant disclosure loophole. Under the proposed rule, management could legally embargo material but non-8-K-triggering developments—such as severe margin compression, deteriorating sales trends, or shifting competitive dynamics—for up to six months. Depriving the market of this information until the next Form 10-S filing is directly contrary to the Commission's mandate to protect investors and maintain fair, orderly, and efficient markets.

• Quarterly reporting prevents the erosion of peer comparability. Because the SEC's proposal allows companies to elect their reporting frequency annually, it is likely to severely fragment the disclosure landscape. If some companies in a certain sector continue reporting quarterly while others shift to semiannual reporting, investors will lose the ability to accurately benchmark performance, compare relative risk, and perform fundamental analysis across peers.

1 CalPERS (2019) Request for Comment on Earnings Release and Quarterly Reporting; Release No. 3310588,
available at: https://www.sec.gov/comments/s7-26-18/s72618-5177735-183529.pdf

• Quarterly reporting supports fiduciary duty. CalPERS has a fiduciary obligation to administer assets prudently on behalf of beneficiaries, which requires the most timely and accurate financial information reasonably available. We believe a disclosure framework permitting large public companies to go up to nine months between full periodic reports is incompatible with that standard.

• Quarterly reporting supports proxy voting and active ownership. Most U.S. public companies hold their Annual General Meetings in the spring. Under a quarterly system, Q1 data is generally available to inform proxy voting decisions. Under a semiannual system, investors would routinely be forced to vote on director elections, executive compensation (Say-on-Pay), and critical shareholder proposals based on stale, year-end data that is five or six months old. Semiannual reporting could impair shareholder oversight.

• Quarterly reporting deters fraud and supports internal control integrity. More frequent reporting creates more frequent reconciliation cycles, auditor reviews, and opportunities for management, audit committees, and external auditors to identify errors and control deficiencies. Reducing these checkpoints risks longer periods during which fraud or earnings management goes undetected.

A longer-term focus on curbing forward quarterly earnings guidance would be more effective than reducing periodic reporting. To the extent the Commission's motivation is to encourage longer-term decision-making by issuers, the most direct and effective lever, as both CalPERS noted in its 2019 comment letter and the Council of Institutional Investors urged in its parallel submission that year, is to discourage the voluntary issuance of forward quarterly earnings guidance, not to weaken the historical reporting that investors rely on.2

Forward quarterly earnings guidance (not historical quarterly reporting) is the practice most credibly associated with managerial focus on near-term earnings targets, with the documented “meet-or-beat” dynamics that distort accruals, with deferred research and development outlays, and with end-of-quarter discounting and channel-stuffing. Historical periodic reporting tells investors what happened in the past quarter whereas forward guidance commits

management publicly to a near-term earnings outcome and shapes operating decisions accordingly.
In conclusion, CalPERS respectfully urges the Commission to withdraw the proposed amendments and to retain its existing quarterly periodic reporting framework on Form 10-Q. The case for reducing reporting frequency is not supported by the available evidence; the costs to investor protection and market liquidity are real and material; and the underlying objective of encouraging long-term corporate decision-making is more effectively pursued through measures directed at voluntary forward earnings guidance rather than at historical financial reporting.

marcy.crawford — Jun 19, 2026

Subject: S7-2026-15 From: marcy.crawford Affiliation: Jun. 19, 2026 Requiring signatures of CEOs and CFOs on quarterly reports does not prevent fraud, but it does require knowledge and accountability on the part of those ultimately responsible for accurate information. Semi-annually is not sufficient. Why require quarterly reports at all if they don't need to be complete, accurate and truthful, as certified by top management?

Those in the SEC putting forth the change from quarterly to semi-annually should have a chat with some professional asset managers. These professionals would like tighter controls, if changes are to be made, not loosening!

I hope you are getting thousands of these emails. THIS PROPOSED CHANGE SHOULD NOT HAPPEN. It helps no one and could hurt millions of investors! Do the right thing!

Margo HILL — Jun 19, 2026
Subject: S7-2026-15 Comment From: Margo HILL Affiliation: Jun. 19, 2026 It's not fair, nor should it be legal for lawyers, top investors, analysts, etc., to see what's going on inside a companies financials, P/E ratios, etc., while smaller, everyday investors get shut out 6 months at a time. A time that could potentially make all the difference in the world for mid to small time investors. This would further the ever widening chasm between the 1% and the rest of the population. Blacking out the performance of just one company or one fund could potentially bankrupt someone who has so little already, or those who rely on their dividends to live. I vote a HUGE FAT NO to the SEC blacking out any funds or stocks for 6 months.

They are not Gods, nor should they get treated as such.

Most Sincerely,

Marjorie Hill

Marguerite Portagallo — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Marguerite Portagallo Affiliation: Jun. 19, 2026 Re: File No. S7-2026-15 — Optional Semiannual Reporting

To the Securities and Exchange Commission:

I am an individual retail investor and I oppose the proposed rule that would permit public companies to replace quarterly reporting with semiannual reporting.

As a retail investor, I depend on regular and timely financial disclosures to make informed investment decisions. Quarterly reporting has long been a cornerstone of transparency in U.S. capital markets. While the proposal would make semiannual reporting optional, investors would still be faced with reduced visibility into the performance of companies that choose to report less frequently.

Large institutional investors have access to management teams, analysts, and research resources that individual investors do not. Regular quarterly reporting helps ensure that all investors receive meaningful information on a consistent schedule. Reducing the frequency of required reporting risks widening the information gap between ordinary investors and professional market participants.

I understand the argument that quarterly reporting may encourage short-term thinking. However, less transparency is not the solution. Companies can focus on long-term strategy while still providing investors with regular financial updates and accountability.

The strength of U.S. capital markets has been built on investor confidence, transparency, and disclosure. Any change that reduces the amount of information available to investors should be approached with extreme caution. In my view, the benefits of quarterly reporting outweigh the compliance burden imposed on public companies.

For these reasons, I urge the Commission to reject the proposed rule and retain quarterly reporting requirements for public companies.

Thank you for your consideration.

Marguerite Portagallo
New Jersey

Maria Cullen — Jun 19, 2026
Subject: S7-2026-15 Comments From: Maria Cullen Affiliation: Jun. 19, 2026 The reporting period must be a quarterly basis in order to keep investors informed. Since investors are stock owners they should be aware of the financial conditions in the company/corporation is in; in order to make informed decisions. The playing field must not be changed to allow companies/corporation to hide their quarterly performances. This will affect investors and the government.

Subject: S7-2026-15 Comments From: Mark Newton Affiliation: Jun. 19, 2026 Mark Newton, Nutritional Director
This is a really bad idea. Insider trading thrives on this lack of transparency. The companies on the trading indexes can afford the quarterly reports, if they can't, they shouldn't be on the indexes.

Mark Nichter — Jun 19, 2026
Subject: S7-2026-15 Comments From: Mark Nichter Affiliation: Jun. 19, 2026 The more

transparency the better. If companies want the public to invest in their operations, which of course they do, then the least they can do is keep open communications with their investors. If a company chooses to stay quiet, then it is generally perceived to mean there are problems.

Martin B. Acevedo — Jun 19, 2026
Subject: S7-2026-15 Comment From: Martin B. Acevedo Affiliation: Jun. 19, 2026 Hello,

My name is Martin Acevedo and I work as a government accountant.

This issue matters to me because maintaining transparency with the public is a vital part of efficient markets. Fewer data points makes it more difficult for everyone to participate with identical information. Without that transparency we would be selecting tomorrow's haves and have-nots today based on their proximity to information that is not public.

While I appreciate corporate concern with compliancy costs, the reality is that was the choice the company made by tapping into equity markets for financing, and compliance if the price of admission. Asking the public for financing and then crying foul when the SEC requires information that is both timely and relevant to the health of the enterprise is not only wrong, it is directly

antithetical to the spirit of efficient markets and not in the public's best interest.

I strongly advocate that the SEC does not adopt Rule S7-2026-15.

Thank you for your time.

Regards,
Martin B. Acevedo

Martin Gilliland — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Martin Gilliland Affiliation: Jun. 19, 2026 Dear SEC Leadership,

I am writing to express my opposition to the proposal of changing quarterly reporting to a semi-annual schedule.

This change does not appear to benefit the small investor or the pensioner. I urge leadership to maintain the current quarterly reporting requirements and resist unnecessary changes that could negatively impact millions of investors.

Sincerely,

Martin L. Gilliland

I'd rather regret the risk that didn't work out than the chances I didn't take at all. — Simone Biles

---

Martin Victor — Jun 19, 2026
Subject: File No. S7-2026-15 From: Martin Victor Six month reporting is a bad idea from top to bottom. It's not only bad for the investor. It's also bad for the publicly-traded companies who must maintain accurate and up-to-date financial records for competitive reasons. Longer report times open up windows for poor governance, weak due diligence and opportunities for fraud. Equity markets are not a casino floor for gambling swing traders or pump and dump scams. The integrity of the U.S. stock market must be above reproach, and longer report times do not ensure that.

Mary Beth Wenger — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Mary Beth Wenger Affiliation: Jun. 19, 2026 Dear Sir/Madame:
I learned today of the proposed changes to reporting for large companies with investors. As I am nearing retirement in the next few years, I humbly request and pray that quarterly reporting be

maintained. I am opposed to the proposed transition backwards to semi-annual reporting.

Less frequent transparency is not a financially healthy practice. The USA has already tried this lesser transparency and frequency during the 50’s to 70’s, and ordinary investors were impacted negatively. I am an ordinary investor. A tax paying, law abiding US citizen. I have served Americans as a registered nurse for many decades, and I would appreciate being able to retire with peace of mind that the SEC has my back and the back of all ordinary investors.

Please don’t take us backwards. Please don’t forget the little man and the little woman in favor of convenience and less transparency proposed for the sole benefit of the large companies.

Respectfully,

Mary Wenger, MSN, RN

Nursing Team Leader
Denver, CO

Mary Blythe — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Mary Blythe Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission: This ruling would allow for less oversight and regulation of corporations and investment companies, allowing them more flexibility to take less responsibility for investments and more opportunities to cheat the small investors. This is a solid no!

Mary Bowe — Jun 19, 2026
Subject: S7-2026-15 Comments From: Mary Bowe Affiliation: Jun. 19, 2026 Mary Bowe. Retired. My retirement finds are invested in stocks. DO NOT change reporting. Investors need to know.

If a company doesn't want to meet reporting requirements then do not go public in the market.

Mary Bruehl — Jun 19, 2026
Subject: Quarterly reporting From: Mary Bruehl Affiliation: Jun. 19, 2026 Mary S Bruehl, Esq. Norman, OK. I am 67 years old and I remember Enron. I have very good friends whose life savings were lost because of the Enron accounting scandal. Quarterly reporting is crucial to prevent that type of dishonesty and fraud from occurring again. Right now the US is seeing financial fraud becoming the norm without repercussions. The SEC should not join this trend and pave the way for ordinary Americans to be financially ruined by corrupt companies.

Mary Caldwell — Jun 19, 2026

Mary Gould — Jun 19, 2026
Subject: S7-2026-15 From: Mary Gould Affiliation: Jun. 19, 2026 Are you all going insane. There's so much corruption despite the quarterly submissions, not one person with half a brain believes these scoundrels won't cheat, lie and fight tooth and nail to keep from declaring their profits honorably. Keep those quarterly reports and hound those who don't submit them.

---

mary greene — Jun 19, 2026
Subject: S7-2026-15 From: mary greene Affiliation: Jun. 19, 2026 My name is Mary Greene I am a receptionist living in Florida. This matters to me because I lived through the ENRON scandal I saw first hand what that did to so many people. How it completely destroyed so many. I was young enough that my few lost investments were able to be recouped over the years. We are seeing again a rise in greed and corruption in business and finance at the expense of average Americans . We must do WHATEVER we can to stop this and protect the little guys.
Thank you for listening.
Mary E Greene

Mary Hamilton — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Mary Hamilton Affiliation: Jun. 19, 2026 Please do not roll back reporting requirements to 1955. Financial transparency is needed in today’s fast pace markets. Rolling back could wipe out any gains made by people planning for retirement.

Mary Hurley — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Mary Hurley Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Do not change the reporting requirements. The public is entitled to know the status of the companies using the funds to prosper.

Mary Irwin — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Mary Irwin Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:

As a derivatives lawyer and investor, I am writing in opposition to the SEC's proposal to weaken the quarterly disclosure requirements for U.S-listed public companies. It is the backbone of U.S. markets and the primary reason that investors in U.S.-listed companies are aware of the economic health and likely risks confronting those companies.
Required corporate disclosures is one of the primary market reforms that were legislated in the period following the 1929 market crash. The disclosures (and their strong enforcement by the SEC) is one of the strongest (if not THE PRIMARY) reasons that U.S. markets have been considered a trustworthy investment choice globally. The disclosures are used and aree the backbone of risk management and transparency.
So much of the strength of the U.S. economy is backstopped by the quarterly disclosure rules encompassed in Rule S7-2026-15. I am strongly opposed to any changes that would weaken those disclosure requirements and their enforcement.
Sincerely
Mary McGonagle Irwin

Mary Jane Harrington — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Mary Jane Harrington Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Americans deserve full disclosure from public institutions like the SEC. Do not think that Americans are your pawns in the world of finance. WE THE PEOPLE are watching and will continue to monitor your actions. The tide is turning and we will right this ship!

Mary Jo Glunz-Bartz — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Mary Jo Glunz-Bartz Affiliation: Jun. 19, 2026 My name is Mary Jo Glunz-Bartz, Retired Project Manager for a Major Military Health program supporting our Warriors in the San Antonio, Texas area. My sources of retirement income is the pittance I receive from Social Security and the earnings off of my investments. I need good and timely information to ensure solvency into my later years.

In my opinion, letting corporations slide to a semi-year or annual reporting period is detrimental and disastrous for investors. I believe corporations would see this as a way to obscure much information. I am all about transparency, and continuing quarterly, if not monthly reporting is in the best interest of all investors.

All corporations need to be held accountable. Lengthy required reporting periods opens the doors for opportunities to cover up failings, issues, and fraud.

We American's have had enough leniency with corporations.

Extending reporting periods will reduce the amount of information available to us investors, potentially leading to less transparency and greater volatility in financial data. This change will hinder investors' ability to make informed decisions. We would receive updates less frequently than under the current quarterly reporting system.

This proposed change is being peddled as a cost savings. I say that is not a legitimate rationale. IF.. .and I say IF corporations are keeping daily accurate records, in today's AI and Electronic world, a simple push of a button generates the report.

Continue to make corporations accountable to their investors!!

Thank you,
Mary Jo Glunz-Bartz

Mary Jo Janicik — Jun 19, 2026
Subject: S7-2026-15 Comment From: Mary Jo Janicik Affiliation: Jun. 19, 2026 My name is Mary Jo Janicik, and I'm a teacher. Reporting needs to stay quarterly. The savings for companies is

negligible, but the window for fraud is vast. Corporate America has more than enough. We need to stop the monopoly machine from taking over everything.

MaryAnn Heathfield — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: MaryAnn Heathfield Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
The U.S. Securities and Exchange Commission (SEC)'s proposed rule to cut back quarterly reporting would keep retail investors in the dark for too long.
Retail investors need clear, accurate and timely information to make informed investment decisions. Insiders and institutional investors will always have the resources and relationships to get the information they need. Without quarterly reporting, retail investors are into an unfair playing field with no way to get timely information about public companies!
Transparency is the basis of a free and fair stock market. Corporate scandals where investors lose their money are often the result of gaps in financial disclosure. Quarterly filings don't prevent fraud, but they dramatically shorten the window in which fraud can grow.

Quarterly reporting is one of the most important tools for retail investors to get information. A lot can go wrong in half a year including ballooning debt, lawsuits, or vanishing customers. Quarterly filings force downturns into the open.
Investors need the insights and details while corporations need the scrutiny of quarterly reporting!

Matt — Jun 19, 2026
Subject: S7-2026-15 From: Matt Affiliation: Jun. 19, 2026 Matt Beach here in Philadelphia, PA. Keep

the quarterly reporting. I got swindled by Worldcomm com when its stock hit the floor. Lost more than 1/3rd of my portfolio. I don't ever want to see this again.

Matt Durant — Jun 19, 2026
Subject: S7-2026-15 Comment From: Matt Durant Affiliation: Jun. 19, 2026 These quartly reports are necasssary so that small investors like me can keep up and not consinstently be undercut by inside traders. Six months reporting is to long and you risk loosing trust in out system.

Matt Durant
8 Enfield Street #1
Jamaica Plain, MA 02130

Matt Gaul — Jun 19, 2026
Subject: S7-2026-15 Comment From: Matt Gaul Affiliation: Jun. 19, 2026 This is another way to give insiders a unfair advantage over the average investor. Please do not do this.

Matt Keuler — Jun 19, 2026
Subject: S7-2026-15 From: Matt Keuler Affiliation: Jun. 19, 2026 Police the ultra-wealthy, not the impoverished.

Matt Keuler

Matt Klein — Jun 19, 2026
Subject: S7-2026-15 From: Matt Klein Affiliation: Jun. 19, 2026 For those of us who lived through Enron and other congressionally created failures, we know why certain requirements were made for reporting. Now that the smoke is back, those same types of people who caused Enson and such are crawling out of the dark to recreate the systems that made the problems. We need quarterly reporting.

Matt Luzi — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Matt Luzi Affiliation: Jun. 19, 2026 I am facing retirement in a few years. I have had to rely on my savings to get to retirement. I can't afford the valuation decline if reporting is reduced to semi-annual. Please retain quarterly reporting. Matthew Luzi, Paralegal, Buffalo, NY

Matt Maroul — Jun 19, 2026
Subject: File No. S7-2026-15 From: Matt Maroul Retail investors need more information, not less. The requirement for quarterly reporting is not hindering companies performance with markets achieving all time highs regularly.

Matt Nemeth — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Matt Nemeth Affiliation: Jun. 19, 2026 My name is Matt Nemeth, I'm a Senior Security Engineer based out of Florida. I've spent over 20 years of my life working hard, providing for my family and I have another 20 to go if I'm lucky. I've been fortunate enough to have the brains to invest in my IRA aggressively over the last nearly two decades. This is all I have. We may not get SS by the time I retire, depending on how funding goes there. I don't have a pension. This is it. A hit like this on the savings I've worked all these years for would be devastating for me, my wife, and potentially my kids. We can't afford to experiment again with semi-annual reporting!

Thank you for your time and consideration

Matthew Casadonte — Jun 19, 2026
Subject: File No. S7-2026-15 From: Matthew Casadonte To Whom It May Concern, I am writing to formally express my opposition to the regulatory changes proposed under File No. S7-2026-15. The implementation of this proposal would introduce unnecessary regulatory burdens, stifle market innovation, and inadvertently disadvantage individual participants. Rather than achieving its intended goals, the rule as drafted creates operational inefficiencies and lacks the clear, data-driven justification required for such an impactful shift. I strongly urge the Commission to reject this proposal and reconsider its approach to ensure a more balanced, efficient, and equitable framework. Thank you for your time and consideration of my comments.

---

matthew s — Jun 19, 2026
Subject: S7-2026-15 From: matthew s Affiliation: Jun. 19, 2026 I strongly would urge that the SEC to not change the existing regulation. But I know you will cave to the dictator so I guess it doesn't matter what we the people say. It would be nice if you did the right thing.

Megan J — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Megan J Affiliation: Jun. 19, 2026 Reporting more often allows for more targeted and efficient change to keep growth moving in the right direction. In education, if I only gave feedback at midterm and term mt students wouldn't know where they stood until it was too late, or too hard to make changes. The work to correct course would be overwhelming and lead to burnout and hopelessness.
By reporting quarterly, its easier to adapt to trends and spot patterns that allow for adjustment to keep things movong forward. Keep American finances strong and continue with quarterly reporting.

Megan Roemer — Jun 19, 2026

Melissa Knight-Howe — Jun 19, 2026
Subject: S7-2026-15 Comment From: Melissa Knight-Howe Affiliation: Jun. 19, 2026 It matters because the public interest is transparency ,& accountability for business investors to see trouble before the creation of ponzi schemes, and, or being lied to about their investments. The Speculative Casino environment is creating the "bubble issues" & the economy crashes.
The Securities & Exchange Commission is about stopping fraud, not promoting it. If businesses aren't transparent in their book keeping, it affects a lot of things. Hiding anything is a bad idea, especially when dealing with social & governance institutions that must have the trust of the public. No transparency, no accountability, no repercussions for unethical business practices, opens doors to criminal behaviour in the financial/ business sectors of any society. We have been witness to this for centuries. Narrowing the window is an extremely detrimental direction to go in.

Melissa Lanchantin — Jun 19, 2026
Subject: S7-2026-15 Comments From: Melissa Lanchantin Affiliation: Jun. 19, 2026 Transparency is critical -especially for small investors the rules need to be the same for the large institutional investors / What’s the point in participating if I can’t make informed decisions.

Melissa Williams — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Melissa Williams Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
What's your goal with this proposed rule change? This will make it riskier for retail investors to participate in the market. Why do you want to increase that risk? Especially when you've increased the exposure of retail investors to enhanced market risk with the SpaceX IPO -- loosening the rules

for investors on this company that has yet to turn a profit--what is your end goal?

Your mission is to protect investors; maintain fair, orderly, and efficient markets; and facilitate capital formation. Your proposed change violates that mission. The change would protect companies over investors; skew market information and facilitate fraud; and will put middle and lower income Americans' retirement investments at risk--making the majority of Americans poorer will not help the American economy. You see that, don't you?

Melody LaPier — Jun 19, 2026
Subject: S7-2026-15 Comment From: Melody LaPier Affiliation: Jun. 19, 2026 No. There's more than enough secrecy already. We should be working to make everything transparent, not adding more reasons for the people not to trust govt, corporations, and wall Street.

Melody Lindsey — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Melody Lindsey Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Even though I have a financial advisor, I still pay close attention to my investments. Please refrain from changing the quarterly reports as they provide a window into how my investments are determined. Less information will sorely affect my portfolio. Thank you for your consideration.

Melody Sanders — Jun 19, 2026
Subject: S7-2026-15 Comments From: Melody Sanders Affiliation: Jun. 19, 2026 Who do you support? What are your ethics? Reporting is easy because of our software advancements so not reporting is ridiculous and sketchy. You must protect people.

Mendo4Pete — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Mendo4Pete Affiliation: Jun. 19, 2026 There’s a reason reporting was changed to quarterly, and there is no rational reason to change it now. I’m a retired RN who practiced and saved for fifty years. My husband is still working full-time because he cannot afford to retire under the instability of the current administration. Transparency matters. Accountability matters. We owe our children a legacy we can be proud of. Please leave reporting requirements as they are.

Michael Hepfer — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Michael Hepfer Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I am a retail investor that is reliant on quarterly reports to make informed decisions for investing. Even investment advisors who are fiduciaries are reliant on this information to fulfill their obligation.

Changing this rule will create more distrust and less transparency into the companies that my investments lie within. I am against this change and advocate for more transparency and accountability.

thank you for your consideration.

Michael Hoffman — Jun 19, 2026
Subject: File No. S7-2026-15 From: Michael Hoffman Quarterly reporting protects individual investors. The short-termism diagnosis doesn't justify this remedy. Research from the CFA Institute, which studied this exact maneuver in the U.K. market, shows that reporting frequency has no measurable effect on corporate investment behavior. The companies most likely to opt out are the ones where oversight matters most. I am the beneficial owner of these businesses. They should continue to report to me quarterly.

Michael Horace — Jun 19, 2026
Subject: S7-2026-15 Comments From: Michael Horace Affiliation: Jun. 19, 2026 I'm retired from quality strategy and planning and my retirement income depends on having good financial information. If this goes through data and results will be half a year old and way out of date. This can be a recipe for disaster if something starts going awry. Michael H.

Michael Kane — Jun 19, 2026
Subject: S7-2026-15 Comments From: Michael Kane Affiliation: Jun. 19, 2026 Quarterly reports are

helpful in that dividends are distributed and for those who are dependent on SS alone these are crucial income. Professional investment has advantage enough over the general public. Twice a year disclosure may save money for the corporate interests, but keep Charlie Citizen in limbo. Don't change what ain't broken.
MD Kane

Michael Kline — Jun 19, 2026
Subject: S7-2026-15 From: Michael Kline Affiliation: Jun. 19, 2026 We need to hold companies accountable, and that starts at the top. There are no reasons to cut the reporting signatures in half. That means double the time for any obfuscation, double the time to hids things, and less time and opportunity for the public to make informed decisions regarding their money. I strongly urge the SEC to not cut this in half.

Michele Cardona — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Michele Cardona Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Quarterly disclosures are necessary and in my opinion there is only one reason you are considering changing it - to allow the big companies to manipulate the stock market to make more money for them and to rob the little people blind. Anyone investing in a company has the right to be kept informed- quarterly statements make it harder for companies to steal from investors and send a message- you are not above the law! Currently I don't have any trust in the government and now am starting to think the SEC may not be looking oot for investors but instead big businesses!

Michele Dudley — Jun 19, 2026

Keep quarterly reports to keep the market fair.

Michele Holloman — Jun 19, 2026
Subject: S7-2026-15 Comment From: Michele Holloman Affiliation: Jun. 19, 2026 It is important that companies due this every 3 months. All this does is gives them more time to hide things . And lie about their earnings.
In turn giving the administration time to lie about GDP and other earnings for the country.

Michele Inman — Jun 19, 2026
Subject: S7-2026-15 From: Michele Inman Affiliation: Jun. 19, 2026 My name is Michele Inman. I'm an executive secretary to the board of directors of a local nonprofit. I live in California. I watched as many people lost their earned retirement savings due to corporate greed and negligence.
The SEC is not doing their job if they allow the 2002 1/4erly signing of reports by CEO's acknowledging their ownership of the trust the employees of their companies place in them to make decisions in the best interests of their shareholders, workers and employees.
If the SEC allows this mandated quarterly reporting rule to lapse then the head of the SEC should be held liable and responsible for any violations, misconduct or loss suffered by the people who placed their trust in the oversight of the SEC.

Michelle — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Michelle Affiliation: Jun. 19, 2026 My name is Michelle Foster and I'm an inactive CPA holder in the accounting professional. I've worked in the accounting department of three public companies as well as private companies. I strongly believe investors are due transparency from the company they're investing in, and we should retain our quarterly reporting. I understand the wild ramifications that quarterly reporting can have on stock price, and how difficult it can be for businesses to have to release guidance quarterly, and then consistently meet it quarterly but moving to less frequent reporting is not in the best interest of investors, it's only in the interest of executives. Sacramento, California

Thank you
Michelle

Michelle Barnett SVP Of Economic and Workforce Development, Tulsa Authority for Economic Opportunity — Jun 19, 2026
Subject: File No. S7-2026-15 From: Michelle Barnett Re: File No. S7-2026-15, Semiannual Reporting I respectfully oppose the SEC's proposed rule allowing public companies to replace quarterly reporting with semiannual reporting. Quarterly reports serve a critical transparency function not only for investors and market participants but also communities and EDOs. They provide timely insight into a company's financial condition, operational performance, risks, and strategic direction. For many stakeholders outside the investment community, especially rural communities, quarterly filings are the most reliable and consistent source of information regarding management's outlook, planned capital investments, workforce trends, expansion strategies, and emerging risks. Communities and economic development organizations rarely have direct access to corporate leadership, making these disclosures an essential source of market intelligence. While the proposal seeks to reduce compliance burdens, the costs of diminished transparency outweigh the benefits. Investors make significant decisions based on quarterly results and management discussions, and delaying this information by an additional three months could impair price discovery, reduce investor confidence, and increase market volatility when material information is eventually disclosed. The proposal would also have consequences beyond the investment community. Economic development organizations, regional planning agencies, workforce partners, and local governments rely on quarterly disclosures to understand corporate expansion plans, capital investment strategies, workforce trends, and emerging business risks. This information helps communities prepare for economic downturns, align infrastructure and workforce investments with market realities, and identify opportunities for business recruitment and expansion. From the perspective of economic development practitioners, reducing reporting frequency would diminish one of the few publicly accessible tools available to anticipate economic shifts and make informed decisions that affect local economies and employment. Quarterly reporting has long provided an important and predictable benchmark for assessing corporate health and future direction. Maintaining this reporting cadence supports informed investment decisions, market efficiency, and effective economic development planning. For these reasons, I urge the Commission to retain mandatory quarterly reporting requirements. Thank you for your consideration. Michelle Barnett Tulsa, Oklahoma

Michelle Reed — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Michelle Reed Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission: please don't remove quarterly reports- we need more than ever to trust corporations... not just for the ones winning but for us little guys out here trying to retire! Do what's best for all.

Michelle Reers — Jun 19, 2026
Subject: S7-2026-15 From: Michelle Reers Affiliation: Jun. 19, 2026 At this point in U.S. history, we the people have once again come to the point where we MUST stand together against those who would see us fail as a nation. A nation of the people, for the people, by the people. NOT SOME of the people, but all of the people. Not just people with money, but the well-to-do and impoverished alike. Actions like this one that the SEC is trying to impose upon us as a greater nation, are NOT

acceptable! This type of tactics robs us of more than just the knowledge of reality, it garners a situation that emboldens one group to dictate to all others, what they feel is fair and equitable. That their complete control over major finance is, somehow, okay, or worse yet, good for everyone. That is a fallacy. These maneuvers are only good for the elite. The obvious and horrific money grab is NOT good for our nation, for WE THE PEOPLE. All citizens should be governed by the same rules civilly and financially. A two tiered system of haves and have-nots is a form of oppression. We, the people, demand transparency. We do not condone this unethical wealth grab. Knowledge is power and we refuse to give up our power without a fight. Shame on you for on you! This is our country. We will fight to the end to keep it free and equal. If you support this coup by the financial elites, you are on the wrong side of history.

Michelle Rollings — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Michelle Rollings Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Transparency with our investing and maximum regulation should remain in place.

Michelle Tarver — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Michelle Tarver Affiliation: Jun. 19, 2026 please stop catering to shifty wealth class. protect the majority from predators. quarterly reporting is the minimum standard, an even at quarterly repirting insiders have a huge advantage over the majority of investors. windfall corporate profits at the expense of small investors is not sustainable.

---

michelle willson — Jun 19, 2026
Subject: Comment on S7-2026-15 From: michelle willson Affiliation: Jun. 19, 2026 Michelle Willson, musician, radio host and production manager at small independent radio station in Worcester, MA. Since I work at a non-profit organization, I don't earn much. I've worked so hard, for so long, to save enough money to buy a house and to actually have a small amount of money saved. This disastrous decision could take all that away and lead me straight back to scrambling to pay bills, as well as wipe out anything I've saved. I'm well past retirement age, but am ok w/ working full time at the station, as well as part time as a musician. What is not ok is the nightmare idea of going back to poverty, unable to afford to live even the most frugal and modest lifestyle. Please do not do this. Thank you.

Sent from my Galaxy

Michelle wood — Jun 19, 2026
Subject: S7-2026-15 From: Michelle wood Affiliation: Jun. 19, 2026 All reporting should be completed quarterly so investors have the information necessary to make good decisions. This proposal is unwise and intended to hide incompetence and critical market information from investors. We need more not less transparency. Delayed or reduced reporting serves no purpose other than to hide pertinent information from investors.

Mike Carroccio — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Mike Carroccio Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission: I've been invested in the stock market for over 40 years and use thequarterly reports to make my investment decions.

Don't stop quarterly reporting.

Mike Chynoweth — Jun 19, 2026
Subject: S7-2026-15 Comment From: Mike Chynoweth Affiliation: Jun. 19, 2026 I am writing to express my concern regarding the proposed SEC change to reporting requirements.

At a time when public trust in institutions and corporations is already strained, this country needs more transparency, not less. Investors, employees, customers, and the broader public depend on clear and timely reporting in order to understand the risks, practices, and financial realities of the companies that shape our economy.

History has repeatedly shown that giving companies the benefit of the doubt — or relying too heavily on voluntary self-regulation — does not reliably protect the public interest. While many companies act responsibly, the reporting rules must be designed for the moments when they do not. Strong disclosure requirements create accountability, discourage misconduct, and help ensure that markets

function fairly.

Reducing or weakening reporting obligations would move us in the wrong direction. It would make it harder for investors and the public to evaluate corporate behavior, and it would place too much trust in companies to disclose difficult or unfavorable information on their own. Transparency should not be treated as a burden; it is a necessary condition for healthy markets and democratic accountability.

I urge the SEC to preserve and strengthen reporting requirements rather than reduce them. The public deserves access to meaningful information, and companies that benefit from public markets should be held to clear standards of disclosure and accountability.

Sincerely,
Michael J. Chynoweth
Senior Director of Software Engineering, Solera Health

Mike Delaney — Jun 19, 2026
Subject: S7-2026-15 From: Mike Delaney Affiliation: Jun. 19, 2026 There's no reason to change. Why are CEOs afraid of being held accountable like all the rest of us. Their responsibilites require a high level of accountability and oversight.

Mike Fisher — Jun 19, 2026

I am newly widowed and concerned how this will affect retirees as well as those in the job force who pay in to their retirement plans. It's been proven before from 1955 to 1970 people lost up to half of their savings to live off of. Please don't repeat the same mistakes but learn from them…

Mitch Davidson — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Mitch Davidson Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Keep CAT. Fix its flaws, improve its safeguards, reduce unnecessary costs if needed, but do not eliminate one of the most important tools regulators have for monitoring U.S. markets.

Mitchell McDonald — Jun 19, 2026
Subject: S7-2026-15 Comment From: Mitchell McDonald Affiliation: Jun. 19, 2026 Mitch McDonald Owner of Dexter Sinister Entertainment LLC

There is NO upside to reduced oversight. There may be financial gains for the company, but they are absolutely drowned by the harm of not being able to track a company's gains and losses. As a small business that invests in the market, I lack the insider access to know what businesses are currently being built to fail or are being busted out by our president and his ilk. Adding an additional 3 months without financial reporting leaves all investors, but particularly the general public, open to all manner of criminal abuses.

The public relies on federal oversight to maintain balance and health in a wide variety of corporate endeavors. If there is a change in that watchful eye, it should be to INCREASE vigilance.

Monica B — Jun 19, 2026
Subject: S7-2026-15 Comment From: Monica B Affiliation: Jun. 19, 2026 As a CPA who worked in SEC reporting there is zero reason results could not be reported quarterly. With the help of AI that process is even easier, we could be moving towards monthly reporting with AI versus slowing things down despite the full ability to do quarterly or more. If a company can't afford the proper staff to do quarterly reports they probably shouldn't be publicly traded. The public is not a bank of free money for companies, there's standards companies should be held to raise capital in public markets. Otherwise they should take out. I doubt issuers of debt will accept semi annual reports so why is there less protection for the general public.

Overall this leaves the general public blind to significant changes in a companies business. It also makes it difficult to track trends.

Enough already. We will not allow you and your cronies manipulate your way into creating more wealth off the backs of others. Seriously. Worry. Stop.

Monica Trujillo retired institutional investor — Jun 19, 2026
Subject: File No. S7-2026-15 From: Monica Trujillo As a former investment officer for an institutional investor of public monies, credit union supervisory committee member and a private investor, I am in favor of preserving quarterly reporting requirements. The transparency and disclosure of quarterly reporting is essential in exercising prudence and fiduciary responsibility for every investment manager and individual investor. The economy and a business's outlook can change rapidly and in uncertain environments knowledge is power and can calm investor fears. On the flip side, it keeps investors from taking on higher risk than their portfolio and investment goals allow for. Quarterly reporting allows investors to be more responsive to changes when they need to be, ride out uncertainty when it makes sense, and overall exercise better decision making in line with fiduciary responsibility. Less frequent reporting builds distrust, fear, and/or reluctance into the market and could make it extremely difficult for some businesses to raise capital. Investment is a global business, it makes no sense to change a requirement that would only disrupt the global market and make investors worse off.

N Lindauer — Jun 19, 2026
Subject: S7-2026-15 From: N Lindauer Affiliation: Jun. 19, 2026 I remember Enron.

Keep CEOs accountable! Their decisions and actions affect too many lives and businesses in the communities they are employed in. That signature helps to make them understand that, and should make them understand that they are also an EMPLOYEE who has been hired to be responsible for every other employee of the company, and the decisions that make that company a viable part of their communities and the US economy. That's why CEO salaries are so astronomical, and so much higher than every other employee's salary. If you take the signature away, make sure the astronomical salaries go away with it.

Nany Lindauer

N PW — Jun 19, 2026
Subject: S7-2026-15 Comment From: N PW Affiliation: Jun. 19, 2026 This proposed change definitely games the system to the advantage of insider trading and institutional investors. Everyone will not have access to the same information to make decisions. This treatment of some investors as better than others has got to be reversed because it robs the investors who are not given the same information and access. This would increase fraud exponentially.

Absolutely against this SEC proposal, and those in the C suite should absolutely be responsible for what's in the report and affirm so by signing it.
Where has the SEC gone in defending the equanimity of investors in the market? The creep of selling out the average investor can no longer be ignored.

Nadia Edwards — Jun 19, 2026

This is absolutely the worst possible idea you could have ever had. If you do this it's inviting corruption to reign and no one's investments will be safe

---

Nadine — Jun 19, 2026
Subject: S7-2026-15 Comments From: Nadine Affiliation: Jun. 19, 2026 Nadine Weisbrod, office manager and auto part sales.

I've seen others gain wealth with insider trading, and other lose their car fully planned funds due to lack of insight on what CEOs and board members are deciding - causing devaluation of their stocks. I've personally lost 3/4 of the value of my assets ina company because they made closed room decisions with rapid fire results. The ramifications to the stock valuation were significant and within 3 months of their decisions - when I could assess the determinations and decisions by the board which caused the drastic losses, and had devastating effects on my portfolio, I had already lost great opportunity to communicate my cincerns.

If quarterly reporting is extended to 6 months - Americans can lose their wealth while insiders take advantage of their knowledge and insights without a care of the impact this has on the average citizen.

America was founded in the idea that individuals have the right to prosperity and the pursuit of happiness that comes with financial stability and security. Changing the policy of quarterly reporting will essentially create a double standard for investors. It will accelerate the changeing shape of our economy, and further erode the middle class.

I'm already so disappointed and disenfranchised by political and economic decisions by those in leadership in America. And I consider myself a true supported o capitalism, who sees a need to stand in the gap against Corporate takeovers of Congress and what used to be the American Dream.

With respect and deep concern,

Nadine Weisbrod

Nan Diekow — Jun 19, 2026
Subject: S7-2026-15 Comment From: Nan Diekow Affiliation: Jun. 19, 2026 Keep at four, now more than ever!!!

Nan Ellman — Jun 19, 2026
Subject: S7-2026-15 Comments From: Nan Ellman Affiliation: Jun. 19, 2026 There is absolutely no reason to allow *publicly trade* companies to hide their financial data from investors. Allowing them to wait 6 months only encourages insider trading and harms ordinary investors. As a retiree soon to depend on my investment accounts I shouldn't have to worry about insiders playing games with my life savings.

Nancy Ellman,
Guilford CT

Nan Herson — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Nan Herson Affiliation: Jun. 19, 2026 LEAVE IT ALONE! MORE reporting NOT less FFS! Quarterly reporting is the MINIMUM acceptable. Stop "fixing" things that aren't broken!

Nana Easter — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Nana Easter Affiliation: Jun. 19, 2026 Not acceptable. The gateway to a lack of transparency is another link in the covert practice, in the face of the American People, of the current admi istration.

Nancy Ann Basile Mary Lou Jarzyna — Jun 19, 2026
Subject: S7-2026-15 Comment From: Nancy Ann Basile Mary Lou Jarzyna Affiliation: Jun. 19, 2026 These companies must report quarterly! I worked hard all my life and depend on my retirement investments for living expenses. Investors must have access to quarterly analyses. Too much can go wrong in six months.

Nancy Basile

Nancy Bishop — Jun 19, 2026
Subject: S7-2026-15 Comments From: Nancy Bishop Affiliation: Jun. 19, 2026 The move to require companies to report financial data twice a year instead of quarterly puts the public at a disadvantage. Even though it's proposed as optional, you know that most companies will choose to save a little money by minimizing their reporting to shareholders. That will benefit insiders but not the general public and shareholders with smaller holdings. Less information, less often? This proposed rule sounds like a bad idea.

Thank you for seeking public comments.

Nancy S Bishop

Nancy Coffield — Jun 19, 2026
Subject: S7-2026-15 Comment From: Nancy Coffield Affiliation: Jun. 19, 2026 The SEC keeps citing the "global standard," but that standard isn't doing well in the places it was tried. The EU's lighter regime is where Wirecard's €1.9 billion fraud hid in plain sight for years before the company collapsed in 2020. The UK's 2014 shift stripped analyst coverage from mid-cap stocks, and London has been bleeding IPOs ever since. Singapore moved to semiannual reporting in 2020 and is now reconsidering, because trading volumes fell and disclosure quality dropped. The "global standard" the SEC is invoking isn't standard, isn't working, and is being walked back where it was tried. Nancy Coffield, Home Health caregiver who relies on these reports so a company I invest in doesn't disappear which happened to me and I lost a lot of money. I'm 79 yrs. old and depend on timely reports to make financial decisions based on these reports. I am not big business, not a wall street insider but those people will still have access to the information you want to keep from me.

Nancy Coons — Jun 19, 2026
Subject: S7-2026-15 Comments From: Nancy Coons Affiliation: Jun. 19, 2026 Changing the quarterly reporting to bi-annually is too long for companies to be unaccountable to stock holders and investors! Do not make this mistake!

Nancy Fry — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Nancy Fry Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Quarterly reports have been the backbone of market transparency for decades. They give investors timely, standardized information so everyone — not just big institutions — can make informed decisions. If the SEC reduces reporting requirements, it doesn’t help small investors. It actually makes it harder for them to spot problems early, compare companies fairly, or react to changes. Less transparency usually benefits insiders, not the public. Please do not make this change. Thank you.

Nancy Glines — Jun 19, 2026
Subject: S7-2026-15 From: Nancy Glines Affiliation: Jun. 19, 2026 Yes keep and save quarterly reporting with signatures

Nancy Laskero — Jun 19, 2026
Subject: Comments on S7-2026-15: Keep SIGNED quarterly reports From: Nancy Laskero Affiliation: Jun. 19, 2026 Keep SIGNED quarterly reports

SIGNED quarterly reports are the minimum protection. There are too many decisions that CEOs and CFOs make that raise their stock prices to pad their stock option haul while they ignore long-term health of the company. Company execs have blind-sided their employees and stock holders to line their own pockets. The rules for insider trading by execs need to be tightened also.
EXAMPLES: Exec exercises stock option, makes a major announcement, then sells the stock.
Company sells assets to another company owned by the CEO. Should BOTH be illegal.
-Retired from Sears-

nannette faile — Jun 19, 2026
Subject: S7-2026-15 From: nannette faile Affiliation: Jun. 19, 2026 I can't imagine the amount of time it takes a CEO to sign and affirm a quarterly report, especially since such a signature serves to assure the financial protection of investors. Such a reversal in policy looks very shady, in my opinion, and I strongly support the measure remaining in place as is.

Sent from my iPad

Naomi N — Jun 19, 2026
Subject: S7-2026-15 Comment From: Naomi N Affiliation: Jun. 19, 2026 This is the first time I'm hearing about the changes in SEC reporting. I'm not in business. I don't watch Wall Street. So it's already distant enough for me to follow at all but to hear that the transparency into corporations is lessening even more is so alarming to me. I can only imagine what this means to people for whom it's immediately important and sure as the night follows the day I'll be affected by this too. Corporate responsibility to non-wealth holders like myself is diminishing rapidly and it's really frightening. Keep the requirement that they report quarterly.

Naomi Roberts Widow on fixed income — Jun 19, 2026
Subject: File No. S7-2026-15 From: Naomi Roberts I am a widow on a fixed income of Social Security and what little I do draw from my retirement account. In the face of the current economy I

am already scraping to get by and having to do without certain things. Please don't do this to us. Social Security absolutely does not cover my needs and I am dependent upon my retirement account to fill in what Social Security doesn't cover. I have a right to know on a quarterly basis what's going on with my accounts so that if I need to make adjustments I have the opportunity to do so.

Natalie Bennett — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Natalie Bennett Affiliation: Jun. 19, 2026 Keep it Quarterly! I need to be in control of my money. No secrets, this is the United States. My family worked hard to have this choice to invest and we need to know the complete information to make the best informed decisions.

Natalie Bullock Brown — Jun 19, 2026
Subject: S7-2026-15 Comments From: Natalie Bullock Brown Affiliation: Jun. 19, 2026 In this current landscape, transparency is more important than ever. Bi-annual filings will only benefit insiders, and further exacerbate the widening gap between the average investor, and those with consistent access to trade information that creates an unfair advantage. We should all be able to benefit from the financial markets - not just a favored few. Be fair and stop this nonsense.

Sent from my iPhone

Taking information away from investors is never a good idea! If these corporations rely on public markets and retail investors, they should also be required to address these markets and investors on a quartlery basis.

Nicole Dummitt — Jun 19, 2026
Subject: S7-2026-15 Comment From: Nicole Dummitt Affiliation: Jun. 19, 2026 I am opposed to changing SEC reporting. Quarterly reporting should remain.

Nicole Maust — Jun 19, 2026
Subject: S7-2026-15 Comments From: Nicole Maust Affiliation: Jun. 19, 2026 Knowing companies still need to maintain their books and track their performance, this change delivers nominal efficiencies for companies while adding significant risk to middle class Americans who lose visibility to changes in performance and confidence that risks and fraud will be identified and made public in a timely manner.

I work for a very large public American company and know for a fact that we will still be tracking weekly volume, holding quarterly business reviews, and tracking key initiatives, so this is more about reducing shareholder transparency and consumer protection than truly delivering meaningful benefits to publicly traded companies. Please don't put us back into a 2008 situation or enable more executives to quietly exit risky situations while regular Americans like me can risk losing our homes, retirement savings or kids' college funds.

Nicole Maust

Nicole McDermott — Jun 19, 2026
Subject: S7-2026-15 Comment From: Nicole McDermott Affiliation: Jun. 19, 2026 Quarterly reporting provides fundamental information to shareholders and potential investors. Allowing six months allows companies to hide key indicators, making all investments inherently more risky.

We need more information. Not less. Please don't change this rule.

Thank you,

Nicole McDermott, MPH

Subject: S7-2026-15 Comments From: Nik B. Affiliation: Jun. 19, 2026 Keep it the way it is, it's not broken, so stop trying to fix it. Getting rid of quarterly reports, just makes it easier for companies to do shady stuff, this is the age of transparency, that would be a step back from progress.

Niki Zabroski — Jun 19, 2026
Subject: S7-2026-15 From: Niki Zabroski Affiliation: Jun. 19, 2026 Nichole Johnson-Zabroski
Global Systems Analyst & Administrator
Nashville, TN

I shouldn't have to explain why accountability is important. This is something you should have been taught as a child and by trying to bypass this it looks as though you are being influenced by external entities. Do we need to request that the DoJ or FBI do an investigation of the SEC? This is very troubling behavior.

Requiring quarterly reporting with the CEO personally signing off is a basic requirement. If they sign a document that they know is false, then they need to know that jail is in the line. Apparently, the American people are on the hook financially if they are unable to do their job, so requiring them to take responsibility and tell the truth is only fair.

Nina — Jun 19, 2026
Subject: S7-2026-15 From: Nina Affiliation: Jun. 19, 2026 I lost $500,000 in the dotcom recession and $100,000 during the banking crisis and never recovered. It helped to destroy me financially. So you greedy a$$ bastards are going to do it again? My father died penniless as a retired banker who worked for Carl Lindner "Provident Bank". He had over a million in National City stock and was wiped out. Giving less accountability will make more Americans suffer but since you are sucking his you know what I guess your conscience is okay with it.

Nina Hamm — Jun 19, 2026
Subject: S7-2026-15 Comments From: Nina Hamm Affiliation: Jun. 19, 2026 Quarterly reporting is just another way of keeping low and middle class families from being able to stop from being ripped off by the elite. Let’s be honest here. The elite 2% across the world makes their money off the backs of the hard working people all across the world by scamming the poor into investing their money in their schemes they lay out in in front of them promising big returns only for the elite to have set it up in a way where they own the majority of stocks shares and other like investments . That they then sell after they trick the poor in middle class into propping up the inflated prices with their money bringing down the prices after they make trillions in profits flooding the market with worthless holdings.

Odile dilone — Jun 19, 2026
Subject: S7-2026-15 Comments From: Odile dilone Affiliation: Jun. 19, 2026 As a retail investor, I oppose reducing financial reporting from quarterly to semiannual. Large institutions have access to research, management meetings, and resources that smaller investors do not. Quarterly reporting is one of the few tools that helps level the playing field. Three months is already a long time to wait for meaningful financial updates; six months is too long. Transparency is essential for fair and efficient markets. Reducing disclosure would be unfair to everyday investors and would weaken public trust in our markets.

Subject: S7-2026-15 Comment From: P Miller Affiliation: Jun. 19, 2026 As an investor, I believe quarterly reporting is imperative. ~ Pat Miller, Ridge, NY

P R — Jun 19, 2026
Subject: Comment on S7-2026-15 From: P R Affiliation: Jun. 19, 2026 I am retired and rely upon investments that I have made over the past 40 years to meet my income needs. I, like every investor, deserve transparency and current information to support our investment decisions. A return to semi-annual reporting will decrease access to timely information transparency. In addition, history has demonstrated that semi-annual reporting does not support investment growth in this country. Nations with more frequent reporting requirements have higher investment growth. The current US reporting requirements are working, are not unduly burdensome, and should be retained. I oppose the proposed change to semi-annual reporting.

PAIGE HARRISON — Jun 19, 2026
Subject: S7-2026-15 Comment From: PAIGE HARRISON Affiliation: Jun. 19, 2026 The only ones who benefit from a change in quarterly reporting are cheaters, crooks, liars and owners of corporations. Please continue to look after smaller investors who are more vulnerable to complete devastation.

Pam — Jun 19, 2026
Subject: S7-2026-15 Comments From: Pam Affiliation: Jun. 19, 2026 Please keep the requirements for quarterly reporting. As an investor, I should have the right to regular and timely information about how the companies I own are performing. I depend on that information to make decisions about my portfolio. Leaving companies with the option to offer more information - well, you can see how that will work. Companies whose performance would flag them for concern would opt not to provide it. Please continue the longstanding, working well policy of quarterly reporting. Sincerely,
Pam Bentson, retired educator

Pam — Jun 19, 2026
Subject: S7-2026-15 Comments From: Pam Affiliation: Jun. 19, 2026 Government lies and thieves and kills keep this thing quarterly. We the people don't trust anything anymore. It ought to be monthly so we will not accept anything less than quarterly. Leave it alone.

Pam Bowman — Jun 19, 2026
Subject: S7-2026-15 From: Pam Bowman Affiliation: Jun. 19, 2026 Quarterly financial reporting including leadership signatures must be continued as a deterrent to fraud and to keep stockholders aware of financial problems arising in the entity. The only ones who benefit from the proposed changes are the entities' leaders and those who have insider information. These two tools are NEEDED to keep corporations and their leaders honest and accountable. This proposal encourages increased fraud, decreases corporate leaders' chances of being held legally responsible up to and including prison, and increases profits for the insider rich including many politicians. I am ashamed of the SEC for even proposing these actions. THE LOSERS IF THIS PROPOSAL IS ENACTED ARE THE AVERAGE EVERYDAY AMERICAN CITIZENS AND WE ALL KNOW IT. Bring back the HONORABLE SEC that existed to protect us all from fraud primarily perpetrated by those with zero ethics or morals who can never be rich enough. WE SEE YOU.

Patricia Essex Retired Professor of Accounting and Information Systems — Jun 19, 2026
Subject: File No. S7-2026-15 From: Patricia Essex Your proposal to eliminate quarterly reports in favor of semi-annual reports removes important data points for individual investors like myself. I manage the stock portfolio that my husband and I depend upon for our retirement. The tools and methods I most often utilize, being a believer in fundamentals, depends on seeing more data, not less. Further, quarterly reports ensure more frequent review to ensure companies are in compliance with SEC regulations and potentially to detect fraud. That is an important safeguard, which surely underlies your organization's goals. Please do not take us backwards in terms of corporate reporting.

Patricia Garza — Jun 19, 2026
Subject: S7-2026-15 Comment From: Patricia Garza Affiliation: Jun. 19, 2026 Patricia, Environmental Specialist. Keep it Quarterly. It is better for all of us to help us decide on short term moves.

Patricia Gorman — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Patricia Gorman Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Transparency is a requirement and the proposed rule will be placing a blindfold on investors. That is not acceptable, period.

Patricia Grant — Jun 19, 2026
Subject: S7-2026-15 From: Patricia Grant Affiliation: Jun. 19, 2026 I lost my inheritance believing that Enron was so big that it would never collapse. If the CEO, who makes obscene amounts of money, cannot be bothered to certify the truth of the reporting, then something stinks.
Patricia Grant

Patricia Johnson — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Patricia Johnson Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
How do I know what is going on in a company if they don't have to report what is going on in the company!? As a beginning investor I need to know if earning are up or down. I don't have people I can pay to tell me and investigate! How can a normal person make decisions without the information they usually report? Let the normal person have what we need to make the decisions necessary! Don't keep the rich richer and the poor poorer!

Patricia Journeay — Jun 19, 2026
Subject: S7-2026-15 Comment From: Patricia Journeay Affiliation: Jun. 19, 2026 I think it is important to keep the rule as it is. What is to be gained by reporting less often? Nothing that I can find. As a CFA and a former CPA, regular reporting four times in 12 months is useful for investors of every level of sophistication.

Patricia D Journeay, CFA

Goodness is stronger than evil; Love is stronger than hate; Light is stronger than darkness; Truth is stronger than lies.

Yahoo Mail: Search, Organize, Conquer

Patricia Reynolds — Jun 19, 2026
Subject: S7-2026-15 Comment From: Patricia Reynolds Affiliation: Jun. 19, 2026 Patricia Reynolds, Safety and Emergency Mgr. Quarterly reporting keeps every invester or potential investor informed of the financial state of the companies they have invested in. This keeps everyone accountable for their actions and financial decisions. To only allow insiders access to company profiles promotes trading and financial management in potentially unlawful circumstances and takes the inherent value of publicly trading stocks away from the stockholders at large. Every person investing their money in a company deserves transparency to make the best decisions on their behalf. Do not allow 6 month reporting. Their is no advantage to the greater investment group.

Patricia Reynolds — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Patricia Reynolds Affiliation: Jun. 19, 2026 Tbecause the SEC needs to be Open and TRANSPARENT . IF NOT THEN THEY OPEN THEMSELVES UP FORCORRUPTION AND GOD KNOWS WHAT OTHER EVIL, AND LORD KNOWS THE SEC WOULDNT WANT THAT TO HAPPEN NOW WOULD THEY??

Patricia Slice — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Patricia Slice Affiliation: Jun. 19, 2026 Do not decrease the number of reporting periods. We are small investors and we are in our 80s. So the losses would be serious for us.
Patricia Slice
retired
Lakeville, MN

Patricia Stanton — Jun 19, 2026
Subject: S7-2026-15 Comments From: Patricia Stanton Affiliation: Jun. 19, 2026 If a system isn't broke, why fix it? Quarterly reports have been required for some time and it helps the average investor, the little person, the person that this agency is suppose to protect. Instead, it could lead to fraud and abuse from the larger corporations. Other countries have tried it and are planning to return to more frequent reporting. Any savings would be minimal for the companies. Making it optional only means that that companies will most likely opt to do less.

Patricia Stein — Jun 19, 2026
Subject: S7-2026-15 From: Patricia Stein Affiliation: Jun. 19, 2026 I want my statements quarterly. Patricia Stein, retired NYS teacher’s association. I depend on my pension to live on.

Patricia Sup — Jun 19, 2026

Paul Durand — Jun 19, 2026
Subject: S7-2026-15 From: Paul Durand Affiliation: Jun. 19, 2026 Investors in the stock market depend on reliable information. If CEOs are not held accountable to where they risk imprisonment for misrepresenting how their business is doing, then they will make stuff up. This is clearly something that Musk engages in and so the market has a company with an ABSURD valuation that will disappear in a few weeks as early investors dump their shares. Musk and CEOs like him need to be accountable. Retain quarterly reporting. Retain stiff penalties for CEOs who make stuff up.

Paul Fagin — Jun 19, 2026
Subject: S7-2026-15 From: Paul Fagin Affiliation: Jun. 19, 2026 I lived thru the Enron corruption and don't want to see corrupt corporate execd walk away while investors get burned. Do your job and protect investors by ensuring financial results are accurately reported and CEOs are accountable.

Cheers,

---Paul

Paul Garand — Jun 19, 2026
Subject: S7-2026-15 From: Paul Garand Affiliation: Jun. 19, 2026 My name is Paul Garand. I live in Exeter New Hampshire. I am currently still working full-time at 71 years old in order to build a little more wealth to retire on over the next 3 to 4 years. Two years ago, I hired a money manager to help me decipher what I actually had for retirement and how to access it. So right now I have probably under $900,000 in different financial vehicles. There is a lot that I don't understand regarding how

this all works, but I do know that even a 10% drop in my current assets would make a big difference in possibly whether or not I could keep my home as taxes in New England never go down. Or heaven forbid, something catastrophic occurs and I really need to dip into a huge chunk of my assets. Losing upwards of 30% due to a reporting change to twice a year versus quarterly could put me in low income, elderly housing. Making a change to biannual reporting seems like an underhanded attempt to enrich certain individuals that have inside knowledge.

Peg Gavin — Jun 19, 2026
Subject: S7-2026-15 Comment From: Peg Gavin Affiliation: Jun. 19, 2026 My name is Peg Gavin, and I am retired after maintaining a long and successful career in Social Work. Throughout my career, I was well aware that there would be no pension available to me when I retired, and that I was responsible for figuring out how to support myself in my later years. I have spent a lot of time learning about investing in companies, and have been reviewing my own financial investments on a monthly basis for over two decades. I'm writing this message in support of maintaining quarterly reporting from public companies. This is essential information that enables the general public to stay abreast of what is happening within the companies where they choose to invest their money. Access to this information helps consumers ensure that the companies are continuing to operate in a manner that is consistent with whatever decisions or criteria the investor chose to make when selecting the company. People have a right to be well informed about what is happening in these companies, and it is the company's obligation to provide that information to the people who entrust them with their funds. If the federal government wants people to take more initiative to invest their money in companies in order to secure the ability to support themselves in retirement, then it makes sense to continue allowing them to have access to the information needed to assess and evaluate

the strength, stability, and direction of the companies where they choose to invest. Providing quarterly reports is one way of making progress toward that goal. The existing system is not broken.. .there is no need to change it at this point...and given this administrations consistent pattern of making things worse for average Americans in almost every possible way, there is no reason to think that this change would actually benefit anyone other than a few individuals who might profit from the decreased disclosure requirements. Stop breaking things that are serving a need or fulfilling their intended purpose. Start supporting increased transparency for Americans regarding what is happening with their funds, whether it be taxes or investments.

Sincerely,

Peg Gavin

Peter Schuette — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Peter Schuette Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:

Dear Commissioners,

I write to urge you, in the strongest possible terms, to preserve the requirement that public companies disclose their earnings every quarter, in full view of every investor.

Quarterly reporting is not bureaucratic busywork. It is the heartbeat of an honest market. Four times a year, a company must stop spinning narratives and show its actual numbers—to the pension fund in Ohio, the retiree in Florida, the first-time investor opening a brokerage app, and the hedge fund alike. That equality of access is the entire promise of a public market. Take it away, and you don't reduce noise; you reward whoever already has private channels to management while everyone else waits in the dark.

The arguments for less frequent disclosure deserve a blunt answer. "Short-termism" is a problem of executive incentives and culture, not of sunlight. Blinding the public for six or twelve months at a stretch does not cure managerial impatience; it simply removes the witnesses. Markets do not become more patient when they are less informed; they become more volatile, because price discovery gets crammed into rarer, larger, more violent surprises. Frequent disclosure smooths risk by spreading it across the year. Silence concentrates it.
And let us be honest about who benefits from the dark. Less disclosure favors insiders over outsiders, the connected over the ordinary, and management over the shareholders they are supposed to serve. Every quarter a company reports, fraud has one fewer place to hide and one less quarter to compound. Enron and its kin did not flourish under too much transparency.
Investors have priced their trust on the assumption that the books open four times a year. That trust is a national asset. Please do not trade it away for the comfort of the companies you are charged with overseeing.
Keep earnings reports quarterly. Keep them public. Keep the lights on.

Peter Topa — Jun 19, 2026
Subject: S7-2026-15 Comment From: Peter Topa Affiliation: Jun. 19, 2026 Peter, Tech Sales
I've spent the last 20 years building my portfolio, and want to keep the US as the beacon of world for markets. Quarterly reporting is a key part of this, and if removed will be detrimental.

Peter Wicks — Jun 19, 2026

Phyllis Funkenbusch — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Phyllis Funkenbusch Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
RE: My view on Rule S7-2026-15
This proposed rule is very ill-conceived. It will allow corporate insiders to trade their shares on information nor available to public shareholders. That's insider trading, which you know is illegal. My prediction is that you will adopt this rule. I believe this for two reasons: (1) the SEC as currently constituted is in thrall to Trump and does his bidding, and (2) Trump has never allowed established law to prevent his administration from doing harm to the American people. Shame on you for even considering this rule.

Phyllis kaiser-dark — Jun 19, 2026
Subject: S7-2026-15 From: Phyllis kaiser-dark Affiliation: Jun. 19, 2026 I propose that CEO reporting should remain. The same or increase reporting. Less and less accountability for these corporations seem to be the administration's goal. But more accountability is needed.

When someone shows you what they are, believe them the first time

---

Phyllis McDonald — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Phyllis McDonald Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I respectfully urge the Commission to reject proposed rule SR – 2026–15. As an individual investor, waiting six months for detailed financial information on my investments would deprive me of up-to-date information so that I can monitor the use of my capital. Quarterly reports promote transparency, accountability, and confidence in US markets. The modest compliance savings that might result from semi annual reporting do not outweigh the benefits of maintaining a robust quarterly disclosure system. I urge the SEC to retain current quarterly reporting requirements. It is good for investors and good for companies.
sincerely,
Phyllis McDonald

pkind1 — Jun 19, 2026
Subject: S7-2026-15 From: pkind1 Affiliation: Jun. 19, 2026 Quarterly reporting is the only thing keeping corporations accountable to their investors! Making them twice-yearly prevents us from knowing what's happening with OUR money for half the year. WHY in the world would you eliminate such a valuable and commonsense protection??? So corporations can hide what they're doing? Is that the reason? How does that benefit anyone but them? Answer: it doesn't! There is ZERO JUSTIFICATION for such an irresponsible move. DO NOT Change QUARTERLY REPORTING!

Pamela Kind

Small investor who NEEDS quarterly reports

Polly Cobb — Jun 19, 2026
Subject: S7-2026-15 Comment From: Polly Cobb Affiliation: Jun. 19, 2026 It is imperative that we retain quarterly reporting. Companies have proven time and again that they can “fool” the system and ruin people’s lives even with quarterly reporting. None of them are caught prior to the personal havoc they cause. Six months, provides more time to cover their tracks and ruin more lives. My great uncle and aunt rotate living with their daughters because they invested heavily in Bernie Madoff’s ponzi scam. Their financial planner and friend advised them that this was safe and the return was phenomenal. It was! My aunt and uncle did everything right to plan for a retirement of travel, a smaller home in Colorado and leisure time with each other and their families. All of their investments were gone. Both of them had to find some kind of job. Unfortunately, age discrimination is still a real thing. Homelessness is a real thing even for professionals who religiously follow the prescribed plan. Of course, if nobody follows up on the quarterly report, it won’t matter when the reports are due I respectfully submit this email in the hope that it will make a difference to protect honest hardworking Americans.
Sincerely,
Polly Cobb

postmanbart — Jun 19, 2026
Subject: S7-2026-15 Comment From: postmanbart Affiliation: Jun. 19, 2026 I am a small investor but my pension is in large funds that invest in equities. I am representative of the American public. Corporate mismanagement and malfeasance, of which there are almost endless examples, will go undetected much longer if the proposed 6 month reporting rule is implemented in place of the current 3 month reporting rule. It will not significantly change the short term corporate focus on operations and results when long term is measured in years or decades. Please reject the 6 month reporting rule proposal and continue with the 3 month reporting rule.

Prameela Bartholomeusz — Jun 19, 2026
Subject: S7-2026-15 Comments From: Prameela Bartholomeusz Affiliation: Jun. 19, 2026 How is it possible to achieve SEC’s mission to protect investors when they are denied timely access to

financial & operational data? This move to pander to corporate America is contrary to the controls set in place by the Sarbanes Oxley Act of 2002 that held CEOs, CFOs and other key executives accountable to minimize fraud of the magnitude that stripped ordinary people of their life savings.

“The primary purpose of the U.S. Securities and Exchange Commission (SEC) is to protect investors; maintain fair, orderly, and efficient markets; and facilitate capital formation.
It achieves this core mission through the following functions:
* Protecting Investors: The SEC requires public companies to disclose meaningful financial and other information to the public, providing a common pool of knowledge for all investors to use to judge for themselves if a company's securities are a good investment.
* Regulating Markets: It oversees the key participants in the securities world, including stock exchanges, brokers and dealers, investment advisors, and mutual funds, to prevent fraud and promote fair dealing.
* Supporting Capital Formation: By ensuring transparent and trustworthy markets, the SEC creates a secure environment that allows companies and entrepreneurs to confidently raise capital to grow their businesses and create jobs. ”

Regards,
Prameela Bartholomeusz

prediktor prediktor — Jun 19, 2026
Subject: S7-2026-15 Comment From: prediktor prediktor Affiliation: Jun. 19, 2026 Quarterly reportings are critical for the general small investor to be able to adjust their investments according to their goals and risk tolerance. We work hard to earn the bit we invest and have limited spread. Small losses can devastate large portions of our portfolios. Six month filings will hide the early trouble signs from most investors and encourage more fraud. Please do not change the reporting requirements and keep them quarterly.

Sandra R. - Retired IT Professional, Project Manager, and Small Business Owner

prohere4u — Jun 19, 2026
Subject: S7-2026-15 Comment From: prohere4u Affiliation: Jun. 19, 2026 There can only be ethically treasonous reasons to be LESS transparent with the public companies ultimately serve so don’t do it and expect those who do to be forgotten and do expect accountability of them sooner than later to US citizens. Consider yourselves fiduciaries to that public and act accordingly!

PS Sze — Jun 19, 2026
Subject: File No. S7-2026-15 From: PS Sze If they have to complete a quarterly Form 8-K, then a public ally held company should just file their quarterly reports. Especially object to new "meme stocks" not being transparent after their IPOs. This semiannual option should only be available to smaller companies meeting certain revenue/cash/capitalization/trading thresholds. Any company exceeding those thresholds should not be exempt. It means a less equal playing field for those who do not have more timely information. The opportunities for insider trading will increase if this semiannual option to file is unchecked.

PSNI Bookeeper — Jun 19, 2026
Subject: S7-2026-15 Comments From: PSNI Bookeeper Affiliation: Jun. 19, 2026 We need to stay transparent and honest! There is never a time to hide information from the public especially now when trust in government is diminishing. Julie Cooper- Bookkeeper

purdelice22 — Jun 19, 2026
Subject: S7-2026-15 Comment From: purdelice22 Affiliation: Jun. 19, 2026 Janice Hussein MBA MS
Fourth generation American
Staff Accountant

Personal details aren't really relevant, in my opinion. It comes down to protecting the present and potential investor and creditors, and other users, and protecting our financial system.

The objectives of financial reporting are to provide information:
A.) "that is useful to present and potential investors and creditors and other users in making rational investment, credit, and similar decisions."

B.) "to help present and potential investors and creditors and other users in assessing the amount, timing, and uncertainty of prospective cash receipts from dividends and interest and the proceeds from the sale, redemption, oraturity of securities or loans. Since investors' and credtors' cash flows are related to the enterprise cash flows..."

C.) " about the economic resources of an enterprise, the claims to those resources..., and the effects of transactions, events, and circumstances that change its resources and claims to those resources."
-- from "Financial Accounting," by Keiso and Weygandt.

Users include investors, creditors, managers, unions snd government agencies.

A lot can change in 3 months, let alone 6 months, and the community needs to know what is happening and how events, both present and potential, in the state, country and world, are affecting a company's bottom line. And their own...bottom line.

Financial reporting is communication:
We don't want to wait 6 months to know what the trends in revenue are or if company xyz has had to take a big loss because of ever faster changes and advances in technology and knowledge, such as AI or economic fallout from social-economic-political-legal volatility, such as current oil prices resulting from war, or new developments in resources.

Accurate and up-to-date Financial reporting is very important. And there is potential for business to want to skirt the guidelines. That's why there are so many governing entities... because they're protecting everyone's money. The House of GAAP includes AICPA, FASB Implementation Guidelines, widely recognized and prevalent industry practices, FASB Emerging Issues Task Force, AICPA AcSEC Practice Bulletins, FASB Technical Bulletins, AICPS Industry Audit and Acciunting Guidelines, AICPS Statements of Position, FASB Statememts and Interpretations, APB Opinions, and AICPA Accounting Research Bulletins--all there because we've learned from past mistakes. And because often there is immense pressure in the business world to make a company look better in its financials than it actually is.

I think quarterly reporting helps to keep companies marching to a more regular and timely measure of "checks and balances." It's oversight and transparency.

Thank you for all you do at SEC!!

Rachael McIntire — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Rachael McIntire Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:

Corporate transparency is one of the most important ways we can keep companies accountable, without that unchecked capitalism will inevitably trample the few checks and balances we have left. If anything we need to be increasing transparency and accountability more. To give these mega corporations who hire entire teams to increase profits through any means they can find, any benefit of the doubt is foolish. They care about profits more than human life and suffering and that is scary for human kind, especially with the truths coming to light in the last 5 years. Take action to hold the line and hold them accountable. Our lives depend on it.

Rachel C — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Rachel C Affiliation: Jun. 19, 2026 Keep reporting Quarterly! I am retired and do not want to lose value due to less reporting. This is yet another scheme to mess up life for ordinary citizens and give the billionaires more ways to obscure reality. Thank you.

Rachel Sinks — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Rachel Sinks Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:

Google AI response says it best:
"The SEC’s proposal to let public companies report earnings semiannually instead of quarterly will reduce market transparency. Increasing the time between financial disclosures, the rule widens the information gap between corporate insiders and everyday shareholders.

Major concerns regarding the semiannual reporting proposal include:
Information Starvation: Investors will have to wait up to six months between formal financial reports, increasing uncertainty regarding a company's financial health, sales trends, and cash flow. Heightened Volatility: Without regular 90-day updates, investors are more likely to be blindsided by unexpected problems or corporate malfeasance, leading to severe price swings when information finally is released. Loss of Comparability: Allowing companies to choose between quarterly or semiannual reporting fragments the market, making it difficult to analyze and compare competitors on an ongoing basis. Disproportionate Risk for Small-Caps: Smaller companies, which usually have less analyst coverage and higher intrinsic risk, are the most likely to drop quarterly reporting. This removes the very transparency retail investors rely on to monitor their investments."

Radha McLean — Jun 19, 2026
Subject: S7-2026-15 Comments From: Radha McLean Affiliation: Jun. 19, 2026 Radha McLean, former Psychologist My concern is simple. What's right, must have light. I was never an investor, but does that really matter? These types of unsavory practices abound everywhere in the dark. It's un-American plain and simple. Some will say,"not my problem, I don't have money..." It's not our problem! Cancerous thinking effects us all, because we are Americans! Again, what's right requires light. I would highly suggest that people should dig deeper into this conclusive decision-there's probably more that will be found. Overall, leadership has lost the moral compass. Looking for loopholes in business and moral ethics. Wake up and do what's right for the sake of this country!!

Rayna Booker — Jun 19, 2026
Subject: S7-2026-15 From: Rayna Booker Affiliation: Jun. 19, 2026 My name is Rayna Booker.

I live in Las Vegas Nevada. Back in 1995 I used to be employed for MCI in Seattle Washington. As a result of the MCI WorldCom 2002 fiasco, MCI would lose a majority of its assets by having to file for bankruptcy as a result of the fraudulent market evaluations by its former CEO. If the SEC had made quarterly reporting mandatory back then, it is possible it would have caught the accounting error and given MCI the time it needed to rectify the issue to avoid mass layoffs and a bankruptcy reorganization. MCI might have been able to continue to grow it's product base and gone on to be one of the larger telecommunications companies alongside AT&T, Pacific Bell, sprint, and possibly Verizon or T-Mobile. Thousands of people lost their livelihood as a result of the actions taken by the CEO of MCI Worldcom. It wasn't until a similar issue occurred with Enron that this law was created. It's important to note that maintaining a transparency process allows for the SEC to monitor and

detect fraudulent activities amongst fortune 1000 and fortune 500 companies. Reducing the reporting requirement or eliminating it altogether would herald in a return of fraudulent activities by senior executives and CEOs of the fortune 500 Fortune 1000 companies. It is in the best interest of United States citizens, particularly employees of these organizations, that this practice continue.

Rebecca Douglas — Jun 19, 2026

Subject: My view on Rule S7-2026-15 From: Rebecca Douglas Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:

Eliminating quarterly reporting might feel like cutting red tape, but will backfire in the long run. Less frequent reporting doesn’t reduce pressure, it just reduces visibility. Issues don’t go away, they build up longer and then hit harder when they finally surface. That tends to create bigger surprises, more volatility, and less confidence in the market. It also widens the information gap between insiders and public investors, which is exactly the kind of imbalance regulators usually end up having to fix later. Historically, easing transparency rules like this doesn’t stay for long. Once something breaks and trust erodes, the response is always stricter oversight and more disclosure requirements than before. So while it may be framed as simplification, it often ends up being a cycle: loosen standards > create problems, then swing back to tighter regulation after real damage has been done.

REBECCA EBERT — Jun 19, 2026

Rebecca Fletcher — Jun 19, 2026
Subject: S7-2026-15 Comment From: Rebecca Fletcher Affiliation: Jun. 19, 2026 The SEC should continue to require public companies to report financial results quarterly. Regular reporting promotes accountability and provides me with timely information about a company's financial performance and risks, helping me make informed decisions while reducing the likelihood of market surprises. Consistent disclosure requirements also support fair markets by ensuring that all investors have access to current and reliable information.

Rebekah Tripp — Jun 19, 2026

Subject: Comment on S7-2026-15 From: Rebekah Tripp Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:

I am writing as an individual investor and retirement saver to express my opposition to any proposal that would reduce public company financial reporting from quarterly to annual reporting.

As a regular American investor, I rely on timely and transparent financial information to make informed decisions about my retirement savings. Quarterly reports provide important insight into a company's financial health, risks, debt levels, and performance. This information helps ensure that all investors—large and small—have access to the same material information on a regular basis.

Reducing reporting frequency would make it more difficult for ordinary investors to monitor the companies they own. It would also increase the information advantage held by corporate insiders and large institutional investors while reducing transparency for the public. Waiting a full year for comprehensive financial disclosures could delay the discovery of significant financial problems and increase uncertainty in the markets.

I understand the concern that companies should focus on long-term growth rather than short-term earnings targets. However, reducing transparency is not the answer. Investors can support long-term business strategies while still benefiting from regular, standardized disclosures.

Strong disclosure requirements are one of the reasons U.S. capital markets are trusted throughout the world. As an investor saving for retirement, I believe quarterly reporting helps protect market integrity, improve accountability, and ensure fair access to information.

For these reasons, I urge the SEC to maintain quarterly reporting requirements for public companies.

Thank you for your consideration.

Sincerely,

Rebekah Tripp, Au.D.

Regina Melchiorre — Jun 19, 2026
Subject: S7-2026-15 Comments From: Regina Melchiorre Affiliation: Jun. 19, 2026 Transparency in business promotes ethical behavior and trust. Through honest, transparent practices, people are held accountable for both good practices and bad. Without accountability, there is no credibility, and trust erodes. History shows us what happens then: markets crash, people refuse to participate in the system, much is lost. I support the continuation of quarterly financial reporting for businesses. As an investor, I rely on these to understand how my investments are performing, allowing me to make corrections as needed to promote my retirement planning. I do not support reducing the required frequency of financial reporting.

Regina Melchiorre

Regina Murphy — Jun 19, 2026
Subject: S7-2026-15 Comment From: Regina Murphy Affiliation: Jun. 19, 2026 Reports every quarter. Thank you.

Regina Rozich — Jun 19, 2026
Subject: S7-2026-15 From: Regina Rozich Affiliation: Jun. 19, 2026 As a patriotic American I insist that you continue to DEMAND QUARTERLY REPORTING FOR EVERYONE. This is just one way to hold the millionaire class accountable for their horrible treatment of the rest of regular Americans. The wealth gap in this country is a shameful fact that we all have to bear. For you to do your job lawfully you must hold these inhumane individuals accountable to the utmost of your ability. As the only democratic country in the world with millionaires and billionaires owning more than 90% of the wealth it is a world wide horror that we also have both millions of real Americans living below the poverty line and millions of children literally starving. HOLD THE LINE as is your duty as an American. Honestly I feel shame for this once beautiful country. I spent my life living with my family squeezing every last penny to feed and clothe ourselves. American should be better than this. My name is Regina Mooney. I worked my teen years working after school and my entire adult life striving to wring a living wage as a garment worker. Living in New York City I see the daily cost of the rich getting richer and the rest of America falling into despair. It is time for the SEC to do YOUR JOB! In a world of horrible humans - be a good human.

Rhonda Ford — Jun 19, 2026
Subject: S7-2026-15 Comments From: Rhonda Ford Affiliation: Jun. 19, 2026 We need to stay with quarterly reporting as it always has been. I need to know what my situation is more often than twice a year. That is just unacceptable as a way to monitor my investments and assess my financial status. I am a retired senior who relies on my investments and social security to live.
Sincerely,
Rhonda Ford

Rhonda Laughlin — Jun 19, 2026
Subject: File No. S7-2026-15 From: Rhonda Laughlin Public companies have reported their financial results every three months for over half a century. A new SEC proposal would let them go dark for six months at a time. While the executives, lawyers, and big institutional investors still know exactly

how the business is doing small investors will be the last to know.. A lot can go wrong in half a year. Today the law forces companies to surface that information every quarter. Under the new rule, they can sit on the information for six months, quietly selling their shares to the unsuspecting investors before the bad news tanks the stock. Every major modern accounting scandal was enabled by gaps and opacity on financial disclosure. Quarterly filings don't prevent fraud, but they dramatically shorten the window in which it can fester before someone outside the company can see it. The UK and EU studied the move to semiannual reporting and found no meaningful improvement in long-term investment behavior. They did find more stock-price volatility and overreaction when reports finally arrived. Singapore tried it and is now reversing course because disclosure quality and trading volume both dropped. "Short-termism" is really about how CEOs are paid and how boards measure success, not how often companies file paperwork. Hiding the data doesn't fix the underlying problem; it just hides the consequences. The actual compliance savings are modest, and the cost of worse information flowing to ordinary investors is borne by the people the SEC is supposed to protect. There are also other ways to reduce reporting burden that don't degrade transparency. The SEC keeps citing the "global standard," but that standard isn't doing well in the places it was tried. The EU's lighter regime is where Wirecard's €1.9 billion fraud hid in plain sight for years before the company collapsed in 2020. The UK's 2014 shift stripped analyst coverage from mid-cap stocks, and London has been bleeding IPOs ever since. Singapore moved to semiannual reporting in 2020 and is now reconsidering, because trading volumes fell and disclosure quality dropped. The "global standard" the SEC is invoking isn't standard, isn't working, and is being walked back where it was tried. My name is Rhonda Laughlin. I'm a retail investor and I rely on quarterly reports to make decisions about my retirement savings". Longer gaps create an unfair advantage for corporate insiders.

Rhonda Ravega Self-employed — Jun 19, 2026
Subject: File No. S7-2026-15 From: Rhonda Ravega My name is Rhonda Ravega. I'm self-employed. I don't agree with giving them six months. Quarterly reporting benefits We The People & them and biannual reporting benefits only them. We The People matter& should matter more than entities, as we are flesh and blood, & we are who keeps it running, entities are not. Remember, government works for We The People not the other way around. Without We The People there would be no America. Transparency matters. Why are the powers that be trying so desperately to take away transparency, regulations, medical studies, etc. which keep We The People safe, and violate our constitutional rights. If it ain't broke, don't fix it. Leave things alone. Stop making things worse for We The People, We demand it!!🤔🤨🧐

Richard Cunningham — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Richard Cunningham Affiliation: Jun. 19, 2026 NO ON SIX MONTH REPORTING. Six month reoprting is a criminal gift to corporations and mega investment firms. And, the worst possible situation for rank and file investors. When algorhythms trade stocks in milliseconds and move billions of dollars 24 hours a day to amass wealth on penny fluctuations... allowing banks and corporate entities to meddle with their stock valuations and mask their trends six months at a time is insanely fraudulent. Imagine how easily an investment firm or corporation on the exchange could time its reports to inflate its value or minimise its earnings every six months to protect their insider trades or hide massive short selling from private sector investors. Worse yet are the retirement pension holders who monitor their portfolios. Six month reporting would shade them from developing trends, while pension managers, with extensive data access were free to trade behind the backs of rank and file investors who were intentionally blinded by this proposed change. Finally, what if there was a crash bssed upon the present over extension in the derivitive market? How convenient thst a six month reporting mandate would lock investors who stand to lose the greatest would be locked out of the informstion they could have used to protect themselves... while black rock and state street were free for to suck up finite investments and precious metals for 180 days of opportunity for pennies on the dollar. Transpsrency is barely possible for quarterly reports in the digital age. Six month reporting is just plain market fraud. No and never. This rollback comes at a time when the opportnity and transparency gap between institutional and private investors is crowing wider daily. Protecting individusl investors should be your ONLY priority, because that alone will protect the market itself from collapse.

Richard DeMarsico — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Richard DeMarsico Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Please leave well enough alone.Knowledge is power. As investors,many of us relyon on the market for our retirement. The more information we have the better to safeguard our future.

Richard Dietzen — Jun 19, 2026
Subject: S7-2026-15 Comment From: Richard Dietzen Affiliation: Jun. 19, 2026 While quarterly returns are said to encourage short term thinking by management, depriving investors of this information is ludicrous. Tax rules should be revised provide national revenue and encourage farsighted management for the health of the corporation and the national economy.

Richard Jelm — Jun 19, 2026
Subject: S7-2026-15 Comments From: Richard Jelm Affiliation: Jun. 19, 2026 So the Republicans and all the public officials of our government got insider information on stocks they all became millionaires and billionaires over the last year and whatever months Trump's been in there they're dirty, rotten con men right along with their scammer and chief so now this should not be allowed. This is more of dishonest, hiding wealth from taxes. We need to tax the wealthy and help the poor because they made us that way we made them rich all these corporations and we made Wall Street rich by buying in this bull **** and they're gonna go dark and hide money. No not allowed. We are going to take our country back. We're going to take our life Back. They're trying to make it the end times let's not let this be possible I grew up in. I was born in the 50s grew up in the 60s and 70s and we had honor we had Sunday school we had going to church on Sunday. We had no liquor sales on Sunday now the whole world's wide freaking open with AI and it's terrible the no decency left in the world.

Richard McAllister — Jun 19, 2026
Subject: S7-2026-15 Comment From: Richard McAllister Affiliation: Jun. 19, 2026 Richard McAllister, capitalist investor here.
This is a stupid idea that will mess with the investment schedules we are ALL accustomed to. Not to mention the ability for fraud to go unnoticed for a longer period. This idea is as poorly conceived as any policy enacted by the current administration.

Richard McAllister

Richard McRee — Jun 19, 2026
Subject: S7-2026-15 ... 2026=06-19 From: Richard McRee Affiliation: Jun. 19, 2026 Monthly reports would be better! .... Sadly, since WWII and the stealthy US 1952 Patent Act, admittedly "Corporate" US Patent Law has silently relegated the skillful Work of talented individual Inventors to being easily usurped, stolen, suppressed, misrepresented, and ignored if it poses any challenge to the corporate status quo, competes with established plans, or addresses ClimateChange like my own US Pat #6,003,269 "Retractable Covering for Spaces" .... For the sake of OurYouth and their future security, WeThePeople have the "Duty" to create new Guards to undo the Fascistic "Corporate" law, which has undermined the only "exclusive" rights granted by OurFounders to the most-vulnerable Work of the individual Inventor as a generator of vital "progress" from the Useful

Arts. ... This is one reason that WeAdults are leaving terrible conditions for OurYouth. As an American, I am mortified by this shameful betrayal of OurFounders principles. STOP IT !!!!!

Rita — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Rita Affiliation: Jun. 19, 2026 Current quarterly business reporting requirements ensure regular & timely visibility of business performance to individual investors. This visibility & accountability to all shareholders is more essential in today's American economy than ever as we see more and more Americans forced into individual responsibility of saving for retirement in the stock market as pensions become less common and social security is at

risk of solvency. Additionally, the continued erosion of social supports from the US government and deregulation, coupled with increasing case examples of corruption and insider trading from US government officials and insiders, makes risk to individual American in down cycles of the market much greater.

Rita Hooper — Jun 19, 2026
Subject: S7-2026-15 Comments From: Rita Hooper Affiliation: Jun. 19, 2026 Unfortunately I have lost faith in big business in this country in more ways than just wanting not to report their activity…. I'm left to wonder what are they hiding? what don't they want their stock holders to know. The more we know, the better off the investor is in knowing where to put their savings for the future - the better off America is for its future. I'm left wondering"what does business not want us to know?" If it were up to me, I would like more frequent reporting including info on how they do business.
I'm just a retired investor, not a large investor, but one who has worked bearing in mind that it was up to me to provide for my family and myself in my old age. I am loosing faith in my country, please don't let companies not have to report quarterly - the more you know, the more you can have a brighter future for yourself, your family and friends and our great USA!

Rita Romano Motley Fool's — Jun 19, 2026
Subject: File No. S7-2026-15 From: Rita Romano I urge the SEC to not adopt S7-2026-15 which allows companys to reduce the number of times they have to submit financial information to only 2 times a year as opposed to 4. As an individual investor for many years I find receiving information 4 times to be invaluable when considering in which companies to invest or stop investing. I see no advantage in adopting S7-2026-15. I have been informed this proposed change is being considered to allow companies to conduct more long-term thinking. However, research has shown this is not the case. As an investor, I need transparency and timely information. I urge you not to adopt S7-2026-15!

Rita Walker — Jun 19, 2026
Subject: S7-2026-15 Comments From: Rita Walker Affiliation: Jun. 19, 2026 As usual, I see this as a way for the rich to get richer and the poor to get screwed! Less reporting is NEVER good in my opinion. It allows corporations to make decisions that are never in favor of the investors. PLEASE do not let this rule change - it will only hurt the average investor trying to keep his/her head above water.

Robbie Robinson — Jun 19, 2026
Subject: S7-2026-15 Comment From: Robbie Robinson Affiliation: Jun. 19, 2026 Robbie Robinson, retired business manager.
I believe quarterly reporting keeps fraud harder to hide when you have less time to hide it in.
Transparency is clearer when it has to be cleaned and reported twice as often as not.
The nature of capitalism is to minimize cost and maximize profit on everything. Without reporting, no one knows for six months what has been done to attain those two goals.
Please consider the fraud that can occur for 6 months without any safeguards in place, like quarterly reporting, completely undetected.

Robert and Linda Craig — Jun 19, 2026
Subject: S7-2026-15 Comment From: Robert and Linda Craig Affiliation: Jun. 19, 2026 I feel strongly about keeping the three month reporting cycle. As a small investor, I need to watch incidents closely. Everyone knows that timing is critical when it comes to the market, and by moving this to the six month reporting rather than three months you would be making a negative change that would hurt the investor who watches the investments closely. Do not change this from a three month to a six month reporting requirement.

Linda Craig

Robert Andrews — Jun 19, 2026
Subject: S7-2026-15 From: Robert Andrews Affiliation: Jun. 19, 2026 The CEO has a job to do. This is how people know that he is doing his job. Without this report, investors and employees have to guess at what is going on behind closed door.
Keep CEO's honest and the stakeholders aware of what they're doing! Keep the quarterly reports!

Robert Aronson — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Robert Aronson Affiliation: Jun. 19, 2026 Quarterly reporting provides more transparency and evidence for decision-making. Do not reduce this to semi-

annual reporting. History shows that this would be a mistake.

Robert Paulson — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Robert Paulson Affiliation: Jun. 19, 2026 To the Securities and Exchange
your proposed rule would blindfold retail investors. quarterly disclosures help me make informed decisions, and the SEC shouldn't take vital information away from me
protect the individual investors - the small people who depend on this money
don't protect the heads of corporations and companies who make millions and millions of dollars so that they can make even more money
for once how about letting the little guy win and not reduce financial reporting requirements!!!

Robert Philbrook — Jun 19, 2026
Subject: S7-2026-15 Comment From: Robert Philbrook Affiliation: Jun. 19, 2026 I think it should be anytime we want to know . Like companies that want to run our credit score all the time.

Robert Rakow — Jun 19, 2026
Subject: S7-2026-15 Comment From: Robert Rakow Affiliation: Jun. 19, 2026 We need to continue to require all publicly traded companies to report their financial reports quarterly.

Robert Riley — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Robert Riley Affiliation: Jun. 19, 2026 Hello,
The theft from retail traders by the criminal financial terrorists needs to stop.
If the SEC and other agencies know about the criminal activity but don't do anything to stop it....they are complicit and just as much an enemy of the American people as the Wall Street criminal, financial terrorists.
Stop the steal,
Robert E. Riley

Robert Santillana — Jun 19, 2026
Subject: S7-2026-15 From: Robert Santillana Affiliation: Jun. 19, 2026 As an investor, I emplore you to continue to require quarterly reports from all companies. I rely on up to date and accurate information in order to choose the companies I invest in. Changing a process that isn't broken, just creates a negative situation for individuals trying to save for retirement and other important life events.

Robert Shelby — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Robert Shelby Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
It is ridiculous to allow the large public trading companies to stop issuing quarterly reports so the public and small stockholders can see what is happening within the company.
Please DO NOT adopt this rule Sincerely, Robert Shelby

Robert Smith — Jun 19, 2026
Subject: S7-2026-15 Comments From: Robert Smith Affiliation: Jun. 19, 2026 Robert smith, retired, Ogden UT. I think it's been proven of late just how much big business and other entities try to get rich off the people they should be supporting. We need quarterly reporting to be able to see what's happening and track it. I am against changing to a longer period.

robert tramell — Jun 19, 2026
Subject: Comment on S7-2026-15 From: robert tramell Affiliation: Jun. 19, 2026 I am retired and living on Social Security and the money I get from my 1 investment I accumulated a nest egg while I was working ! The RMD from that investment pays my property and school taxes and my 6 month premium on my car insurance ! As a senior who is retired,if you take away a large percentage of my nest egg that I worked 50 years to accumulate,I could lose my home to taxes that in my opinion

should not be assessed to retired seniors over 70 years old who have worked so hard to pay off their homes ! Add a sales tax,or tax the billionaires and millionaires ! Why do the middle class always have to take the hit when the government wants to raise money instead of getting money from those who can afford to pay without hurting them at all ?Our government is built on the principle of “By the people and for the people “ ! Not by for the rich and make the people who are left pay so the rich get richer ! God help us all !

Roberta Sherhag — Jun 19, 2026
Subject: S7-2026-15 Comment From: Roberta Sherhag Affiliation: Jun. 19, 2026 That is crooked and deceitful as a business practice. Buy your stocks, invest in your companies, then hide what you do with our money. Why are you so afraid of accountability.

Roberta Williams — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Roberta Williams Affiliation: Jun. 19, 2026 This is a terrible dea! As a retired teacher, living in a fixed income with limited resources, I cannot survive if this policy is implemented. As I understand it, the value of my meager savings could fall by 30-50%. Why would you implement a policy that hurts the common people of this country? Must everything be done to ease the life of the super wealthy who don’t need any more favors from our government? This

government, that they seem to have bought and paid for, continues to stack the deck against the working people of this nation. Please reconsider this horrible decision.

Roberta

Robin Axworthy — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Robin Axworthy Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:

This is but another ploy by big business to save money by putting more risk and burden on the consumer--those whose business makes the money the big business relies on. I realize that not having to put out reports as often will save companies money, but it also helps hide their true condition from those whose investments power the inflated salaries of their executives. VOTE NO to this proposal.

Robin Ballenger — Jun 19, 2026
Subject: S7-2026-15 Comments From: Robin Ballenger Affiliation: Jun. 19, 2026 Allowing oversight is equivalent to demanding honesty for corporations. Allowing corporations skip accountability is a gateway to facilitating criminal behavior on their part. Quarterly accountability is absolutely feasible for them and the very minimum that the people should demand.

Do not change the reporting schedule.

Thank you,

Robin Ballenger

Robyn — Jun 19, 2026
Subject: S7-2026-15 Comment From: Robyn Affiliation: Jun. 19, 2026 Retail investor here saving for my retirement and hopefully to have something to leave my kids. Halving financial reporting is only

good for insiders, which you know, and could be disastrous for the rest of us. While insider trading has been rampant the last year, it’s hard to understand why you want to continue to peel back requirements that provide some protection. Social security is being mismanaged and cannot be counted on for even my generation (Gen X). Now the money I’ve worked so hard to save and invest can be lost even easier in this playing field made even more unfair. Enough is enough.

Robyn Fodor

ROBYN BORGES — Jun 19, 2026
Subject: S7-2026-15 Comment From: ROBYN BORGES Affiliation: Jun. 19, 2026 Transparency is essential. My investments are not a way for me to get rich, they're likely the only funds I'll have at retirement . I can't hope that Social Security will still be operating 25 years from now and it certainly won't be enough to cover the increasing costs of living. I can't make financial decisions accordingly if reporting is cut in half. Please don't approve this.

Ros A — Jun 19, 2026
Subject: S7-2026-15 Comment From: Ros A Affiliation: Jun. 19, 2026 Rosalind Williams paralegal specialist This matters to me because I have spent over 40 years working and saving so that I could retire comfortably. With the SEC changing reporting I will constantly lose money and not find out about it until it's too late. I would have to continue working basically until I die because there would be nothing left of my savings. DO NOT CHANGE IT!

Rosa Castano — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Rosa Castano Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I remember the Enron Scandal, where corporate officers essentially overstated the value of their company to its employees or investors. It caused great harm to their employees who were

encouraged to invest all their monies in the company's stocks. They lost all their investment when the stock went from $90/share to about $ 0.26/share.
There was a reason the SOX act requires quarterly reports to be signed by its officers. They're held accountable..

Rosalia LiBassi — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Rosalia LiBassi Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission: keep the quaterly reporting.

Rosalie Day — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Rosalie Day Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
This is a terrible idea. Your responsibility is to the investors. Please keep the rules as they are.

Rosanna Mason — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Rosanna Mason Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I oppose the proposed rule change to eliminate quarterly reporting from corporation. The role of the Commission is to monitor this information and to provide investors with needed information to make investment decisions. This change would hide corporate misdealings from its shareholders; thereby placing those investors is harms way. Further changing to a six month reporting period would decrease corporate transparency, allow corporations to hide negative financial information and lawsuits (thus allowing those in charge of the corporations to protect themselves at the cost of investors), and harming the investor while the government is urging the public to invest their money in the stock market and to save for their retirement.

Rosanna Schultz — Jun 19, 2026
Subject: S7-2026-15 From: Rosanna Schultz Affiliation: Jun. 19, 2026 Since the current system of quarterly reporting is working. it should be left intact. It was put in place to prevent future ENRON occurrences, was effective, no need to change. No need to take the cat away. We know that just gives license to the RATS to play.

As a retired person, I do not wish to see the kind of economic upheaval that a lack of oversight could engender.

Rosanna Schultz

Rose Parsons — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Rose Parsons Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
This is ridiculous! We need MORE transparency and accountability from CEOs and companies investors are trusting to provide accurate and trustworthy data!!!
I totally disagree/disapprove of changing the quarterly accountability which would make my investing basically blind!!!

Rose Rodriguez — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Rose Rodriguez Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I am writing as a retail investor who is concerned about any effort to reduce or eliminate quarterly reporting requirements for publicly traded companies.
As someone who manages my own investments, quarterly reports are one of the most important tools I have. I do not have access to private meetings with executives, expensive research services, or teams of analysts. The information contained in quarterly filings helps level the playing field and allows ordinary investors like me to make informed decisions.
When companies report every quarter, investors can see how a business is performing, whether management is delivering on its promises, and whether risks are increasing or decreasing. Without these regular updates, investors would be left waiting much longer for important information, creating more uncertainty and speculation.
I am particularly concerned that reducing reporting requirements would benefit large institutions far more than individual investors. Professional investors often have resources and access that retail investors simply do not. Public disclosures are one of the few ways that all investors can receive the same information at the same time.
The U.S. markets have earned the trust of investors around the world because of their transparency. Strong disclosure requirements help maintain that trust. While I understand that some companies may view quarterly reporting as burdensome, I believe the benefits of transparency, accountability, and investor protection far outweigh the costs.
As an investor, I want more transparency, not less. I respectfully urge the Commission to preserve quarterly reporting requirements and continue protecting the ability of retail investors to make informed decisions based on timely and reliable information.
Thank you for your consideration.
Sincerely,
Rose

Rose Signore — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Rose Signore Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
please do not change the quarterly filing for business. This is vital for the smaller investors that are hoping to have a nest egg for retirement. This will soften the accountability of the corporations to provide accurate accounting and would be more prohibitive for instability in market pricing and insider trading prior to being released for public retail trading. This will increase the ability for the corporations to hide issues within the company for a longer period of time. It is imperative that the quarterly reporting continues so the smaller investors have a chance to be successful in The markets as well.

Rose Sligar — Jun 19, 2026

Roxanne Nay — Jun 19, 2026
Subject: S7-2026-15 Comments From: Roxanne Nay Affiliation: Jun. 19, 2026 Roxanne Nay retired. I feel this is a very bad idea. Most of my retirement funds are linked to the stock market. Not knowing what is going on puts individuals funds at risk and at a disadvantage to those who do know in the companies
It doesn't save money and in this day and age of instead info because of technology there is no excuse for this except to help those who are trying to cheat the system.

Roxi Marvin — Jun 19, 2026

Subject: S7-2026-15 Comment From: Roxi Marvin Affiliation: Jun. 19, 2026 Accountability matters, transparency is the only way to hold companies accountable. Look at Aqua Virginia for example. They have asked for large price increases of over 22% year after year with little to very little infrastructure improvement they claim it is to support. Water quality has declined in the 6 years we've been customers. Following the money is how the customer and SCC can have the transparency to fix these types of issues. Keep transparency, keep accountability. Protect customers and our communities. Data centers, big pharma and big power must have transparency because of the direct harm to our environment.

Roxy Belew — Jun 19, 2026
Subject: S7-2026-15 Comment From: Roxy Belew Affiliation: Jun. 19, 2026 If we are investing then we have a right to know how our investments are doing! Not 6 months or year. We should be able to look at it daily!

Ryan Bermel none — Jun 19, 2026
Subject: File No. S7-2026-15 From: Ryan Bermel As a retail investor who relies on quarterly reports to inform my investing decision, I am vehemently opposed to this rule change. I regularly use quarterly reports to determine my investing strategies and stock picking, and moving to semi annual reporting will significantly hamper my information, results in stale and incorrect prices of stocks being maintained for longer, lack of investor confidence in positions and the market as a whole, and more ability by companies to manipulate the data and hide potentially negative news and troubles until it is too late. The market these days with the increased ability from technology used by companies to hide issues and distort value demands the need for more transparency, not less. At a time when uncertainty is high and turmoil is everywhere, it is completely unacceptable to be making markets

more obscure.

Ryan Bottorff — Jun 19, 2026
Subject: S7-2026-15 From: Ryan Bottorff Affiliation: Jun. 19, 2026 Since it's not going to be realistic to make stock markets illegal any time soon the very least the public deserves is frequent reporting to support accountability. In fact rather than reduce reporting let's make it bi-weekly.

Ryan Ng — Jun 19, 2026
Subject: S7-2026-15 Comments From: Ryan Ng Affiliation: Jun. 19, 2026 Ryan
USPS City Carrier

With current technology it is easier than ever to provide information and transparency. Changing reporting to only twice a year puts individual investors at an even greater disadvantage compared to institutional ones and will erode consumer confidence in the stock market.

Thank you,

Ryan

S G — Jun 19, 2026
Subject: S7-2026-15 Comment From: S G Affiliation: Jun. 19, 2026 Hello,

I oppose changing the reporting requirements for public companies from quarterly to semiannually. This is bad for investors. It provides less transparency and less timely information to investors and the public. The SEC's role is to protect investors, not actively work against them. Please do not change the requirements.

Spencer Garrity, CPA
Tax Advisor

--

Spencer Garrity

S Ryan — Jun 19, 2026
Subject: S7-2026-15 From: S Ryan Affiliation: Jun. 19, 2026 I am writing to register my objections to the proposed rule change with respect to quarterly reporting of corporate financials. This rule has provided transparency and accountability, with personal consequences for CEOs who publish inaccurate data. This was positive progress in curbing fraud and providing investors and the market with reliable data with which to make informed decisions.

The arguments for the proposed change do not stand up. The potential savings in time and cost are negligible compared to the value of reliable and timely information. And indeed since corporations will still have the ongoing costs of maintaining their books, the only savings is the actual cost of the report. Other places where this change has been made such as the EU, Singapore, and the UK, are reconsidering the change. There, the semi-annual reporting has resulted in decreased quality of disclosures and allowed fraud to continue for longer, at a high cost in both investor's funds and trust in the market.

The only reason to make this change is to allow unscrupulous executives more latitude to commit fraud. The SEC's mandate to protect investors, and maintain fair, orderly, and efficient markets stands in clear opposition to this proposed rule change.

I urge the SEC to refrain from this rule change and protect both investors and the market.

Dr. Susan Ryan
Oakland CA

S. Hanselman — Jun 19, 2026
Subject: S7-2026-15 Comments From: S. Hanselman Affiliation: Jun. 19, 2026 Please do not do this, as it is very unfair! There really is no upside to doing this, aside from harming retail investors (that seems to be your goal). You can do better! You're supposed to be regulators.

Sandra Miller — Jun 19, 2026
Subject: S7-2026-15 Comments From: Sandra Miller Affiliation: Jun. 19, 2026 I am a young retiree, completely reliant on investments,
that I've worked hard and sacrificed for. It's essential to have quarterly reporting, in order to make accurate trading decisions. Optional semi-annual reporting is preposterous. Companies with any type of financial hiccup will use it to hide volatility for as long as possible, while giving insiders 6 whole months to trade. The risk to the average investor, compared to the tiny extra profit for companies, is way too high. Other countries, who have done this are now considering a reverse course, due to the damage it has been creating. Please do not entertain re-enacting this rule again.
Thank You for this opportunity to express my concerns,
Gina Oesterle

Sandra Petersen Kimble — Jun 19, 2026

Sara Torrey — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Sara Torrey Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Quarterly reporting makes much more sense to provide accurate and timely information to investors. As we have seen in the current market, a lot can change within a very short period of time. And in the era of many more people investing in the market through their retirement plans, it is important that they can access timely, accurate information about the stocks that are held in their retirement plans, be it through a mutual fund or directly. We do not need to go backward with regard to transparency on what is happening with our investments. Please retain the quarterly reporting.
Thank you.
Sara Torrey

Sara Torrey — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Sara Torrey Affiliation: Jun. 19, 2026 As a retireee living in Galway, NY, it is extremely important to me to be able to know that the info I am using to make investment decisions is as timely as possible. We have seen this year how rapidly market valuations can fluctuate: stretching out the period for companies to report would not help the average investor - and someone like myself who worries about retirement funds - to make well-informed decisions about investments. quarterly reporting is also in keeping with the absolute need for as much transparency about a company as possible. Please do not go backward; keep the quarterly reporting requirement.
Thank you.
Sara Torrey, Galway, NY

Sara Walsh — Jun 19, 2026
Subject: S7-2026-15 Comment From: Sara Walsh Affiliation: Jun. 19, 2026 This proposal does nothing for the consumer, and only allows corporations to avoid meaningful accountability. Too much can happen in six months; quarterly is the best compromise between convenience and transparency.

Sarah Bell Customer Service Agent (partially licensed), US Bancorp Advisors — Jun 19, 2026
Subject: File No. S7-2026-15 From: Sarah Bell I'm Sarah Bell, a partially licensed customer service rep at a brokerage, and the requirement to report quarterly protects investors, investments, and markets. The current quarterly reporting schedule is not broken, so please don't change it. I don't believe any reliable CEO or corporate leader actually wants this either, as they all have their own investments and rely on accurate and timely reporting as well. A family member of mine, an eighth grade math teacher, was invested in Enron back in the day, and I remember they lost a lot of money intended to help them with retirement because of the Enron scandal. That incident caused the addition of the CEO sign-off requirement to protect everyday investors like my relative. Let's not take the American investing public on this ride again. We collectively need the transparency. Keep the quarterly reporting, keep the CEO signature requirement, and keep publicly traded firms accountable to help protect our American dream. Thank you for your consideration.

Sarah Charton — Jun 19, 2026

Subject: S7-2026-15 Comments From: Sarah Charton Affiliation: Jun. 19, 2026 The only reason to do this is to keep this information away from shareholders and the public. It represents another gift to the one percent at the expense of the rest of Americans, and will result in greater distrust.

Subject: Comment on S7-2026-15 From: sarah Greer Affiliation: Jun. 19, 2026 Sarah Greer, Director of Business Intelligence, Dallas, TX.

I see no reason to relax the quarterly reporting standard in place today. There is certainly no benefit to investors. Public companies have a duty to keep us informed and a quarterly cadence has always made the most sense. Our ability to understand the health and grow the of the companies is based on these reports. Taking this transparency away will harm investors!

Sent from my iPhone

Sarah Hansen — Jun 19, 2026
Subject: S7-2026-15 Comment from a disabled POV From: Sarah Hansen Affiliation: Jun. 19, 2026 I am disabled and generally not into financials because I get to somehow, magically live off $900 a month with health problems insurance doesn't pay for in any way (in a state where you need to make 10k a month for the bare minimum with no luxuries, mind you) so I can't really do anything to invest or have a future, let alone pay my bills, but I have a LOT of things to say about greedy corporations, the wealthy & this tyrant oligarchy we live in and none of it is nice. Companies are ALREADY extorting the people and stealing their wages (wage theft by not paying them a liveable amount based off of out of control inflation) who made their wealth while the greedy a-holes who hoard all the wealth from the people who ACTUALLY work can barely survive, and god help those who make any less or can't work at all. Those people do NOT deserve to rob the public of even

more funds and be shady crooks. Quarterly reporting should absolutely remain required by law. This oligarchy needs to stop protecting companies and the wealthy from the public who slaved for their (the rich people's) unearned money while they (the working class who absolutely matter more) get pennies for their actual work. This is America. Not Russia or North Korea. Stop protecting them! Keep America fair for the average person and keep things transparent by law!

Sarah

Sarah Rooney — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Sarah Rooney Affiliation: Jun. 19, 2026 These changes are being To the Securities and Exchange Commission for nefarious purposes. Lack of disclosure can only give rise to corruption and further enhancement of greed and dispossession of the very people who make the Exchange possible at all.

Sarah Scott — Jun 19, 2026
Subject: S7-2026-15 Comment From: Sarah Scott Affiliation: Jun. 19, 2026 I want the banks to report monthly. We all know they're a sanctioned scam running the markets. Retail Investors don't stand a chance when the bank sets the price and doesn't tell anyone. Wasn't all that long ago the JP Morgans precious metals desk got nailed for spoofing trades to drive the price so they could cash in. You want to make it easier for banks to avoid getting caught. I can't believe they didn't get convicted on the RICO charges. The big 6 banks definitely operate as an organized criminal industry.

So many bad proposals for our citizens are made since Trump took office.
We all need to be vigilant for our government, laws, rules, economy, nation, etc.

Savannah Hoover — Jun 19, 2026
Subject: S7-2026-15 Comment From: Savannah Hoover Affiliation: Jun. 19, 2026 Name: Savannah. Job Title: Personal Trainer. This matters to me because companies should be transparent with all interested shareholders, not just some.

Scot Mehl — Jun 19, 2026
Subject: File No. S7-2026-15 From: Scot Mehl I understand submitting quarterly reports can be burdensome to the filer and may also encourage short term thinking in terms of the stock price. However, the quarterly reports are the only way for investors to understand what trends are happening with the company and to establish a reliable track record. I also think too many companies try to justify their filings with explanations and providing guidance. The best thing to do to stop short term investing is to stop providing guidance. Too many investors rely on the guidance when buying or selling stocks rather than looking at the current numbers and track record or the company.

Scott Baker — Jun 19, 2026
Subject: File No. S7-2026-15 From: Scott Baker Individual investors deserve more information, not less. Quarterly filing requirements do not place an undue burden on companies -- the S&P 500 is at an all time high. The kinds of companies who would take advantage of the proposed rule are the

ones with something to hide. The gap in knowledge between insiders and individual investors would grow much larger under the proposed rule. Institutional investors have resources to pay for information from third parties (like getting satellite pictures of parking lots). Individual investors rely on quarterly reporting. Please keep the quarterly reporting requirements as they are.

Scott Bruce — Jun 19, 2026
Subject: S7-2026-15 Comments From: Scott Bruce Affiliation: Jun. 19, 2026 Richard Scott Bruce Plant Manager

I don't think this change is in my or any other regular investors best interest. The savings are not great enough to upset the current reporting schedule. The existing regulations are not onerous.

Best Regards,
Scott Bruce

Scott Chase — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Scott Chase Affiliation: Jun. 19, 2026 I dont support eliminating quarterly reporting for publicly traded companies. It is important for investors to have timely information.

Scott Crooke Has a series 6 through Primerica — Jun 19, 2026
Subject: File No. S7-2026-15 From: Scott Crooke Going to semi-annual reporting would double the amount of time between reports that help support the trust and integrity of the system. We know that without the specific reporting mandates the companies will not volunteer the information. Having them share the progress to the owners of their companies on a quarterly basis seems like the very least requirement they could do. If you owned a business, and the person running the business said, these quarterly meetings are taking up too much of my time, I would like to only meet with the owner twice a year. You may wonder if that person is the right person to run your business.

Seta Nersessian — Jun 19, 2026
Subject: S7-2026-15 Comment From: Seta Nersessian Affiliation: Jun. 19, 2026 Transparency and timely reporting should be the standard of care for all public companies whose duty it is to carry out this standard of care to ALL shareholders - small investors and large. Where is the burden to these companies in continuing quarterly reporting ? Those systems are in place. What problems is this new scheme fixing? What are the benefits to shareholders, especially the smaller ones?? I see none. I urge the SEC to not change required quarterly reporting requirements - they should NOT become optional. Personally, a small investor, I depend on quarterly information on the stocks in my portfolio in order to make informed decisions. For my estate planning and administration clients, simply put, more information is always better than less. I am an attorney and reside outside of Boston. S V Nersessian, Esq.

sharlene arnason — Jun 19, 2026
Subject: S7-2026-15 Comment From: sharlene arnason Affiliation: Jun. 19, 2026 I'm taking the time to write to you regarding the ill conceived proposal which would change public companies quarterly reporting obligations to only twice a year. I oppose this lack of oversight because:
• Quarterly reporting promotes transparency and timely disclosure of risks, helping markets incorporate material information more quickly and accurately.
• Investors receive more current information for pricing stocks accurately, which supports efficient price discovery and fair valuation.
• Reduces information gaps that can favor insiders, strengthening investor protection and promoting a more level playing field.
• Enhances market accountability and corporate discipline, encouraging management to address issues before they become more significant.
• Improves capital allocation and investor confidence, enabling investors to direct funds toward stronger opportunities and supporting overall market efficiency.
• Helps identify financial distress before problems escalate, allowing investors and regulators to respond earlier and reduce potential harm.

It's simply irresponsible to even consider this proposal. Please consider taking your positions of leadership within this agency more seriously and lead with integrity. This proposal isn't it.

Sharon Wiggins — Jun 19, 2026
Subject: S7-2026-15 Comment From: Sharon Wiggins Affiliation: Jun. 19, 2026 Sharon Wiggins Retired Pastor, Former CPA

I understand filing quarterly is work for individual corporations. However, with all the aides to record keeping such as computers and all of the advances in AI, I do not believe there is any legitimate reason to reduce the about of information available to shareholders and the public regarding SEC Filings. While many of us would encourage management to look at the longer view as well as immediate profit, regular timely information is still needed.

Thank you

Rev. Sharon Wiggins

Shaureece Park — Jun 19, 2026
Subject: S7-2026-15 Comment From: Shaureece Park Affiliation: Jun. 19, 2026 Hi my name is Shaureece Park, and I am a Director of library administrative services and I am invested in several different companies, both directly and as part of my retirement portfolio. It’s important to me that

quarterly reporting stay in place because it ensures the companies are accountable to their investors and it helps me make decisions about any investments I have made. Quarterly reporting gives investors a much better insight to the actual trends of the company's financial state. Allowing less frequent reporting is convenient for the companies in a lot of ways But it does not allow for the important accountability that must be in place.

Shawn Frazier — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Shawn Frazier Affiliation: Jun. 19, 2026 Please look at the historical performances during semi annual reporting. Our country did not do well with returns which is why quarterly reporting requirements were instituted after 1970. Please don't return us to this darkness of semiannual reporting. It didn't work the first time.

Thank you

Shawn Kelley — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Shawn Kelley Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission: I and everyone that has money invested into any and all companies. Needs to have the right to see whats going on before it makes, it so we that have money invested do not end up with our money being used by the compaies we have invested in a wrong way, That can make us loose our money we have investments. Most people that do business are not as honest as we would like for them to be. I and all people that have invested money into companys need and want the right to watch over there business practiceses. Its bad for investors to be left in the dark for half a year. No company should be able to hide vital information ! Keep the quartaly reports ! So , we can make sure not to end up bank rupt by businesses that are crupt. So the SEC Proposal is very bad for investors. We all want the right to make sure that bad business decidestons are not being made with our money. Many of us have worked very hard for the money we have invested and do not want to loose it because we will be blindsided by the businesses we have invested into.The SEC how quarterly disclosures help you make informed decisions, and that the SEC shouldn't take vital information away from you.

Subject: Comment on S7-2026-15 From: shelley muret Affiliation: Jun. 19, 2026 My husband worked hard to leave me with enough to keep me when he died. I’m not happy to have this change and think he worked that hard for nothing.

---

shelley muret — Jun 19, 2026
Subject: Comment on S7-2026-15 From: shelley muret Affiliation: Jun. 19, 2026 Hey there,

I've been doing a lot of reflecting lately, and my thoughts keep circling back to everything that's happened since [Husband's Name] passed. It's still incredibly hard to process, and honestly, a bit surreal sometimes.

He truly worked so hard to make sure I would be taken care of, and he really did a fantastic job of planning things out for my future. He left me in a comfortable position, which I know was his ultimate goal and a testament to his love.

But despite all his incredible foresight and effort, I find myself feeling a profound sense of sadness. It's not about what he left behind, but rather the reality that he's not here to share it with. All that diligent work, born out of such a loving and protective spirit, now just feels like a bittersweet reminder of his absence. It's tough to reconcile that all his striving was for a life I now have to navigate without him. In a way, it feels like his hard work, as wonderful and thoughtful as it was, couldn't prevent the ache of this new chapter. I'd trade it all for just one more moment with him.

Just wanted to share a bit of what's been on my mind.

Hope you're doing okay.

Sheri W — Jun 19, 2026
Subject: S7-2026-15 Comments From: Sheri W Affiliation: Jun. 19, 2026 We need to stop allowing the back room deals, the blatant dismissal of integrity, keeping things on the up & up & disregarding of laws & ethical standards all in the name of making the rich richer (& by doing so making the poor poorer). This shouldn’t be what America is about & I truly believe that it isn’t what the founding fathers intended for America to be. Crooks shouldn’t get rewarded for being crooks, felons shouldn’t be in charge of how our country is run & transparency, honesty, integrity, & ethical standards should be the foundation of our country/society instead of secrecy, dishonesty, indecency, & unethical practices that allowing corporations to “go dark” for 6 months would encourage. Allowing this practice would do nothing good for our country, economy, reputation as a “world power” & would continue to encourage the fleecing of the American people.
It’s time to start doing the right thing.

Dear Sir or Maam, Please keep Security and Exchange reporting available. Public companies should be sharing information that helps us make choices regarding investing. Thank you for listening, understanding and moving to make investing as useful as possible for this country's citizens.
Best Regards, S. Montagna.

Sherri Rodgers Retired, Private Investor — Jun 19, 2026
Subject: File No. S7-2026-15 From: Sherri Rodgers I am writing as an individual investor to express my opposition to the proposal that would permit public companies to replace quarterly financial reporting with semiannual reporting. The current system of required quarterly reporting provides investors with access to timely, reliable, and standardized information. While I understand the desire to reduce regulatory burden, I believe the proposed change would weaken investor protections and reduce the quality of information available to the market. Less frequent reporting would reduce transparency. Investors rely on quarterly reports to evaluate changes in revenue, profitability, cash flow, debt levels, and business risks. Extending the reporting interval from three months to six months would delay access to critical information and make it more difficult for investors to make informed decisions. The proposal may also increase market volatility rather than reduce it. In the absence of regular, standardized disclosures, investors would be forced to rely more heavily on rumors, analyst estimates, selective corporate communications and speculation. This could lead to larger market reactions when financial information is eventually released. Additionally, less frequent reporting could delay the discovery of emerging financial or operations problems. Quarterly reporting serves as an important accountability mechanism for management teams and boards of directors. Investors should not have to wait six months to learn about significant deterioration in a company's

performance, liquidity, or risk profile. Finally, the SEC's mission includes protecting investors, maintaining fair, orderly, and efficient markets, and facilitating capital information. In my view, reducing the frequency of required financial reporting would undermine the first two objectives without providing sufficient evidence that it would meaningfully advance the third. For these reasons, I respectfully urge the Commission to reject the proposal and retain quarterly reporting requirements for public companies. Thank you for considering my comments. Sincerely, Sherri Rodgers

Keep this reporting QUARTERLY!
Lately we have seen how accountability is disappearing, and THIS is one area where the public needs to stay informed.
Six months is too long a stretch to be unaware of some of the fluctuations and fraud that could appear. Too much time to hide it. By then it may be too late to take action. Keep the window for fraud to grow as short as possible. Reporting needs to be AT LEAST every 3 months.

Sherry Cooper — Jun 19, 2026

Shodo Spring — Jun 19, 2026
Subject: S7-2026-15 From: Shodo Spring Affiliation: Jun. 19, 2026 The quarterly reporting is essential and must stay. Removing it is a gift to criminals masquerading as business owners.
My name is Shodo Spring, of Faribault, MN. I'm a priest, a retired psychotherapist, a grandmother, and someone who quit investing years ago. I don't have money to invest. But I know corruption when I see it. I know that the balance of wealth in this country has swung immeasurably to the ultra-wealthy, while people like me shop at food banks and thrift shops. I'm making an effort to contribute to the well-being of my community. Donald Trump is trying to fleece the country, to raid its storehouses, and to make sure only heterosexual white men of property have any rights at all. Time to stop him. Don't help him.

Shy — Jun 19, 2026
Subject: S7-2026-15 From: Shy Affiliation: Jun. 19, 2026 I am S.H. from Alaska. Public companies have already shown that quarterly reporting is necessary through consistent illegal actions. Allowing companies and their investors to determine the reporting frequency that best serves their business

needs shows intent to behave in a manner that simple quarterly reports would expose them for. Following the law and refraining from fraud makes the cost and management time of preparing the quarterly reports worth every public businesses investment. It is more important to keep companies responsible than it is to influence companies to stay public.

Sian Lane — Jun 19, 2026
Subject: S7-2026-15 From: Sian Lane Affiliation: Jun. 19, 2026 Easier to buy and bribe and lie is NOT what this country needs right now! Conglomerations are being allowed, our elections and government is being purchased for waivers and favors and pardons. In this place where The Peolle are supposed to decide what happens, The People are being billionaired out of financial being, food that's safe, health that's safe and regulated safe. Checks, balances, investigations, law and even our Civil Rights...ANY RIGHTS. Some billionaire needs this to hide more money. That's it. And right now, I suspect, with Trump and the heritage foundation (et all) selling our land, our lives, DEMOCRACY AND THE CONSTITUTION. ALL for the rich to own and the people to serve and die. THIS CORRUPTION MUST STOP!!!!!!!

the more frequent the monitoring, the harder it is to sneak things past the average consumer.

Simon K. — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Simon K. Affiliation: Jun. 19, 2026 Eliminating quarterly

reporting would disadvantage small investors by removing timely decision-making opportunities, while insiders could exploit their knowledge for unethical and illegal gains before regular investors react. Take in consideration that small investors sometimes put their life savings into their portfolios and will be dependent on untimely disclosure of facts within a time horizon that can create a harm to investor's lifetime investments. I strongly belief that passing such a law would be absolute disgrace to all investment community. I personally heavily depend on quarterly reporting to make an informed decision to take appropriate actions and to postpone reporting by several months is a huge difference to act . In addition, small investors do not get bailed out when something goes wrong BUT Large investment firms always do. Take that also in consideration when making your decision please.

Southern Grit Shearing — Jun 19, 2026
Subject: S7-2026-15 Comment From: Southern Grit Shearing Affiliation: Jun. 19, 2026 Justin S.
Owner/Operator,
Southern Grit Shearing

Quarterly reporting is one of the most important tools a CEO can use to keep a company on track. Waiting until the end of the year to review performance can allow problems to grow unchecked. Reviewing results every three months gives leadership a chance to see what is working, what is not, and what needs immediate attention.

From a financial standpoint, quarterly reports provide a clear picture of revenue, expenses, profitability, and cash flow. This information helps management make better decisions and adjust plans before small issues become larger problems.

Quarterly reporting also creates accountability. Managers and department leaders know their performance will be reviewed regularly, which helps keep teams focused on company goals and priorities.

For investors, lenders, and business partners, regular reporting demonstrates transparency and professionalism. It shows that leadership is actively monitoring the business and making decisions based on current information rather than assumptions.

Most importantly, quarterly reporting helps CEOs identify trends early. Whether sales are increasing, costs are rising, or operations are becoming less efficient, leadership can respond quickly instead of reacting months later.

Eliminating quarterly reporting can have significant drawbacks. Without regular reviews, financial issues may go unnoticed for longer periods, making them more difficult and costly to correct. Management may lose visibility into key performance indicators, reducing its ability to make informed decisions. Accountability can also decline when performance is only evaluated annually, allowing underperformance to persist without timely intervention.

In addition, investors, lenders, and board members may have less confidence in the organization's leadership if they receive fewer updates on company performance. A lack of regular reporting can create uncertainty, reduce transparency, and make it harder to secure financing or attract investment. Companies may also miss opportunities to adjust strategy quickly in response to changing market conditions.

In short, quarterly reporting keeps companies focused, accountable, and informed. It provides the information needed to make sound decisions, manage risk, and support long-term growth. Doing away with quarterly reporting increases the risk of missed problems, delayed decisions, reduced transparency, and weaker overall business performance.

Warmest wishes,

Justin Shank,

Staci Gibson

STACI SARKIN — Jun 19, 2026
Subject: Comment on S7-2026-15 From: STACI SARKIN Affiliation: Jun. 19, 2026 I am writing to oppose any rule change that would eliminate or weaken the quarterly reporting requirement for publicly held companies.

Quarterly reports are one of the most basic tools individual investors have to assess the health of the companies we invest in. Moving to semi-annual reporting would double the amount of time that material problems — declining revenue, mounting debt, executive turnover, fraud — could go undisclosed to the public. By the time a problem surfaces in a six-month report, investors may have already absorbed significant, avoidable losses.

This isn't an abstract concern. I've spent my career in industries where financial instability moves fast, and I've seen firsthand how quickly a company's position can shift in a matter of months. Reducing reporting frequency doesn't reduce risk — it just delays when ordinary investors learn about it, while insiders and large institutional shareholders typically have other channels of information that retail investors don't.

Proponents argue less frequent reporting would reduce compliance costs and short-termism. Those costs are real, but they should be weighed against the cost of reduced transparency to the millions of retail investors, including those saving for retirement, who rely on timely, regular disclosure to make informed decisions. If the SEC is concerned about short-term pressure on executives, there are more targeted ways to address that without cutting investors' access to information in half.

The primary purpose of the SEC is to protect investors, maintain fair and orderly markets, and facilitate capital formation. This move does nothing to protect investors, rather it shields companies from the very transparency it is your job to facilitate. Therefore, I urge the Commission to preserve the quarterly reporting requirement.

Respectfully Submitted,
Staci Sarkin
California

Stacie Terrell — Jun 19, 2026
Subject: File No. S7-2026-15 From: Stacie Terrell Regarding File Number S7-2026-15, I respectfully request that you do not make this change. The companies that will choose to report less are the ones who are trying to hide something. Large companies monitor their finances very carefully. They already have sufficient information to make the quarterly reports, and they will continue to have that. Corporations need to be held accountable to their employees, to their stockholders, and to the public in general since they have impacts on the economy.

Stacy Calderone — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Stacy Calderone Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:

This is absurd! Do the right thing! Do not allow companies to keep secrets. Enforce the quarterly reports to remain public - they are called publicly traded companies for a reason! This is how I make my decisions - I listen to the recorded calls if I can't attend.

Stacy Erickson — Jun 19, 2026
Subject: S7-2026-15 From: Stacy Erickson Affiliation: Jun. 19, 2026 Please keep the quarterly reporting!

Stacy Fishkin — Jun 19, 2026
Subject: S7-2026-15 Comment From: Stacy Fishkin Affiliation: Jun. 19, 2026 There was a very good reason for requiring quarterly reporting and I see no reason for changing this rule. Changing this rule is yet another indication that this government doesn’t care about laws and is only interested in making it easier for the wealthy to cheat. That’s just wrong.

Sent from my iPhone

Stan Galanski — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Stan Galanski Affiliation: Jun. 19, 2026 I am writing in support of retaining quarterly financial reporting for public companies. In order for investors to have a clear picture of the financial and operational performance of a corporation, six months is simply too long of a time period for investors to make timely and informed decisions about their investment or potential investment. This is particularly true for individual investors like myself, who rely on the quarterly earnings releases, earnings calls and the subsequent analysis of performance by individual analysts. Particularly in an era in which data/ analytics and now artificial intelligence are changing the game for large institutional investors, it is not the time for reducing the frequency or level of disclosure.
I have spent about twenty years as a public company CEO of Intercargo Corporation (1987-1999) and The Navigators Group Inc. (2003-2019) and currently serve as a non-executive Director of both

public and privately held corporations. I believe it would be an error to reduce disclosure and financial reporting requirements which corporations now accept and frankly are better managed as the result of both SEC and rating agency oversight.

Starsky Jimenez — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Starsky Jimenez Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
We need this information to continue to be disclosed quarterly to be able to make informed decisions prior to investing. Make policies that help everyone, not just large investors.

Stella Kalfas — Jun 19, 2026
Subject: S7-2026-15 Comments From: Stella Kalfas Affiliation: Jun. 19, 2026 Quarterly reporting promotes transparency, strengthens corporate governance, and helps detect financial deterioration, fraud, or operational challenges sooner rather than later. In today's fast-moving economy, six months is too long for investors to wait for meaningful financial updates from public companies. The people most harmed by reduced reporting are individual investors, retirees, and pension funds, while the primary beneficiaries are corporate executives who would face less scrutiny from shareholders.

If the boards only saw financial statements twice a year instead of quarterly, problems could grow for months before anyone outside management recognized them.
Quarterly reporting should be the rule.

Stella Mariani-Gonzalez — Jun 19, 2026
Subject: S7-2026-15 Comments From: Stella Mariani-Gonzalez Affiliation: Jun. 19, 2026 Absolutely NO, corruption is rampant in the US. The disproportion of wealth is criminal. We need full transparency!

Stephen King — Jun 19, 2026
Subject: S7-2026-15 Comment From: Stephen King Affiliation: Jun. 19, 2026 My name is Stephen King, my opinion is to keep them reporting quarterly. As an example, AEP reports quarterly earnings in the millions while raising rates on it's customers to cover the cost of regular business. We are forced to pay for fuel used years ago, forced to pay for the lines going to data centers and forced to pay for people who can't pay their own usage. I can remember when Bell Telephone got broken up by the government in the name of competition, communication is now more complicated and more expensive. Longer periods of time in between reporting will give companies more time to hide / deceive not only their customers but the government regulators.

Stephen Lynch — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Stephen Lynch Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
The success of our financial system and stock markets is based on trust. That trust is built on a system that is fair and transparent. By adopting a rule that will allow reporting to go dark for six months at the same time that software and AI make it cheaper, easier and faster to comply with reporting requirements will hurt the reputation of our markets.
It is obvious that this rule is another step in the scammification of our markets under the Trump administration. Shame on you SEC.
reject this rule.

Stephen Parker — Jun 19, 2026
Subject: S7-2026-15 From: Stephen Parker Affiliation: Jun. 19, 2026 Keep the rule in place. I would argue that you double the penalty, fine them a percentage of the lie and donate those funds to the hungry and the homeless.

quartly reporting. Keep quartly reporting.

Stephen Terleski — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Stephen Terleski Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I strongly object to this proposal! We need vigilance and transparency in the market - not looser reporting requirements!
This proposal eases the requirements for corporations- and increases the opportunity for fraud and insider dealings. And it leaves small investors in the dark!
The little guy in the market is always at a disadvantage. It is not the corporations who need relief - it is the investors!!
Just say no.

Stephen Watkins — Jun 19, 2026
Subject: S7-2026-15 Comments From: Stephen Watkins Affiliation: Jun. 19, 2026 How many times are we going to fail to learn the lessons of the past? The current bend towards lawlessness perpetrated by the Super Majority on the Supreme Court cannot be bolsterd by Congressional complicity if our Republic is going to survive.

Stephen Woodgate — Jun 19, 2026
Subject: S7-2026-15 Comment From: Stephen Woodgate Affiliation: Jun. 19, 2026 A six month focus is no more long-term than quarterly and boards will in fact want monthly updates. The competitive environment will not shorten its timeframe on competitive moves, competitors will just be less aware of what a company is doing and will have less time to adjust. Overall this lessens transparency and reduces competition.

Steve Abbott — Jun 19, 2026
Subject: S7-2026-15 From: Steve Abbott Affiliation: Jun. 19, 2026 I support maintaining the requirement that holds corporations to quarterly financial reports and leads to prison for any executive who violates the regulation—which is a protection of investors and consumers, and which is hardly burdensome to businesses. Current computer software makes such reports, though extensive, relatively easy to compile.

I lost thousands of dollars in the 2008 financial crisis, which was a significant blow to me and my family. That crisis was made not only possible but unsurprising, given the opportunity lax oversight gave to corporate executives. That situation allowed them ample time to carry out their casino behavior and theft without detection (or, more specifically, clearly necessary federal oversight).
The greed that drove Enron and Halliburton is, sadly, more widespread today. The pressure on executives to produce increased quarterly earnings is supplemented by stakeholders' expectations of double-digit returns on investment, creating conditions that make risk-taking more attractive. Mr wife and I are retired Now, loving something less than the American Dream of hard work, saving money, prudently investing, and expecting that our trust in both government and business would produce the rewards that Dream offers.

So please, think of citizens like my wife and me and other people like us, people with a basic knowledge of finance and investing who count on corporate leaders operating ethically. But since ethics now seem to be in freefall in both government and business, the close monitoring that quarterly reporting provides should definitely be retained. Please don't let the concerns and financial well-being of the little people like us be brushed aside by corporate lobbyists.

Steve Stoddard — Jun 19, 2026
Subject: File No. S7-2026-15 From: Steve Stoddard Quarterly reporting keeps corporations (more) honest and the public more informed. Cutting that back to twice annually gives corporations opportunities to hide things that shouldn't be hidden and makes the shareholders and the public less informed and less able to make the right investment decisions. There's a good reason why they have to report quarterly.

Steve Stump — Jun 19, 2026
Subject: S7-2026-15 Comments From: Steve Stump Affiliation: Jun. 19, 2026 As a retired person with crucial retirement investments, I think it is essential that investment reports be issued quarterly, not two times per year as you are proposing. Steve Wolff The Motley Fool Community — Jun 19, 2026
Subject: File No. S7-2026-15 From: Steve Wolff As an investor and former financial advisor, going from 4 reports per year to 2 per year is moving in the wrong direction. As both an investor and an advisor, in order to properly protect our investments and investors, we need to have more information, not less. The places where they tried this did not have the intended results of not managing to the quarterly numbers. If I own part of a company, I want to know more about what is happening, not less. Six months between reports is way too long. Too many things can happen in that time span that could very definitely negatively impact the company, and therefore, my personal wealth. Please do not cut off the quarterly information flow. If you really want to help investors, outlaw class action lawsuits. Many companies manage their businesses to avoid frivolous lawsuits . If they are sued, most companies end up settling the suit because it's cheaper to settle than litigate. This drains valuable capital (and time) from these companies that could be better used to invest in the future, pay more dividends or buy back stock. And, unfortunately, most of the money won in these suits goes to the attorneys who filed the suit while a pittance goes to the investors who actually lost money.

Steven A. Haws — Jun 19, 2026

Steven Svendsen — Jun 19, 2026
Subject: File No. S7-2026-15 From: Steven Svendsen As a small retail investor who is semi-retired, it is vital that I have access to pertinent and timely information about the companies I have ownership in, and the ones I may be interested in becoming an owner in. Semiannual reporting will only benefit insiders and institutional investors, while creating an information gap that hurts the small retail investors ability to stay informed and manage their investments. Transparency and quarterly reporting are especially important with the smaller companies in more volatile sectors that are not in the headlines everyday if we want them to be considered investable. With indexes near all time highs, and the recent size of IPO's taking place, it would seem that American businesses are doing just fine under the present system of quarterly reporting and changing to semiannual reporting would do more harm than good to the average American trying to partake of the same privileges and opportunities as the Wall Street titans.

---

studio360 — Jun 19, 2026
Subject: S7-2026-15 Comment From: studio360 Affiliation: Jun. 19, 2026 If you are investing your money in a company, I believe it's the company's responsibility to let the investor have information in a timely manner so that informed decisions can be made. In this day and age, with all the types of information exchange it seems counterintuitive to take away the quarterly reporting requirements. I strongly urge you to reconsider the proposal to reduce the reporting to twice a year for that would take away a major tool for investing. Thank you for your consideration in this. Sincerely, Paul Trentelman

Susan Bloch — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Susan Bloch Affiliation: Jun. 19, 2026 This new 6 month proposal is dangerous and underminds the markets and American faith in businesses.

Susan Bridges — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Susan Bridges Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I have some investments in stocks and bond portfolios.
it's critical to know how companies and stocks are performing to make adjustments.
Six months is much too long to wait for updates.
With this proposal, a huge unfair advantage will be given to insiders.
it will also endanger market stability.
keep quarterly reports.

Susan Burrows — Jun 19, 2026
Subject: S7-2026-15 From: Susan Burrows Affiliation: Jun. 19, 2026 If seniors, retired persons, independent business owners, and others needs to submit quarterly reports (of various types) that effect very few people, there is no excuse except greed to not hold major CEOs to the same quarterly schedule. What they do can effect millions of people.

Sincerely,
Susan Burrows
Eagan, MN

Susan Butler — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Susan Butler Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Your existence has been to protect consumers. This has been the duty of the SEC. Keeping trading aboveboard. YouTube proposal to reduce monitoring is sure to benefit the rich who will violate regulations in the absence of monitoring. This will find ways to hurt those. Of us who have followed rules. I lost a hundred thousand dollars on my home due to the mortgage crisis.

Do your job. Protect the citizens of this country.

Susan Dunaway — Jun 19, 2026
Subject: S7-2026-15 Comment From: Susan Dunaway Affiliation: Jun. 19, 2026 Linda S Dunaway, retired, Want quarterly reports for all investments so we can make adjustments if needed quarterly! Every 6 months is not good for older investors.

Susan Epstein — Jun 19, 2026
Subject: S7-2026-15 Comment From: Susan Epstein Affiliation: Jun. 19, 2026 At a time when the checks and balances built into our institutions are being ignored by the people running our government, we need more transparency about business practices and earnings, not less. We need oversight on a regular basis, not intermittently so companies have more freedom to scheme to abuse the system. Also, why don't we have more peopkle hired at the SEC? Like the IRS, the more enforcement we engage in, the less corruption we're likely to have and the more money owed to the government we can righteously collect. The Republicans are gutting our countrty and robbing us blind. Time to stick to a level of accountability that makes it worth playing by the rules again.

Susan Estrada — Jun 19, 2026
Subject: S7-2026-15 Comments From: Susan Estrada Affiliation: Jun. 19, 2026 Susan Estrada, retiree - People cannot live life financially on the whim of these organizations and "hope" all stays well. Especially in today's financial market. people are living moment to moment financially, and not knowing this part of their finances is incomprehensible. The SEC needs to stay on the side of the United States citizens and continue to require this quarterly information.

Founder and Chair of Environmental Non-Profit
Minneapolis, MN

Keep it Quarterly. Longer gaps between public reports widen the gap between what powerful insiders know and what the regular investor knows. Keep it more fair and transparent.
As a retired person, a huge unexpected drop in my net worth may not be recoverable in my lifetime. I've worked hard to save. Don't let cheaters cheat me out of knowing what's happening in the market.

Susan Grefer — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Susan Grefer Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
My view on S7-2026-15
Quarterly disclosure is vital for all. It has worked for decades and must not be changed.

Susan Hallenbeck — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Susan Hallenbeck Affiliation: Jun. 19, 2026 I worked hard all my life and built up retirement savings. With threats to the continued viability of Social Security, I cannot afford to lose significant portions of my retirement savings to corporate malfeasance.

The current rule requiring companies to report on earnings quarterly means that investors have multiple opportunities each year to evaluate a company's direction and operation and make investment decisions accordingly. Allowing corporations to hide their activities and report only twice a year will negatively impact investors' ability to make prudent decisions.

I do NOT support changing the current SEC regulation. Companies should continue to be required to report their earnings on a quarterly basis.

Susan Hallenbeck, Florida resident, semi-retired

Susan Hayden — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Susan Hayden Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
With this proposed rule, investors will not receive quarterly reports thus hampering all chances of making wise investments. Public companies are public entities and thus all of their information should by law be available to the public at quarterly intervals. Keep transparency in the stock investments.

Susan Hecht — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Susan Hecht Affiliation: Jun. 19, 2026 This is outrageous! I keep telling everyone that these guys are going to break the world with the things they are doing.! This cannot be allowed to happen! We don't need to do this because a handful of old white men with big bank accounts think they know more than the people that have studied the economy, the people, and how money truly works! If it isn't one thing, you guys are getting your paws into every honey jar you can find! I hope charges are brought against you and that you need to serve jail time!

Susan Hooten — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Susan Hooten Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
corporations that are publicly traded have a fiduciary duty to provide information for "owners" to

make informed decisions. It is unreasonable to think a ceo / cfo The Whole c suite wouldn't be looking at financials at least quarterly . They should be signing off on this information and providing it on a regular basis. Do not lower regulations governing making information available and up to date in a timely manner so that investors can make informed decisions. Along with signing off on financials information about upcoming product releases, pending lawsuits etc ... things that impact forecasting should be shared more than with an annual audit!!

Susan Hultgren — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Susan Hultgren Affiliation: Jun. 19, 2026 Please, please stay with quarterly reporting. We are retired on a low income compared to many. We can’t afford to lose more money. We live in Tennessee. We’re supposed to be enjoying life at this age - not choosing between our medicines and food. So many people here in TN are worse off and struggle. Don’t take away our savings. Our working children struggle to save for the future. This isn’t right. Please do the right thing.

Susan perry — Jun 19, 2026
Subject: S7-2026-15 Comment From: Susan perry Affiliation: Jun. 19, 2026 This would only hurt say 80-90% of the country. What's that to big business? What that means for big business would be an immediate reduction in revenue to any company finally found to becoming Enron. But the public has power and it would be detrimental in a larger way if twice the damage happens while some outside source isn't able to watch. Many small companies have ethics, probably most, but those people that run and own a significant part of what happens here in the US own enough that they don't care at all about their consumers and thus their investors and those are the ones that unless someone is watching will ruin lives while no one's looking. Don't give them 50% less overwatch, it would suddenly be a single parent home whose single parent wouldn't have time to watch all the naughty business children.

Susan Pettis — Jun 19, 2026

Susan Rains — Jun 19, 2026
Subject: S7-2026-15 From: Susan Rains Affiliation: Jun. 19, 2026 Stop this nonsense. If you commit fraud you do the time behind bars like anybody else. Stop always trying to get away with crimes!!

Susan Rankert — Jun 19, 2026
Subject: S7-2026-15 Comment From: Susan Rankert Affiliation: Jun. 19, 2026 It is imperativ that Quarterly Reporting of a corporation’s financials continues to be required. As an older woman whose economic wellbeing in retirement is dependent upon investments carefully made- not having the same information as the company insiders and their circle puts my stability at risk.
The opportunities for insider trading essentially being made legal puts the ordinary American at a disadvantage.
Companies like Enron that had been able to hide their dire financial situation from the public left thousands upon thousands of retirement accounts in tatters, while those few within the corporation that were aware of the truth actually made money from the failures. That is not how it should work.
Continue to insist on financial transparency and continue to require Quarterly Reports

The only thing necessary for the triumph of evil is that good men do nothing.

Susan Rhuart — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Susan Rhuart Affiliation: Jun. 19, 2026 To the

Susan Saladin — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Susan Saladin Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Do not make this change allowing companies to change from quarterly reporting to semi-annual reporting. First, I feel this will make it harder for me to assess and manage my investments. Secondly, any potential savings that could result from dropping 2 of the mandatory 4 reports per year, are minimal compared to what the investors will lose in important information. And, lastly... why, why, why is this newly proposed rule better, or even necessary????? Stay the course with mandatory quarterly reporting!!!!
Thank you for listening to my concerns and opinion.

Susan Salter — Jun 19, 2026
Subject: S7-2026-15 Comments From: Susan Salter Affiliation: Jun. 19, 2026 SEC--why the newly desired secrecy? Le't keep up the quarterly reporting and the needed openness. Otherwise, What are you hiding?

Susan Santry — Jun 19, 2026
Subject: S7-2026-15 Comments From: Susan Santry Affiliation: Jun. 19, 2026 It is of the utmost importance that the SEC continue to require quarterly reports. The oversight is necessary to keep an eye on politicians, big corporations especially in light of insider trading - it is rampant. Please keep these reports quarterly. The working class needs the SEC to keep an eye on Wall Street, the government and big business.

Susan Schneider — Jun 19, 2026
Subject: S7-2026-15 From: Susan Schneider Affiliation: Jun. 19, 2026 SEC Rules Committee,

Under the new rule, corporations can sit on bad news (like failed product launches, ballooning debt, lawsuits, and vanishing customers) for half a year—plenty of time for insiders to quietly sell their shares to none-the wiser individual investors (or their ETF) before the bad news tanks the stock. And that's unfair and avoidable. Our portfolios are out of time to be able to recover if things go south due to lack of oversight. And who ultimately loses? The the individual investor, the retiree on a fixed income—the people who can least afford even modest losses.

A small regulation could be so consequential to millions of honest, hard working Americans if discontinued. Please give the regular retiree investor a fighting chance to be informed. Do not change the reporting requirement to once in six months. Keep the quarterly reporting requirement.

Susan Schneider

Suz Gates — Jun 19, 2026
Subject: S7-2026-15 Comment From: Suz Gates Affiliation: Jun. 19, 2026 I am writing to express my strong opposition to the proposed changes regarding quarterly reporting requirements.

Given the history of corporate misconduct, specifically referencing the Enron scandal, the regulations established to prevent the abuse of power remain essential. Reverting these standards undermines transparency and risks further financial impropriety. It is vital that these reporting measures are maintained to ensure accountability and protect the public interest.

I urge you to reconsider this position and uphold the current quarterly reporting standards.

Best regards,

Suzanne

Suzan Harden — Jun 19, 2026
Subject: S7-2026-15 Comment From: Suzan Harden Affiliation: Jun. 19, 2026 American investors deserve every possible opportunity to evaluate their financial standing. Reports should remain quarterly.

Suzan Harden

sven wallin — Jun 19, 2026
Subject: S7-2026-15 Comment From: sven wallin Affiliation: Jun. 19, 2026 Quarterly reports are better in reducing fraudulent expenses or activity...

If I was to invest, I would expect full transparency every quarter.

With a 6 month rule as proposed, I won't do any investments period and a lot of lenders can back out or deny financing as that 6 month gap puts extra burdens on our banks and can/will drastically change bank financing...

So either the SEC can fix this or they can expect to loose large amounts of money in the future... Now imagine what happens when you do this as I project financial chaos in 2 or so years... As for everything else going on...I called all of it and was right... I'm a technical analyst by skill and trade, I'm also a master tactician thanks to The Art of War (which can be applied to business strategies and tactics)and I see the banks, mostly small ones going broke or reducing future gains and increase in the consumer burden given the already outrageous prices on everything... Like scrooge who had his chances for redemption and this is yours... Vote against this bill. Otherwise, I can't tell you the outcome, but the people your screwing now all have the power to stop this bill and hopefully it never passes...

Tamara Krinsky — Jun 19, 2026
Subject: S7-2026-15 Comments From: Tamara Krinsky Affiliation: Jun. 19, 2026 My name is Tamara Krinsky. I'm a writer and live event producer and I am completely against this rule change. Companies still have to keep their books and brief their boards, so the actual savings from skipping a public filing are minimal. But ordinary investors like myself will have less information about how our retirement and college savings could be affected. This is NOT a good situation for working class Americans, especially those of us who work outside the corporate sphere. We already have so few tools to protect ourselves - please do not take away one of the few levers to demand transparency we currently have.

Tamara Schendel — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Tamara Schendel Affiliation: Jun. 19, 2026 Since I am investing in companies, I deserve to know all about their company in REAL time. Corruption can go on longer if no one is watching. Look what happened to Boeing- when the government wasn’t looking planes started crashing. No one’s watching quality drops. Do NOT allow this change .

tammie olaker — Jun 19, 2026
Subject: Comment on S7-2026-15 From: tammie olaker Affiliation: Jun. 19, 2026 My name is Tammie Olaker. I retired this year after 33 years as a payroll and accounting professional. The SEC needs to put a hard stop to this current proposal to lessen the amount of corporate transparency and scrutiny. If anything, we need more frequent reporting, not less. Quarterly reporting allows investors to make the most informed choice possible as to where and how to place their funds. It is hard to see who could profit from this beyond persons intending to cheat the public. Preventing this should be a primary focus of the SEC. At a
time when there is little to no confidence in our government, this type of change is only certain to erode it further, to bog down our already struggling economy in greater
uncertainty, and to give those intending to send the majority of the economic gains in this country straight up to those in the top one percent another pipeline to do so. This is an unnecessary, risky, and hateful move in an already precarious time and should be squashed immediately.

Thank you.

TAMMY CHAPMAN — Jun 19, 2026

Teresa Milam — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Teresa Milam Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Please do not change the rule requiring quarterly reporting. There's absolutely no reason that in this digital age of instantly available financial information that quarterly reporting is in any way burdensome. Therefore, there can only be one reason why anyone would want this rule changed, and that is to get away with something for as long as possible. Add my voice to the others , and listen to the outcry to do what the SEC was formed to do: protect the public!

Teresa Roberts — Jun 19, 2026
Subject: S7-2026-15 Comment From: Teresa Roberts Affiliation: Jun. 19, 2026 You need to report at least as often as school report cards.

Teresa Rogers new — Jun 19, 2026
Subject: S7-2026-15 Comments From: Teresa Rogers new Affiliation: Jun. 19, 2026 Do you represent we the people? Or have you sold out to corruption? Accountability is critical. Quarterly reporting is critical. Your country and your legacy depend on you doing the right thing. Stand up for transparency and accountability. If you don't, may it haunt you forever. Teresa Rogers, Gilbert, Arizona. Mother of 4, grandmother of 6. Sole support for my family as I raised my children. Sole support for myself now. Think about how your decision will affect our country full of ordinary people like me.

Teri Walsh — Jun 19, 2026
Subject: S7-2026-15 Comment From: Teri Walsh Affiliation: Jun. 19, 2026 Teri Walsh -Retired Nurse This matters to me because it impacts retirement funds and people investments. It should stay at least quarterly if not monthly!!!

Terisa Ford — Jun 19, 2026
Subject: S7-2026-15 Comments From: Terisa Ford Affiliation: Jun. 19, 2026 I am absolutely against the SEC allowing the current quarterly reporting to be discontinued. This is literally reversing policies and procedures that were implemented to ensure more transparency and accountability. Bi-annual reporting removes the additional layers of protection and creates an environment of secrecy and distrust. For myself and many others it will absolutely result in stepping away from traditional investment strategies in favor of trust based , transparent ethical choices.
Unfortunately, history continues to repeat itself and this is just a setup for another fall . After 50 years, I'm sure those in favor of this passing have high hopes that most of the public have forgotten why quarterly reporting was mandated. Stand by your morals and ethics, maintain quarterly reporting. Thank you, Terri Ford

Terra Matthews — Jun 19, 2026
Subject: S7-2026-15 From: Terra Matthews Affiliation: Jun. 19, 2026 My name is Terra Matthews and I live in Des Moines, Iowa.

I am baffled that with an administration that has decided that government agencies, universities, doctors, state responsibilities like voting and even what families receiving assistance out in their shopping carts; needs oversight, review and government accountability.

We have suddenly decided that massive companies that exchange billions of dollars, influence our economy and control lobbying; needs oversight less oversight? We care more about a families buy soda and a bag of candy for $6 than we do about a CEO manipulation the stock market and creating a Ponzi scheme? Please tell me this is a joke. Keep more oversight, please actually try to do something about 'waste, fraud, and abuse' instead of continuing this embarrassing circus for the entire world to watch unfolding here is the US of A.

I used to be so proud of my country, our heritage and my family and its role in all of it. I have ancestors that have fought in every US conflict since the revolutionary war, and I'm embarrassed to see what we have done to the beautiful country they fought and died to protect.

Thank you for your time and please, grow a pair and do something to save this country before it's too late!

✍
Terra Matthews - an exhausted, struggling mother and embarrassed US citizen.

Dr. Theresa Risolo

Terri Cvetan — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Terri Cvetan Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission: With the advancements in technology that has automated record keeping in the last few decades. Corporations should be required to report more frequently than quarterly it should now actually be monthly or even weekly to bring to light any questionable accounting or business practices. There is no good business reason for a business of any size to look at their books less frequently.

Terri Ferrier — Jun 19, 2026
Subject: S7-2026-15 From: Terri Ferrier Affiliation: Jun. 19, 2026 Quarterly reporting is crucial for

making sure that businesses and high level employees are following the law and not padding their own pockets!! PLEASE don't allow politicians / Trump "fix the system" to their advantage and to the detriment of the average citizens!

Terri Holley — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Terri Holley Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
We have had more than enough of shady back door deals that rob the real working people of America while enriching only the greedy at the top who ise "loopholes" to move those profits outside the country rather being held to the tax burden ratios of most Americans. It is past time for America's

wealthy citizens and corporate entities to be held to higher standards that invest profit back in their own economy rather than take from "average" income Americans only to move profits out of the country to avoid paying taxes and investing in their own economy as they should.

Terry Shumway — Jun 19, 2026
Subject: S7-2026-15 Comment From: Terry Shumway Affiliation: Jun. 19, 2026 Dear SEC of the US Government

I am writing to express my strong support for maintaining quarterly reporting requirements. Reducing

the frequency of these reports would be detrimental to investors and the public, as it would limit the ability to identify when a company is moving in the wrong direction.

Many individuals rely on their investments to secure their financial futures and retirement. Allowing companies to cut back on reporting transparency would be harmful to these stakeholders.

Thank you for your consideration.

Sincerely,

Terry Shumway
Individual Investor for over 50 years

The Robot Lady — Jun 19, 2026
Subject: Comment on S7-2026-15 From: The Robot Lady Affiliation: Jun. 19, 2026 Kathy Moseler Barrington, Illinois

I self manage my retirement funds. Quarterly reporting is crucial for making good decisions. I will be terribly crippled if this rule changes.

We are living longer. I am planning for at least 40 more years in retirement.

I need growth but don't have W-2 or other income. Social Security won't exist by the time I can take it. Plus I prefer to delay taking it to get the max; by then Social Security will be cut even more.

Quarterly reporting helps me make the right moves with my portfolio.

I worked hard my whole life to get where I am. Reduced reporting put everything at risk. Do not change this rule!

Theresa Malone Citzen — Jun 19, 2026
Subject: File No. S7-2026-15 From: Theresa Malone As a small independent investor I have found the information on the 10Q vital in understanding the health of a company I'm either looking at or own stock in. Companies should be open about their financial health - and only have to report every 6 months is just an excuse to "hide" financial issues. I wonder what corporations are trying to hide from investors by not reporting quarterly. This move will not benefit investors - big or small - only corporations and insiders who have access to information not available to the public.

Thomas Petcher — Jun 19, 2026
Subject: File No. S7-2026-15 From: Thomas Petcher Hi, As an investor who browses through all the

earnings reports from my portfolio, less disclosure makes keeping on top of developments harder. I feel it makes it easier for bad actors to operate, and this harms individual investors more than it helps companies. In the UK, it was found that after removing quarterly reporting, many companies lost analyst coverage, which hits retail more than institutions. The UK study also found semi annual reporting created lumpier information gaps and more surprises, while quarterly reporting led to more analysts following companies and more accurate forecasting information. Fresher data leads to better investing, making that data stale makes investors jobs harder. Changing the reporting to semi makes the playing field less level. Institutions can pay for data that we retail can not. It's giving goliath an extra advantage at the expense of David. The UK study found that the believed improvements from dropping quarterly reporting of reducing short termism and freeing managers to invest for the long run, failed to happen. What did happen was coverage loss with no measureable investment benefit. I can only hope common sense prevails and that people see the full depth of the reasoning on why semi reporting is worse. I'm from the UK, but 85% of my investments in the US stock market because nobody does it like the USA. IMO semi reporting chips away at part of what makes the US stock market system work so well. Source: See; Pozen, R. (2017). Impact of Reporting Frequency on UK Public Companies. CFA Institute Research Foundation.

Tim Fox fox.tim@gmail.com

Tim Fuscaldo — Jun 19, 2026
Subject: S7-2026-15 Comment From: Tim Fuscaldo Affiliation: Jun. 19, 2026 No surprise here, the SEC has become less of a regulatory body and more of a tool for the wealthy to grow their fortunes. Why would they want quarterly reports to continue? They just get in the way of concealing corporate conditions, making it easier to inflate the markets with lies and misrepresentations.

TIM HAUSER — Jun 19, 2026
Subject: S7-2026-15 Comments From: TIM HAUSER Affiliation: Jun. 19, 2026 As an investor for over 50 years, I have come to rely on quarterly reporting by companies I invest in. I believe companies should continue to report on a quarterly basis.

Sent from my iPad

Tim Lewis IT Professional — Jun 19, 2026
Subject: File No. S7-2026-15 From: Tim Lewis Fundamental analysis is a critical tool of investing in the financial markets. Reducing reporting from quarterly to semi-annual creates a lack of visibility for investors. The fact that the individual's visibility is reduced to semi-annual while institutional investing, government & insiders have full visibility. This opens the door for even more insider trading and market manipulation than already exists. Further, it allows the concealment of fraudulent activity. Trust in our institutions is at an all-time low. More visibility is needed, not less. In a nutshell, this will only serve to harm regular Americans while benefitting elites. I suspect that's the intent. In a nutshell, this will only serve to benefit elites, and harm regular Americans. I suspect that's the intent.

Tina Franke — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Tina Franke Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Transparency in all aspects of financial transactions is crucial for ensuring that investors, regardless the size of their pockets. At a time when our economy is struggling, people are suffering and living paycheck to paycheck, if an opportunity to invest in a stock or to come along, the decision can only be made in a fair and equitable manner, if all the data is up-to-date and shared equally with the American people. Insider trading has not been legally accepted if for no other reason than the fact, it gives an unfair advantage to those who may simply have an affiliationOr knowledge of someone who does. It's that old story of "it's not what you know, it's who you know".

Tom Dziak — Jun 19, 2026
Subject: S7-2026-15 Comments From: Tom Dziak Affiliation: Jun. 19, 2026 I'm a retired Navy veteran. I rely on my investments for my retirement income. Please maintain the quarterly reporting. I know that these companies compile the same data for internal use monthly because I used to submit information for reporting each month to our corporate offices when I worked private sector. Quarterly reports keep shareholders better informed. Squeamish investors are risk adverse and semiannual reporting will make it more difficult for investors to know when their risk is increasing or hits a dangerous point. When more people are afraid to invest, they will invest in safer alternatives and it will hurt the ability for companies to raise capital and slow economic growth.

Please keep the quarterly reporting. If anything changes, it should be making it easier to report, QUARTERLY.

Thank you for your attention to this matter.

Tom Dziak

Tomaris Davis — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Tomaris Davis Affiliation: Jun. 19, 2026 TL Davis, Systems

Engineer, Ohio

As an individual investor, I strongly support maintaining mandatory quarterly reporting requirements for publicly traded companies.
Quarterly reporting
provides investors with timely, consistent, and transparent information that is essential for making informed investment decisions. Public markets function best when all investors, large institutions and individual shareholders alike, have regular access to
updated financial data. Reducing reporting frequency could create information gaps that disproportionately benefit insiders and large market participants with greater access to management, while leaving ordinary investors at a disadvantage.
While some argue
that quarterly reporting encourages short-term thinking, I believe the solution is not to reduce transparency. Long-term investors are fully capable of evaluating companies beyond a single quarter's results. At the same time, quarterly reports serve an important
accountability function by allowing shareholders to monitor trends in revenue, profitability, debt levels, cash flow, capital expenditures, and other key indicators throughout the year.
Quarterly reporting also promotes market efficiency. Investors can
react to material developments in a timely manner, helping ensure that stock prices more accurately reflect current business conditions. If reporting were reduced to semiannual or annual intervals, markets would likely become more dependent on speculation,
rumors, selective disclosures, and unofficial information sources. This could increase volatility and undermine confidence in the fairness of the market.
Furthermore, regular reporting helps identify emerging risks before they become major problems. Investors,
analysts, regulators, and other stakeholders benefit from having a consistent view of a company's financial health. History has shown that transparency is one of the strongest safeguards against financial mismanagement and governance failures.
As someone
who entrusts my savings and retirement investments to the public markets, I believe that frequent, standardized disclosure requirements are a cornerstone of investor protection. Any modest reduction in compliance costs for reporting companies should be weighed
against the significant benefits of transparency, accountability, and market integrity that quarterly reporting provides.
For these reasons, I respectfully urge the SEC to preserve mandatory quarterly reporting requirements and continue prioritizing the
interests of investors through robust and timely corporate disclosure standards.
Thank you for considering my comments.

Subject: Comment on S7-2026-15 From: Toni Affiliation: Jun. 19, 2026 Toni Johnson (Retired)

Senior Manager Financial Planning and Analysis for Raytheon, Otis, UnitedHealthcare, and CIGNA

As a person who has contributed to these filings in many capacities over 35 years working in Fortune 50 companies, I strongly feel this is an important check to ensure that companies are reporting earnings and cashflow accurately and consistently across all financial statements each quarter, and that it aligns with the projections and full year adjusted forecasts as shared by the CEO, CFO, and CAO. It forces a consistent look by multiple disciplines and holds the leadership accountable.

Toni Dallwig — Jun 19, 2026
Subject: S7-2026-15 Comments From: Toni Dallwig Affiliation: Jun. 19, 2026 Quarterly reporting should definitely be kept in place to try and prevent cheating. We the average consumer needs to know what's happening with these companies in order to ensure sound investments.

Tori Hamilton — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Tori Hamilton Affiliation: Jun. 19, 2026 Quarterly reporting should be the absolute standard. Any revisions that harken backwards in this digital age gives the average American pause about the ethical and transparency practices of the SEC. A ruling such as this would cause everyone to empty their bank accounts.

The overwhelming majority of Americans have lost all faith in the government under Donald Trump.

A move like this would solidify the distrust

Treacy Gephart-Seeley — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Treacy Gephart-Seeley Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I am an individual investor and I oppose SEC Proposed Rule S7-2026-15.

My wife is retired, and I am currently seeking employment. At this stage of our lives, we depend on our investments for income and receive regular monthly distributions from our portfolio. The quality and timeliness of information available to investors directly affects our financial security and retirement planning.

I regularly review company financial reports and earnings results when making investment decisions. Reducing reporting requirements from quarterly to semiannual reporting would leave investors like me operating with outdated information for far too long. In today's markets, economic conditions, consumer demand, interest rates, and company performance can change dramatically in a matter of weeks, not months.

I am also concerned about the impact on market volatility. When investors have less information, uncertainty increases. Uncertainty often leads to larger market swings and more speculation. For individuals who rely on investment income to support their households, increased volatility is not merely an inconvenience. It can affect our livelihood and long-term retirement security.

I understand the burden of preparing quarterly reports. As an owner of a family business that has operated for more than a century, I know firsthand that generating regular financial reports requires time, effort, and resources. However, that is part of the responsibility of being entrusted with other people's capital. In our business, we owe our partners the most current and accurate information possible so they can make informed decisions. I believe public companies have the same obligation to their shareholders.

Public markets move quickly. Stocks can lose significant value overnight when unexpected information comes to light. Asking investors to wait six months for detailed financial disclosures creates unnecessary risk and reduces transparency at a time when investors need more information, not less.

For these reasons, I urge the Commission to reject Proposed Rule S7-2026-15 and preserve quarterly reporting requirements for public companies.

Thank you for considering my comments.

Treacy Gephart-Seeley

Trevor Smith — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Trevor Smith Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
The markets are already heavily slated towards corporations and the hedge funds that trade around them. As a retail investor, I already feel the pain of the markets in full, and have very limited options for staying informed on companies since my job does not revolve around trading stocks. Quarterly reports at least allow me some level of seeing trends for companies and determining if they are worth my investment. To so drastically cut one of the most valuable trading information pieces I have would drastically reduce my ability to compete as an individual. I urge you to reconsider eliminating quarterly reporter, for the sake of small retail investors like myself who just want to retire one day, and is tired of being a financial puppet for the corporate elite.

Tricia Adolphson — Jun 19, 2026
Subject: S7-2026-15 Comment From: Tricia Adolphson Affiliation: Jun. 19, 2026 Please keep us informed with quarterly reports!

Tricia

Tricia Foster — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Tricia Foster Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
I invest for my family’s future. However, the requirement for companies to report their business performance every six months restricts my ability to make informed investment decisions. I believe that allowing companies to report only every six months hinders my ability to identify areas of potential failure, thereby hindering the growth of my investments.
Therefore, I respectfully request that this proposed rule be denied.
Thank you,
Tricia Foster

Victoria Chu — Jun 19, 2026
Subject: File No. S7-2026-15 From: Victoria Chu Reducing the frequency of financial disclosures adds significant risk to individual investors like myself and compromises market integrity. While

granting institutional investors an unfair industry advantage. Institutional investors and insiders already possess sophisticated tools to track corporate performance in real time. Individual investors rely on public SEC filings to evaluate our portfolios. A shift to semi annual reporting cycle forces individual investors to make financial decisions using stale data, widening the gap between Wall Street and regular investors and causing even more resentment and suspicion of designing these rule to benefit instititions and corrupt insiders 6 months before the general public will see a filing. Under a semiannual framework, critical operational failures, deteriorating balance sheets, or shifting industry headwinds could remain hidden for half a year. For individual investors, this lack of transparency drastically increases the risk of being blindsided by sudden financial distress or unexpected corporate collapses. Quarterly reports act as vital, predictable checkpoints that allow markets to digest and price information gradually. A 6 mo cycle will lead to massive, unpredictable price swings when a full half-year of pent-up data is released all at once, creating a much more dangerous environment for long-term retail capital. Transparency, the expectation and confidence in transparency, and timely disclosure are the bedrock of fair markets. For these reasons, I urge the Commission to with this proposal and maintain the current quarterly reporting framework.

Victoria Halfon — Jun 19, 2026
Subject: File No. S7-2026-15 From: Victoria Halfon Individual Investors Deserve More Information, Not Less! Changing reporting requirements from quarterly to semiannually will only result in opacity when investors need transparency. Do not make the same bad decisions as the UK. Smart people learn from the mistakes others make. Do not change the current Quarterly reporting cycles. Thank you.

Vikki Schick — Jun 19, 2026
Subject: S7-2026-15 Comment From: Vikki Schick Affiliation: Jun. 19, 2026 Quarterly reports are important. Corporations can produce these reports easily. Computers maintain the necessary information. There is no reason not to file at least quarterly. None. As a retired CPA and public accountant as well as a Comptroller of a small ($15 million) business with a small staff we produced monthly statements, tax reports etc. There is no reason for a public company not to make their records known to their investors, the SEC and any other government agency collecting taxes. Transparency is important to investors.

Vikki A. Schick.

Sent from my iPhone

Vince Yeh Self — Jun 19, 2026
Subject: File No. S7-2026-15 From: Vince Yeh Quarterly reporting protects individual investors. Semiannual reporting doubles the information gap between insiders and ordinary shareholders. That gap is where volatility, uncertainty, and mistrust grow. The companies most likely to opt out are the ones where oversight matters most. Smaller, less-covered businesses operate with less scrutiny. Reducing their reporting requirements makes them harder to monitor, not easier to own. The short-termism diagnosis doesn't justify this remedy. Research from the CFA Institute, which studied this exact maneuver in the U.K. market, shows that reporting frequency has no measurable effect on corporate investment behavior. The SEC is accepting a real cost – less transparency for individual

investors – for a benefit that the evidence says simply won't materialize.

Vincent Hawkins — Jun 19, 2026
Subject: S7-2026-15 Comment From: Vincent Hawkins Affiliation: Jun. 19, 2026 If this is what reducing staff means you made a big mistake. I'm a federal retiree my job then as it should be now for all government staff is supposed to be servants of the people, that means you have to have people to serve 300+ million people. Get the staff back so the office can Keep requiringthe quarterly reports do your job to safe guard the people's welfare from the Corporations and those who would no harm to the masses.

walter brennan — Jun 19, 2026
Subject: S7-2026-15 Comments From: walter brennan Affiliation: Jun. 19, 2026 I'm a retired CFO- in six months a company can be stripped bare by insiders leaving investors with useless paper - KEEP IT QUARTERLY - OR CHANGE IT TO EVERY 2 MONTHS

Wanda Bahr — Jun 19, 2026
Subject: S7-2026-15 Comments From: Wanda Bahr Affiliation: Jun. 19, 2026 Wanda Bahr, Retired

This change from quarterly reporting to twice a year reporting is a bad idea. I count on quarterly reporting for investment purposes. Things can go very wrong at a company anytime. Waiting 6 months to find out is too long. Many seniors rely on their investments to support themselves. Looking at what is happening in other countries is scary. Twice a year reporting has not worked in other countries. It had been very detrimental. No amount of reporting saving is ok considering the impact this change will have on information investors need. People at the companies involved will have insider information which will help them with their investments, but the little guy will take the hit in the shorts. This rule change is a very bad idea. Please don't make this change. Thank you.

Wanda Hulsebus — Jun 19, 2026
Subject: S7-2026-15 From: Wanda Hulsebus Affiliation: Jun. 19, 2026 Dear SEC,

I am writing to express my concerns regarding the proposal to relax quarterly reporting requirements.

How would this change benefit the American people? Diminishing these requirements would reduce protections for citizens against fraudulent activity. Organizations operating lawfully and transparently should have no issue with quarterly reporting. However, relaxing these standards opens the door for easier access to fraud, risking a repeat of the Enron scandal.

I urge you to maintain these essential protections for the public.

Sincerely,

Wanda Hulsebus
Tujunga, CA

Wanda Kruger — Jun 19, 2026

Sent from my iPhone

Wayne Karplus — Jun 19, 2026
Subject: S7-2026-15 Comment From: Wayne Karplus Affiliation: Jun. 19, 2026 As a small investor I don't read quarterly reports, but the people at stock rating agencies do. More than once I have had a company I held stock in spin off a company because the CEO's had rung the value out of it. Not

because the company wasn't able to make a profit, but because the CEO's had grabbed the company's cash assets, paying themselves in the process. These type of "deals" often are hinted at in quarterly reports. More accountability is needed at public corporations, not less.

Wayne Kudick — Jun 19, 2026
Subject: S7-2026-15 From: Wayne Kudick Affiliation: Jun. 19, 2026 Wayne Kudick, retired, Madison, Wisconsin. All those who work under the corporate CEOs in America are expected to work honestly, the customers and partnerships of companies rely upon honesty from USA companies, foreign companies in business with USA corporations rely upon mutual honesty. Our CEO’s reporting 1/4ly documents that continuous, short term accountability is in place. Without this frequency, our national and international reliability will suffer from doubt and suspicion and eventual disconnect between the above mentioned relationships. 1/4ly diligence reinforces the sustainability of America’s corporate health, strength and reliability. If diminished to 1/2 per year reporting, rapid-exchange and long-term transactions amongst business entities will be at threat to survival for our national and international economic future. Guard that truth of accountability as an essential component of America’s future. Thank you all who will be voting to retain 1/4 reporting.
Wayne Kudick

Wendy Gunderson — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Wendy Gunderson Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:

This proposed rule to lessen information to stockholders is hurtful to individual stockholders. They would be without information about their investments for 6 months. Investors are entitled to see what their companies are doing to be able to make informed decisions. Without quarterly information, the company has less transparency and less accountability to its shareholders. Please do not pass this rule change.

Wendy Iverson — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Wendy Iverson Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Why reduce transparency? Quarterly reports are one of the primary tools retail investors use to evaluate whether a stock is worth buying, holding, or selling. Without them, investors would receive an official picture of a company's finances just once every six months — a gap long enough for serious problems like fraud, failed product launches, ballooning debt, and lawsuits to develop; this would impact trust.
The extended gap between filings gives bad actors a much larger window to conceal problems. Fraud, financial deterioration, and material risks could go undetected for months longer than under the current system.
The compliance cost burden cited in support of this rule assumes a world of manual accounting, physical filings, and costly reconciliation processes — a world that no longer exists for the vast majority of public companies. The heavy lifting — auditing, internal controls, financial statement

preparation — happens on a rolling basis regardless of reporting frequency.
With less frequent public disclosures, corporate insiders will still have access to real-time financials, while retail investors are left in the dark longer — widening the information gap between ordinary shareholders and company management. As an investor, I already resent the corruption and manipulation that exists.
In conclusion, why remove transparency if you've nothing to hide? The trajectory of modern capital markets is toward greater transparency and higher frequency disclosure, making this proposal a step in the opposite direction.
In short, it seems this rule primarily benefits companies at the expense of investor protection, with the cost savings overstated and the risks to market integrity significant.
Please keep quarterly reports.
Sincerely,
W. Iverson

William E. Quinn, Executive Director, Ohio Association of Professional Fire Fighters 457 Plan — Jun 19, 2026
Ohio Association of Professional Fire Fighters
by firefighters – for firefighters
Submitted via SEC Comment Portal
June 19, 2026
Vanessa A. Countryman, Secretary
Securities and Exchange Commission
100 F Street, N.E.
Washington, DC 20549-1090
RE: Comments on Proposed Rule and Form Amendments: Optional Semiannual Reporting for Public Companies (File No. S7-2026-15)
Dear Ms. Countryman,
I am writing to as the Executive Director for the Ohio Association of Professional Fire Fighters Deferred Compensation 457(b) Plan. On behalf of the 14,000+ firefighters, paramedics and rescue professionals in Ohio, I'd like to express our strong opposition to the Securities and Exchange Commission's (the "Commission" or "SEC") proposed rule and form amendments that would permit public companies to voluntarily opt out of traditional quarterly reporting on Form 10-Q in favor of a semiannual framework via the proposed Form 10-S.
While I appreciate the Commission's desire to reduce regulatory burdens and inject flexibility for small or unique issuers, a six-month reporting gap introduces severe information asymmetry into the public capital markets. In particular, this shift undermines the foundational fiduciary responsibilities of plan sponsors, trustees, and advisors managing governmental defined contribution structures—such as the Ohio Association of Professional Fire Fighters (OAPFF) Deferred Compensation 457 Plan—who rely on consistent, reliable data to perform continuous due diligence for public servants and their beneficiaries.
I urge the Commission to reject the proposal based on the following critical points:
1. Severe Impairment of Fiduciary Due Diligence and Monitoring
Governmental 457(b) plans operate to protect the retirement assets of public safety professionals who dedicate their careers to serving the public. The fiduciaries and investment advisors of the OAPFF 457 Plan have a strict duty to perform rigorous, ongoing due diligence reviews of the plan's investment line-up.
• Under a quarterly reporting regime, advisors can monitor emerging warning signs within underlying mutual funds or collective trusts—such as deteriorating corporate balance sheets, structural revenue declines, margin compression, or rising debt levels—and take corrective action.
• In a fast-moving macroeconomic environment, six months is an eternity. Waiting half a year for verified, reviewed financial statements effectively blinds plan fiduciaries. It forces them to make asset-allocation and fund-retention decisions based on stale information or unverified public rumors, increasing risk for participants.
2. Disproportionate Impact on Public Servants and Beneficiaries
Unlike institutional hedge funds or high-frequency traders, the participants in the OAPFF 457 Plan—firefighters, paramedics, and their beneficiaries—are long-term retail investors utilizing defined contribution vehicles to build a secure retirement. They do not have access to costly alternative data streams or direct corporate access. They rely entirely on the democratic democratization of information provided by mandatory SEC disclosures. By allowing companies to skip Form 10-Q, the SEC effectively treats public safety professionals as second-class market participants, exposing their hard-earned deferred compensation to sudden, unmitigated market shocks.

3. Proliferation of "Blind Spots" and Delayed Problem Identification
Corporate mismanagement, shifts in competitive landscapes, and financial stress rarely align with a six-month calendar. Historically, quarterly reporting has functioned as an early-warning system that allows the market to correct incrementally. If companies elect semiannual reporting, material weaknesses in internal controls or negative financial trends could remain concealed for up to 180 days. For defined contribution plans holding these equities, this increases the probability of catastrophic "gap-down" pricing events when a company finally discloses six months of accumulated bad news.
4. The Illusion of Cost Savings vs. Increased Cost of Capital
Proponents of the rule argue it will mitigate "managerial short-termism" and cut administrative compliance costs. However, institutional investors and underwriter networks will likely demand private disclosures or continue to favor companies maintaining a quarterly cadence. Companies electing Form 10-S may find themselves penalized with higher borrowing costs and depressed valuations due to a lack of transparency. Ultimately, the cost of this "flexibility" will be borne by investors, including the public retirement plans that anchor the stability of our capital markets.
Conclusion
For over 50 years, mandatory quarterly interim reporting has been the bedrock of trust in the U.S. financial system. Dismantling this framework in favor of semiannual optionality erodes the transparency required for institutional due diligence and jeopardizes the retirement security of public employees like Ohio's professional firefighters.
I strongly encourage the Commission to withdraw this proposal and maintain the robust, quarterly disclosure framework that ensures a fair and orderly market for all.
Sincerely,
William E. Quinn Jr.
Executive Director
Ohio Association of Professional Fire Fighters

William A Alexander, MD Retired Chief Medical Officer and Associate Professor of Anesthesiology — Jun 19, 2026
Subject: File No. S7-2026-15 From: William A Alexander, MD I am a retired C-suite physician (CMO) and investor. Reduced reporting will greatly impact corporate accountability and induce market distortions that will threaten the savings of millions of IRA and pension holders. Having served as a corporate officer, I can tell you that regular reporting induced accounting discipline and transparency that is critical for investor confidence. Please DO NOT implement this rule.

William Amenta — Jun 19, 2026
Subject: S7-2026-15 Comment From: William Amenta Affiliation: Jun. 19, 2026 To the Securities Exchange Commission-
As an investor with constant market contact and ongoing exposure, I find this idea of lowered visibility appaling and dangerous. You cannot expect a healthy market to come out of this. Lowering visibility and transparency for investors across the board is a huge mistake. You cannot reasonably expect capital to make good choices in such an environment.

Best,

William Amenta

William Bower — Jun 19, 2026
Subject: S7-2026-15 Comment From: William Bower Affiliation: Jun. 19, 2026 Seems to me that this is tantamount to allowing insider trading. It's unfair and undemocratic.

William Braden — Jun 19, 2026
Subject: S7-2026-15 Comment From: William Braden Affiliation: Jun. 19, 2026 My name is William Braden, I'm still working part-time jobs in Cincinnati and I'm relying on the SEC to not allow biannual reporting. I need to be able to trust the companies that I invest in for my future retirement. Biannual reporting would only harm the security of the Wall Street. This makes it easier for insider traders to have access to a company's financial information and lengthens the time that they have to give it publicly. Please understand that the benefits of a quarterly system massively outweigh the detriments of the proposed biannual one.

- William Braden

William Caro — Jun 19, 2026
Subject: S7-2026-15 Comment From: William Caro Affiliation: Jun. 19, 2026 My opinion on quarterly reporting are if it ain’t broke don’t fix it! Don’t even think about it! My wife and had a mom and pop barber/ beauty shop for over 25 years. We are now semi retired and have an inheritance coming that has multiple CDs that I renew before they’re ready to mature. That monthly income would help us to survive. Between the cuts already made by Trump to Medicare and what he wants to cut from Social Security are insane. Typical for him. We’ve paid into those to programs for over 100 years combined. And now this government wants to take everything we’ve done away. Not acceptable in a Democracy as great as the United States was before Trump. My name is William Caro, my Wife is named Candace Caro. We were owners and operated our own business for decades and we have worked hard all of our lives and don’t want to give everything we’ve earned to trump and his cronies. Hands OFF!

William H — Jun 19, 2026
Subject: File No. S7-2026-15 From: William H As a retail investor, quarterly reporting is the closest I will probably ever get to understanding management teams and the internals of companies that I am an owner of. It isn't the job of the SEC to govern how management teams should think (long or short term). Rather it's the job of the board and shareholders, to align incentives and put money with management teams who are long term thinkers. And the only way for investors to identify that, is an open flow of information between management and shareholders. Short term thinking will become easier to hide with less reporting because at the end of the day, the problem is almost always with incentives not reporting.

William H Murray — Jun 19, 2026
Subject: File No. S7-2026-15 From: William H Murray Individual investors are already at a disadvantage in the country's investing industry, compared to institutional investors. The changes introduced by S7-2026-15 would only further tilt the table in favor of deep-pocketed players. Please do not permit a reduction in the frequency of releases of public company information to America's individual investors.

WILLIAM HITRON — Jun 19, 2026
Subject: Comment on S7-2026-15 From: WILLIAM HITRON Affiliation: Jun. 19, 2026 As a retired financial advisor of 41 years I urge you to not change public company earnings reports to semi annual from quarterly.
Transparency is critical to making good investment decisions.
Less information about company performance from my point of view will create bigger price swings and possibly bigger losses thus reduce confidence in equity and debt investing in the public markets.
Sincerely,

William S Hitron
Estero, Florida.

Zach North — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Zach North Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission: Open and transparency encourages increased investing which stabilizes both the stock market and the economy. Less available information will cause more fear and speculation, driving markets down and disenfranchising engagement.

Zachary Barber — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Zachary Barber Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
This proposal is terrible for main street retail investors because the market moves nonstop 24/5(minus trading holidays obviously) now, and the crypto markets are 24/7/365 which all means that so much can happen within a 6 month period. A company can go from healthy to borrowing money hand over fist just to stay afloat in that amount of time.
We've also just basically re-legalized day trading for people who aren't necessarily qualified to be doing that, which I'm in favor of, because in general, I support people being able to make whatever questionable decisions they want to with their own money, so long as they don't hurt others. But it needs to be kept in check to an extent.
Furthermore, insider trading is now basically ignored. A lot of retail traders think it's ok, because it let's them copy (some)trades made by people they believe in(later and at a higher price.) But it doesn't tell us about things like their investments into private equity, crypto, or responsibilities around things like options and/or futures etc.
Quarterly earnings reports are key to understanding a businesses health, and they need to stay quarterly.
Making them twice yearly would also discourage a lot of companies from paying out quarterly dividends. Some businesses might use this as a tool to weed out less valued retail investors, as wealthier investors care less about *when* they receive their dividend payouts, as long as the numbers add up at the end of the year. For all they care, let dividend payments be every other

quarter, or yearly.
But for those of us who rely on dividends and growth, it would be disastrous. We can't afford well connected financial advisors who can tell us months before the pack that a given company is bleeding cash. We rely on those quarterly earnings reports...

Zachary Davis — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Zachary Davis Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission: this rule would be bad for investors by giving us less information.

Zachary King — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Zachary King Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Do not change the rules for company quarterly reporting. Bi annual reporting is not enough for investment accounts to react positive or negative news. Keep quarter reporting so our stock market continues to be the envy of the world!!

Zenaida Blum — Jun 19, 2026
Subject: Comment on S7-2026-15 From: Zenaida Blum Affiliation: Jun. 19, 2026 Do not set us back. Transparency is critical. Reporting financials quarterly should remain. Thank you

Zeny

ZENDA DOUGLAS — Jun 19, 2026
Subject: S7-2026-15 Comment From: ZENDA DOUGLAS Affiliation: Jun. 19, 2026 This is another oligarchical power grab. Longer periods of behind-the-scene dealings and time to prepare for insider trading. Very corrupt. Totally unfair.

Zenda Douglas

Zoe Friedberg — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Zoe Friedberg Affiliation: Jun. 19, 2026 To the Securities and Exchange Commission:
Please do not take away quarterly information from investors as it helps me make informed decisions about my investing!
Sincerely,
Zoe Friedberg

Zola de FIRMIAN — Jun 19, 2026
Subject: My view on Rule S7-2026-15 From: Zola de FIRMIAN Affiliation: Jun. 19, 2026 To the

Securities and Exchange Commission:
Quarterly reporting is crucial for my business and this country's business.
DO NOT DROP quarterly reporting requirements.

Brenda Doherty — Jun 18, 2026

Subject: Comment on S7-2026-15 From: Brenda Doherty Affiliation: Jun. 18, 2026 As retail investors, we are already investing using limited information. In terms of data, quarterly reports are important and provide important health indicators of businesses that are used when evaluating whether or not to buy/sell. When you consider the sophisticated financial reporting systems that all publicly listed companies already have in place, and combine those with new AI tools for streamlining processes, continuing with quarterly reporting should not even be a question. Frankly, I'm not sure why this is even up for discussion. On any given day, the CEO's and CFO's of these companies can ask their finance teams to "run current numbers", and while they aren't the detailed reports provided in the quarterly reports they are the numbers used to build them. It's not like this is an exercise that these finance teams have to go through to start from scratch. I, for one, will not feel comfortable, making considerable investments in lesser known, less established companies if they do not provide quarterly reports. And, I'm hoping, that since this is optional, that the more established (i.e., Amazon, Apple, Coca-Cola, Chevron, Tesla, Bank of America, and the like) will continue to deliver quarterly reports because their investors want them.

4marrs — Jun 18, 2026
Subject: SEC - KEEP QUARTERLY REPORTING From: 4marrs Affiliation: Jun. 18, 2026 Jamie Marrs
Investor
Allowing this change would upset the normal cycle for many investors. It should be the motivation for CEO's and government officials. It keeps the economy moving. It keeps the investment community functioning. There are four times that the citizen investor gets to really see what is going on in companies, good and bad. I see no upside to only giving the reports semi-annually. Keep the quarterly reports, keep the integrity of the current system!

A B — Jun 18, 2026

Subject: Comment on S7-2026-15 From: Aaron Brown Affiliation: Jun. 18, 2026 This is already so dangerous because we have these massive companies launching with no revenue. You're going to hide that from the layman for an additional 3-month period that's **** convenient

---

Aaron Dennis — Jun 18, 2026
Subject: S7-2026-15 Comment From: Aaron Dennis Affiliation: Jun. 18, 2026 Why does the US Government unilaterally and unequivocally shaft the working man at every turn, every time, regardless of who is in charge, at every opportunity? It’s as if your sole purpose is to ensure financial hardship onto 99% of Americans and financial successes onto the remaining 1%. It’s almost as if there’s a little club, and the majority of us aren’t in it. It genuinely seems like whenever a decision is made at the government level that could make things more reasonable, balanced, or fair to the working man, the decision is made instead to work against him; much to the benefit of the capitalist or the “insider”. Investing is one of the few paths to wealth that a working person has left in this country. I would appeal to your humanity, but I know you have none. I would appeal to your reason, but your entire purpose is to keep rich men rich as the peasantry in their place. Millions of us working men who can no longer afford homes despite working better jobs and longer hours than their fathers and grandfathers have seen the patterns of decision making at the federal level and we have had enough: stop making things worse for the worker.

Aaron Hayes — Jun 18, 2026
Subject: My view on Rule S7-2026-15 From: Aaron Hayes Affiliation: Jun. 18, 2026 To the Securities and Exchange Commission:
Don't allow public companies to hide vital information from the public its important that we have transparency and the ability to protect our investment it im losing money i want to know emedeatly to move it and protect myself from losses when companies are not being responsible!!!

Aaron Holman — Jun 18, 2026
Subject: S7-2026-15 From: Aaron Holman Affiliation: Jun. 18, 2026 Aaron Holman, IT Manager, Dallas, TX

We need more corporate accountability, not less. These guys prove time and time again that they must be held accountable or will defraud the American people.

Aaron Ruiz — Jun 18, 2026
Subject: My view on Rule S7-2026-15 From: Aaron Ruiz Affiliation: Jun. 18, 2026 To the Securities and Exchange Commission:
Every avenue of accountability is being stripped away from those with no power for those that do. Do not let this be another instance of it.
Fair and open reporting is the only way that average people like myself can make informed decisions.

Abbe Kuhn — Jun 18, 2026
Subject: S7-2026-15 Comment From: Abbe Kuhn Affiliation: Jun. 18, 2026 What more can you take from the American people? You all know this is a really BAD move to make. I beg you to reconsider, and keep the status quo. Americans are losing money every day from the policies of this incompetent ignorant narcissistic bloated pig we have to call President because of his inept and insane policies. He has stripped Americans of our way of life and continues to destroy our democracy and our nations standing in the world. DO NOT make this change and have the American people suffer even more to filter more money into the hands of filthy rich people who don’t need this policy at all!!
I beg you not to do this.

Leave things the way they are. Quarterly reports need to stay quarterly!!
the more corrupt the government gets the more they want to take away from the American people. This needs to stop.

Abigail Tylor — Jun 18, 2026
Subject: S7-2026-15 Comment From: Abigail Tylor Affiliation: Jun. 18, 2026 Who would this new rule benefit? Certainly not ordinary investors! The SEC was designed to enforce laws against market manipulation after the Wall Street Crash of 1929. Allowing companies to hide pertinent information from stock buyers does the exact opposite of protecting against market manipulation. Today the law forces companies to surface all relevant information every quarter, including everything that goes wrong. Under the new rule, they can sit on it for six months at a stretch. Plenty of time for insiders to quietly sell their shares to the consumer (or their ETF) before the bad news tanks the stock. Additonally, every major modern accounting scandal was enabled by gaps and opacity in financial disclosure. Quarterly filings don't prevent fraud, but they dramatically shorten the window in which it can fester before someone outside the company can see it. Although the new rule says it would be optional, the reality is once large companies start filing twice a year, smaller competitors face pressure to follow. They can't justify "more compliance than the bigger guy." Investor expectations adjust downward. What started as a choice quietly becomes the new normal. Almost no rule like this stays optional for long. The SEC should continue to do its job and protect the market from manipulation by not making any changes to the quarterly reporting rule. Do NOT allow companies to choose to only report every six months!

Alex Bastidas — Jun 18, 2026
Subject: My view on Rule S7-2026-15 From: Alex Bastidas Affiliation: Jun. 18, 2026 To the Securities and Exchange Commission:

This would greatly hurt the accounting industry long term and the need for them. The quality of financial reporting overall in the US would degrade and investor confidence as well.

Alex Caffi — Jun 18, 2026
Subject: Comment on S7-2026-15 From: Alex Caffi Affiliation: Jun. 18, 2026 To whom it may concern,

My name is Alex Caffi and I am a financial crimes analyst residing in Danvers, MA. I strongly oppose the switch from quarterly to semi-annual. Plenty of data has shown this is a massive mistake. Companies of all sizes do not struggle to make these quarterly disclosures - there is no data-driven reasoning behind the change, although there is a data-driven reason behind keeping it quarterly. Historically, semi-annual has been a disaster. Please keep the laws, rules, and regulations of our great nation based upon logic and fact using data-driven reasoning.

Thank you for your time,
Alex Caffi

Alex Gotsis — Jun 18, 2026
Subject: My view on Rule S7-2026-15 From: Alex Gotsis Affiliation: Jun. 18, 2026 To the Securities and Exchange Commission:
Public markets should stay public.
I am writing to express my strong opposition to Proposed Rule S7-2026-15, which seeks to reduce the frequency of mandatory quarterly financial disclosures. While minimizing administrative burdens is a notable goal, rolling back quarterly reporting threatens the transparency and fairness that define U.S. capital markets.
Robust quarterly reporting is a justifiable cost for access to the immense liquidity of the public markets. Publicly listed companies enjoy unprecedented access to capital from millions of investors. In exchange, they must provide the timely, structured insights that justify that trust. Companies should not reap the benefits of public capital while evading the accountability that protects it.
Reducing disclosure frequency will not stop the flow of data; it will merely gatekeep it and exacerbate inequality. Sophisticated institutional investors and hedge funds possess the resources, alternative data pipelines, and executive access to track corporate performance in real time. Forcing retail investors to operate in a multi-month information vacuum while institutions maintain a clear picture of corporate health is inherently unfair.
Frequent, predictable reporting helps ensure market prices reflect actual performance rather than speculation. I urge the Commission to withdraw Rule S7-2026-15 and preserve the quarterly framework.

Alicia — Jun 18, 2026

Subject: Comment on S7-2026-15 From: Alicia Affiliation: Jun. 18, 2026 Quarterly reporting is the burden of doing business. It provides accountability in an already murky water of complex derivatives. There is absolutely no reason to change this requirement EXCEPT to save publicly traded companies money. The stock market across the SP500, DJIA, NASCAR amd even, perhaps, the Russell 2000 are at all time highs. Corporations have made money and can pay an accounting team to provide quarterly reports and the Federal government can pay for the servicing of that data. This is a direct result of p2025 and this has no business being an issue.

Alicia Vagts — Jun 18, 2026
Subject: File No. S7-2026-15 From: Alicia Vagts Quarterly reporting is the burden of doing business. It provides accountability in an already murky water of complex derivatives. There is absolutely no reason to change this requirement EXCEPT to save publicly traded companies money. The stock market across the SP500, DJIA, NASDAQ and even, perhaps, the Russell 2000 are at all time highs. Corporations have made money and can pay an accounting team to provide quarterly reports and the Federal government can pay for the servicing of that data. This is a direct result of p2025 and this has no business being an issue.

Allan G none — Jun 18, 2026
Subject: File No. S7-2026-15 From: Allan G Businesses have committed crimes and those responsible have walked away many times during my long life. Doing anything to decrease oversight and transparency is a mistake. I see this proposed change as a power grab by those trying to extract more wealth from the economy. Given the huge asset disparities in this country, now is the time to increase rather than cut transparency and responsibility. Wealth needs every chance to be forced towards the majority of citizens. Do not approve this change!

Allan Josephs — Jun 18, 2026
Subject: S7-2026-15 Comment From: Allan Josephs Affiliation: Jun. 18, 2026 Allan Josephs retired. I trade stocks and need reliable data to make decisions.
Having reports every six months is unacceptable as it makes it nearly impossible to track trends with any accuracy.
Please keep the reporting quarterly.

Alleen Fish — Jun 18, 2026
Subject: S7-2026-15 Comment From: Alleen Fish Affiliation: Jun. 18, 2026 I need to see my report quarterly because it lets me see where I'm at so I can decide if I need to move my accounts in other directions

Alyssa Flory — Jun 18, 2026
Subject: My view on Rule S7-2026-15 From: Alyssa Flory Affiliation: Jun. 18, 2026 To the Securities and Exchange Commission:
I am a 26-year-old museum educator at one of the nation's top art museums. My mother, though now retired, worked for many years in the insurance and securities (series 7, 63, and 24) industries. I have learned a lot from her over the years and am now working to make smart investment

decisions for myself.
Changing required reporting to a biannual occurrence as opposed to the current quarterly requirement will impede the ability of the public, and individual investors, to make informed investment decisions. As we've seen over the past few months, the economy, specific industry segments, and even individual companies' financial stability (see: Spirit Airlines) can fluctuate widely in the course of weeks or even days. Returning to biannual reporting would leave the public, and individual investors, without the knowledge needed to protect their hard-earned life savings.

Alyssa Flory — Jun 18, 2026
Subject: Comment on S7-2026-15 From: Alyssa Flory Affiliation: Jun. 18, 2026 To Whom It May Concern:

My name is Alyssa Flory and I am 26 years old. I live in Northeast Ohio and work as a museum educator for one of the nation's top art museums. My mother, though now retired, worked for many years in the insurance and securities (series 7, 63, and 24) industries. I have learned a lot from her over the years and am now working to make smart investment decisions to support my life goals (including home ownership) and future at large.

Changing required reporting to a biannual occurrence as opposed to the current quarterly requirement will impede the ability of the public, and individual investors, to make informed investment decisions. As we've seen over the past few months, the economy, specific industry segments, and even individual companies' financial stability (see: Spirit Airlines) can fluctuate widely in the course of weeks or even days. Returning to biannual reporting would leave the public, and individual investors, without the knowledge needed to protect their hard-earned life savings.

Please retain the current system of quarterly required reporting to help Americans make informed financial decisions.

With sincere best wishes,
Alyssa Flory

Alyssa Meacham-Trainor — Jun 18, 2026
Subject: My view on Rule S7-2026-15 From: Alyssa Meacham-Trainor Affiliation: Jun. 18, 2026 To the Securities and Exchange Commission:
As citizens we have been losing our consumer protections left and right! People are doing everything right and STILL losing! Please don't add this to the list too! We have a right to know what is happening woth OUR money.

Amanda da Rocha Coelho — Jun 18, 2026
Subject: S7-2026-15 From: Amanda da Rocha Coelho Affiliation: Jun. 18, 2026 Sunlight is the best disinfectant.

Amanda Frisard — Jun 18, 2026
Subject: S7-2026-15 Comment From: Amanda Frisard Affiliation: Jun. 18, 2026 Quarterly reporting on investments is critical to keeping retail investors informed. Just like in the change of seasons, the change in fiscal year and quarterly reports by a company gives a clear glance of what is happening. Institutional investors have the insiders to keep them informed but the lay person relies on quarterly reports to see how their money is doing and if they need to pivot or stay the course. Don't return the SEC regulation to the days before the Great Depression. With our national debt, America can't afford unregulated investment firms anymore.

Amber Ulmer — Jun 18, 2026
Subject: S7-2026-15 From: Amber Ulmer Affiliation: Jun. 18, 2026 Amber Ulmer
Please keep companies accountable by continuing quarterly reports tp prevent fraud.

Ambler Corrie Hall Certified Public Accountant — Jun 18, 2026
Subject: File No. S7-2026-15 From: Ambler Corrie Hall I am opposed to this rule proposing semi-annual reporting by public corporations instead of quarterly reporting. I believe the current policy provides more timely financial information for the average investor. Waiting six months for the release of important financial information would be detrimental to making informed decisions about investments. Corporations typically produce their financial statements on a monthly basis. Rather than go to semi-annual reporting, make monthly reporting optional without the same level of detail as quarterly reporting. The more timely investors receive financial reports the better engaged and better decisions can be made.

Ameilia Brown — Jun 18, 2026
Subject: My view on Rule S7-2026-15 From: Ameilia Brown Affiliation: Jun. 18, 2026 To the Securities and Exchange Commission:
What the SEC is proposing not only hurts the little guys, it hurts the companies who are enabled to build better products and services because of a more diverse investor pool.

Amelia Andrews — Jun 18, 2026
Subject: My view on Rule S7-2026-15 From: Amelia Andrews Affiliation: Jun. 18, 2026 To the Securities and Exchange Commission: Rule S7-2026-15 is harmful to investors who expect and need to have the information as currently provided by companies' quarterly reports!

Amelia Melchert — Jun 18, 2026
Subject: Comment on S7-2026-15 From: Amelia Melchert Affiliation: Jun. 18, 2026 As a teacher in this nation’s public schools, and a parent, I strongly oppose getting rid of mandatory quarterly reporting! The transparency of quarterly reporting is good for the American people and our democracy. Our retirement accounts are not safe if corporations can hide for 6 months at a time. Remember that your job is to serve the people and don’t allow this deregulation.

-Amelia Melchert

Amelia Weitoish — Jun 18, 2026
Subject: My view on Rule S7-2026-15 From: Amelia Weitoish Affiliation: Jun. 18, 2026 To the Securities and Exchange Commission: why is there no regulation of Transparency to the Public? I believe if you (the SEC) are Obligated to be to be TRANSPARENT TO THE PUBLIC AT ALL TIMES.

Ameliahana66 — Jun 18, 2026
Subject: S7-2026-15 From: Ameliahana66 Affiliation: Jun. 18, 2026 Quarterly reporting is necessary to keep honest reporting of Financials. Do not change the reporting requirements from 4 x yearly.

Amy Heberling — Jun 18, 2026
Subject: My view on Rule S7-2026-15 From: Amy Heberling Affiliation: Jun. 18, 2026 To the Securities and Exchange Commission: accurate business data made public in a timely manner prevents fraud. And bad or late data puts most people's retirement accounts/savings at risk.

Amy Jackson — Jun 18, 2026
Subject: S7-2026-15 Comment From: Amy Jackson Affiliation: Jun. 18, 2026 Dear Commissioners,
I am writing as both an artist and a small investor to express my support for maintaining the SEC's longstanding requirement for quarterly corporate reporting. As an individual investor, I do not have access to teams of analysts or private information. Quarterly reports provide the transparency and equal access that allow everyday Americans like me to make informed decisions about our investments.
As an artist, I value openness and accountability. Trust is built through regular communication, whether in a community, a business, or our financial markets. Quarterly reporting has helped make American markets among the most respected and accessible in the world by ensuring that all investors have timely information, not just large institutions.
I respectfully urge the SEC to preserve this important tradition. Transparency empowers investors, strengthens confidence in our markets, and helps protect the interests of millions of Americans who are working to build their financial futures.
Respectfully,
Amy Jackson
Laguna Beach,Ca.

Amy Lippert — Jun 18, 2026
Subject: My view on Rule S7-2026-15 From: Amy Lippert Affiliation: Jun. 18, 2026 To the Securities and Exchange Commission:
Quarterly disclosures help me make informed decisions, and the SEC shouldn't take vital information away from the public. This is especially true when the current administration is so blatantly corrupt that its members regularly profit from insider trading information.

Amy Luginbuhl — Jun 18, 2026
Subject: My view on Rule S7-2026-15 From: Amy Luginbuhl Affiliation: Jun. 18, 2026 To the Securities and Exchange Commission:
Why would we want to go back to a time that was disastrous for the American public. The only one who wins with with longer reporting time are insider traders and companies trying to hide. We the consumer deserve to have transparency.

Amy Mianowski NA — Jun 18, 2026
Subject: File No. S7-2026-15 From: Amy Mianowski Reporting should be quarterly to ensure transparency. The quarterly frequency allows the public to be aware of issues sooner than semiannually.

Amy Morris — Jun 18, 2026
Subject: S7-2026-15 From: Amy Morris Affiliation: Jun. 18, 2026 It is a breach of the public trust to reduce reporting. The past has shown the need for accountability and that cannot be discounted. We need to stay with quarterly reporting and strong penalties for false reporting.

Amy Morris
Retired
Accountant for 40 years

Angela F. — Jun 18, 2026
Subject: File No. S7-2026-15 From: Angela F. Four times a year, the CEO and CFO must each put their name to the company's books, certifying they've reviewed the report and that it contains no untrue statement of a material fact. Knowingly certify a false one: up to $1 million and 10 years in federal prison. Do it willfully: up to $5 million and 20 years. The proposal cuts those certified filings from four to two. Enron's executives claimed ignorance of their own books, so Congress made ignorance impossible to claim. Every quarter, the CEO and CFO certify that they personally designed and evaluated the controls that surface bad news, and that they reported any weaknesses or fraud to the auditors. The law claws back executive bonuses even without proof the boss was personally involved. Halve the filings, and you halve the quarters where "I didn't know" is off the table. The SEC says current reports and press releases will fill the gap. Earnings releases ride on Form 8-K as "furnished," not "filed." That category exempts them from the automatic liability filed reports carry. No outside auditor reviews them, and no certification is required even when an 8-K contains financial statements. The SEC's own proposal concedes the problem. The 8-K may contain information, but it lacks any accountability.

Angela Ferrari — Jun 18, 2026
Subject: My view on Rule S7-2026-15 From: Angela Ferrari Affiliation: Jun. 18, 2026 To the Securities and Exchange Commission: Four times a year, the CEO and CFO must each put their name to the company's books, certifying they've reviewed the report and that it contains no untrue statement of a material fact. Knowingly certify a false one: up to $1 million and 10 years in federal prison. Do it willfully: up to $5 million and 20 years. The proposal cuts those certified filings from four to two. Half as many moments when anyone at the top must stake their freedom on the truth. Enron's executives claimed ignorance of their own books, so Congress made ignorance impossible to claim. Every quarter, the CEO and CFO certify that they personally designed and evaluated the controls that surface bad news, and that they reported any weaknesses or fraud to the auditors. The law claws back executive bonuses even without proof the boss was personally involved. Halve the filings, and you halve the quarters where "I didn't know" is off the table.
Read the fine print: earnings releases ride on Form 8-K as "furnished," not "filed." That category exempts them from the automatic liability filed reports carry. No outside auditor reviews them, and no certification is required even when an 8-K contains financial statements. The SEC's own proposal concedes the problem. The 8-K may contain information, but it lacks any accountability.
Sarbanes-Oxley became law on July 30, 2002. Six days later, HealthSouth's CFO tried to quit rather than certify numbers he knew were fake: "he just couldn't sign the certifications." Months later he went to federal prosecutors and became the first of fifteen executives to plead guilty in a $2.7 billion fraud. A certification costs an honest executive nothing to sign, it just exposes the fraudsters. Why roll them back?

A. Cooper, Independence, MO

Angie Khan — Jun 18, 2026
Subject: File No. S7-2026-15 regarding SEC's proposed rule to allow semiannual reporting From: Angie Khan Affiliation: Jun. 18, 2026 I disagree with the proposal to have q6 mos reporting instead of quarterly. If it is believed that certain conditions warrant permitting such delay, those conditions should be clearly and narrowly defined. Quarterly reporting should remain the rule for the standard. Individual investors would have less access to regular information while institutional investors would continue to gather private insights.

Thank you,
Sara Angela Khan
San Antonio, TX

Anita Brown — Jun 18, 2026
Subject: S7-2026-15 From: Anita Brown Affiliation: Jun. 18, 2026 Please DO NOT change from the quarterly signing by CEO's to the SEC's twice a year signing.

Anita Farber — Jun 18, 2026
Subject: S7-2026-15 Comment From: Anita Farber Affiliation: Jun. 18, 2026 I think I already responded but in case I'm not remembering or the email got lost here is my thought. So the SEC wants to life the burden for aCEO to look and sign off on the financials of their public ally traded company to avoid a possible jail sentenc. If not the ceo who also presumably owes such due diligence to his stockholders, then who meds to certify the numbers. Nowhere do I see that they are being asked to verify their projections going. ForwardThey can pie in the sky all they want and not be held to any standard with penaltiexcept from their board and investors. If the public - investors arent given an accurate. Accounting on which to make their investment decisions then investing in the US and the stock market is even more of a game of luck not a reasoned decision. As for the Enron prosecutions on the rules put in place to avoid or prevent another Enron, my mother in law

lost almost her entire life time investment. She was not a novice investor, got poor investment advice from brokers who relied on the numbers they had access to.she was a widow of a 50+ year Exon employee who bought their stock all his working life. He believed in the integrity of that company only to find too late how deceitful they were. I would never think it was a good idea to let those in positions of responsibility, who earn the big bucks, and enjoy all the benefits of an exalted position in their publicly traded companies off the hook to certify the accuracy of the financials. If not them, who?how can signing their name quarterly certifying the validity of the numbers is hardly burdensome in my view. Anita Farber Austin Tx

Subject: S7-2026-15 Comment From: Ann Rice Affiliation: Jun. 18, 2026 Accountability is important. I need to be able to check that companies are willing to be transparent at all times. Why cut it in half if you.have nothing to hide.

Ann Safir — Jun 18, 2026
Subject: Comment on S7-2026-15 From: Ann Safir Affiliation: Jun. 18, 2026 It is imperative that the SEC require companies to continue quarterly reporting! Why on earth would you NOT want investors and money managers to have the most current financial valuations to guide and facilitate informed investing? There is a very real danger in allowing companies to hide their books for six months at a time!
Form 10-S would enable corporate executives and insiders to benefit from information that could be withheld from retail investors for six months. They could use that information to cash out, leaving us holding an empty bag! This is an outrage!
I have worked at American Airlines for 50 years and have diligently saved and invested for my retirement. In fact, I am still working at age 76!
I resent the SEC's proposal and condemn this attempt to strip away investor protections! I can already visualize my 401K plunging in value if this boneheaded proposal is enacted!
Who is watching out for small investors? You seem to be favoring large corporations and corporate executives!
This is shameful and shows where the SEC's misguided priorities lie!
I am vehemently OPPOSED to allowing biannual reports!

Anna Johnson — Jun 18, 2026
Subject: S7-2026-15 Comment From: Anna Johnson Affiliation: Jun. 18, 2026 This upward transfer of wealth combined with unbelievable wasteful and fascist spending have already eroded trust and financial safety. Wrong direction. Stay quarterly. This is nuts.

Anna Kosovych Retiree — Jun 18, 2026
Subject: File No. S7-2026-15 From: Anna Kosovych As a retiree, I am against this proposed rule change because getting rid of quarterly reports may impact retirement accounts by not knowing for a longer period of time how investments are doing, or of any fraud, such as insider selling of shares. Retirees and all investors rely on transparent and timely quarterly reporting to help assess the trajectory, stability, and progress of companies. Accounts still have to be kept no matter how often reports are required and the paperwork saved would be minimal.

Anna Terry — Jun 18, 2026
Subject: S7-2026-15 Comment From: Anna Terry Affiliation: Jun. 18, 2026 Keep the reports quarterly. We have rules and regulations for a reason.

Keep the corruption out, no insider trading.

Anonymous — Jun 18, 2026
Subject: S7-2026-15 Comment From: Anonymous Affiliation: Jun. 18, 2026 My name is Jay. I am a public school teacher, a homeowner, and an American taxpayer living in Nashville, Tennessee. I am not a wealthy investor. I have a modest retirement account that I manage
carefully, using every tool available to me. Quarterly earnings reports are one of those tools. They are how I decide when to move money, when to hold, and when to wait. They are how I plan for my family's future. I understand that large institutions have
access to alternative data %2►► transaction flows, supply chain tracking, satellite data %2►► that I will never have. The quarterly filing is one of the few equalizers I have. It gives me timely, standardized information about the companies I invest in. Making
quarterly reporting optional will not improve markets. It will create a six-month window where insiders, institutions, and those closest to corporate leadership will have material advantages over ordinary investors like me. Not because they are evil. Because
that is what people do when information becomes scarce and the incentive to use it exists. I serve my community every day. I ask only for a fair opportunity to build something for my retirement. Please do not remove this protection. Respectfully, Jay Nashville,
Tennessee

Subject: S7-2026-15 From: Anonymous Affiliation: Jun. 18, 2026 John G Moburg, U.S. Citizen from Southern Indiana.
Keep SEC quarterly reporting for all Corporate CEO's.
Quarterly reporting will help deter white collar crime and hold these overpaid corporate heads responsible as there is less and less oversight with watchdog groups being disbanded, accountability is needed. Reporting quarterly is not an inconvenience to them. Quarterly reporting keeps tabs on their exorbitant earnings as compared to what their employees earn. Corporate greed is out of control. No free passes.

Anonymous — Jun 18, 2026
Subject: S7-2026-15 Comment From: Anonymous Affiliation: Jun. 18, 2026 The investment game is already rigged against the little man- now you want to make it even harder? There is no valid reason to pass this besides pure unadulterated greed.

Anonymous — Jun 18, 2026
Subject: S7-2026-15 Comment From: Anonymous Affiliation: Jun. 18, 2026 It is important to have transparency in reporting and quarterly frequency. Protect the smaller investors and retail investors--otherwise only big money will benefit and have the insider advantages.

Olivia Sullivan

Anonymous — Jun 18, 2026
Subject: Quarterly reporting From: Anonymous Affiliation: Jun. 18, 2026 Please don't change the reporting cycle to every six months. Doing so would keep us small time investors in the dark too long.

Subject: Comment on S7-2026-15 From: Anonymous Affiliation: Jun. 18, 2026 SEC: I am Carl

Virden. I am not a financial analyst or even a big investor. I am a retired carpenter who can barely get by on a pension and SS. I live in So Cal and have a small investment. I am counting on my investment to help my wife survive after I am gone. I do not want to see a return to the dark times of bi-annual reporting where I could lose a large portion of my investment. Bi-annual reporting obviously was not good for our country. Please don't take us backwards.

Carl Virden

Subject: S7-2026-15 Comment From: Anonymous Affiliation: Jun. 18, 2026 The public needs the same or increased frequency of SEC reporting, not less! Matching the FED's schedule would be preferable. The public is sick of the wealthy who don't produce anything
of value and just use other people's money to make themselves richer! L. Hyde, retired.

Subject: Comment on S7-2026-15 From: Anonymous Affiliation: Jun. 18, 2026 My name is Madison Furgurson, I am a licensed clinical social worker. I make just enough money to live paycheck to paycheck working for a public hospital. I rely on my investments to save for retirement, and I can't afford to lose whatever little bit I am able to put away. Quarterly reporting is necessary to protect helping professionals like myself so we can serve our community and save money to care for ourselves and our families. The SEC needs to make sure that this protection does not go away!

Subject: S7-2026-15 Comment From: Anonymous Affiliation: Jun. 18, 2026 The first word in your name is Securities. Apply the meaning to the people who have to live with and are most impacted by, your decisions, not just the convenience of the corporations. Your job is to protect us from them, not to support their worst inclinations as capitalists. Remember, you work for a government intended to be of, by, and FOR the people.

Subject: Comment on S7-2026-15 From: Anonymous Affiliation: Jun. 18, 2026 My name is Jakob Bohn, I’m a UX/UI developer in Virginia. I’m mid-career, yet to be a homeowner, and my savings and investments are very important to me. I feel the evidence strongly supports keeping quarterly reporting, as it is beneficial for all investors. It also demonstrates a strong and concerning correlation between our past period of semi-annual reporting as well as other countries who use this model as having a negative impact. With this in mind, I ask that the SEC does not change the reporting rules and keeps quarterly reporting in place.

Thank you,
Jakob Bohn

Anonymous — Jun 18, 2026
Subject: S7-2026-15 From: Anonymous Affiliation: Jun. 18, 2026 The rules are there for very good reasons. There is absolutely no reason to change them.

Subject: S7-2026-15 From: Anonymous Affiliation: Jun. 18, 2026 I think that the SEC continue to do quarterly reporting. It works why divided in half unless you're trying to hide something or protect dishonest CEOs. Don't the American people have enough to put up, with with billionaires controlling the economy and driving prices up beyond the reach of working people? Stop changing the laws to favor the rich.

Subject: S7-2026-15 Comment From: Anonymous Affiliation: Jun. 18, 2026 My name is Margaret Kaiser. I am retired and rely on my IRA and Social Security for living expenses. Because my IRA is invested in numerous public companies, I am asking that this proposal for semi-annual reports rather than quarterly reports not be implemented. The quarterly reports have been around for over 50 years. I understand that just because "that is how it has always been" does not necessarily mean it's the best way, but I also understand the concept of "if it isn't broke, don't fix it". Please take the concerns of millions of people into consideration before implementing this proposal.
